# ACCESS REGISTER

## Foreword

The *Access to Information Act* was passed in 1983, giving Canadian citizens and permanent residents of Canada the right, except in specific circumstances limited by law, to gain access to information about them held by the federal government.

The Access Register is updated and printed annually as required under the Act, to provide a current description of information held by federal government departments, agencies and Crown corporations. This material is presented in an organized and systematic way to help you identify the information you require, and simplify the process of gaining access to that information.

The 1985 Access Register is composed of alphabetically-organized chapters, one for each government department, agency or Crown corporation affected by the *Access to Information Act*. Each chapter contains information about the institution's organization, its programs and activities, and the classes of records it maintains.

A subject index at the beginning of the book provides an easy way to look up a subject and locate the correct chapter number in which the information may be found.

The numbering system for the classes of records has been revised in the 1985 Register, so a cross-reference table is

provided at the end of the book which lists the former identifiers (1984) and their new identification numbers. Where the class of record has not appeared in the Register before, no former identifier is given and the word "New" appears beside the title. Sometimes the word "Revised" appears here instead, to denote revisions to the description. Occasionally the letter "B" will be seen after the old identification number; this means that the class of record has been described in the *Bulletin*, published semi-annually to update information about new classes of records and personal information bank holdings.

Finally, those departments, agencies or Crown corporations not subject to the *Access to Information Act* but which maintain personal information under the *Privacy Act*, have been assigned a chapter number even though no material from the department is included in the Register. This ensures that chapter numbers in the Access Register are the same as those in the Index of Personal Information so that the two publications can be used together to help you access the information required.

It is hoped these revisions will make the Register more useful to those seeking information held by the federal government. Other suggestions on ways to improve access to such information are invited, and can be sent to

# I. INTRODUCTION

## General Information

### How is Information Stored?

Government records contain many different types of information, stored in many different ways. The information you seek may be in the form of reports, letters or memos, or stored on film, microfilm or in computer files. Records are grouped into classes according to the subject matter of the record. The information may also be found in policy or procedural manuals used to carry out the particular programs of a department, agency or Crown corporation.

### Information Which is Not Accessible

Certain types of information are exempt under the *Access to Information Act* and cannot be accessed. These include:

- (a) information damaging to the nation's security or its trade secrets;
- (b) information collected by non-federal institutions, such as provincial or municipal governments and by certain private institutions (e.g. banks and credit bureaus);
- (c) information already published, such as may be found in libraries, public affairs offices, museums and publicly accessible computer enquiry systems; and
- (d) material directly connected with the operation of Cabinet (e.g. Cabinet documents and minutes or records of decisions).

### Personal Information About Individuals

Personal information, for example an individual's employment history or immigration records, can be accessed by that individual and certain other parties under the *Privacy Act*. Personal information banks are described in the Index of Personal Information. Both the Access Register and the Index of Personal Information may be found in the following locations:

- public libraries,
- federal government libraries, departmental reading rooms, and other government offices open to the public,
- municipal offices or post offices in rural areas,
- university and college libraries,
- offices of each Indian Band, and
- offices serving Métis, non-status Indians, and Inuits.

## Locating the Information

### If you know the correct department agency or Crown corporation

Requests for information can often be made by simply calling, writing or visiting the department, agency or Crown corporation that has the information you require. If this does not produce results, write to the Access Co-ordinator of the

appropriate institution at the address given under Access Procedures at the beginning of each chapter.

Before contacting the Access Co-ordinator, consult the Register to locate the correct title and identification number of the class(es) of record(s) which contains the information you require.

### If you do not know the correct department, agency or Crown corporation

Use the subject index located near the front of the book if you do not know which department, agency or Crown corporation has the information you require. The major subjects of each class of record are listed alphabetically and are linked to the class of record identification number. The first three letters of this number are the identifier for the department, agency or Crown corporation. There is a list of these identifiers and the full title of the department, agency or Crown corporation to which they correspond at the beginning of the subject index.

### If you still cannot locate the information

Contact the Access Co-ordinator of the department, agency or Crown corporation you think *might* have the information and ask for assistance in locating the correct class(es) of record(s).

## Accessing the Information

A cheque or money order for \$5.00 (made payable to the Receiver General of Canada) must accompany all formal requests for information under the *Access to Information Act*.

First, use the Access Register to find the location of the information. Then, either using the Access to Information Request Form (found in the same display box as the Register) or on a plain sheet of paper, request the information you require. Use of the form will ensure that all necessary information is supplied to avoid delays in fulfilling your request. An example of how to fill out the form has been provided in the Register to assist you in supplying the necessary information. The form or written request should be sent to the Access Co-ordinator of the correct department, agency or Crown corporation, at the address given under the Access Procedures heading in the appropriate chapter. Please do not forget to enclose payment of \$5.00.

If a request for information should take longer than five hours to process there will be additional charges. There will also be a charge for computer time (if necessary) and copying fees. However, you will be notified and asked to authorize any additional costs that are necessary to fulfill your request.

Under the law, you should receive notice within 30 days either: responding to your request for information; notifying you that access will be given and that your request is being processed; or that access has been denied, either because the information does not exist or because it is exempt under specific provisions of the *Access to Information Act*.

### Finding the correct Class of Record

Each chapter in the Access Register contains information about a department, agency or Crown corporation as follows:

- Organization Chart (unless there are very few classes of records)
- Reference Information
- Access Procedures
- Descriptions of Branches, functions and programs
- Classes of Records
- Deleted Classes of Records (where applicable)

## Organization Charts

Most chapters begin with an organization chart which shows the organizational makeup of the department, agency or Crown corporation. Under the main branch headings can be found the titles and sequential numbers of the classes of records maintained by each. This chart is your key to finding the class of record you require.

The department, agency or Crown corporation has been given a unique three-letter identifier which can be found in the top box of the organization chart. For instance, the Canada Employment and Immigration Commission/Department of Employment and Immigration has the identifier “EIC”. In each of this department’s classes of records the identification number begins with EIC. The second set of three letters in the identification number refers to the branch; for instance, EMP for the Employment Services Branch. Thus, if you are looking for information concerning career counselling, you should scan the classes of records titles shown on the organizational chart, where you will find it listed under the Employment Services Branch, preceded by the number 450. By putting together the institution identifier (EIC), the branch identifier (EMP), and the number of the class of record, you arrive at the correct identification number for the class of record: EIC/EMP-450 Career Counselling. In the chapter section entitled “Classes of Records”, locate EIC/EMP-450 Career Counselling, where you will find a short description of the information this class of record contains, enabling you to verify if it is the information you require.

## Manuals and EDP Systems

A list of titles and a brief description of the manuals which a department or agency uses to establish its guidelines and procedures is provided when appropriate; the information you require may be contained in one of these. Or it may be contained in an EDP (electronic data processing) system — the major information systems and related data files used by a department, agency or Crown corporation to carry out its programs — which are also sometimes listed and described briefly.

## Standard Classes of Records

Some classes of records contain subject matter which is similar for each department, such as information on personnel, finance, purchasing property control, materiel management, etc. These Standard Classes of Records are described in the following pages rather than within each departmental chapter. You will be referred to these pages when a Standard Class of Record has been included on the organization chart.

## Complaint Procedures

If the response time to your request for information was too long; or the cost of obtaining the information was too high; or you feel you were wrongly denied access to the information you requested, complaints can be addressed to

The Office of the Information Commissioner  
Place de Ville, Tower B  
14th Floor, 112 Kent Street  
Ottawa, Ontario  
K1A 1H3

If the response from the Office of the Information Commissioner is not satisfactory, you may take the case to federal court within 45 days of receiving the Commissioner’s report.

Access to Information Act

## Access to Information Request Form

Use of this form will help speed your access to *records* under the Access to Information Act. Requests for federal government *information* can ordinarily be made by means of a telephone call, a visit, or a written request to the appropriate government information office. There is a fee of \$5.00 for making a formal request under the Access to Information Act.

**STEP 1: Decide exactly what information you want** — You can facilitate the search for records and reduce fees by defining as narrowly as you can the particular records you are looking for.

**STEP 2: Consult the Access Register** — The register contains descriptions of government records, their probable location and other information which will likely assist you in identifying the particular records you wish to see. A copy of the Access Register is available at major libraries, post offices, and government information offices.

**STEP 3: Ask for assistance if necessary** — If you are unable to identify the records you are looking for in the Access Register, contact the Access Co-ordinator of the appropriate department, either in person, by telephone or by letter at the address shown in the Register. The Co-ordinator will assist you in identifying the records.

**STEP 4: Complete this Request Form**, providing as many specific details as you can about the desired records, such as:

- subject, title and date;
- specific events, activities, individuals, corporations, products, reports, meetings, decisions, agreements, etc., of interest in the records;
- the number and title of the appropriate class of records, as listed in the Access Register.

**STEP 5: Send in the completed Request Form or written request with an application fee of \$5.00**, payable by money order or cheque to the Receiver General of Canada, to the appropriate officer identified in the Access Register. Unless you have already indicated what you are willing to pay for, you will be asked to authorize any fees that may be charged before the work is completed.

Federal Government Department, Agency or Crown Corporation

Identification number and title of class(es) of record(s) (see step 2)

Description of records and topics of interest (see step 4)

I wish to:

- ☐ Receive copies of the original ☐ Examine original in government office ☐ Other method (please specify)

## **II. STANDARD CLASSES OF RECORDS**

## Standard Classes of Records

---

The following section describes the subject matter of certain records which are common to most federal departments and agencies, such as personnel records, financial records, purchasing and property control records, materiel management and central services. Individuals seeking access to the Standard Classes of Records of a particular institution, should forward their access requests to the address given under the Access Procedures heading of the appropriate chapter.

901 *Formerly Identified as:* COM-83-10

### Administration

*Description:* Administration generally; accidents generally; motor vehicle accidents; agreements; appreciation; complaints and enquiries; associations, clubs and societies; audit, review and evaluation; badges, emblems and flags; bilingualism and biculturalism; cafeterias and eating facilities; campaigns and canvassing; ceremonies and celebrations; circulars, directives and orders; committees; conferences, meetings and symposia; corporations, companies and firms; emergency measures; inventions, patents and copyrights; licences and permits; parliamentary matters; plans and programs; reports and statistics; visits and tours.

902 *Formerly Identified as:* COM-83-20

### Acts and Legislation

*Description:* Acts and legislation — general, departmental, federal, foreign and provincial.

903 *Formerly Identified as:* COM-83-30

### Administrative and Management Services

*Description:* Administrative and management services generally; correspondence management; duplication services; electronic data processing; forms management; information services; legal services; library services; mail, messenger and postal services; management services; records management; security services; telecommunications; travel and transportation services; secretarial, typing and word processing services; translation services.

904 *Formerly Identified as:* COM-83-40

### Co-operation and Liaison

*Description:* Co-operation and liaison generally and at the federal, international, provincial, university, college and school levels.

905 *Formerly Identified as:* COM-83-50

### Buildings and Properties

*Description:* Buildings and properties generally; accommodation; accounting and inventories; planning and requirements; reports and statistics.

906 *Formerly Identified as:* COM-83-60

### Buildings

*Description:* Buildings generally; acquisition; alterations and repairs; construction; contracts; damages; disposal; fires and fire prevention; and maintenance.

907 *Formerly Identified as:* COM-83-70

### Lands

*Description:* Lands generally; acquisition; concessions; development; disposal; fencing; flood control; landscaping; parking areas; roads; streets and sidewalks.

908 *Formerly Identified as:* COM-83-80

### Utilities

*Description:* Utilities generally; air conditioning; electric power; water and sewage; garbage disposal; gas and oil; heating; lighting; plumbing and ventilation.

909 *Formerly Identified as:* COM-83-90

### Equipment and Supplies

*Description:* Equipment and supplies generally; accountability and inventories; catalogues; clothing; disposal and surplus; food; forms; fuels; laboratory; loans; maintenance and repairs; price lists and stationery.

910 *Formerly Identified as:* COM-83-100

### Furniture and Furnishings

*Description:* Furniture and furnishings generally; beds and bedding; chesterfields and sofas; drapes; filing cabinets; household and office furniture and furnishings; and pictures.

911 *Formerly Identified as:* COM-83-110

### Office Appliances

*Description:* Office appliances generally; calculators; data processing hardware; duplicating equipment; photographic and microfilming equipment; recorders and typewriters.

912 *Formerly Identified as:* COM-83-120

### Procurement

*Description:* Procurement generally; contracts; local purchase orders; procedures and regulations; requisitions and standing offer agreements.

913 *Formerly Identified as:* COM-83-130

### Vehicles

*Description:* Vehicles generally; air, land and water vehicles; insurance; maintenance and repairs; operating standards; registration and licences.

914 *Formerly Identified as:* COM-83-140

### Finance

*Description:* Finance generally; agreements and arrangements; allotments and transfers; allowances; banks and banking; cheques; claims; contracts; currency; encumbrances; expenditures; fees; funds; revolving funds and working capital advances; grants; signing authorities; taxes and travel allowances; and expenses.

915 *Formerly Identified as:* COM-83-150

### Accounts and Accounting

*Description:* Accounts and accounting generally; cash accounts; accounts payable; accounts receivable; and standing advances.

916 *Formerly Identified as:* COM-83-160

**Audits**

*Description:* Auditor General reports and internal audit reports.

917 *Formerly Identified as:* COM-83-170

**Budgets**

*Description:* Budgets generally; estimates and supplementary estimates; and program forecasts.

918 *Formerly Identified as:* COM-83-180

**Personnel**

*Description:* Personnel generally; accidents and injuries; appointments; attendance; awards and honours; Corps of Commissionaires; establishment; hours of work and overtime; leave and holidays; promotions and reclassifications; regulations and directives; reports and statistics; retirements; and separations.

919 *Formerly Identified as:* COM-83-190

**Classification of Positions**

*Description:* Classification generally; audits; category and group; individual positions; and standards.

920 *Formerly Identified as:* COM-83-200

**Employment and Staffing**

*Description:* Employment and staffing generally; applications; casual and term employees; competitions; programs; recruitment; requests for staffing action; and summer students.

921 *Formerly Identified as:* COM-83-210

**Human Resources**

*Description:* Human resources generally; career management; inventories; performance appraisal; reports and statistics; requirements and utilization.

922 *Formerly Identified as:* COM-83-220

**Occupational Health, Safety and Welfare**

*Description:* Occupational health, safety and welfare generally; counselling; health units; medical examinations; nursing services; recreation and sports; and surveys.

923 *Formerly Identified as:* COM-83-230

**Official Languages**

*Description:* Official languages generally; identification and designation of bilingual positions; language requirements program; recruitment; and replacements.

924 *Formerly Identified as:* COM-83-240

**Pensions and Insurance**

*Description:* Pensions and insurance generally; superannuation plans; Canada Pension Plan; Québec Pension Plan; reciprocal transfer agreements; federal, provincial and private hospital and medical insurance plans; death benefit plan; disability insurance and unemployment insurance plans.

925 *Formerly Identified as:* COM-83-250

**Salaries and Wages**

*Description:* Salaries and wages generally; acting pay; deductions; pay rates; pay system; performance and senior merit pay; regulations; salary revisions; and severance pay.

926 *Formerly Identified as:* COM-83-260

**Staff Relations**

*Description:* Staff relations generally; adjudication; bargaining agents; collective agreements and interpretations; discipline; grievances; managerial and confidential exclusions; and union relations.

927 *Formerly Identified as:* COM-83-270

**Training and Development**

*Description:* Training and development generally; attendance; course content; course evaluations; individual courses; language training; nominations; plans; schedules and directives; and types of courses.

# ADVISORY COUNCIL ON THE STATUS OF WOMEN

---

## Background

The Advisory Council on the Status of Women (CACSW) is composed of 30 members, appointed by the federal government, which brings before the government and the public, matters of interest and concern to women, and advises the Minister responsible for the Council on matters which the Minister may refer to the Council for its consideration, or which the Council may deem appropriate.

Historically, its roots lie in the Royal Commission on the Status of Women in Canada which was established in early 1967. The terms of reference of the Commission specified that the Council is "to ensure for women equal opportunities with men in all aspects of Canadian society." On September 28, 1970, the commissioners submitted their report which provided the government with 167 recommendations, of which 122 were within federal jurisdiction. Recommendation 166 stipulated "that a federal Status of Women Council ... be established." Accordingly, the Advisory Council on the Status of Women was established in 1973. Its members are appointed for specific terms, from all the provinces and territories. Council meetings are held at least twice a year, usually in the National Capital Region.

## Overall Responsibilities

In addressing itself to the concerns of all Canadian women, the 30 members of the Council focus on the particular problems of their regions. Research and background material provide the basis for Council recommendations which are made following deliberation by members at general meetings.

Recommendations for change in legislation and other measures to improve the status of women are presented to the government through the Minister responsible for the Status of Women. The Council has the unique right and responsibility to inform the public of its recommendations at the same time as it reports to Parliament. Council activities — briefs, speeches, responses to current events, open communication with the public — maintain an awareness of the inequalities facing women in Canadian society today.

## Organization

The Advisory Council on the Status of Women is composed of a president, two vice-presidents and 27 council members from across the country. The vice-presidents are responsible for specific regions, while the president retains overall responsibility for the operations of the Council. Regional and local offices are located in Vancouver, Montréal and Winnipeg. At the central office in Ottawa, three directors have specific responsibilities for research, communications and administration and, along with their staff, support ongoing Council activities across the country.

## Pensions

The CACSW clearinghouse on pensions was established in October 1981 in response to the need for Canadian women to be informed of the issues involved in the reform of Canada's pension system. The clearinghouse distributes pension information to women's groups, individuals and other interested organizations throughout Canada.

## Talent Bank

The Council has on file an inventory of qualified women across the country with expertise in all fields. Its purpose is to promote women in leadership roles in all areas of Canadian society.

## Major Publications

The Council has published numerous books, briefs and fact sheets since its inception in 1973 and maintains a stock on hand which is available, in most cases free of charge, to the public. The following is a sample of these publications, grouped under a number of issues of concern to women.

### Women's Political Status and Action

- Play From Strength: A Canadian Woman's Guide to Initiating Political Action; Penney Kome, 1983
- Women and Legal Action: Precedents, Resources and Strategies for the Future; E. Atcheson, M. Eberts and B. Synes, 1984

### Women and Work

- Microtechnology and Employment: Issues of Concern to Women; CACSW, 1982
- Better Day Care for Canadians: Options for Parents and Children; CACSW, 1982
- Current Issues for Women in the Federal Public Service; Julie White, 1983
- Fact Sheet: Women and Part-time Work, 1983
- Juggling a Family and a Job; CACSW, 1984

### Violence Against Women

- A Brief on Wife Battering with Proposals for Federal Action; CACSW, 1982

### Women and Health

- Fact Sheet: Reproductive Health Hazards at the Workplace, 1984

### Other Issues

- Fact Sheet: Homemaker Pension, 1985
- Fact Sheet: Women and Sport in Canada, 1983
- As Things Stand: Ten Years of Recommendations, 1983
- Love, Marriage and Money ... An Analysis of Financial Relations Between the Spouses; Louise Dulude, 1984
- Women and Microtechnology, 1985
- Prostitution in Canada; CACSW, 1984

### CACSW Publications Available from the Canadian Government Publishing Centre

- Fair Ball: Towards Sex Equality in Canadian Sport; M. Ann Hall and Dorothy A. Richardson, 1982
- Reproductive Hazards at Work: Men, Women and the Fertility Gamble; Nancy Miller Chenier, 1982
- A Working Majority: What Women Must Do For Pay; Pat and Hugh Armstrong, 1983
- Women and Part-Time Work; Julie White, 1983
- "What Will Tomorrow Bring?...": A Study of the Aspirations of Adolescent Women; Maureen Baker, 1985

Box 1541, Station B  
Ottawa, Canada  
K1P 5R5  
Telephone: (613) 992-4975

## President's Office

As spokesperson for the Advisory Council on the Status of Women, the president has the mandate to bring before the government and the public, matters of interest and concern to women and to advise the Minister on such matters relating to the status of women. As chief executive officer, the president is responsible and accountable for the management of the organization and its operational activities.

The president must initiate briefs and studies, attend conferences and seminars at all levels, maintain contact with the two vice-presidents and preside over Council meetings and the executive committee. The president represents CACSW at meetings of the joint committee of federal and provincial Councils and maintains contact with business leaders and government officials at all levels.

## Vice-Presidents' Offices

The two vice-presidents are called upon to advise the president on public matters of interest and concern to women and to co-ordinate the Council's activities in their respective areas of responsibility. The vice-president in Vancouver co-ordinates activities in the western

provinces and the territories, while the vice-president in Montréal co-ordinates activities in Québec and the Atlantic provinces.

## Research Division

This division determines priorities for research, through ongoing liaison with members and with other relevant research and policy groups inside and outside government. It initiates, oversees or performs research studies to inform members of the Council and the public, and also monitors and responds to government policy changes, presenting briefs as required.

## Classes of Records

---

ASW/RES-005 *Formerly Identified as:* CACSW-10

### General Social Issues

*Description:* Information on social issues of particular concern to women. *Topics:* Rights of Indian women; specific problems of immigrant women; sex stereotyping in advertising and the media; women in politics; one-parent families; women and aging; disabled women; planning resources for adolescent women.

ASW/RES-010 *Formerly Identified as:* CACSW-20

### Economic Situation of Women

*Description:* Information on women's economic position. *Topics:* Inequities in matrimonial property laws; inclusion of women in the Canada Pension Plan; taxation; private pensions; the contribution of women to different sectors of the economy.

ASW/RES-015 *Formerly Identified as:* CACSW-30

### Discrimination in the Workplace

*Description:* Information on obstacles to women's equal participation and advancement in the workforce. *Topics:* Application of the *Unemployment Insurance Act*; parental benefits; part-time work; re-entry into the work force; unions, occupational health hazards; sexual harassment; equal pay for work of equal value; affirmative action.

ASW/RES-020 *Formerly Identified as:* CACSW-40

### Concerns of Women at Home

*Description:* Information on issues of particular concern to women who choose to be homemakers. *Topics:* The role of homemakers; voluntarism; shared pensions; matrimonial property laws.

ASW/RES-025 *Formerly Identified as:* CACSW-50

### Justice

*Description:* Information on legal issues of particular concern to women. *Topics:* Battered women; sexual offences; female offenders; family court; divorce law reform; common-law relationships; prostitution; alimony and maintenance; human rights; the Constitution.

ASW/RES-030 *Formerly Identified as:* CACSW-60

### Government

*Description:* Information on employment of women in government and appointment of women to government bodies. *Topics:* Women in the Public Service; women in the armed forces; appointments to the Senate and judiciary; appointments to boards and commissions.

ASW/RES-035 *Formerly Identified as:* CASW-70

### Health Issues

*Description:* Information on women's health and their role in health care. *Topics:* Health services for women; women working in health care; birth planning; occupational health hazards.

## Background

In a country of the size and diversity of Canada, the services and programs related to agriculture are many and varied. Special needs arise from the variations in climate and soils and as a result of the federal system, which apportions responsibilities between the federal and provincial governments.

When the Department of Agriculture (Agriculture Canada) was established in 1867, the year of Confederation, it concentrated on the most urgent need at the time, which was the control of livestock diseases and the prevention of their entry into Canada. The formation of the Experimental Farms System followed in 1886 as a means of discovering the agricultural possibilities of various regions and helping farmers make the most of their resources. A Dairy Commissioner was appointed in 1890, and from that time the Department has expanded rapidly to keep pace with the growth of Canadian agriculture. Its personnel roster has grown from 27 in 1867 to about 10,000 today, and its services derive from 43 Acts of Parliament.

Today, the Department's responsibilities embrace most aspects of the agricultural industry. Agriculture Canada carries out research into the physical and economic problems of agriculture; inspects and grades farm products; and carries out programs aimed at keeping our crops and livestock safe from disease and insect pests. The Department enforces laws governing the sales of feed, fertilizers and pesticides; and assists farmers through measures such as price stabilization and crop insurance. It also provides consumer-oriented food advisory services and supervises race track betting. All Canadians, urban and rural, benefit directly or indirectly from the work of the Department.

## Laws and Regulations

The Minister of Agriculture is solely responsible to Parliament for the following legislation:

- Advance Payments for Crops Act
- Agricultural Products Board Act
- Agricultural Products Co-operative Marketing Act
- Agricultural Products Marketing Act
- Agricultural Stabilization Act
- Animal Disease and Protection Act
- Canadian Dairy Commission Act
- Cheese and Cheese Factory Improvement Act
- Cold Storage Act
- Crop Insurance Act
- Department of Agriculture Act
- Experimental Farm Stations Act
- Farm Credit Act
- Farm Improvement Loans Act
- Farm Products Marketing Agencies Act
- Farm Syndicates Credit Act
- Feeds Act
- Fertilizers Act
- Foot and Mouth Disease, Control and Extirpation Act
- Fruit, Vegetables and Honey Act
- Grain Futures Act
- Hay and Straw Inspection Act
- Humane Slaughter of Food Animals Act
- Inland Water Freight Rates Act
- Livestock and Livestock Products Act

- Livestock Feed Assistance Act
- Livestock Pedigree Act
- Meat and Canned Foods Act
- Meat Inspection Act
- Milk Test Act
- Pest Control Products Act
- Pesticide Residue Compensation Act
- Plant Quarantine Act
- Prairie Farm Assistance Act
- Seeds Act
- Wheat Co-operative Marketing Act

The Minister of Agriculture shares responsibility to Parliament for the following legislation:

- Canada Agricultural Products Standards Act (Minister of Consumer and Corporate Affairs)
- Canada Dairy Products Act (Minister of Consumer and Corporate Affairs)
- Canada Grain Act (Minister of Transport)
- Inspection and Sale Act (Minister of Consumer and Corporate Affairs)
- Maple Products Industry Act (Minister of Consumer and Corporate Affairs)
- Criminal Code, Section 188 (Minister of Justice and Attorney General of Canada)
- Western Grain Stabilization Act (Minister of Transport)

## Overall Responsibilities

The general objective of Agriculture Canada is to stimulate the development of the agri-food industry; to provide for a dependable and adequate supply of safe, high-quality, nutritious food for domestic and export trade at reasonable prices to consumers; and to ensure stable and equitable returns to producers and processors. Consequently, the Department is involved in grading and inspection, seed certification, regulations on pesticides and fertilizers, animal disease diagnostic and control programs, race track supervision, market development and forecasts, scientific research, international agricultural liaison and dissemination of information.

## FOOD PRODUCTION AND INSPECTION BRANCH

### Health of Animals Directorate

This directorate administers the *Animal Disease and Protection Act*. Its purpose is to maintain the country's livestock free from contagious and infectious disease by providing veterinary, regulatory and scientific services in order to increase the knowledge of animal disease, eradicate foreign animal diseases in the event of their entry into Canada, and reduce economic loss from diseases.

#### Manuals

- Manuals of Procedures Relating to the *Animal Disease and Protection Act* and Regulations

### Food Inspection Directorate

#### Livestock and Poultry Products Division

The division administers the *Canadian Agricultural Products Standards Act* and the *Livestock and Livestock Products Act* to ensure national standards for chick and poult production, and poultry and red meat products through a national grading and inspection program.

#### Manuals

- Livestock Grading Manual — guide to beef, pork, veal, lamb and sheep and their byproducts
- Manual of Hatchery Operations — requirements for the registration and inspection of premises, construction and equipment specifications, the survey of supply flocks, and sanitary conditions
- Shell Egg Inspection Manual — detailed guidelines on the registration and inspection of egg stations, inspection of eggs, requirements for the packaging of eggs and the labelling of egg containers
- Processed Egg Inspection Manual — guidelines on the registration and inspection of processed egg stations, inspection of processed eggs (frozen, liquid or dried), packaging of processed eggs, and labelling of processed egg containers
- Processed Poultry Inspection Manual — guidelines on the registration and inspection of poultry stations and producer premises, inspection, grading, packing and marking of processed poultry

### Dairy, Fruit and Vegetable Division

This division is concerned with the establishment, implementation and maintenance of standards concerning the quality, safety, wholesomeness, packaging and labelling of fresh and processed fruits and vegetables, dairy products, and certain other processed foods (honey and maple syrup).

#### Manuals

- Canadian Guidelines for Inspection of Dairy Plants — guidelines for items to be inspected and rated, and recommendations
- Laboratory Manual — Dairy Products — sampling and preparation of reagents and methodology for the testing of cheese, dry milk, evaporated milk and ice cream
- Grading Manual — Dairy Products — objective, purpose,

# DEPARTMENT OF AGRICULTURE

---

principles and procedures of the grading program; grading of butter, cheddar cheese and dry milk products

- **Inspection Manual — Dairy Products** — objective, scope and purpose of product inspection, sampling, detention policy and general procedures; inspection of butter, milk powders, cheeses, ice products, evaporated milk, warehouses, salmonella, containers program
- **Inspection Manual — Fresh Fruit and Vegetables**
- **Fresh Fruit Commodity Manual**
- **Fresh Vegetable Commodity Manual**
- **Inspector's Manual** — inspection details concerning fresh and processed fruit and vegetables, certification, fees, detention and release
- **Commodity Manual** — inspection procedures for fresh products, application of grades and standards
- **Specialty Cheese Manual** — description of the characteristics, composition standards, method of manufacture and labelling of the specialty cheeses made in Canada or imported in to Canada
- **Licensing and Arbitration Manual** — guidelines for the application for licences, the licensing of dealers, and the operation of the Board of Arbitration
- **Inspectors' Handbook — Processed Products**

## Laboratory Services Division

This division provides analytical testing services to those divisions and agencies of Agriculture Canada engaged in the enforcement of quality-assurance legislation and regulations for foods, feeds, fertilizers, pesticides and seeds.

### Manuals

- **Methods of Analysis for Skim Milk Powder**
- **Laboratory Procedures for the Control of Egg Products**
- **Journals and manuals of analytical testing procedures**
- **Microbiological Analysis of Frozen Vegetables**
- **Journal of the Association of Official Analytical Chemists**
- **Fertilizer Laboratory Methods Manual**
- **Laboratory Manual for Pesticide Residue Analysis in Agricultural Products**
- **Methods and Procedures for Testing Seed**

## Meat Hygiene Division

The division administers the *Meat Inspection Act* and Regulations as well as the *Humane Slaughter of Food Animals Act* and Regulations to ensure that meat, meat products and meat byproducts are wholesome and fit for human consumption, and that the slaughter is carried out in a humane fashion.

### Manuals

- **Meat Hygiene Manual of Procedures** — procedures for the inspection of registered meat slaughtering and processing plants, and storages; requirements for the construction and planning of slaughter-houses and meat-processing installations; list of registered meat packing establishments; list of materials, agents, compounds, paints, plant equipment acceptable for use in registered establishments, including the name and address of manufacturer and the date of acceptance of the product
- **Meat Inspection Act and Regulations** — regulations on the inspection of meat and meat products entering international and interprovincial trade

## Plant Health and Plant Products Directorate

### Seed Division

The division ensures the accurate representation of seed products in the market place and adequate supplies of good quality seed; and facilitates Canadian participation in the trade of seed and plant varieties.

#### Manuals

- **Inspection and Trade Memoranda** — contains regulations on quality control, inspection, production and use of seed
- **Inspectors' Training Guide** — guide to general procedures, identification of plant varieties and diseases
- **Regulations and Procedures for the Production of Pedigree Seed**

### Pesticides Division

This division ensures the safety and merit of pest control products through evaluation, registration and compliance programs under the authority of the *Pest Control Products Act*.

#### Manuals

- **Operating Manual** — describes the procedures relating to the control of the content, registration, classification, labelling and use of pesticides
- **Memoranda to Registrants and Trade Memoranda** — memoranda on current regulatory activities, general trade information, terminology, ingredient changes, registration standards

### Feed and Fertilizer Division

The division administers both the *Feeds Act* and Regulations and the *Fertilizer Act* and Regulations to ensure that livestock feeds and fertilizers are both safe and effective, and represented honestly in the marketplace. The division also administers the *Hay and Straw Inspection Act* and Regulations, to provide for hay inspection.

#### Manuals

- **Inspection and Trade Memoranda** — contains content and packaging standards for livestock feed and fertilizer, registration, quality control, and inspection regulations
- **Feed Inspection Manual**
- **Fertilizer Inspection Manual**

### Plant Health Division

The division administers the *Plant Quarantine Act* to protect the country's agricultural and forestry industries from the introduction and spread of foreign plant pests and to ensure that Canadian agricultural and forestry products destined for export comply with the entry requirements of the importing country.

#### Manuals

- **Plant Quarantine Directives, Act and Regulations**
- **Ship, Mill and Elevator Inspection Manual** — bilingual vocabulary of ships, mills, and elevators

### Race Track Division

This division ensures the protection of the pari-mutuel betting public associated with horse racing under Section 188 of the Criminal Code and aids in the development of a viable race track industry in Canada.

#### Manuals

- **Race Track Supervision Regulations** — deal with the supervision of

# DEPARTMENT OF AGRICULTURE

---

pari-mutuel betting, the possession and use of drugs at race tracks, and racing association facilities standards

- **Operational Manual (Race Track Supervision)** — operational guidelines for the division to aid in standardized enforcement and interpretation of policy and regulations
- **Race Track Officer Training Manual** — contains guidelines for race track supervision officers on the pari-mutuel betting system, race track equipment, departmental responsibilities and reporting procedures
- **Office consolidation of race track supervision regulations and amendments**

## RESEARCH BRANCH

The mandate of the Research Branch is to provide new knowledge and improved technology to ensure the efficient production of an adequate supply of safe and nutritious food, a stable and profitable agriculture and food industry, and a judicious use of natural resources essential to Canadian agriculture. The branch also provides support to other branches, departments and agencies in activities of national concern in the agricultural and food sector, and assistance to international research programs of less developed countries.

### Manuals

- **Plant Virus and Antiserum Bank** — describes viruses that cause damage to crops and plants
- **Manual for Describing Soils in the Field** — outlines the procedure for inputting soil and landform classifications data into a computer system
- **Canadian Agricultural Thesaurus** — contains terms for describing the work of the Research Branch, including names of bacteria, viruses, plants, names of domestic animals and chemical terminology (English and French)
- **Contracting Out of Science and Technology Procedures Manual**
- **Data System for Soils in Canada**

## MARKETING AND ECONOMICS BRANCH

### Market Development Directorate

#### Marketing Services Division

The division provides marketing expertise and information on agricultural commodities, deals with the extension of federal marketing powers to provincial marketing boards, provides funding assistance for market development projects, gives financial guarantees to co-operatives to facilitate the orderly marketing of produce, and guarantees repayment of advances to producer groups.

#### Food Advisory Division

The division provides information and advisory services to the government, consumers and the food service industry on food quality, nutrition, safety, buying and handling to promote the sale of Canadian agricultural products through improved consumer satisfaction.

### Manuals

- **Recipe Information Manual** — guide for converting conventional consumer recipes to metric and for converting quantity recipes to metric (for small institutions)

### Market Improvement Division

The division promotes increased use of Canadian food and agricultural products within the retail and food service industries; identifies opportunities and develops strategies to increase exports of Canadian agricultural and food products, equipment and services; and provides information and makes recommendations to improve the efficiency of co-operatives, other producer-controlled organizations and the intermediary services for exporters.

### Food Processing and Distribution Division

The division helps develop and implement policies and programs designed to improve the efficiency and effectiveness of Canada's agricultural processing, transportation and distribution systems.

## Market Analysis and Trade Policy Directorate

### International Trade Policy Division

This division provides the primary contact between the Department and other federal departments, provincial agencies, and producer and agri-business groups on matters concerning international trade policies related to the Canadian agricultural and food system. The division's work complements the market development activities of the Market Development Directorate of the Marketing and Economics Branch. It also takes the leading role in preparing position papers on agricultural trade policy issues and represents the Department in trade policy discussions.

### Commodity Markets Analysis Division

The division provides market intelligence and analysis of developments in the commodity markets for agricultural commodities (grain, oilseeds, fruits and vegetables, cattle, hogs, dairy products, eggs and poultry), develops and advises on government policy pertaining to these markets, and undertakes economic research to improve knowledge and understanding of the functioning of commodity markets.

### Food Market Analysis Division

This division provides economic analysis, market intelligence and policy advice on issues related to food prices, the transportation, handling, processing, retailing and purchasing of food, and regulations affecting the food system.

### Statistical Analysis Unit

The unit provides support to economists within certain branches of the Department through the collection, updating, manipulation and reporting of data related to agriculture.

### Manuals

- **AGSEC 5 — Guide to Data Coding Scheme** — explains the classification system for agricultural source data used for the Food and Agriculture Regional Model
- **Hog Stabilization Guide** — guide for the collection of data on hog prices and volume, to be used by commodity analysts to predict and calculate payments under the Hog Stabilization Program

## COMMUNICATIONS BRANCH

This branch disseminates agricultural and food information to farmers, agricultural advisers, agribusinesses, students and the

# DEPARTMENT OF AGRICULTURE

---

general public. It also advises the public about policies, programs and activities of the Department.

## Manuals

- Government Communications Guide

## OFFICE OF THE SENIOR ASSISTANT DEPUTY MINISTER

### Farm Income Services Branch

#### Western Grain Stabilization Administration

The Western Grain Stabilization Administration administers the *Western Grain Stabilization Act* by collecting producer levies, making subsidy payments to producers when necessary and maintaining a record of grain producers' transactions. All records are located at the Administration Office at 303 Main Street, Winnipeg, Manitoba.

#### Crop Insurance Division

This division works with provinces to develop and promote sound and acceptable self-help crop insurance programs for Canadian producers in order to increase producer protection in serious crop loss situations.

##### Manuals

- Crop Insurance Division — Guidelines and Procedures

#### International Affairs Directorate

The directorate is involved in policy development and liaison with international agricultural organizations. It acquires, analyzes and disseminates international agricultural intelligence; is involved in multilateral food aid through the World Food Program; and co-ordinates foreign agricultural bilateral relations.

#### Overseas Projects Secretariat

The secretariat provides liaison between the Department and other organizations for the purpose of developing and co-ordinating overseas food and agricultural projects.

#### Strategic Planning Directorate

The directorate supports senior management of the Department in developing corporate strategies.

#### Program Evaluation Division

This division supports senior management of the Department in evaluating programs.

## REGIONAL DEVELOPMENT BRANCH

### General Production Development Directorate

#### Crop Production Division

The division develops and administers programs to increase crop production efficiency through crop improvement, programs to develop new crops and programs of environmental management.

##### Manuals

- Administrative Procedures — for determining priorities under the fund

#### Animal Production Division

The division develops and administers programs aimed at increasing the efficiency of production and quality of animals and of ensuring the authenticity of animal identification and records. It administers the Canadian Record of Performance for Dairy Cattle program. It also acts to increase export sales of animals and animal products.

##### Manuals

- Records of Performance for Dairy Cows and Goats Enrolled
- Canadian Dairy Sire Appraisal — semi-annual reports
- Canadian Cow Indexes — semi-annual reports

#### Development Policy Directorate

#### Farm Finance and Resources Division

This division is responsible for the provision of the policy analysis, advice and economic intelligence on farm finance and resources required for the design and implementation of the Department's development policies and strategies, and for the administration of the *Farm Improvement Loans Act*.

##### Manuals

- Guidelines for Lenders — to assist lenders in the processing of loans under the *Farm Improvement Loans Act*
- Farm Improvement Loans Administration
- Farm Improvement Loans Manual — Amendment

#### Inputs and Technology Analysis Division

The division supplies economic advice and intelligence to support departmental policies and programs on purchased inputs and farming technology, notably energy research, development and initiatives to facilitate energy use adjustment.

#### Management Services Directorate

#### Management Services Division

The division provides co-ordination of all financial, administrative, personnel, operational, planning, and control functions emanating from the 13 responsibility centres in the Regional Development Branch.

## PRAIRIE FARM REHABILITATION ADMINISTRATION (PFRA) BRANCH

The Prairie Farm Rehabilitation Administration began in 1935. It provides ongoing programs and projects to conserve and develop the soil and water resources of Manitoba, Saskatchewan and Alberta. These activities are designed to develop and promote improved systems of farm practice, tree culture, water supply and land use that will result in greater economic security for residents of the areas. PFRA is also responsible for the administration of the Agricultural Service Centres program for the development of water supply and sewage disposal systems in selected prairie communities and the implementation aspects of the Canada-Manitoba and Canada-Saskatchewan Interim Subsidiary Agreements on Water for Regional Economic Expansion and Drought Proofing.

##### Manuals

- PFRA Policy and Procedure Manual
- Range Analysis Survey — Methods and Procedures
- Drafting Standards Manual

## DEPARTMENT OF AGRICULTURE

---

- Site Investigation — Evaluation and Design for Soil and Water Conservation Service Dams; PFRA Moose Jaw depot
- Precipitation and Evaporation Tables (1911-1981) — February 1982
- PFRA Survey Manual

### CANADIAN GRAIN COMMISSION

The Canadian Grain Commission administers the *Canada Grain Act* through the recommendation and implementation of grading standards for grain, the licensing of grain elevators, the inspection and weighing of grain, the economic and statistical monitoring of grain handling and storage systems, research into the quality of cereal grains and oilseeds, and supervision of grain futures exchanges.

#### Manuals

- Stored Grain Pests — describes the types of insects that infest grains and methods of pest control for stored grains
- Grain Grading Handbooks for Eastern Canada and for Western Canada — describe quality criteria for the grading of grains

### AGRICULTURAL PRODUCTS BOARD

The Agricultural Products Board serves to ensure a ready supply of food products for consumers, and help producers to achieve stable income through direct participation in the marketplace. The Board is empowered to buy, sell or import agricultural products, and to store, transport and process products under the provisions of the *Agricultural Products Board Act*.

### AGRICULTURAL STABILIZATION BOARD

The Agricultural Stabilization Board helps the agriculture industry to realize fair returns for its labour and investment by means of price support payments for agriculture commodities under the provisions of the *Agricultural Stabilization Act*.

### CANADIAN FORESTRY SERVICE

#### Policy, Planning and Economics Directorate

The Policy, Planning and Economics Directorate is responsible for the development of policies for forest renewal and related research and development, plus strategic and operational plans for the management of the program; for the provision of economic analyses of the forest sector and economic base information for the development of sound forestry policies and programs; for the maintenance of international relations and domestic relations with provincial governments, universities, and private sector organizations concerned with forestry; and for the promotion of sound forest industry development to encourage more efficient industrial utilization of Canada's forest resources and assist Canadian industry in identifying and capturing export market opportunities.

#### Research and Technical Services Directorate

The directorate administers the planning, co-ordination, evaluation and development of its programs, as well as Canadian Forestry Service research operations and technical services to ensure that a greater body of scientific and technical knowledge of the forest resource will contribute to the effective management, utilization and protection of Canada's forest resources. The directorate also provides scientific and technical advice plus financial support for research to groups and research associations, the forest industry, and other forestry related agencies to ensure maximum benefit to the Canadian public through forestry and forest land management.

### Classes of Records

---

DOA/FPI-005 *Formerly Identified as:* AGR-10

#### Pathology Services

*Description:* Diagnostic service and research activities related to animal diseases, consultation and licensing for use of biologics, veterinary and pest control products. *Topics:* Diseases (agents of disease, transmission to humans, economic loss due to disease); diagnostic activities; diagnostic reagents; registration consulting service; licensing and use of biologics, veterinary and pest control products.

DOA/FPI-010 *Formerly Identified as:* AGR-20

#### Humane Treatment of Animals

*Description:* Information on the prevention of stress-related diseases in animals and humane treatment of animals being transported within Canada or exported from Canada. *Topics:* Enquiries; reports; correspondence; transportation systems; stockyards; ports of entry; code of practice (poultry, veal and swine).

DOA/FPI-015 *Formerly Identified as:* AGR-30

#### Importation of Animals

*Description:* Information on the control of animal and bird imports to prevent animal disease from gaining entry into Canada. *Topics:* Veterinary inspection reports; quarantine station activity reports; Australian and European livestock importation programs; imports of game farm and zoological garden animals; imports of pets; feathers; skins, hides and wool; imports of birds; fertilizers; tankage; plant products; insects; others (tropical fish, amphibians, worms).

DOA/FPI-020 *Formerly Identified as:* AGR-40

#### Export Testing and Certification

*Description:* Information on the acceptability of Canadian animals and products for export by ensuring their being free of disease or disease-causing agents and by meeting the standards of importing countries. *Topics:* Species of animals; disease and disease-causing agents; import requirements of foreign countries; export testing programs and certification; facilitating export; export of birds; export of poultry; export of plants.

DOA/FPI-025 *Formerly Identified as:* AGR-50

#### Disease Control

*Description:* Information on the prevention, control and eradication of communicable and other diseases, and on compensation for related losses. *Topics:* Animal diseases — brucellosis, tuberculosis, salmonellosis and other indigenous diseases; foreign animal diseases; reportable diseases of animals and poultry; artificial insemination; veterinary biologics. *Storage Medium:* Machine-readable records are available on brucellosis survey arranged by herd at headquarters; also on herd serum banking and rabies control.

DOA/FPI-030 *Formerly Identified as:* AGR-60

#### Registration and Product Standards (Livestock and Poultry)

*Description:* Information on standards for the processing, grading and marking of egg and poultry products, red meat, and animal products (furs, wools). *Topics:* Sanitation and building standards; grading standards; poultry packaging and labelling; import and export requirements; animal products (furs and wools); policy development; consultation with industry; hog fat survey; egg quality data; egg solids. *Storage Medium:* The hog fat survey, egg quality data and egg solids files are machine readable.

DOA/FPI-035 *Formerly Identified as:* AGR-70

#### Grading and Monitoring

*Description:* Information on a national program for grading red meats, animal products, poultry and poultry products, and for inspecting and registering hatcheries, egg stations, and egg processing and poultry slaughtering plants. *Topics:* Grading red meat; grading

## DEPARTMENT OF AGRICULTURE

---

poultry and poultry products; egg and poultry processing stations; hatcheries (registration and inspection); laboratory analysis of egg products; training and development; import and export inspection; complaints; enforcement; policy development.

DOA/FPI-040 *Formerly Identified as:* AGR-80

### **Poultry Testing**

*Description:* Information on economic traits of egg production and chicken meat stocks at the central test stations. *Topics:* Egg production stocks; chicken broiler stocks; feed purchase; sale of eggs; production costs; random sample test results.

DOA/FPI-045 *Formerly Identified as:* AGR-90

### **Grading, Standards and Labelling (Dairy, Fruit and Vegetables)**

*Description:* Information on grading programs, quality standards and on the design and control of labelling requirements. *Topics:* Standards — dairy, fresh fruit and vegetables, processed fruit and vegetables, honey and maple products; grading of dairy products; monitoring the grading of fruit and vegetable products; label design and approval; packaging; weight and volumes; studies and surveys; policy development; consultation with governmental and non-governmental organizations.

DOA/FPI-050 *Formerly Identified as:* AGR-100

### **Registration, Licensing and Arbitration**

*Description:* Information on the registration of fruit and vegetable processing plants, dairy plants, and fresh produce warehouses; the licensing of dealers and brokers; and the arbitration of disputes. *Topics:* Registration of establishments — dairies; fruit and vegetable processing plants; fresh produce warehouses; licensing of dealers and brokers; suspension or cancellation of registration; list of registered processors; arbitration boards; complaints; policy development.

DOA/FPI-055 *Formerly Identified as:* AGR-110

### **Import, Export and Interprovincial Control**

*Description:* Information on the control and regulation of import, export and interprovincial movement of dairy, fresh and processed fruit, and vegetable products. *Topics:* Export certification; compliance to import regulations; concessions — processing and packaging; consultations — associations, government agencies (foreign and domestic); statistics; complaints; policy development.

DOA/FPI-060 *Formerly Identified as:* AGR-120

### **Inspection and Monitoring**

*Description:* Information on the inspection and monitoring of dairy, fruit, vegetable and certain other products; and on related establishments. *Topics:* Product inspection; establishment inspection; laboratory analysis; certificates of inspection; system auditing; consultation with governmental and non-governmental organizations; violations and prosecutions; inspection fees; complaints; compliance; policy development.

DOA/FPI-065 *Formerly Identified as:* AGR-130

### **Scientific Analysis**

*Description:* Information on analytical tests to ensure conformity with established quality-assurance standards for certain products and facilities. *Topics:* Requests for analysis; analytical reports; tests results; laboratory certification; sampling programs (quotas); provision standards; consultation with governmental and non-governmental organizations; methods of analysis; statistics. *Storage Medium:* Samples received and reported, tests outstanding, and certificates of analysis are machine readable. *Retrievability:* Files arranged either by laboratory number or by commodity, region, date and type of test. Certain files are kept in regional laboratories.

DOA/FPI-070 *Formerly Identified as:* AGR-140

### **Analytical Methodology Development**

*Description:* Information on analytical methodologies to support and enhance the quality of scientific analysis provided by the division. *Topics:* Methodology research proposals; assessment studies; establishment and dissemination of methodology; program review; analytical literature surveys; research reports; publications; laboratory certification verification; investigational sampling requests.

DOA/FPI-075 *Formerly Identified as:* AGR-150

### **Inspection and Monitoring (Meat Hygiene)**

*Description:* Information on the inspection and monitoring of food animals, meat, meat products and byproducts, and plant sanitation. *Topics:* Testing — toxicity, residues, contaminants; disease monitoring; complaint investigation; transport sanitation; inspection auditing; surveys; national and regional inspection — slaughterhouses, storage and processing facilities; stamping devices; policy development. *Storage Medium:* Files of statistics on weekly and monthly poultry kills, disease condemnations and establishment review are machine readable.

DOA/FPI-080 *Formerly Identified as:* AGR-160

### **Plant Registration**

*Description:* Information on the registration of slaughtering and processing plants. *Topics:* Construction specifications; equipment; use of non-food materials and agents; storage facilities; policy development.

DOA/FPI-085 *Formerly Identified as:* AGR-170

### **Standards and Labels**

*Description:* Information on the development of and compliance with standards and labels to ensure quality, nutritional value and safety of meat, meat products and byproducts. *Topics:* Label review on microfilm; approved Canadian and foreign labels (machine-readable list); packaging; food standards — formulas and preparation; additives; policy development.

DOA/FPI-090 *Formerly Identified as:* AGR-180

### **Export and Import**

*Description:* Information on the certification of Canadian meat products for export to comply with the requirements of foreign countries and on compliance of imported meat, meat products and byproducts with Canadian standards. *Topics:* Export certification; foreign requirement review; veterinary audit and registered Canadian facilities; statistics; policy development. *Storage Medium:* List of all approved products for import and export, and statistics on the import and export of meat are machine readable.

DOA/FPI-095 *Formerly Identified as:* AGR-190

### **Seed Projects**

*Description:* Information on the characteristics of seed varieties, foreign and domestic movement of seed, and availability of adequate supplies. *Topics:* Seed varieties; importation of seeds; exportation of seeds; statistics; contract multiplication; international liaison. *Storage Medium:* Seed inventory and seed sealing are machine readable.

DOA/FPI-100 *Formerly Identified as:* AGR-200

### **Inspection and Enforcement**

*Description:* Information on the inspection and enforcement of standards governing seed quality. *Topics:* Seed inspection; violations and detentions; crop inspection; grading; diseases; seed testing.

## DEPARTMENT OF AGRICULTURE

---

DOA/FPI-105 *Formerly Identified as:* AGR-210  
**Seed Standards**

*Description:* Information on the development of new or amended seed quality standards; packaging and labelling.

DOA/FPI-110 *Formerly Identified as:* AGR-220  
**Variety Evaluation and Licensing**

*Description:* Information on the evaluation of new varieties of seeds for the purpose of licensing. *Topics:* Licensing of seeds; list of licensed varieties (machine readable); unlicensed varieties.

DOA/FPI-115 *Formerly Identified as:* AGR-280  
**Inspection, Testing and Certification**

*Description:* Information on the inspection and testing of seed potatoes, and certification for domestic markets. *Topics:* Seed multiplication; seed potato improvement; inspection; enforcement; training programs; storage and transportation; testing (seed lots, field and post-harvest); inventory of varieties; assessment of varieties; complaint investigation (domestic); federal- provincial consultations.

DOA/FPI-120 *Formerly Identified as:* AGR-290  
**Standards and Specifications**

*Description:* Information on guidelines, specifications and standards on seed potatoes. *Topics:* Standards and labelling; laboratory facilities; transportation; storage; seed potato varieties; policy development.

DOA/FPI-125 *Formerly Identified as:* AGR-300  
**Import and Export (Seeds)**

*Description:* Information on the control of imports, export certification, and facilitation of seed potato trade. *Topics:* Phytosanitary agreements; facilitation of trade; import standards; export certification; complaint investigation (foreign); evaluation of foreign certification programs.

DOA/FPI-130 *Formerly Identified as:* AGR-230  
**Registration and Fees (Pesticides)**

*Description:* Information on the registration of pesticides under the *Pest Control Products Act*. *Topics:* Application for registration; specification forms; product labels; ingredient authorizations; registrant correspondence. *Retrievability:* Files arranged by registrant code and registration number.

DOA/FPI-135 *Formerly Identified as:* AGR-240  
**Ingredients in Pesticides**

*Description:* Information on the evaluation of pesticides to determine whether they will perform as claimed and on safe conditions for their use. *Topics:* Product chemistry; toxicology; metabolism; residues; environmental chemistry and toxicology. *Retrievability:* Files arranged by ingredient code.

DOA/FPI-140 *Formerly Identified as:* AGR-250  
**Inspection and Compliance**

*Description:* Information on the development, implementation and monitoring of a national field compliance program for registered pesticides. *Topics:* Monitoring; investigation; enforcement.

DOA/FPI-145 *Formerly Identified as:* AGR-260  
**Feed Evaluation, Registration and Compliance**

*Description:* Information on pre-sale evaluation of feed, registration of feed, and inspection of feed production and products to ensure compliance with regulatory requirements. *Topics:* Evaluation of feed; approval of single ingredients; correspondence; labelling; certificates of registration; product inspection; feedmill inspection; toxicity, residues and diseases; violations; hay and straw grading. *Storage Medium:* Feed database of registered products and listing of analytical results of feed samples are machine readable.

DOA/FPI-150 *Formerly Identified as:* AGR-270  
**Fertilizer Evaluation, Registration and Compliance**

*Description:* Information on pre-sale evaluation and registration of fertilizer and on inspection of fertilizer products to ensure compliance with regulatory requirements. *Topics:* Evaluating fertilizer; approval of single ingredients; correspondence; labelling; certificates of registration; product inspection and grading; toxicity residues and diseases; violations. *Storage Medium:* Listing of analytical results of fertilizer samples, Canadian fertilizer plant statistics and fertilizer database of registered products are machine readable.

DOA/FPI-155 *Formerly Identified as:* AGR-310  
**Import Program (Plants)**

*Description:* Information on the planning and maintenance of a national program to prevent the introduction and establishment in Canada of foreign plant pests detrimental to the Canadian agricultural and forestry industries. *Topics:* Import permits; port inspection statistics, commercial; port inspection statistics, non-commercial; quarantine and decontamination; importation of agricultural and forest products. *Storage Medium:* Airport inspection file is machine readable.

DOA/FPI-160 *Formerly Identified as:* AGR-320  
**Export Programs (Plants)**

*Description:* Information on the planning and maintenance of a national program to ensure the acceptance of Canadian agricultural and forestry products on export markets by being free of plant pests and by meeting standards of importing countries. *Topics:* Export agricultural and forestry products; ship, mill and elevator sanitation inspection; plant quarantine importation requirements of foreign countries; phytosanitary export certification; decontamination and quarantine.

DOA/FPI-165 *Formerly Identified as:* AGR-330  
**Domestic Programs**

*Description:* Information on the planning and maintenance of a national program designed to prevent the spread of pests within Canada and to survey for and control quarantine pests known to occur in Canada. *Topics:* Pest distribution (publications); decontamination and fumigation; pesticide application; interprovincial shipments.

DOA/FPI-170 *Formerly Identified as:* AGR-340  
**Biological Programs**

*Description:* Information on the identification of pests and on analysis of pest risk. *Topics:* Lists of intercepted pests; insects and plant diseases; surveys; pest identification; and analysis of pest risk.

DOA/FPI-175 *Formerly Identified as:* NO REFERENCE  
**Program and Management Services (New)**

*Description:* Information on the development and implementation of plant health programs in the areas of Human Resources Development (including Manual Development). *Topics:* Compensation, public awareness, consultation with client agencies, operational planning, program audit and control, and computer systems development.

DOA/FPI-180 *Formerly Identified as:* AGR-350  
**Pari-Mutuel Supervision**

*Description:* Information on the regulation and supervision of pari-mutuel betting on horse races. *Topics:* Daily pari-mutuel betting activities; pool distribution; investigation reports into alleged race fixing; betting dates; tests of totalizator equipment; race track facilities; racing commissions; conferences; betting systems; betting permits; security of bets and betting data; federal levy on wagering. *Retrievability:* Files arranged by racing event and date.

## DEPARTMENT OF AGRICULTURE

---

DOA/FPI-185 *Formerly Identified as:* AGR-360

### Race Surveillance

*Description:* Information on the surveillance of horse races. *Topics:* Daily supervision reports; photo finish service; race patrol service; drug control service; test inspectors' personal records. *Storage Media:* Film, videotapes and photographic print. *Retrievability:* Files arranged by racing event and date.

DOA/FPI-190 *Formerly Identified as:* AGR-370

### Surveillance Research

*Description:* Information on all aspects of research into race track surveillance. *Topics:* Diagnostic activities; drug detection; recording of races on film or video tape; effect of drug administration on horses. *Storage Media:* Film, videotapes and photographic prints. *Retrievability:* Files arranged by drug study.

DOA/RBR-195 *Formerly Identified as:* AGR-380

### Land Research

*Description:* Information on the maintenance, availability and better utilization of agricultural land to meet current and future agricultural and food production needs. *Topics:* Soil management and conservation (erosion problems, tillage, fertilizer use); soil composition (organic matter, mineral content, chemical analysis); soil mapping; land inventory (classification, surveys, mapping); soil and land evaluation. *Storage Medium:* Soil mapping is machine readable.

DOA/RBR-200 *Formerly Identified as:* AGR-390

### Water and Climate Research

*Description:* Information on the use of water resources and the effects of weather and climate on agricultural production. *Topics:* Irrigation, drainage, desalination, conservation; winter survival of crops, meteorological and climatic indices; crop development models (yield prediction through use of climatic indices); atmospheric carbon dioxide; meteorological records and data. *Storage Medium:* File on desalination, and meteorological records are machine readable.

DOA/RBR-205 *Formerly Identified as:* AGR-400

### Energy Research

*Description:* Information on the conservation, production, and efficient utilization of energy throughout the food production system. *Topics:* Production — alternate sources, alcohol production, fuel substitutes, converting farm waste and residues into energy, and solar energy; conservation — analysis of energy use, equipment and equipment management, production practices, buildings and storages, greenhouses and insulation; utilization — farm and community energy use.

DOA/RBR-210 *Formerly Identified as:* AGR-410

### Protection

*Description:* Information on the protection of animals and crops from diseases, insects and weeds, and on minimizing environmental degradation from agricultural practices. *Topics:* Plant disease organisms, insect pests, weed ecology, pesticides, chemical and biological control, integrated pest management, pollution studies — residues from animal and crop production, toxicology, environmental quality; waste management; pesticide management; plant nutrient studies.

DOA/RBR-215 *Formerly Identified as:* AGR-420

### Food Quality and Nutrition Research

*Description:* Information on the safety, quality and nutritive value of edible agricultural products. *Topics:* Food safety — toxicants and contaminants; food quality — food composition, nutrient availability, nutrition, monitoring and formulating food products.

DOA/RBR-220 *Formerly Identified as:* AGR-440

### Animal Production Development Research

*Description:* Information on the efficiency of production and the quality of animals in support of market development. *Topics:* Beef, dairy, swine, poultry, sheep, certain other animals, and honey bees; breeding; nutrition; management practices; physiology; feeding; protection; reproduction; behaviour; carcass grading.

DOA/RBR-225 *Formerly Identified as:* AGR-450

### Crop Production Development Research

*Description:* Information on the efficiency of production and quality of crops in support of market development. *Topics:* Wheat and other cereals; oilseed crops; forage crops; horticultural crops; field crops; breeding; physiology; management practices; protection.

DOA/RBR-230 *Formerly Identified as:* AGR-460

### Biological Resources and Scientific Support Services

*Description:* Information on the quantity, quality and location of Canada's biological resources, and on the scientific support services for research programs. *Topics:* Identification, classification and collections of vascular plants, insects, arachnids, nematodes, fungi and bacteria; plant gene collections; analytical chemistry; instrumentation, equipment and statistical design, analysis and interpretation.

DOA/RBR-235 *Formerly Identified as:* AGR-470

### Engineering Research

*Description:* Information on engineering technology developed and adopted for the efficient production, storage, processing and distribution of agricultural products. *Topics:* Farm building design and research; structural design; agricultural mechanization research and development. *Storage Medium:* Structural design on microfilm.

DOA/RBR-240 *Formerly Identified as:* AGR-480

### Food Processing and Distribution Research

*Description:* Information on increasing efficiency in the processing and distribution sectors through technological innovation and product improvement. *Topics:* Food processing (technological innovation, equipment and utilization); the development of new food products and ingredients; storage (physiology and storage conditions) data on meat quality evaluations. *Storage Medium:* Storage data on meat quality evaluations are machine readable.

DOA/RBR-245 *Formerly Identified as:* AGR-490

### Commonwealth Agricultural Liaison

*Description:* Information on liaison with the Commonwealth Agricultural Bureaux and the Commonwealth Science Council. *Topics:* Information Service — agricultural scientific information, journals and book reviews; identification service — identification of pests and plant diseases; and biocontrol services — pest evaluation, survey and review services related to the introduction of biological control agents.

DOA/RBR-250 *Formerly Identified as:* NO REFERENCE

### Biotechnology (New)

*Description:* Information on the assessment, development and utilization of basic and emerging technologies in support of agricultural research. *Topics:* DNA recombinant technology, tissue culture, protoplast fusion, single-cell protein production, nitrogen fixation and cytogenetics.

DOA/MAE-255 *Formerly Identified as:* AGR-500

### Administration of Acts and Funding Programs

*Description:* Information on provincial marketing board powers, loan guarantees, market development assistance projects and advance crop payments. *Topics:* Application for financial assistance (marketing boards, producer organizations, co-operatives); establishing commodity values; auditing; engineering check of storage specifications and plans; *Agricultural Products Marketing Act*;

## DEPARTMENT OF AGRICULTURE

*Agricultural Products Co-operative Marketing Act*, Financial Assistance Program for the construction of storage space for fruit and vegetables; Canadian Agricultural Market Development Initiatives; *Advance Payments for Crops Act*.

DOA/MAE-260 *Formerly Identified as:* AGR-510

### **Market Information Service**

*Description:* The quality, quantity, price, inventories, sale and movement of products. *Storage Medium:* Machine-readable files.

DOA/MAE-265 *Formerly Identified as:* AGR-520

### **Commodity Marketing**

*Description:* Information on marketing advice to government departments and the agri-food industry. *Topics:* Communication with industry organizations and government departments; commodity marketing — reports, statistics, enquiries, policy; marketing advice.

DOA/MAE-270 *Formerly Identified as:* AGR-530

### **Food Advisory Information**

*Description:* Information or advice to government departments, consumers and the food service industry on the promotion, nutrition, buying and handling of food. *Topics:* Consumer enquiries; energy conservation in food preparation; food preparation (home and industry); surveys and projects; buying and handling; nutrition.

DOA/MAE-275 *Formerly Identified as:* AGR-550

### **Foreign Markets Information**

*Description:* Information on the export of agricultural and food products, equipment and services. *Topics:* Commercial missions abroad; trade shows and exhibits; Canadian agricultural products; services to exporters; marketing research; country marketing environment reports; export marketing organizations; agricultural trade information program. *Retrievability:* Files arranged by product, country and number. *Storage Medium:* Agricultural trade information program on machine readable tapes.

DOA/MAE-280 *Formerly Identified as:* AGR-560

### **Co-operatives and Producer Organizations**

*Description:* Information on co-operatives and marketing boards. *Topics:* Briefings of government organizations; statistics (organization structure, trade, exports, financial); co-operatives; marketing boards. *Retrievability:* Files arranged by organization, commodity, province and number.

DOA/MAE-285 *Formerly Identified as:* AGR-570

### **Food Retailing Corporations in Canada**

*Description:* Information on food retailing corporations in Canada to improve markets for Canadian food products. *Topics:* Organizational structure; statistical profiles; marketing techniques; gross sales; number of outlets; subsidiary corporations.

DOA/MAE-290 *Formerly Identified as:* AGR-580

### **Processing**

*Description:* Information on the processing of Canadian food and agricultural commodities. *Topics:* Import replacement (by Canadian products); energy use; facilities; technological development.

DOA/MAE-295 *Formerly Identified as:* AGR-590

### **Distribution and Transportation**

*Description:* Information on the distribution and transportation of Canadian food and agricultural commodities. *Topics:* Transportation problems — air, truck, rail, ship; containers for transportation purposes (availability and suitability).

DOA/MAE-300 *Formerly Identified as:* AGR-600

### **Preparation of Briefing Papers**

*Description:* Briefing papers on various agriculture-related trade policy questions for use by the Minister and senior officials of the Department. *Topics:* Import quotas; tariff changes; bilateral trade

agreement negotiations; relations with less developed countries; food security; food reserves; other trade-related topics.

DOA/MAE-305 *Formerly Identified as:* AGR-610

### **Compilation, Analysis and Dissemination of Trade Statistics**

*Description:* Agricultural trade statistics derived from original data published by Statistics Canada. *Topics:* Canadian agricultural exports (by commodity and receiving country); Canadian agricultural imports (by commodity and source country); trade statistics. *Storage Medium:* Trade statistics are machine readable and available on microfiche.

DOA/MAE-310 *Formerly Identified as:* AGR-620

### **Economic Research on Commodity Markets and Agricultural Market Forecasting**

*Description:* Information on the supplies, consumption, inventories, trade and prices of the major agricultural commodities produced in Canada and on the analysis of factors influencing the behaviour of markets for these commodities. *Topics:* Dairy and dairy products; livestock and livestock products; poultry and poultry products; fruit, vegetables, honey and maple products; special crops; grains, oilseeds and fodder crop. *Storage Medium:* Statistics on commodity prices, marketings, stocks, imports, exports, production and disposition are machine readable.

DOA/MAE-315 *Formerly Identified as:* AGR-630

### **Agricultural Policy Issues**

*Description:* Information on economic factors related to the supply, demand and pricing of agricultural commodities and on the development and analysis of economic policy alternatives for the government. *Topics:* Dairy and dairy products; livestock and livestock products; poultry and poultry products; fruit, vegetables, honey and maple products; special crops; grain and feed land policy development.

DOA/MAE-320 *Formerly Identified as:* AGR-640

### **Market Intelligence**

*Description:* Market analyses on the purchasing, processing and distribution of food. *Topics:* Food prices; food expenditures (consumer spending); processing and retailing. *Storage Medium:* Food prices, pricing forecast model and food consumption are machine readable.

DOA/MAE-325 *Formerly Identified as:* AGR-650

### **Food Policy and Research**

*Description:* Economic studies and policy advice on food markets. *Topics:* Food prices; processing and retailing, transportation and handling; food demand and consumption; foreign ownership; regulations.

DOA/MAE-330 *Formerly Identified as:* AGR-660

### **Agriculture-Related Data**

*Description:* Economic data related to agriculture. *Topics:* Market commentaries (annual and monthly time series); monthly and annual trade data (prices and quantities); source data for Food and Agriculture Regional Model and the hog, slaughter cattle and cow/calf stabilization models (monthly, quarterly and annual time series); miscellaneous economic data on agriculture and food. *Retrievability:* Files arranged by AGSEC code or commodity (marketing and trade coding system).

DOA/COM-335 *Formerly Identified as:* AGR-940

### **Programs**

*Description:* Information on the Department's work disseminated through the press, radio, television, films, exhibits and displays and on agriculture-related information provided to the public upon request. *Topics:* News media services; radio tapes; short films and television; photography; exhibits and displays; public relations. *Storage Media:* Radio tapes, films and photographs.

## DEPARTMENT OF AGRICULTURE

DOA/COM-340 *Formerly Identified as:* AGR-950

### **Operations**

*Description:* Departmental publications (books, brochures, pamphlets) and periodicals; materials to provide guidance and assistance to regional information officers; *Topics:* Books, brochures, pamphlets, periodicals, graphic designs.

DOA/SDM-345 *Formerly Identified as:* AGR-960

### **Producer Account Maintenance**

*Description:* Information on transactions between grain buyers and producers under the provisions of the *Western Grain Stabilization Act*. *Topics:* Date of transaction; grade of grain; purchaser (name and location); quantity delivered; revenue paid; kind of grain. *Retrievability:* Files arranged by Canadian Wheat Board permit number.

DOA/SDM-350 *Formerly Identified as:* AGR-970

### **Stabilization Payments and Levies**

*Description:* Information on stabilization payments to grain producers and levies on grain sold. *Retrievability:* Files arranged by Canadian Wheat Board permit number.

DOA/SDM-355 *Formerly Identified as:* AGR-980

### **Crop Insurance Program**

*Description:* Information on federal assistance to provincially operated crop insurance programs that provide producers with income stability against specific crop loss risks. *Topics:* Federal-provincial agreements under the *Crop Insurance Act*; federal contributions to the provinces; annual report for the Minister under the *Crop Insurance Act*; provincial crop insurance program proposals, statistical reports, crop insurance annual reports and crop condition reports; audit reports; foreign crop insurance information.

DOA/SDM-360 *Formerly Identified as:* AGR-990

### **Relief Assistance Programs**

*Description:* Information on crop loss assistance programs that cover emergency situations not provided for under ongoing crop insurance programs. *Topics:* Federal-provincial agreements; crop loss assistance program details; federal contributions to programs; soil moisture and crop condition reports; audit reports.

DOA/SDM-365 *Formerly Identified as:* AGR-1000

### **Waterfowl Crop Damage Compensation Program**

*Description:* Information on compensation for individual producers in Manitoba, Saskatchewan and Alberta who have suffered serious waterfowl crop loss damage. *Topics:* Federal-provincial agreements; federal contributions; the Crop Damage Prevention Program and policies; program studies; waterfowl crop damage compensation policies; program audit reports.

DOA/SDM-370 *Formerly Identified as:* AGR-1010

### **Prairie Farm Assistance**

*Description:* Information on assistance to farmers in the western wheat area in the event of a district crop failure. *Topics:* *Prairie Farm Assistance Act*, 1939; claims and payments; program phase-out 1973-74; repeal of the Act, 1979; annual reports. *Special Access Note:* Operational records now stored at Public Archives in Winnipeg; administrative and policy records stored at headquarters.

DOA/SDM-375 *Formerly Identified as:* AGR-790

### **International Liaison**

*Description:* Information on liaison with international organizations, international agricultural intelligence and bilateral relations with foreign countries, including visits and missions. *Topics:* Food and Agriculture Organization (FAO); World Food Program; World Food Council; Inter-American Institute for Agricultural Co-operation (IICA); OECD Committee for Agriculture; Memoranda of Understanding on Agricultural Co-operation; foreign visits; agricultural missions.

DOA/SDM-380 *Formerly Identified as:* AGR-880

### **Industry and Non-governmental Organization Liaison**

*Description:* Identification of and profiles on major national and international non-governmental organizations (NGOs); liaison with major NGOs; establishing contacts and attending meetings with representatives of these NGOs. *Topics:* Provincial, national and international NGOs; conferences and meetings; government liaison — NGOs.

DOA/SDM-385 *Formerly Identified as:* AGR-900

### **Civil Emergency Planning**

*Description:* Information on preparedness plans to ensure adequate inspection and regulation of agricultural products and services in the event of a national emergency. *Topics:* Liaison in emergency planning matters with Privy Council Office and Emergency Planning Canada, other federal departments, provincial departments of agriculture, U.S. Department of Agriculture and NATO; orientation training in Agricultural Emergency Planning.

DOA/SDM-390 *Formerly Identified as:* AGR-800

### **International Agricultural Projects (CIDA)**

*Description:* Information on certain food and agricultural projects in developing countries in conjunction with the programs of the Canadian International Development Agency (CIDA). *Topics:* Project descriptions; reports; administration guidelines.

DOA/SDM-395 *Formerly Identified as:* AGR-810

### **International Agricultural Assignments**

*Description:* Information on the staffing of overseas agricultural projects carried out by Agriculture Canada, CIDA and various international agencies. *Topics:* International agency job vacancy notices (Food and Agriculture Organization, WEP, OECD, etc.); roster of individuals interested in international assignments; international vacancy notices — CIDA projects.

DOA/SDM-400 *Formerly Identified as:* AGR-820

### **Technical Assistance**

*Description:* Information on departmental policy in reference to technical assistance abroad in the agricultural sector. *Topics:* Technical assistance; international agricultural issues (e.g., North-South dialogue); industrial co-operation.

DOA/SDM-405 *Formerly Identified as:* AGR-910

### **World Food Day Secretariat**

*Description:* Information on the co-ordination of Canada's observance of World Food Day, including participation from the provinces and other federal departments as well as other organizations concerned to ensure secure food supplies for food-deficient countries. *Topics:* Meetings — National World Food Day Steering Committee, World Food Day Co-ordinating Committee and Information Working Groups; World Food Day poster, logo, theme initiatives.

DOA/SDM-410 *Formerly Identified as:* AGR-930

### **Strategic Planning**

*Description:* Information on strategic issues and challenges facing the agri-food system and the Department.

DOA/SDM-415 *Formerly Identified as:* AGR-920

### **Program Evaluation**

*Description:* Information on the evaluation of departmental programs. *Topics:* Description and objective; analysis of effectiveness.

DOA/RDB-420 *Formerly Identified as:* AGR-670

### **Crop Production Improvement**

*Description:* Information on the improvement of crop production efficiency and quality of crops. *Topics:* Program planning; weather and climate studies; federal-provincial programs; development assistance programs; crop production planning and programs; weed and pest control (e.g., wild oats); production constraint identification;

## DEPARTMENT OF AGRICULTURE

---

advisory services — liaison with governmental and non-governmental organizations; land and water resources studies; cost of production studies.

**DOA/RDB-425 Formerly Identified as: AGR-680**  
**New Crop Development**

*Description:* Information on the development and adaptation of new crop varieties and production practices. *Topics:* Evaluation of new varieties; economic and physical feasibility; field trials and demonstrations; financial assistance to project sponsors (e.g., administration of New Crop Development Fund).

**DOA/RDB-430 Formerly Identified as: AGR-690**  
**Records of Performance (Livestock)**

*Description:* Information on recording and evaluation systems to promote production, efficiency and quality. *Topics:* Breeders; genetic improvement; dairy production; livestock growth rate, reproductive performance.

**DOA/RDB-435 Formerly Identified as: AGR-700**  
**Showcase Herd Maintenance**

*Description:* Information on a showcase herd of beef and dairy cattle, sheep and swine maintained to demonstrate to the Canadian public and potential foreign livestock buyers and visitors the quality and genetic potential of Canadian livestock. *Topics:* Production tested under the National Record of Performance Programs and type-classification for dairy and beef cattle; technical information for promotional purposes for all livestock species; foreign exhibition promotional program for livestock.

**DOA/RDB-440 Formerly Identified as: AGR-710**  
**Sire Loan Programs**

*Description:* Information on financial and professional support for the identification, promotion and improvement of genetically superior breeding stock through the loan of superior sires. *Topics:* Procurement of sires; loan arrangements; guidance and advice — breeding, feeding and management of livestock, progress evaluation; breeder associations.

**DOA/RDB-445 Formerly Identified as: AGR-720**  
**Fairs Program**

*Description:* Information on the promotion, improvement and identification of genetically superior breeding stock. *Topics:* Financial and professional support; livestock classification.

**DOA/RDB-450 Formerly Identified as: AGR-730**  
**4-H Programs**

*Description:* Information on financial and professional support for the development of Canadian youth interest in agriculture through 4-H clubs. *Topics:* Shared-cost agreements; grants; public relations; club program monitoring.

**DOA/RDB-455 Formerly Identified as: AGR-740**  
**Authentication of Purebred Livestock**

*Description:* Information on financial and professional support for the identification, promotion and improvement of genetically superior breeding stock through the authentication of purebred livestock. *Topics:* Livestock registration authentication; livestock associations; *Livestock Pedigree Act*.

**DOA/RDB-460 Formerly Identified as: AGR-750**  
**Stockyard Administration**

*Description:* Information on efforts to ensure that users of designated stockyards receive or pay a price that reflects the demand for the class of livestock traded on any given day. *Topics:* Stockyard registrations; shippers, trust accounts; *Livestock and Livestock Products Act*; supervision of auction marts; consultation with industry; buyers and sellers; Dealer's Bonds.

**DOA/RDB-465 Formerly Identified as: AGR-760**  
**Farm Improvement Loans**

*Description:* Information on the administration of the *Farm Improvement Loans Act* to assist in meeting the credit needs of Canadian farmers. *Topics:* Loan program management — reports, claims, remittances; guidelines; policy; borrower default analysis. *Retrievability:* Reports of loans made are filed by borrower and lending period. *Storage Medium:* Reports are machine readable.

**DOA/RDB-470 Formerly Identified as: AGR-770**  
**Farm Business Management**

*Description:* Information on advice and expertise to improve farm business practices and production management. *Topics:* Project identification and evaluation; production cost data; managerial and financial systems; information catalogues; technology transfer programs; production management.

**DOA/RDB-475 Formerly Identified as: AGR-780**  
**Feed Freight Assistance Adjustment Fund**

*Description:* Information on the Feed Freight Assistance Adjustment Funds in Ontario, Quebec and British Columbia. *Topics:* Contracts; claims; project monitoring — control and evaluation.

**DOA/RDB-480 Formerly Identified as: AGR-840**  
**Agricultural Development Analysis and Co-ordination**

*Description:* Information on a coherent national framework for agricultural development with specific reference to market orientation, research projects, and technology transfer. *Topics:* Provincial reviews (agricultural profiles); research program evaluation; transfer of technology; market development; economic and social statistics; Agricultural Development Subsidiary Agreements; program and project assessments. *Retrievability:* Files arranged by subject, program and year.

**DOA/RDB-485 Formerly Identified as: AGR-850**  
**Agricultural Development Policy and Analysis**

*Description:* Policy-oriented analyses of agricultural development issues. *Topics:* Farm costs and incomes; agricultural stabilization; development strategy; energy in agriculture; farm labour programs; land-use policy; farm credit policy; agricultural taxation.

**DOA/RDB-490 Formerly Identified as: AGR-860**  
**Economic Intelligence**

*Description:* Economic intelligence on agricultural production and inputs. *Topics:* Farm input prices; farm costs and incomes.

**DOA/RDB-495 Formerly Identified as: AGR-870**  
**Regional Offices — Regional Development Branch**

*Description:* Information on federal-provincial ministerial and deputy ministerial conferences, preparation of briefing books for these conferences; and reports and briefs on agricultural issues of concern in the provinces. *Topics:* Provincial policy, programs and issues; liaison activities, including conferences; subagreements.

**DOA/RDB-500 Formerly Identified as: AGR-890**  
**Status of Women — Assistant Deputy Minister's Office**

*Description:* Information on status of women activities related to agriculture (rural and agricultural) in Canada and abroad. *Topics:* Government policy; National Plan of Action; world programs; convention on the elimination of all forms of discrimination; rural issues; conferences, workshops and liaison activities.

**DOA/PFA-505 Formerly Identified as: AGR-1020**  
**Agricultural Service Centres Agreements (ASCA) Program**

*Description:* Information relating to the provision of financial and technical assistance for the construction of municipal water and sewer facilities in designated communities in the prairie provinces. *Topics:* Policy; agreements; financial planning; implementation committee; loan amortization reports; individual project files; individual service,

## DEPARTMENT OF AGRICULTURE

supply and construction contract file related to each individual project file.

DOA/PFA-510 *Formerly Identified as:* AGR-1030

### **Land-Use Program — Community Pastures**

*Description:* Information relating to the operation and administration of PFRA community pastures, the conservation of land resources, the reduction of the impact of drought, the stabilization of western beef breeding herds, the improvement in the quality of beef cattle and the provision of supplemental grazing for farmers. *Topics:* Pasture agreements; agreements; community pastures on Indian reserves and in the Northwest Territories; cattle brands; pasture breeding services; wildlife control; control of pests by the application of pesticides and herbicides; animal health; land purchase program; pasture improvements; ecology and preservation of grasslands; land development program; dugout excavation and dugout enlargement; grazing applications and allotment notices; individual service, supply and construction contract files related to each individual project file.

DOA/PFA-515 *Formerly Identified as:* AGR-1040

### **Water Development Program**

*Description:* Information relating to the provision of financial and technical assistance to individuals and communities for the development of water and land resources; the establishment of on-farm and community water supplies, including dugouts, stockwatering dams and irrigation schemes as well as farm wells; and the provision and distribution of tree seedlings and cuttings to farmers and government agencies. *Topics:* Community Wells Program, agreements; dugouts and small dams; irrigation; submissions for community projects; farm well program; individual project files; applications for water development grants.

DOA/PFA-520 *Formerly Identified as:* AGR-1050

### **Engineering Services Projects**

*Description:* Information relating to the investigation, planning, design, construction and maintenance of various works pertaining to water development, irrigation and infrastructure programs in the prairie provinces; and the provision of technical assistance to other federal departments and provincial governments with respect to water resource planning and management. *Topics:* Agreements; Community Wells Program; irrigation; drainage and flood control; dam maintenance; engineering assistance; safety inspection and investigation; individual project files; individual service, supply and construction contracts related to each individual project file.

DOA/PFA-525 *Formerly Identified as:* AGR-1060

### **South Saskatchewan River Project**

*Description:* Information on the construction, operation and maintenance of the Gardiner and Qu'Appelle River Dams forming Lake Diefenbaker in accordance with an agreement between Canada and Saskatchewan dated July 25, 1958. *Topics:* Policy; agreement; damage claims and adjustments; educational arrangements; photography; publicity; inaugural ceremonies; water analysis; buildings and lands; equipment; finances; personnel; development boards; contracts; dams and reservoirs; irrigation; power facilities; recreational facilities; reports on climate, economics, engineering, power, soils and recreational features.

DOA/PFA-530 *Formerly Identified as:* AGR-1070

### **South-West Saskatchewan Irrigation Projects**

*Description:* Information on the construction of twenty-seven water storage reservoir and six irrigation projects in southwest Saskatchewan. Four of the reservoirs have been turned over to the province while the remainder continue to be maintained and operated by PFRA. The irrigation projects are located at Consul, Eastend, Maple Creek, Rush Lake, Val Marie and West Val Marie. *Topics:* Assignments and agreements for sale of land; letters patent; drainage; leases; application for land; spring runoff records; land levelling;

letters to debtors; individual project files; individual construction contract files related to the project files.

DOA/PFA-535 *Formerly Identified as:* AGR-1080

### **Alberta Irrigation Rehabilitation Program**

*Description:* Information on the Alberta Irrigation Rehabilitation Agreement of 1973 providing for the transfer to Alberta of Canada's interest in the St. Mary and Bow River irrigation projects and for financial contributions by Canada for the rehabilitation of irrigation works in Alberta. *Topics:* Implementation Board; agreements; finance; drainage; irrigable areas; land; individual project files; individual service, supply and construction contracts related to each individual project file.

DOA/PFA-540 *Formerly Identified as:* AGR-1090

### **Assiniboine River Diking Program**

*Description:* Information relating to the construction of a system consisting of about 160 km of dikes to control flooding along the Assiniboine River between Portage la Prairie and Winnipeg and the operation and maintenance of these dikes. *Topics:* Advisory Board agendas and minutes of meetings; Property and Land Committee of the Advisory Board; Saskatchewan Lands Tripartite Committee of the Advisory Board; Cost Sharing Committee of the Advisory Board; land; individual service, supply and construction contract files.

DOA/PFA-545 *Formerly Identified as:* AGR-1100

### **Demonstration Farm**

*Description:* Information relating to the operation of the Demonstration Farm at Outlook, Saskatchewan, which is a focal point within the South Saskatchewan River Irrigation Project and where management techniques can be evaluated for a wide range of new and established crops. It provides specialized information to the agricultural industry on irrigation, drainage, special crops, fertilizers, weed control and special equipment. *Topics:* Vegetable Project Committee; reports on various crops; land.

DOA/PFA-550 *Formerly Identified as:* AGR-1110

### **Tree Nursery Program**

*Description:* Information relating to the operation of the Tree Nursery at Indian Head, Saskatchewan, established in 1902 by the Department of the Interior and transferred to PFRA in 1963. The program involves the production and distribution of tree seedlings for farmstead and field shelterbelt plantings throughout the prairie provinces. *Topics:* Water supply; roads and utilities; irrigation; buildings; landscaping; domestic water agreement with the Town of Indian Heads Land; shelterbelts; tree distribution policy.

DOA/PFA-555 *Formerly Identified as:* AGR-1120

### **Interim Subsidiary Agreements (ISA)**

*Description:* Information relating to the provision of financial and technical assistance for drought proofing and sensitivity studies, investigation and implementation of water supply projects, and flood damage reduction studies in Manitoba and Saskatchewan. *Topics:* Policy; agreements; finance; boards and committees; individual project files; individual service, supply and construction contract files related to each individual project.

DOA/PFA-560 *Formerly Identified as:* AGR-1130

### **Soil Conservation Programs**

*Description:* Information relating to the analyses and discussions of land degradation issues on the Canadian prairies, together with activities established to deal with such problems at the farm level. *Topics:* Pilot project reports; soil conservation committees; Dryland Salinity Control Association; individual project files; letters to government agencies and farm organizations; conservation workshops.

## DEPARTMENT OF AGRICULTURE

DOA/CGC-565 *Formerly Identified as:* CGC-10

### **Grain Inspection Operations**

*Description:* Information on the inspection and grading of samples of grain and grain screenings obtained by Commission employees or submitted by members of the grain industry under the *Canada Grain Act* or *Canada Grain Regulations*. *Topics:* Grades of samples submitted; grades of terminal elevator receipts; special treatment of grain in terminal elevators; elevator inspections and infestation control; grain shipments from terminal and transfer elevators; primary and export standard samples; reinspections. *Special Access Note:* The files are located in Winnipeg and in district offices.

DOA/CGC-570 *Formerly Identified as:* CGC-20

### **Economics and Statistics Operations**

*Description:* Economic and statistical information on grain handling and storage, the auditing of elevator operations, and the control of licensing and insuring of elevators under the *Canada Grain Act*. *Topics:* Grain handling and storage statistics for licensed elevators; audits of operations of terminal and transfer elevators; licensing of elevators, insurance and guarantee bond; grain inspected and weighed at terminal elevators; individual grain transactions at terminal elevators; prices received by western producers; policy analysis and recommendations. *Special Access Note:* Records are located in Winnipeg.

DOA/CGC-575 *Formerly Identified as:* CGC-30

### **Grain Research**

*Description:* Information on the quality of cereal grains and oilseeds. *Topics:* Enquiries, consultations, advice and reports; quality assessment of new crops; grain cargo composite monitoring; evaluation of new varieties; protein testing; scientific testing of cereals and oilseeds; research in cereal and oilseed chemistry; moisture meter standardization; evaluation and development of new testing methods. *Special Access Note:* Records are located at the Winnipeg office.

DOA/CGC-580 *Formerly Identified as:* CGC-40

### **Weighing of Grain**

*Description:* Information on the supervision of grain weighing at terminal and transfer elevators to ensure adherence to the provisions of the *Canada Grain Act* and Regulations. *Topics:* Weighing exception reports; scale equipment inspection; weigh-over of elevator stocks for audit; investigation of complaints related to weight; weighing facilities — planning and control. *Special Access Note:* Records are located at Winnipeg and at district offices.

DOA/CGC-585 *Formerly Identified as:* CGC-50

### **Policy Development and Co-ordination**

*Description:* Information on the administration of the *Canada Grain Act* and the *Grain Futures Act*; issuing of regulations and orders; advising the Minister on matters relating to grain handling; collection of revenues; and co-ordination of functions of all divisions within the Canadian Grain Commission. *Topics:* Operations audit of grain handling in Canada; *Canada Grain Act* and Regulations; *Grain Futures Act* and Regulations; Canadian Grain Commission orders and directives to the grain trade; collection of revenue; financial statement; supervision of grain futures trading; Grain Appeal Tribunal; Canadian government elevators (privatized 1979-81). *Storage Medium:* Financial statement is machine readable. *Special Access Note:* Records located in Winnipeg; operations audit at regional offices; and Canadian Government Elevator files at Public Archives.

DOA/APB-590 *Formerly Identified as:* APB-10

### **Agricultural Products Transaction**

*Description:* Information on agricultural product transactions under the provisions of the *Agricultural Products Board Act*. *Topics:* Purchase and sale agreements; processing, storage and transportation of agricultural products; foreign assistance programs. *Retrievability:* Files arranged by commodity, year and procedure.

DOA/ASB-595 *Formerly Identified as:* ASB-10

### **Commodity Price Support Programs**

*Description:* Information on support prices for agricultural products under the provisions of the *Agricultural Stabilization Act* and details of payment programs. *Topics:* Support price (related data, correspondence, reports, producer costs, market return statistics); payment program (deficiency payments, eligibility criteria).

DOA/ASB-600 *Formerly Identified as:* ASB-20

### **Subsidy Claims and Payments**

*Description:* Information on claims for subsidies from individual producers.

DOA/CFS-605 *Formerly Identified as:* EC-620

### **International Forestry Relations**

*Description:* Information on international forestry programs to share resource management knowledge and to provide scientific and technical advice on forestry management and forest products development; and on Canada's international organization; individual countries. *Storage Medium:* Paper.

DOA/CFS-610 *Formerly Identified as:* EC-630

### **Forestry Initiatives and Relations**

*Description:* Information on federal forestry programs to meet the present and future economic and social needs of Canadians; bilateral and multilateral forestry agreements on behalf of the federal government and the Canadian Forestry Service with provincial governments, universities, private forestry concerns, and forestry associations, scientific and technical forestry advisory service to federal ministers and departments, provincial governments, universities, private forestry concerns, forestry associations, and members of the public. *Storage Medium:* Paper.

DOA/CFS-615 *Formerly Identified as:* EC-640

### **Identification of Problems and Opportunities**

*Description:* Information on the world and domestic supply and demand for forests and the products of the forest industry, and the impact of these activities on the environment. *Topics:* Forest economic and technical statistics, information files of forests, forestry and the forest industry and other uses of the forest. *Storage Medium:* Paper.

DOA/CFS-620 *Formerly Identified as:* EC-650

### **Assessment and Interpretation**

*Description:* Information on the analysis, interpretation and application of economic and scientific forestry principles to the identification, clarification or solution of forestry and forestry-related problems. *Topics:* Operational policies of the Canadian Forestry Service (CFS) — Federal Outdoor Recreation Policy, National Forest Policy, CFS Policy, Provincial Forest Policies, Federal Forest Policy, Forest Protection Assistance Policy, Transportation Policy, CFS Communications Policy, International Forest Policy. *Storage Medium:* Paper.

DOA/CFS-625 *Formerly Identified as:* NO REFERENCE

### **Forestry Statistics and Systems (New)**

*Description:* Quantitative data on location and area of forest lands, volume of forests, their growth, losses and harvests; forest products in Canada and other countries. *Topics:* World Forestry Data Program; Canadian Forestry Data Program; Federal Forestry Data Program; Forestry Data Systems Program; committees; boards. *Storage Medium:* Paper.

DOA/CFS-630 *Formerly Identified as:* EC-810

### **Public Awareness**

*Description:* Information on the promotion of public awareness, appreciation of Canada, forest, wildlife and water, and natural environment through Ecatour Maps — designed for use by the travelling public, including a description of the natural and human

## DEPARTMENT OF AGRICULTURE

forces that have shaped the landscape, and elaboration on features of particular interest. *Note:* Ecatour Maps of the Trans-Canada Highway from St. John's, Newfoundland to Victoria, British Columbia, other maps of routes of particular scenic, historic or ecological significance.

DOA/CFS-635 *Formerly Identified as:* EC-610

### Forestry Subvention Program

*Description:* Information on external research and development through contracts, contributions and grants, supported through membership in appropriate technical committees and associations, for vital forestry activities where corresponding in-house research and development facilities do not exist. Also maintenance of forestry expertise centres in Canadian universities. *Topics:* Energy from forest resources; wood-anatomy, bending, chemistry, chemical use, chippers and chips, composites (wood with other materials), construction, dielectric and non-dielectric heating, glues and gluing, grades, codes and standards, identification, wood logs and logging equipment; logging-quality studies, lumber: wood manufacturing secondary conversion, secondary products; miscellaneous wood products; wood packaging; wood paints and codes; wood physics; plywood and veneer; wood preservation; pulp and paper; wood sawmilling equipment; wood seasoning; wood supply; wood testing services; timber engineering-fasteners; timber engineering, physics; underutilized and problem species. *Storage Medium:* Paper.

DOA/CFS-640 *Formerly Identified as:* EC-670

### Tree Seed — Improvement Research

*Description:* Research on tree reproductive structures and seeds in support of the production procurement and processing of seed forestation. Information on the management of seed orchards and seed production areas. Information on the selection and improvement of the various commercial tree species of Canada, the development of exotic species for use in Canada, and in-depth genetic characterization and utilization of these tree species. *Topics:* Tree cone and seed physiology; cone crop periodicity and forecasts; cone collection and handling; seed processing physiology; cone crop periodicity and forecasts; cone collection and handling; seed processing, storage testing and certification; seed orchards and seed production areas, seed certification; seeds legislation and rules; requests for seeds; tree genetics; forest genetic, tree improvement — Canadian Tree Improvement Association; Canadian Tree Improvement Association — tree reproduction. *Storage Medium:* Paper.

DOA/CFS-645 *Formerly Identified as:* EC-680

### Reforestation Research

*Description:* Information on the preparation of cutover areas and other sites for natural seeding or artificial reforestation; the production of bareroot or container seedlings; and direct seeding or planting by hand or machine; also nursery establishment and seedling production statistics. *Topics:* Site preparation by prescribed burning or mechanical scarification; natural regeneration including seed dispersal, germination and germinant establishment; production and handling of bareroot seedlings or transplants, or of container seedlings; direct seeding methods and operations; seedling planting methods and operations; regeneration surveys. *Storage Medium:* Paper.

DOA/CFS-650 *Formerly Identified as:* EC-690

### Genetics

*Description:* Information on the selection and improvement of the various commercial tree species of Canada, the development of exotic species for use in Canada, and in-depth genetic characterization and utilization of these tree species.

DOA/CFS-655 *Formerly Identified as:* EC-700

### Tree and Stand Growth Research

*Description:* Information on the growth, physiology and development of various tree species grown in Canada for the production of wood, fibre or energy. *Topics:* Tree growth, biology, physiology, reproduction — growth and yield; geomorphologic silviculture-silvics of species — fertilization, soils. *Storage Medium:* Paper.

DOA/CFS-660 *Formerly Identified as:* EC-710

### Management Systems for Production Forestry

*Description:* Information on forest management practices such as thinning; forest inventory through conventional and remote sensing methods; mechanized silviculture and harvesting; and research on long-term predictions of forest productivity. *Topics:* Biometrics; forest productivity; economics; fire management; harvesting; land classification and mapping; forest land management; multiple use management; remote sensing; salvage operations; silviculture-cutting, effects of mechanized logging, fertilization, herbicides, statistics, prescribed burning, inventory and measurements. *Storage Medium:* Paper.

DOA/CFS-665 *Formerly Identified as:* EC-720

### Forest Fire Research

*Description:* Research into fire control (suppression), management, behaviour, ecology and prevention, information relating to the development, testing and evaluating of forest fires, fire fighting equipment. *Topics:* Forest fire control — management, behaviour, ecology, environment, risk danger, damage and appraisal, weather, detection, prevention, bombing (air attack), retardants and suppression equipment; and prescribed burning. *Storage Medium:* Paper.

DOA/CFS-670 *Formerly Identified as:* EC-730

### Insects and Disease Research

*Description:* Information on damage caused to forests by insects or diseases (any variation to the normal physiology or anatomy of the tree caused by agents other than insects), the biology of forest pests and control methods. *Topics:* Listing of specific forest insect pests — spruce budworm, winter moth, bark beetles, gypsy moth, balsam woolly aphid, birch casebearer, birch leafminer, European pine sawfly, European pine shoot moth, fall webworm, larch casebearer, larch sawfly, mountain ash sawfly, satin moth and other biological control through CIBC; biological control with *Bacillus thuringiensis*; chemical control; pathological problems — scleroderris canker — Dutch elm disease, dwarf mistletoe, pesticides, pheromones; pine wood nematode. *Storage Medium:* Paper.

DOA/CFS-675 *Formerly Identified as:* EC-760

### Forest Environment Research

*Description:* Information on the effect of forestry practices on the environment; includes harvesting practices, road building, clear cutting, and other management systems used for production forestry; also effects of ARTAP (acid rain) and other pollutants on forests. *Topics:* Conservation; energy; environmental concerns; prescribed burning; forest-fire management; harvesting; forest management; multiple-use management; land-use planning, acid rain, forest decline, monitoring acid rain damage to forest (Acid Rain National Early Warning System); pollution; pollution abatement; salvage operations; silviculture — herbicides, site preparation; soils; hydrology, baseline studies, watershed research. *Storage Medium:* Paper.

DOA/CFS-680 *Formerly Identified as:* EC-770

### Forest and Plant Ecology

*Description:* Information on the processes of change in the forest and plant communities found in Canada and the related research carried out by the CFS. *Topics:* Tree and forest biology; forest types; forest ecology and productivity; fire ecological effects; forest succession,

## DEPARTMENT OF AGRICULTURE

---

silviculture-silvices of species, weed management; soils. *Storage Medium*: Paper.

DOA/CFS-685 *Formerly Identified as:* NO REFERENCE

### **Forestry Development and Communications Directorate (New)**

*Description:* The Forestry Development and Communications Directorate is responsible for promoting and monitoring the effective socioeconomic development of Canada's forest resource through national leadership in its management and the enhancement of its labour force. It also stimulates increased quality and quantity of forest management; promotes increased forest management on federal Crown lands; co-ordinates the delivery of forestry programs and services by regional offices and other agencies on these lands; provides a range of communication services in support of the CFS; establishes a dialogue with designated publics in Canada and abroad on the forest resource, its management and CFS activities; fosters the development of a skilled forestry labour force; provides information on trends

affecting human resources in forestry; and promotes national policies and programs in co-operation with government agencies and the private sector. *Topics:* Forest development operations (by province), forest development agreements (by province), forest sector profiles (description of forest resource lease — industry activities), federal forestry management programs within provinces and regional issues; job development related to the forestry industry, employment impact studies related to forestry, forest management of DND lands, Indian lands and other federal lands; scientific and technical publications; ministerial speeches, press releases, Cabinet documents, memorandums of understanding, pamphlets and brochures relating to forestry topics and issues; studies on the forest sector; economical and statistical core information.

# ATLANTIC PILOTAGE AUTHORITY

---

## Background

As a result of recommendations made by the Royal Commission on Pilotage in Canada, the *Pilotage Act* was assented to by Her Majesty and the Governor-in-Council and proclaimed on February 1, 1972. The Act created pilotage regions with specific authorities, thereby replacing a large number of local pilotage districts. The four pilotage authorities — Atlantic, Laurentian, Great Lakes and Pacific — are Crown corporations, responsible to Parliament through the Minister of Transport.

The Atlantic Pilotage Authority, pursuant to the *Financial Administration Act* in Schedule SC 1983-84, 31, was designated a Schedule C Parent Crown corporation. It was first incorporated in 1972.

## Laws and Regulations

- Canada Shipping Act
- Pilotage Act
- General Pilotage Regulations
- Atlantic Pilotage Regulations
- Authority By-Laws

## Overall Responsibilities

The role of the Authority is to establish, operate, maintain and administer, in the interests of safety, an efficient and economic pilotage service within its geographic boundaries — all coastal waters in the Atlantic region. As a further goal, the Authority prescribes tariffs for pilotage charges that are to be fair, responsible and consistent with providing sufficient revenues to permit the Authority to operate on a self-sustaining financial basis.

## Access Procedures

All formal requests under the *Access to Information Act* should be directed to

Access to Information Co-ordinator

# ATOMIC ENERGY CONTROL BOARD

---

## Background

The Atomic Energy Control Board (AECB) was established in 1946 by the *Atomic Energy Control Act*. It is the federal regulatory agency responsible for the control of health, safety, and national and international security aspects of prescribed atomic energy substances and items, and nuclear facilities. The Board reports to Parliament through a designated Minister and is a departmental corporation within the meaning and purpose of the *Financial Administration Act*.

## Laws and Regulations

- Atomic Energy Control Act, RSC 1970, c.A19
- Nuclear Liability Act, RSC 1970, c.29 (1st supplement)

## Overall Responsibilities

The Board controls the development, application and use of atomic energy, both through the authority of the Act and through regulations approved by the Governor-in-Council. It operates a comprehensive licensing system that covers all dealings in prescribed atomic energy substances and items, to assure that such substances and items are used with proper consideration for health and safety as well as national and international security. The Board's licensing system is administered with the co-operation of other federal and provincial government departments concerned with health, the environment, transportation and labour, which have similar or relevant responsibilities.

## Organization

The Board consists of five members. One of these members is appointed President and chief executive officer and is the only full-time member. The president of the National Research Council of Canada is an *ex officio* member. The three remaining members are chosen from business and professional fields related to nuclear energy.

Reporting to the President of the Board are the Secretariat, the directorates of Reactor Regulation, and Fuel Cycle and Materials Regulation, and the branches of Regulatory Research, and Planning and Administration. The Orientation Centre, while not a part of the board staff organization, also reports to the president.

The organization is augmented by two internal committees: a Management Committee, which provides advice to the President on administrative and operational matters and acts for the president during an absence or vacancy; and a Policy Advisory Committee, which develops and presents policy recommendations to the President.

The Board's head office is located in Ottawa where the majority of staff are stationed. There presently exist two regional offices; one in Mississauga, Ontario and one in Calgary, Alberta. These two offices are staffed by compliance inspectors who perform licensee inspections in southern Ontario and western Canada, respectively. A third office was opened in Montréal this year, to serve the Québec and eastern Canada regions.

The AECB also has staff members located at nuclear reactor sites and in the Elliot Lake (Ontario) mining area. The prime role is to carry out inspections and maintain surveillance over the licensed facilities in these locations.

## General Information

Requests for technical information, and enquiries concerning the AECB's role, organization, programs and services may be addressed to the AECB Office of Public Information. (Addresses and telephone numbers are listed below.)

The AECB also has a public documents room at head office where

documents related to licensing may be viewed by the public. Library services are also available.

The Office of Public Information issues a publications catalogue annually, available to the public free of charge, which lists all technical reports, papers, speeches, regulatory documents, news releases, information bulletins, notices and miscellaneous documents published by the AECB in the past five years. Most AECB publications are free.

Telephone: (613) 995-5909

## Secretariat

The Secretariat embraces the functions of the secretary to the Board, relations with the office of its designated minister, parliamentary committees and enquiries, the Office of Public Information, and three advisors to the Board for medical, science and special matters. Two other advisors, Legal and Official Languages, report directly to the President.

## Office of the Secretary

The Board secretary's main function is to provide liaison between Board members and AECB staff. The secretary's duties include organizing and administering board meetings and taking appropriate follow-up action, managing the system of staff documents presented to the Board, and conducting the correspondence of the Board. The secretary also maintains a record of all business transactions by the Board, maintains communication and co-ordination among Board members, and carries out other duties as assigned by the Board or the President.

# ATOMIC ENERGY CONTROL BOARD

---

## Manuals

- AECB Staff Briefing Book
- AECB Organizational Structure and Functions Manual
- AECB Policy Compendium (in-house use only — public version in preparation)
- Nuclear Liability Operations Manual (in preparation)

## Office of Public Information

The office is responsible for responding to requests from outside contacts for technical or other information, and for informing the public of significant matters through the news media and other communication vehicles. Mailing lists are maintained for the distribution of news releases, the annual report, consultative documents and the publications catalogue. The office is also the AECB's publisher and contact for all free documentation. The Language Service unit within the office facilitates service to the public in French-language printed matter.

## Directorate of Reactor Regulation

This directorate has the prime responsibility for the regulation of power and research reactors and accelerators. It evaluates applications for licences against the safety standards and requirements that the AECB has set, and grants licences and monitors licensee operations to ensure compliance with Board regulations and requirements at all times. It also conducts examinations for reactor operators and provides specialist input into the review of all nuclear facilities.

## Pre-operational Power Reactor Division

This division ensures that the design, construction and commissioning of power reactor facilities are carried out in a manner consistent with accepted national and international standards of safety. It also assesses and licenses all nuclear facilities for the generation of electricity or steam in Canada.

## Operational Power Reactor Division

This division ensures that the operation of power reactor facilities is conducted in a manner consistent with national and international standards of safety, and that the radiological impact of these facilities upon operators, the public, and the environment is as low as is reasonably achievable. In addition, it monitors all nuclear facilities for the generation of electricity or steam in Canada or, when directed by the Board, located in Canadian waters.

## Operator Certification and Research Facility Division

This division ensures that staff certified for AECB-authorized positions at licensed nuclear facilities possess the necessary knowledge and training to perform their role in the safe operation of the facilities. It also ensures that the design, construction, commissioning and operation of research, reactor and accelerator facilities meet accepted international standards of safety, and that the radiological impact of these facilities upon operators, the public and environment is as low as is reasonably achievable.

## Assessment Branch

The branch carries out the detailed assessment of licensing information and provides technical and scientific advice in support of Board activities, with particular emphasis on safety assessment and radiological protection of nuclear facilities and prescribed substances. It comprises two divisions: Safety Evaluation and Quality Assurance and Standards.

## Safety Evaluation Division

This division carries out the detailed scientific and engineering assessments of nuclear facilities and prescribed substances in Canada, or under Canadian control, from the design stage through construction, operation and de-commissioning. It also assists in the development of requirements for safety and licensing of nuclear facilities.

## Quality Assurance and Standards Division

This division ensures the establishment and implementation of reactor quality assurance and standards programs, and the regulatory control of pressure-retaining components.

## Directorate of Fuel Cycle and Materials Regulations

The directorate is responsible for evaluating applications for licences, licensing, and compliance monitoring of uranium mines, refineries and conversion plants, nuclear fuel fabrication plants, heavy water plants, radioactive waste management facilities, and the use of radioisotopes. It also implements domestic and international nuclear materials safeguards programs.

## Safeguards and Security Division

This division controls the import, export, production and use of prescribed substances, items and technology in order to ensure the implementation of Canada's policies on the non-proliferation of nuclear weapons or other nuclear explosive devices. It also provides the major technical input in the formulation and implementation of nuclear policy, provides advice and implements policies on heavy water and uranium, and ensures that an acceptable level of physical security is provided for nuclear materials, technology and facilities.

## Radioisotope and Transportation Division

This division develops and administers provisions for the protection of workers and the public from radiological hazards arising from the use of radioisotopes and the transportation of radioactive materials in Canada. It also issues licences for the use and importation of radioisotopes, and certificates for transportation packages.

## Compliance Services and Laboratories Division

This division carries out inspections and investigations to verify that the terms of licences and regulatory requirements are being met. Where they are not met, it provides the information necessary to facilitate action by the licensee, or takes immediate corrective action as provided for in the regulations.

## Uranium Mine Division

This division ensures that uranium mines, mills and associated waste management facilities are operated in a manner that does not expose workers and the public to unacceptable health and safety hazards. It is also responsible for establishing standards associated with the safe operation of uranium mining, assessing and issuing licences, and monitoring of mines to ensure compliance with the regulations and conditions of their licence.

## Waste Management Division

This division ensures that facilities for the storage and disposal of radioactive waste materials are constructed and managed to prevent exposure of the public, environment and workers to excessive

# ATOMIC ENERGY CONTROL BOARD

---

radiation hazards through the establishment of standards, issue of licences and monitoring of all such facilities in Canada.

## Fuel and Heavy Water Plant Division

This division ensures that the operations of facilities for the refining of uranium, the fabrication of nuclear fuel, the production, application and use of natural uranium and thorium, and the production of heavy water is carried out in such a manner that there is no unacceptable health and safety hazard to the public. It also exercises control over the accountability for heavy water inventories at nuclear facilities, establishes standards for the safe operation of heavy water plants, assesses and issues licences, and ensures compliance with the licence terms and regulations.

## Planning and Administration Branch

This branch is responsible for such centralized administrative functions as office services, library, registry, personnel and finance, as well as the planning, co-ordination and administration of the *Nuclear Liability Act*.

## Planning and Co-ordination Division

This division is responsible for ensuring that the planning and execution of actions by the various divisions of the AECB, both within the Board and with outside bodies, are co-ordinated to prevent duplication and ensure consistency of policy and approach. It also co-ordinates AECB activities with international agencies and organizations and administers the *Nuclear Liability Act* and emergency planning activities.

## Regulatory Research Branch

The branch is responsible for the initiation and management of projects in the Board's mission-oriented research program, which is designed to provide information for use in the AECB's regulatory activities. It is also responsible for the assessment of radiation hazards and radiation protection programs for licensed activities, the development of related standards and guidelines, and the provision of radiation protection training for Board staff. The branch is composed of: radiation protection division, health effects and regulatory documents section, and safety and safeguards section.

## Radiation Protection Division

This division is responsible for detailed radiation protection assessments and expert radiation protection advice for all of the Board's activities. It also monitors all aspects of radiation protection associated with nuclear facilities and prescribed substances, both for workers and members of the public.

## Health Effects and Regulatory Documents Section

This section is responsible for the health effects of nuclear technology and its impact on the public as appropriate for effective regulatory controls. The section also monitors research programs to ensure they are executed economically and expeditiously, and manages the development of the regulatory document system.

## Safety and Safeguards Section

The responsibilities of this section are to manage the safeguard techniques for Canadian-supplied reactors, and risk and safety evaluation.

## Orientation Centre

Specialists of the Orientation Centre provide advice, orientation, training and assistance to regulatory agencies in foreign countries that have purchased or are potential purchasers of CANDU reactors. The group reports to the president for administrative purposes only, and is funded separately from AECB programs.

---

## Classes of Records

AEC/SEC-005 *Formerly Identified as:* AECB-10

### Organization and Functions

*Description:* Information on board activities. *Topics:* Organization of the Board; appointments; significant development reports; meetings of internal heads of directorates or sections; annual reports; Policy and Practices Manual; Administrative Policy and Procedures Manual; and Minister's briefings.

AEC/SEC-010 *Formerly Identified as:* AECB-20

### Committees

*Description:* Information on various AECB committees. *Topics:* AECB Advisory Committee; sub-committees on tailings, fault tree methods, radiological protection; nuclear safety and AECL committees on the technical aspects of the NPD reactor; Nuclear Safety Advisory Committee; Chalk River Nuclear Laboratory (CRNL) Nuclear Criticality Safety Panel; Whiteshell Nuclear Research Establishment (WNRE) Nuclear Criticality Safety Panel; and AECL Emergency Response Transportation Study.

AEC/SEC-015 *Formerly Identified as:* AECB-30

### Fusion

*Description:* Information on direct AECB participation in the research and development of fusion as an alternate energy source by making its expertise in the fuel cycle process available to other organizations dealing with fusion.

AEC/SEC-020 *Formerly Identified as:* AECB-40

### Public Information

*Description:* Information requests; Federal Identity Program; programs; policies and procedures; projects and publications; editorial services; translation and revision.

AEC/SEC-025 *Formerly Identified as:* AECB-50

### Committees

*Description:* Information on actions, proposals and recommendations of the Advisory Committee on Radiological Protection (ACRP) and the Advisory Committee on Nuclear Safety (ACNS). *Topics:* Risk estimates; licensing guides.

AEC/DRR-030 *Formerly Identified as:* AECB-60

### Reactors – General

*Description:* General information on the operation of reactor facilities.

AEC/DRR-035 *Formerly Identified as:* AECB-70

### Licensing

*Description:* Information on licensing of the reactor and its site by the AECB.

AEC/DRR-040 *Formerly Identified as:* AECB-80

### Radiation Protection

*Description:* Information on radiation protection for workers, public and environment affected by reactor facilities.

# ATOMIC ENERGY CONTROL BOARD

---

AEC/DRR-045 *Formerly Identified as:* AECB-90

## **Inspections**

*Description:* Information on regular inspections of reactors in service, scheduling of up and down time and computer codes used in operation. *Topics:* Reactor-in-service inspections; materials; ferrous and non-ferrous metals, corrosion; wear and welding.

AEC/DRR-050 *Formerly Identified as:* AECB-100

## **Steam Rebuild Programs**

*Description:* Information on improvements of original deficient steam generators in some of the reactors. *Topics:* 600Mw, 500Mw(e), and 850Mw steam generator rebuild programs.

AEC/DRR-055 *Formerly Identified as:* AECB-110

## **Domestic Reactors**

*Description:* Information on the reactors currently in use in Canada. *Topics:* Licence of the facility; fuel; operation; reactor operators; accountability and operational procedures; AECB officers; significant events and incident reports; systems and equipment, proposed changes approved; proposed changes for information; radiological protection; emergency procedures; safeguards; in-service inspections and quality assurance.

AEC/DRR-060 *Formerly Identified as:* AECB-120

## **Atomic Energy of Canada Limited (AECL)**

*Description:* Information on research reactor facilities administered by Atomic Energy of Canada Limited. *Topics:* Reactors – NRX, ZEEP, NRU, ZED 2, Whiteshell, Slowpoke.

AEC/DRR-065 *Formerly Identified as:* AECB-130

## **Foreign and Marine Reactors**

*Description:* Reactors in the U.S.; marine reactors; foreign reactors outside the U.S.

AEC/DRR-070 *Formerly Identified as:* AECB-140

## **Reactor Operating Training**

*Description:* Information on the training and examination of reactor operators according to AECB standards. *Topics:* Reactor Operating Training; Ontario Hydro, Hydro-Québec, New Brunswick Electric Power Commission.

AEC/DRR-075 *Formerly Identified as:* AECB-150

## **Particle Accelerators**

*Description:* General information on particle accelerators. *Topics:* Courses and seminars; standards and guidelines; technical information; and relations with Health and Welfare Canada.

AEC/DRR-080 *Formerly Identified as:* AECB-160

## **Accelerator Facilities**

*Description:* Information on the 44 licensed accelerator and particle accelerator facilities in Canada. *Topics:* Main facility; neutron generator; drawings; safety reports; cyclotron; Tandem and Van de Graaff; Linac; Betatron.

AEC/DRR-085 *Formerly Identified as:* AECB-170

## **Reactor Personnel**

*Description:* Information on the training and examination of all reactor personnel.

AEC/ASB-090 *Formerly Identified as:* AECB-180

## **Reactor Safety**

*Description:* Information on the development of safety requirements for nuclear facilities. *Topics:* Siting guides; reactor safety criteria.

AEC/ASB-095 *Formerly Identified as:* AECB-190

## **Reactor Codes and Standards**

*Description:* Quality assurance codes and standards used in the design of nuclear facilities. *Topics:* Components; inspections; quality control;

reliability and maintainability of concrete containment structures; protective systems and instrumentation; and seismic design requirements for CANDU.

AEC/ASB-100 *Formerly Identified as:* AECB-200

## **Computer Codes**

*Description:* Information on computer codes used in reactor operations. *Topics:* Atmospheric dispersion; reactor physics; thermal hydraulics; fuel behaviour; containment.

AEC/ASB-105 *Formerly Identified as:* AECB-210

## **Heavy Water Plants**

*Description:* Information on the safety assessment of design and operation of heavy water plants.

AEC/ASB-110 *Formerly Identified as:* AECB-220

## **Quality Assurance**

*Description:* Information on the overall design quality of nuclear facilities. *Topics:* Standards; manufacturers; manufacturer quality assurance programs.

AEC/ASB-115 *Formerly Identified as:* AECB-230

## **Associations, Societies and Institutions**

*Description:* Information on professional organizations with which the AECB consults on matters related to nuclear energy. *Topics:* Standards-writing organizations – Canadian Standards Association, Canadian Nuclear Association, International Atomic Energy Agency.

AEC/FCM-120 *Formerly Identified as:* AECB-240

## **Foreign Governments**

*Description:* Information on all foreign governments with which Canada has been or is involved in the atomic or nuclear field. *Topics:* International nuclear safeguards; export-import controls; atomic energy research; exchanges of information; various reports dealing with the preceding subjects from foreign countries.

AEC/FCM-125 *Formerly Identified as:* AECB-250

## **Prescribed Equipment**

*Description:* Information on general export control of prescribed equipment, such as nuclear reactors, fuel processing facilities, heavy water plants and nuclear accelerators.

AEC/FCM-130 *Formerly Identified as:* AECB-260

## **Canadian Uranium Policy**

*Description:* The Canadian uranium policy on exports, anti-trust matters and nuclear energy.

AEC/FCM-135 *Formerly Identified as:* AECB-270

## **International Organizations**

*Description:* Information on international organizations in the nuclear energy field. *Topics:* International safeguards; export-import control; technical reports and reviews on nuclear reactors; safeguards; quality assurance; radioactive waste management; nuclear fuel development; international organizations – International Energy Agency, European Economic Community, International Atomic Energy Agency, Nuclear Energy Agency, and the Scientific Advisory Committee of the International Atomic Energy Agency.

AEC/FCM-140 *Formerly Identified as:* AECB-280

## **Security**

*Description:* Information on the physical security of nuclear facilities and personnel.

AEC/FCM-145 *Formerly Identified as:* AECB-290

## **United Nations Disarmament Commission**

*Description:* Information on the United Nations Non-proliferation Treaty on Nuclear Weapons, international safeguards, international agreements and various United Nations committees on nuclear energy.

# ATOMIC ENERGY CONTROL BOARD

---

AEC/FCM-150 *Formerly Identified as:* AECB-300

## **Safeguards**

*Description:* Policies and measures for the non-proliferation of nuclear energy. *Topics:* Domestic and international safeguards; costs; reference documents; instrumentation; inspection procedures; accountability; visits and inventories of nuclear facilities in Canada; safeguards inspectors; special studies on accountability for highly enriched uranium and non-destructive measurement devices.

AEC/FCM-155 *Formerly Identified as:* AECB-310

## **Prescribed Substances**

*Description:* Information on prescribed substances, which are defined as radioactive isotopes of all elements and any substances containing such isotopes which are designated as capable of releasing atomic energy. The AECB maintains files on all licensed users and producers of radioisotopes in Canada. *Topics:* Use; exports; policies; health precautions.

AEC/FCM-160 *Formerly Identified as:* AECB-320

## **Transportation**

*Description:* Policies, regulations and practices for the safe handling and transportation of radioactive materials in Canada and abroad. *Topics:* Shipping regulations; labelling requirements for radioisotopes; transportation of radioactive waste; liability insurance; regulations for all modes of transportation – air, road, rail and marine; certificates; Canada Post Corporation; emergency procedures; accidents and standards; transportation of nuclear materials to and from foreign countries; endorsements from foreign countries for shipping containers; technical aspects of shipping, containers and testing programs.

AEC/FCM-165 *Formerly Identified as:* AECB-330

## **Nuclear Devices**

*Description:* Information on manufacturers of nuclear devices. *Topics:* Luminous devices; watches; exit signs; cardiac pacemakers; smoke detectors; therapy units; static eliminators.

AEC/FCM-170 *Formerly Identified as:* AECB-340

## **Atomic Energy of Canada Limited – Licensing**

*Description:* General licensing information on AECL facilities and appropriate internal companies.

AEC/FCM-175 *Formerly Identified as:* AECB-350

## **Prescribed Substances – Accidents, Unauthorized Uses**

*Description:* Information on situations where possible risk to workers and the public is caused by radioactive contamination and exposure. *Topics:* Contamination of jewellery and pottery; improper safeguards for radioisotope use – hospitals, pharmaceutical labs, research labs; contamination of the environment by uranium mining operations; transportation accidents; unauthorized uses of radioactive materials, contamination.

AEC/FCM-180 *Formerly Identified as:* AECB-360

## **Inspections**

*Description:* Information on inspections, field instrumentation and special investigations.

AEC/FCM-185 *Formerly Identified as:* AECB-370

## **Mining, Exploration and Prospecting**

*Description:* Information on every uranium mining and milling facility in Canada. *Topics:* Operation; licensing; requirements; health and safety – personal, environmental and workplace monitoring, personnel exposure data; compliance inspections; mining and milling.

AEC/FCM-190 *Formerly Identified as:* AECB-380

## **Radioactive Waste Management Facilities**

*Description:* Information on every radioactive waste management facility in Canada. *Topics:* Low-level storage; high-level storage; reactor wastes; chemical treatment; licensing; maintenance; compliance.

AEC/FCM-195 *Formerly Identified as:* AECB-390

## **Heavy Water Plants**

*Description:* Information on the four heavy water plants in Canada. *Topics:* Operations; licensing; compliance inspections; emergency procedures; quality assurance; standards and guides; safety assessments; new processes.

AEC/FCM-200 *Formerly Identified as:* AECB-400

## **Fuel Processing Facilities**

*Description:* Information on fuel processing facilities in Canada. *Topics:* Operation; licensing; compliance inspections; radiation exposure data.

AEC/PAB-205 *Formerly Identified as:* AECB-410

## **Co-ordination and Planning**

*Description:* Information on the Board's internal and external co-ordination and planning.

AEC/PAB-210 *Formerly Identified as:* AECB-420

## **Emergency Planning Activities**

*Description:* Information on emergency planning activities. *Topics:* Federal procedures; co-ordination of federal, provincial and international procedures.

AEC/PAB-215 *Formerly Identified as:* AECB-430

## **International Organizations**

*Description:* Information on visits to and from international organizations, and dealings with committees and working groups on international safeguards and technical aspects of nuclear energy; also information on the Organization for Economic Co-operation and Development.

AEC/PAB-220 *Formerly Identified as:* AECB-440

## **Nuclear Liability**

*Description:* Information on the *Nuclear Liability Act* and its association with the Canadian nuclear program; also insurance aspects of nuclear liability.

AEC/PAB-225 *Formerly Identified as:* AECB-450

## **Federal Departments**

*Description:* General information on liaison with other federal departments and agencies.

AEC/PAB-230 *Formerly Identified as:* AECB-460

## **Atomic Energy Legislation**

*Description:* Information on the *Atomic Energy Control Act* and amendments.

AEC/PAB-235 *Formerly Identified as:* AECB-470

## **Atomic Energy Control Regulations**

*Description:* The regulations pursuant to the *Atomic Energy Control Act* as they apply to prescribed substances and items, nuclear

The Bank of Canada is also responsible for the note issue. The issue of coin is handled by the Royal Canadian Mint.

## Background

The Bank of Canada is the nation's central bank, incorporated in 1934 under the *Bank of Canada Act* to regulate "credit and currency in the best interests of the economic life of the nation, to control and protect the external value of the national monetary unit and to mitigate by its influence fluctuations in the general level of production, trade, prices and employment, so far as may be possible within the scope of monetary action, and generally to promote the economic and financial welfare of the Dominion."

## Overall Responsibilities

The *Bank of Canada Act* does not specify the methods the Bank should use to carry out these goals. But the Act does confer certain powers which, together with provisions in other legislation, enable the Bank to exercise a broad controlling influence over the growth of money and credit in Canada and thereby affect levels of spending and economic activity. This influence stems primarily from the Bank's ability to determine the total amount of cash reserves available to the Canadian banking system and thus, in effect, to regulate the system's growth over time.

The principal means used by the Bank of Canada to alter the level of cash reserves (or to offset undesired effects on the level of reserves resulting from other factors) involve transfers to government deposit balances from the chartered banks to the central Bank and vice versa, and changes in its holdings of foreign currency assets.

Although cash management, including purchases and sales of government securities, is the primary policy instrument used to influence credit conditions, the Bank has a number of other supplementary methods it may use. The Bank of Canada has the power to require the nation's chartered banks to maintain secondary cash reserves, treasury bills and day-to-day loans to money market dealers in addition to its regular cash reserves. It may also vary, within prescribed limits, the ratio of secondary reserves the banks are required to hold.

The Bank is authorized to make short-term advances to chartered banks on the pledge of certain securities and can change the bank rate, the minimum rate at which it is prepared to make advances. Such advances are relatively infrequent, but changes in the bank rate affect the current level of interest rates and also serve as an indication of the Bank's stance on monetary policy. The Bank also acts as lender of last resort to money market dealers. When these dealers are unable to find necessary financing elsewhere, they can arrange to sell securities to the Bank of Canada with an agreement to repurchase them. The minimum and maximum rates of interest applicable to such purchase and resale agreements vary with the bank rate.

The Bank acts as fiscal agent for the government, and is thus directly concerned with the management of the public debt. It advises the government on the method of financing to be used in raising money and on the terms of new issues. This includes making arrangements for the sales of new securities, the redemption or conversion of maturing issues, the payment of interest on outstanding securities and the maintenance of records.

The Bank acts as agent and advisor in the management of the country's foreign exchange reserves, which are held largely in the exchange fund account in the name of the Minister of Finance. In addition, the Bank of Canada maintains foreign currency accounts at other central banks and operates accounts for foreign central banks and international institutions. Official intervention in the exchange market is carried out by the Bank on behalf of the Minister of Finance through purchases from the market and sales into the market of U.S. dollars from the exchange fund account.

## Bank of Canada Management and Relations with Government

In carrying out its responsibility for monetary policy the Bank maintains close links with the government. The presence of the deputy minister of Finance on the board of directors provides one channel of communication between the Bank and the Minister of Finance. In addition, the *Bank of Canada Act* requires the Minister of Finance and the Governor to consult regularly on monetary policy and on the Bank's relation to general economic policy. Section 14 of the Act provides a mechanism for resolving serious differences in point of view on the appropriate policy to be followed. Under this section, the Minister of Finance, with the approval of the Governor-in-Council, has the power to issue instructions which the Bank must follow. These instructions have to be in specific terms and for a specified period; they must also be made public. Ultimate responsibility for Canadian monetary policy thus rests with the government, but this in no way diminishes the direct responsibility of the Bank of Canada for formulating and executing monetary policy.

## Organization

Responsibility for the affairs of the Bank rests with a board of directors composed of the Governor, the senior deputy governor and 12 directors appointed by the government for three-year terms. The deputy minister of Finance sits on the board but does not have the right to vote. The board normally meets from seven to nine times a year. Between meetings, an executive committee composed of the Governor, the senior deputy governor, up to four directors and the deputy minister of Finance meets once a week and acts for the board.

The Governor is the chief executive officer of the Bank, and as such is responsible for the direction and control of the Bank's affairs. In the absence of the Governor, the senior deputy governor exercises all the power of the office. In matters of policy and internal administration, the Governor and senior deputy governor are assisted by deputy governors, advisors, associate advisors and chiefs of departments. Each has his or her own area of responsibility and is accountable for that part of the Bank's activities. Major matters are discussed in various committees, the most important of which is the management committee composed of the Governor, senior deputy governor, deputy governors, advisors and the secretary of the bank. The activities of the management committee cover the whole range of the Bank's affairs, and it meets daily in basic or expanded form. Each department chief is responsible to the senior management of the Bank for departmental operation expenditures within the budget approved by the board of directors, and staffing and salaries within the framework of Bank-wide personnel and pay policies. The departments of the Bank fall into two categories: analytical and administrative.

## Analytical Departments

These include the Securities Department, responsible for open market operations and securities market analysis (with representatives in Toronto, Montréal, Vancouver and Edmonton), chartered bank cash management, administration of the Bank's pension fund, and domestic and external debt management operations; the Research Department, which engages in economic analysis and forecasting; the Monetary and Financial Analysis Department, which deals with monetary policy and financial institution forecasting and analysis; and the International Department, which conducts foreign exchange operations (with representatives in Toronto and Montréal) and balance of payments analysis and forecasting.

# BANK OF CANADA

---

## Administrative Departments

These consist of the department of Banking Operations (with agencies in Vancouver, Calgary, Regina, Winnipeg, Toronto, Ottawa, Montréal, Saint John and Halifax), which administers currency; the Public Debt department, which administers the domestic debt of Canada; the Secretary's department, which provides public information, central library services, press services, and some corporate services, and manages the Currency Museum and National Currency Collection; the department of Premises Management, which is responsible for management of the Bank's properties, including security matters; and several other departments with self-explanatory titles, including computer services, personnel, the Comptroller, and audit.

## Major Publications

- Governor's Annual Report — tabled each February and available late March
- Bank of Canada Review — financial and economic statistics, plus topical articles by staff and reprints of speeches by senior Bank personnel — published monthly
- Weekly Financial Statistics — released each Thursday

Telephone: (613) 563-8537

## Securities Department

This department has both operational and analytical duties. Its most important operational functions are to help implement monetary policy through adjustments in excess chartered bank cash reserves or through open market operations and to issue Government of Canada securities — treasury bills, marketable bonds and Canada Savings Bonds — both domestically and abroad.

Its analytical function is to monitor conditions in financial markets, forecast key financial flows and study financial relationships relevant to securities markets. The results are communicated to the Bank's senior officers for their use in formulating monetary policy, advising government on matters related to debt management, and influencing the development of capital market structures appropriate to Canadian needs.

## Research Department

The department's primary responsibility is to assess the significance of current economic developments and prospects in Canada and the United States and to keep Bank management fully informed about them. An aspect of this responsibility is to seek further understanding of the operation of the economy and of public policies which are, or could be, employed in an attempt to regulate it.

## Department of Monetary and Financial Analysis

The department is responsible for monitoring and analyzing the behaviour of the chartered banks, other financial institutions and capital markets in response to monetary policy and other forces at work in the financial system.

### EDP Systems

- CAPMART
- CORPSTAT
- FINFLO

## International Department

This department's principal responsibilities include the conduct of foreign exchange operations as fiscal agent for the government and the Bank, and analyses of current and prospective developments in exchange markets, the Canadian balance of payments, economic activity overseas and the international payments system.

### Manuals

- Statistics Canada — Bank of Canada Commodity Trade Concordance

## Department of Banking Operations

The overall responsibility of the department is to provide efficient and effective service to other central banks, international financial organizations, the Government of Canada, chartered banks, trust companies and all other financial organizations. Its responsibilities include the security and administration of valuables such as gold, securities and currency. The department also provides fiscal functions for which the Bank of Canada acts as an agent for the Government of Canada. These functions include the clearing of government obligations and receiving deposits for the account of the Government of Canada.

### Manuals

- Agency Procedures Manual
- Interim Procedures Circulars

## Public Debt Department

This department is responsible for the administration of direct and certain guaranteed debt issues of the Government of Canada. Its functions include the obtaining and distribution of supplies of debt certificates, the maintenance of registers and records for control purposes, the payment of interest and the retirement of the debt.

### Manuals

- Data Processing Clerical Manuals
- Data Examination and Preparation Manuals
- Control of Data and Valuables Manuals
- Sample Letter Catalogue
- Records Retrieval Manual
- External Procedures Manuals
- Statistics Manuals

## Comptroller's Department

This department is responsible for the internal financial functions of the Bank, such as the processing, monitoring and reporting of receipts and payments for management and statutory reporting requirements. These responsibilities involve co-ordination of the annual planning budgeting exercise and subsequent control; processing payments for goods, services, payroll and unclaimed balances; recording

# BANK OF CANADA

transactions for administrative expenditures and market operations; accounting for and reporting the Bank's financial position; and keeping records of items in safekeeping.

*Description:* Reports of economic and financial developments in the Atlantic region of Canada; also activities of various organizations that relate to capital market developments of interest to the Bank of Canada. *Topics:* Capital market coverage; government regulatory bodies.

BOC/SEC-010 *Formerly Identified as:* BC-20

### Money Market Analysis and Primary Distribution

*Description:* Information on the general financial market activity of various institutions and organizations with particular emphasis on the money market arrangements (with Bank of Canada) and money market activity of banks and investment dealers. *Topics:* Industries and associations; financial institutions; stock exchanges; insurance companies; mortgage companies; finance companies; non-financial institutions; primary distributors; jobber money market report; municipal financing; banker's acceptances. *Retrievability:* Files arranged by subject and company.

BOC/SEC-015 *Formerly Identified as:* BC-30

### Primary Distributors — Jobbers

*Description:* Information on the financial arrangements between the Bank of Canada and major Canadian investment dealers relating to money market activities. *Topics:* Jobbers by name.

BOC/SEC-020 *Formerly Identified as:* BC-40

### Primary Distributors — Dealers

*Description:* Reports on the volumes of transactions in the Canadian securities markets — used to assess the level of activity in Canadian securities markets. *Topics:* Dealers by name. *Retrievability:* Files arranged geographically and by company.

BOC/SEC-025 *Formerly Identified as:* BC-50

### Primary Distributor Statistics

*Description:* Detailed statistical information on the levels of participation by each Canadian investment dealer in each Government of Canada loan. *Topics:* Jobbers and dealers by name. *Retrievability:* Files arranged by institution, company and region.

BOC/SEC-030 *Formerly Identified as:* BC-60

### Open Market Operations and Securities Market Analysis

*Description:* Statistical and analytical information relating to financial markets. *Topics:* Interest rates; treasury bills; comments on markets; purchase and resale agreements; stock averages and prices; short-term paper; bond quotations; issues placements; bond prices; yields and quotes; securities transactions; holdings of securities; U.S. securities; Bank of Canada portfolio; provincial, corporate and municipal markets; interest rate futures; client investment accounts — arrangements with Bank of Canada; client transactions. *Storage Medium:* Microfilm.

BOC/SEC-035 *Formerly Identified as:* BC-70

### Chartered Bank Cash Management

*Description:* Information relating to the cash reserve management operations of the Bank of Canada and the chartered banks; the assets and liabilities of the Bank of Canada; and the characteristics of the institutional relationship within the clearing and settlement system. *Topics:* Advances; cash reserves; reserve requirements; clearings and payments system; Government of Canada deposits; note circulation; statements; compensation to financial institutions; chartered banks;

Bank of Canada balance sheets; direct clearing members of the Canadian Payments Association. *Retrievability:* Files arranged by subject and institution.

BOC/SEC-040 *Formerly Identified as:* BC-80

### Canada Savings Bonds — General

*Description:* Information on the payment of various fees to companies involved in the sale of Canada Savings Bonds; also reports on the monitoring and analysis of the results of the sale of Canada Savings Bonds. *Topics:* Canada Savings Bonds arrangements; commissions; redemptions; studies; surveys; reports; payroll; advertising; campaigns; public relations.

BOC/SEC-045 *Formerly Identified as:* BC-90

### Canada Savings Bonds — Sales and Issuing Agents

*Description:* The administrative arrangements between the Bank of Canada and eligible Canada Savings Bond (CSB) sales agents. *Topics:* Sales agents; issuing agents; trust companies; trust companies — non-listed; CSB sales agents other than trusts; issuing agents other than trusts and banks. *Retrievability:* Files arranged by company.

BOC/SEC-050 *Formerly Identified as:* BC-100

### Domestic Financing — General

*Description:* The release of general information outlining the terms and conditions of Government of Canada new loan issues. *Topics:* New loan and bond auction press releases; prospectuses; confirmation of offering; procedures; allotments; participation; statements.

BOC/SEC-055 *Formerly Identified as:* BC-110

### Domestic Financing — Matured Government of Canada Loans and Canada Savings Bonds

*Description:* Historical statistical information on the administrative details of each Government of Canada loan operation; used as research material for current borrowing operations. *Topics:* Loans by name or maturity. *Storage Medium:* Microfilm.

BOC/SEC-060 *Formerly Identified as:* BC-120

### Government of Canada — Foreign Financing

*Description:* Legal documentation for Government of Canada foreign loans and standby credit facilities. Statistical information used to monitor and analyze developments in international capital markets. Statistical and administrative documentation of the procedures undertaken by the Government of Canada to borrow abroad. *Topics:* Government of Canada foreign loans issued; standby credit facilities; foreign underwriters. *Retrievability:* Files arranged by loan and issue date and by company.

BOC/SEC-065 *Formerly Identified as:* BC-130

### Government of Canada Cash Projections and Debt Management Planning

*Description:* Information on the preparation of the Bank of Canada's projection of the Government of Canada's cash balances and the monitoring and analysis of government spending patterns. *Topics:* Federal budget and estimates; Bank of Canada projections; government cash reports; other projection reports; public accounts projections — budgetary and non-budgetary; provincial and municipal reports. *Retrievability:* Files arranged by subject, geography, institution and government department or agency.

BOC/SEC-070 *Formerly Identified as:* BC-140

### Special Studies and Analysis

*Description:* Studies and analyses of the various techniques used to implement monetary policy, debt management and securities market strategy. *Topics:* Debt management analysis; cash reserve management studies; interest rate analysis; macroeconomics policy papers; capital market analysis; money market analysis; Canada Savings Bond analyses and surveys; studies on inflation; purchase and resale agreement studies; marketing government debt.

# BANK OF CANADA

BOC/RES-075 *Formerly Identified as:* BC-190

## **General Economics and Economic Policy**

*Description:* Information on economic history, methodology, comparative economic systems and Canadian macroeconomic policy (fiscal, monetary, wage and price controls). *Topics:* Methodology; history; systems; the public sector. *Storage Medium:* EDP systems.

BOC/RES-080 *Formerly Identified as:* BC-200

## **Economic Projections and Economic Models**

*Description:* Information on the structure and use of Bank of Canada econometric models; also economic projections for the Canadian and U.S. economies. *Topics:* Models and model development; economic projections — Canada, U. S. and others. *Storage Medium:* EDP systems.

BOC/RES-085 *Formerly Identified as:* BC-210

## **General Outlook and Current Analysis**

*Description:* Information on current and prospective developments in particular sectors (disaggregated according to National Income Accounts conventions) of the Canadian and U.S. economies. *Topics:* Canada — demand sectors, supply sectors, economic cycles; U.S. — demand sectors, supply sectors, economic cycles. *Storage Medium:* EDP systems.

BOC/RES-090 *Formerly Identified as:* BC-220

ACCESS TO INFORMATION  
COORDINATOR  
CANADA COUNCIL  
255 ALBERT STREET  
P.O. BOX 1047  
OTTAWA, ONTARIO  
K1P 5V8

## Background

The Canada Council was created by Parliament in 1957 (*Canada Council Act*, 1957, RSC 1970 C.2, as amended). Its mandate, according to Section 8(1) of the Act, is to foster and promote the study, enjoyment and production of works in the arts. In particular, but without limiting the generality of the foregoing, the Council may, in furtherance of its objectives:

- assist, co-operate with and enlist the aid of organizations, the objects of which are similar to any of the objectives of the Council;
- provide, through appropriate organizations or otherwise, for grants, scholarships or loans to persons in Canada for study or research in the arts in Canada or elsewhere, or to persons in other countries for study or research in the arts in Canada;
- make awards to persons in Canada for outstanding accomplishment in the arts;
- arrange for and sponsor exhibitions, performances and publications of works in the arts;
- exchange with other countries, or organizations or persons there, knowledge and information on the arts; and
- arrange for representation and interpretation of Canadian arts in other countries.

The arts are defined in Section 2 as “architecture, the arts of the theatre, literature, music, painting, sculpture, the graphic arts and other similar creative and interpretive activities.” The Council’s concerns include not only existing but also emerging new artists, audiences, arts organizations and works in the arts.

## Overall Responsibilities

The general policy objective of the Canada Council is to recognize, foster and promote excellence in the arts. Most of its grants are awarded through an extensive system of competitions judged by juries of practising artists and other independent specialists in the particular disciplines. The principles of advertised competition and peer evaluation are integral to the decision-making process of the Council.

## Canadian Commission for UNESCO

In addition to its mandate to foster and promote the arts, the Canada Council has been assigned responsibility for the Canadian Commission for the United Nations Educational, Scientific and Cultural Organization (UNESCO) under Section 8(2) of the Act, Order-in-Council PC 1957-831, and in conformity with the constitution of UNESCO.

## Major Publications

The Canada Council publishes a quarterly news bulletin, a press review, a film catalogue and occasional documentary and research papers.

## Manuals

- Minutes of the Canada Council — contains all decisions of the Council
- Canada Council Policies and Procedures — contains administrative and financial guidelines
- Chart of Financial Accounts — coding of all accounts pertinent to the Council’s financial management information system; includes account name, code, responsibility centre, etc
- Canada Council Policies — narrative program description

including general, historical, legislative and specific program information as well as description of the awarding system

- Financial and Budget Control Computer Reports — includes budget variance reports, general ledger, master vendor (grant and trial balance reports, issued monthly)
- Assessor’s Book — contains names of assessors and jurors chosen from among the best professionals in the disciplines and activities concerned; reviewed and approved by the advisory arts panel members

## Access Procedures

All formal requests under the *Access to Information Act* should be directed to

Access to Information Co-ordinator  
Canada Council  
255 Albert Street  
P.O. Box 1047  
Ottawa, Ontario  
K1P 5V8  
Telephone: (613) 237-3400

## Arts Division

This division is responsible for assessing and recommending applications for support to individual artists and arts organizations. It currently consists of nine sections including the Awards Service, Dance, Explorations, Media Arts, Music, Theatre, Touring Office, Visual Arts (including the Art Bank) and Writing and Publication.

## Arts Awards Service

This service is responsible for support to individual professional artists for creative activity or skill improvement in architecture, arts administration, arts criticism, creative writing, dance, film, multidisciplinary work and performance art, music, photography, theatre, video, and the visual arts. Its programs include arts grants “A” and “B”, short-term grants, project cost grants, travel grants, grants for international representation and visiting artist grants.

## Dance Section

This section is responsible for support to professional Canadian dance companies, organizations and associations in ballet, modern and experimental dance. Its programs include grants to dance companies; grants for choreographic workshops; grants to independent choreographers; grants to dance schools; grants to service organizations; aid to dance spaces; grants to presenters of independent dancers and choreographers; and the communications fund.

## Explorations Program

This program is responsible for grants given to investigate new forms of cultural expression and participation. Grants are provided to individuals or organizations for innovative projects, within or outside traditional arts disciplines, which contribute towards an understanding of Canada’s cultural past or the development of its cultural future.

## Media Arts Section

This section provides support for the direct, creative use of conventional and new technologies and related media by independent, professional artists. It administers three major programs: film and holography; video and audio; and integrated media (computer processing, imaging — audio and video — or system control, videotex and teletext, laser techniques, video/disc and optical storage media). Its programs include production grants, aid to organizations, special projects, grants for workshops, communications funds, videotape fund and equipment loan, and the Canada Council Film Collection.

## Music Section

This section is responsible for support to Canadian music companies, organizations and associations. Its programs include grants to orchestras; grants to opera companies; grants to other music groups and organizations; grants to amateur choirs; commissioning of Canadian composers; orchestra managers' training program; aid to recording of Canadian performers and composers; and the communications fund.

## Theatre Section

This section is responsible for support to professional theatre companies, organizations and associations. Its programs include grants to theatre companies, the playwrights-in-residence program and the communications fund.

## Touring Office

The office supports touring by Canadian performing artists, the development of management for Canadian tours and artists and tour co-ordination and promotion. Its programs include touring grants; apprenticeship program; Concerts Canada program; festivals program; performing arts venture capital fund; and the communications fund.

## Visual Arts Section

This section is responsible for support to visual arts institutions and associations. Its programs include aid to artist-run spaces; aid to public arts galleries; aid to print workshops; the visiting artist program; and artists studios in New York.

## Art Bank

Within the Visual Arts Section, the Canada Council Art Bank purchases works of contemporary Canadian art and rents them to federal government departments and agencies as well as other public institutions and non-profit organizations. The Art Bank also organizes exhibitions of its collection and occasionally lends works for exhibitions by other institutions.

## Writing and Publication Section

This section is responsible for support to publishing companies, organizations and associations, and for certain programs of support to writers. Its programs include block grants; project grants; translation grants; aid to periodicals; book purchase donation program; promotion and distribution of Canadian books and periodicals; promotion tours by authors; public readings program; National Book Festival; writers-in-residence program; literary prizes and awards; international writers' exchange program; and grants to national associations of writers, book publishers and periodical publishers.

# **CANADA DEPOSIT INSURANCE CORPORATION**

## **Chapter 8**

# CANADA DEPOSIT INSURANCE CORPORATION

---

# CANADA DEPOSIT INSURANCE CORPORATION

---

## Background

The Canada Deposit Insurance Corporation (CDIC) was established in 1967 by the *Canada Deposit Insurance Corporation Act* to provide insurance against the loss of deposits for persons having deposits with a member institution of the Corporation, up to a maximum of \$60,000 for any one depositor. Membership in the Corporation is obligatory for chartered banks, a bank to which the *Quebec Savings Bank Act* applies, and federally incorporated loan and trust companies which accept deposits from the public. Provincially incorporated loan and trust companies which accept deposits from the public are eligible to apply for membership if they have the consent of the province of incorporation. The definition of "deposit", set out in a schedule to the Act, may be summarized as: money received by a member institution that is repayable on demand, or on a fixed or determinable date that is within five years from the date of the deposit. Deposits not payable in Canada or payable in foreign currency are not insured.

## Laws and Regulations

- Office Consolidation — Canada Deposit Insurance Act
- Canada Deposit Insurance Corporation General By-Law

## Organization

The board of directors of the Corporation consists of a Chairman appointed by the Governor-in-Council, and four directors who hold the positions of Governor of the Bank of Canada, deputy minister of Finance, Superintendent of Insurance, and Inspector General of Banks. The board of directors reports to Parliament through the Minister of Finance.

The only personal information maintained by the Corporation is that which relates to its employees.

# CANADA LABOUR RELATIONS BOARD

---

## Background

Until the appointment of the present Board, the Canada Labour Relations Board (organized in 1948) was composed of members appointed by the federal government to deal, on a part-time basis, with the orderly resolution of trade union representation disputes under the *Industrial Relations and Disputes Investigation Act*. This dealt chiefly with applications for certification and decertification of trade unions for employees of industries that came under federal jurisdiction. This Board, which had representation from both management and labour, met when required and officers and staff of the Employee Representation branch of the Department of Labour performed the administrative and operational duties.

The present Canada Labour Relations Board was established in 1972 by the amended Canada Labour Code (R.S.C. 1970, C L-1 as amended by S.C. 1972, c. 18) and became effective March 1, 1973. The Board is designated as a Department within the meaning of the *Financial Administration Act* and reports to Parliament through the Minister of Labour.

Appointments to the Board are by Orders-in-Council, for terms of up to five years for Board members and up to ten years for Chairman and Vice-Chairmen. Section 111(2) of the Canada Labour Code provides for a Chairman, from one to five Vice-Chairmen and from four to eight Board members.

The members of the Board are full-time appointees with experience and knowledge of industrial relations and labour law. As members of a non-partisan board they are prohibited from holding any other remunerated office or employment.

The Board conducts hearings in all provinces and territories in order to be accessible to parties having business before it. A quorum of three members, which includes the Chairman or a Vice-Chairman, has the power to transact business and hand down decisions.

## Laws and Regulations

- Canada Labour Code
- Canada Labour Relations Board Regulations, 1978, SOR 78-499

## Overall Responsibilities

Part V of the Canada Labour Code (Industrial Relations) charges the Board with a two-fold responsibility: to grant, modify and terminate bargaining rights; and to resolve, through mediation or adjudication, complaints of unfair labour practice concerning violations of the Code by trade unions or employers. On finding a violation of the Code, the Board is empowered to order reinstatement and compensation where appropriate. It is also empowered, upon application, to order employees to return to work in cases of illegal work stoppages and attempt to resolve or adjudicate, where necessary, various other types of disputes that may arise under Part V of the Code.

## Organization

The present Board is made up of the Chairman (who is the Chief Executive Officer), four Vice-Chairmen and eight Board members. The Board has a single program consisting of the administration of certain sections of Parts IV and V of the Canada Labour Code. It is supported in this activity by investigation and mediation staff in five offices in Dartmouth, Montréal, Toronto, Winnipeg and Vancouver, as well as at its headquarters in Ottawa.

Staff in the regions and at headquarters process all applications and complaints which come before the Board, conduct investigations, mediate complaints, attempt to achieve settlements and conduct votes. Headquarters staff also provide support services at hearings and in-camera meetings, maintain a registry of case files, and issue the

decisions of the Board. There is also a division which is responsible for planning and program development.

There are no operational manuals as such; various operational guidelines and directives exist, but these are not assembled in a common manual.

## Major Publications

The Board publication *di* (decisions and information) contains the Board's reasons for decision in full, in both official languages, along with a brief subject index. Decisions in cases for which no formal reasons are issued are also listed briefly. The publication also contains statistical tables on the number and regional distribution of hearings held, and on the number and types of applications received during specified periods.

The Board also publishes an annual report as required by Part V of the Canada Labour Code (Industrial Relations), Section 210. The report contains a summary of the Board's activities for the fiscal year along with statistical tables and a financial statement.

The Board has also published *Your Rights* under the Code, a booklet designed to describe in clear language the rights and obligations of all persons and parties covered by Part V of the Canada Labour Code and to outline the procedures to be followed by persons or parties who have suffered as a result of non-compliance or violation of the Code by some other person or party.

## Key Contacts

The Canada Labour Relations Board's (CLRB) five regional offices establish the Board's presence in all parts of Canada and facilitate the filing of applications and complaints. In addition to investigating applications and mediating complaints the regional offices are available to provide general information and assistance to the public in the regions.

General information may be obtained by telephone, in writing or in person at any of the regional offices and at CLRB headquarters.

## Classes of Records

CLR/OPS-005 *Formerly Identified as:* CLRB-10

### Acquisition and Termination of Bargaining Rights

*Description:* Case files concerning the acquisition by trade unions of the right to bargain collectively on behalf of employees in the federal jurisdiction, through certification as bargaining agent or by way of successor rights, and the termination of bargaining rights. *Topics:* Application for certification; application for declaration of single employer; application for revocation of certification; application for declaration of successor rights; application for declaration of sale of business; application for access to employer's premises for the purpose of soliciting union membership.

CLR/OPS-010 *Formerly Identified as:* CLRB-20

### Complaints of Unfair Labour Practice

*Description:* Complaints by persons or organizations that an employer, a trade union or a person has violated or failed to comply with provisions of the Canada Labour Code, Part V (Industrial Relations). *Topics:* Complaints related to failure to bargain in good faith, interference with the bargaining rights of a bargaining agent and changing of conditions of employment without the consent of the bargaining agent during the prescribed bargaining period; complaints alleging offences by employers such as interference with the formation or administration of a union or the representation of employees by a trade union, or discrimination against employees for union membership, union activity or the exercise of their rights under the Code; complaints alleging violations by trade unions such as trying to force an employer to bargain collectively in respect of employees for whom the union is not the bargaining agent, bargaining with an employer in respect of employees with the knowledge that another organization is the actual bargaining agent, interference in the formation or administration of an employer's organization, unauthorized soliciting of employees during their working hours at their place of employment, requiring the termination of an employee for loss of union membership unless that loss of membership is the result of failure to pay the required union fees, the application of membership rules or disciplinary procedures in a discriminatory manner, and discriminating against a person in matters related to employment or union membership because a person has exercised certain rights or fulfilled specified obligations under the Code; complaints alleging failure of a trade union to represent fairly all employees in the bargaining unit, or failure to establish rules for the referral of members to employment and apply the rules fairly, and alleging failure of a trade union to provide certified financial statements of its affairs to the end of its last fiscal year to any of its members free of charge.

CLR/OPS-015 *Formerly Identified as:* CLRB-30

### Unlawful Work Stoppage

*Description:* Applications by an employer (in the case of a strike) or by a trade union (in the case of a lockout) for a declaration that the work stoppage is unlawful and for an order returning employees to work. *Topics:* Applications concerning unlawful strikes; applications in cases of unlawful lockout.

CLR/OPS-020 *Formerly Identified as:* CLRB-40

### Safety of Employees

*Description:* Complaints by employees either alleging that their employer has imposed a penalty on them because they refused to work in accordance with their rights under Part IV of the Canada Labour Code (Refusal to Work because of Imminent Danger) or requesting the Board to review a safety officer's decision concerning a refusal to work on grounds of imminent danger.

CLR/OPS-025 *Formerly Identified as:* CLRB-50

### Review and Enforcement of Orders

*Description:* Applications to amend or rescind previous Board decisions or to reconsider previous decisions; requests to file Board orders in the federal court to give them the weight of an Order of the Court; or applications for the written consent of the board to prosecute an offence under the Canada Labour Code. *Topics:* Application for review; filing of Board order in court; consent to prosecute.

CLR/OPS-030 *Formerly Identified as:* CLRB-60

### Collective Bargaining and Collective Agreements

*Description:* Applications concerning the existence of disputed collective agreements or the identification of parties bound by a collective agreement; applications concerning the failure of an employer to comply with obligations under a collective agreement respecting any proposed technological change; applications for permission to give the employer notice to begin collective bargaining

## CANADA LABOUR RELATIONS BOARD

---

following a notice of technological change; references from the Minister of Labour directing the Board to inquire into disputes related to the settlement of first collective agreements, and to impose a first agreement on the parties if necessary; applications by parties to a collective agreement to serve notice to bargain following the establishment of a portion of the public service as a Crown Corporation and following certain determinations by the Board as to whether the agreement will remain in force, the expiration date if it does remain in force, whether the employees concerned constitute one or more units appropriate for collective bargaining, and which trade union shall be the bargaining agent for each unit. *Topics:* Determination of the existence of a collective agreement; revision of

terms of collective agreement; technological change; leave to serve notice to bargain concerning technological change; provision of first agreement; portion of the public service established as Crown Corporation.

CLR/OPS-035 *Formerly Identified as:* CLRB-70

### **Change of Terms and Conditions of Employment**

*Description:* Application by employers under federal jurisdiction for permission to alter the rates of pay, or any other terms or conditions of employment, or any rights or privileges of employees who are the subject of an application by a trade union to represent the employees in collective bargaining.

# **CANADA LANDS COMPANY LIMITED**

## **Chapter 10**

# CANADA LANDS COMPANY LIMITED

---

## Background

The Canada Lands Company Limited has, by virtue of its letters patent of incorporation, the power to acquire, purchase, lease, hold, improve, manage, exchange, sell, turn to account or otherwise deal in or dispose of real or personal property or an interest therein. However, it has been used only to hold certain leasehold interests in one property in London, England, and two properties on Indian reserves in Canada. The Corporation is also the sole or majority shareholder in three subsidiary corporations.

## Organization

The Canada Lands Company Limited, has no operational staff. Its three directors are employees of Public Works Canada.

## Background

The Canada Mortgage and Housing Corporation (CMHC) was incorporated as a Crown corporation on 1 January 1946 by an Act of Parliament, with the authority to act for the Government of Canada in all matters prescribed under the Housing Acts, principally the *National Housing Act (NHA)*. The Corporation reports to Parliament through a designated Minister. The affairs of the Corporation are managed by a Board of Directors consisting of the Chairman of the Board, the President, a designated Vice-President, five members from the public at large, and two members from the public service, all appointed by the Governor-in-Council.

## Laws and Regulations

CMHC's activities are governed by the *National Housing Act* and its Regulations, the *Canada Mortgage and Housing Corporation Act* and, in certain respects, the *Financial Administration Act*.

## Overall Responsibilities

The CMHC's mission as stated in the *National Housing Act* is to promote the construction of new houses, the repair and modernization of existing housing, and the improvement of housing and living conditions. Some of these programs have been used to further government objectives such as economic growth, job creation and energy conservation.

Under the terms of the *NHA*, the Corporation is authorized, on the government's behalf, to establish a system of mortgage loan insurance; to acquire and develop lands for public purposes; and to assist Canadians, mainly by the provision of loans and contributions, in gaining access to suitable accommodation, whether as homeowners, tenants or members of co-operative organizations, and in improving existing dwellings and the quality of their community environment. It also has a general mandate to improve the quality of housing and community planning through research, development and the dissemination of information, and to act as a policy adviser to the government.

The Corporation pursues its mission through seven distinct planning elements for the purpose of planning and budgeting. These include: Mortgage Loan Insurance, Market Housing, Social Housing, Rehabilitation and Conservation, Community Services, Research, Development and Information, Corporate Financing.

The Corporation's activities are grouped into three categories as provided for by its legal and financial framework: Administered Funds, Asset Administration and Services to Others, and Government Programs.

## Organization

The President is the Chief Executive Officer. Other executive officers include: the Senior Vice-President; Vice-Presidents responsible for Insurance, Programs, Finance and Management Information Systems, Policy Development and Research, and Organization Development; and the General Counsel and Corporate Secretary.

The Corporation's staff of some 3,700 employees are located at the national office in Ottawa and in 70 offices throughout Canada. Its field organization is divided into five regions: Atlantic, Québec, Ontario, Prairie and Northwest Territories, British Columbia and Yukon, each headed by a general manager. CMHC Technical Services, which includes the administration of the Canadian Home Insulation Program (CHIP), is also directed by a general manager. There is a provincial director in each provincial capital in the Atlantic region and in the Prairie and Northwest Territories region who also acts as the local branch manager.

## Major Publications

- CMHC Publications Catalogue (NHA 5006)
- National Housing Loan Regulations
- Residential Standards, Canada 1980 (Metric Edition) — the minimum building standards for housing built under the *National Housing Act*; issued by the Associated Committee on the National Building Code
- National Housing Act
- Canada Mortgage and Housing Corporation Act
- CMHC Guidelines and Procedures Manual (32 Volumes) — CMHC business systems documentation
- General Memoranda and the Regional Directives — specific procedures and guidelines issued concerning specific actions; General Memoranda are usually incorporated at a later date into the Guidelines and Procedures Manual
- NHA Loan Insurance Handbook — instructions on loan processing for *National Housing Act* — approved mortgage lenders, on loan administration practices, and on claims against the Mortgage Insurance Fund
- Corporation Instruction Manual — old guidelines and procedures manual containing instructions not yet incorporated into the new guidelines and procedures manual

## Access Procedures

Requests for CMHC records under the *Access to Information Act* should be addressed to

Access to Information and Privacy Office  
Canada Mortgage and Housing Corporation  
National Office  
682 Montreal Road  
Ottawa, Ontario  
K1A 0P7  
Telephone: (613) 748-2843

## General Information

### Information and Communications Centre

The Information and Communications Centre (ICOM) answers questions from the press and the public about Canada Mortgage and Housing Corporation's activities and programs, distributes publications, issues news releases and markets CMHC programs and services. To get your name on a mailing list, specify your area of interest and contact the centre at the following address:

Information and Communication Centre (ICOM)  
Canada Mortgage and Housing Corporation  
LaSalle Academy  
373 Sussex Drive  
Ottawa, Ontario  
K1A 0P7  
Telephone: (613) 748-2609  
Telex: 053-4842

### Information Officers

The Corporation has trained information officers at its national office in Ottawa and in each of its regional offices across the country. The regional offices are: Atlantic, located in Saint John, New Brunswick; Québec, located in Montréal; Ontario, located in Toronto; Prairies and the Northwest Territories, located in Saskatoon; and British Columbia and the Yukon Territory, located in Vancouver. The public should enquire about CMHC programs and services at the nearest CMHC office.

# CANADA MORTGAGE AND HOUSING CORPORATION

## Publications

The Information and Communications Centre (ICOM) maintains the CMHC publications list (NHA 5006). It includes brochures, periodicals, books and bibliographies dealing with national housing regulations and standards, home selection and housing programs, metric aids, planning, design and construction, housing rehabilitation and energy conservation, the elderly and the handicapped, and children. (For 20 copies or more a 30 percent discount is available for educational institutions and non-profit organizations.)

## Library

The Canadian Housing Information Centre (CHIC) contains 60,000 publications on all aspects of house building and community development. It also has a number of special collections, including material on housing for disabled persons and all reports from the United Nations Human Settlements Conference, Habitat, which was held in Vancouver in 1976. It subscribes to 750 Canadian, British and American journals and newsletters. CHIC makes available all research reports undertaken under Part V of the *National Housing Act*. CHIC publishes and distributes quarterly a listing of all Part V studies under way or recently completed, entitled Recent Research Funded by CMHC (Quarterly Report).

The library staff will provide factual or bibliographic information on housing matters to anyone who enquires. The centre welcomes such enquiries, which may be made by mail, telephone, telegram, telex, or in person.

Documents, articles, reports and other material of reasonable length will be sent out on request. Books, extensive collections and similar material may be consulted in the Centre or in other libraries in the National Capital Region with which CMHC maintains reciprocal lending arrangements. The centre is open from 8:30 a.m. to 4:45 p.m. on weekdays from September until the end of May and from 8:30 a.m. to 4:15 p.m. from June to the end of August.

## General Counsel and Corporate Secretary Sector

The sector is composed of three units: Legal Division, Office of the Corporate Secretary and Access to Information and Privacy Office (ATIP).

### Legal Division

Legal Division prepares CMHC's legislative program to effect new policy proposals, reviews proposed legislation, enactments and decisions of interest to CMHC originated elsewhere, and conducts or supervises the conduct of litigation and legal proceedings to which CMHC is a party. It also provides final legal review of, and makes recommendations to, CMHC administrators on all legal documents, CMHC programs, and federal-provincial and other intergovernmental agreements.

### Manuals

- Legal Services, Vol. 28 of the CMHC Guidelines and Procedures Manual

### Office of the Corporate Secretary

The Office of the Corporate Secretary is responsible for facilitating the work of members of the board of directors and officers of the Corporation by managing the decision-making process, including the process of making submissions to the board of directors and committees, the planning and organizing of meetings, and the recording, communicating and follow-up of decisions to ensure implementation. The office acts as custodian of the Corporate seal, minute books, by-laws, resolutions and CMHC Cabinet, Treasury Board and Order-in-Council submissions and decisions. The assistant corporate secretary certifies official documents and co-ordinates the production of the annual report to Parliament. The Office of the Corporate Secretary also co-ordinates liaison with the national executives of housing-related industry associations.

### Manuals

- Corporate Overview, Office of the Corporate Secretary, Vol. 1 of the CMHC Guidelines and Procedures Manual — describes the decision-making process of the Corporation
- CMHC General Management Structure — describes Corporate organizational principles and managerial responsibilities and the specific roles, core functions and authorities of members of senior management
- Cabinet Paper Systems (Privy Council Office) — describes the procedures for writing and handling cabinet documents
- Office of the Corporate Secretary Procedures

### Access to Information and Privacy Office

The Access to Information and Privacy Office is responsible for the co-ordination and administration of the *Access to Information Act* and the *Privacy Act* within the Corporation.

### Manuals

- Access to Information, Vol. 28 of the CMHC Guidelines and Procedures Manual — describes reporting requirements and operating procedures for handling requests for access to CMHC held records. It provides information relating to the application of exemptions to records or parts of records and complaints about the Act's application. The Privacy section, in the same volume, describes policies and procedures to protect personal information and operating procedures for handling requests for personal information

## Programs Sector

### Social Housing Division

The division is responsible for assisting Canadians whose income is insufficient to obtain affordable, adequate and suitable accommodation by supporting the production and provision of well-targetted, cost-effective housing, either unitarily or in conjunction with the provinces, municipalities and their agencies, Indian bands and native organizations, and non-profit and co-operative housing organizations.

### Manuals

- Social Housing, Vol. 7 of the CMHC Guidelines and Procedures Manual — describes the administration of Social Housing Programs

### Rural and Native Housing Division

The division is accountable for the delivery of rural and native housing programs to natives in all areas, to Indians on reserves and to low income people, in communities with a population of less than

# CANADA MORTGAGE AND HOUSING CORPORATION

2,500 and for the encouragement of maximum client involvement in meeting their housing needs. It provides guidelines and procedures for field office delivery of housing units with provincial agencies, Indian and Northern Affairs Canada (INAC) on-reserve activity and client groups, and renovations and repairs of units under the rural Residential Rehabilitation Assistance Program (RRAP) and Emergency Repair Program. It administers support mechanisms, including operating expense assistance, project funds, secondment of administrative and technical staff, native cadre training and client training courses, training material and equipment.

## Manuals

- Rural and Native Housing, Vol. 8 of the CMHC Guidelines and Procedures Manual — describes the administration of the rural and native housing programs
- Rural Residential Rehabilitation Assistance Program (RRAP) Handbook
- Counselling Handbook — Homeownership

## Residential and Community Improvement Division

The division promotes and supports the rehabilitation of substandard housing and the improvement of existing housing. It develops and maintains adequate program training and guidance material, distributes program promotion and information aids, maintains ongoing monitoring of the program management.

The division provides national direction to the land assembly, municipal infrastructure, municipal incentive grants and urban renewal programs. Its tasks include program planning, monitoring of field operations, provision of direction and assistance to field offices, development of program changes and improvements, identification of policy issues, provision of information and recommendations to management and the implementation of management decisions. The division also provides the Corporation with representation on the Treasury Board Advisory Committee on Federal Land Management.

## Manuals

- Neighbourhood Improvement Program and Residential Rehabilitation Assistance Program, Vol. 6 of the CMHC Guidelines and Procedures Manual — describes the administration of these programs
- Canada Home Renovation Plan (CHRP), General Memorandum — describes policies and procedures for the program's administration
- Trainer's Guide and Student's Handbook — training and rehabilitation skills
- Municipal Infrastructure and Land Assembly, Vols. 4 and 5 of the CMHC Guidelines and Procedures Manual — describe the administration of the programs
- Corporation Instruction Manual, Urban Renewal

## Insurance Sector

### Underwriting Division

The division promotes the effective operations of the mortgage insurance market and the housing market by providing leadership in mortgage insurance on a full recovery basis while pursuing additional public policy objectives.

It predicts claims risks; provides claims forecasts; monitors and fosters development of the mortgage insurance market and industry; recommends changes in legislation; monitors underwriting policies and procedures; develops new policies and procedures; documents and communicates with the field and clients; provides training in mortgage loan underwriting; administers the Mortgage Backed Securities Program; evaluates special projects.

It also recommends approval of new lenders; establishes effective two-way communication with lenders, builders and realtors; promotes the use of *NHA* insurance; and monitors the financial and managerial capability of developers.

## Manuals

- *National Housing Act* Loan Insurance Handbook
- Underwriting, Vol. 3 of the CMHC Guidelines and Procedures Manual — guidelines on underwriting of *National Housing Act* loans
- Common Program Guidelines and Procedures, Vol. 10 of the CMHC Guidelines and Procedures Manual — describes the reporting of statistical data for *National Housing Act* loans and the septic tank lending policy

## Mortgage and Insurance Claims Division

The division develops policies and procedures and administers Corporation-owned mortgages and housing subsidy programs. It monitors and evaluates activity, reviews reports and counsels field office personnel on all their loan administration responsibilities.

The division is also responsible for the prevention and the settlement of claims against the Mortgage Insurance Fund (MIF). It recommends changes in legislation, develops policies, directives, guidelines and procedures, monitors approved lenders' arrears, and makes interventions with the lenders to ensure proper arrears control and to salvage projects in financial difficulty in order to minimize the number of claims. It is also responsible for the prompt and efficient settlement of claims against the Mortgage Insurance Fund and the Home Improvement Loan Insurance Fund.

## Manuals

- *NHA* Loan Insurance Handbook
- Mortgage Administration, Vol. 9 of the CMHC Guidelines and Procedures Manual — describes internal guidelines on the administration of mortgages
- Portfolio Management Training Manual for Mortgage Administration

## Real Estate Division

The division develops policies and procedures and administers real estate properties. It monitors and evaluates activity, reviews reports, and counsels field office personnel on all their property administration responsibilities.

The division also disposes of Mortgage Insurance Fund (MIF) and Corporation Owned Real Estate (CORE) assets by inviting individuals and companies to make proposals for the purchase of real estate assets, through Requests for Proposals (RFP). In conjunction with local corporate personnel, negotiations and final sales agreements are made with lead proponents following verification of their managerial background and financial capability. The division also monitors real estate marketing activities across the country for all categories of assets, and prepares and issues procedures and policies on marketing.

## Manuals

- "Singles Properties Management and Disposal" Module 2 of Property Administration, CMHC Guidelines and Procedures Manual
- Real Estate Program, General Memorandum B-1646 — explains program objectives, guidelines and authorities. Although this explains program objectives, guidelines and authorities related to multiple project sales it has been complemented by a number of directives which will be embodied in a new corporate module of sales of multiple projects

# CANADA MORTGAGE AND HOUSING CORPORATION

---

- Property Administration, Vol. 11 of the CMHC Guidelines and Procedures Manual — describes internal guidelines on the administration of properties

## National Office Support Centre

The centre provides professional and technical support for CMHC program operations and field offices through consultation and advisory services, information transfer, project monitoring and evaluations, and training. It advises on appraisal, housing design, building technology, technical drafting services and maintains liaison on these matters both within CMHC and with outside bodies. It also provides assistance in recruitment, training, and deployment of appraisal, architecture, planning landscape architecture and construction technology personnel. Assistance is also given for development, implementation and advice on technical standards and metric policies.

### Manuals

- National Office Support Centre, Vol. 23 of the CMHC Guidelines and Procedures Manual
- Corporation Appraisal Guide

## Policy Development and Research Sector

Under Part V of the *National Housing Act*, the Canada Mortgage and Housing Corporation has a mandate to undertake and support research into housing conditions, the adequacy of existing accommodation and community planning, and to disseminate the results to consumers, industry, governments, and others who can use the information to improve housing and living conditions. The Policy Development and Research Sector has five analytical divisions, a communications unit, and a small group responsible for sector administration.

### Manuals

- CMHC Research Administration Process, General Memorandum B-1652

### EDP Systems

- automated system for monitoring status of research projects
- partly automated listing of research consultants who have worked for CMHC or have approached CMHC for work in the past five years.

## Research Division

The Research Division plans and undertakes basic research directed at understanding the conditions and relationships affecting the supply and demand for housing in Canada, along with its quality and affordability. The division is responsible for the development and implementation of CMHC'S research plan, and for making resulting research findings available to the public. External incentives programs administered by the division include the Graduate Scholarship and the External Research Programs. The division manages the Canadian Housing Information Centre, a national housing research library, through which CMHC research results are made available.

### Manuals

- Graduate Scholarships Program Guidelines
- External Research Program Guidelines

## Planning Division

The division prepares annually the Strategic Policy Plan and Strategic Overview, develops housing policy proposals for submission to CMHC Management, the Minister and cabinet, provides briefings on housing issues and monitors housing related developments as they

may affect all levels of government, the housing industry and the consumer.

## Program Evaluation Division

The division carries out periodic reviews and assessments of *National Housing Act* programs on behalf of the President. A program evaluation is intended to determine, in light of present circumstances, whether the program continues to be necessary, if the program is effective in meeting its objectives, whether its design and its results are adequate. Matters such as the rationale of the program, its impact on the public and its cost-effectiveness as compared with alternative means of program delivery are considered and recommendations for improvements are made.

## Statistical Services Division

The division acquires, analyzes and makes accessible data required to monitor housing activity for public knowledge and in support of housing research and policy development. It manages major surveys conducted by or for the Corporation; disseminates *National Housing Act* program data through regular and ad hoc publications; acquires data for research applications from third parties; and produces a wide range of advisory services in fields such as operations research and financial analysis.

### Manuals

- Statistical Services, Vol. 20 of the CMHC Guidelines and Procedures Manual — describes the housing starts and completions, and the completed and unoccupied dwelling surveys

## Project Implementation Division

The division undertakes field application and testing of new solutions to housing technology problems which have potential to improve housing and community environments, in collaboration with the Research Division, industry, and other agencies. The division works to provide advice on good building practices and techniques to builders and other interested parties. The Housing Technology Incentives Program is administered by this division to support development of innovative new housing products. It also continues to manage the Corporation's interest in land development projects initiated in previous years under the Demonstration Program.

### Manuals

- Housing Technology Incentives Program application guidelines

## Policy and Research Communications Unit

The unit arranges for publication of and decides dissemination strategy for research documents produced by the sector, and assists with communication activities for policy and research undertakings.

## Sector Administration Unit

This unit co-ordinates sector-wide resource planning and administrative activities, and monitors research projects and budgets.

## Finance and Management Information Systems Sector

## Controller's Directorate

The directorate is composed of two units: Financial Services and the Investment Portfolio Accounting Division. It is responsible for the maintenance, accuracy and custody of CMHC's accounting records and the preparation of financial statements and reports. It handles the

# CANADA MORTGAGE AND HOUSING CORPORATION

---

collection, deposit and distribution of funds payable to CMHC, establishes and maintains fiscal controls, and supervises the Corporation's investments, including the accounting and custodial activities for all *National Housing Act* loans, mortgages and federal-provincial investments. It also provides program cost information for profitability analyses, obtains recoveries of funds paid out on behalf of the government and maintains the financial agreements with the Department of Finance involving the terms and conditions of CMHC borrowings.

## Manuals

- Financial Services, Vol. 16 of the CMHC Guidelines and Procedures Manual — describes accounts, accounting and financial controls
- Investment Portfolio Accounting, Vol. 17 of the CMHC Guidelines and Procedures Manual — describes operations of the Investment Portfolio Accounting Division and the accounting systems used for loans, mortgages and federal-provincial investments

## Treasurer's Directorate

The directorate is composed of six organizational groups, each specializing in a specific function. These groups are: Operating Budget and Financial Analysis Group, responsible for the processes relating to the corporate business strategy, including business and functional plans, the management of the operating plan, budget and financial reporting; Capital Budget and Estimates Group, responsible for the management of the financial authorities and forecasts related to the capital budget — loans and investments, the estimates for grants, contributions and subsidies and the corporate plan long term forecast; Financial Policy Analysis Group, responsible for the development and documentation of financial policy, and procedures matters, internal control processes and the development and maintenance of the instrument of delegation financial signing authorities; Financial Performance Reporting and Analysis Group, responsible for the management of financial performance reporting, the development and maintenance of performance standards and the cost accounting policy; Corporate Financing Group responsible for the analysis and financial viability of the asset portfolio and administrative funds; Pension Fund Group responsible for the administration of the fund policies and management of its financial assets.

## Manuals

- Finance Sector CMHC Guidelines and Procedures Manual, Vols. 15, 16, 17 and 18
- Instrument of Delegation of Financial Signing Authorities
- Pension Fund Handbook — describes the policies on investments of the pension fund and the rules on benefits
- Pension Fund Operations Manual — day-to-day operating procedures for the pension fund staff

## Systems Directorate

The directorate is composed of four units: Systems Development Division, Business Systems Support Division, Existing Computer Systems Group and Resources Management Group. The directorate plans, designs, develops, tests, integrates, implements, documents, modifies and maintains business systems (computer and manual) to support the operational functions and the management information needs of the Corporation. It also co-ordinates the production of the Corporation's guidelines and procedures manuals.

## Manuals

- CMHC Guidelines and Procedures Manual, which describes CMHC's Business Systems, 32 volumes, including a Key Word Index, a CMHC Forms Manual and a Corporate Dictionary

- Systems Development Methodology — describes step-by-step instructions to develop any new EDP system in the Corporation
- Electronic Data Processing (EDP) Standards — detailed standards for the use of the data processing staff when developing new EDP systems
- High-Level Design Methodology
- Detailed Design Methodology
- Functional Specification Manuals

## Data Processing Services Directorate (DPSD)

The directorate is composed of five groups: Production Systems, Computer Operations, Technical Planning and Support, Data Resources Management and Resources Management. It operates and maintains CMHC's computer facilities, manages the level of service provided to production systems' users, manages the evolution of the Corporation's technical environment consistent with business requirements, manages the Corporation's data, assists systems developers in the introduction of new applications into the operating environment and ensures the security of the EDP environment.

## Manuals

- Management Information Systems Sector, Vol. 27 of CMHC Guidelines and Procedures Manual, 3 modules — describes policies and procedures relative to acquisition of data processing facilities, operation of data processing systems and data management
- Computer Centre Operations Manuals — provides procedures for operating the CMHC Computer Centre and supporting users in the operation of their systems
- Computer Centre Users' Guide — provides information on the CMHC data processing hardware, support software and support services provided by the Data Processing Services Directorate (DPSD)
- DPSD News — provides regular updates to the Computer Centre Users' Guide
- Database Procedures Manuals — provides guidance relative to the development of systems which use the Corporate Database, and for the maintenance of the Database Management System
- Data Dictionary Users' Handbook — outlines policies, general information and procedures relative to the data stored in the Corporate Data Dictionary

## Organization Development Sector

### Human Resources Centre

The centre is the CMHC human resource management unit. It is responsible for developing organizational policies and model organization structures, assessing proposals for organizational changes and assisting responsibility centres in optimizing their organizational structures. It is also responsible for all aspects of personnel services such as staffing, training and official languages.

## Manuals

- Human Resources Management, Vol. 12 of the CMHC Guidelines and Procedures Manual — provides the policy and procedural framework within which human resource management in CMHC is carried out

### Administration Division

The division provides the overall administration support services for the national office and field offices.

## Manuals

- CMHC Guidelines and Procedures Manuals, Vol. 21,

# CANADA MORTGAGE AND HOUSING CORPORATION

---

Administration; travel on Corporation business, correspondence management, records management, material management, printing and composing, telecommunications and transportation management

- CMHC Guidelines and Procedures Manual, Vol. 25, Security Services; provides security education and guidance for CMHC employees on the protection of corporate property, information and personnel, safety and emergency planning procedures
- Subject Classification Guide, Records Management, 2 volumes

## Corporate Relations Office

The office co-ordinates communication between executives and senior field officers of the Corporation and the Minister, the government and Members of Parliament and has responsibility for international relations. It also provides administrative support for the Minister, Chairman, and President by providing briefing material, preparing correspondence and preparing responses to oral and written questions in Parliament.

### Manuals

- Corporate Relations Office, Vol. 1, Mod. 4, of the CMHC Guidelines and Procedures Manual

## Information and Communications Centre (ICOM)

The Information and Communications Centre (ICOM) plans and implements information activities that will increase public understanding of *National Housing Act* programs and the role of the Corporation in Canada's residential and urban development. Its activities include a public enquiry service, preparation and distribution of press releases and newspaper features on CMHC programs and policies and a public awareness program. ICOM also seeks to keep special publics informed of the results of Corporation-sponsored research, including technical developments and innovations.

### Manuals

- ICOM, Vol. 22 of the CMHC Guidelines and Procedures Manual

## Women's Bureau and Equal Opportunity Office

The office advocates equal opportunity for women, natives, disabled and visible minorities in the activities of the Corporation, both in its policies and practices as an employer, and in *National Housing Act* policies and programs. The office has elected delegates and representatives at the national office and at all branch offices across Canada.

### Manuals

- Women's Bureau Rules of Procedures and Reference Guide — a guide for representatives and delegates

## Operations Audit Division

The division reports directly to the president and provides an independent audit function by systematically reviewing all the Corporation's operations including standards, administrative policies, processes, control procedures organization, computer systems. It reports final recommendations and observations to the Audit Committee of the Board of Directors.

### Manuals

- Operations Audit, Vol. 24 of the Guidelines and Procedures Manual

## Field Operations Sector

### Regional Offices

The Corporation has five regional offices — Atlantic, located in Saint John, New Brunswick; Québec, located in Montréal; Ontario, located in Toronto; Prairies and the Northwest Territories, located in Saskatoon; and British Columbia and Yukon Territory, located in Vancouver.

The regional office is accountable for the effective and efficient direction of all the Corporation's operations in the region, conforming to established corporate objectives, policies and standards and within financial and other authorities. The office interprets corporate policies, directives and guidelines in the region's context, supplies specialized professional, technical and administrative support, and provides legal services to branch offices in the delivery of CMHC programs and the management of the Corporation's mortgage and real estate portfolio. It initiates policies and programs and participates in the formulation of corporate policies, program plans and significant decisions affecting operations within the region, including capital budget planning and allocation. In addition, the regional office and the provincial capital branch office together manage federal-provincial relations in the field of housing and community development.

### Manuals

- General Memoranda and Regional Directives
- Appraisal Guide

### Branch Offices

All branches across Canada are categorized by level according to volume of business activity. Level I designates the largest offices and Level IV the smallest.

These branches are responsibility centres with authority to establish goals and strategies, promote CMHC programs, decide on projects, monitor achievements and administer resources on a cost-effective basis within national and regional objectives, priorities and guidelines. Each has the responsibility for issuing mortgage insurance undertakings, making loan commitments under the Corporation's various programs and conducting housing market analysis. Level I to III branches also administer part of the Corporation's mortgage and real estate portfolio. In Level IV office territories, the property and mortgage administration functions are usually the responsibility of a higher-level office.

#### Level I

- Montréal, Toronto, Vancouver

#### Level II

- Calgary, Edmonton, Fredericton, Halifax, Hamilton, Laval, London, Longueuil, Mississauga, Ottawa, Québec, Regina, St. John's, Winnipeg

#### Level III

- Hull, Kitchener, Oshawa, Prince George, St. Catharines, Saskatoon, Sherbrooke, Sudbury, Thunder Bay, Victoria, Windsor

#### Level IV

- Charlottetown, Chicoutimi, Cranbrook, Kamloops, Kelowna, Kingston, Lethbridge, Moncton, North Bay, Red Deer, Rimouski, Saint John, Sault Ste. Marie, Sydney, Trois-Rivières, Val D'Or, Whitehorse, Yellowknife

### Manuals

- Appraisal Guide
- Acceptable Building Material Handbook
- Manual of Building Material Evaluation Reports

# CANADA MORTGAGE AND HOUSING CORPORATION

## Representative, Inspection and Administrative Offices

The offices are integral parts of the parent branch organization and are responsible for providing information to the public on CMHC programs and services. They also accept *National Housing Act* applications for processing and approval by the parent branch and may be staffed for limited loan processing, compliance inspection and real estate administration. They assist the parent branch in identifying housing needs within their area. The inspection and technical advice service is provided on CMHC programs, as well as to other government agencies and client groups. The offices thus ensure that an acceptable quality of housing construction is maintained through the application of a high standard of on-site inspections in the area which they service.

### Québec Region

- Sept-Îles

### Ontario Region

- Barrie, Peterborough

## CMHC Technical Services

The unit is a field organization responsible for the delivery of cost-effective, high-quality technical service to CMHC programs. It has an evaluation mechanism that advises CMHC managers of the inspection services used by their office as compared with the branch plan approved by management. The unit improves the service through training, staff planning, and the development and application of performance standards. It also provides an evaluation service on various materials, equipment and systems used in housing construction and undertakes external contracts to provide inspection and related technical services on a fee-for-service basis.

Technical Services is also responsible for the CHIP Office in Montréal, which administers, under contract with the Department of Energy, Mines and Resources, the provision of grants under the Canadian Home Insulation Program (CHIP).

Since October 28, 1980, the Department of Energy, Mines and Resources has had complete legislative authority to manage this program. Any request for records subsequent to this date are to be addressed to that Department.

## Manuals

- CMHC Technical Services, Vol. 26 of the CMHC Guidelines and Procedures Manual — describes the type and levels of inspections to be carried out and services available to the various CMHC programs and those of various outside clients, and the material evaluation process
- Manual of Building Material Evaluation Reports describes new and existing products used in *National Housing Act* residential construction
- Computer User Manuals
- Guidelines and Procedures for the Administration of the Canadian Home Insulation Program

## Classes of Records

CMH/GCC-005 Formerly Identified as: CMHC-540

### Legal Documentation

*Description:* Information on the *National Housing Act (NHA)* and the *National Housing Loan Regulations (NHLR)*; *Canada Mortgage and Housing (CMHC) Act*; Orders-in-Council; program and project opinions, other legislation; federal and provincial laws; and various advice on the *National Housing Act* and Regulations; *CMHC Act* and related matters; judgements, doctrine and case law in general; discussion papers and miscellaneous materials and advice.

*Retrievability:* Files arranged by date and section of the *National Housing Act* or by date and section of *National Housing Regulations*.

CMH/GCC-010 Formerly Identified as: CMHC-550  
**Agreements**

*Description:* Information on the preparation, negotiation and signing of federal-provincial, interdepartmental and other intergovernmental contractual arrangements. *Topics:* *National Housing Act*, Section 40 (Federal-provincial Public Housing Agreements), Rural and Native Housing Agreements, miscellaneous agreements under various sections of *National Housing Act*; interdepartmental agreements.

CMH/GCC-015 Formerly Identified as: CMHC-560  
**Litigation and Case Files**

*Description:* Information on the appointments and mandates of external legal counsel; information on legal counsel concerning CMHC litigation files. *Topics:* Urea Formaldehyde Foam Insulation (UFFI) claims; Mortgage Insurance Fund (MIF); *NHA* Housing Programs and personal cases (Human Resources Management).

CMH/GCC-020 Formerly Identified as: CMHC-10  
**Boards and Committees**

*Description:* Reports, notices, minutes and decisions of the Board of Directors and management committees and related correspondence. *Topics:* Submission routing slips and register; agendas; submissions; minutes and records of decisions; distribution lists; Board of Directors — members, conflict of interest, vacancies and recommended nominees, appointments and reappointments, fees and expenses, compensation, monthly reports to Board; Pension Fund Trustees — signing resolutions, agreements, Pension Fund handbook, annual reports; regional reports. *Storage Medium:* Microfilm and microfiche.

CMH/GCC-025 Formerly Identified as: CMHC-20  
**Federal Government Liaison**

*Description:* Information on liaison with the federal government, including cabinet, Minister responsible for CMHC, federal departments and agencies, etc. *Topics:* *Canada Mortgage and Housing Corporation Act* and amendments; by-laws and amendments; directions from Minister and government; government proposals on Crown corporations; liaison with government departments and agencies; submissions to council and Orders-in-Council; submissions to cabinet and cabinet decisions; submissions to Treasury Board and Treasury Board decisions; salaries for Governor-in-Council appointees; annual report.

CMH/GCC-030 Formerly Identified as: CMHC-30  
**Conferences and Meetings**

*Description:* Information on CMHC participation in conferences, meetings, symposia and seminars. *Topics:* Meetings of senior management held outside the established board and committee structure; activities and liaison with the executive officers of housing industry associations; agendas, minutes, reports. *Retrievability:* Files arranged by organization.

CMH/GCC-035 Formerly Identified as: CMHC-40  
**Organization and Authorities**

*Description:* Information on the execution of corporate responsibilities; corporate management structure; the instrument of delegation of financial signing authorities. *Topics:* policies and procedures; creation of and changes in organization, roles and functions and reporting relationships of senior officers; reorganization proposals and related staff studies; signing resolutions and powers of attorney.

CMH/GCC-040 Formerly Identified as: CMHC-41  
**Access Requests for CMHC Records**

*Description:* Information and correspondence on the implementation of the *Access and Privacy Acts* within CMHC. *Topics:* Analytical statistical reports on the number of requests received; quarterly

# CANADA MORTGAGE AND HOUSING CORPORATION

reports to Treasury Board; annual reports to Parliament; correspondence to Treasury Board and third parties. Please address any enquiries to the Access to Information and Privacy Co-ordinator at CMHC national office.

CMH/PSO-045 *Formerly Identified as:* CMHC-100

## **Social Housing**

*Description:* Information on social housing and related federal-provincial, non-profit and co-operative activities. *Topics:* Reports, booklets, program stacking; maximum unit price; integration of housing allowance. *Retrievability:* Files arranged by province.

CMH/PSO-050 *Formerly Identified as:* CMHC-110

## **Federal-Provincial Housing**

*Description:* Information on the capital cost and operating cost of public housing projects, shared by federal-provincial partnership and the management of these projects; also provincially-owned and provincially-leased public housing and CMHC subsidies towards project operating costs. *Topics:* Inspections; consultants; vandalism in high-density housing; rental scale study; administration of projects; fire insurance; social and recreational facilities; tenants' associations; rent supplement plan; subsidies — claims and agreements; individual public housing projects. *Storage Medium:* Insured loans on microfilm. *Retrievability:* Files arranged by province, municipality and project.

CMH/PSO-055 *Formerly Identified as:* CMHC-120

## **Non-Profit and Co-Operative Housing**

*Description:* Information on provincial, municipal and private non-profit corporations, which operate rental housing projects for persons of low and moderate income and co-operatives, that provide housing for their low and moderate-income members. Such housing provides for an income mix in projects and encourages the restoration of existing buildings through the non-profit Residential Rehabilitation Assistance Program (RRAP); also information on the Proposal Development Funding and Community Resource Organization Program (CROP) which provides start-up financing and development assistance, including the acquisition of technical and professional services. *Topics:* Federal-provincial operating agreements; subsidy assistance; monitoring and advertising; rental scales; equity; commitments; charter approval; unit sales, sales tax rebates and exemptions; annual reporting; construction management and rehabilitation; housing acquisition techniques; public non-profit; private non-profit; continuing non-profit co-operatives; agreements; insured loans; land lease; native and urban native housing; Proposal Development Funding; CROP; non-profit RRAP. *Storage Medium:* Insured loans on microfilm. *Retrievability:* Loan files arranged by province and locality as well as by loan files.

CMH/PSO-060 *Formerly Identified as:* CMHC-130

## **Rural and Native Housing**

*Description:* Information and studies on all rural and native housing programs; also liaison with other government departments and clients. *Topics:* Rural and Native Housing Task Force; program information; native housing policy proposals; non-status Indian construction companies; newsletters; enquiries; National Anti-poverty Organization; Indian and Northern Affairs Canada. *Retrievability:* Files arranged by province.

CMH/PSO-065 *Formerly Identified as:* CMHC-140

## **Program Delivery**

*Description:* Information on the Rural Residential Rehabilitation Assistance Program (RRAP) and the Rural and Native Housing Program. *Topics:* Policy; procedures; forms; surveys; amendments; agreements; year-end reports; on and off-reserve RRAP; public housing negotiations; housing authorities; associations and corporations; property inventory; training seminars; training materials, workshops and equipment. *Retrievability:* Loan files arranged by province.

CMH/PSO-070 *Formerly Identified as:* CMHC-150

## **Program Support**

*Description:* Information on secondment of expertise and native management training in support of CMHC social programs; also information on sustaining grants to help remote and fringe communities identify and meet their housing needs and the project funds available to rural and native community groups not sponsored by provincial or municipal agencies, to undertake housing projects for themselves and other low-income families. *Topics:* Rural and Native Housing Secondment Program and native management training — reports, training plans, salary administration, job descriptions, evaluations and related correspondence; operating expense assistance and emergency repairs. *Retrievability:* Training files arranged by province; grants arranged by province and delivery agent; projects arranged by province and project sponsor.

CMH/PSO-075 *Formerly Identified as:* CMHC-160

## **Municipal Infrastructure**

*Description:* Information on loans and grants provided to municipal authorities for water and sewage treatment systems; also for planning and feasibility studies related to these systems. *Topics:* Individual loan and grant applications; federal-provincial joint committees; program monitoring; regional sewerage and water plan studies. *Retrievability:* Files arranged by province and municipality; individual case files for loans and grants.

CMH/PSO-080 *Formerly Identified as:* CMHC-170

## **Municipal Incentive Grants**

*Description:* Information on the encouragement of municipalities to develop land for modest-size housing units at medium density and value; also clarification and expansion of existing policies and changes in policy, eligibility determination of special projects and advice to the Minister on upcoming grant payments for a certain period. *Topics:* Policy, procedures and enquiries; individual municipalities' requests for payments. *Retrievability:* Files arranged by province and municipality.

CMH/PSO-085 *Formerly Identified as:* CMHC-180

## **Land**

*Description:* Information on federal contributions and loans to municipalities and provincial agencies, sometimes in partnership with CMHC, to acquire and develop an adequate supply of serviced residential land and to encourage a high standard of residential development; also information on lands owned by the Corporation for similar purposes; research and policy development for urban residential land use, land supply, public and private land development programs and public land assembly. *Topics:* Urban renewal; negotiations and agreements; federal-provincial land assembly planning and development; Land Assembly loans; CMHC-owned lands; market and feasibility analyses; financial viability; land disposal and leasing; policy research; Treasury Board Advisory Committee and loan insurance on federal land management. *Retrievability:* Files arranged by project, province and municipality by docket.

CMH/PSO-090 *Formerly Identified as:* CMHC-190  
**Neighbourhood Improvement Program (NIP) and Residential Rehabilitation Assistance Program (RRAP)**

*Description:* Information and correspondence on the administration and delivery of the Neighbourhood Improvement and Residential Rehabilitation programs to improve neighbourhood amenities and services and the housing and living conditions of residents. *Topics:* Monitoring and evaluations; liaison with other government departments and agencies; site clearance; agreements; non-profit RRAP; Rural and Native Housing RRAP; urban and private rental RRAP; inter-program impact; program development, including rooming houses; rehabilitation standards, conversion studies and renovations for the disabled. *Storage Medium:* EDP Systems. *Retrievability:* Files arranged by province and municipality.

# CANADA MORTGAGE AND HOUSING CORPORATION

Neighbourhood Improvement Program information is arranged by municipality and neighbourhood; Residential Rehabilitation Assistance Program, by individual case loan.

**CMH/PSO-095 Formerly Identified as: CMHC-200  
Canada Home Renovation Plan (CHRP)**

*Description:* Information on the administration and monitoring of the Canada Home Renovation Plan. *Topics:* Regulations, program funding; eligible areas, properties, applicants, work; property standards; financing and security; CMHC agents; applications and loan process; program interfaces; inspection requirements; reports and monitoring activities. *Storage Medium:* EDP systems. *Retrievability:* Individual loan case files.

**CMH/PSO-100 Formerly Identified as: CMHC-210  
Rehabilitation Skills Training Course (RSTC)**  
Program terminated December 31, 1984.

**CMH/ISO-105 Formerly Identified as: CMHC-260  
Underwriting**

*Description:* Correspondence and documents on the analysis, monitoring and evaluation of loans, mortgages and guarantees. *Topics:* Simplification of mortgage forms; claims risks; claims forecasts; underwriting policies and procedures; loan regulations; mortgage loan underwriting training; new developments in the mortgage insurance market; special projects; loan acquisition review; Mortgage Backed Securities Program. *Storage Medium:* Mortgage Insurance Fund (MIF) claims control by EDP system.

**CMH/ISO-110 Formerly Identified as: CMHC-270  
Insured Lending**

*Description:* Information and correspondence on the insuring of eligible mortgage loans by private lenders and eligible debenture securities issued by provinces, municipalities and public housing agencies. *Topics:* Insured loans; approval of new lenders; correspondence with approved lenders; agreements; Assisted Home Ownership Plan (AHOP); Assisted Rental Program (ARP); Graduated Payment Mortgages (GPM); condominiums; Canada Rental Supply Plan; interest rates; holdbacks and liens; maximum loans; insurance fees; paid-up loans; title defects and survey; maximum selling price; monitoring; construction defects; Urea Formaldehyde Foam Insulation (UFFI); amortization and down payment; interest and underwriting fees; chattel mortgages; renegotiable interest rate mortgages; variable interest rate mortgages; collateral; rental loans; debenture financing; non-residential facilities; on-reserve loans; five-year term mortgages. *Storage Medium:* Approved lender loans on microfiche. *Retrievability:* Files arranged by approved lender, on microfiche.

**CMH/ISO-115 Formerly Identified as: CMHC-280  
Mortgage Administration**

*Description:* Policy and correspondence on administration, monitoring and evaluation of loan activity under the *National Housing Act*; administration of some approved lender loans and advice to field offices on loan repayment and administration. *Topics:* Mortgage documentation; taxes; loan advances; insurance; statement of accounts; loan amortization and repayment; assistance reviews; rental reviews; mortgage renewals; mortgage sales; non-amortization of accounts; re-amortization of accounts; protection of mortgages that are not a first charge; discharges; partial discharges; easements. *Retrievability:* Files arranged by loan case file.

**CMH/ISO-120 Formerly Identified as: CMHC-300  
Default Management**

*Description:* Correspondence and information on the control of approved lenders' and CMHC direct-insured loans in arrears; also CMHC interventions to salvage projects in financial difficulty and statistical data concerning arrears, trends, etc. *Topics:* Policy and procedures; approved lenders' arrears reports partly on EDP; reports

and correspondence with approved lenders and CMHC field offices; monthly statistical arrears reports; transcript of accounts (on microfilm) for all centralized CMHC direct-insured loans. *Retrievability:* Arrears reports arranged chronologically by lender and individual files on all loans in arrears.

**CMH/ISO-125 Formerly Identified as: CMHC-310  
Insurance Claims**

*Description:* Information on insurance claims and documentation of individual claims against the mortgage insurance fund. *Topics:* Policy and procedures; correspondence; individual insurance claim files — claim form, title documents and other supporting documents such as transcript of mortgage account, copies of invoices, etc. *Retrievability:* Files are arranged by docket.

**CMH/ISO-130 Formerly Identified as: CMHC-320  
Home Improvement Loan Insurance Fund**

*Description:* Annual reports from lenders of outstanding Home Improvement Loans, information on the settlement of claims against the home improvement loan insurance fund, the collection of bad debts and the control of the fund's contingent liability for each lender. *Topics:* Policy; correspondence; individual Home Improvement Loan Insurance claims; bad debt collection reports; ledger cards (bad debts); contingent liability register. *Retrievability:* Files arranged by lender and borrower.

**CMH/ISO-135 Formerly Identified as: CMHC-350  
Interest Deferral**

*Description:* Information on the application for and approval of assistance for mortgage renewal by interest deferral. *Topics:* Policy; correspondence; applications; approvals; deferral arrangements; statements of account; termination of assistance; arrears reporting; retroactivity; applicant files — certification by lender, application forms. *Retrievability:* Files arranged by individual, certification number and Canada Mortgage Renewal Plan (CMRP) number. Program terminated December 31, 1983. Files will be retained until 1992.

**CMH/ISO-140 Formerly Identified as: CMHC-360  
Grant Assistance**

*Description:* Information on grant assistance under the Canadian Homeownership Stimulation Plan and the Canada Mortgage Renewal Plan. *Topics:* Policy; correspondence; applications; grant assistance; termination of assistance; statement of accounts; retroactivity; program statistical and analytical reports; applicant files — lender, record of disbursement. *Retrievability:* Grant case files arranged by individual. Programs terminated December 31, 1983. Files will be kept until December 31, 1993.

**CMH/ISO-145 Formerly Identified as: CMHC-290  
Property Administration**

*Description:* Policy, correspondence and documents on the repair and rehabilitation, leasing, management, maintenance and sale of land and buildings owned by the mortgage insurance fund and the Corporation. *Topics:* Rent increases; rental arrears; property insurance; capital improvements; maintenance; contracts; title documents; tender calls; employee house purchase plan and sale; property revenue and expenditures; inventory of Corporation-owned properties; federal surplus land and buildings; management of inherited wartime and military housing; management of housing owned by other federal government institutions; federal-provincial land sales; sale of subsidized public housing; tenants' associations. *Retrievability:* Files arranged by municipality and project; employee house and loan case files by name of individual.

# CANADA MORTGAGE AND HOUSING CORPORATION

CMH/ISO-150 *Formerly Identified as:* CMHC-330

## **Sale of Repossessed Multiple Unit Housing Project**

*Description:* Information on selected multiple projects repossessed by the mortgage insurance fund (MIF) or the Corporation and offered for sale to the private sector through the Request for Proposal (RFP) technique; proposals by invitation from a list of acceptable buyers with demonstrated financial and management capability and satisfactory credit standings; negotiations to sell projects. *Topics:* Project data files — photographs of buildings, physical neighbourhood characteristics of the project, rental income, project expenses; negotiation files — original proposals, offers to purchase and resulting counter-offers, final agreements for sale, evaluation of new proceeds; proponent files — statements of personal net worth, financial statements on company operations, bank references, credit reports. *Retrievability:* Files arranged by project, Request for Proposal (RFP) and buyer.

CMH/ISO-155 *Formerly Identified as:* CMHC-340

## **Sale of Repossessed Single and Condominium Housing Units**

*Description:* Information on the sale of single-family dwellings (detached, semi-detached, row housing units, duplexes, triplexes) and condominium units repossessed through claims on the mortgage insurance fund (MIF) or through foreclosure on the direct Corporation loan. *Topics:* Priority for disposal (to the individual tenant-occupants, to homeowners, to investors for eventual resale); method of sale — Corporation staff. Multiple Listing Service (MLS), brokers, marketing contractors; sales documentation; performance standards in marketing of properties; sales incentives available in certain soft market areas; property appraisal and market evaluations; condominiums; properties inventory.

CMH/ISO-160 *Formerly Identified as:* NO REFERENCE

## **Mortgage Rate Protection Program (New)**

*Description:* Information on lender certification, client application for MRPP protection, claim application for MRPP benefits, lender's claims application under lender's guarantee, benefit payment record, lender guarantee payment record, termination of benefit, assignment of benefit to lender/purchaser, correspondence with clients/lenders, MRPP policy, MRPP statistical and analytical reports. *Retrievability:* The files are arranged by individual, lender certification number and MRPP number.

CMH/NOS-165 *Formerly Identified as:* CMHC-230

## **Housing Design**

*Description:* Correspondence, relevant standards and guidelines, resource information, research contracts, graphics and presentations related to planning, drafting and design services for housing to field offices, CMHC divisions, outside agencies and departments. *Topics:* Building assistance, including programs for the use of solar heating; plans service; multiple unit project monitoring and design; modest house designs; site planning; monitoring of design; modest federal-provincial housing plans; audio-visuals on landscape; siting and grading of rural and native housing; project assistance, including post-occupancy evaluation; design for emergency accommodation; care facilities for the elderly; training and development, including a design service training course; underwriting presentations and the following projects: St. Lawrence, Toronto; Masonic Park, St. John's, Newfoundland; Ravin Bleu, Boulevard Riel, Hull; Complexe Guy Favreau, Montréal. *Retrievability:* Files arranged by project.

CMH/NOS-170 *Formerly Identified as:* CMHC-240

## **Housing Technology**

*Description:* Correspondence, information and draft reports on technical and engineering services necessary to meet the current needs of program delivery and objectives. *Topics:* Technical builders' bulletins; CMHC-prescribed standards of construction; Residential Rehabilitation Assistance Program monitoring; Real Estate Master Construction and maintenance specifications.

CMH/NOS-175 *Formerly Identified as:* CMHC-250

## **Appraisals**

*Description:* Correspondence and information on appraisal support services for CMHC program operations. This includes consultation, liaison and advice on appraisal matters in CMHC, with other government departments and outside bodies; information transfer; project monitoring evaluation and training; assistance in the administration of the appraiser's career progression program. *Topics:* Monitoring and evaluation of projects — maximum unit prices, land values and land services costs, Urea Formaldehyde Foam Insulation (UFFI) houses; monitoring basic rates; mobile homes; rehabilitation procedures and costs; low end of market rents; appraisal training and workshops. *Retrievability:* Files arranged by project.

CMH/PDR-180 *Formerly Identified as:* CMHC-370

## **Research and Development Projects and Activities**

*Description:* Information on research and development projects, activities and plans, and the distribution of resulting information. *Topics:* Housing demand and the need for housing assistance; housing finance, mortgage and capital markets; housing supply, distribution, and the residential construction industry; housing performance, quality, and the testing and development of solutions to technical problems in housing and community infrastructure; liaison and communication activities with consumers, agencies and industries connected with housing activity; research and development support activities; research and activity plans. *Retrievability:* By subject area and/or contractor.

CMH/PDR-185 *Formerly Identified as:* CMHC-380

## **External Research**

*Description:* Information and correspondence on the provision of grants in support of advanced research in the social, economic, legislative, environmental, physical or administrative aspects of housing; available to independent researchers as well as those in Canadian universities, institutions, private consulting firms, the professions, and the housing industry. *Topics:* Applications; advertising; awards committee; yearly program planning. *Retrievability:* Files arranged by applicant.

CMH/PDR-190 *Formerly Identified as:* NO REFERENCE

## **Scholarships (New)**

*Description:* Information and correspondence on the provision of graduate scholarships in support of advanced education and the development of expertise in the fields of housing and community planning. *Topics:* Applications, advertising, awards committee, program planning. *Retrievability:* Files arranged by applicant.

CMH/PDR-195 *Formerly Identified as:* CMHC-390

## **Housing Advisory Documents**

*Description:* Information on research and development of community and building standards and guidelines; also documentation and dissemination of technical information on these standards and guidelines. *Topics:* Site planning; noise; grading and landscaping; residential buildings, insulation; internal space in dwellings; condensation, ventilation, vapour barriers and air quality; windows, doors, walls and floors; moveable insulating devices; mobile homes; nursing homes; septic tanks; radon gas; wood foundations; fire ratings; wood framing techniques; shell housing; log houses; density of housing; leisure facilities; parking; facilities for disabled and elderly, housing access. *Retrievability:* By subject.

CMH/PDR-200 *Formerly Identified as:* CMHC-410

## **Housing Technology Incentives**

*Description:* Information on contributions to developers, builders and manufacturers of housing and building products to pay for the special costs of developing and testing innovative ideas and products. *Topics:* Program enquiries; objectives and priorities; lists of associations and memberships; consultations; project applications; drawings; contracts; project payments; evaluation reports; selection committee.

# CANADA MORTGAGE AND HOUSING CORPORATION

**Retrievability:** Files arranged by year and individual application. Applications for access are subject to third party intervention.

**CMH/PDR-205 Formerly Identified as: CMHC-442**

## **Strategic Plans**

**Description:** Assignments, correspondence and background documents related to the annual updates of the CMHC strategic plan. **Topics:** Files containing current and past assignments and correspondence by year of the strategic plan; documents relating to annual planning sessions and to goal assignments for Vice-Presidents and general managers; housing issues, analyses and housing market studies; background material on the preparation of corporate, regional and branch plans. **Retrievability:** By subject.

**CMH/PDR-210 Formerly Identified as: CMHC-443**

## **Federal/Provincial Relations**

**Description:** Federal/provincial housing programs, policies and priorities; interface between federal and provincial housing departments and agencies, e.g., negotiations and agreements. Briefings to federal Minister; CMHC management; Federal/Provincial Relations Office (FPRO); Privy Council Office (PCO) and other federal agencies on federal/provincial relations in the housing field. **Topics:** Federal/provincial committees; federal/provincial conferences, meetings (ministers and officials); general correspondence relating to federal/provincial matters; provincial profiles; agreements; briefings; fiscal arrangements; negotiations; provincial budget and throne speeches; provincial programs; provincial structure. **Retrievability:** By subject and province.

**CMH/PDR-215 Formerly Identified as: CMHC-444**

## **Policy Development and Presentations**

**Description:** Background documentation on policy proposals, new programs, research and demonstration activities, draft policy proposals, communication plans, and speeches. **Topics:** Background documentation by topic including shelter allowances, special housing needs, rental housing; draft policy proposals; draft cabinet papers; cabinet documents and communications plan guidelines; communication plans by topic; Minister's policy speeches; President's speeches; senior corporate officers speeches. **Retrievability:** By subject topic and programs.

**CMH/PDR-220 Formerly Identified as: CMHC-445**

## **Community Services Contribution Program** Program was terminated in 1984.

**CMH/PDR-225 Formerly Identified as: CMHC-441**  
**Program Evaluation**

**Description:** Information relating to the development of CMHC five-year program evaluation plans and amendments; correspondence, surveys, studies, reviews relating to evaluation of specific *National Housing Act* (NHA) programs to assess whether they are meeting the objectives of: accessibility, affordability and suitability for Canadians in various areas of the country. **Topics:** CMHC five-year program evaluation plan; public housing tenant surveys; non-profit and co-operative housing; social housing; rent supplement; rural and native housing; Residential Rehabilitation Assistance Program (RRAP); mortgage insurance; Canada Home Renovation Program; Federal Housing Action Program (FHAP); Assisted Home Ownership Program (AHOP). **Retrievability:** Arranged by subject area.

**CMH/PDR-230 Formerly Identified as: CMHC-450**

## **Housing Survey Data**

**Description:** Data acquired through regular Corporation surveys or from Statistics Canada reports; includes correspondence, programs, descriptions, approvals, contracts and analyses. **Topics:** Multiple-unit rental buildings; conventional lending, housing starts and completions; market absorption; apartment vacancies, rents; census and ad hoc survey information. **Storage Medium:** EDP systems. **Retrievability:** Files arranged by geographic location and survey.

**CMH/PDR-235 Formerly Identified as: CMHC-470**

## **Demonstration Projects**

**Description:** Information on specific projects undertaken to test the feasibility and cost of particular new housing designs and concepts, demonstrate the viability of alternative approaches to the provision of shelter and associated services and improve housing and community environments. **Topics:** Submissions and briefs; financial arrangements for projects; feasibility studies; planning and design; special studies; agreements; selection of consultants; contracts; meetings and committees for the following projects; LeBreton Flats, Ottawa; Market Square, Saint John; Maryfield, Charlottetown; Revelstoke, British Columbia; St. Pierre Street, Montréal; Vieux Port, Montréal; Vieux Port, Québec; Woodroffe Avenue, Ottawa. **Retrievability:** By project or activity.

**CMH/FMI-240 Formerly Identified as: CMHC-472**

## **Financial Control Matters**

**Description:** Records in this category of classes cover the overall financial management and activities reflecting the receipt, control and expenditures of Corporation funds. **Topics:** General ledger, financial reports, accounts and accounting allotments and transfers, audits and audit claims, financial agreements with the Department of Finance (terms and conditions of CMHC borrowings), debenture accounting, investment portfolio accounting, banking methods and bank reconciliation, budgetary practices, personal and service contracts, expenditure transactions, personnel payroll transactions, bank direct deposit computer tape, employee time reporting system, financial signing authorities, cash, funds, grants, subsidy administration, accounts receivable from the Minister, (government subsidies disbursed by CMHC) and other fiscal details. **Retrievability:** EDP, by accounts by subject, by activity, by responsibility centres and by loan case files.

**CMH/FMI-245 Formerly Identified as: CMHC-474**

## **Financial Management Matters**

**Description:** Records in this category of classes cover the overall financial management and activities of CMHC. **Topics:** Financial forecast, financial reporting systems and financial management reports, performance reports, CMHC's administrative expenses budget, including furniture and equipment, staff-year allocation, lending and budgetary expenditures, regional budget allocations, CMHC financial Guidelines and Procedures Manuals, instrument of delegation of financial signing authorities. **Retrievability:** By subject, *National Housing Act* programs, by manual number.

**CMH/FMI-250 Formerly Identified as: CMHC-476**

## **CMHC Pension Fund**

**Description:** Information concerning pension fund investments. **Topics:** Mortgages; equity shares; bonds; short-term investments; real estate; reports and financial statements; actuarial valuation; banking; investment counsel; pension fund Board of Trustees; investment committee; agreements. **Retrievability:** By subject.

**CMH/FMI-255 Formerly Identified as: CMHC-478**

## **Systems Development Projects**

**Description:** These files contain information on system projects while they are in development. **Topics:** Statement of requirements, advisability study, system design, programs, user manuals, quality assurance data, testing data, plans and budgets. **Retrievability:** By project.

**CMH/FMI-260 Formerly Identified as: CMHC-480**

## **Existing Computer Systems (ECS)**

**Description:** These files contain information on modifications to the Corporation's active computer systems. **Topics:** Computer system documentation, records of change to systems, changes in progress. Automated information maintained is finance; administration; market analysis; housing program operations; technical services; mortgage

# CANADA MORTGAGE AND HOUSING CORPORATION

---

administration; real estate management; personnel information systems. *Retrievability:* Files arranged by system.

## CMH/FMI-265 *Formerly Identified as:* CMHC-490 **Business Systems Documentation**

*Description:* This class covers correspondence and material related to the development and maintenance of all formal Corporation manuals such as the Guidelines and Procedures Manuals, the Approved Lenders' Handbook, policy and technical bulletins and memoranda. It also maintains information on the preparation, design and improvement of forms used by the Corporation and its clients. *Topics:* Forms; guidelines and procedures; approved lenders' handbook; general memoranda (to corporate staff); builders' bulletins; advice to approved lenders. *Retrievability:* Microfiche, by subject, information concerning forms is filed by numerical sequence.

## CMH/FMI-270 *Formerly Identified as:* CMHC-491 **Quality Assurance**

*Description:* This class covers information to review the quality of computer systems at each sub-phase of the project life-cycle, including testing of computer programs manual and automated procedures, also the adherence by staff to CMHC EDP standards. *Topics:* New computer systems development; existing computer systems. *Retrievability:* EDP, by subject.

## CMH/FMI-275 *Formerly Identified as:* CMHC-492 **Data Processing — General**

*Description:* Correspondence of a general nature relating to the operation of CMHC's computer services. Includes correspondence both with in-house users and private sector suppliers of computer related services. *Topics:* Requests for proposal; manufacturers' data processing and suppliers' correspondence; contingency planning; CMHC users of data processing services. *Retrievability:* Arranged by subject. Manufacturers arranged alphabetically.

## CMH/FMI-280 *Formerly Identified as:* CMHC-493 **Technical Planning and Support**

*Description:* Technical aspects and administration of CMHC data processing facilities and services. *Topics:* Mainframe, hardware and software products; EDP services and facilities management; data communications network and associated equipment; systems engineering development project support. *Retrievability:* Arranged by subject and project.

## CMH/FMI-285 *Formerly Identified as:* CMHC-494 **Production Systems**

*Description:* Correspondence relating to the operation of production systems. *Topics:* Internal project information (strategic and tactical plans); service level agreements; problem management reports; change management reports; system acceptance reports; special requests; standards and procedures; vendor (suppliers of computer related services) correspondence; contingency planning; EDP security. *Retrievability:* Arranged by subject. Vendor files arranged by company name.

## CMH/FMI-290 *Formerly Identified as:* CMHC-495 **Computer Operations**

*Description:* Information relating to the day-to-day operations of CMHC data processing services. *Topics:* Reports; backup data entry tapes, log books and journals; program listings; detailed planning activities; hardware and software planning, installation and maintenance; computer capacity planning; performance measurement of equipment and software; problem/change management. *Retrievability:* Arranged by subject, project, product and company.

## CMH/FMI-295 *Formerly Identified as:* CMHC-496 **Data Resource Management**

*Description:* Technical aspects and administration of policies and procedures for management of data on computer in CMHC. *Topics:* Database management; database software technical support usage; collection and analysis of data coding and classification of data; corporate data dictionary/directory; end-user access to data; data management support to computer system development projects. *Retrievability:* Arranged by subject and project.

## CMH/ODS-300 *Formerly Identified as:* CMHC-500 **Economic Commission for Europe (ECE) Committee on Housing, Building and Planning**

*Description:* Information on the CMHC role in the committee's session and study tour in 1983 and their organization. *Topics:* The Economic Commission for Europe (ECE) Committee on Housing, Building and Planning, forty-fourth session in 1983; ECE group of experts on urban and regional research 1983; study tour.

## CMH/ODS-305 *Formerly Identified as:* CMHC-510 **Housing Authorities**

*Description:* Information on the formation of housing authorities and appointment of members to housing authority boards responsible for administering federal-provincial low-rental housing projects; related correspondence. *Topics:* Federal representatives to nominating committees; formation of housing authority boards; federal representatives on boards; board membership. *Retrievability:* Files arranged by municipality.

## CMH/ODS-310 *Formerly Identified as:* CMHC-520 **International Housing**

*Description:* Information on international agreements and correspondence on bilateral and multilateral housing issues; also information dealing with the United Nations, the Organization for Economic Co-operation and Development (OECD) and interdepartmental committees dealing with housing. *Topics:* United Nations and regional economic commissions; major UN conferences; other international organizations; international non-governmental organizations; special international projects; international involvement of provinces and territories; country files, including contracts with/or events in foreign countries; interdepartmental committees on international matters. *Retrievability:* Files arranged by international organization and country.

## CMH/ODS-315 *Formerly Identified as:* CMHC-530 **Women and National Housing Act Programs**

*Description:* Information on issues and concerns related to women as consumers of housing and clients of the Corporation; also efforts to ensure that the act is non-discriminatory and meets women's housing needs. *Topics:* Mortgage market; presentations to women on housing; single-parent families; needs of the elderly; research programs; *National Housing Act* impact on women; social housing.

## CMH/OAD-320 *Formerly Identified as:* CMHC-50 **Comprehensive Audit**

*Description:* Correspondence and assessment reports on the extent to which financial, human and physical resources are managed for effectiveness and efficiency by the Corporation's responsibility centres. *Topics:* Audit reports for responsibility centres within national office and field offices. *Retrievability:* Files arranged by responsibility centre.

## CMH/OAD-325 *Formerly Identified as:* CMHC-60 **Computer Audit**

*Description:* Correspondence and audit reports on existing computer systems and systems under development to insure compliance with corporate and industry standards. These contain information on the use, maintenance, efficiency and effectiveness of systems. There is also information on the validity of the data, processing procedures,

## CANADA MORTGAGE AND HOUSING CORPORATION

---

security and information generated by the systems. *Topics:* Development of computer audit capability; EDP reviews; special audits; Mortgage Portfolio Management Systems (MPMS) phases.

CMH/OAD-330 *Formerly Identified as:* CMHC-70

### **Financial Audit**

*Description:* Composite and financial audit reports on financial planning, accounting, custodial and control activities of responsibility centres within national office and field offices; independent and external audits of Corporation books and financial statements and related correspondence.

CMH/OAD-335 *Formerly Identified as:* CMHC-80

### **Special Audit**

*Description:* Audits and related correspondence on specific areas of concern carried out upon direction from the president or chairman of the audit committee and often required by unexpected and unusual circumstances. *Topics:* Provincial housing organizations; federal and provincial programs; *National Housing Act*, Section 40; rural and native housing; approved lender audits; mortgage insurance fund multiple unit housing projects.

CMH/CTS-340 *Formerly Identified as:* CMHC-220

### **Energy Conservation**

*Description:* Information and correspondence on CMHC programs prior to October 28, 1980 to assist homeowners in upgrading the insulation of older homes. Also, liaison with the Department of Energy, Mines and Resources on policy matters related to the delivery of Canadian Home Insulation Program (CHIP), Home Insulation Program (HIP), and other government programs to reduce the national energy consumption is included. *Topics:* Home Insulation Program (HIP), for homes in Prince Edward Island and Nova Scotia; Canadian Home Insulation Program (CHIP), for homes in other provinces and territories; National Energy Program. *Retrievability:* Files arranged by province.

CMH/CTS-345 *Formerly Identified as:* CMHC-650

### **Programs Delivery**

*Description:* Information and correspondence, since October 28, 1980, on CMHC's participation with the Department of Energy, Mines and Resources in the delivery of federal assistance to upgrade the insulation of older homes. *Topics:* Administration and contractual arrangement with the Department of Energy, Mines and Resources; budget and program forecasts; activity reports.

CMH/CTS-350 *Formerly Identified as:* CMHC-670

### **CMHC Technical Services**

*Description:* Information on internal agreements and external contracts on a fee-for-service basis to provide technical services such as housing inspections. Also instruction and advice to CMHC technical staff on individual housing projects is contained. *Topics:* Service to clients on CMHC programs; Canadian Home Insulation Program (CHIP); Multiple Unit Residential Building (MURB) Certificate of Multiple Unit Residential Construction Starts; Home Warranty Program; Department of Energy, Mines and Resources; Indian and Northern Affairs; other government agencies; Canadian General Standards Board; Canadian Standards Association; inspection training; technical bulletins; metric conversion; renewable energy; general engineering data on residential construction. *Retrievability:* Files arranged by project.

CMH/CTS-355 *Formerly Identified as:* CMHC-680

### **Building Materials, Systems and Equipment**

*Description:* Information on materials, systems and equipment from manufacturers requesting CMHC evaluation and various governments, individuals, architects, engineers and academic institutions concerning the publication and distribution of the Manual of Building Material Evaluation Reports. *Topics:* Requests from clients for evaluation by CMHC — brochures, drawings, test reports of different materials to meet particular standards for particular products written by Canadian Standards Association and the Canadian General Standards Board; correspondence on new products, requesting a review of innovated materials by National Research Council or Forintek; requests and replies on the manual. *Retrievability:* Files arranged by individual or company.

CMH/CTS-360 *Formerly Identified as:* CMHC-690

### **Evaluation Reports**

*Description:* Information on particular products, systems or equipment that has been evaluated by CMHC. *Topics:* Requests for evaluation which could include application form; drawings; test reports; evaluation report. *Retrievability:* Files arranged by material, system or evaluated equipment using the MASTER FORMAT system.

# CANADA PORTS CORPORATION

---

## Background

The Canada Ports Corporation was established by the *Canada Ports Corporation Act* 1983. This Act amended the *National Harbours Board Act of 1936*, the *Movement Harbours and Piers Act* and the *Harbours Commission Act*. Reporting to Parliament through the Minister of Transport, Ports Canada is a Schedule C2 Crown corporation.

## Overall Responsibilities

The Canada Ports Corporation (Ports Canada), is responsible for administering its ports under a common objective and to ensure that they meet the federal government's responsibility for national ports and the optimum deployment of resources. The Canada Ports Corporation shares with other marine components the broad objective of attending to the development and operation of a safe and efficient national marine transportation system.

Ports Canada is also responsible for ensuring that ongoing maintenance, upgrading and major expansions to port facilities and infrastructure will provide enhanced services to port users on a competitive and cost-effective basis, both for domestic and international customers.

## Organization

The management structure of Ports Canada consists of a national board of directors, a chairman, vice-chairman, full-time president and chief executive officer, and fourteen other members serving in a part-time capacity representing broad regional and national interests in port matters. There are also four vice-presidents representing Finance, Legal Services, Port Services and Corporate Services. The Act also gives the board powers to establish local port corporations, at any of the 15 ports of Ports Canada, which meet the criteria of national and regional significance, local interest and financial viability.

The ports of St. John's (effective June 1, 1985), Halifax, Québec, Montreal, Vancouver and Prince Rupert have obtained the status of local port corporations. Other non-corporate ports are located in Saint John and Belladune, New Brunswick; Chicoutimi, Baie des Ha!Ha!, Sept-Iles, and Trois-Rivières, Québec; Prescott and Port Colborne, Ontario, and Churchill, Manitoba.

## General Information

General information may be obtained by writing or calling

## Port Services Branch

This branch is accountable for providing engineering and technical support services to non-corporate ports and, on request, to local port corporations. It also provides expert advice to the Corporation's board of directors and senior management in order to contribute to the safety, efficiency and cost-effectiveness of Canada Ports Corporation facilities. The branch directs grain operation at Prescott, Port Colborne and Churchill towards the achievement of established revenue and profitable objectives.

### Manuals

- Engineering Policies and Procedures

## Corporate Services Branch

This branch develops, integrates, implements and evaluates, in a timely and result-oriented manner, the planning process and the resulting plans of the corporation. The branch also develops and implements the statistical, quantitative and financial analysis systems required in support of all corporate decisions.

## Classes of Records

## **Chapter 14**

# CANADIAN AVIATION SAFETY BOARD

---

## Background

The *Canadian Aviation Safety Board Act* was proclaimed May 1, 1984, taking full effect on October 1, 1984. This legislation followed acceptance by Cabinet of the recommendations made in the Dubin Report concerning Aviation Safety in Canada, which was published in May 1981.

## Laws and Regulations

The Board operates under the *Canadian Aviation Safety Board Act* and the Canadian Aviation Safety Board Regulations.

## Overall Responsibilities

The objective of the Board is to advance aviation safety

- by identifying safety deficiencies as evidenced by aviation occurrences;
- by conducting independent investigations and, if necessary, public enquiries into aviation occurrences in order to discover contributing factors and causes;
- by publicly reporting on its investigation and on the findings and by making recommendations designed to eliminate or reduce safety deficiencies.

It is not the objective of the Board to determine or apportion any blame or liability in connection with an aviation occurrence.

## Organization

The Board consists of the Chairman and six members and is supported by an executive director and five branches: Investigation, which includes six regional investigation offices; Safety Programs; Safety Engineering; Safety Medicine; and Administration.

Telephone: (819) 994-4252

## Aviation Safety Investigation Branch

This branch directs and conducts investigations into aviation occurrences, identifies safety deficiencies, prepares reports on its findings and proposes recommendations to advance aviation safety.

## Aviation Safety Programs Branch

This branch is responsible for data systems and statistical analysis, communications and public affairs, policy and planning and the evaluation of safety deficiencies, and preparation of recommendations.

## Aviation Safety Engineering Branch

The branch is responsible for the development, provision and maintenance of technologically advanced engineering services and a comprehensive material and failure test and analysis capability. These services and facilities provide the specialized technical/engineering support to the occurrence investigations conducted by the Board.

## Aviation Safety Medicine Branch

This branch, when it is established, will be responsible for the development, co-ordination and provision of technologically advanced comprehensive tests and analysis of tissues and fluids of occupants killed in aircraft accidents. These tests/analyses assist in determining condition prior to death and assess human factor aspects for each occurrence.

## Administration Branch

The branch provides financial, personnel, administrative and secretariat services required for the independent operation of the Board. The secretariat function provides direct support to the Board in the conduct of public hearings and enquiries.

## Classes of Records

---

In accordance with the *Access to Information Act* the Board is currently developing classes of records as per the provisions set out in the Treasury Board Submission.

In the interim, formal requests for information pertaining to specific aviation occurrences will be processed in accordance with central agency guidelines.

## Background

The Canadian Centre for Occupational Health and Safety (CCOHS) is a Crown Corporation under Schedule B of the *Finance and Administration Act*, created by Parliament in April 1978 to promote the rights of Canadians to a healthy and safe working environment. It is governed by a Council of Governors representing labour, employers and governments — federal, provincial and territorial.

## Overall Responsibilities

In addition to facilitating open discussion and participation, this structure ensures that policy and priorities of CCOHS accurately reflect Canadian occupational health and safety needs. This varied representation promises that CCOHS services receive support, acceptance and credibility among the client groups. CCOHS neither inspects workplaces nor sets standards; it has no regulatory jurisdiction. In the absence of vested legislative powers, CCOHS relies on the value of its services for their successful implementation.

The Centre is the national information resource in occupational health and safety; it provides information and advice understandable to the end user — the individual worker, the individual manager, and the joint health and safety committee. This information is expected to facilitate decision-making at the worksite by supporting the legislated rights to know about the hazards of work, to refuse hazardous work, and to participate in occupational health and safety programs. Information from the Centre is free of charge and is provided in French and English.

The Centre contributes to Canadian efforts to reduce job-related accidents and diseases, as the collector, interpreter and disseminator of information in occupational health and safety. To meet these information needs in Canada, the Centre increasingly relies on computerized information systems. Under the direction of a tripartite committee of the Council of Governors, it is establishing a national network of connected organizations and providing training and support to its users. To meet users' needs for simple, rapid and easy nationwide access to current worldwide knowledge of occupational health and safety, it is creating databases (electronic information banks) and acquiring international databases; in particular, it is creating databases of direct information, which give information directly, as opposed to bibliographic databases which refer the user to sources of information. Based on their experience in answering enquiries, CCOHS subject specialists prepare publications. Publications and computerized information are planned to eventually carry a major load of enquiries.

## Organization

The policies of CCOHS are established by the Council of Governors, which consists of a chairman, and 39 representatives of labour, employers and governments; it meets three times a year in various parts of Canada. The council is independent of the government of the day. CCOHS is located in Hamilton, Ontario and its operations are led by a President and Chief Executive Officer and organized into four divisions: Information Systems Services, Technical Services, Documentation Services and Finance and Administration Services. The directors report to the President and Chief Executive Officer.

## Key Contacts

Under a policy developed by the council, the Centre has established a series of computerized links with organizations active in occupational health and safety across Canada. Enquirers may contact these organizations for information through the Centre's on-line information service. The present connected organizations are as follows:

## Information Systems Services

This service provides a national computerized service of information on occupational health and safety and maximizes the results of the

# CANADIAN CENTRE FOR OCCUPATIONAL HEALTH AND SAFETY

---

collective activities of CCOHS staff by establishing and operating a computerized information service aimed at providing users with simple, rapid and easy nationwide access to current worldwide knowledge on occupational health and safety, in a manner directly responsive to their needs, and by meeting all the other electronic data processing (EDP) requirements of CCOHS.

## Technical Services

In response to requests for information on occupational health and safety problems, Technical Services provides expert information and advice on recognition, evaluation, and control of workplace hazards.

## Documentation Services

Documentation Services is responsible for acquiring, organizing and disseminating information on occupational health and safety in support of the Information and Advisory Service. It operates the Enquiries Office and participates in the Enquiries Service. It produces an online catalogue and participates in database development.

## Finance and Administration Services

Finance and Administration Services provides centralized planning and control; management, administrative and support services necessary for the effective operation of CCOHS. Finance and Administration promotes the use of and publicizes CCOHS' services through the distribution of publications — newsletters, brochures, technical reports, annual report, and specialized reports.

# CANADIAN COMMERCIAL CORPORATION

---

## Background

A Crown Corporation established in 1946, Canadian Commercial Corporation (CCC) is wholly owned by the Government of Canada. It reports to Parliament through the Minister for International Trade (the Secretary of State for External Affairs Canada). Its mandate is to assist in the development of trade between Canada and other nations.

## Overall Responsibilities

The Corporation's principal activity is to make sales to foreign governments and international agencies on behalf of Canadian suppliers. In all transactions, it assumes the role of prime contractor undertaking to deliver a product, service or project package to the foreign customer with a "back-to-back" obligation from a Canadian supplier. The work to be done is sub-contracted to private sector firms and/or other government departments or agencies.

The Corporation takes care of inspection, acceptance, shipping, payment to suppliers and collection from customers. The advantages of this include:

- a reduction in the complexity of export sales for Canadian firms, and an assurance to foreign customers that suppliers are financially and technically capable of meeting bid specifications and conforming to contract terms;
- access by suppliers to government-to-government procurement opportunities, and an assurance to foreign buyers of equitable prices and terms from Canadian suppliers;
- encouraging foreign customers to deal with smaller or less well-known Canadian firms, backed by the security of Canadian government support through the CCC; and
- expedition of the payment process.

Since 1946, Canadian Commercial Corporation has served more than 90 foreign governments and international agencies in transactions totalling more than \$12 billion. Annual export sales for 1984-85 were \$781 million. At any one time, CCC has active contracts with more than 300 Canadian firms.

## Organization

The Board of Directors is comprised of Canadian business executives, senior public servants and the acting president of the Corporation. In addition to the Executive and Audit Committees, an Industry Advisory Committee ensures up-to-date awareness of Canadian business needs and international trade developments.

The Corporation's headquarters maintains a staff of some 20 persons. Approximately 98 people at the Export Supply Branch and Supply and Services Canada product centres provide sourcing and contracting services to the Corporation. CCC has total assets of approximately \$380 million; annual expenses of \$17 million, 88 per cent of which is paid to Supply and Services Canada for services provided.

The Corporation's activities complement those of other export-related

groups and agencies of the Canadian government, including the International Trade Development units of the Department of External Affairs, and its trade commissioners abroad (export marketing); the Export Development Corporation (export financing and insurance); and Canadian International Development Agency (loans and grants to developing countries).

# CANADIAN CULTURAL PROPERTY EXPORT REVIEW BOARD

---

## Background

The Canadian Cultural Property Export Review Board was created by the *Cultural Property Export and Import Act*, proclaimed in November 1977. Its purpose is to preserve in Canada the best examples of Canadian heritage in movable cultural property. This is accomplished through a system of export controls, tax incentives for individuals who donate or sell cultural objects to public institutions and grants to assist institutions in purchasing cultural objects under certain circumstances.

## General Responsibilities

The responsibilities of the Review Board are to review applications for export permits, to make determinations on fair cash offers to purchase cultural property, to make determinations for the purposes of the *Income Tax Act*, to provide advice to the minister on matters affecting the preservation in Canada of the heritage in movable cultural property. In particular, it recommends to the minister, pursuant to Section 29 of the Act, grants and loans to designated institutions and public bodies in Canada for the purchase of objects for which export permits have been refused under the Act, or for the purchase of cultural property outside Canada that is related to the national heritage. The grants and loans are made out of monies appropriated annually by Parliament.

## Flow of Applications for Export Permits

When reviewing an application for an export permit the Board must determine whether the object in question is included in the Canadian Cultural Property Export Control List; is of outstanding significance by reason of its close association with Canadian history or national life, its aesthetic qualities or its value to the study of the arts or sciences; and whether the object is of such a degree of national importance that its loss would significantly diminish the national heritage.

## Applications for Certification of Cultural Property for Income Tax Purposes

When the Review Board determines that the cultural property

subject of an application meets the criteria of outstanding significance and national importance and the cultural property qualifies for certification for income tax purposes, the Review Board issues a Cultural Property Income Tax Certificate to the designated institution or public authority making such an application. It should be noted that objects proposed for certification need not be included in the Canadian Cultural Property Export Control List. Thus objects less than 50 years old and made by a living person may qualify. It should also be noted that a certified cultural property subject of a Cultural Property Income Tax Certificate is exempt from tax on taxable capital gains when disposed of (by gift or sale) to an institution or public authority in Canada designated for the purpose and, in the case of a donation, also qualifies for the 100 percent deductibility provision under the *Income Tax Act*.

ACCESS TO INFORMATION  
CO-ORDINATOR  
CANADIAN DAIRY COMMISSION  
2197 RIVERSIDE DRIVE  
OTTAWA, ONTARIO  
K1A 0Z2

## Background

The Canadian Dairy Commission was established by an Act of Parliament in October 1966. The Commission is accountable to Parliament. It consists of three members appointed by the Governor-in-Council: a chairman, a vice-chairman, and one other member. Commissioners are responsible to the Minister of Agriculture and their offices are in Ottawa. The Act also provides for the establishment of a consultative committee. This committee, composed of nine members appointed by the Minister, represents a variety of interests. The committee provides the Commission with advice on production and marketing matters.

## Laws and Regulations

Canadian Dairy Commission Act  
Agriculture Stabilization Act

## Overall Responsibilities

The Commission plays a major role in developing the industrial milk industry in Canada. As stated in the Act, its objectives are

- to provide efficient producers of milk and cream with the opportunity of obtaining a fair return for their labour and investment; and
- to provide dairy product consumers with a continuous and adequate supply of high quality dairy products.

To achieve these objectives, the Commission calculates a target price for industrial or manufacturing milk and cream, based on the returns adjustment formula; administers an offer-to-purchase program for butter and skim milk powder at prices approved by the government; pays a subsidy on qualifying industrial or manufacturing milk and cream shipments directly to dairy farmers (which makes dairy products more affordable for consumers); forecasts and monitors the supply and demand of dairy products; markets dairy products both domestically and on export markets; conducts dairy product and market research, and recommends dairy policy to the Minister of Agriculture.

The chairman of the Commission chairs the Canadian Milk Supply Management Committee. This committee administers the Comprehensive Milk Marketing Plan signed by all industrial or manufacturing milk- and cream-producing provinces. The committee is composed of representatives of provincial producer marketing boards, provincial government agencies and the Commission that represents the federal government. A major responsibility of this committee is the supply management of industrial milk and cream in Canada.

## Major Publications

The Commission publishes an annual report and issues bulletins on contributions to dairy policy and regulations. There is also a list of available research reports, articles and studies on dairy policy, products and markets.

## Access Procedures

Both informal enquiries and formal requests for information about the Commission and its operations under the *Access to Information Act* could be addressed to

Access to Information Co-ordinator  
Canadian Dairy Commission  
2197 Riverside Drive  
Ottawa, Ontario  
K1A 0Z2  
Telephone: (613) 998-9490

## The Commission

The Commission establishes policy and administrative guidelines and objectives for the corporation, maintains constant liaison with federal and provincial government departments and agencies, representatives of producers and processors, prepares policy recommendations for the industry and the government, receives advice from the Consultative Committee to the Commission and chairs the Canadian Milk Supply Management Committee.

## Policy and Economics

The section provides analysis and advice on dairy-related issues.

## Subsidy Operations

The section administers the payment of subsidies on qualifying shipments of industrial milk and cream to producers in order to make dairy products more affordable to consumers. This involves processing applications for registration of producers permits, maintaining records of provincial and individual producer market share quotas and milk and cream production, the payment of subsidies on the basis of those records, directing and controlling the levy program.

## Marketing Operations

These operations involve both domestic and export activities, the purchase, sale, transport, warehousing, financing and payment of export and animal feed assistance on dairy products under the Commission's domestic price support and special export program (products involved are butter, skim milk powder, cheese, evaporated milk, whole milk powder and specialty products). Also included is the funding of product promotion and market research.

# CANADIAN FILM DEVELOPMENT CORPORATION

---

## Background

The Canadian Film Development Corporation, now called Telefilm Canada, was established by the government in 1967 to foster and promote the development of a feature film industry in Canada. In 1981, the Corporation's mandate was expanded to include shorts and documentary films, and in 1983 the Corporation was made responsible for the administration of the Canadian Broadcast Program Development Fund, making it the federal government agency responsible for private sector development in both the television and film industries.

## Overall Responsibilities

The Corporation, which does not produce or distribute films or television programs, carries out its mandate by providing advice and financial assistance to individual production and distribution companies, and various industry organizations. The Corporation works with federal and provincial government ministries and cultural agencies towards the formulation of film and video policy and programs.

## Organization

The Corporation, which comes under the jurisdiction of the Minister of Communications, is headed by a board of directors and a chairman appointed by the Governor-in-Council. On the recommendation of the Corporation's board, the Governor-in-Council also appoints an executive director who acts as the chief executive officer and is responsible for day-to-day operations. Headquarters of the Corporation are located in Montréal, with offices in Toronto, Vancouver, Halifax, Los Angeles, Paris, London and New York.

## General Information

General information on current Corporation programs or activities may be obtained in person, by telephone, or by writing to the Corporation offices listed below:

### Montréal

Telefilm Canada  
Tour de la Banque Nationale  
600 de la Gauchetière Street West  
25th Floor

Telephone: (514) 283-6363

## Administration Unit

In addition to the general administration of the Corporation, this unit is responsible for internal policy formulation and for evaluating and advising the federal and provincial governments on film and television policies and strategies. The unit is also responsible for the administration of Canada's co-production treaties with Algeria, Belgium, France, Israel, Italy, the Federal Republic of Germany, Spain and the United Kingdom, on behalf of the Minister of Communications. It also evaluates applications made under these treaties and makes recommendations to the Minister on provisional and final approval.

## Program Unit

The Corporation has two main program areas: Production, and Distribution and Marketing. Production includes the Canadian Broadcast Program Development Fund, the script and development program, the interim financing program, and a production program for low budget dramatic films and documentaries. Distribution and Marketing includes a test marketing program, a domestic promotion and advertising program, international support activities, and the industry support program. This last program provides grants to non-profit industry organizations for festivals, markets, seminars and workshops which are intended to benefit a substantial portion of the industry.

### **Distribution and Marketing**

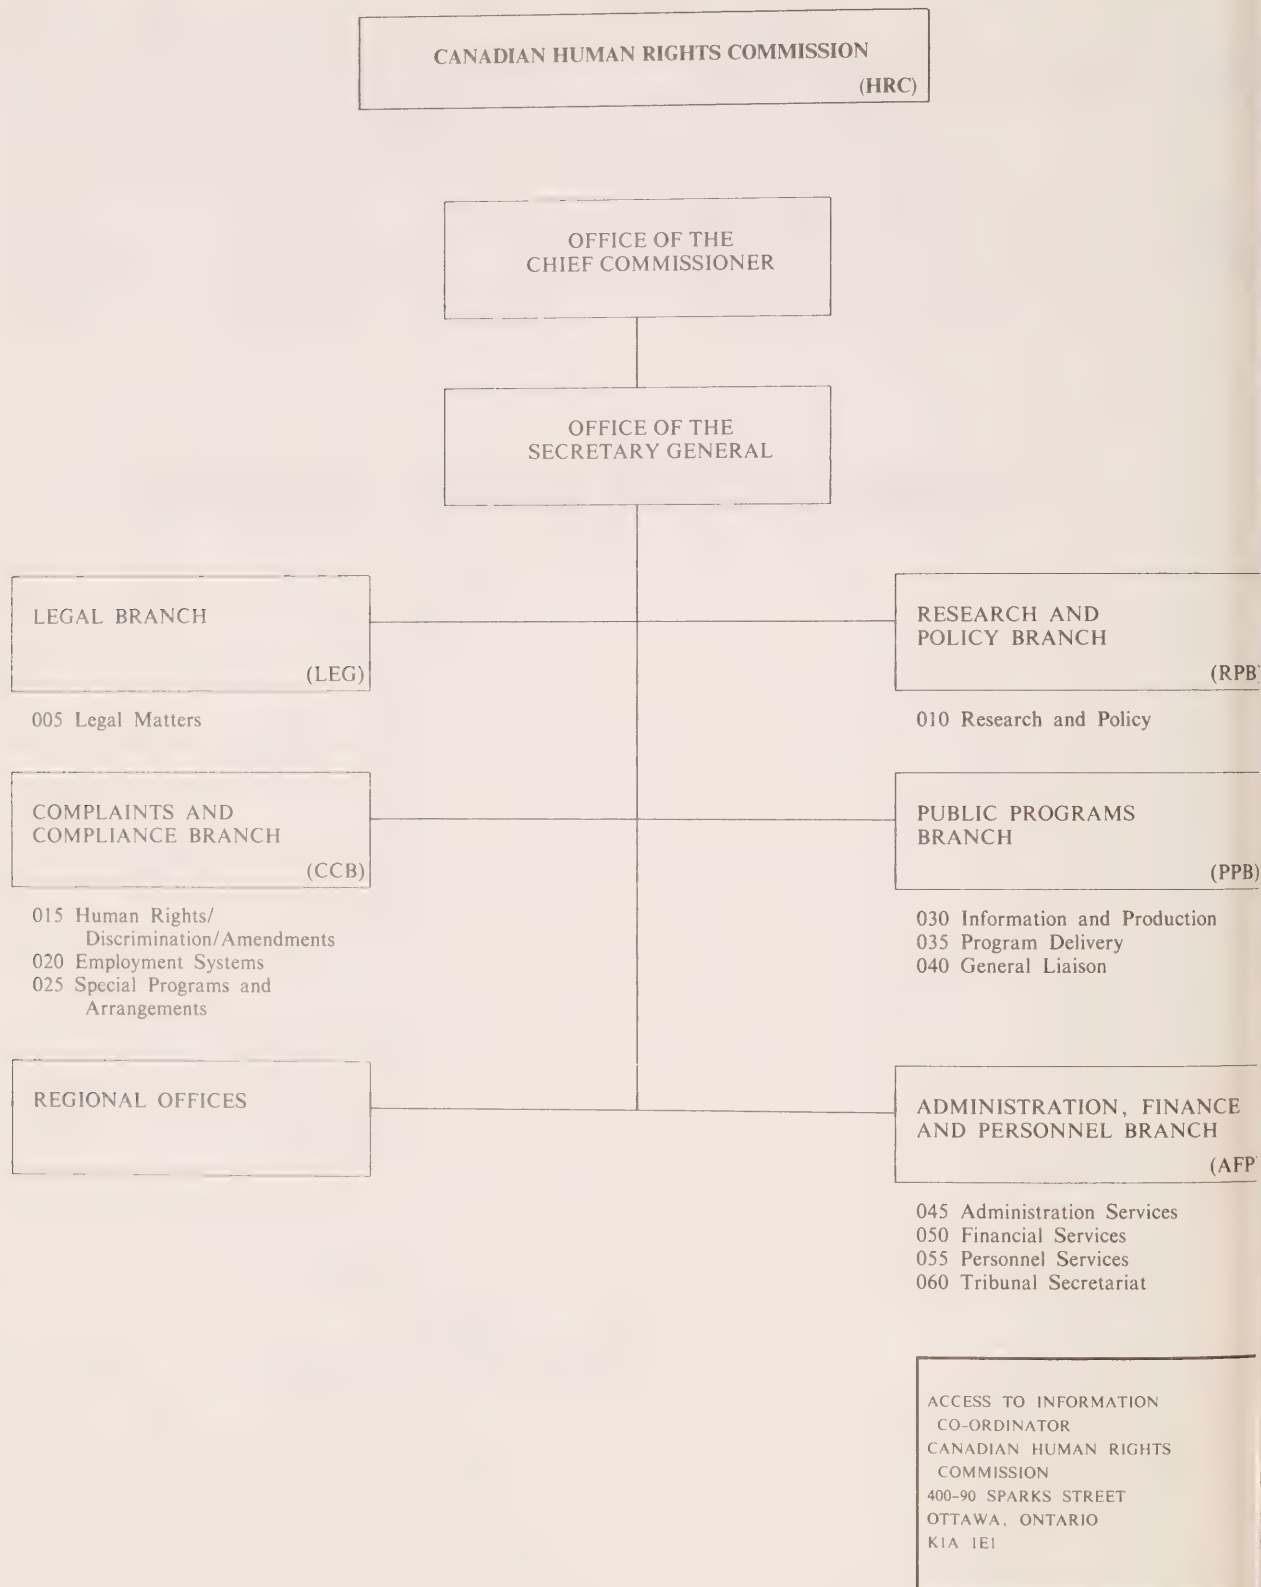

*Description:* Information on transactions carried out under the Corporation's distribution and marketing programs, as well as on the distribution or marketing of films. *Topics:* Contracts; revenues; distributors; agents; territories; and markets. *Retrievability:* Files arranged by country, company, market or project title.

# **CANADIAN HUMAN RIGHTS COMMISSION**

## **Chapter 20**

# CANADIAN HUMAN RIGHTS COMMISSION

# CANADIAN HUMAN RIGHTS COMMISSION

---

## Background

The Canadian Human Rights Commission (CHRC) was given its mandate with the passage in July, 1977 of the *Canadian Human Rights Act*. The Act became operative on March 1, 1978, and was amended July 1, 1983. The Commission's mandate is to foster the principle that every individual should have an equal opportunity to participate in all spheres of Canadian life, consistent with his or her duties and obligations as a member of society.

## Laws and Regulations

The Commission operates under the *Canadian Human Rights Act* and the following Regulations and Guidelines:

- Equal Wage Guidelines (SI/78-155, September 27, 1978; amendment: SI/82-2, January 13, 1982)
- Age Guidelines (SI/78-165, October 25, 1978)
- Canadian Human Rights Benefit Regulations (SOR/80-68, January 11, 1980; amendment: SOR/82-783, August 19, 1982; SOR/83-615, July 28, 1983)
- Human Rights Tribunal Appeal Regulations (SOR/80-394, May 27, 1980)
- Immigration Guidelines (SI/80-125, July 23, 1980)
- Immigration Investigation Regulations (SOR/80-686, August 27, 1980)
- Bona Fide Occupational Requirements Guidelines (SI/82-3, January 13, 1982)

## Overall Responsibilities

The Canadian Human Rights Commission carries out its mandate in two ways. First, it deals with complaints of discrimination in employment or in the provision of goods, services, facilities or accommodation on the basis of ten prohibited grounds of discrimination: race, national or ethnic origin, colour, religion, age, sex, marital status, family status, disability, or conviction for an offence for which a pardon has been granted. Its jurisdiction includes federal government departments and agencies, crown corporations and institutions such as chartered banks, airlines, interprovincial transportation systems, as well as the federally regulated portions of the private sector.

Second, the Commission conducts information programs in the field of human rights, provides advice, issues guidelines, conducts research, reviews regulations and their instruments, maintains close liaison with the provinces and endeavours to reduce discriminatory practices.

## Organization

The Commission is headed by the Chief Commissioner who has deputy minister status, and is supported by the deputy chief commissioner and the secretary general. There are five administrative operational branches at headquarters: Legal, Research and Policy, Complaints and Compliance, Public Programs and Administration, and Finance and Personnel.

The Commission also maintains seven regional offices in Halifax, Montréal, Ottawa, Toronto, Winnipeg, Edmonton and Vancouver.

## Legal Branch

This branch provides legal advice to Commission members and staff on all legal matters which come under the jurisdiction of the Commission, and information and advice on the administration of legal matters pertaining to legal proceedings by or against the Commission in a Human Rights Tribunal or in a court of law. Staff of

# CANADIAN HUMAN RIGHTS COMMISSION

the branch are responsible for the conduct of cases before tribunals and courts.

## Research and Policy Branch

This branch is responsible for supporting the Commission's decision-making process through applied research projects and development of policies on any number of human rights issues. Work from this branch is in support of complaints processing, relations with other agencies and the public, representations to Parliament, and advice to employers and organizations serving the public.

## Complaints and Compliance Branch

This branch is responsible for ensuring that complaints of discrimination filed with the Commission are investigated in an efficient and timely manner consistent with the principles set out in the *Canadian Human Rights Act*. The branch is responsible for the development and implementation of policies and standards for all compliance activities. The branch is also responsible for conciliation, and for providing advice, assistance and direction to staff in equal pay and systemic discrimination complaints and adaptation plans. In addition, the branch plays a preventative role by providing advisory services to organizations coming under the jurisdiction of the Commission, in order to help them review and modify their systems and practices so that they comply with the Act.

## Public Programs Branch

This branch is responsible for the statutory requirements to develop and implement information training and consultative programs designed to increase public understanding of the Commission and compliance with the Act and its principles. The branch is comprised of Program Analysis and Development, responsible for undertaking long-term planning and development of services and resources needed by the Commission's clients; Information and Production, responsible for the overall co-ordination of the Commission's public affairs and for the production of various informational material for the Commission's clients; and Program Delivery, responsible for providing such services as information sessions, workshops and seminars.

## Administration, Finance and Personnel Branch

This branch provides all administrative support services such as finance, personnel, Tribunal secretariat, accommodation, library services, records management and materiel management.

# CANADIAN IMPORT TRIBUNAL

---

## Background

The Canadian Import Tribunal derives its authority from the *Special Import Measures Act*, which replaced the 1969 *Anti-dumping Act*. The new Act came into force on December 1, 1984. It was designed to modernize and streamline Canada's previous anti-dumping and countervailing legislation, and to bring it into conformity with its international obligations. In the case of dumping, we refer to the Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade (the Anti-dumping Code), and in the case of subsidization, to Article 6 of the Subsidies and Countervailing Duties Agreement (the Subsidies and Countervailing Duties Code). These agreements were negotiated under the auspices of the GATT 'Tokyo Round' of multilateral trade negotiations and signed by Canada in 1979. With respect to the Anti-dumping Code, this had been initially negotiated during the 1960s 'Kennedy Round' of multilateral tariff negotiations.

The Canadian Import Tribunal is an independent, quasi-judicial tribunal whose mandate is to enquire as to whether the importation of goods is causing material injury to Canadian industry or is retarding the establishment of production in Canada, and to determine appropriate action. These enquiries result in the issuance of findings or reports by the Tribunal. Findings establish the basis under which National Revenue, Customs and Excise, levy anti-dumping or countervailing duties, whereas reports assist the government in determining whether safeguard action should be taken respecting other imports.

Because the Canadian Import Tribunal replaced the Anti-dumping Tribunal on December 1, 1984, much of this chapter relates to activities carried out by the former Anti-dumping Tribunal under Section 16 of the *Anti-dumping Act*. Similar enquiries are now conducted pursuant to Section 42 of the current *Special Import Measures Act* by the Canadian Import Tribunal. These enquiries have been broadened to include the determination of the impact of subsidized as well as dumped imports. The Act also contains provisions for representations to be heard on the public interest issue during the proceedings. This means that interested persons may make representations on the issue of whether the imposition of duties on dumped or subsidized goods would be in the public interest.

Under Section 31 of the former Act, the Anti-dumping Tribunal, at any time after the date of any order or finding made by it, was empowered to review, rescind, change, alter or vary the said order or finding or to re-hear any matter before deciding it.

The Canadian Import Tribunal, under Section 76 of the Act, can also review its own findings. The new Act now puts a limitation of five years during which a finding is in effect, if not continued by the Tribunal as a result of a review.

All orders or findings of material injury made under the old Act and which are still in effect on December 1, 1984, are deemed to have been made on the date of proclamation of the *Special Import Measures Act*, because of a transitional provision. Such findings, therefore, may continue in effect for five years unless reviewed and rescinded by the Tribunal at an earlier date.

Under Section 13 of the old Act, the Tribunal was required, if requested to do so, to advise the deputy minister of National Revenue, Customs and Excise, whether there was evidence that imports which were determined or alleged to be dumped were the cause of material injury to the production in Canada of like goods.

The Canadian Import Tribunal is also required to advise the deputy minister on reference questions, under Section 33 of the new Act. The new Act extends the right of referring the question of evidence of injury to the Tribunal to exporters, importers and governments affected by the deputy minister's investigation. Under the old Act,

only the deputy minister and the complainant had this right of reference.

Section 16.1 of the *Anti-dumping Act* provided that upon a reference by the Governor-in-Council 'the Tribunal shall enquire into and report to the Governor-in-Council on any other matter or thing in relation to the importation of goods into Canada that may cause or threaten injury to the production of any goods in Canada'. This section had both general and specific applications. In general, it was invoked in relation to any problem involving alleged injury caused by imports. Specifically, it was invoked to assist the Governor-in-Council in dealing with situations in which it had been determined that allegedly injurious imports had benefited from foreign government subsidization.

Section 48 of *Special Import Measures Act* extends the purview of the former Section 16.1 *Anti-dumping Act* as it includes the provision of imported services as a subject of possible enquiry.

As was the case with the former Act under Section 16.1, enquiries carried out pursuant to Section 48 of the *Special Import Measures Act* are advisory rather than adjudicative, and any action which may follow is decided by the Governor-in-Council who is not bound by the Tribunal's reports.

The Canadian Import Tribunal has two further statutory responsibilities that it is mandated to fulfill under the new Act. Section 89 provides that the Tribunal may be asked to rule on the question as to which of two or more persons is the importer of goods on which duty is payable. Also, the Tribunal has a duty to reconsider any finding that it has made, when its ruling as to who is the importer identifies a person other than the one specified by the deputy minister of National Revenue.

*The Special Import Measures Act*, the Regulations, and the Rules should be consulted for the purpose of interpreting and applying the law.

Section 75(3) of the Act imposes an obligation on the Tribunal to maintain as confidential any evidence or information that is by its nature confidential. As a result, all information on record of a case is classified as either public or confidential. Only authorized counsel, upon giving a formal undertaking of confidentiality, have access to confidential information, and only during the course of the enquiry.

# CANADIAN INTERNATIONAL DEVELOPMENT AGENCY

## Background

The Canadian International Development Agency (CIDA) administers Canada's programs of assistance to countries in the developing world.

The multi-faceted nature of the problems of international development necessitate close collaboration with a wide range of partners in Canada and overseas. Since the development effort involves nearly all sectors of society, CIDA must draw on the expertise of hundreds of Canadian private firms, voluntary organizations, many federal and provincial government departments, and of course the governments, institutions, and voluntary organizations of the developing countries themselves. In addition, the interdependence of development policies with other aspects of Canada's foreign policy requires on-going working relationships with such departments as External Affairs, Finance, and Agriculture, as well as the Export Development Corporation, other aid-giving countries, the United Nations, the World Bank and other multilateral organizations.

## Laws and Regulations

CIDA is designated as a department for the purposes of the *Financial Administration Act* by Order-in-Council P.C. 1968-9-23 of May 8, 1968. It acts under the sponsorship of the Secretary of State for External Affairs (SSEA). The authority of the SSEA and of CIDA for the International Development Assistance Program and related purposes is found in the new *Department of External Affairs Act*, in the Annual Appropriation Acts and in the *International Development (Financial Institutions) Continuing Assistance Act*.

## Overall Responsibilities

The objectives of the International Development Assistance (IDA) program are as follows: (1) to facilitate the efforts of the peoples of developing countries to achieve self-sustainable economic and social development in accordance with their needs and environment by co-operating with them in development activities, and (2) to provide humanitarian assistance, thereby contributing to Canada's political and economic interest abroad in promoting social justice, international stability and long-term economic relationships for the benefit of the global community.

## Organization

### Program Organization for Delivery

The International Development Assistance Program, estimated at more than \$1.6 billion, is composed of three activities.

The Country to Country Co-operation activity is the largest and is divided into four sub-activities. The Direct Country Assistance sub-activity involves assistance in the form of projects and programs provided by Canada on a government-to-government basis to selected countries and regional institutions in these geographical areas. Bilateral Food Aid covers the transfer of food commodities on a country-to-country basis. Development Co-operation and Development Education includes support for the overseas development efforts of provincial governments, Canadian non-governmental organizations and institutions, and for programs to increase public participation in international development. Finally, Business Co-operation refers to the support provided to the Canadian private sector to support the international development initiatives.

The second largest activity, International Initiatives, has five sub-activities. International Financial Institutions covers Canadian support for regional development banks such as the Asian Development Bank. The Multilateral Food Aid sub-activity includes

food aid provided through international organizations as well as certain co-ordination and evaluation functions relating to all CIDA food aid. Multilateral Technical Co-operation refers to support for United Nations bodies engaged in international development and also includes contributions to selected Commonwealth, francophone and other multilateral organizations. International Humanitarian Assistance involves support for international institutions, non-governmental organizations, and governments responding to natural and man-made disasters. International Non-Governmental Organizations (INGO) provides for support to international non-governmental organizations, such as the International Planned Parenthood Federation, that are involved in development co-operation.

The Corporate Services activity involves the provision of advisory and support services to CIDA in such areas as executive functions, policy formulation, public affairs, and personnel and financial services.

In the portfolio of External Affairs, the Secretary of State for External Affairs has the ultimate responsibility for the international dimensions of Canada's national interests and activities.

The Minister for External Relations has the primary responsibility for the Canadian International Development Agency and international development issues in general. More specifically, the Minister for External Relations is responsible for francophone and anglophone Africa, the Caribbean region and the development institutions of the United Nations. The Minister has delegated authority with respect to the allocation of aid among sectors within an individual recipient country as well as project and contract approval. In discharging these responsibilities, the Minister receives direct recommendation from the President of CIDA and the President's committee.

The Canadian International Development Agency is headed by a President who is a deputy-minister. With regards to the day-to-day management of the Agency, the President is seconded by a senior vice-president and a committee formed by the vice-presidents responsible for various sectors of the Agency's work.

The orientation of development aid programs is decided by Cabinet on the advice of the Secretary of State for External Affairs. The President of CIDA, after extensive consultations with other departments concerned, submits his/her recommendations to the Secretary of State for External Affairs in an annual strategic overview which, after the latter's approval, is submitted to Cabinet.

## Access Procedures

Requests for information submitted under the *Access to Information Act* should be addressed to

Access to Information Co-ordinator

Telex: 053-4140

## Policy Branch

The branch is responsible for the formulation of development policies and strategies in relation to the transfer of official development assistance to developing countries, the provision of continuing advice to ensure that these policies are kept relevant to conditions affecting the implementation of the IDA Program, and the design and review of evaluation methods and practices to maximize its effectiveness. It is comprised of three divisions: Policy Planning and Co-ordination Division, Policy Development and Research Division, and the Evaluation Division.

# CANADIAN INTERNATIONAL DEVELOPMENT AGENCY

---

## Manuals

- Project Evaluation — Perspective and Methodology
- Session Workbook on Project Evaluation
- Handbooks — Bilateral Programs
- Branch and Divisional Directives — describing operational procedures

## Business Co-operation Branch

The branch co-ordinates and expands the Agency's working relations with the Canadian business community. The activity is designed to strengthen the Agency's program to assist the economic and social development of developing countries in the Third World. It will continue expanding CIDA's efforts to encourage the Canadian business community to increase investment in and development of the technological capacities of these countries, thus assisting the industrial and agricultural development and the creation of new employment in these countries.

## Industrial Co-operation Division

The purpose of this division is to stimulate increased participation by Canada's private sector in the industrial development and growth of the Third World, and to do so through joint ventures and other forms of business initiatives beneficial both to developing countries and Canada.

## Policy and Liaison

The purpose of this unit consists of formulating and co-ordinating policies as they relate to the Canadian business sector's participation in projects in developing countries, which fall within the development objectives of recipient countries.

## Consultant Industrial Relations

The purpose of this unit consists of establishing and maintaining effective contacts with individual Canadian firms operating in various industrial sectors to assist their interface with CIDA.

## Systems and Operations

The purpose of this unit consists of planning, developing, maintaining and evaluating the systems related to the operations of the Business Co-operation Branch.

## Multilateral Programs

Through multilateral assistance, Canada joins with other donor nations to provide development assistance that is beyond the scope of individual donor countries. CIDA funds for multilateral programs are channeled through United Nations agencies and other international development organizations. In addition, CIDA and the Department of Finance provide funds to international financial institutions such as the regional development banks and the World Bank.

Most of these organizations operate a variety of programs, so that CIDA contributes to some 65 programs in all. While the organizations are responsible for the administration of projects, Canada participates in their governing bodies to ensure that the organizations are operating within appropriate policy and operational guidelines, and that they meet Canada's interests and those of the international community as a whole.

The Multilateral Branch is composed of four divisions: Multilateral Technical Co-operation, Food Aid Co-ordination and Evaluation Centre, Financial Institutions and International Humanitarian Assistance.

## Multilateral Technical Co-operation

The division funds some 55 international programs engaged in a wide variety of development-related areas, particularly technical co-operation. In addition to the development programs in the United Nations family, programs related to the Commonwealth, the *Agence de co-opération culturelle et technique*, and the Consultative Group of International Agricultural Research are also administered by the division.

## Manuals

- Program Memory
- Multilateral Reviews
- Bilateral Reviews
- Institutional Appraisals
- Multilateral Management Systems Manual
- Disbursement Plan
- Criteria, Terms and Conditions
- Grants and Contributions

## Food Aid Co-ordination and Evaluation Centre (FACE)

The centre is responsible for the total CIDA food aid program. It thus participates in the food aid program cycle and allocation process as well as in the preparation and processing of all submissions seeking approval for food aid projects; co-ordinates the planning of food aid activities in consultation with operating branches; initiates discussions on and participates in the process of food aid budget reallocations, as and when necessary, during the course of the fiscal year, in consultation with operating branches; serves as a co-ordinating centre within CIDA for policy and program discussions concerning food aid, with Treasury Board, the Department of External Affairs, Agriculture Canada, the Department of Finance, the World Food Program, the Canadian Wheat Board, the Canadian Dairy Commission, the Fish Marketing Board (for reserving tonnages), and food producers and processors. The centre also acts as team leader on the Food Aid Program Team and its core groups.

## Manuals

- Food and Agricultural Organization (FAO) Reports

## Financial Institutions Division

The division develops and maintains the international financial institutions as mechanisms for development financing. It provides guarantees (i.e., callable capital) to facilitate the recycling of private capital resources for development financing, and in so doing multiplies the availability of such financing. The funds are provided to regional development banks for use in their first and second windows as well as for technical assistance purposes. The division also actively participates with other departments in the management of Canadian assistance provided through the Department of Finance to the World Bank Group. It ensures that the international financial institutions (IFIs) are managed in a manner which maintains their creditworthiness in the international capital markets. The division fosters policies within the IFIs that are consistent with the developmental and humanitarian principles of Canadian foreign policy.

## International Humanitarian Assistance Program (IHA)

Under this program, Canada provides financial support for efforts to alleviate human suffering caused by natural and man-made disasters abroad. This assistance is normally channelled through international institutions and Canadian and international non-governmental

# CANADIAN INTERNATIONAL DEVELOPMENT AGENCY

organizations involved in such work. This is a reflection of Canada's desire to participate in a collective international effort.

Grants are given primarily in support of the regular programs of three major institutions: United Nations High Commissioner for Refugees (UNHCR), United Nations Relief and Works Agency for Palestinian Refugees (UNRWA), and the International Committee of the Red Cross (ICRC). Grants are also given in support of special country appeals or for projects launched by these and other humanitarian institutions. To ensure the flexibility needed by an emergency response mechanism, a policy of providing largely untied IHA program grants is maintained.

## Special Programs Branch

The branch provides contributions to Canadian non-governmental organizations (NGOs) in support of general development assistance programs, specific projects, as well as education programs and projects.

### Manuals

- Operations Handbook 13
- Non-governmental Organizations (NGO) Division

## International Non-governmental Organizations Division

The division provides grants and contributions to international non-governmental organizations (INGOs) in support of development assistance programs and projects.

## Institutional Co-operation and Development Services Division

The division's program represents a new dimension in Canada's relations with the developing countries by seeking to build relationships with them. It is a shift away from aid, with its donor-receiver connotations, to collaborations that bring mutual benefits. The program provides a framework for joint ventures between institutions and organizations in Canada and their counterparts in the developing countries. It enables such bodies to undertake substantive programs together, rather than to "twin" or link institutions purely to exchange personnel. "Joint ventures" are endeavours in which both parties have a stake since they will be working together as equal partners, rather than as a Canadian institution providing aid or technical assistance on a one-way basis. "Substantive" means programs that deal with specific problems or program areas.

### Manuals

- Handbook 13
- Institutional Co-operation and Development Services Division Manual

## Asia Branch

The principal objective of the Asia Branch is to plan, develop and implement Canada's aid program to some eight countries of concentration and fourteen other countries within Asia and to integrate Canadian development activities within these countries.

Under the direction of the vice-president, the Asia Branch is composed of eight program units: Asian Regional Program; India/Nepal; Pakistan; Indonesia; Peoples' Republic of China; Thailand; Bangladesh; Sri Lanka. Each unit is responsible for the management of aid programs to recipient countries as well as the relationship of these programs to Canadian interests.

The program is composed of projects throughout Asia under the management of contractors, consultants and individual co-operants. Increasing use is made of non-governmental organizations and institutions implementing grassroots activity for social and human

resource development. There are approximately 230 ongoing projects primarily concentrated in the agriculture, rural development, energy, human resource development, and social development sectors at various stages of development.

## Americas Branch

In January 1979 the Latin American and Commonwealth Caribbean programs were grouped in the newly constituted Americas Branch. The administrative regrouping makes it possible to take the whole continent into account when formulating a development strategy for the region's developing countries, which face five major problems: poor distribution of income; low agricultural productivity; rapid urbanization; acute unemployment; and increasing debt, largely the result of oil price increases and declining trade. Despite their merger, the two programs are distinct in structure and evolution.

## Latin American Region

The Agency's program in Latin America focuses mainly on energy, forestry, food and agriculture, transportation, and the development of human and institutional resources. Programs of social development through non-governmental institutions and organizations aim at improving the standard of living of the most disadvantaged people, especially in the areas of health and nutrition. With the exception of Venezuela and Cuba, CIDA provides support to local initiatives through mission-administered funds (MAF), non-governmental organizations (NGOs) and industrial co-operation in all countries of the region.

## Commonwealth Caribbean Region

The primary objective of Canadian bilateral assistance to the Caribbean is to encourage economic growth and stability. Food production, energy generation, and response to increasing balance of payments and human resource constraints are of critical concern. The bilateral program has thus focussed on the agriculture (including forestry and fisheries), public services, transportation, education, and energy sectors. In 1978, under the auspices of the World Bank, a mechanism was set up known as the Caribbean Group for Co-operation in Economic Development (CGCED). It comprises recipients, donors and multilateral institutions and serves as a consultative group on long-term economic development in the region. CIDA provides support to local initiatives through Mission Administered Funds (MAF), NGOs and institutional co-operation in Commonwealth Caribbean countries. Under the Joint Trade and Economic Agreement, CIDA also has a program of industrial co-operation to promote private sector development in the region.

## Anglophone Africa Branch

The anglophone Africa program at CIDA covers 28 African countries, ranging from the largest on the continent (Sudan), and the most populous (Nigeria), to a number of micro-states with populations of less than one million. Living conditions are difficult in most of these countries, as reflected by the low average annual gross national product of \$300 per capita, an adult literacy rate of only 38 per cent and a life expectancy of 47 years.

To date, the major sectors of involvement have been energy, transportation human resource development and agriculture. Two trends have become apparent during the past few years. The first is an increasing emphasis on projects directed to the agricultural sector, particularly ones which will support food production. Approximately 35 per cent of bilateral assistance is now disbursed on agriculture and rural development projects. The second trend is a greater use of economic support mechanisms such as lines of credit and commodity grants. Under these mechanisms, priority is given to the provisions of

goods and services which will improve the use of existing infrastructure, production facilities and essential social services.

The major recipients of Canadian assistance are Egypt, Ghana, Kenya, Tanzania, Zambia and Zimbabwe. Most of this assistance is provided in the form of contributions, with some countries also receiving concessional loans.

## Francophone Africa Branch

Canada has been increasing its assistance to the most disadvantaged countries and peoples in francophone Africa. In the Sahel, substantial assistance has been provided to promote the development of agriculture and end the isolation of countries, and areas within countries, through the construction of roads and railways, the Panafrican Telecommunications Network (PANAFTEL) and the *Centre régional de télédétection de Ouagadougou* (RTO). In addition, the transfer of resources and industrial co-operation with middle-income countries has been increasing. Overall, the transportation, agricultural, education, public services (hydroelectricity and energy generally) and communications sectors have received most of the funding.

## Operations Services Branch

The branch provides services to the Agency in general, and the four geographic branches, in particular in the areas of program co-ordination, systems, development of operational policies and procedures, contracting, procurement, and human resources development (recruitment, briefing and training).

The branch is also responsible for the corporate planning and management systems common to the four geographic programmes, i.e. bilateral programs. This function includes management of the bilateral planning and financial cycle, responsibility for developing guidelines related directly to management of the bilateral program, and a catalytic role in stimulating innovations and improvements in program and project planning and management.

The branch currently consists of six separate divisions: Contracts Division; Procurement Division; Human Resources Division; Briefing Centre; Area Co-ordination Group — Programming and Planning; and Systems and Operations.

## Contracts Division

The division is responsible for the development, implementation and monitoring of contractual policies, procedures and standards for services contracts, and related liaison with the Treasury Board Secretariat and other government departments. It is also responsible for advising and assisting project teams on services contract negotiations and for the negotiation of major contracts on behalf of the area branches as requested; and is responsible for the preparation of all services contracts and related documents. Other responsibilities include entering and updating all data dealing with service contracts in AIDIS.

## Procurement Division

The division provides advice to client branches on procurement and shipment practices for material, equipment, and related services associated with aid programs and projects, including lines of credit. It also provides services for the procurement and shipment of food and commodities. The division formulates material and equipment specifications and monitors the performance, as to quality, quantity and scheduling, of the Department of Supply and Services or any other procurement agency.

## Procurement and Transportation Section

The section provides advice and assistance to client branches on food procurement, on procurement of equipment for grant aid projects through the Department of Supply and Services, and on transportation of food and goods to recipient countries; and carries out procurement and monitoring activities for these goods and services.

## Commodity and Lines of Credit Section

The section is responsible for the provision of advice and assistance to the bilateral geographic branches on matters of procurement planning and monitoring within aid programs and projects; to administer and manage, on request, the commodity grants and lines of credit on behalf of the project team leader; and to supervise for the client branches the procurement management of projects conducted by the recipient countries or their agents through monitoring.

## Equipment, Maintenance and Specification Section

The section provides advice and assistance to client branches on specifications for free-standing equipment and on its deployment and use. In addition, the section supports client branches by providing expertise in the areas of long term maintenance, quality assurance, and Canadian content.

## Human Resources Division

The division develops policies, guidelines and activities on the recruiting and selection of CIDA co-operants and the placement and administration of bilateral trainees; assistance to project staff and Canadian executing agencies implementing technical assistance projects; recruitment of experts for the United Nations and the administration through an executing agency of United Nations Fellows in Canada; implementation of the CIDA Scholarship Program, the Commonwealth Scholarship and Fellowship Program, and the CIDA Natural Sciences and Engineering Research Council — Research Associateship Program.

## Manuals

- Handbook for Scholars and Fellows
- Handbook for Co-operants
- CIDA Co-ordinators Manual
- CIDA Awards offered to Canadians

## Briefing Centre

The centre prepares documents on the transfer of skills and knowledge, adaptation and effective communication in a foreign country; pre-departure and pre-return documentation, to meet the needs of Canadians working with CIDA.

## Area Co-ordination Group (ACG)

This group is composed of two divisions (Programming and Planning; and Systems and Operations) whose activities relate to co-ordination of corporate activities and management improvement initiatives, mainly for the geographic programs. Its responsibilities include the development, updating and communicating of operational policies and procedures and their integration into corporate training plans and terms of reference for executing agencies.

As a general rule, the Area Co-ordination Group holds documentation only in support of ongoing policy work, the end-products of which are published as guidelines and/or amendments to the CIDA Handbook on Bilateral Programs.

Main files on operational matters where ACG is involved are generally under the responsibility of other branches except for

# CANADIAN INTERNATIONAL DEVELOPMENT AGENCY

---

ongoing activities, such as those listed in the Classes of Records section.

## Professional Services Branch

The branch provides professional and technical services to the Multilateral Programs and Special Programs Branches and, particularly, to the area branches in the planning and implementation of CIDA aid programs and projects, through an analysis of the Canadian industrial resource base. It also develops and updates, in co-operation with the Policy Branch, the sectoral policies for the orientation of these programs and projects. Finally, it monitors projects to ensure that the technical quality or work being performed by Canadian consultants, contractors and technical assistants meets a high standard of proficiency, and that these services are dispensed economically. It also plans the development of sectoral expertise with a geographic focus, in support of the geographic divisions, within agreed upon concepts.

The branch comprises five divisions: Infrastructure, Natural Resources, Social Development, Programming and Systems, and Consultant Selection Secretariat.

### Infrastructure Division

The division provides advice and related technical services in policy formulation and in the identification, planning and implementation of projects in transportation, energy, water supply and sanitation, architecture, large-scale civil construction, and telecommunications, including associated studies on viability and operational feasibility.

### Natural Resources Division

The division provides advice and related technical services in the identification, planning and implementation of programs and projects in agriculture, forestry, mining, fisheries, industrial development and resource inventories.

### Social Development Division

The division provides advice and related technical services in the identification, planning and implementation of projects in education, development communication, health and population, human settlements, institutional support, and social sciences.

### Programming and Systems Division

The division ensures the programming of branch activities and defines the systems and procedures supporting their implementation. It provides professional and administrative support services for the management of branch budgets and administration in general. It also manages work assignment procedures as well as files on service requests received in the branch.

### Consultant Selection Secretariat

The secretariat carries out the selection of consultants, individuals, firms, institutions, contractors and trading houses required in the planning and implementation of CIDA aid or in-house projects, and maintains an appropriate data bank.

## Classes of Records

## **Evaluation (New)**

*Description:* Corporate evaluation of CIDA information on programs. Evaluations support the Agency's corporate policy and decision making by providing relevant and objective evidence on the results and effectiveness of the Agency's programs and permit the periodic assessment of the effectiveness of the Agency's strategy for delivering aid. *Topics:* Country programs; sectors; joint evaluations; International Development Banks, Associations; UN Programs.

IDA/YVP-095 *Formerly Identified as:* NO REFERENCE

## **Women in Development (New)**

*Description:* The CIDA policy is founded on the recognition that development must involve both women and men in order to be effective and that women are, in fact, an integral part of the development process. The challenge is to ensure that development intervention impacts on women as positively as possible and that women are able to have a positive impact on development. CIDA undertakes to ensure that the full range of its development assistance

will contribute substantively to the realization of the full potential of women as agents and beneficiaries of the development process. In applying this goal, CIDA recognizes that development assistance must be responsive to the priorities of individual development partners, many of whom have accepted commitments to the rights of women to participate in and benefit from the process of development.

*Description:* Information on Canada's funding and administration of Commonwealth programs as well as participation in meetings of heads of government, Commonwealth finance ministers, boards of representatives, and the Commonwealth Working Group of the

## CANADIAN INTERNATIONAL DEVELOPMENT AGENCY

Common Fund. *Topics:* Commonwealth countries; Organization of Commonwealth countries — colleges, schools universities and churches.

IDA/MVP-150 *Formerly Identified as:* CIDA-300

### **Family Planning and Population Control**

*Description:* Information on Canada's policy on general population matters. *Topics:* Human resources, research and development; family planning and population control.

IDA/MVP-155 *Formerly Identified as:* CIDA-310

### **Consultative Group on International Agricultural Research (CGIAR)**

*Description:* Information on meetings concerning policy and overall financial support for the international agricultural research centres supported by the CGIAR. *Topics:* Annual Centres Week, technical assistance meetings and reports; economic and social development; farm planning; agricultural products.

IDA/MVP-160 *Formerly Identified as:* CIDA-320

### **Producer Groups — Food and Commodities**

*Description:* Information on producer's groups supplying processed and unprocessed commodities to Canada's Food Aid Program. *Topics:* Canadian Dairy Commission; Canadian Flour Millers' Association; Canadian International Grain Institute; Canadian National Millers' Associations; Canadian Wheat Board; Canola Crushers of Western Canada; Association of Bean Growers.

IDA/MVP-165 *Formerly Identified as:* CIDA-330

### **Countries Receiving Food Aid**

*Description:* Information on countries receiving Canadian bilateral and multilateral food aid. *Topics:* Bangladesh; Dominica; Egypt; Ethiopia; Ghana; Haiti; India; Jamaica; Kampuchea; Kenya; Laos; Mali; Mauritania; Mozambique; Nepal; Nicaragua; Pakistan; Portugal; Rwanda; Sahel; Senegal; Somalia; Sri Lanka; Sudan; Tanzania; Tunisia; Turkey; Uganda; Vietnam; Zaire; Zambia; Zimbabwe.

IDA/MVP-170 *Formerly Identified as:* CIDA-340

### **Food Aid Commodities Basket**

*Description:* Information on food aid commodities supplied by Canada in Canadian Food Aid Program. *Topics:* Commodities — prices, nutrition, packaging, procurement; dried eggs; fish; skim milk powder; triticale; vegetable oil and oilseeds; wheat; wheat flour; beans; dehydrated potatoes.

IDA/MVP-175 *Formerly Identified as:* CIDA-350

### **Other International Food and Agricultural Organizations**

*Description:* Information on international organizations with an interest in food aid. *Topics:* Food and Agricultural Organization (FAO); World Food Council (WFC); International Food Policy Research Institute (IFPRI); Organization for Economic Co-operation and Development (OECD); United Nations Relief and Works Agency (UNRWA) — Palestinian refugees.

IDA/MVP-180 *Formerly Identified as:* CIDA-360

### **Canadian Food Aid Policy and Programs**

*Description:* Information on the policy of CIDA and other government policies related to the Canadian food aid policy. *Topics:* Budget; distribution channels; procurement; Multi-Year Operational Plan (MYOP); main estimates; country eligibility; evaluation; food aid agency policy.

IDA/MVP-185 *Formerly Identified as:* CIDA-370

### **World Food Program (WFP)**

*Description:* Information on the policies and programs of the WFP and Canada's participation. *Topics:* Documents related to sessions of the WFP governing body and Canadian pledges to the WFP.

IDA/MVP-190 *Formerly Identified as:* CIDA-380

### **International Wheat Council (IWC)**

*Description:* Information on Canadian participation in IWC. *Topics:* International Wheat Trade agreements; negotiating documents; Food Aid Convention.

IDA/MVP-195 *Formerly Identified as:* CIDA-390

### **African Development Bank and Fund**

*Description:* Information on the African Development Bank (AfDB) and its concessional arm, the African Development Fund (AfDF), which are the major regional financial aid institutions in Africa. Fund lending reached a cumulative total of \$4,802 million (US) by December 31, 1983, more than 80 per cent of which was borrowed by the Bank's least developed members. *Topics:* Administration; budget; Board of Directors; Canadian line of credit; Canadian technical assistance; recruitment of Canadian personnel; elections of President; evaluation; financial statements; payments and encashments; loans; operations; pipelines; general policies; financial policies; procurement; establishment and organization; Canadian accession; Board of Governors; constituency; replenishment of resources and other related topics.

IDA/MVP-200 *Formerly Identified as:* CIDA-400

### **Inter-American Development Bank**

*Description:* Information on the Inter-American Development Bank (IDB), which assists the developing countries of Latin America and the Caribbean. The IDB's commitments exceeded \$3 billion (US) in 1983, while disbursements reached a new high of \$1.7 billion (US). Canada, a prime supporter of the IDB with 4.38 per cent of the capital stock, contributed \$9.1 million (CDN) and \$12 million (CDN) respectively to the capital and concessional fund operations. *Topics:* Administration; finance, capital interregional operations; Fund for Special Operations; regional institutions; other funds.

IDA/MVP-205 *Formerly Identified as:* CIDA-410

### **Caribbean Development Bank**

*Description:* Information on the Caribbean Development Bank (CDB), which is the major financial development institution serving the Commonwealth Caribbean. *Topics:* Administration; finance, ordinary capital operations; Special Fund operations; Caribbean region in general; Caribbean Division.

IDA/MVP-210 *Formerly Identified as:* CIDA-420

### **Asian Development Bank and Fund**

*Description:* Information on the Asian Development Bank (AsDB), which together with its concessional Asian Development Fund (AsDF), is the major regional financial institution serving the countries of Asia and the South Pacific, in particular the poorest countries of the region where a large part of the world's population lives. *Topics:* Administration; finance; ordinary capital operations; concessional funds operations; technical assistance.

IDA/MVP-215 *Formerly Identified as:* CIDA-430

### **World Bank Group**

*Description:* Information on the World Bank, which is seen by many as one of the leading international development institutions, particularly given the size and scope of its programs. The Bank acts as a forum for the discussion of key development policy issues and implements innovative assistance projects in sectors such as rural development and agriculture, and water supply and sanitation. It also has a quickly expanding energy program to meet the pressing needs of developing countries for relief from constantly rising oil prices. *Topics:* Information on the constitution and organization of the International Bank for Reconstruction and Development (IBRD); analysis of the needs of less developed countries; operations, finances; IBRD-IDA (International Development Association) geographic programs; sectors; reporting documentation; annual meetings; IDA; International Finance Corporation (IFC).

IDA/SVP-220 *Formerly Identified as:* CIDA-440

## Non-Governmental Organizations (NGOs)

*Description:* Information on non-governmental organizations dealing with CIDA's NGO Division and seeking CIDA financial assistance for their development programs and projects in Third World countries. *Topics:* Organizational structure and mandate; financial situations; board members; constituency.

IDA/SVP-225 *Formerly Identified as:* CIDA-450

## Overseas Development Projects

*Description:* Information on all overseas projects for which a CIDA contribution has been approved. *Topics:* Name of NGO; description of projects; budget and requested CIDA contribution.

IDA/SVP-230 *Formerly Identified as:* CIDA-460

## Public Participation Program Projects

*Description:* Information on all public education projects in Canada for which a CIDA contribution has been approved. *Topics:* Name of NGO; description of project; budget and requested CIDA contribution.

IDA/SVP-235 *Formerly Identified as:* CIDA-461

## Management for Change (MFC)

*Description:* The purpose of this program is to develop innovative ways of strengthening management skills in developing countries. Activities are oriented to top-level decision-makers and senior executives throughout the public service. MFC promotes sharing of information and experience with an emphasis on activities at the policy level, such as seminars, short-term work assignments, and short-term missions and awards. *Topics:* Project files on activities funded by MFC; organizational files on organizations; MFC Operation Manual.

IDA/SVP-240 *Formerly Identified as:* CIDA-470

## Contacts

*Description:* Information and correspondence on contacts with Third World countries.

IDA/SVP-245 *Formerly Identified as:* CIDA-480

## International Non-governmental Organizations (INGOs)

*Description:* Information and correspondence on INGOs, projects, CIDA grants, and political conditions within Third World countries or regions where the projects are located.

IDA/SVP-250 *Formerly Identified as:* CIDA-490

## Institutions

*Description:* Information on organizations seeking financial support from the Division. *Topics:* Associations, clubs, institutes, societies, colleges, universities, co-operatives, labour organizations, training hospitals — organization structure, mandate, financial situation; contacts and correspondence with Third World countries; subsidized projects — organization, type of assistance, grant amount.

IDA/SVP-255 *Formerly Identified as:* CIDA-500

## Projects

*Description:* Information on specific projects as proposed and undertaken by applicant companies. *Retrievability:* Files arranged by country, year and project.

IDA/SVP-260 *Formerly Identified as:* CIDA-510

## Developing Countries

*Description:* Information on countries served by the Industrial Co-operation Program.

IDA/SVP-265 *Formerly Identified as:* CIDA-530

## International Organizations

*Description:* Information on international financing institutions, aid agencies and regional institutions.

IDA/BSD-270 *Formerly Identified as:* CIDA-540

## Bangladesh

*Description:* CIDA's program in Bangladesh includes food aid, commodities (industrial raw materials and potash) and a variety of projects concentrated in the agriculture, transportation, energy and population sectors. Specific project activities include assistance to women's groups for population planning and income generation; financial and technical support for landless co-operatives; construction of small-scale irrigation structures; ongoing assistance to Bangladesh Railways; and support for the development of natural gas reserves.

IDA/BSD-275 *Formerly Identified as:* CIDA-550

## India

*Description:* CIDA's assistance to India emphasizes energy, agriculture and human resources development. Current major projects include a loan to help India's National Hydroelectric Power Corporation undertake the installation of the 540Mw Chamara hydroelectric dam and power transmission system and a grant and loan for Phase II of the Idukki Hydroelectric Project. In addition, lines of credit are in place for requirements in the oil and gas sector. Food aid, in the form of Canola oil, has been provided to support the development of oilseed processing co-operatives in India, and loan funds are being used to support a social forestry project in the state of Andhra Pradesh.

IDA/BSD-280 *Formerly Identified as:* CIDA-560

## Nepal (Revised)

*Description:* The focus of Canadian programs in Nepal is on rural development, energy and civil aviation. Current projects include integrated rural development activities in Mid-west Nepal, institution-building for national water and energy resources planning, and maintenance support for Nepal's domestic Twin Otter fleet. A second rural health worker training campus funded by CIDA opened in early 1985; by mid-1985, thematic mapping for land use purposes will have been completed for the entire country.

IDA/BSD-285 *Formerly Identified as:* CIDA-570

## Sri Lanka

*Description:* In addition to food aid, projects have included dry-zone agriculture, honey production and public utilities. Canada is also participating in one of the world's largest development projects by providing funds to help build the Maduru Dya reservoir complex, part of the huge Mahaweli scheme to increase the island's irrigated land and its power supply. *Topics:* Planning of Mahaweli development; mission-administered funds, small projects initiated and approved by the head of the Canadian Mission; assistance to poultry development; line of credit to assist agricultural development; supply of inputs including fertilizers; project preparation assistance; study and planning design for the development of the Lower Uva Region; Colombo area water supply; technical assistance for television training; assistance to design and supply a telecommunication network for the Mahaweli Program; paddyland improvement; assistance to improve extension services in the dry zone; inland fisheries; assistance to develop an increased production capacity inland using permanent or temporary reservoirs.

IDA/BSD-290 *Formerly Identified as:* CIDA-580

## **Pakistan (Revised)**

*Description:* Agriculture, social development, power generation and distribution, and oil and gas development are the major areas of CIDA's involvement in Pakistan. Subsurface drainage activities to alleviate high salinity and waterlogging problems in the Northwest Frontier and Sind Provinces, and dryland farming research are the main thrusts in agriculture. The long list of projects also includes infrastructural support and training of technical and managerial personnel in the power and oil and gas subsectors, immunization program, rural development and training of traditional birth attendants.

IDA/BSD-295 *Formerly Identified as:* CIDA-590

## **Turkey (Revised)**

*Description:* Canadian assistance to Turkey is limited to the various services provided by CIDA's Special Programs and Business Co-operation branches and a small Mission Administered Fund for small developmental projects. In 1973, Canada provided Turkey with a loan to purchase telecommunication equipment. From 1979 to 1981 several tranches of balance of payment support were negotiated through an OECD consortium. It provided Turkey with various equipment and semi-finished products.

IDA/BSD-300 *Formerly Identified as:* CIDA-600

## **Thailand**

*Description:* The Thailand program focuses on rural development in designated poverty areas of Northern Thailand, human resources and institutional development, and modern sector activities directed towards natural resources management, high technology and energy. Aid projects include a number of integrated rural development projects aimed at health, food production, and income generation; technical assistance to increase fish production; the Thailand Development Research Institute, and a Rural Development Institute at Khon Kaen; technical assistance to the Department of Mineral Resources for interpretation of geological survey data; and the provision of hardware and software for upgrading of a Landsat satellite ground station.

IDA/BSD-305 *Formerly Identified as:* CIDA-610

## **Philippines**

*Description:* Aid projects have included a fisheries development, as well as technical and capital assistance for the Cagayan Valley Co-operatives.

IDA/BSD-310 *Formerly Identified as:* CIDA-620

## **Association of South East Asian Nations**

*Description:* Assistance to the group of six countries that comprise the Association of South East Asian nations (ASEAN) — Thailand, Philippines, Singapore, Malaysia, Indonesia and Brunei. Focuses on fisheries development, a tree seed improvement centre, a forest management institute, improved grain storage; and a series of energy seminars.

IDA/BSD-315 *Formerly Identified as:* CIDA-630

## **South Pacific**

*Description:* CIDA's South Pacific aid program includes the Cook Islands, Fiji, Kiribati, Papua New Guinea, Solomon Islands, Tonga, Vanuatu, Tuvalu and Western Samoa. Aid is channeled through regional institutions, non-governmental organizations and a mission-administered fund in the form of small projects and educational assistance.

IDA/BSD-320 *Formerly Identified as:* CIDA-640

## **Malaysia**

*Description:* Emphasis in the current Malaysian aid program is on fisheries and geochemical surveys, a general line of credit and human resource development.

IDA/BSD-325 *Formerly Identified as:* CIDA-650

## **Burma**

*Description:* CIDA's program in Burma includes support for agricultural rice research and training, disease control and livestock breeding.

IDA/BSD-330 *Formerly Identified as:* CIDA-660

## **Indonesia (Revised)**

*Description:* Canada's assistance program to Indonesia (i) contributes to the development and management of Indonesia's human and natural resources through planning and strengthening institutions; (ii) facilitates the participation of both the Canadian and Indonesian private sectors in support of long-term Indonesian development needs; and (iii) contributes to the creation and implementation of networks and linkages between Indonesian and Canadian private non-profit organizations. The program comprises the full range of bilateral, Special Programs Branch projects and lines of credit. Projects include initiatives in higher education, environmental manpower development, water resources, forestry, fisheries, integrated rural development and technical assistance related to both the program goals and sectors of activity.

IDA/BSD-335 *Formerly Identified as:* CIDA-661

## **China**

*Description:* CIDA's programs in China are concentrated primarily in four sectors: agriculture, forestry, energy and human resource development. Current bilateral projects include activities in power system planning, intensive forest management, pasture development, seed breeding and livestock improvement. In addition, there are a number of projects in health, engineering, management and technical assistance being undertaken jointly with Canadian institutions.

IDA/BMD-340 *Formerly Identified as:* CIDA-670

## **Colombia**

*Description:* CIDA provides assistance in the fields of rural development, renewable resources, manpower training, infrastructure, environment, small business development and through its special programs and bilateral channels. Major projects involve a vocational training school of furniture-makers in Medellin, a loan for small and medium business, and a line of credit for Canadian goods in co-financing with the Export Development Corporation.

IDA/BMD-345 *Formerly Identified as:* CIDA-680

## **Ecuador**

*Description:* There is no bilateral program at the moment.

IDA/BMD-350 *Formerly Identified as:* CIDA-690

## **Bolivia**

*Description:* Apart from a co-financed project with the Inter-American Development Bank for vocational and technical schools there is no bilateral program.

IDA/BMD-355 *Formerly Identified as:* CIDA-700

## **Peru**

*Description:* Bilateral projects in Peru include, a research program for the cultivation of high-altitude cereals within the agriculture practised in the *altiplano* of the Puno-Juliaca region; the construction of high voltage and rural electrification power lines on the eastern side of the Andes, and planning for a 20-megawatt power station near Tarapoto (both co-financed with the Export Development Corporation); improvement of Peruvian capacities in remote sensing; and an agricultural vocational school in Tarapoto. There are also Special Programs projects in rural development, technical education and potable water supply to poor communities.

# CANADIAN INTERNATIONAL DEVELOPMENT AGENCY

IDA/BMD-360 *Formerly Identified as:* CIDA-710

## Costa Rica

*Description:* Bilateral aid projects focus on agriculture (fertilizer) and transportation (railway equipment). A program in technical education is in the planning stages.

IDA/BMD-365 *Formerly Identified as:* CIDA-720

## El Salvador (Revised)

*Description:* The bilateral program in El Salvador was suspended in 1979, with the exception of one project to supply materials for the construction of an electricity transmission line. In December 1984, the Secretary of State for External Affairs announced the restoration of a bilateral program with El Salvador and authorized CIDA to open discussions with the Salvadoran government. The program is currently at the planning stage.

IDA/BMD-370 *Formerly Identified as:* CIDA-730

## Guatemala

*Description:* Except for a rural project to supply drinking water, the bilateral program was suspended because of social and political unrest. No new activity has been planned.

IDA/BMD-375 *Formerly Identified as:* CIDA-740

## Honduras

*Description:* Assistance has been aimed principally at rural development, forest preservation and extension, the management and industrial development of Honduran hardwoods, and power transmission. The major project at present is a loan for Canadian equipment for a power project.

IDA/BMD-380 *Formerly Identified as:* CIDA-750

## Nicaragua (Revised)

*Description:* CIDA's bilateral projects are concerned primarily with agriculture and health. A food strategy has been prepared. Two lines of credit have been extended: one to support agriculture and animal husbandry, and the other for drinking water supplies. In addition, the Secretary of State for External Affairs announced in December, 1984, that Canada would participate, with Italy and France, in financing the geothermal electricity project, Momotombo II.

IDA/BMD-385 *Formerly Identified as:* CIDA-760

## Panamas

*Description:* There is no bilateral program at the moment.

IDA/BMD-390 *Formerly Identified as:* CIDA-770

## Haiti (Revised)

*Description:* The primary objective of CIDA's program is to promote the country's self-development through activities in the agriculture, health, education and energy sectors, using bilateral and non-governmental organization channels. Current projects include support for the school of veterinary medicine and agriculture, the national institute of administration and management, the national vocational training centre, and the provision of services and Canadian equipment for electricity production and transmission.

IDA/BMD-395 *Formerly Identified as:* CIDA-780

## Brazil

*Description:* Canadian assistance has been extended to wide-ranging sectors of Brazil's economic and social development: agriculture, mining, forestry, fisheries, power production and transmission and telecommunications. In addition to technical assistance to promote scientific and technological development, CIDA's program has emphasized community development and educational advancement.

IDA/BMD-400 *Formerly Identified as:* CIDA-790  
**Chile**

*Description:* There is no bilateral program.

IDA/BMD-405 *Formerly Identified as:* CIDA-800  
**Dominican Republic**

*Description:* The principal bilateral aid project in this area is a line of credit for Canadian agricultural equipment. Other projects support agricultural co-operatives, the development of the dairy industry, and irrigation.

IDA/BMD-410 *Formerly Identified as:* CIDA-810

## Belize

*Description:* Canada's bilateral assistance to Belize is centered on one large project: the provision of a water and sewerage system for Belize City. Approximately \$28 million is expected to be spent on the project over the five-year period 1983-88.

IDA/BMD-415 *Formerly Identified as:* CIDA-820

## Guyana (Revised)

*Description:* The current focus of CIDA's program is support to the forestry and fisheries sectors. Support is being provided to Guyana's forestry producers mainly through the provision of modern equipment and to the country's small boat fishermen through the construction of new shore facilities and provision of new equipment.

IDA/BMD-420 *Formerly Identified as:* CIDA-830

## Jamaica

*Description:* Jamaica is a country of concentration for CIDA assistance. Over the past several years, the Jamaican economy has been under severe strain. In order to assist in the developmental recovery of Jamaica and to assist in short-term balance of payments difficulties, CIDA has recently provided commodity lines of credit, food aid and assistance in improving local business and management capabilities. At present, the main areas of CIDA assistance are agriculture, economic infrastructure, small-scale enterprises and food aid; human resource development is a priority in each area.

IDA/BMD-425 *Formerly Identified as:* CIDA-840

## Barbados (Revised)

*Description:* Canada is currently providing a line of credit for Canadian oil drilling supplies to assist Barbados with balance of payment difficulties and to help promote energy self sufficiency. Other projects are providing Canadian materials and supplies for the expansion of the island's water system and technical services and equipment for the production of land maps.

IDA/BMD-430 *Formerly Identified as:* CIDA-850

## Trinidad and Tobago

*Description:* CIDA's only active project is to assist in the upgrading of facilities at the PIARCO Airport, which is being carried out on CIDA's behalf by Transport Canada.

IDA/BMD-435 *Formerly Identified as:* CIDA-860

## Leeward and Windward Islands (Revised)

*Description:* The following Eastern Caribbean islands comprise this program unit: Anguilla, Antigua, Barbuda, Dominica, Grenada, Montserrat, St. Kitts and Nevis, St. Lucia and St. Vincent, and the Grenadines. In the past CIDA's program focused on education (including teacher training and school construction), transportation and water supply systems. More recently the emphasis of the program has been on projects in the productive sectors of agriculture, industry and tourism, and the supporting infrastructure. Major projects now in the implementation stage include Canada Training Awards (all islands), Coconut Expansion (Dominica), Port Cargo Handling Systems (Antigua, Grenada, St. Vincent, St. Kitts and Nevis), Exploratory Drilling (St. Kitts), Fisheries Development (St. Lucia), the Portsmouth-Hatton Garden Road Reconstruction (Dominica),

## CANADIAN INTERNATIONAL DEVELOPMENT AGENCY

---

Hydro Power Generation (St. Vincent) and the Point Salines Airport (Grenada).

IDA/BMD-440 *Formerly Identified as:* CIDA-861  
**Caribbean Region**

*Description:* Canada's bilateral assistance to the Caribbean Region involves projects with regional institutions such as CARICOM and the University of the West Indies as well as projects of a regional nature including core and non-core countries. The largest project currently being implemented, worth \$75 million, is to upgrade the safety and operations of 22 Caribbean airports in 13 countries.

IDA/BMD-445 *Formerly Identified as:* CIDA-862  
**Latin American Regional (Revised)**

*Description:* Canada's bilateral assistance to the Latin American region includes support for regional organizations which promote rural, social and human development and which have a natural link to other divisional projects. Currently the program is supporting activities with regional agencies in health, demography, public administration and the status of women.

IDA/BCD-450 *Formerly Identified as:* CIDA-870  
**Southern Africa Development Co-ordination Conference (SADCC)**

*Description:* Assistance is provided to the group of nine southern African countries that are members of SADCC. Aid is channeled to individual countries for projects that have regional development implications. CIDA assistance focuses on improvement of transportation and communications networks and agricultural programs to improve the food security of member states and the region and human resource development.

IDA/BCD-455 *Formerly Identified as:* CIDA-871  
**Botswana**

*Description:* CIDA assistance program focuses on three key sectors in Botswana: human resource development, sites and service development, and the improvement of human resource skills in the mining sector. Project assistance is provided to the University of Botswana and the Departments of Mines and Geological Survey as well as to urban and village upgrading schemes in three areas of Botswana.

IDA/BCD-460 *Formerly Identified as:* CIDA-880  
**East African Community**

*Description:* Important items in the aid program for the East African Community to date include the management assistance given East African Airways and the training of air traffic controllers. Fifteen diesel locomotives were supplied under the railway development program. Other projects include forest, harbour and power development, tsetse fly research, cereal development, and support for the Pan-African Telecommunications project.

IDA/BCD-465 *Formerly Identified as:* CIDA-890  
**Ghana**

*Description:* The provision of basic human needs and short- and medium-term support for Ghana's economic rehabilitation are the main goals of CIDA's program in Ghana. The program's concentration in northern Ghana with projects in integrated rural development, potable water supply and community education and development is complemented, on a national basis, by projects in agricultural research, human resource development, and energy and appropriate technology.

IDA/BCD-470 *Formerly Identified as:* CIDA-900  
**Kenya**

*Description:* Increased development is the goal of Canadian assistance to Kenya with emphasis on energy, agriculture (including food aid) and human resource development. Projects include hydroelectric generation, transmission lines and rural electrification; wheat breeding, agricultural roads and training of Kenyans involved in

agriculture; establishment of a technical teachers' college and various training programs; food aid and locomotive spare parts.

IDA/BCD-475 *Formerly Identified as:* CIDA-910  
**Lesotho**

*Description:* CIDA's assistance program focuses on three key sectors in Lesotho: human resource development, sites and service development, and employment creation in small-scale manufacturing. Project assistance is provided to the University of Lesotho, urban and village upgrading programs, and the construction of a dairy plant to assist Lesotho in achieving self-sufficiency in dairy products.

IDA/BCD-480 *Formerly Identified as:* CIDA-920  
**Malawi**

*Description:* CIDA assistance has been provided in two key sectors of the Malawi economy. Projects in agricultural development, including dairy farming, and the construction of a Natural Resources College are the primary focus of CIDA development assistance.

IDA/BCD-485 *Formerly Identified as:* CIDA-930  
**Mauritius Island**

*Description:* In addition to a number of small projects, assistance has been extended to the Ministry of Economic Planning and Development and to equipping the University Library and the Institute of Bilingualism. Another project has been improving the Rodrigues water supply.

IDA/BCD-490 *Formerly Identified as:* CIDA-940  
**Nigeria**

*Description:* The Nigeria Program is primarily responsive in nature. Bilateral projects are implemented where feasible to facilitate Nigerian developmental objectives while strengthening its long-term commercial and political ties with Canada. A mission-administered fund is employed for small projects, and funds are provided to support NGO and IDRC activities.

IDA/BCD-495 *Formerly Identified as:* CIDA-950  
**Sierra Leone**

*Description:* Mission-administered funds have been made available for community health projects, the provision of equipment for the school improvement program, and iron ore mining.

IDA/BCD-500 *Formerly Identified as:* CIDA-960  
**Somalia**

*Description:* Although CIDA's program for Somalia has included a number of small projects, assistance has been given largely in the form of food aid.

IDA/BCD-505 *Formerly Identified as:* CIDA-970  
**South Africa (Revised)**

*Description:* Mission-administered funds for small projects and a scholarship program to assist underprivileged blacks to obtain higher levels of education.

IDA/BCD-510 *Formerly Identified as:* CIDA-980  
**Namibia (Southwest Africa)**

*Description:* Refugee training project.

IDA/BCD-515 *Formerly Identified as:* CIDA-990  
**Swaziland**

*Description:* CIDA's assistance program focuses on two key sectors in the Swaziland economy: human resource development and water supply. Project assistance is directed at technical and vocational training as well as towards the University of Swaziland. Assistance is also provided for the survey and development of rural water supplies. Additional assistance has been provided for human resource development in the telecommunications field.

# CANADIAN INTERNATIONAL DEVELOPMENT AGENCY

IDA/BCD-520 Formerly Identified as: CIDA-1000

## Tanzania

*Description:* Agriculture, transportation, energy, commodities and spares are the main areas of CIDA's program in Tanzania. Major thrusts include the rehabilitation of the northern Tanzania rail system to increase capacity for agricultural input and output distribution, the development of wheat farming in northern Tanzania, assistance to extension of the national electrical grid, and the provision of commodities (paper, aluminum) and spare parts. Programs generally include a major technical assistance and training component along with provision of equipment and materials.

IDA/BCD-525 Formerly Identified as: CIDA-1010

## Uganda

*Description:* Materials and equipment have been financed through the World Bank's reconstruction program. Assistance to rural health clinics and government health planning is being provided through an East African non-governmental organization, and the Mission-Administered Fund and the Special Programs Branch support a variety of smaller non-governmental organizations in Uganda.

IDA/BCD-530 Formerly Identified as: CIDA-1020

## Zambia (Revised)

*Description:* The goals of Canada's assistance are to improve agricultural productivity and to diversify and revitalize the economy. A number of agriculture projects support a range of development activities including the provision of rural infrastructure, training, research and institutional support. In response to Zambia's economic crisis, more assistance is being directed at supplying agricultural and industrial inputs to provide the economy with balance of payments relief. While most projects include training, a general human resource development project is being developed to address both national and sector specific manpower development needs.

IDA/BCD-535 Formerly Identified as: CIDA-1021

## Zimbabwe

*Description:* CIDA's assistance program focuses on three key sectors in the Zimbabwe economy: human resource development and the provision of capital to assist in the modernization of Zimbabwe's infrastructure and a line of credit to the vital agricultural sector. Project assistance has been provided through World University Services Canada to upgrade secondary school teachers and technical vocational trainers. Infrastructural assistance has also been provided to the transport and communications sectors as well as to the rural water supply. It is expected that an agricultural sector program will be finalized this year.

IDA/BCD-540 Formerly Identified as: CIDA-1022

## Angola

*Description:* Mission-administered funds for small projects.

IDA/BCD-545 Formerly Identified as: CIDA-1023

## Mozambique

*Description:* Mission-administered funds for small projects.

IDA/BCD-550 Formerly Identified as: CIDA-1024

## Egypt

*Description:* Energy, Agriculture/Food Security, Human Resource Development, together with transportation, water supply and sewerage and a development line of credit are the major activities for CIDA in Egypt. Principal projects include power transmission and distribution, general development line of credit, Giza water supply and sewerage, grain storage silos, Nile River Protection and Development Plan, Integrated Soil and Water Project, Mini-Hydro Power Station, as well as training in the energy and transportation sectors. Close co-operation with the Export Development Corporation on several development projects is one unique feature of the program.

IDA/BCD-555 Formerly Identified as: CIDA-1025

## Sudan

*Description:* CIDA is involved in four different sectors: food aid, forestry, mechanized dry land agriculture and a developmental line of credit presently in the planning stage.

IDA/BCD-560 Formerly Identified as: CIDA-1026

## Ethiopia

*Description:* Major projects in Ethiopia include food aid and rural water supply. Mission-administered funds have been made available to projects in the sectors of adult education, technical training, public health, agriculture and transportation.

IDA/BCD-565 Formerly Identified as: CIDA-1027

## Regional Program (Revised)

*Description:* Mission-administered funds have been made available to the following ten countries for small development projects: Djibouti, Jordan, Lebanon, Liberia, Mauritius, Seychelles, Sierra Leone, Somalia, North Yemen (YAR) and South Yemen (PRDY). In addition, CIDA has just completed assistance for a fisheries project with several West African countries in the mid-Atlantic coastal areas to improve fish catching, handling, processing and developing. In East Africa CIDA has commenced co-funding of two projects to improve maize, wheat and beans, both in production yields and acreage.

IDA/BFD-570 Formerly Identified as: CIDA-1030

## Mali

*Description:* CIDA's assistance program for Mali includes a huge, integrated rural development project; provision of food aid in support of the program for restructuring the grain market; construction of an electrical transmission line; a major project to provide support for the administration of the railroads and the supply of materials; improvement of shipping services; improvement of hydraulic installations; and a scholarship program.

IDA/BFD-575 Formerly Identified as: CIDA-1040

## Niger

*Description:* The Canadian program of co-operation with Niger, which is mainly bilateral, includes some NGO projects and institutional and industrial co-operation activities. Niger also benefits from the activities of international agencies that CIDA supports financially through its multilateral programs. Since the drought at the beginning of the 1970s, the program has aimed at supporting food self-sufficiency, with priority given to the removal of factors that cause isolation, both within Niger and with respect to other countries; stabilization of the vegetation cover; and to human resources. Under the new program review (1984-89), the objective is to contribute to the establishment of a new socio-ecological balance. Priority is placed on stabilizing the vegetation cover, achieving a food balance and promoting energy development. *Topics:* Program for the protection of plants; village water supply; agricultural development; mining exploration; line of credit for the purchase of Canadian goods and services; micro-projects; scholarships program (Niger, third country and Canada); institutional support; development of a road network; telecommunications; many small projects implemented with mission-administered funds, NGO activities (especially in the rural development sector).

IDA/BFD-580 Formerly Identified as: CIDA-1050

## Chad

*Description:* CIDA's aid program for Chad has included educational assistance; the provision of technical advisers in human resources planning and agriculture; reforestation; water improvement; food aid; and assistance under the Sahelian Zone Drought Relief and Development Fund. *Note:* This program is essentially limited to mission-administered funds (MAF), non-governmental organization (NGO) projects and emergency food aid.

## CANADIAN INTERNATIONAL DEVELOPMENT AGENCY

IDA/BFD-585 *Formerly Identified as:* CIDA-1060

### **Burkina Faso**

*Description:* Educational assistance to Burkina Faso has featured a multi-annual scholarship program and technical training in health economics, management and public works. In addition to rural radio and food aid, current economic projects include support for the national program for crop protection; dam building; mineral surveys; road improvement; an energy inventory; and a microproject program.

IDA/BFD-590 *Formerly Identified as:* CIDA-1070

### **Senegal**

*Description:* CIDA's program in Senegal involves primarily bilateral assistance but also includes NGO projects and institutional and industrial co-operation activities. The key sectors are fisheries, energy, forestry, integrated rural development and human resources development. *Topics:* Marketing for small fishermen; protection and monitoring of offshore fishing; fisheries development planning; power transmission lines; studies to plan the development of electrical distribution systems; inventory, management and protection; local projects in integrated rural development through NGOs; scholarship program; technical assistance to the *École polytechnique de Thiès*; a major project involving a number of countries in the development of the Senegal River basin; yearly food aid; numerous small projects implemented through mission administered funds.

IDA/BFD-595 *Formerly Identified as:* CIDA-1080

### **Mauritania**

*Description:* CIDA's program in Mauritania is composed mainly of supplementary food aid and numerous small projects financed through mission administered funds; it also includes technical assistance to the Ministry of Planning as well as scholarships. By the end of fiscal 1985/86, CIDA activities in Mauritania will be limited to MAF projects and, if required, emergency food aid.

IDA/BFD-600 *Formerly Identified as:* CIDA-1090

### **Guinea-Bissau**

*Description:* CIDA's program for Guinea-Bissau consists of numerous small projects financed through mission-administered funds, as well as contributions by the Institutional Co-operation Division through Canadian institutions.

IDA/BFD-605 *Formerly Identified as:* CIDA-1100

### **Cape Verde Islands**

*Description:* CIDA's program in these islands consists of numerous small projects financed through mission-administered funds.

IDA/BFD-610 *Formerly Identified as:* CIDA-1110

### **Algeria**

*Description:* CIDA's program for Algeria is aimed mainly at the construction of seven concrete silos with a capacity of 210,000 tons. Furthermore, an agricultural co-operation program for animal husbandry and poultry production will be getting under way this year; the potato farming and farm management projects are still in the planning stages. Lastly, a system for scientific, technical and cultural co-operation was established in 1982 to promote exchanges between various Canadian and Algerian government departments (agriculture, education and communications).

IDA/BFD-615 *Formerly Identified as:* CIDA-1120

### **Ivory Coast**

*Description:* The aid program for the Ivory Coast focuses on the following areas, listed in order of priority: multisectoral co-operation through a line of credit for large-scale development projects; traditional aid based mainly on energy, mining and educational projects; aid to industrial small and medium-sized businesses.

IDA/BFD-620 *Formerly Identified as:* CIDA-1130

### **Tunisia**

*Description:* Assistance has been provided to Tunisia in a large variety of sectors. In 1982, however, the focus of CIDA's co-operation program shifted to human co-operation (involving scholarships and technical co-operation) on a shared-cost basis and to economic co-operation based on parallel lines of credit with the Export Development Corporation. *Topics:* Agricultural development; production and transmission of electricity; industrial development; promotion of education; measures to improve health and hospital services; supplying of teachers for the *École de l'aviation civile et de la météorologie*; agricultural program; construction of irrigation dams; veterinary services; agricultural activities; poultry farming; and dry farming.

IDA/BFD-625 *Formerly Identified as:* CIDA-1140

### **Morocco**

*Description:* CIDA's program in Morocco has been aimed mainly at developing agriculture and improving human resources. *Topics:* Support for the *École nationale d'agriculture*, the *Institut national agronomique Hassan II* and the *Institut national de statistique et d'économie appliquée*; research on poultry farming; seed and livestock improvement; milk production; supplying of university professors and teachers for regional educational centres; and a line of credit to construct cold-storage facilities. The current program, however, is directed mainly toward human co-operation (involving scholarships and technical co-operation) on a shared-cost basis and economic co-operation based on the use of a parallel line of credit with the Export Development Corporation.

IDA/BFD-630 *Formerly Identified as:* CIDA-1150

### **Malagasy Republic**

*Description:* Essentially, this program centres on development of hydroelectric resources and the use of mission-administered funds. Several Canadian private firms are also active in various sectors through contracts obtained from international organizations such as the World Bank.

IDA/BFD-635 *Formerly Identified as:* CIDA-1160

### **Cameroons**

*Description:* The aid program for Cameroons emphasizes rural development (forests, energy and rural activities), human resources (technical, vocational and managerial training) and parallel program aid (parallel CIDA/Export Development Corporation lines of credit) open to a few priority development sectors.

IDA/BFD-640 *Formerly Identified as:* CIDA-1170

### **Rwanda (Revised)**

*Description:* Bilateral aid to Rwanda is concentrated on rural development and promotion of local industries, development of human resources and reduction of factors which cause isolation. Major projects under way include: assistance to the Université nationale du Rwanda (UNR), development of the Mutara wetland valleys, modernization and maintenance of the telecommunication system, support for civil aviation, and forestry training. Food aid has been provided for the last few years. NGOs and other private Canadian institutions are also very active in Rwanda (water, health and community development).

IDA/BFD-645 *Formerly Identified as:* CIDA-1180

### **Congo**

*Description:* Aid to this country is mainly for the project to improve the Congo-Océan railway and MAF activities.

IDA/BFD-650 *Formerly Identified as:* CIDA-1190

### **Zaire (Revised)**

*Description:* Bilateral aid to Zaire is concentrated on forestry (technical assistance, training, logging, inventories and appropriate technology), rural development in the northeastern region (animal

# CANADIAN INTERNATIONAL DEVELOPMENT AGENCY

husbandry, co-operatives, community projects, SMBs, improved seeds) and support for industry and for the balance of payments (food aid, commodities). NGOs and other private Canadian institutions are also very active in Zaire (health, co-operatives and rural development).

IDA/BFD-655 *Formerly Identified as:* CIDA-1200

## Togo

*Description:* In Togo the aid program is limited to mission-administered funds for small-scale projects, and two major projects: construction of a transmission line, and village water supplies.

IDA/BFD-660 *Formerly Identified as:* CIDA-1210

## Bénin

*Description:* CIDA's two main efforts, support for the *Collège Polytechnique universitaire* and for development of the Port of Cotonou, will terminate this year. Future aid will be limited to MAF financed activities, institutional co-operation and NGO activities.

IDA/BFD-665 *Formerly Identified as:* CIDA-1220

## Gabon

*Description:* Shared-cost technical assistance for education, transportation and water systems; a rural electrification project financed through a parallel line of credit with the Export Development Corporation; and mission-administered-fund-financed activities. A \$10 million line of credit may be used to finance other development activities in Gabon.

IDA/BFD-670 *Formerly Identified as:* CIDA-1240

## Burundi

*Description:* Burundi receives Canadian aid through specialized UN institutions and government organizations (ICSC, EPM) and through small mission-administered-fund-financed projects. Over the past few years, there has been greater participation by Canadian institutions.

IDA/BFD-675 *Formerly Identified as:* CIDA-1250

## Republic of Guinea

*Description:* The Guinea program focuses on the energy sector, air transportation and institutional support. It is aimed at improving planning and management capacity and at meeting urgent needs for spare parts, equipment and basic commodities. *Topics:* Assistance to small and medium-sized businesses; support for domestic air transportation; support for the *Société Nationale de l'Électricité*; bursaries; technical assistance and supplies of commodities.

IDA/BFD-680 *Formerly Identified as:* CIDA-1260

## Central African Republic

*Description:* Mission-administered funds have been made available for small-scale projects, mainly in the rural development, health and education sectors.

IDA/BFD-685 *Formerly Identified as:* CIDA-1270

## Sao-Tome-Principe

*Description:* Mission-administered funds have been made available for small projects.

IDA/RDG-690 *Formerly Identified as:* CIDA-1460

## Contracts (Revised)

*Description:* Information on all services contracts signed by CIDA or recipient countries; information on policies and procedures related to services contracts.

IDA/RDG-695 *Formerly Identified as:* NO REFERENCE  
**Procurement (New)**

*Description:* Guidelines on procurement.

IDA/RDG-700 *Formerly Identified as:* CIDA-1440

## Food Procurement and Transportation (Revised)

*Description:* Planning and implementation of projects associated with the bilateral and multilateral aid. *Topics:* Sourcing, pricing and delivery schedules; modes and transportation of food commodities; delivery schedules. *Retrievability:* Files arranged by fiscal year, by recipient country and by commodity.

IDA/RDG-701 *Formerly Identified as:* CIDA-1450

## DSS Procurement and Transportation (Revised)

*Description:* Procurement of materials and equipment financed under grants and procured through the Department of Supply and Services. *Retrievability:* Files arranged by project and geographical area.

IDA/RDG-705 *Formerly Identified as:* CIDA-1430

## Material and Specifications (Revised)

*Description:* Files covering section non-project activities such as quality assurance, maintenance and Canadian content; copies of project and non-project reports and studies.

IDA/RDG-710 *Formerly Identified as:* CIDA-1412

## Human Resources (Revised)

*Description:* A computerized roster of individuals who have indicated an interest in participating in development projects in the Third World or who have served as CIDA co-operants overseas; data on students from developing countries under CIDA or United Nations auspices undertaking training program in Canada; CIDA Scholarship awards files. *Topics:* Data to assist in the recruiting of experts for overseas assignments, to control the payment of expenses related to trainees in Canada and Canadian Scholarship holders; and to provide statistical data.

IDA/RDG-715 *Formerly Identified as:* NO REFERENCE

## Area Co-ordination Group (New)

*Description:* Arrangement between the Agency and the Bureau of Management Consulting (BMC); quarterly reports on cost increases (bilateral projects); updating of Bilateral Handbook 8; Project Management by Activity Pilot Program (PMBA).

IDA/RVP-720 *Formerly Identified as:* CIDA-1280

## Telecommunications (Revised)

*Description:* Sectoral policy, technical identification, planning, implementation and evaluation of projects. *Topics:* Telephony, data, broadcasting and electronic navigation systems; associated technical assistance and training.

IDA/RVP-725 *Formerly Identified as:* CIDA-1290

## Transportation (Revised)

*Description:* Sectoral policy, identification, planning, implementation and evaluation of projects, feasibility studies. *Topics:* Intermodal and unimodal transportation; air, surface and marine transportation.

IDA/RVP-730 *Formerly Identified as:* CIDA-1300

## Energy (Revised)

*Description:* Sectoral policy and feasibility studies. *Topics:* Development of energy resources; power generation — hydro, thermal, geothermal; power transmission and distribution; construction of energy-related infrastructure; pipelines and other oil and gas installations; renewable energy and related economic and financial viability studies.

# CANADIAN INTERNATIONAL DEVELOPMENT AGENCY

---

IDA/RVP-735 *Formerly Identified as:* CIDA-1310

## **Water (Revised)**

*Description:* Sectoral policy, appraisal, definition, implementation, evaluation and operation of projects. *Topics:* Water resources, water impondment, domestic water supply and sanitation.

IDA/RVP-740 *Formerly Identified as:* CIDA-1320

## **Architecture (Revised)**

*Description:* Planning and implementation of projects. *Topics:* Institutional and residential buildings.

IDA/RVP-745 *Formerly Identified as:* CIDA-1321

## **Construction (Revised)**

*Description:* Planning, programming and implementation of projects. *Topics:* All types of construction work in connection with public works, transportation, energy, municipal works, and telecommunications.

IDA/RVP-750 *Formerly Identified as:* CIDA-1330

## **Agriculture (Revised)**

*Description:* Development, implementation and evaluation of programs and projects in the agricultural disciplines. *Topics:* Land and water development; crops; livestock; agricultural support services and rural development; agriculture policy development.

IDA/RVP-755 *Formerly Identified as:* CIDA-1340

## **Forestry (Revised)**

*Description:* Development, implementation and evaluation of programs and projects in the forestry disciplines. *Topics:* Forest management, reforestation, social forestry and forest product processing industries; forestry policy development.

IDA/RVP-760 *Formerly Identified as:* CIDA-1350

## **Mining and Metallurgy (Revised)**

*Description:* Development, implementation and evaluation of programs and projects in the mining disciplines. *Topics:* Exploration, development, production and processing of minerals, mining policy, planning and administration; mining policy development.

IDA/RVP-765 *Formerly Identified as:* CIDA-1360

## **Fisheries (Revised)**

*Description:* Development, implementation and evaluation of programs and projects in the fisheries disciplines. *Topics:* Fresh water and salt water fish products technology; fisheries policy development.

IDA/RVP-770 *Formerly Identified as:* CIDA-1370

## **Industrial Services (Revised)**

*Description:* Identification, planning and implementation of projects in the primary, secondary and service sectors. *Topics:* Industrial financing, small and medium-sized businesses (SMBs), light industry

and handicrafts, market surveys; industrial sector development, industrial policies development.

IDA/RVP-775 *Formerly Identified as:* CIDA-1380

## **Resource Inventories (Revised)**

*Description:* Planning and implementation of programs and projects, database management. *Topics:* Aerial geophysical surveys; remote sensing; photogrammetry; surveys; mapping; geodesy.

IDA/RVP-780 *Formerly Identified as:* CIDA-1390

## **Education (Revised)**

*Description:* Studies. *Topics:* Formal and non-formal education, management of educational projects.

IDA/RVP-785 *Formerly Identified as:* CIDA-1400

## **Health and Population (Revised)**

*Description:* Studies. *Topics:* Demography; family planning and nutrition; public health; control of water and airborne diseases; epidemiology; parasitology; staff training; establishment of facilities, standards for the operation and maintenance of these facilities, material and equipment.

IDA/RVP-790 *Formerly Identified as:* CIDA-1401

## **Development Communication (Revised)**

*Description:* Studies. *Topics:* Development communication and project management.

IDA/RVP-795 *Formerly Identified as:* CIDA-1410

## **Human Settlements (Revised)**

*Description:* Studies and project implementation. *Topics:* Demography and human settlements.

IDA/RVP-800 *Formerly Identified as:* CIDA-1411

## **Institutional Support and Management (Revised)**

*Description:* Studies and project implementation. *Topics:* Organizational and management development.

# **CANADIAN LIVESTOCK FEED BOARD**

## **Chapter 23**

# CANADIAN LIVESTOCK FEED BOARD

---

## Background

The Canadian Livestock Feed Board (CLFB) derives its origin from a policy conceived as a result of representations made by various farm organizations of eastern Canada and British Columbia through the Canadian Federation of Agriculture. In 1965, following an all-party recommendation, the Board was formed. On April 6, 1967, appointments to the Board were announced and the Montréal headquarters was established two months later.

## Laws and Regulations

The Board operates under the authority of the *Livestock Feed Assistance Act*, 1966-67, C.52, S.1. Freight assistance payments are made under the Feed Grain Transportation and Storage Assistance Regulations.

The Board also administered the following storage programs in co-operation with Agriculture Canada and under the authority of Treasury Board minutes:

- Local Feed Grain Security
- New Inland Elevators
- Existing Inland Elevators

These programs are now terminated.

## Overall Responsibilities

The basic objectives of the Board are to attempt to ensure, within the framework of the *Livestock Feed Assistance Act*, that livestock feeders in eastern Canada and British Columbia have available, at the right time and locations and in sufficient amounts, the various categories of feed grains they require for feeding their livestock and poultry. At the same time, the Board also ensures that the feed grain prices of basic sources of supply are reasonably stable and that there is a fair equalization of prices of feed grains within eastern Canada and British Columbia. This calls for continuous methodical research into markets and transportation developments, flow of grains, utilization of storage space, consumption patterns of feed grains for various livestock, and industrial uses.

Because of the complexity of the feed grain economy and the major impact of its operations, the Board maintains relations with

government agencies, trade organizations, farmers' associations, and universities across Canada.

At the federal level, the Board has close contact with Agriculture Canada, the Canadian Wheat Board, the Canadian Grain Commission, Statistics Canada, the Farm Product Marketing Council, etc. At the provincial level, the Board has contact with most provincial departments of agriculture. In addition, the Board maintains liaison with individuals and organizations representing both farmers and trade organizations.

## Feed Freight Assistance Program

This program pays for a portion of the cost of transporting feed grains produced in the Prairie region to grain-deficit areas of eastern Canada, British Columbia, the Yukon and Northwest Territories, and feed grains produced in Ontario and moved eastward to Québec and the Atlantic provinces.

## Local Feed Grain Security Program

This program paid carrying charges on additional physical inventories of eligible grains carried by feed mills located in grain-deficit areas of Canada over historical levels. It ended on March 31, 1985.

## New Inland Elevator Program

This program paid up to fifty percent of capital costs of building to a maximum of \$500,000. This program ended on March 31, 1983, while the program dealing with expansions to existing facilities ended on March 31, 1982.

# CANADIAN PENITENTIARY SERVICE

# CANADIAN PENITENTIARY SERVICE

# CANADIAN PENITENTIARY SERVICE

## Background

In 1868, a federal penal system was created under federal jurisdiction for the establishment, maintenance and management of penitentiaries for offenders sentenced to two years or more. At that time, parole did not exist, leisure time was spent in solitary confinement, and a rule of silence was standard for all inmates from the day of incarceration until the day of release.

In 1977, radical changes were brought about with the amalgamation of the Canadian Penitentiary Service and the National Parole Service, which resulted in the formation of the Correctional Service of Canada (CSC). The Service, as it stands today, provides programs for offenders from pre-admission until the expiration of their sentence. It operates on the basis that the offender must be viewed from physical, emotional and cultural aspects. Such considerations make for a more compassionate environment for the offender within the institutional setting.

## Laws and Regulations

- Penitentiary Act
- Parole Act
- Prison and Reformatories Act
- Federal Corrections Act
- Criminal Records Act
- Criminal Law Amendments Act
- The Criminal Code
- Young Offenders Act

## Organization

The Correctional Service of Canada has three levels of management: a national headquarters, five regional headquarters and 140 institutions. In keeping with the management principle of centralized policy and decentralized administration, the headquarters plan, develop, evaluate and control policies while the facilities implement them, taking into account the region's varying environments, offender populations and resources.

Overall control is exercised by the Commissioner and CSC's Senior Management Committee, comprising the Commissioner, the Senior Deputy Commissioner, the heads of eight branches and five regional deputy commissioners. Line management is exercised by the Commissioner, the regional deputy commissioners and the facility heads, while functional direction is provided by the branch heads.

## Overall Responsibilities

### Administration

Administrative and staff support is provided by the following branches: Policy, Planning and Administration, which provides financial, personnel, directives management and administrative services, and functions as a management control tool; Technical Services, which holds responsibility for buildings, properties and accommodation, as well as equipment and supplies; Communications, which handles media and public relations, correspondence and parliamentary relations; and Inspector General, which is responsible for the audit and review of all areas of the Service, special enquiries and projects requested by the Commissioner of Corrections and the CSC accreditation program.

## Programs

The administration of sentences and preparation of federal offenders for useful re-entry into society involves four major programs that correspond to CSC's four operational branches: Security; Offender Programs; Medical and Health Care Services; and Education, Training and Employment.

The Security Branch is responsible for the functional direction and control of CSC security operations.

The Offender Programs Branch is responsible for the functional direction and control of Case Management, which provides co-ordinated management and administration of the offender's entire sentence, ensures that offenders receive maximum benefit from all available rehabilitative opportunities, maintains assessments on all federal offenders, and makes recommendations to the National Parole Board for conditional release through full and day parole; Social and Community Programs, which provide offenders with the opportunity for social, emotional, physical and personal development and promote effective working relationships and administration of policies on the use of private sector agencies; Chaplaincy, which encourages offenders to develop the spiritual dimension of their lives; and Inmate Affairs, which ensures that offenders are treated fairly and humanely and are accorded rights outlined in international covenants and the United Nations Standard Minimum Rules for the Treatment of Prisoners.

The Medical and Health Care Services Branch exercises functional direction and control over all medical and health care services provided to offenders.

The Education, Training and Employment Branch asserts functional direction and control of offender education and training as well as work opportunities.

## Organization of Records

CSC records are broken down into five different categories: subject, offender, staff, information on general public, and administrative files — personal information.

The first category, subject records, is organized by main or primary subjects, which in turn are broken down into secondary subjects and, where warranted, tertiary subjects. Although the subject records are organized according to the departmental records classification system, various branches maintain a substantial number of records that have not been incorporated into this system.

The other four categories — offender, staff, information on general public, and administrative files — are handled under the *Privacy Act*.

Please note that CSC's Management of Recorded Information Program is under review and may be subject to change.

## Access Procedures

If you wish to make a formal access request under the *Access to Information Act*, please specify the location of the records you seek, and submit a formal access request form to

## POLICY, PLANNING AND ADMINISTRATION BRANCH

The branch provides personnel, finance and administrative services that are common to all government departments. Details on the classes of records held by such administrative units may be found in the Standard Classes of Records section of this Register.

### Manuals

- Commissioner's Directives
- Divisional Instructions

## Communications Branch

The responsibilities of the branch are to promote understanding of the objectives, roles, policies and activities of the Correctional Service of Canada through effective internal and external communication; to project an accurate and positive image of the CSC; to develop an awareness of impending events, and appropriate strategies and communications skills for all CSC activities; to promote relationships with criminal justice-related agencies and volunteers; and to gain public support for the generally recognized goals of corrections.

## Technical Services Branch

The branch maintains functional direction and control over material management, food services, institutional services, engineering, architecture and properties and general technical services.

### Manuals

- Tools and Equipment Manual
- Technical Services Manual

## Engineering, Architecture and Properties Division

The division is responsible for the maintenance and protection of lands and buildings, the supervision of minor construction projects and the provision of utilities.

## Food Services Division

The division provides meals for inmates and duty meals for staff.

## Materiel Management Division

The division is responsible for the acquisition, storage and issue of equipment and materials for all activities in the institution.

## Inspector General's Branch

This branch is responsible to the Commissioner for the accreditation of institutions and certain administrative and security enquiries, as well as the conduct of management, financial, staffing and classification audits.

## Office of the Senior Deputy Commissioner

The Office is responsible to the Commissioner for the operations of the Correctional Service of Canada. It maintains functional direction and control over the Education, Training and Employment, Offender Programs, Medical and Health Care Services, and Security branches.

## Education, Training and Employment Branch

The branch is responsible for the functional direction and control of inmate employment activities, providing work, training and

# CANADIAN PENITENTIARY SERVICE

---

educational opportunities to inmates and enabling them to find employment upon release, while helping to defray CSC costs through the manufacture and sale of over \$7 million in goods. The functional direction covers 22 institutional schools, 28 workshops and five farms as well as forestry camps, construction and special projects. The branch also maintains liaison with other federal departments, provincial educational and vocational agencies, non-profit organizations and private industry.

## Manuals

- Commissioner's Directives
- Divisional Instructions

## Agri-business Division

The division is responsible for the development, functional direction and evaluation of CSC agricultural activities employing inmates, e.g., the operation of five institutional farms (beef, pork, fish, poultry, vegetables, fruit and dairy products); canning, slaughtering and other food processing; distribution systems; and horticulture.

## Automated Document Processing Division

The division is responsible for the development, functional direction and evaluation of CSC automated document processing activities employing inmates, e.g., data capture, microfilm, marketing.

## Education and Training Division

This division is responsible for the development, functional direction and evaluation of CSC education and vocational training services to inmates: the operation of 22 institutional schools, the provision of academic courses from literacy training to university degrees, as well as vocational training; professional standards and accreditation; trades and work placement; and institutional libraries.

## Industries Division

The division is responsible for the development, functional direction and evaluation of CSC's industrial activities employing inmates: the operation of 28 industrial workshops, providing work and training opportunities for inmates while manufacturing goods for CSC institutions, individuals, government and non-profit organizations; product development; production management and quality control; finance; marketing.

## Manuals

- Industries Operations Manual
- CORCAN Code Book

## Inmate Resource Management Division

The division is responsible for overall program integration, e.g., work assignment boards, incentives, pay and benefits systems, accident prevention and safety standards.

## Manuals

- Inmate Pay Manual

## Special Employment Programs Division

This division is responsible for the development, functional direction and evaluation of special inmate employment activities, e.g., forestry operations and work camps, construction and renovation projects and inmate business.

## OFFENDER PROGRAMS BRANCH

This branch is responsible for the functional direction and control of Chaplaincy, Case Management, Inmate Affairs and Social and Community Programs. It also maintains liaison with the National Parole Board, police forces, private after-care and provincial probation agencies.

## Manuals

- Commissioner's Directives
- Divisional Instructions

## Case Management Division

The division co-ordinates management and administration of the inmate's entire sentence, ensures that inmates receive maximum benefit from all available rehabilitative opportunities, maintains assessments on all federal inmates, and makes recommendations to the National Parole Board for conditional release through full and day parole.

Inmates are assigned to case management teams shortly after admission. These teams review all information on inmates and then develop individual program plans. These plans consider the inmate's needs and objectives, the services and activities in which the inmate will participate, and plans for eventual transfer or conditional release. Participation and progress are monitored and the inmate is informed of his or her assessment on a regular basis.

## Manuals

- Case Management Manual
- Case Supervision Procedures Manual
- National Parole Service Procedures Manual
- Case Preparation Procedure Manual

## Chaplaincy

The Chaplaincy is responsible for the development, functional direction and evaluation of religious services to inmates.

## Manuals

- Chaplain's Manual

## Inmate Affairs Division

The division is responsible for the development, functional direction and evaluation of inmate affairs activities to ensure fair and humane treatment, e.g., inmates' rights, complaints and grievances. In addition, it produces related booklets and investigates, hears and resolves inmates' complaints and grievances, through up to four decision-making levels.

## Manuals

- Grievance Manual

## Social and Community Programs Division

The division provides offenders with the opportunity for social, emotional, physical and personal development through recreation and physical fitness programs, hobbycraft programs, citizen participation programs, life skills courses, assistance programs for social and family relations and special programs to meet the needs of women, natives and other groups. Other important functions are the promotion of effective working relationships and the administration of policy on the use of private sector agencies.

## Medical and Health Care Services Branch

The branch is responsible for the functional direction and control of medical and health care activities: the medical, psychiatric, dental, surgical and nursing care of inmates provided by CSC Regional Psychiatric and Health Care Centres as well as by public hospitals and private practitioners; hospital administration; liaison with medical and other professional associations in Canada and abroad; and bilateral negotiations and agreements with provincial governments on the provision of health care services.

### Manuals

- Commissioner's Directives
- Divisional Instructions
- Medical and Health Care Services Policy and Procedure
- Nursing Manual

## Policy, Planning and Evaluation Division

The division is responsible for the development and evaluation of branch policies and plans. It co-ordinates policy planning activities; operates performance measurement and other management information systems; audits research proposals; and ensures the efficiency and confidentiality of health care information.

## Major Projects and Adviser on Hospital Administration Division

The division is responsible for the planning and implementation of major projects, including preparations for the Second World Congress on Prison Medicine, and tendering systems for health care services provided by public hospitals and private practitioners. In addition, it provides professional advice on hospital administration.

## Health Care Operations Division

The division is responsible for the development, functional direction and control of CSC nursing and paramedical activities, such as those at regional psychiatric centres and institutional health care offices; services provided by provincial hospitals and private practitioners; and for medical facilities, equipment and supplies.

### Manuals

- Medical and Health Care Services Manual
- Nursing Manual

## Security Branch

The branch is responsible for the functional direction and control of the Operational Security, Preventive Security and Inmate Population Management Divisions.

### Manuals

- Security Manual

## Operational Security Division

The division is responsible for the development, functional direction and evaluation of operational security activities, including contingency and emergency planning; the custody, escort and discipline of inmates; censorship and contraband control; disturbances; security equipment and electronic security systems; manning standards; security aspects of fire safety; security surveys; and crisis management.

## Inmate Population Management Division

The division is responsible for the development, functional direction and evaluation of inmate population management activities, including accommodation control; interregional and international transfers; the provision and use of protective custody, segregation, punitive dissociation, special handling facilities and related dangerous inmate policies; the direction and control of the movement of inmates among these special facilities; and the maintenance of an inmate population management reporting system.

### Manuals

- Case Management Manual

## Preventive Security Division

The division is responsible for the development, functional direction and evaluation of preventive security activities, which include the collection, protection, analysis and reporting of intelligence information; preventive measures to safeguard the public, staff and inmates; maintaining the security of CSC property (other than institutions); and the conduct of security surveys and investigations.

## Classes of Records

---

CPS/COM-005 *Formerly Identified as:* CSC-10

### Correspondence Management

*Description:* Information on policy and procedures in the handling of correspondence. *Topics:* Correspondence management — channels of communication, preparation of Treasury Board submissions and ministerial correspondence; signing authorities other than financial; processing of Commissioner's and Senior Deputy Commissioner's mail; inmate and anonymous correspondence; parliamentary matters — questions asked in the House of Commons, Minister's house book, ministerial enquiries, employment enquiries, liaison with Minister, Cabinet submissions, Minister's issues book and Personnel Branch input.

CPS/COM-010 *Formerly Identified as:* CSC-20

### Information Services

*Description:* Information on the administration of public affairs and relations. *Topics:* Address, mailing and distribution lists; biographies — media relations, press clippings, press releases, photographs, radio and television broadcasts, slides and films, corpus, administrative index, list of coming events; advertising — newspapers, magazines, periodicals, radio and television; articles, bulletins, guides, newsletters and manuscripts for publication; COMREP, exhibitions and fairs — displays and models; lectures and lecturers — Solicitor General, CSC personnel, officials of other government departments and agencies, Speakers Bureau.

CPS/COM-015 *Formerly Identified as:* CSC-30

### Books and Publications

*Description:* Information on the management of books and publications, including their printing, binding, editing, compilation, sale and distribution. *Topics:* Books and publications — printing and binding, editing, sale and distribution, requests for publications; individual — discussion, compilation, printing, distribution; Let's Talk, prison newspapers, Public Affairs Courier, Social Developer, Monday Morning Highlights, Inside/Outside, Telecom, Intercom.

CPS/COM-020 *Formerly Identified as:* CSC-40

### Enquiries (Revised)

*Description:* Enquires made by members of the public press or Parliament on the Correctional Service of Canada. *Topics:* Requests

## CANADIAN PENITENTIARY SERVICE

to interview officials or offenders; correspondence received on persons thought to be offenders or awaiting transfer to an institution. *Special Access Note:* Access requests for information on persons awaiting transfer to an institution should be made under the *Privacy Act*. All other access requests for this bank should be made under the *Access to Information Act*.

CPS/TSB-025 *Formerly Identified as:* CSC-50

### **Technical Services**

*Description:* Information on the management of technical services, including major construction projects and the provision of electronic and telecommunication services. *Topics:* Construction — codes and regulations; contracts — projects, individual contracts, design change requests; institutional performance specifications — educational facilities; programs — accelerated construction program, capital projects authorization and implementation system.

CPS/TSB-030 *Formerly Identified as:* CSC-60

### **Electronics and Telecommunications — General**

*Description:* Information on the provision of electronics and telecommunications services. *Topics:* Communications — Government Telecommunications Agency (GTA), call code cards, intercom and public address, automated office communications; radio and television — control radio, inmate radio and television (departmental and personal), two-way radio; telephone — directories, emergency directories, installations and relocations, commercial and departmental telephone system, long distance, intercity direct lines, conference telephone; teletype and Telex — facsimile, telegraphs.

CPS/TSB-035 *Formerly Identified as:* CSC-70

### **Electronics and Telecommunications — Security**

*Description:* Information on the acquisition and installation of security electronics equipment. *Topics:* Integrated Communication and Control System — sub-systems, acceptance test procedures, standard operation procedures (SOP), main communication and control posts (MCCPs); institutional detection and alarm call system — closed-circuit television (CCTV) switching logic, fire-smoke alarm, nurse call system, intrusion detection, STELLER system; electric-field fencing; Digital Automatic Video Intrusion Detection (DAVID), personal portable alarm, panic alarm, inmate cell call; technical surveillance — counter-technical intrusion inspection.

CPS/TSB-040 *Formerly Identified as:* CSC-80

### **Facilities Planning**

*Description:* Information on the planning of facilities. *Topics:* Public awareness program; five-year construction program; accommodation program 1980-90; chapel; community release centres; female accommodation health care centres; maximum, medium and minimum security; psychiatric centres; reception centres; special handling units; workshops; accommodations standards — building program element, executive summary; construction systems and materials — materials, plumbing, heating, ventilation, water supply, sewage and garbage disposal system and equipment, kitchen planning and equipment, cell design and furnishing; security and control systems — electric locking, manual locking and communication systems, security windows, screens, grills and barriers, perimeter security systems.

CPS/EAP-045 *Formerly Identified as:* CSC-90

### **Engineering, Architecture and Properties**

*Description:* Information on buildings and properties; accounting and inventories; real property, including acquisition and disposal; and the environmental protection program. *Topics:* Buildings and properties — signage program, heritage buildings and properties, photographs; accounting and inventories — Central Real Property Inventory, site plans; acquisition of real property — leases, expropriation, mobile trailers, proposed new sites; disposal of real property — notification of excess Crown property, report of surplus lands and buildings;

environmental protection program — air pollution, water pollution, noise control, environmental assessment and review process, clean-up program.

CPS/EAP-050 *Formerly Identified as:* CSC-100

### **Accommodation**

*Description:* Information on all aspects of accommodation. *Topics:* Accommodation — offers of space, planning and requirements, office, staff colleges, staff housing, armouries, warehouses; recreation and training areas — baseball diamonds, handball and tennis courts, outdoor hockey arenas, shooting ranges, swimming pools; reports and statistics — cell accommodation reports, monthly project reports, departmental accommodation utilization reports, accommodation status reports.

CPS/EAP-055 *Formerly Identified as:* CSC-110

### **Buildings**

*Description:* Information on building administration and upkeep. *Topics:* Buildings — floor directives, bulletin boards, elevator services, use of facilities; alterations and repairs — requisition for services, Public Works Canada; damages; maintenance — hygiene and sanitation, painting program, spring and fall clean-up, preventive maintenance, roofs; maintenance standards.

CPS/EAP-060 *Formerly Identified as:* CSC-120

### **Buildings — Fire Safety**

*Description:* Information on all aspects of fire safety. *Topics:* Fire safety awards program and fire prevention week; fire investigation reports; fire protection agreements; fire protection engineering standards; fire drills; automatic sprinklers alarm system; fire loss analysis; Regional Fire Commissioners' inspection reports; Correctional Service Canada fire inspection reports.

CPS/EAP-065 *Formerly Identified as:* CSC-130

### **Lands**

*Description:* Information on the administration of lands. *Topics:* Lands — burial grounds and cemeteries, quarries, trespassing; concessions — easement, rights-of-way, cattle grazing privileges, lease-backs; development — site grading and levelling, farm land, reforestation; fencing, walls and towers; flood control; parking areas; roads, streets, sidewalks — snow removal.

CPS/EAP-070 *Formerly Identified as:* CSC-140

### **Utilities**

*Description:* Information on the provision of utilities. *Topics:* Utilities — refrigeration; conservation of energy — reports, solar energy, wood and waste products (biomass); electric power — electrical distribution system, emergency standby generators, floodlighting; garbage disposal — garbage dumps, incinerators; water and sewage — filtration and water treatment plant, plumbing systems, water mains, sewer and drains; water towers and reservoirs, wells.

CPS/EAP-075 *Formerly Identified as:* CSC-150

### **Heating**

*Description:* Information on the provision of heating utilities. *Topics:* Heating fuels — coal, diesel oil, fuel oil; natural gas; propane gas; wood; heating plants — boiler and furnace, performance monthly statements, boiler and pressure vessel inspection, boiler feed water treatment, boiler tune-up retrofit program, buried piping and tunnels, heating plant equipment; heating ventilation and air conditioning — heat distribution system, monitoring and control systems, ventilation, building environment control.

CPS/EAP-080 *Formerly Identified as:* CSC-160

### **Vehicles**

*Description:* Information on the management and provision of government-owned vehicles. *Topics:* Fleet management information

# CANADIAN PENITENTIARY SERVICE

system; credit card system; licence registration and insurance; maintenance and repairs; operating standards; recall notices; technical bulletins.

CPS/EAP-085 *Formerly Identified as:* CSC-170

## Vehicle Parking

*Description:* Information on vehicle parking. *Topics:* Regulations; application; permits.

CPS/FSD-090 *Formerly Identified as:* CSC-180

## Food Services

*Description:* Information on the supply of foodstuffs and the administration of the food services program. *Topics:* Foods — canned goods, fruits and vegetables, meat, fish and poultry, dairy products (includes milk, butter, cheese and eggs); food service program — ration scale, menu sheets, messing, Christmas bags, special diets, free meals.

CPS/MMD-095 *Formerly Identified as:* CSC-190

## Materiel Management

*Description:* Information on overall materiel management. *Topics:* Equipment and supplies — agreements and guarantees; accounting and inventories — boards of survey, overages and shortages, stock-taking; catalogues, manuals, price lists — office equipment and supplies, tool and equipment manual; disposal and surplus — condemnation, transfer of material to other government departments, write-offs; drawings and specifications — buildings; industrial drawings; Canadian Government Specifications Board.

CPS/MMD-100 *Formerly Identified as:* CSC-200

## Equipment

*Description:* Information on the acquisition of equipment. *Topics:* Equipment on loan; photographic equipment; farm equipment and machinery; kitchen equipment; laundry equipment; physical education and recreation; audio-visual; fire safety; electronic equipment inventory; boiler equipment; data processing equipment — computers, computer terminals; maintenance and repairs — office appliances, electronics equipment, electronics maintenance test equipment, preventive maintenance; microfilming equipment — printer-reader, film; office appliances — calculating machines, tape recorders, typewriters, photocopying equipment, word processors.

CPS/MMD-105 *Formerly Identified as:* CSC-210

## Health Care Equipment

*Description:* Information on the acquisition of health care equipment. *Topics:* Dental, optical, physiotherapy, first aid kits; hospital equipment — beds (other than cell, dormitory, and household), X-ray, operating room; pharmaceutical — drugs, inspections by Health and Welfare Canada.

CPS/MMD-110 *Formerly Identified as:* CSC-220

## Institutional Services

*Description:* Information on the procurement services required by institutions. *Topics:* Clothing — officer clothing, inmate clothing (institutional), inmate clothing (discharge), report on stock of cloth for officers' uniforms; furniture and furnishings — kitchen smallware; cell and dormitory — beds and bedding, lighting fixtures, lockers, chairs, sofas; household — beds and bedding, chesterfields, chairs, sofas; office — filing cabinets and security shells, desks, tables and chairs, drapes and venetian blinds, wall furnishings (pictures, plaques); clothing and accommodation — cell and dormitory accommodation, clothing.

CPS/MMD-115 *Formerly Identified as:* CSC-230

## Procurement

*Description:* Regulations, instructions and procedures relating to procurement. *Topics:* Procurement — purchasing and requisitioning procedures and methods, Supply and Services Canada customer manual, scale of issue, tender lists; contracts; local purchase orders; requisitions; standing offer agreements.

CPS/MMD-120 *Formerly Identified as:* CSC-240

## Supplies

*Description:* Information on the purchase of supplies. *Topics:* Badges, emblems, crests, flags; training aids; supplies; returnable containers; building materials — hardware and paint, lumber and plywood, electrical, plumbing and pipefitting; cleaning and personal hygiene supplies — institutional cleaning supplies, inmate hygiene supplies; forms; requisitions; heating and cooking fuels — coal, furnace or stove oil, gas; motor fuels — gasoline, diesel fuel, oil and lubricants, antifreeze; shop supplies — cloth textiles, leather and bindings, hardware and paints, lumber and plywood, metals, welding supplies and chemicals; stationery.

CPS/IGB-125 *Formerly Identified as:* CSC-250

## Inspector General

*Description:* Information on liaison with the Correctional Investigator, management of audits and management of the accreditation program. *Topics:* Correctional Investigator's inquiries; special projects; management review — regional checklists; financial audits — annual financial audit report, quarterly report on financial audits; classification audits; staffing audits — Public Service Commission of Canada audits, anomaly reports, questionnaire and analysis; correctional standards — Commission on Accreditation for Corrections Inc. (U.S.), institutions, parole offices, community correctional centres, regional psychiatric centres, health care centres; administrative enquiries.

CPS/SDC-130 *Formerly Identified as:* CSC-260

## Operations

*Description:* Information on the operations of CSC in general. *Topics:* Youth Services crime prevention; relocation of federal female offenders.

CPS/SDC-135 *Formerly Identified as:* CSC-270

## Investigative Enquiries (Revised)

*Description:* Records on investigations conducted by the Inspector General's or Policy, Planning and Administration branches, on incidents that have an adverse effect on the security or administration of an institution. *Topics:* Terms of reference for each incident including facts and recommendations; police reports; intelligence assessments; and information provided by offenders, staff, visitors and external organizations. *Note:* Used to prevent incident recurrences and to process claims against the Crown.

CPS/SDC-140 *Formerly Identified as:* CSC-280

## Penal and Correctional Enquiries

*Description:* Enquiries held to identify operational deficiencies in the Canadian Correctional System and to make recommendations for changes. *Topics:* Canadian Committee on Corrections — Mr. Justice Ouimet; Commission of Enquiry into the Non-medical use of Drugs; Correctional Planning Committee; Doukhobor problems; Fauteux Committee; Joint Committee of the Senate and House of Commons 1965; Justice and Legal Committee of the Senate and House; juvenile delinquents; Provost Commission on the Administration of Justice;

# CANADIAN PENITENTIARY SERVICE

---

Royal Commission on the Toronto Jail of Custodial Services; narcotics addiction; study of sexual and dangerous offenders.

CPS/SDC-145 *Formerly Identified as:* CSC-290

## Research

*Description:* Research in medical, psychiatric, psychological and socio-behavioural problems affecting CSC inmates and reports. *Topics:* Research Advisory Council; medical; psychiatric; psychological; nursing.

CPS/ETE-150 *Formerly Identified as:* CSC-300

## Inmate Employment

*Description:* Information on general matters pertaining to the employment of inmates both within the institution and externally while they are serving a sentence. *Topics:* Work assignments boards — grading; internal employment; external employment; ex-inmate enterprises.

CPS/ABD-155 *Formerly Identified as:* CSC-310

## Agriculture

*Description:* Information on the operation of CSC institutional farms, the management of animals, cannery operations and storage of fruits and vegetables, slaughter of cattle and the storage and distribution of meat. *Topics:* Agriculture — distribution of products, farm reports; animal husbandry — cattle, pigs, poultry, veterinary services; cannery operations; slaughterhouses.

CPS/ADP-160 *Formerly Identified as:* CSC-320

## Automated Data Processing

*Description:* Information on automated data processing installations, customers and proposed customers, and production reports. *Topics:* Automated data processing — data capture, microfilm, postal, word processing; customers; reports — data capture, microfilm.

CPS/ETD-165 *Formerly Identified as:* CSC-330

## Education and Training

*Description:* General information on programs designed to improve the inmates' occupational skills. *Topics:* Academic and vocational training contracts; continuing professional education for education and training staff; teachers; educational testing — academic and vocational; development plan — education and training study; standards.

CPS/ETD-170 *Formerly Identified as:* CSC-340

## Academic Training

*Description:* Information on schools, university training, extramural courses. *Topics:* Correspondence courses; special education; Haldon-reading scheme; university degree program; computer-assisted learning; native studies.

CPS/ETD-175 *Formerly Identified as:* CSC-350

## Provincial Liaison and Accreditation

*Description:* Information on liaison with provincial governments on accreditation and issue of trades certificates, work placement.

CPS/ETD-180 *Formerly Identified as:* CSC-360

## Institutional Library Service

*Description:* Information on the administration of institutional library services.

CPS/ETD-185 *Formerly Identified as:* CSC-370

## Vocational Training

*Description:* Information on commercial training, manufacturing trades, small business courses. *Topics:* Commercial courses; apprenticeship and training; pre-employment training; horticultural training; computer technology and data processing; cooking and hospitality occupations.

CPS/IND-190 *Formerly Identified as:* CSC-380

## Industries

*Description:* General information on industrial operations.

CPS/IND-195 *Formerly Identified as:* CSC-390

## Marketing

*Description:* Information on the development of markets and products. *Topics:* Marketing; market development — cataloguing of products, development and distribution of literature, after-sales service, non-customer complaints, product promotion — showroom, product coding, promotional aids; product development — product costing, price change requests, drawings and specifications, packaging, safety, identification; Correctional Service Canada products; furnishings; maintenance equipment; modular housing; Post Office equipment; recreation and sports equipment; services; specialized equipment; storage and packaging of products; aids for the handicapped.

CPS/IND-200 *Formerly Identified as:* CSC-400

## Sales

*Description:* Information on the sale of products made by inmates. *Topics:* Marketing sales; product samples; authorized individuals; federal departments and agencies; municipal governments; non-profit organizations; provincial departments and agencies; religious organizations; schools.

CPS/IND-205 *Formerly Identified as:* CSC-410

## Production Program

*Description:* Information on manufacturing, inventory control, quality control and quality assurance of products manufactured by CSC. *Topics:* Production control — inventory of manufactured goods, advance orders, purchase of materials, order forms, manufacturing authorities, notice of shipment; quality control — inspection plans, in-process inspections, final inspection, customer complaints; quality assurance.

CPS/IND-210 *Formerly Identified as:* CSC-420

## Reports and Statistics

*Description:* Administrative reports and statistics on industrial operations. *Topics:* Inspection reports — quarterly; progress reports on industrial orders; progress reports on clothing and footwear; reports of industrial capacity; summary of industrial revolving fund; sales reports; program situation report; monthly activity report.

## CANADIAN PENITENTIARY SERVICE

CPS/IND-215 *Formerly Identified as:* CSC-430

### **Shops**

*Description:* Information on the organization, administration and layout of industrial shops.

CPS/IRM-220 *Formerly Identified as:* CSC-440

### **Benefits, Incentives and Pay Administration Plan**

*Description:* Information on inmate pay, bonding and unemployment insurance, work incentives and the pay administration plan. *Topics:* Benefits — bonding of inmates, remuneration, unemployment insurance, Workman's Compensation; incentives; Inmate Employment and Pay Administration Plan — operations, employment and opportunities, classification and compensation, work standards, pay systems, employment and pay information system.

CPS/SEP-225 *Formerly Identified as:* CSC-450

### **Work Opportunities**

*Description:* Information on the administration of work opportunities for inmates. *Topics:* Entrepreneurial activities; Canada Works Economic Growth Component; inmate labour on construction projects; projects involving private sector; bush operations — tree nursery reforestation; Employment and Immigration Canada economic growth component; co-ops; institutional services.

CPS/CMD-230 *Formerly Identified as:* CSC-490

### **Case Management**

*Description:* Information on the development of a program plan for the offender. *Topics:* Pre-sentence and post-sentence report; classification of inmates — classification questionnaire, cascading of inmates, individual program planning.

CPS/CMD-235 *Formerly Identified as:* CSC-500

### **Living Unit**

*Description:* Information on regulations and implementation of the living unit program. *Topics:* Therapeutic community; living unit and human relations — "The Owl Grid/la Grille Hibou", living unit class proposal.

CPS/CMD-240 *Formerly Identified as:* CSC-510

### **Policy and Procedures**

*Description:* Information on the development of general policies and procedures. *Topics:* Co-operation and liaison with the provinces — deportation; Case Management Manual.

CPS/CMD-245 *Formerly Identified as:* CSC-520

### **Policy and Procedures — Community Release**

*Description:* Information on the development of policies and procedures in preparation for community release. *Topics:* Community Correctional Centre directors' conference; inmate manual; community banking; parolee assistance loan fund; deportation; parole — parole offices as releasing institutions, medical insurance for parolees and ex-inmates; programs — Case Management Manual, Chapter 17.

CPS/CMD-250 *Formerly Identified as:* CSC-530

### **Release**

*Description:* Information on case preparation for release and case supervision after release. *Topics:* Release of inmates; absences — temporary, festive season, escorted, unescorted; discharge; parole — community release, temporary detainees, post-release programs — temporary absence, day parole, parole, mandatory supervision, signing authority for warrants, case supervision procedures manual; pre-release programs — intensive pre-release project, temporary absence, day parole, parole, mandatory supervision, case preparation procedures manual.

CPS/CMD-255 *Formerly Identified as:* CSC-540

### **Operations and Quality Control**

*Description:* Information on quality control, quantitative and qualitative performance in district offices and application of policy and procedures in the region. *Topics:* Reclassification study; quality control and procedure review — audits, board complaints, concerns and comments, inmate enquiries and issues on case management, community enquiries and issues on case management, warrant control records, NPS procedures manual — proposed amendments, Case Management Manual, quality control checklists.

CPS/CMD-260 *Formerly Identified as:* CSC-550

### **Sentence Administration**

*Description:* Documentation of inmates on admission and release, computation of sentences, remission. *Topics:* Admissions — admission of foreign nationals; documentation of inmates received from provincial prisons; scar notification; interpretation of sentence; auditing of inmate files; numbering of inmates; fingerprinting and photographing of inmates; expiration of sentence; earned remission; statutory remission; discharge; death — suicides.

CPS/CHA-265 *Formerly Identified as:* CSC-560

### **Chaplaincy**

*Description:* Information on programs designed for the spiritual well-being of inmates. *Topics:* Interfaith committee on Chaplaincy; special diets; Chaplaincy — Protestant, Roman Catholic, relations with diverse faith groups, retreats, Chaplain's Manual.

CPS/IAD-270 *Formerly Identified as:* CSC-570

### **Inmate Affairs**

*Description:* Information on the management of inmate affairs. *Topics:* Welfare — counselling; inmate organizations; legal affairs — legal aid; ombudsman, inmate rights and responsibilities, administrative boards, United Nations general principles for persons in prisons; inmate affairs — inmate participation in management; inmate committees; grievances — individual grievances, group grievances, reports, grievance manual, inmate manual.

CPS/SCP-275 *Formerly Identified as:* CSC-580

### **Social and Community Programs**

*Description:* Information on special programs to meet the needs of specific groups of offenders and on the administration of financial programs. *Topics:* Finance — community banking, monetary assistance to inmates and dependents, parolee assistance loan fund, trust fund, welfare fund, travelling and living expense allowance, allowances to offenders; programs — long-term offenders, regional reception centre, diversion, contact, husband and wife offenders, senior citizen offenders, sexual offender program.

CPS/SCP-280 *Formerly Identified as:* CSC-590

### **Community Relations and Special Projects**

*Description:* Information on working relationships with private sector agencies such as the John Howard and Elizabeth Fry societies for services such as parole supervision and residential services. *Topics:* Associations — aftercare services contracts; grants to aftercare agencies.

CPS/SCP-285 *Formerly Identified as:* CSC-600

### **Citizens' Advisory Committee**

*Description:* Information on policy formulation, planning, minutes and recommendations of the Citizens' Advisory Committee. *Topics:* Draft Cabinet Document 216; memberships and appointments; national conference of Citizens' Advisory Committees (CACs) — constitution; minutes, recommendations; progress reports; National Executive Committee of CACs — minutes.

## CANADIAN PENITENTIARY SERVICE

CPS/SCP-290 *Formerly Identified as:* CSC-610

### **Community Residential Centres**

*Description:* Information on the operational aspects of community correctional centres and community residential centres for parole supervision; includes provincial liaison. *Topics:* Guidelines for community residential centres (CRCs); directory; report on CRC usage; national standards for CRC Task Force; use of Parole Board seal; annual evaluation of CRC and agencies; community assessment and parole supervision — provincial.

CPS/SCP-295 *Formerly Identified as:* CSC-620

### **Programs**

*Description:* Information on parole supervision programs. *Topics:* Private homes; services to families of offenders; Square One.

CPS/SCP-300 *Formerly Identified as:* CSC-630

### **Special Projects**

*Description:* Information on special projects for the development of programs. *Topics:* Brantford community team; correctional employment related services(CER); outreach project; converse; colloques des ressources communautaires; co-ordinated computerized community residential centre (CRC); program evaluation; Citizen Action Group (Hamilton) employment project; Détenus bénévoles; Exdeltra Inc.; Family Visiting Programs; HELP Program — Frontier College; life skill project — Prairies; inmate employment service — Prince Albert film; parolees — supervision cases — John Howard Society of Metropolitan Toronto.

CPS/SCP-305 *Formerly Identified as:* CSC-640

### **Volunteers**

*Description:* Information on the general public and inmates as volunteers. *Topics:* Awareness program; Hamilton volunteer project; insurance; policy development; recognition of volunteers as sponsors in temporary absence and pre-release; Family Visiting Project — accommodation, female offenders, international programs, review board, statistics, comments from outside organizations.

CPS/SCP-310 *Formerly Identified as:* CSC-650

### **Female Offenders**

*Description:* Information on special programs to meet the needs of the female offender. *Topics:* Relocation of female offenders; provincial co-operation — administration of Prison for Women, Elizabeth Fry societies, federal female inmate relocation project-advisory group, federal-provincial committee on the female offender, national advisory committee on the female offender, national planning committee on the female offender, female accommodation, programs for female offenders.

CPS/SCP-315 *Formerly Identified as:* CSC-660

### **Native Offenders**

*Description:* Information on special programs to meet the needs of the native offender. *Topics:* Associations; native offenders — Inuit, placement in camp locations, Burwash Native People's Project, alcohol and drug abuse by natives, Native Crime and Justice Commission.

CPS/SCP-320 *Formerly Identified as:* CSC-670

### **Social and Cultural Development**

*Description:* Information on programs designed to enhance the inmate's social, cultural and physical development. *Topics:* Associations; entertainment — concerts and shows put on by inmates, hobbycraft, movies and television, sports activities put on by visiting athletes, concerts put on by visiting groups; physical education and recreation — physical fitness testing, standards, minimum security institutions, medium and maximum security institutions, inter-institutional sports day, exceptional people's olympiad; social development programs — transcendental meditation, resource exchange project, life skills, long-term offender project (SSEAP),

Ontario volunteer programs; draft Cabinet document — social and cultural development.

CPS/HCO-325 *Formerly Identified as:* CSC-680

### **Health and Hygiene**

*Description:* Information on general matters pertaining to the cleanliness and physical well-being of inmates. *Topics:* Accident reports — inmate; barbering; bathing; change room; laundry; occupational therapy.

CPS/HCO-330 *Formerly Identified as:* CSC-700

### **Dental Services**

*Description:* Information on dental care provided to offenders and dental laboratories.

CPS/HCO-335 *Formerly Identified as:* CSC-710

### **Medical Services**

*Description:* Information on the medical care of inmates. *Topics:* Hospital insurance; medical insurance for parolees and ex-inmates; medical statements; Medical Services Manual; Nursing Manual; nursing; Canadian Hospital Directory; immunization of inmates; drug abuse testing; transsexuals; reception; chest X-rays.

CPS/HCO-340 *Formerly Identified as:* CSC-720

### **Psychiatric Services**

*Description:* Information on psychiatric care of inmates. *Topics:* Certification procedures for admission; sex offender treatment.

CPS/SBR-345 *Formerly Identified as:* CSC-730

### **Security**

*Description:* General information on the security of institutions. *Topics:* Correctional officer field notebook; key control; monthly security briefing; penitentiary officer's handbook; Security Branch issues book; Security Manual; tool control; classification of CSC institutions.

CPS/OSD-350 *Formerly Identified as:* CSC-750

### **Operational Security**

*Description:* Information on general operational security of the institutions. *Topics:* Inmate count; patrol dogs; penitentiary officers' handbook; monthly security briefing; supervision of inmate leisure time activities; Security Manual; flying over institutions; preservation of evidence at the scene of a crime.

CPS/OSD-355 *Formerly Identified as:* CSC-760

### **Contingency Emergency Plans**

*Description:* Information on action to be taken in the event of any emergency causing a disruption of the institutional routine and operational activity. *Topics:* Civilian assistance; military assistance; RCMP assistance; emergency response teams; riots and major disturbances; bomb threats; procedures during labour disputes; Operations Centre, National Headquarters.

CPS/OSD-360 *Formerly Identified as:* CSC-770

### **Contraband and Dangerous Substances**

*Description:* Information on the entry into or discovery of unauthorized material in institutions, and the control of dangerous substances within the institution. *Topics:* Dangerous substances; drugs; searches (inmates, staff, visitors); body cavity searches; butane lighters; gerbil drug detection; reports and bulletins from other agencies; statistics; tool control; weapons.

CPS/OSD-365 *Formerly Identified as:* CSC-780

### **Discipline, Punishment, Segregation**

*Description:* Information on segregation, dissociation and disciplinary measures to be taken in order to maintain institutional routine. *Topics:* Bulletins and publications — foreign jurisdictions; corporal punishment; dissociation; study groups; recording and reporting system; sensory deprivation; use of force; segregation; segregation —

## CANADIAN PENITENTIARY SERVICE

monthly administrative review; independent chairperson, workshops and appointments; resignations; fees.

**CPS/OSD-370 Formerly Identified as: CSC-790**

### **Emergency Planning**

*Description:* Information on policies and plans for the continuation of the Department's operations in the event of an emergency. *Topics:* Accommodation; internment of subversives; national shelter program; nuclear survival; snow emergencies; training; Exercise Wintex; Exercise Bold Step 82; nominated officials; circulars, publications, reports.

**CPS/OSD-375 Formerly Identified as: CSC-800**

### **Security Equipment**

*Description:* Information on the selection and use of security equipment. *Topics:* Restraint equipment; scale of issue; regional and institutional emergency response teams; theft or loss of security equipment; contraband screening — X-ray, metal detectors, narcotics identification kits; integrated communication and control system — subsystems, acceptance test procedures, standard operation procedures; main communication and control posts; institutional detection, alarm and call systems — closed-circuit television (CCTV) switching logic, fire-smoke alarm, nurse call system, intrusion detection, STELLER system, electric field fencing, Digital Automatic Video Intrusion Detection (DAVID), personal portable alarm, panic alarm, inmate cell call; technical surveillance — counter technical intrusion inspection; weapons — registration of firearms, weapons inventory, ammunition, rifles and revolvers, riot tear-gas, shields.

**CPS/OSD-380 Formerly Identified as: CSC-820**

### **Surveys and Reviews**

*Description:* Information on inadequacies in security operations.

**CPS/OSD-385 Formerly Identified as: CSC-830**

### **Hostage Taking**

*Description:* Information on the management of hostage-taking situations. *Topics:* Guidelines for the behaviour of hostages; services to families of hostages; statistics.

**CPS/IPM-390 Formerly Identified as: CSC-840**

### **Inmate Population Management**

*Description:* Information on procedures for managing the inmate population. *Topics:* Escorting of inmates; transportation of inmates by air; protective custody units; special handling units; dangerous offenders — most dangerous, weekly report, murderers, sex offenders.

**CPS/IPM-395 Formerly Identified as: CSC-850**

### **Transfers**

*Description:* Information on the actual movement of inmates or groups of inmates. *Topics:* Insane inmates; transfer to community correctional centres (CCCs) and community residential centres (CRCs); transfer between regions; transfer to and from provinces; international transfer to and from Canada; international transfers of provincial inmates.

**CPS/PSD-400 Formerly Identified as: CSC-860**

### **Preventive Security**

*Description:* Information on preventive security. *Topics:* Security in the Public Service — Cabinet Document 35; building security — access control, fire and emergency evacuation, locks, locking devices and issuing of keys; protection services — Corps of Commissionaires; identification — ID cameras, inmates, parolees, staff, damage, loss and recovery, fingerprinting.

**CPS/PSD-405 Formerly Identified as: CSC-880**

### **Incidents**

*Description:* Information on incidents in institutions. *Topics:* Assaults; contraband; death; fires; major incidents; minor incidents; escapes and recaptures — escapes from escort, plans apprehended,

Operation Earthworm, reports, statistics, studies; injuries — accidental, attempted murder, attempted suicide, self-inflicted; use of force — gas, physical, weapons.

**CPS/PSD-410 Formerly Identified as: CSC-890**

### **Information and Intelligence**

*Description:* Information on activities considered to have intelligence significance in the maintenance of good order within the institutions; also intelligence information of benefit to law enforcement and correctional agencies. *Topics:* Inmate witnesses from foreign jurisdictions; interrogations; organized crime; organized crime — Quebec; profiles — inmate; staff labour problems; special cases; terrorism; threats and demonstrations; bulletins, publications — bulletins and reports from law enforcement agencies, inmate newsletters, radical books and publications, security bulletins, SINTREP — daily and weekly, summaries, synopsis, evaluations.

**CPS/PSD-415 Formerly Identified as: CSC-920**

### **Personnel Security Program**

*Description:* Information on the administration of the personnel security program involving clearances of personnel and individual security clearance case files. *Topics:* Clearance of personnel; individual security clearance case files; criminal indices check; employment of homosexuals.

**CPS/PSD-420 Formerly Identified as: CSC-940**

### **Security of Information**

*Description:* Information on the administration of security regulations for the handling and storage of documents, exchange and release of information. *Topics:* Classification of correspondence and documents; release of information; breaches of security; confidentiality of medical and psychiatric reports; medical information administrative summary; EDP security; document storage.

**CPS/PSD-425 Formerly Identified as: CSC-950**

### **Visits and Correspondence**

*Description:* Information on inmate visitors, the censorship and monitoring of inmate correspondence, reading material, telephone communication. *Topics:* Censorship; conjugal visits; correspondence and gifts; telephone communication; visiting; screening of visitors.

## Background

The Canadian Radio-television and Telecommunications Commission (CRTC) is an independent public authority established by Parliament in 1968 as a successor to the Board of Broadcast Governors, an earlier regulatory agency. Its mandate was to regulate and supervise all aspects of the Canadian broadcasting system. These responsibilities were enlarged in 1976 by the *Canadian Radio-television and Telecommunications Commission Act*, under which the Commission assumed responsibility for regulating telecommunications carriers within federal jurisdiction.

## Laws and Regulations

- Canadian Radio-television and Telecommunications Act (1976), which amended the Broadcasting Act (1968)
- AM, FM and TV Broadcasting Regulations
- Cable TV Regulations
- National Transportation Act
- Railway Act

## Overall Responsibilities

The CRTC regulates both public and private broadcasters. It has the power to issue, renew, amend, suspend or revoke licences, and to set any conditions of licence it feels necessary. With respect to federally regulated telecommunications carriers, the CRTC has the power to ensure that the rates charged by the carriers are just and reasonable, and that rates and tariffs are not unjustly discriminatory. The Commission's approval is also required for traffic agreements and capital stock issues.

In order to fulfil its mandate, the CRTC collects a variety of information on applicants and existing licensees operating broadcasting undertakings (cable, radio and television) across the country. Financial and operating information is collected on a yearly basis in annual returns filed under the *Statistics Canada Act*. Programming on radio and television is monitored, and operating stations submit detailed program logs every year. In the course of the public hearing process, information concerning the applications being heard is made available for public examination as outlined in the CRTC Rules of Procedure. These public files include the text of any intervention made by anyone wishing to express views with respect to particular applications or issues raised in public hearings. In telecommunications hearings, interrogatories and other more formal practices may be carried out, as outlined in the CRTC Telecommunications Rules of Procedures.

The Commission receives complaints and enquiries from specific individuals and corporations regarding both broadcasting and telecommunications. Grants and contributions are occasionally made through the Commission's research branch.

## General Information

General information can be obtained either in person, by telephone, or by writing to the following services at the CRTC headquarters, Central Building of Les Terrasses de la Chaudière, la Promenade du Portage, Hull, Québec.

### Library

2nd Floor  
CRTC  
Ottawa, Ontario

Ottawa, Ontario  
K1A 0N2  
Telephone: (819) 997-4624

## Regional Offices

The CRTC maintains four regional offices to establish the Commission's presence in the community. These offices provide a link between the Head Office and the licensees, provincial and municipal governments, local groups, and the public.

In addition to searching out areas needing new broadcasting services, and assessing existing services, the regional offices are available to provide general information and assistance to the public, applicants, interveners and licensees in the regions.

### Atlantic Region

Director General  
Canadian Radio-television and Telecommunications Commission

## Major Publications

The CRTC's publications are listed in its Annual Report. They are either priced, that is, available from the Canadian Government Publishing Centre, Supply and Services Canada, Hull, Quebec, K1A 0S9, or a bookseller dealing in government documents, for the price indicated next to the title; or available free of charge from the CRTC Information Services, Ottawa, K1A 0N2.

## Glossary of Key Terms

**Broadcasting** — any radio communication in which the transmissions are intended for direct reception by the general public

**Radio communication** — any transmission, emission or reception of signs, signals, writing, images, sounds, or intelligence of any nature, by means of electromagnetic waves of frequencies lower than 3,000 Giga-cycles per second, propagated through space without artificial guide

**Telecommunications** — any transmission, emission or reception of signs, signals, writing, images, sounds, or intelligence of any nature, by wire, radio, visual or other electromagnetic system

**Intervention** — a written statement submitted by any person (intervener) who is interested in any application for the purpose of supporting, opposing or modifying it

**Tariff** — any publication containing rates, charges, rules, regulations, conditions, specifications or requirements related in any way to the furnishing of telecommunications services or facilities, to any person, by a regulated company

## Access Procedures

All requests made to the CRTC under the *Access to Information Act* should be addressed to

Access to Information and Privacy Co-ordinator  
Canadian Radio-television and Telecommunications  
Commission  
Central Building, 7th Floor  
Les Terrasses de la Chaudière  
1 Promenade du Portage  
Hull, Québec  
K1A 0N2  
Telephone: (819) 994-5366

## Broadcasting Directorate

The directorate is responsible for carrying out the work of the Commission in all matters relating to the broadcasting industry.

## Broadcast Operations Branch

The branch is comprised of six units. The five regional units (Atlantic, Québec, Ontario, Prairies and Pacific and Northern) gather and analyze the information needed to issue, deny, amend, renew or revoke licences for a particular region. Applications are analyzed by specialists from various disciplines to ensure that policies are being addressed. In particular, broadcast programming proposals are reviewed and assessed for compliance with CRTC content and format

regulations. The sixth unit, Financial and Corporate Affairs, assesses the financial, economic, and ownership aspects of these proposals. It also determines suitable cable television subscription rates.

## Broadcast Policy Planning and Analysis Branch

The branch is responsible for exploring issues raised by programming policy and practice, for carrying out surveys among audiences, broadcasters and programmers, and for carrying out research that helps develop policies and regulations that affect programming on television, radio and cable community channels.

The branch advises the Commission on some operational aspects of the broadcasting industry, its policies and regulations. Issues may be studied by representations from the industry, the public, other agencies, or by the Commission's monitoring of the broadcasting system. This research helps to develop plans for new and alternative services to under-served regions of Canada, and it helps to develop suitable rate structures for cable television systems. The branch represents the Commission on interdepartmental and international committees concerned with broadcasting. It also assists the Commission in determining future broadcasting priorities and plans.

## Broadcast Operations Branch

This branch oversees the processing of broadcasting and cable applications and is responsible for the co-ordination of the overall licensing function of the Commission. It also performs monitoring and assessment tasks associated with advertising broadcast in Canada, ensures compliance with and enforcement of general programming regulations (such as Canadian content regulations) and individual performance promises made by television and radio stations.

## Commission Secretariat

This is the official point of contact between the Commission and the public. The secretariat co-ordinates Commission activities. Its secretary general accepts or rejects submissions on behalf of the Commission and releases CRTC public hearing schedules. The secretariat co-ordinates and prepares the minutes for these meetings. It is responsible for the Commission's procedures and for administering activities according to the broadcasting rules of procedures. The secretariat is also responsible for operations within Information Services and regional offices.

## Corporate Management Directorate

The directorate supervises the overall organization, management and central operations of the Commission. It also handles administrative tasks for Information Services.

## Corporate Information

The unit is responsible for the collection and dissemination of statistical and descriptive information of general interest to the Commission. It maintains an information inventory of both internal and external sources, and serves as a liaison with external bodies to encourage the exchange of useful information in the domains of broadcasting and telecommunications, and communications in general. It also co-ordinates all electronic data processing in the Commission.

## Finance and Management Services Branch

This branch provides financial, program planning, management, and administrative services to ensure the most effective operation of the Commission and the most cost-effective and efficient development and use of new services and facilities. It collects broadcast licence fees and helps to formulate licence fee regulations.

# CANADIAN RADIO-TELEVISION AND TELECOMMUNICATIONS COMMISSION

---

## Personnel Branch

The branch advises the Chairman and branch directors on all aspects of personnel and special program administration, such as Affirmative Action.

## Corporate Planning Co-ordination and Review Branch

This branch contributes to the annual estimates, performs internal audits (financial, compliance, operational), and it evaluates program effectiveness. It also studies and reviews regulatory reform.

## Administration and Special Services Branch

The branch provides a technical plant, and registrar and graphic services in order to monitor broadcasts.

## Telecommunications Directorate

The primary concern of this directorate is the regulation of telecommunications carriers under federal jurisdiction. It ascertains that rates are just and reasonable and that services and facilities are offered under proper conditions - without discrimination, undue preference or advantage. The three branches under the directorate assess tariffs and agreements filed for approval by carriers; assist the Commission in the development of regulatory policies, decisions and orders; and identify and analyze regulatory issues stemming from individual applications or major hearings.

## Economic and Social Analysis Branch

This branch analyzes individual tariffs, service cost, market structure; major regulatory issues, service quality and the social and economic effects of rate increases. Technical analysis is provided when assessing the carriers' construction programs and the depreciation, renewal and amortization of their equipment. It also offers technological advice.

## Financial Analysis Branch

This branch is concerned with the financial aspects of rate regulation and the carriers corporate activities; statistical analysis; accounting; and auditing carrier activities.

## Operations Branch

This branch plans and co-ordinates telecommunications staff agendas; receives and schedules applications; advises on proper procedure to applicants; and formulates, drafts and edits public notices, orders and decisions issued by the Commission. The branch is responsible for subscriber complaints and enquiries.

## Legal Directorate

The CRTC's general counsel and staff provide legal services to the Commission concerning the interpretation and implementation of the *CRTC Act*, and *Broadcasting Act*, the various acts on telecommunications, statutory instruments made pursuant to these acts, and the related federal and provincial legislation. Counsels advise the Commission of the legal implications of policy matters, conduct questioning, and advise on procedural matters at public hearings. They also make recommendations and carry out legal proceedings instituted by or against the Commission.

## Classes of Records

---

CRT/BRO-005 *Formerly Identified as:* CRTC-10  
**Canadian Program Recognition**

*Description:* Information on the recognition by CRTC of programs considered to be Canadian in content. *Topics:* Canadian content analysis; Canadian talent reports from media; programming production; program categories. *Retrievability:* Files arranged by call sign (broadcasting) and location (cable).

CRT/BRO-010 *Formerly Identified as:* CRTC-20  
**Political (Economic) Broadcasts**

*Description:* Information on political broadcasting. *Topics:* Reports on political broadcasting; election summary reports; correspondence on the coverage of political issues on radio and television. *Retrievability:* Files arranged by date of broadcast.

CRT/BRO-015 *Formerly Identified as:* CRTC-50  
**Advertising Content**

*Description:* Information on the content of advertising on radio and television. *Topics:* Complaints; program logs; Canadian content questionnaires; compliance with policies and regulation; pre-clearance of scripts; production houses; particular types of advertising — political, religious, advocacy, feminine hygiene. *Retrievability:* Files arranged by subject or licensee organization. *Storage Media:* Paper and computer tapes for programming logs.

CRT/BRO-020 *Formerly Identified as:* CRTC-60  
**Policy Evaluation and Regulation Development**

*Description:* Information on the development and evaluation of CRTC policies and regulations in the areas of broadcasting and cable television. *Topics:* Television regulations; radio regulations; FM policy; cable regulations; Canadian content; Canadian programming production; pay television; religious broadcasting; sports broadcasting; balance in programming; copyright; other policy issues of concern in the Commission. *Retrievability:* Files arranged by subject or by licensee.

CRT/BRO-025 *Formerly Identified as:* CRTC-80  
**Ownership of Broadcasting Undertakings**

*Description:* Information on the ownership history of radio, television and cable television undertakings. *Topics:* Principal shareholders and holdings; control; multiple ownership; administrators and executives; and security companies. *Retrievability:* Files arranged by licensee.

CRT/BRO-030 *Formerly Identified as:* CRTC-90  
**Technical Briefs**

*Description:* Technical information supplied to the Commission in the form of engineering briefs concerning the establishment of new, or modification to existing, radio and television stations. *Topics:* Applicant, station identification; location of transmitter; population and households covered by signal; channel frequency and power; signal interference; other relevant engineering data. *Retrievability:* Files arranged by medium and location.

CRT/BRO-035 *Formerly Identified as:* CRTC-100  
**Economics and Marketing**

*Description:* Marketing analyses of communities to assess the economic viability of new broadcasting undertakings in these communities. *Topics:* Demographics, audience statistics; financial and technical statistics on licensed stations in area; marketing analysis. *Retrievability:* Files arranged by location of community.

CRT/SEC-040 *Formerly Identified as:* CRTC-30  
**Processing of Applications**

*Description:* Information on broadcasting and cable applications. *Topics:* Public hearing decisions, notices; programming evaluations; program schedules; media visit reports. *Retrievability:* Files arranged by call sign (broadcasting) and location (cable).

# CANADIAN RADIO-TELEVISION AND TELECOMMUNICATIONS COMMISSION

---

CRT/SEC-045 *Formerly Identified as:* CRTC-40

## **Correspondence on Programming**

*Description:* Correspondence on programming between broadcasters, cable operators, the public and the Commission. *Topics:* Complaints, program schedules; applications, equipment surveys; community programming on cable; correspondence on programming in general. *Retrievability:* Files arranged by call sign (broadcasting) and location (cable).

CRT/SEC-050 *Formerly Identified as:* CRTC-170

## **Interventions**

*Description:* Information on interventions received by the CRTC to support, oppose or modify an application. *Topics:* Name, address and telephone number of intervenor (or his agent); text of intervention; and related correspondence. *Retrievability:* Files arranged by applicant name or by data and location of public hearing.

CRT/SEC-055 *Formerly Identified as:* CRTC-180

## **Broadcasting Decisions**

*Description:* Complete computerized index of all applications to the CRTC; also broadcasting and cable decisions. *Retrievability:* Files arranged by decision number, licensee name, public hearing location.

CRT/SEC-060 *Formerly Identified as:* CRTC-300

## **Intergovernmental Affairs**

*Description:* Correspondence between CRTC and other federal and provincial government departments. *Topics:* Cable matters; telecommunications information; common carriers; official languages. *Retrievability:* Files arranged by government department.

CRT/COR-065 *Formerly Identified as:* CRTC-70

## **Financial and Operating Statistics and Licensees**

*Description:* Financial information and other operating statistics submitted on an annual basis by licensees in forms known as Annual Returns, collected under the *Statistics Act*. *Topics:* Ownership; management officers; income statements — revenues, expenses and profits; balance sheets; assets; depreciation; debt and equity securities; monthly cable rates and installation charges; subscriber counts and operating statistics on cable television. *Retrievability:* Files arranged by call sign and medium.

CRT/COR-070 *Formerly Identified as:* CRTC-150

## **Research Grants and Contributions**

*Description:* Information on applications for research grants and contributions. *Topics:* Name and address of applicant; outline of objectives of project; operational plan for carrying out the project; breakdown of total resources required; other sources of funding; period over which project extends; ultimate benefits to be derived from the project; referee report prepared by a research branch member.

CRT/COR-075 *Formerly Identified as:* CRTC-160

## **Research Documentation**

*Description:* Documentation on broadcasting and telecommunications. *Topics:* Acts of Parliament; advertising; air of death; annual reports; audience analysis; bibliography; British Broadcasting Corporation (BBC); broadcasting; Bureau of Broadcast Measurement (BBM); cable; Canadian Broadcasting Corporation (CBC); Canadian content; Canadian culture; CRTC; children; cinema; communications; community stations; consumerism; content analysis, content hearings; educational television; U.S. Federal Communications Commission (FCC); fiction; Frye, Northrop; Grierson, J.; history of broadcasting; Innis, H.A.; leisure; "Market Facts"; miscellaneous monitoring; multiculturalism; music and record industry; National Film Board (NFB); Ontario Educational Communications Authority (OECA); Ontario Institute for Studies in Education (OISE); pay TV; policy; population; press; printing; production industry; program types; radio; reference; satellites; senior citizens; sociology; speeches; Spry, G.; systems; technology;

telecommunications; television; Television Assessment Program (TAP); video production; violence and women. *Retrievability:* Files arranged by author's name and subject matter. *Storage Medium:* Video tapes.

CRT/COR-080 *Formerly Identified as:* CRTC-200

## **Commission Proceedings**

*Description:* Information on Commission proceedings dealing with broadcasting and telecommunication matters. *Topics:* Public notices; public announcements; decisions; circular letters; telecommunications orders; and public hearing transcripts. *Retrievability:* Files arranged by applicant, date, and location of public hearing. *Storage Medium:* Public hearing transcripts available on microfilm.

CRT/COR-085 *Formerly Identified as:* CRTC-210

## **Statistical Information**

*Description:* Information on all aspects of broadcasting and telecommunications in Canada. *Topics:* AM and FM radio; television and cable television; advertising; licensing; programming; pay television; telephone services; telecommunications carriers; communications satellites; demographics.

CRT/COR-090 *Formerly Identified as:* CRTC-290

# CANADIAN SECURITY INTELLIGENCE SERVICE

---

## Background

The Canadian Security Intelligence Service (CSIS) became a government institution on July 16, 1984, with the proclamation of relevant portions of the *Canadian Security Intelligence Service Act*. Formerly, some of its functions were carried out by the Royal Canadian Mounted Police (Security Service). In accordance with the *Canadian Security Intelligence Service Act*, the director, under the direction of the Minister, has the control and management of the Service and all matters connected therewith.

## Overall Responsibilities

The Canadian Security Intelligence Service operates pursuant to the *Canadian Security Intelligence Service Act*. It collects, analyzes and retains information and intelligence respecting activities that may, on reasonable grounds, be suspected of constituting threats to the security of Canada, and reports to and advises the Government of Canada in relation to these matters.

The Service also plays a role in providing security assessments to departments of the Government of Canada (as described in Cabinet Directive 35 dated December 18, 1963) and may provide security assessments to the government of a province or any department thereof; to any police force in a province; to the government of a foreign state or institution thereof; or to an international organization of states or institutions thereof. As well, the CSIS may advise any Minister of the Crown on matters relating to the security of Canada, or provide any Minister of the Crown with information relating to security matters or criminal activities which may be relevant to the exercise of any power or the performance of any duty or function by that Minister under the *Citizenship Act* or the *Immigration Act*, 1976. It may also conduct such investigations as are necessary in order to provide security assessments or advice to ministers.

Further, the Service may, in relation to the defence of Canada or the conduct of international affairs, assist the Minister of National Defence or the Secretary of State for External Affairs, within Canada, in the collection of information or intelligence relating to the capabilities, intentions or activities of any foreign state or group of foreign states or any person other than a Canadian citizen or permanent resident, or corporation.

The Canadian Security Intelligence Service maintains its headquarters in the National Capital Region.

## General Enquiries

Individuals wishing to make general enquiries on CSIS, when actual records are not required, are requested to contact

Canadian Security Intelligence Service  
Liaison Offices  
Telephone: (613) 993-9620

## Publications

### Manuals

- Administration Manual
- Operational Manual
- Personnel Administration Manual

Because CSIS was created on July 16, 1984, most functions of the Service will be guided by RCMP manuals until new ones are created.

### Subsidiary Manuals

- Immigration Manual
- Communications Security Handbook
- Technical Aids, Policy and Procedures

## Access Procedures

Applicants should note that information previously held by the RCMP Security Service has been substantially transferred to the control of CSIS. Information holdings on all classes of records are within the functional activity of the Deputy Director, Services.

Enquiries and access requests should be addressed to

The Director  
Canadian Security Intelligence Service  
P.O. Box 9732  
Station Terminal  
1200 Alta Vista Drive  
Ottawa, Ontario  
K1G 4G4

**Attention:** Departmental Access Co-ordinator  
Telephone: (613) 993-1159

## Classes of Records

---

SIS/DDS-005 *Formerly Identified as:* SIS-010 (B)  
**Security Assessments**

*Description:* Information on matters affecting the administration, policy, statistics and management functions regarding security assessment programs, authorized by Section 13 of the *Canadian Security Intelligence Service Act* and Cabinet Directive 35, conducted by the Service. This includes policy development, research, and statistics relating to the program where an appraisal is made of an individual's loyalty to Canada and insofar as it is related, of the reliability of that individual; arrangements with the government of a province or a department thereof, or any police force in a province to provide security assessments; arrangements with the government of a foreign state, international organization of states or any institution thereof to provide security assessments. Information is also held in respect to policy and procedures to provide advice for citizenship and immigration programs in accordance with Section 14 of the *Canadian Security Intelligence Service Act*. *Topics:* Policy development, co-operation and liaison with government agencies (domestic and foreign). *Retrievability:* Files are arranged by topic. *Storage Media:* Hardcopy and/or EDP systems.

SIS/DDS-010 *Formerly Identified as:* SIS-020 (B)  
**Counter-intelligence, Counter-terrorism, Counter-subversion**

*Description:* Information on past, current, and projected threats to the security of Canada as defined in the *Canadian Security Intelligence Service Act*; briefly, espionage or sabotage that is against or is detrimental to the interest of Canada; or, activities directed toward or in support of such activity; foreign influenced activities within or relating to Canada that are detrimental to the interest of Canada, and are clandestine or deceptive, or involve a threat to any person; activities within or relating to Canada directed toward or in support of the threat or use of acts of serious violence against persons or property for the purpose of achieving a political objective within Canada or a foreign state; and, activities directed toward undermining by covert lawful acts, or directed toward or intended ultimately to lead to the destruction or overthrow by violence of the constitutionally established system of government in Canada. *Topics:* Organizations and groups engaged in the above activities, threat assessments, emergency measures and contingency plans. *Retrievability:* By topic, group or organization. *Storage Media:* Hardcopy, EDP or microfiche.

SIS/DDS-015 *Formerly Identified as:* SIS-030 (B)  
**Communications Security**

*Description:* Information on the evaluation and need for secure communications and the selection, installation and maintenance of communication security equipment. *Topics:* Planning and research of cryptographic equipment; training of personnel; liaison with other

## CANADIAN SECURITY INTELLIGENCE SERVICE

---

government departments and countries; acquisition, installation, and maintenance of cryptographic and other high security communication equipment; technical standards and operational procedures of communication security (Comsec) equipment; electromagnetic interference (EMI) evaluations and specifications; and Comsec Policy and Guidelines. *Retrievability:* Files are arranged by activity, program or project.

SIS/DDS-020 *Formerly Identified as:* SIS-040 (B)

### **Sources of Information**

*Description:* Information on the administration, policy and management functions of all human source operations. *Topics:* Policy development and management of sources. *Retrievability:* Accessible by topic. *Storage Media:* Hardcopy, microfiche or EDP systems.

SIS/DDS-025 *Formerly Identified as:* SIS-050 (B)

### **Internal Security**

*Description:* Information on all aspects of administering a security program, including management, supervision, co-ordination and audit of personnel and physical security programs to ensure that standards are established and maintained. *Topics:* Policy; security reports; statistics; security surveys; security briefings; personal and property security; investigations and breaches of security. *Retrievability:* Files arranged by topic. *Storage Media:* Hardcopy and/or EDP systems.

SIS/DDS-030 *Formerly Identified as:* SIS-060 (B)

### **Scientific, Technical and Operational Support**

*Description:* Information on matters affecting the administration, policy, statistics and management functions regarding technical, electronic and telecommunications support to CSIS investigations, through the provision of equipment and expertise in the field of audio, visual or physical surveillance, and also the voice identification

program. *Topics:* Research, development and acquisition of technical equipment; voice identification analysis and multilingual translation services; the procedures and documentation necessary to the obtaining of warrants, pursuant to Section 16 of the *Official Secrets Act* and Section 21 of the *Canadian Security Intelligence Service Act*, to lawfully intercept communications. There may be limited information regarding security engineering and security systems. *Retrievability:* Files are arranged by project or topic. *Storage Media:* Microfilm, hardcopy and EDP systems.

SIS/DDS-035 *Formerly Identified as:* SIS-070 (B)

### **Policy and Research — Access to Information and Privacy Acts**

*Description:* Information on policy and research for existing and proposed legislation in the areas of record collection, use, disclosures and exemptions. *Topics:* Access to Information and Privacy Acts (Chapter 111, the Revised Statutes of Canada); general correspondence; foreign and provincial privacy and access legislation; liaison with other government institutions; and statistics. *Retrievability:* Records are held by subject matter. *Storage Medium:* Hardcopy.

SIS/DDS-040 *Formerly Identified as:* SIS-080 (B)

### **Corporate Planning**

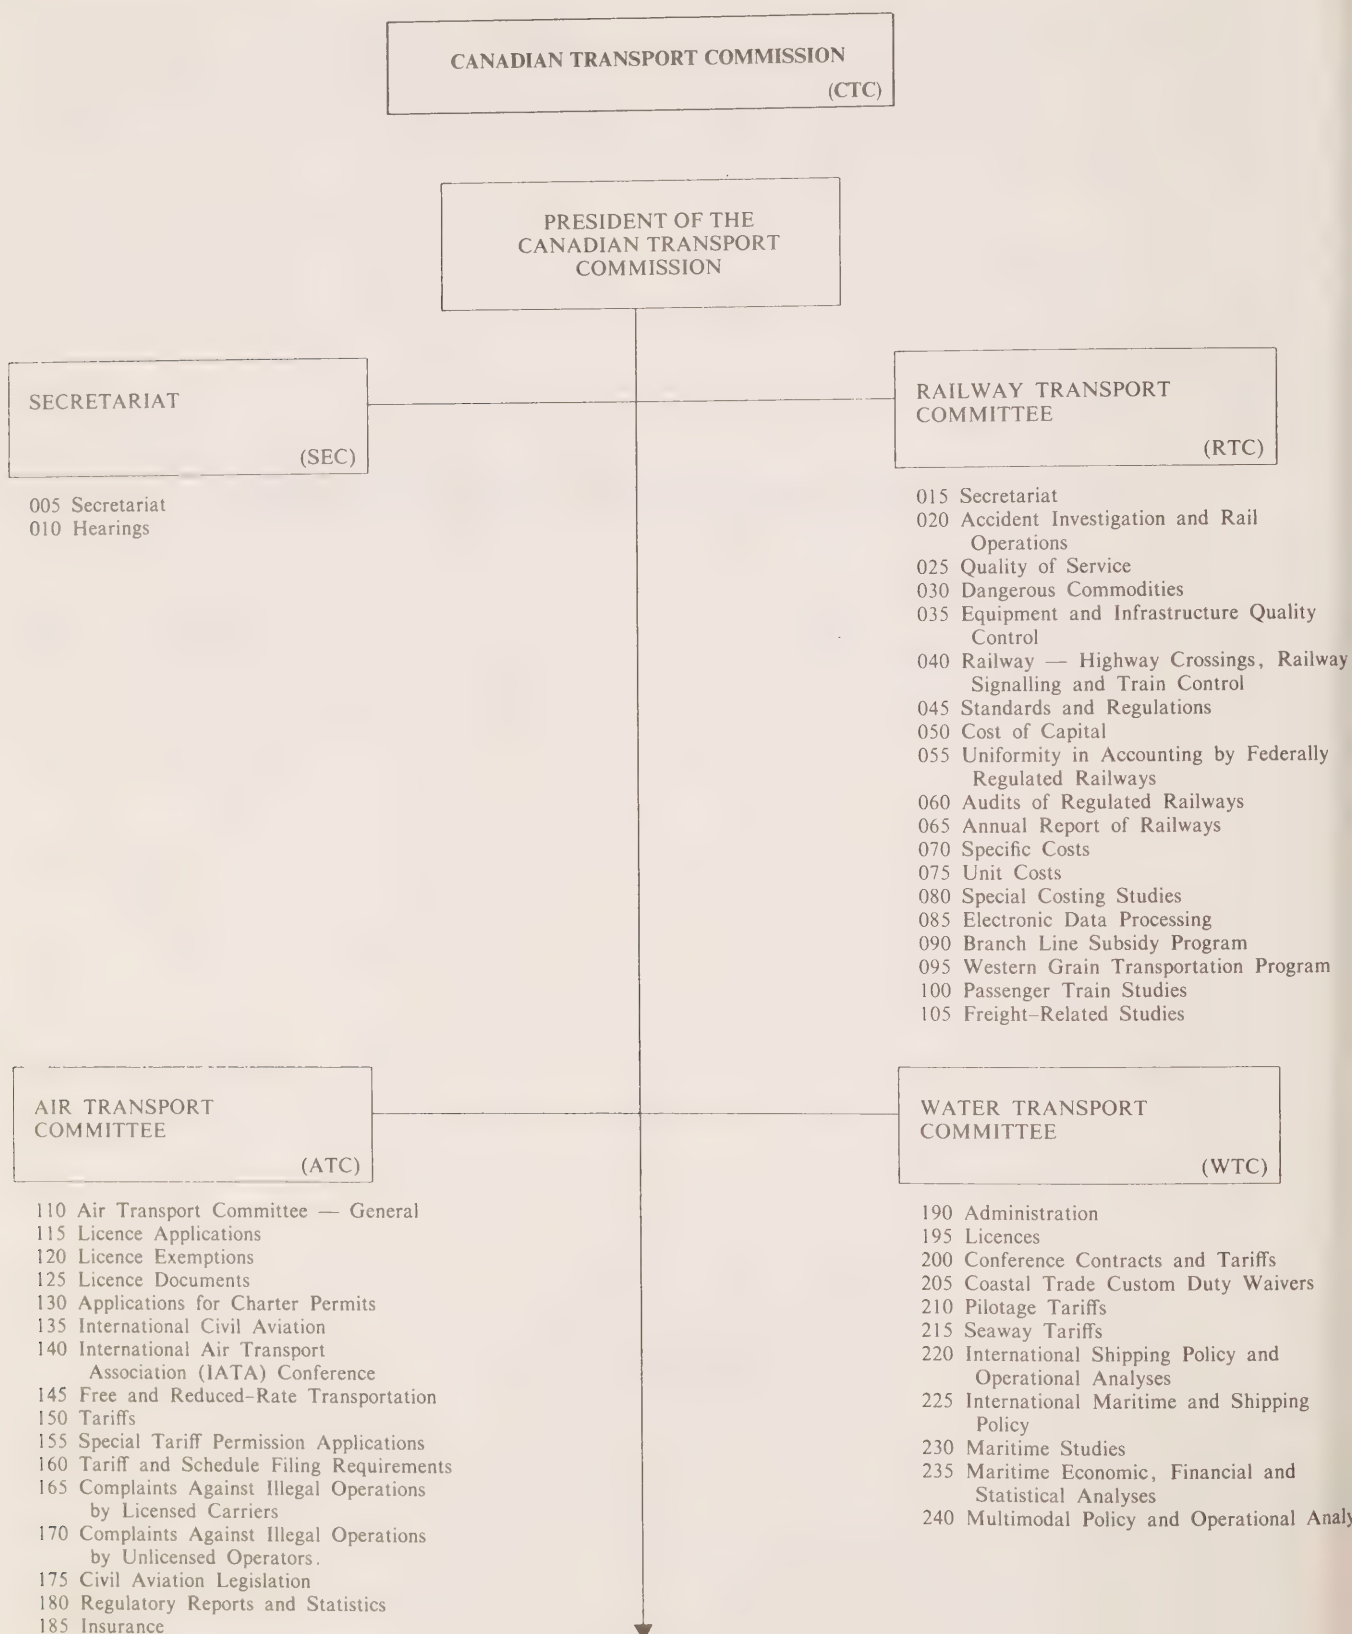

*Description:* Information on matters relating to policy planning and co-ordination of CSIS activities prepared for the director and senior management. *Topics:* Planning and accountability reporting of CSIS activities; briefing for CSIS meetings held internally, interdepartmentally and internationally; ministerial correspondence; Housebook cards; special projects and correspondence as required by the director; creation and amendment to CSIS policy and directives. *Retrievability:* Records are held by subject matter. *Storage Media:* Hardcopy and/or EDP systems.

# **CANADIAN TRANSPORT COMMISSION**

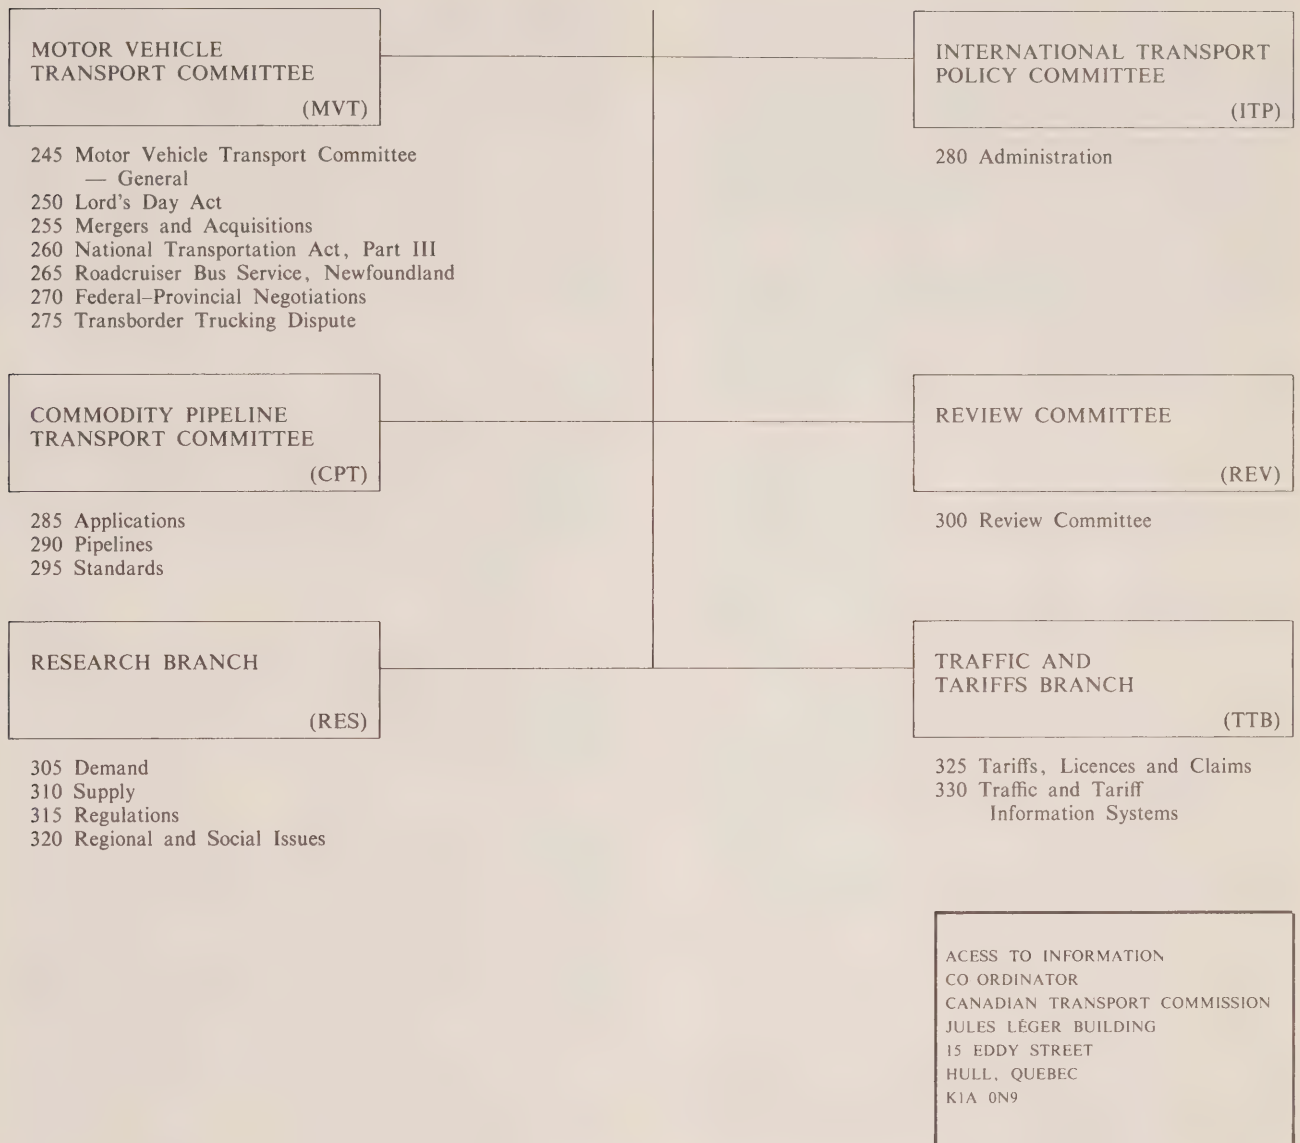

## **Chapter 28**

# CANADIAN TRANSPORT COMMISSION

# CANADIAN TRANSPORT COMMISSION

## Background

The Canadian Transport Commission (CTC) regulates transportation in Canada that is under federal jurisdiction. Established by the *National Transportation Act* on September 19, 1967, it succeeded and absorbed the Board of Transport Commissioners for Canada, the Air Transport Board, and the Canadian Maritime Commission. In accordance with an earlier Cabinet decision, the Western Division was established in May 1979 in Saskatoon, Saskatchewan, to enable the Canadian Transport Commission to have a more visible presence in western Canada and to provide more direct access to and develop easier, more effective communication with the western community.

## Laws and Regulations

- National Transportation Act
- Railway Act
- Aeronautics Act
- Transport Act
- Canadian National Railway Act
- Government Railway Act
- Maritime Freight Rates Act
- National Energy Board Act
- St. Lawrence Seaway Authority Act
- Ferries Act
- Shipping Conferences Exemption Act, 1979
- Pilotage Act
- Atlantic Region Freight Assistance Act
- Railway Relocation and Crossing Act
- Energy Supply Emergency Act
- Canada Shipping Act
- Transportation of Dangerous Goods Act
- Safe Containers Convention Act
- Western Grain Transportation Act
- CTC General Rules
- Air Carrier Regulations
- Pilotage Authority — Tariff Regulations
- Atlantic Regional Special Transportation Assistance Regulations
- Atlantic Region Special Selective and Provisional Assistance Regulations and Amendments
- Coasting Trade Exemption Regulations
- Railway Regulations

## Overall Responsibilities

The Canadian Transport Commission's objective is to promote the co-ordination and harmonious interaction of all operations by carriers engaged in transport under federal jurisdiction, through effective economic regulation, research and participation in policy development. With respect to rail transport, the Commission's objective is to foster the development of safety regulations consistent with the public interest.

The CTC performs all the functions vested in it by the *National Transportation Act*, the *Railway Act*, the *Aeronautics Act*, the *Transport Act*, and other statutes. It is a court of record, and its decisions, though binding, are subject to appeal to the Federal Court of Canada on questions of law or jurisdiction and, in other cases, to its own Review Committee, the Minister of Transport or the Governor-in-Council.

## Organization

The Commission consists of a maximum of 17 commissioners, including a president, one vice-president responsible for law and the work of the committees, and one vice-president responsible for study and research programs. All are appointed by the Governor-in-Council.

The powers and duties of the Commission are assigned on the basis of committees and branches. There are seven committees, five of which regulate each of the different transport modes — air, rail, water, motor vehicle, and commodity pipeline. The sixth committee deals with review and appeals, while the seventh is concerned with international transport policy matters. The branches specialize in traffic and tariffs, research, and departmental administration.

## General Information

Information on the different publications produced by the Canadian Transport Commission, major decisions issued and details on general Commission operations can be obtained by contacting

Canadian Transport Commission  
Communications Branch  
19th Floor  
Jules Léger Building  
15 Eddy Street  
Hull, Québec  
K1A 0N9  
Telephone: (819) 997-0344

## Major Publications

- Annual Report
- Orders and Decisions
- Research Reports on Major Studies
- Canadian Transport Commission Reports
- Air Carrier Regulations
- Commodity Flow Analysis: Domestic and Canada-U.S.

## Access Procedures

Formal requests under the *Access to Information Act* should be forwarded to

Access to Information Co-ordinator  
Canadian Transport Commission  
Jules Léger Building  
15 Eddy Street  
Hull, Québec  
K1A 0N9  
Telephone: (819) 994-2564

## Secretariat

The Secretariat is responsible for duties as defined in Section 11 of the *National Transportation Act* and include among other things, keeping a record of all Commission proceedings and making sure that the regulations and orders of the Commission are duly drawn up, signed, sealed and filed.

It also ensures that pleadings before the Review Committee are properly serviced, prepares background material, communicates Committee decisions to concerned parties and takes minutes of meetings.

## Hearing Processing Section

This section ensures that all necessary arrangements for conducting the Commission's public hearings and enquiries throughout Canada

# CANADIAN TRANSPORT COMMISSION

are made, confirmed and communicated to the appropriate officers of the Commission.

## Documents and Publications Processing Section

This section co-ordinates the printing and distribution of all Commission orders, decisions and special reports, as requested. Copies of orders and decisions can be obtained by contacting

Canadian Transport Commission  
Documents and Publications Section  
Jules Léger Building  
15 Eddy Street  
Hull, Québec  
K1A 0N9  
Telephone (819) 997-6393

## Communications Branch

This section provides information on the different publications produced by the Canadian Transport Commission, including major decisions issued and details on general Commission operations and decision-making processes. It also edits the Commission's publications and co-ordinates the printing of documents.

## Library

The library supports the information and research requirements of the Commission's staff, although its collection is available to the public for consultation by appointment. It also maintains a collection of monographs, serials, periodicals and microforms in the fields of law, economic regulation and transportation economics and statistics.

## Western Division

The Western Division is responsible for carrying out the related regulatory and administrative functions vested in the Canadian Transport Commission by the appropriate federal statutes, along with specific programs and projects delegated by the respective modal committees, in that area of Canada from Thunder Bay, Ontario to Vancouver Island. Major areas of responsibility include the rail branch line rehabilitation program and abandonment matters, railway-highway crossings, licensing of commercial air services, specific accident investigations and traffic and tariff matters including complaints regarding common carrier obligations and freight rates published under the *Western Grain Transportation Act*.

The Western Division, with its headquarters in Saskatoon, provides a direct link between the Commission and local and provincial governments, industry, carriers, and the users of transportation in general in western Canada. The division also functions as the Commission's information resource centre in western Canada.

## Railway Transport Committee

The Railway Transport Committee regulates rail transportation under the jurisdiction of the federal government pursuant to the *National Transportation Act*, the *Railway Act*, the *Railway Relocation and Crossing Act* and the *Western Grain Transportation Act*. The regulatory activities of the committee cover both technical and economic aspects of railway operations.

In the technical area, its major regulatory activity concerns rail safety under five broad categories: accident investigation; equipment and infrastructure quality control monitoring; regulation and compliance in the movement of dangerous commodities by rail; rail-highway crossings; and the development of standards. Its second major activity in the technical area is to ensure an adequate quality of service through the monitoring of passenger services, branch line abandonment applications, approval of new track construction,

examination of applications for the consolidation of local stations and dealing with complaints put forward by freight shippers, railway passengers and railway labour organizations.

In the area of economic regulation, the committee is responsible for auditing the accounts of Canadian railways under federal jurisdiction; for the analysis and development of railway methods of costing; for the determination of subsidy payments under the *Railway Act*; and for auditing charges made by the railways to VIA Rail. The committee is also responsible for economic regulation of rail tariffs, but this is administered by the Commission's Traffic and Tariffs Branch.

Committee staff at headquarters is organized into three branches: technical regulation is carried out by the Operations Branch and the Engineering Branch. The Rail Economic Analysis Branch is responsible for the accounting, costing and subsidy activities. The committee has six regional offices in Moncton, Montréal, Toronto, Winnipeg, Calgary and Vancouver.

## Operations Branch

This branch is responsible for four areas of technical regulation: accident investigation, dangerous commodities, quality of service and operations monitoring.

### Manuals

- Program Procedures Manual — guidelines and procedures for use of branch officials

## Engineering Branch

This branch is responsible for three areas of technical regulation: equipment and infrastructure quality control monitoring, railway-highway crossings, and standards and regulations.

### Manuals

- Operating, Specification and Procedures Manuals — guidelines to municipalities and railways to assist in preparation of applications

## Rail Economic Analysis Branch

This branch is responsible for railway accounting, costing, and the economics of specific services, including subsidy administration.

### Manuals

- CN and CP Costing Manuals
- Internal Procedures Manuals
- Advance Payment Regulations
- Railway Costing Regulations

## Air Transport Committee

Under the *National Transportation Act*, the Air Transport Committee administers Part II of the *Aeronautics Act* which concerns the economic regulation of commercial air services within, to and from Canada. The committee is responsible for licensing air carriers, ensuring that tariffs are just and reasonable, and investigating allegations of illegal commercial air service activities.

The committee formulates the Air Carrier Regulations, provides advice to the Minister on international air service agreements and conducts surveys or investigations at the request of the Minister or on its own initiative.

The consumers' interests are addressed in the analysis of applications for licences, in the assessment of tariffs, and in the investigation of complaints.

The staff of the committee is organized into six branches: the

# CANADIAN TRANSPORT COMMISSION

Administration Branch, which includes the office of the executive director and the secretariat; the Regulatory Analysis Branch, comprising the audit, financial analysis, economic analysis, operational analysis and policy advisory divisions; the International Air Transport Branch; Enforcement Branch; Licensing Branch; and Tariffs Branch.

## Manuals

- Distance manuals
- Airport codes and locations manual
- General information and instructions for applying for a licence to operate a Canadian commercial air service
- General guide for the preparation and filing by foreign applicants of applications to operate commercial air services and of applications for renewal, suspension, cancellation or amendment of licences
- Uniform System of Accounts for Commercial Air Carriers
- Directory of Canadian Commercial Air Services
- Administrative Procedures of the Air Transport Committee
- Instructions concerning the allocation of revenues and costs to routes
- Instructions concerning the allocation of revenues and costs to sub-systems
- International Air Transport Association (IATA) Manuals: IATA live animals regulations; ULD (Unit Lifting Device) technical manual; restricted articles regulations

## Water Transport Committee

The functions of the Water Transport Committee are derived from the jurisdiction conveyed by the legislation described below. Because of its direct regulatory relationship and involvement with the industry and those it serves, the committee is also required, either by response to a request from the Minister or on its own initiative, to advise and contribute to the development of new or amended government policies.

Under the *Transport Act*, the committee issues or amends, upon application, annual licences to carriers proposing to provide services by water in the Mackenzie River and western Arctic regions and for the carriage of passengers and goods, other than in bulk, on the Great Lakes.

Under the *Shipping Conferences Exemption Act*, 1979, which exempts certain shipping conference practices from the provisions of the *Combines Investigation Act*, the committee is required to receive, verify, record and maintain for public scrutiny the large number of original or amended contracts, agreements and tariffs issued by the 44 conferences serving Canadian external trades, and to report to Parliament annually on its administration of the Act.

Under the terms of the current Coasting Trade Exemption Regulations, pursuant to Section 665 of the *Canada Shipping Act* and Section 22 (3)(b) of the *National Transportation Act*, the committee is required to advise the Minister of National Revenue when an application or an enquiry is received for an exemption from customs duties of a foreign flag vessel to be used in a Canadian coastal trade.

Under the *Pilotage Act*, the committee is required to hear appeals against amendments to tariffs approved and published by the Atlantic, Laurentian, Great Lakes and Pacific Pilotage Authorities.

Under the terms of Section 27 of the *National Transportation Act*, the committee, upon receipt of an objection submitted in response to a public notice, is required to conduct an investigation, which may include a public hearing, of an acquisition by a company engaged in an aspect of water transportation subject to the jurisdiction of Parliament, or of the interest in a business or undertaking of any person whose principal business is transportation.

Under the terms of Section 22 and 23 of the *National Transportation Act*, the committee, on its own initiative or in response to requests from the Minister under Section 22 and in response to complaints or applications under Section 23, is required to conduct enquiries, investigations or studies into the wide variety of shipping matters that fall within or touch upon its regulatory purview and, under Section 22, to contribute to the development and presentation of government policy initiatives and the preparation of responses to the policy initiatives of other governments or international intergovernmental organizations.

Under the *St. Lawrence Seaway Authority Act*, the committee is required to consider complaints of unjust discrimination in tariffs, report its findings and receive for filing all tariffs and amendments published by the Authority.

Under Section 27 of the *Energy Supplies Emergency Act*, the committee can be required to order any Canadian ship to be used, when necessary, for emergency purposes, to ensure adequate supplies of energy products. Foreign-owned ships could also be used when no Canadian ship is available.

The committee is served by an executive director, a Secretariat and Administration Branch, a Merchant Shipping Branch, an International Maritime Transport Branch, and a Multimodal and Maritime Economics Branch.

## Merchant Shipping Branch

This branch administers the licencing provisions of the *Transport Act*, conducts searches for suitable Canadian ships in response to entry applications from foreign ships into the coasting trades, and administers the *Shipping Conferences Exemption Act* and matters arising from the *Pilotage Act*.

## International Maritime Transport Branch

This branch monitors the international shipping industry. It analyzes the economic impact of international multilateral and bilateral agreements and of developments in international shipping or Canadian shipping services.

## Multimodal and Maritime Economics Branch

This branch provides economic and financial advice, including applications for licences under the *Transport Act* and foreign vessel entry into the coasting trade, enquiries relating to proposed acquisitions, and examination of proposed tariff changes under the *Pilotage Act* and the *Transport Act*.

## Motor Vehicle Transport Committee

This committee is engaged in processing and ruling on applications from motor vehicle carriers for the transport of goods on Sundays as authorized by the *Lord's Day Act*. It also administers Section 27 of the *National Transportation Act* as it applies to the acquisition of bus or truck companies by any other companies subject to the jurisdiction of the Parliament of Canada. The Supreme Court of Canada has declared (April 24, 1985) that the *Lord's Day Act* has no force and effect. Until further notice, the committee will no longer issue Lord's Day authorizations.

Part III of the *National Transportation Act* establishes direct federal regulation of extra-provincial commercial motor transport. This part was proclaimed by the Governor-in-Council in 1970. It is not in effect, except for the CN Roadcruiser bus service in Newfoundland, which by Order-in-Council came under the jurisdiction of the committee in August, 1976.

In addition, the Traffic and Tariffs Branch of the Commission administers the *Atlantic Region Freight Assistance Act* on behalf of

# CANADIAN TRANSPORT COMMISSION

---

the committee. Under this Act, subsidy payments are made to designated carriers for freight transported within and out of the Atlantic provinces. Common carrier truckers are included in this designation.

The committee comprises a single administrative branch, which includes the chairman, as chief executive officer, the executive director and the secretariat.

## International Transport Policy Committee

Under the terms of the *National Transportation Act*, this committee is required to participate in the work of intergovernmental or international organizations; formulate or recommend policy; investigate, examine and report on the economic effects and requirements resulting from participation in or ratification of international agreements; consult with other departments or agencies of the Government of Canada; and participate in the negotiation of international agreements.

The committee is served by an executive director, a Secretariat and Administration Branch, the International Air Transport Branch of the Air Transport Committee, the International Water Transport Branch and Multimodal and Maritime Economics Branch of the Water Transport Committee.

## Commodity Pipeline Transport Committee

The Commodity Pipeline Transport Committee has jurisdiction over all commodity pipelines that cross provincial, international or territorial borders, regardless of the pipelines' size or length. It draws its authority from Part II of the *National Transportation Act*. If the commodity pipeline also transports crude oil or natural gas, as defined in the *National Energy Board Act*, it is termed a "combined pipeline", and jurisdiction may be shared with the National Energy Board.

Under the law, the committee conducts its business mainly through the medium of public hearings. Its principal function is to deal with applications by commodity pipeline companies for a certificate of public convenience and necessity to construct and operate such a system; the acquisition or abandonment of commodity pipelines; the filing, disallowance, substitution or prescription of tariffs; and the resolution of related disputes and public interest matters. In addition, the committee makes standards, procedures, rules and regulations, under the provisions of the *National Transportation Act*, to facilitate the smooth and efficient conduct of its duties.

The committee also acts as an advisory and information source to other federal and provincial government departments and agencies, to industry and to the public in matters of the development, operations and statistics related to commodity pipelines.

## Review Committee

This committee is responsible, pursuant to Section 63 of the *National Transportation Act*, for matters arising out of applications made for a review of a Commission order or decision, or when the Minister of Transport, on appeal from a decision or order, directs that a review be carried out.

The committee is made up of the chairmen of the modal committees, with the Commission vice-president as chairman. However, a committee member will refrain from sitting in review of a decision or order in which he or she participated earlier. The secretary of the Commission also acts as secretary to the Review Committee.

## Research Branch

The role of this branch is to provide research support to the Commission and its committees, to respond to requests from Transport Canada, and to carry out relevant anticipatory studies as

required under various provisions of the *National Transportation Act*. It is headed by an executive director and comprises four sections: freight studies, passenger transport studies, transport industries analysis, and economic and social research.

The freight studies section deals with movements of bulk commodities and agricultural products, primarily by rail and commodity pipelines. The passenger transport studies section specializes in airline research projects, international air transport, and passenger transport by other modes. The transport industries analysis section concentrates on marine economics, shipping issues, multimodal transport and trucking. Finally, the economic and social research section undertakes projects requiring professional expertise in economics, statistics and sociology and acts as a support group in these areas.

## Traffic and Tariffs Branch

This branch reports to the vice-president of the Research Branch (and to modal committees on specific modal matters), and has the overall responsibility for traffic and tariff matters for road, rail and water under the *Transport Act*. In addition to its responsibility for the functions of the two divisions listed below, this branch consults with, provides advice to and works on joint projects with Transport Canada on potential and proposed dealings with rail freight and the Atlantic Region Subsidy Program.

### Tariffs and Subsidies Control Division

This division ensures that all tariffs and tolls are compiled, issued and filed by carriers in accordance with the provisions of the *Railway Act*, the *Transport Act*, the *National Transportation Act* and the Canadian Transportation Commission Regulations. It administers the Atlantic Region Freight Assistance Program in accordance with the *Maritime Freight Rates Act* (MFRA) and the *Atlantic Region Freight Assistance Act* (ARFAA) and Regulations, and verifies claims on export grain and flour transportation under Section 272 of the *Railway Act*.

### Traffic and Tariff Studies Division

This division conducts programs of investigation and analysis on statutory responsibilities, investigates and analyzes transportation matters that could be prejudicial to the public interest, and carries out economic studies of major issues affecting the transportation industry. In addition, it maintains a computerized rail and highway freight traffic database; publishes statistical reports of railway traffic flows; maintains a standard point location coding system; and investigates formal and informal complaints on passenger fares and railway freight rates, conditions of travel and carriage, and levels of rates and service.

### EDP Systems

- Database of traffic statistics based on rail movements within Canada, and between Canada and the United States — printout formats, computer tape, annual summary
- Database of traffic statistics based on truck movements (Atlantic provinces)
- System of standard shipping points, jointly managed by the Traffic and Tariffs Branch and the Canadian Freight Association (CFA), but marketed by the CFA to users in Canada and the United States

# CANADIAN TRANSPORT COMMISSION

## Classes of Records

CTC/SEC-005 *Formerly Identified as:* CTC-10

### Secretariat

*Description:* Amendments to regulations approved by the Commission; also ministerial correspondence, judgments of the Minister on appeal of CTC's decisions and orders as defined in the *National Transportation Act*, and Orders-in-Council affecting Commission activities.

CTC/SEC-010 *Formerly Identified as:* CTC-20

### Hearings

*Description:* Transcripts of evidence, the verbatim written record of the Commission's public hearings and enquiries; exhibits, documents filed with the Commission during the public hearings and enquiries in support or rebuttal of oral evidence given by the witnesses; operating files, files used by the section on an ongoing basis regarding the arrangements of public hearings.

CTC/RTC-015 *Formerly Identified as:* CTC-50

### Secretariat

*Description:* Information on Railway Transport Committee secretariat services. *Topics:* Orders-in-Council to appoint inspecting engineers; Agent's Book — list of railway company agents located in Ottawa; minutes of meetings; orders and decisions.

CTC/RTC-020 *Formerly Identified as:* CTC-60

### Accident Investigation and Rail Operations

*Description:* Correspondence and reports on accidents involving railways under the jurisdiction of the CTC; also the handling and operation of trains. *Topics:* Accident reports; train operation monitoring reports; policy and special issue complaints; gateway inspections; and occupational safety and health for train employees.

CTC/RTC-025 *Formerly Identified as:* CTC-70

### Quality of Service

*Description:* Correspondence, reports and information on the adequacy and quality of passenger train services and related facilities provided to the general public. *Topics:* Passenger train services and related facilities; rationalization of services — abandonment of lines, removal of agents and stations; complaints; policy and special issues.

CTC/RTC-030 *Formerly Identified as:* CTC-90

### Dangerous Commodities

*Description:* Information on various aspects of transportation of regulated commodities involving federal, provincial and foreign governments and private industry. *Topics:* Accidents; chemicals; containers and packaging; explosives handling; bulk storage regulations and special permits.

CTC/RTC-035 *Formerly Identified as:* CTC-80

### Equipment and Infrastructure Quality Control

*Description:* Correspondence, reports and information on branch activities in the assessment of railway rolling stock and the inspection and evaluation of the railway infrastructure. *Topics:* Railway rolling stock; track and right-of-way; bridges; policy and special issues; complaints.

CTC/RTC-040 *Formerly Identified as:* CTC-100

### Railway-Highway Crossings, Railway Signalling and Train Control

*Description:* Information on railway-highway crossings, railway signalling and train control; includes guidelines and directives to the Canadian Transport Commission regional offices, to municipalities and to railways to assist in the preparation of applications for construction. *Topics:* Railway-highway crossings — applications for construction and modifications related to safety projects at railway-highway crossings, applications for grants, regional diagnostic reports on applications, recommendations, directives and guidelines, processing of grants, construction and modification plans; construction orders; railway signalling and train control — applications for the installation and modifications of train signal and

control systems, investigation reports and recommendations, approval reports, construction and operating orders, directives.

CTC/RTC-045 *Formerly Identified as:* CTC-110

### Standards and Regulations

*Description:* Information on the development of new and revised regulations aimed primarily at railway safety, which cover the operation, inspection and maintenance of rolling stock, heating and power boilers, railway pipe and wire crossings and crossings at grade, grade separations, warning devices at railway-highway crossings, block signals, railway traffic control signal systems, pipeline crossings, bridges over navigable waters, preparation of accounts for crossing qualification standards, occupational safety and health for train employees, radio communication and environmental protection. *Topics:* Ad hoc committee reports; CTC enquiries and public hearings; federal, provincial and municipal agencies; labour organizations; railway companies; Railway Safety Advisory Committee; regulations; standards; technical committee reporting to the Railway Safety Advisory Committee.

CTC/RTC-050 *Formerly Identified as:* CTC-120

### Cost of Capital

*Description:* Confidential financial submissions of regulated railways that apply for cost-of-capital rates in accordance with the relevant sections of the *Railway Act* and the *Railway Costing Regulations*; also amendments to these regulations.

CTC/RTC-055 *Formerly Identified as:* CTC-140

### Uniformity in Accounting by Federally Regulated Railways

*Description:* Information on a prescribed classification of railway accounts (Uniform Classification of Accounts) designed as the standard in gathering and providing a database for regulatory and other purposes. *Topics:* Provision, under the *Railway Act*, of an accounting manual; investigations into level of adherence and degree of uniformity; research and revision to accommodate changes in accounting standards, technology and utility.

CTC/RTC-060 *Formerly Identified as:* CTC-150

### Audits of Regulated Railways

*Description:* Information on verification of the accuracy, uniformity and integrity of information provided to the Railway Transport Committee by regulated railways to ensure and secure compliance with the *Railway Act*, the *National Transportation Act* and regulations for which the committee is responsible. *Topics:* Railway accounting system permanent files; accounting systems Analysis Audit Manual; regular and special examination files; audit reports. *Retrievability:* Files arranged by railway company.

CTC/RTC-065 *Formerly Identified as:* CTC-160

### Annual Report of Railways

*Description:* Statistical and financial information on a particular railway, its assets, liabilities, capitalization, revenues, working expenditures and traffic. *Topics:* General corporate information; financial information on rail operations; supplementary financial information; unit information on property; statistical information on rail operations; supplementary statistical information.

CTC/RTC-070 *Formerly Identified as:* CTC-170

### Specific Costs

*Description:* Information on the determination of railway specific costs, including railway and CTC costing information, documentation and associated working papers. *Topics:* Class I railway specific costs; Class II railway specific costs; CN-VIA and CP-VIA specific costs; specific costs by railway and function; specific cost procedure manuals; actual specific cost determinations — working papers by railway and function; audit records of railway billings to VIA Rail Canada Inc.

# CANADIAN TRANSPORT COMMISSION

## CTC/RTC-075 Formerly Identified as: CTC-180 Unit Costs

*Description:* Information on the determination of railway unit costs; also railway and CTC information and documentation pertaining to CTC responsibilities and duties under various sections of the *Railway Act*. *Topics:* Class I railway unit costs, by railway; Class II railway unit costs, by railway; verification procedure manuals, by railway; costing manuals, by railway; railway and CTC unit cost working papers, by railway and function; railway price level indices.

## CTC/RTC-080 Formerly Identified as: CTC-190 Special Costing Studies

*Description:* Special costing studies initiated both within and outside the CTC, either by federal government requirements or by independent agencies and consulting groups. *Topics:* Working papers; consultants' reports, drafts, recommendations; railway working papers and submissions; government policy and special issues related to railway operations; special costing studies arising from the incorporation of VIA Rail Canada, Inc.

## CTC/RTC-085 Formerly Identified as: CTC-200 Electronic Data Processing (EDP)

*Description:* Railway costing databases; railway subsidy payments databases; railway safety and accident databases; CTC programs and documentation for all branch EDP activities; systems manual for all branch EDP operations; security documentation for EDP activities; EDP documentation for report publications.

## CTC/RTC-090 Formerly Identified as: CTC-210 Branch Line Subsidy Program

*Description:* Information on branch responsibility to verify railway claim costs and revenues in order to calculate and pay subsidies to the railways. These files contain all railway and CTC official documents and working papers. *Topics:* General costing; Canadian Pacific and Canadian National unit cost working papers; Class II railways; CN-CP subdivisions; cost of capital; branch line; branch line rehabilitation.

## CTC/RTC-095 Formerly Identified as: CTC-215 Western Grain Transportation Program

*Description:* Costing studies relating to the movement of western grain by rail under the authority of the *Western Grain Transportation Act*. *Topics:* The prescribing of the annual freight rate scale under Section 35; the annual designation of grain dependent branch lines under Section 40; the conduct of costing reviews every four years under Section 38; the monitoring of annual railway investment plans under Section 29.

## CTC/RTC-100 Formerly Identified as: CTC-220 Passenger Train Studies

*Description:* Information on branch subsidy payments for passenger services under Section 261 of the *Railway Act*; also the audit of CN and CP billings for passenger-related services to VIA Rail Canada. The files contain railway and CTC official documents and working papers. *Topics:* CN train service; CP train service; VIA Rail Canada; special costing; unit costs; specific costs.

## CTC/RTC-105 Formerly Identified as: CTC-230 Freight-Related Studies

*Description:* Costing studies carried out on specific commodity movements by rail; includes costing work for rate setting purposes and appeals under the *National Transportation Act*, Section 23; also railway and CTC official documents and working papers. *Topics:* "At and East" (*Railway Act*, Section 272); rapeseed investigations; cost of stop-off-milling in transit; demurrage issues; "At and East" subsidy payments.

## CTC/ATC-110 Formerly Identified as: NO REFERENCE Air Transport Committee - General (New)

*Description:* Information on general matters related to commercial air services. *Topics:* Carrier associations, metric conversion, gross take-off weight of aircraft; domestic air policy, financial and ownership requirements, rotating wing policy, subsidy administration, *War Measures Act*, use of military aircraft; fuel emergency crises and conservation; and decisions and orders. *Retrievability:* Files arranged by subject matter.

## CTC/ATC-115 Formerly Identified as: CTC-240 Licence Applications

*Description:* Applications for authority or modifications of authorities to operate commercial air services to, from and within Canada and related matters for which a licence is required under Section 16 of the *Aeronautics Act*. *Topics:* Application specifics; description of proposed service; estimate of potential market; interventions by interested parties; pricing and service plans; detailed operating plans; detailed capital and operating cost estimates; projected financial statement; particulars of company ownership; base protection; deletion or amendment of route protection; proposed changes of contract, consolidation, mergers, leases and transfers; and related staff reports. *Retrievability:* Files arranged in chronological order of application, and by name of applicant.

## CTC/ATC-120 Formerly Identified as: CTC-250 Licence Exemptions

*Description:* Applications for authority to operate commercial air services to, from and within Canada and related matters by parties who are exempted from having to hold a document of licence. *Topics:* Use of an aircraft for aerial application and distribution by a farmer whose chief source of income is farming; leasing of aircraft; aircraft flown by an employee as transportation in carrying out his or her duties as an employee; use of aircraft in search-and-rescue operations or to assist in suppression of forest fires; use of an aircraft for checking out another pilot; sharing of operating expenses with the owner of an aircraft; and use of aircraft on glider towing and parachute jumping operations. *Retrievability:* Files arranged by exempting section of the Regulations.

## CTC/ATC-125 Formerly Identified as: NO REFERENCE Licence Documents (New)

*Description:* Documents of licence for all commercial air services operated to, from or within Canada. *Topics:* Licence documents. *Retrievability:* Files are arranged by class of commercial air service operated and carrier name.

## CTC/ATC-130 Formerly Identified as: CTC-260 Applications for Charter Permits

*Description:* Applications by licensed air carriers for permits to operate advance booking charters, entity charters and common purpose charters, and inclusive tour charter flights filed pursuant to the Air Carrier Regulations. *Topics:* Application specifics; description of proposed charter program; evidence of financial position of tour operator; scope and frequency of proposed charter program; contract between tour operator and air carrier; tour operator's business experience; tour operator's arrangements for securing of clients' prepayment; staff reports; Air Transport Committee decision. *Retrievability:* Files arranged by tour operator.

## CTC/ATC-135 Formerly Identified as: CTC-430 International Civil Aviation

*Description:* Information relating to all aspects of international civil aviation. *Topics:* International Civil Aviation Organization (ICAO) proceedings and recommendations; contract documentation, travel conditions, pricing regimes and bilateral air service agreements; NATO; international organizations — ICAO, IATA, ECAC (European Civil Aviation Committee), U.N. organizations.

# CANADIAN TRANSPORT COMMISSION

CTC/ATC-140 *Formerly Identified as:* CTC-440

## **International Air Transport Association (IATA) Conference**

*Description:* Information relating to reports and resolutions of the tariff-setting machinery of IATA. *Topics:* Reports, resolutions, record of individual foreign government acceptance or rejection of resolutions; tables of fares, rates, charges and routing conditions agreed upon by carriers.

CTC/ATC-145 *Formerly Identified as:* CTC-330

## **Free and Reduced-Rate Transportation**

*Description:* Requests for special permission to carry free, or at reduced rates, certain categories of freight and passengers not covered in regulations. *Topics:* Airline procedures manuals on free and reduced-rate transportation; requests by air carriers; disposal of applications by Air Transport Committee.

CTC/ATC-150 *Formerly Identified as:* NO REFERENCE

## **Tariffs (New)**

*Description:* Prices and conditions of carriage for transportation of passengers and goods. *Topics:* Fares, rates, tolls and conditions of carriage. *Retrievability:* Files are arranged by carrier name.

CTC/ATC-155 *Formerly Identified as:* CTC-290

## **Special Tariff Permission Applications**

*Description:* Air carrier special tariff permission applications to depart from one or more provisions of the Air Carrier Regulations tariff filing requirements. *Topics:* Description of proposed changes with explanations and justification; staff reports; disposal of application by Air Transport Committee. *Retrievability:* Files arranged by carrier name.

CTC/ATC-160 *Formerly Identified as:* CTC-300

## **Tariff and Schedule Filing Requirements**

*Description:* Correspondence on tariff and schedule filings. *Topics:* Filing by applicant, power of attorney and concurrence document; general correspondence; interpretations; suspension, rejection, or disallowance action by the Air Transport committee. *Retrievability:* Files arranged by carrier name.

CTC/ATC-165 *Formerly Identified as:* CTC-270

## **Complaints Against Illegal Operations by Licensed Carriers**

*Description:* Complaints received or information uncovered indicating illegal commercial air carrier activity by licensed carriers. *Topics:* Enforcement Branch investigation reports; referral to Licensing or Tariff Branch for any administrative action deemed necessary; Enforcement Branch referrals to RCMP for investigation towards prosecution; RCMP, Department of Justice and Air Transport Committee Enforcement Branch reports indicating what investigative and prosecutable action was taken and the ultimate disposition of the case. *Retrievability:* Files are arranged by carrier name.

CTC/ATC-170 *Formerly Identified as:* CTC-280

## **Complaints Against Illegal Operations by Unlicensed Operators**

*Description:* Complaints received or information uncovered concerning illegal commercial air services by unlicensed operators. *Topics:* ATC Enforcement Branch investigative reports; referral to RCMP and Department of Justice reports indicating investigative and prosecutorial action taken and final disposition of the case. *Retrievability:* Files arranged by carrier name by region.

CTC/ATC-175 *Formerly Identified as:* CTC-380

## **Civil Aviation Legislation**

*Description:* Information on civil aviation legislation and related laws. *Topics:* Proposed amendments of the Air Carrier Regulations; proposals received from or submitted to the public concerning proposed changes in the regulations.

CTC/ATC-180 *Formerly Identified as:* CTC-390

## **Regulatory Reports and Statistics**

*Description:* Information relating to reports and statistics which air carriers are required to file under the Air Carrier Regulations. *Topics:* Requests for statistics; information on uniform system of accounts for commercial air carriers; non-performance; delinquency in filing statistics; capital leasing of aircraft. *Retrievability:* Files arranged by carrier name.

CTC/ATC-185 *Formerly Identified as:* CTC-340

## **Insurance**

*Description:* General correspondence and certificates relating to air carrier liability insurance requirements as defined in the Air Carrier Regulations. *Topics:* General correspondence, certificate of insurance. *Retrievability:* Files arranged by carrier name.

CTC/WTC-190 *Formerly Identified as:* CTC-480

## **Administration**

*Description:* Committee minutes, decisions, orders and official files.

CTC/WTC-195 *Formerly Identified as:* CTC-490

## **Licences**

*Description:* Information on licensing of water carriers under the Transport Act. *Topics:* Applications; interventions; objections; reference documents; administrative correspondence necessary to the functional operation of the licensing function.

CTC/WTC-200 *Formerly Identified as:* CTC-500

## **Conference Contracts and Tariffs**

*Description:* Information on all tariffs filed by shipping conference liners along with various agreements reached by these lines as set forth in the Shipping Conferences Exemption Act, 1979; also correspondence between the Committee and companies operating liner services.

CTC/WTC-205 *Formerly Identified as:* CTC-510

## **Coastal Trade Custom Duty Waivers**

*Description:* Applications to the Minister of National Revenue for custom duty waivers from users of non-Canadian flag vessels in Canada's coastal trade, and related correspondence; correspondence with users or potential users of such vessels.

CTC/WTC-210 *Formerly Identified as:* CTC-520

## **Pilotage Tariffs**

*Description:* Information on pilotage tariff matters, including original objections and interventions filed with the Water Transport Committee; decisions rendered, and related correspondence; working papers on the designing of tariffs.

CTC/WTC-215 *Formerly Identified as:* CTC-530

## **Seaway Tariffs**

*Description:* Information on original tariffs submitted by the St. Lawrence Seaway Authority to the Water Transport Committee and related correspondence.

CTC/WTC-220 *Formerly Identified as:* CTC-540

## **International Shipping Policy and Operational Analyses**

*Description:* Information on the interest and involvement of the Commission in Canadian governmental representation at international organization conferences and meetings. *Topics:* Intergovernmental Maritime Consultative Organization — legal committee and facilities committee; Organization for Economic Co-operation and Development — maritime transport committee and subsidiary bodies working group and special group international organization; U.N. Commission on International Trade Law — working group on international legislation; U.N. Conference on Trade and Development — committee on shipping, including international preparatory groups and working group on international legislation.

# CANADIAN TRANSPORT COMMISSION

---

**CTC/WTC-225 Formerly Identified as: CTC-550**  
**International Maritime and Shipping Policy**

*Description:* Analyses provided to interdepartmental committees studying and formulating an appropriate Canadian position on maritime and shipping policy as input to international maritime law. *Topics:* Preparatory position papers, commentaries and discussion papers; submissions by Canada to international maritime and shipping forums; instructions to Canadian delegations at international conferences and conventions; delegation reports on participation in international meetings.

**CTC/WTC-230 Formerly Identified as: CTC-560**  
**Maritime Studies**

*Description:* Studies on maritime legal and economic subjects being discussed at the international level, based on generic research and economic analysis and intended to contribute to the formulation of Canadian international policy. *Topics:* Terms and conditions of ocean carriage in bills of lading (Hamburg Rules); standard clauses in policies of maritime insurance; limitation of water carrier liability for passengers and baggage.

**CTC/WTC-235 Formerly Identified as: CTC-570**  
**Maritime Economic, Financial and Statistical Analyses**

*Description:* Information on domestic and international water transport operations and related matters (shipper's concerns); economic and financial records of Canadian maritime and shipping interests, including detailed computerized databases of particulars of all Canadian vessels of one hundred GRT and over; traffic movements by class; tonnage of goods carried in Canadian inland and coastal waters and to, from and between Canadian ports; and a world-wide matrix of distances.

**CTC/WTC-240 Formerly Identified as: CTC-580**  
**Multimodal Policy and Operational Analyses**

*Description:* Correspondence, reports, memoranda, position papers, analyses and summaries of domestic and international multimodal transport operations and related matters (shippers' concerns, legal and economic issues).

**CTC/MVT-245 Formerly Identified as: CTC-590**  
**Motor Vehicle Transport Committee - General**

*Description:* Minutes of committee meetings and orders and decisions; committee meetings; minutes and attachments for the senior management advisory committee; metrification of motor vehicle weights measurements; transportation of dangerous goods; and hearings into CN-CP Express request to abandon truck express operations in Saskatchewan in favour of independent trucking companies.

**CTC/MVT-250 Formerly Identified as: CTC-600**  
**Lord's Day Act**

*Description:* Application forms for exemptions from motor vehicle carriers for the transportation of goods on Sundays. *Topics:* Telexes, hearing notes and transcripts. *Retrievability:* Files are arranged by name of motor vehicle carrier.

**CTC/MVT-255 Formerly Identified as: CTC-610**  
**Mergers and Acquisitions**

*Description:* Information on proposed acquisitions of bus or truck companies. *Topics:* Notices of proposed transaction, contractual and financial agreements between parties; filed objections; and hearing documentation.

**CTC/MVT-260 Formerly Identified as: CTC-620**  
**National Transportation Act, Part III**

*Description:* Information on planning procedures and draft regulations of the extra-provincial motor carrier undertakings of Canada in preparation for the implementation of Part III of the

*National Transportation Act*; and questionnaires to Canadian extra-provincial carriers.

**CTC/MVT-265 Formerly Identified as: CTC-630**  
**Roadcruiser Bus Service, Newfoundland**

*Description:* Information on the only motor vehicle undertaking which, since 1976, falls under the direct regulatory control of the CTC. *Topics:* Hearings on rates, scheduling and quality of service; in-house studies of company's financial statements and financial procedures; Statistics Canada reports on comparable bus operations; transportation of the handicapped; survey on the quality of service and scheduling of buses in Newfoundland.

**CTC/MVT-270 Formerly Identified as: CTC-650**  
**Federal-Provincial Negotiations**

*Description:* Information on ongoing meetings with provinces with a view to developing uniform trucking regulations in Canada.

**CTC/MVT-275 Formerly Identified as: CTC-660**  
**Transborder Trucking Dispute**

*Description:* Information on negotiations between Canadian and United States agencies in response to accusations by the United States of discrimination against American truckers by Canadian transport regulatory agencies; and United States reprisals.

**CTC/ITP-280 Formerly Identified as: CTC-710**  
**Administration**

*Description:* International Transport Policy Committee minutes, decisions, orders, official files.

**CTC/CPT-285 Formerly Identified as: CTC-720**  
**Applications**

*Description:* Required Commodity Pipeline Transport Committee information (in order to grant a certificate of public convenience and necessity and permission to operate) on proposed commodity pipelines; applications to acquire commodity pipeline companies, and submissions made by interested parties other than the company.

**CTC/CPT-290 Formerly Identified as: CTC-730**  
**Pipelines**

*Description:* Information on commodity pipelines. *Topics:* Qualitative and quantitative information on commodity pipeline operations, costs and technology.

**CTC/CPT-295 Formerly Identified as: CTC-740**  
**Standards**

*Description:* Standards for commodity pipelines. *Topics:* Information and analyses pertaining to engineering, economic, financial, accounting and safety standards.

**CTC/REV-300 Formerly Identified as: CTC-750**  
**Review Committee**

*Description:* Information on the Review Committee's activities when dealing with applications for review of a modal committee's orders and decisions.

**CTC/RES-305 Formerly Identified as: CTC-760**  
**Demand**

*Description:* Information on freight and passenger demand, traffic forecasts and models. *Topics:* Rail transportation of coal, potash, sulphur, grain and lumber products; low-priced air fare review and pricing surveys; use of multimodal transport in Canadian international trade; conference freight trends in Canadian exports.

**CTC/RES-310 Formerly Identified as: CTC-770**  
**Supply**

*Description:* Information on modal and intermodal studies, productivity. *Topics:* Rail capacity information; bulk commodity facilities at major ports; cost structure of the Canadian trucking

## CANADIAN TRANSPORT COMMISSION

---

industry; for-hire trucking and Canadian-United States trade; international bulk carriage; international maritime shipping — structure and practices; Canadian international bulk shipping arrangements.

CTC/RES-315 *Formerly Identified as:* CTC-780

### **Regulations**

*Description:* Information on regulations, competition, costing, pricing, subsidies. *Topics:* Air services in northern and remote areas; water transportation on Lake Athabaska; Canrail and Canada Southern Acquisitions; pricing practices of Canadian railways (transborder and domestic); shortline railroads in Canada; rail costing; air costing; truck costing; competition and regulation in marine transport — trucking rate analysis; limitation of ship owners' liability for passengers and luggage (study revisions); impact of the proposed convention on international multimodal transport.

CTC/RES-320 *Formerly Identified as:* CTC-790

### **Regional and Social Issues**

*Description:* Information on prairies and grain, isolated communities; transportation of the handicapped; the trucking industry in the Atlantic provinces; adequacy of air services in northern and remote areas.

CTC/TTB-325 *Formerly Identified as:* CTC-800

### **Tariffs, Licences and Claims**

*Description:* Information on tariffs filed with the Commission and licensing of carriers under the subsidy programs of the Atlantic provinces. *Topics:* Claims, reference documents and related correspondence; also working papers and computer printouts that

detail information for claims made under Section 272 of the *Railway Act*.

CTC/TTB-330 *Formerly Identified as:* CTC-810

### **Traffic and Tariff Information Systems**

*Description:* Detailed information on the transportation industry and its pricing philosophy, its service facilities and its marketing concepts; also correspondence, memoranda, working papers and information drafts on complaints, applications and disputes before the Commission that concern traffic and tariff matters.

## Background

Established in 1969 by the *Government Organization Act*, the Department of Communications (DOC) encourages the growth of national and international telecommunications and broadcasting networks and facilities, anticipates and plans for change by conducting research into communications and space technology, manages and regulates the airwaves, and promotes Canadian cultural activities.

The Department was originally concerned with the electronic means of creating, processing, storing, distributing, displaying, accessing, and exchanging information. Its activities were focused on broadcasting, communications research and on Canada's role in satellite communications. Its clientele consisted largely of private and public sector institutions that either manufactured equipment or provided services.

In July 1980, in recognition of the increasingly close links between culture and communications, responsibility for the federal government's arts and culture program, along with responsibility for a number of agencies, was transferred from the Secretary of State to the Minister of Communications.

While other responsibilities continue, the Department is now concerned with a host of public and private institutions operating in the cultural field. In addition, the Department is concerned with the cultural content that flows through electronic and non-electronic channels of communications and includes among its clients the creators and administrators of cultural content.

## Laws and Regulations

- Broadcasting Act
- Radio Act
- National Transportation Act and Railway Act (telegraphs and telephones)
- Cultural Property Export and Import Act
- Canada Council Act
- Canada Museums Construction Corporation Order-in-Council
- Canadian Film Development Corporation Act
- Copyright Act
- National Arts Centre Act
- National Film Board Act
- National Library of Canada Act
- National Museums of Canada Act
- Public Archives of Canada Act

## Overall Responsibilities

### Communications Sectors

The Department conducts research, encourages industrial development, and develops policies to address the economic, social and cultural effects of new technology. It fosters the orderly development and operation of communications for Canada in the following domestic and international spheres:

- Communications and Information Technology — The Department assists Canadian industries that manufacture communications and information equipment or provide related systems, products or services and support for the Department of Communications, National Defence and other departments. Among its major programs in this area are the Telidon program and the Office Communications System Program. It also develops Canadian strength in the field of micro-computers, computer software, mobile

satellite systems and new satellite communications services. The Department conducts research in communications, informatics and space and satellite systems at the Communications Research Centre, including the spacecraft testing facilities at the David Florida Laboratory. Research on the use of satellites ranges from improved telephone services to Pay-TV, including satellite-delivered radio and television programming, tele-education, telemedicine, direct broadcasting and search and rescue.

- Communications Policy Development — The Department develops communications policies that make maximum use of Canadian resources and talents, strengthen Canadian industries, exploit technological advances, and generally contribute to the achievement of Canadian economic, social and cultural objectives.
- Radio Frequency Spectrum — The Department continually seeks to manage, improve and extend the use of the spectrum, protect the rights of Canada through international agreements, and provide service to all of its users.
- The Department manages the airwaves to prevent overcrowding and traffic jams and to ensure that a high quality of service is provided, especially for emergency services. Licences are issued to qualified operators, and traffic is controlled by regulations developed by the Department.
- Each year, more than one million radio licences are issued, including permits for GRS radio owners, operators of microwave systems, and radio and television broadcasters. The Department works closely with other levels of government and with private companies to develop national standards for telecommunications and broadcasting equipment. The Department tests appliances and other electrical equipment to ensure that they do not cause radio interference.
- Government Telecommunications — The Department establishes and maintains long-term federal government telecommunications plans, including the identification of the most efficient and economic alternatives available to satisfy existing and new telecommunications requirements, and accommodates the convergence of technologies (telecommunications, electronic data processing and office equipment) on a government-wide basis.
- The Department of Communications satisfies the needs of federal departments and agencies by planning, establishing and managing telecommunications facilities and services to maximize the benefits of sharing and consolidating telecommunications requirements on a government-wide basis.

### Cultural Affairs Sector

In 1983-84, the Arts and Culture Sector was reorganized to clarify the Department's role in the cultural field and to integrate the sector more fully into the Department. The new Cultural Affairs Sector emphasizes both cultural policy development and program delivery. The Department operates programs to provide financial support, resources and services to Canadian cultural organizations and industries, as well as heritage institutions, and in this way supports and promotes the work of Canadian creators, including painters, sculptors, actors, film-makers, writers, musicians and composers. These programs include the Cultural Initiatives Program, the Canadian Book Publishing Development Program, the Canadian Film and Videotape Certification Office and the Movable Cultural Property Secretariat.

The Department also develops policies and programs for the achievement of national artistic and cultural objectives, and promotes effective inter-agency, inter-departmental, and inter-governmental co-operation in the achievement of those objectives, which include

- encouraging artistic and cultural activities in Canada;
- advising on the optimum allocation of resources among arts and culture programs;

# DEPARTMENT OF COMMUNICATIONS

- fostering greater inter-agency program co-operation and co-ordination in support of cultural and other national objectives;
- supporting or managing special artistic and cultural programs outside those of the federal cultural agencies.

## Organization

The Department of Communications is headed by the deputy minister, supported by the senior assistant deputy minister and five assistant deputy ministers who are responsible for the following sectors: Technology and Industry, including Government Telecommunications; Research; Spectrum Management; Cultural Affairs; and Financial Management. Also reporting to the deputy minister is the Personnel and Administration Branch.

The Department has regional offices in Moncton, Montréal, Toronto, Winnipeg, and Vancouver, and 48 district offices across Canada. In addition, it maintains research and testing facilities in the National Capital Region at the Communications Research Centre and its Clyde Avenue Laboratories and will be inaugurating a Workplace Automation Research Centre in Laval, Québec.

There are nine agencies in the communications and cultural field that report to Parliament through the Minister of Communications. They are

- The Canada Council, which provides support to performing arts organizations, artists, writers and many other creators;
- The Canadian Broadcasting Corporation, which provides national television and radio services in both official languages and operates Radio Canada International, which broadcasts news and information about Canada to listeners around the world;
- The National Film Board of Canada, which supports the work of the independent film-makers and produces its own films on a wide range of subjects;
- Telefilm Canada, which provides financial assistance and marketing support to film and television producers;
- The National Arts Centre, which showcases Canadian achievements in the performing arts, as well as the best the world has to offer;
- The National Museums Corporation, which assists in the development of museums and galleries across the country and is responsible for the National Gallery of Canada, the National Museum of Man, the National Museum of Natural Sciences and the National Museum of Science and Technology;
- The National Library of Canada, which provides technical support to libraries across the country and maintains a national collection of books, new and old, rare and readily available;
- The Public Archives of Canada, which maintains a national archival collection of documents, photographs and recordings and is responsible for the archives of the Government of Canada;
- The Canadian Cultural Property Export Review Board, which certifies for income tax purposes as important to Canada's heritage cultural objects given or sold to designated Canadian institutions.

The Minister of Communications is also responsible to Parliament for the Canadian Radio-television and Telecommunications Commission (CRTC), which regulates broadcasters, cable services and national telecommunications services.

Central management and administration of the Department includes the Minister's office, the deputy minister's office and support services such as personnel, finance, accommodation and telecommunications, material management, computer services, security services, library services, mail and records management.

## General Information Services

### Libraries

Reports, studies, briefs and other documents prepared by or for the Department of Communications should be requested through:

The Library  
Department of Communications  
Journal Tower North  
Room 276  
300 Slater Street  
Ottawa, Ontario  
K1A 0C8  
Telephone: (613) 990-4937

There are smaller libraries at each of the five regional offices:

#### Atlantic Regional Office

Terminal Plaza Building  
1222 Main Street, 7th Floor  
P.O. Box 5090  
Moncton, New Brunswick  
E1C 8R2  
Telephone: (506) 388-6505

#### Québec Regional Office

Rasco Hotel  
295 St. Paul Street East  
Montréal, Québec  
H2Y 1H1  
Telephone: (514) 283-7737

#### Ontario Regional Office

9th Floor, 55 St. Clair Avenue East  
Toronto, Ontario  
M4T 1M2  
Telephone: (416) 966-6331

#### Central Regional Office

200-386 Broadway Avenue  
Winnipeg, Manitoba  
R3C 3Y9  
Telephone: (204) 949-2630

#### Pacific Regional Office

800 Burrard Street, Suite 1700  
Vancouver, British Columbia  
V6Z 2J7  
Telephone: (604) 666-5424

## Information Services Branch

The branch maintains a list of all publications and audio-visual materials produced by the Department to inform the Canadian public. Requests for news releases, speeches and general information on departmental policies, programs and activities, including publications, annual reports, and audio-visual materials, should be directed to

Distribution Office

Telephone: (613) 990-4131

### POLICY SECTOR

This sector formulates strategies for the development, promotion and monitoring of broadcasting and telecommunication services, co-ordinates federal-provincial activities in communications and culture; develops Canada's policy on international aspects of communications and culture; integrates and harmonizes policy within the Department; develops and disseminates policy, program and regulation information to the communications and cultural industries and the general public; and provides legal advice to the Department.

### International Relations Branch

This branch promotes and protects Canadian telecommunications and cultural interests internationally and ensures that significant international developments are taken into account in domestic telecommunications and cultural policy formulation. This involves co-ordinating Canadian presentations to such international organizations as the International Telecommunication Union, including preparation of Canadian proposals and negotiating strategies in consultation with the private sector and provinces, in order to ensure that future Canadian requirements can be achieved within established international conventions. It also involves policy guidance regarding international markets and trade, and aid to developing nations; participation in international space communications activities such as INTELSAT and the European Space Agency (ESA); and spectrum co-ordination with the United States in border areas.

#### Manuals

- International Telecommunication Union (ITU) Radio Regulations
- International Radio Consultative Committee (CCIR)
- International Telegraph and Telephone Consultative Committee (CCITT)
- 1982 International Telecommunication Union Convention

### Broadcasting and Content Services Policy Branch

The branch develops and recommends policies and programs in the area of broadcasting and other delivery systems such as cable and satellite services. This includes Canadian broadcasters generally and the Canadian Broadcasting Corporation in particular; the Canadian cable industry; the communications industry, including those concerned with the vertical blanking interval and other communications technologies; related program production and content industries; the pay television industry; and the Canadian satellite industry. The branch also develops appropriate legislation in these areas and advises on the policy implications of the extension of services and the development of new services such as videotex and teletext. It conducts policy research analysis and operates a statistics program in support of its activities.

### Telecommunications Policy Branch

This branch formulates and recommends policies and programs governing and promoting the establishment, development and efficiency of national and international telecommunications facilities

and services. This includes policy initiatives for institutional, corporate and inter-corporate structures and relationships (carrier competition, terminal attachment, conditions of service); the optimal development of telecommunications networks (integration of satellite and terrestrial networks, standards of service to remote areas of Canada); allocation and use of the radio frequency spectrum. The branch develops and recommends policies and strategies to foster new telecommunications services. In addition, it monitors and analyzes the activities of telecommunications corporations with federal government investment. The branch makes recommendations on financial and regulatory matters concerning telecommunications entities within federal jurisdiction.

### Federal-Provincial Relations Branch

This branch is responsible for advancing the federal government's interests in communications and culture through bilateral and multilateral meetings, information exchange, co-ordination, consultation and negotiation with provinces and territories. The branch oversees the implementation of the Department's Regional Dimension Action Plan in order to promote greater regional input to the policy process, including co-ordination leading to economic and regional development subsidiary agreements with the provinces in the areas of communications and cultural industries. The branch also provides internal program planning and management support services to the senior assistant deputy minister and directors general in the Policy Sector.

### Information Services Branch

This branch plans and implements information activities to facilitate communications between the Department and the public, as well as communications within the Department. It provides information on the policies, programs and activities of the Department and informs departmental managers of the interests and concerns of the public and client organizations as expressed in the media and through correspondence, public meetings, and direct contact with information officers. Methods include planning communications programs and activities; publication of news releases, fact sheets, articles, newsletters, reports, brochures, pamphlets, posters, technical notes, books, photographs, designs and slides; preparation and staffing of displays, exhibits, and audio-visual presentations; publication and preparation of information materials; operation of a departmental briefing centre and speakers' bureau; organization and staffing of news conferences, briefings, and special events; preparation of correspondence; operation of a media monitoring service.

### Strategy and Plans Branch

This branch is responsible for defining the Department's strategic priorities and ensuring that they are consistent with overall government priorities. It provides direction in the development of policy in the fields of communications and culture. The branch also provides briefings to the Minister on all major departmental and agency proposals as well as those of other departments which have implications for the Department of Communications. This involves the design and management of the corporate policy and strategic planning for the Department as a whole; the management of legislation and legislative amendments for the Department; and the management of Cabinet business for the Department, including liaison with central agencies.

### TECHNOLOGY AND INDUSTRY SECTOR

This sector attempts to ensure that Canada's technological potential is used to the greatest economic and social benefit by enhancing Canada's advantages in the domestic and foreign markets. This involves fostering the development and application of advanced information and communications technologies and supporting the

## DEPARTMENT OF COMMUNICATIONS

---

growth of industries creating, manufacturing and employing those technologies.

The sector is active in the identification and assessment of new technology, policy analysis and formulation, economic and marketing analysis, program and project management, and of communications and informatics. The sector is responsible for four branches: Technology and Policy Assessment, Industry and Economic Development, Applications Programs and Government Telecommunications.

### Technology and Policy Assessment Branch

The role of the branch is to identify and assess the potential applications of new information and communications technologies against long-term trends in the economic and social environment and to identify the policy and standards issues relating to their introduction and application. It provides a planning service to the Technology and Industry Sector, to the Strategy and Plans Branch, and to other sectors and branches of the Department.

### Applications Programs Branch

This branch manages major applications programs and projects designed to develop and test the concept and feasibility of new technologies. The branch is responsible for the Mobile Satellite (MSAT) Program, the Office Communications Systems Program, Telidon, and the Space Applications Program. It is also responsible for the implementation of new program activities to develop appropriate technologies and services that have been identified as opportunities for Canadian exploitation.

### Industry and Economic Development Branch

This branch relies on its own specialists and co-operates with other departments and agencies to foster the orderly and efficient development and application of advanced information and communications technologies in Canadian industries creating, manufacturing and marketing those technologies for domestic and foreign markets. It assists the informatics and communications industries in exploring opportunities at home and abroad for goods and services through in-house economic analysis, marketing support, technological expertise and research and development.

The David Florida Laboratory for the integration and testing of satellites is maintained and operated at the Communications Research Centre in support of Canadian industry and other government departments and agencies.

### Government Telecommunications Agency (GTA)

The agency provides shared and customized voice and data telecommunications services and facilities to federal departments and agencies. It is responsible for planning, establishing, and managing telecommunications facilities and services to economically satisfy the needs of federal departments and agencies. Designated as a mandatory common service organization providing telecommunications facilities and services for federal government users, the GTA is financed by a revolving fund and is managed on a full cost revenue dependent basis. The agency is included in the Technology and Industry Sector to facilitate a careful assessment of the role that the federal government market should play in the development of the Canadian industry. It will implement, as appropriate, communications and information handling technologies in the government environment.

### RESEARCH SECTOR

The Research Sector plans, develops and manages communications research and development (R&D) in telecommunications, space, and information technologies, including work performed for industry and other government departments. It also formulates policy and conducts a comprehensive, multidisciplinary research and development program to foster the development and introduction of new communication systems, both terrestrial and in space, and encourages the development of the related industrial infrastructure. The sector is responsible for the four branches located at the Communications Research Centre, Shirley Bay:

- Space Technology and Applications Branch
- Information Technology and Systems Branch
- Radar and Communications Technology Branch
- Research Policy and Planning Branch and for the Canadian Workplace Automation Research Centre located at Laval, Québec.

### Radar and Communications Technology Branch

The branch is responsible for the departmental research and development program in co-operation with Canadian industry and universities in the areas of radio-propagation, radio communications, fibre optics technology, electro-optical technology, radio and remote sensing technology, and systems for military and civil applications.

The branch is responsible for the programs outlined below.

**The Optical Communications Program** conducts applied research in fibre optics, opto-electronics and photonics, transfers new technology to industry, fosters the growth of a Canadian fibre optics industry, develops national and international fibre optics standards, supports related research in universities, and supports Department of National Defence requirements for fibre optics technology.

**Military Communications Systems Development** performs research and development for defence purposes. Its work includes development of modulation and coding techniques, electronic counter-countermeasures, voice and data networks and simulation.

**The Radio Communications Directorate** is responsible for the departmental research and development program on radio communications technology in co-operation with Canadian industry and universities. It studies the performance of radio communications equipment in its operating environment (signal and noise environment, electromagnetic compatibility, and limitations that the propagation channel imposes on communications) for military and civil applications.

**The Radio Propagation Laboratory** is responsible for a research program on the transmission of radio waves in the very low frequency (VLF) through extra high frequency (EHF) bands, with a view to improving the design and management of analogue and digital communication systems. The work is carried out partly in-house, partly under contracts with universities and industry, and partly through co-operative projects with the common carriers.

**The Radar Research Laboratory** is responsible for research and development principally on behalf of the Department of National Defence. Activities include work on air-borne, maritime, ground-based and space-based radars with emphasis on signal and data processing. Technical support is provided to government procurement projects involving radar systems. Representation is provided on international collaborative organizations.

## DEPARTMENT OF COMMUNICATIONS

---

### Information Technology and Systems Branch

The branch conducts a program of research and development in information technology and systems (informatics) in order to foster the orderly development and operation of communications for Canada. Areas of activity are: information technology, advanced information systems, networks and standards, behavioural research and artificial intelligence. The branch contributes to the development of communications policies, regulations and standards; provides expert advice and support to other federal departments and agencies; facilitates the development and introduction of new information technologies, systems and services; encourages Canadian industrial capability in the research, development and exploitation of information communications technology; and encourages Canadian scientific and technological achievement and recognition.

The branch is responsible for the programs outlined below.

**Information Technology Research and Development** examines fundamental communications problems, develops technologies, and exploits the emerging related technologies.

**Advanced Information Systems Research and Development** examines the use of different technologies and techniques in systems designed to address specific information communications applications.

**Networks and Standards Research and Development** is concerned with the development and negotiation of beneficial standards for new network services and systems that enable people or computers to exchange information.

**Behavioural Research** examines the intellectual, creative and productive capabilities of human beings in information communications and related processes, especially human perceptual and cognitive processes, human behaviour, and the interaction between people and communications technology.

**Artificial Intelligence Research and Development** studies artificial or machine intelligence technologies in information communications.

### Space Technology and Applications Branch

This branch is responsible for research and development programs leading to advanced satellite technology, systems, applications and services. It operates specialized laboratories and satellite communications facilities to carry out experimental projects using both Canadian and other satellites. The Space Technology Research and Development program involves the development of new concepts, techniques and equipment for satellite payloads and vehicles, and for the earth terminals and facilities needed to make effective use of satellites. The Space Systems and Applications Research and Development program deals with the development of space systems, applications and services. The branch also contributes to planning and policy formulation and to program and project management within the Department and in other departments.

### Research Policy and Planning Branch

The branch plans, co-ordinates, formulates and reviews policy related to the Department's research program and is responsible for the international collaboration and liaison. It is responsible for the programs outlined below.

**The International Collaboration Assistance Fund for Research on New Information Technologies** is administered by the Department to enable Canadian organizations, both public and private, to participate in international co-operative research projects on new information technologies and to acquire the knowledge needed to strengthen this critical industrial sector. The Fund provides \$1 million annually for various international co-operation activities, including exchanges of information and scientists, and the launching of shared-cost research projects.

**The University Research Program** develops centres of expertise in Canadian universities in the fields of communications and culture.

**The Development of Space Subsystems and Components (DSSC) Program** funds research and development contracts with Canadian industry to develop satellite communications technology required in future satellite systems.

**The Interdepartmental Industrial Assistance Program** co-ordinates the Department's participation in a number of research and development programs funded and administered by other departments and agencies, namely, the National Research Council's Program for Industry/Laboratory Projects (PILP) and Industrial Research Assistance Program (IRAP); Supply and Services Canada's Unsolicited Proposal and Source Development Fund programs; the protection of intellectual property administered by Canadian Patents and Development Ltd.; the Catalytic Seed Fund and the Intelsat Research and Development Program.

**The Defence Program** involves co-ordination and liaison with the Department of National Defence for departmental defence projects and support services.

### The Canadian Work Place Automation Research Centre (CWARC)

The new Canadian Work Place Automation Research Centre in Laval carries out research and development in all aspects of office automation. The centre works closely with other branches of the Department, private industry, and the Canadian scientific community to build a strong base of competence and expertise in Canada. The centre is responsible for the programs outlined below.

**The Integrated Systems Research and Development** carries out research and development on integrated systems. Functions and services are merged so that an individual has immediate access to a complete range of information-handling services, including conventional person-to-person and store-and-forward forms of communication; information storage and retrieval; voice, video and computerized conferencing; information manipulation, processing and augmentation; information distribution, control and management; human-to-machine and machine-to-machine communications and information display.

**Advanced Work Place Technology Research and Development** conducts research and development in new areas such as the development of specialized and advanced software systems supporting the office complex and the development of new intelligent office work systems.

**Organizational/Societal Research** establishes expertise and facilities at the Centre for Research and Development in various facets of work place automation and its impact on procedures and the structure of organizations. Activities focus on improving the productivity of organizations through special communications software and hardware, including training and concentration on organizational and social issues; developing better and more competitive systems and services through research and testbeds for product and service evaluation; and leading long-term conceptual research in co-operation with academic and other research institutions.

**Scientific and Strategic Information Network** is a focal point for co-operation with related laboratories, both nationally and internationally, for information gathering and dissemination, and for co-operation with the private sector. It maintains a knowledge network, and co-ordinates national and international collaboration and a national and international exchange program. It maintains a database on office automation. It is designed to meet the needs of smaller firms in particular, and will analyze the large amounts of available information and transform "state-of-the-art" knowledge into a directly accessible format as an integral part of the technology transfer strategy of the centre.

# DEPARTMENT OF COMMUNICATIONS

## SPECTRUM MANAGEMENT SECTOR

The sector is responsible for providing service to users of the radio frequency spectrum, for the orderly growth of telecommunications facilities, and for delivery of all departmental programs through regional and district offices across the country. The sector is also responsible for Emergency Telecommunications Planning.

The major components of the sector are the Telecommunication Regulatory Service and Regional Operations.

### Telecommunications Regulatory Service

The service is responsible for standards, practices and procedures required to manage the radio frequency spectrum; centralized regulatory functions and the standardization, certification and type-approval of customer-supplied terminal equipment; and emergency planning.

### Regional Organization

The organization consists of five regional offices and 48 district offices and sub-offices. They are responsible for managing and regulating the spectrum, managing government telecommunications services for regional client departments, and overseeing the Department's programs across the country.

### Spectrum Management Program

This program allocates radio spectrums to different categories of users; sets technical standards for radio equipment and systems; provides technical support to the CRTC; co-ordinates frequency planning and assignment with the United States and other countries; sets standards for spectrum pollution control; analyzes and evaluates technical submissions for the use of radio spectrum; issues, renews, and amends radio station licences; collects licence fees; issues radio operator certificates; monitors and inspects radio stations; investigates interference complaints; and initiates legal proceedings against suspected offenders.

### Terminal Attachment Program

This program ensures the orderly introduction of customer-owned telecommunications terminal equipment designed for connection to the telecommunications carriers' networks. More specifically, it develops technical standards for terminal attachments, certifies equipment and lends technical support to the CRTC to resolve associated technical disputes.

### Emergency Telecommunications Planning

Through this program, the branch plans and prepares to ensure that Canada's telecommunications resources are able to provide essential communications for government, industry, and the public during national emergencies including war. The three main activities are:

- the implementation of emergency programs to provide warning and information to the public, to ensure essential communications survive, and to provide priority restoration of vital communications during an emergency.
- the development and application of telecommunications regulations and information to the public, to ensure essential communications services are available during a crisis situation.
- provision of support to other federal departments, agencies and provincial emergency organizations in developing the communications portion of their emergency planning documents and co-ordinating the communications response to emergencies when they arise.

## Manuals

These manuals are available for examination at all regional and district offices and at the headquarters library.

- Policy Manual (PM) — PM-1 Radio Licensing — This manual consolidates departmental policy relating to the licensing of radio services in Canada in accordance with the provisions of the *Radio Act*.
- Radio Inspectors Manual (RIM) — RIM-1-General; RIM-1-1-Consolidation of legislation and regulations on telecommunications; RIM-2-Licensing procedures; RIM-3-Inspection-Aeronautical, Maritime Land Stations; Interference; RIM-4-Certificates-Examinations; RIM-7-Prosecutions.

## CULTURAL AFFAIRS SECTOR

In 1983-84, the Arts and Culture Sector was reorganized to clarify the Department's role in the cultural field and to integrate the sector more fully into the Department. The new sector emphasizes both cultural policy development and program delivery.

### Cultural Policies and Programs Branch

The branch analyzes policy issues and administers programs designed to stimulate the development of the cultural industries and to improve access to cultural products and activities. It conducts policy analysis on copyright, film and video, sound recording, books and periodicals, heritage, and the performing, visual and literary arts; analyzes social policy issues related to the application of new technologies; studies actual or expected impacts of new communication services and cultural initiatives; and provides advice to the Minister on the achievement of objectives by cultural agencies and boards reporting to the Minister.

### Sector Planning

The directorate defines strategic priorities and ensures their consistency with the priorities of the Department and the government, provides policy co-ordination for the sector and federal cultural agencies, and provides advice to the Minister on major sectoral and cultural agency proposals going to Cabinet as well as those of other departments that may affect the Cultural Affairs Sector.

### Film, Sound Recording and Publishing Policy

The directorate formulates and implements policies to ensure the development of Canadian owned and controlled cultural industries and federal cultural agencies by promoting increased access by Canadians to Canadian cultural products; and to develop new Canadian talent and increase our share of the market at home and abroad.

### Concessionary Postal Rates Subsidy for Publications

The Minister of Communications purchases postal rate discounts from the Canada Post Corporation for selected categories of mail, namely second-class newspapers and periodicals, library books, and books mailed by publishers. The Minister is responsible for setting the levels of discount and the eligibility criteria, while the Canada Post Corporation administers the program itself.

All requests for information on how to apply, postal rates and regulations, and program guidelines should be forwarded to Canada Post. The Department has information on the history of the program, its costs and policy-related issues (see DOC/ACF-220).

### Arts and Heritage Policy

This directorate develops policies for the achievement of national objectives in performing, visual and literary arts, and in the areas of

## DEPARTMENT OF COMMUNICATIONS

---

museums, libraries and archives. It promotes co-operation among federal government departments and agencies and other governments in the achievement of these objectives.

### Social Policy

This directorate develops the department's social policy, enabling the government to influence the actual and predicted impact of new communications services and cultural incentives on Canadian society.

### Copyright

This directorate formulates, develops and recommends policy and associated legislation in the field of copyright, including protection for artists, creators and the industries engaged in the production and distribution of cultural products.

### Cultural Support Programs

#### Canadian Book Publishing Development Program (CBPDP)

This program promotes the development of the Canadian owned and controlled sectors of the book publishing industry in Canada. The program offers financial assistance to book publishers for various purposes.

A brochure explaining the program and the criteria used to evaluate applications is available free of charge from Information Services.

#### The Canadian Film and Videotape Certification Program

This program promotes the development of film and videotape production in Canada by certifying film and videotape productions as being "Canadian". Canadians investing in these productions can deduct 100 percent of their investment from their taxable income. Information brochures on how to apply for certification and on statistics and general information are available.

### Cultural Initiatives Program

The program provides financial assistance to non-profit Canadian cultural organizations to support specific projects in the following categories: management development, the innovative use of new technology, new buildings or renovations or repairs to existing buildings, and special events of national significance.

A brochure explaining the program and the criteria used to evaluate applications is available free of charge from Information Services.

### Program of Insurance for Major Travelling Exhibitions

The program provides insurance for national and international travelling exhibitions in Canada that have a value of \$1 million or more. Insurance coverage is provided under a master insurance policy to qualified museums, galleries, archives and libraries, upon application.

### Cultural Property Export and Import Act

The purpose of the *Cultural Property Export and Import Act* is to preserve, in Canada, the best examples of our heritage in movable cultural property. This is accomplished by:

- certification for tax purposes by the Canadian Cultural Property Export Review Board of objects donated or sold to designated institutions;
- implementation of an export control system; and

- provision of grants to designated institutions to repatriate cultural objects or purchase them when export permits have been refused.

The Act also enables Canada to be a signatory to the 1970 UNESCO Convention on the illicit import, export and transfer of ownership of cultural property.

An annual report outlining the activities of the Movable Cultural Property Review Board and the Movable Cultural Property Secretariat is available from Information Services. Also available is a booklet entitled "A Detailed Introduction to the Cultural Property Export and Import Act". Information circulars are available to prospective applicants.

The Canadian Cultural Property Export Review Board, listed separately, has a greater interest in those records relating to applications for the certification of cultural property, and in those records relating to applications for cultural property export permits. Enquiries about these records should be directed to the Access to Information Co-ordinator, Canadian Cultural Property Export Review Board.

## PERSONNEL AND ADMINISTRATION SECTOR

This sector is responsible for providing essential support services to the programs of the Department. These services include the following: information systems and computer services, administrative and technical services, official languages, personnel services and, security and communications support services. Information about these activities is listed in the standard banks, with the exception of the Security and Communications Support Services Branch, which performs a number of specialized functions.

### Security and Communications Support Services Branch

In addition to the services it provides to the Department in the areas of security education, enforcement and clearances, health, safety and fire prevention, the branch provides support to the entire government in the area of communications security.

### Communications Electronic Security

The branch is responsible for providing guidance and support on communications electronic security to all federal departments and agencies that do not possess their own expertise in this area and to Canadian industry through membership on the RCMP Security Evaluation Inspection Team. It participates in policy formulation, evaluation of training needs, planning of cost-effective systems, and engineering, including the selection, implementation and maintenance of cryptographics systems.

## Classes of Records

---

DOC/PLI-005 *Formerly Identified as:* DOC-PL-10

#### International Telecommunication Union (ITU) Activities

*Description:* Information pertaining to Canada's involvement in the International Telecommunication Union Activities in consultation, management, regulation, development, standards setting and technical assistance. *Topics:* Administrative Council annual meetings; World Administrative Radio Conferences (WARC): mobile services, space (use of the geostationary-satellite orbit), medium-frequency broadcasting (western hemisphere), high-frequency broadcasting; International Frequency Registration Board (IFRB); International Radio Consultative Committee (CCIR): national and international study group meetings, plenary assembly meeting (every four years); International Telegraph and Telephone Consultative Committee (CCITT): national and international study group meetings, plenary assembly meeting (every four years); plenipotentiary conference.

## DEPARTMENT OF COMMUNICATIONS

DOC/PLI-010 *Formerly Identified as:* DOC-PL-20

### **Multilateral Relations**

*Description:* Information pertaining to Canada's involvement in international organizations with responsibilities for international telecommunications services, for the elaboration of international guidelines for such services, or for the discussion of communications issues. *Topics:* International Telecommunications Satellite Organization (INTELSAT); International Maritime Satellite Organization (INMARSAT); International Committee on Space Research (COSPAR); Search and Rescue Satellite (SARSAT); Inter-governmental Maritime Consultative Organization (IMO); International Civil Aviation Organization (ICAO); Commonwealth Telecommunications Organization (CTO); Conference of Inter-American Telecommunications Commission (CITEL); United Nations Committee on Peaceful Uses of Outer Space (UNCOPUOS); United Nations Educational, Scientific and Cultural Organization (UNESCO); Organization for Economic Co-operation and Development (OECD); North Atlantic Treaty Organization (NATO).

DOC/PLI-015 *Formerly Identified as:* DOC-PL-30

### **Bilateral Relations**

*Description:* Information on Canada's bilateral relations with other nations in the field of communications to ensure the successful pursuit of Canada's multilateral and bilateral interests, and the promotion of Canadian trade and industry. *Topics:* Spectrum co-ordination matters; cable and satellite retransmission rights; communications development in developing countries; satellite services-mobile, direct broadcasting satellites (DBS); implementation of ITU conference decisions; domestic and international communications policies.

DOC/PLI-020 *Formerly Identified as:* DOC-PL-40

### **International Cultural Liaison**

*Description:* Information dealing with Canada's bilateral and multilateral involvement in the field of culture such as the provision of expertise and support on the international aspects that influence the establishment and implementation of cultural and artistic policies, activities and programs; formulation of recommendations for participation in international cultural meetings and conferences; preparation of briefs on international cultural matters and follow-up action and implementation of international cultural programs. *Topics:* International aspects of cultural policy, programs and activities; international protection of Canada's cultural interests; United Nations Economic, Scientific and Cultural Organization (UNESCO); Agence de Coopération culturelle et technique (ACCT); Council of Europe (cultural matters); Commonwealth (cultural matters); cultural visits and missions; bilateral cultural joint commissions; international marketing support of Canadian cultural products; negotiations of bilateral film and television products; co-production agreements.

DOC/PLB-025 *Formerly Identified as:* DOC-PL-50

### **Broadcasting Policy**

*Description:* Information on the formulation of policies and programs and on implementation strategies to develop broadcasting in a way that contributes to Canadian social, cultural and economic objectives. Information on the development and implementation of comprehensive analyses in the field of broadcasting, including the operational monitoring of the Canadian Broadcasting Corporation and broadcast-related activities of Telefilm Canada. *Topics:* Broadcasting, radio; broadcasting, television: projects, reports, policies and programs; television and CATV projects, reports, policies and programs; broadcasting, cable television projects, reports, policies and programs; Canadian Broadcasting Corporation; International Broadcasting Policy; news and specialized broadcasting services; pay television; program production; radio policy; Canadian Broadcast Program Development Fund; Telefilm Canada (broadcast-related activities). *Databases:* Radio, television and cable micro database containing information on broadcasting and cable industries that can

be retrieved quickly for statistical analysis; telecommunications macro database containing information on broadcasting, cable television, telephony and telecommunications industries that can be retrieved quickly for statistical analysis.

DOC/PLB-030 *Formerly Identified as:* DOC-PL-60

### **New Content Services Policy**

*Description:* Information on policies, programs and proposals for non-programming services, including videotex and teletext services, broadcasting, and related communication technologies. Information is also available on office communications systems as the Department is taking part in a field trial on office automation. *Topics:* Microelectronics and social policy; transborder data flow; media and social policy; special interest groups; human and social impact committee; office communications systems program; videotex/teletext; new technology: software and services; applied technologies: arts and culture; new technologies and the disabled; microcomputer services and networks; computer courseware; educational services; Telidon program; University Research Program.

DOC/PLB-035 *Formerly Identified as:* DOC-PL-70

### **Regulatory Policy**

*Description:* Information on the development of policies and legislative measures related to the regulation of telecommunications; specifically radio, television and cable television. *Topics:* Legislation; regulations; directives to the CRTC; appeals to the Governor-in-Council (section 23 of the *Broadcasting Act*); status of cable television; copyright law and cable rediffusion of broadcasts.

DOC/PLB-040 *Formerly Identified as:* DOC-PL-80

### **Extension of Services and Special Audiences Policy**

*Description:* Information on policies, programs and proposals related to the extension and improvement of broadcasting, cable, telecommunications, and new programming and non-programming services for Canadians who are inadequately served by the broadcasting system because of their geographic location or their special cultural, social or physical requirements. *Topics:* Extension of services; northern communications; native communications; Northern Native Broadcast Access Program; communications and the handicapped; broadcasting and social applications of satellites; multilingual broadcasting.

DOC/PLT-045 *Formerly Identified as:* DOC-PL-90

### **Industry Structure and Services**

*Description:* Policies relating to corporate relations and services in the telecommunications carriage industry. *Topics:* Legislation; competition; terms and conditions of service; terminal attachment.

DOC/PLT-050 *Formerly Identified as:* DOC-PL-100

### **Spectrum and Orbit Policy**

*Description:* National telecommunications policies on spectrum, orbital assignment and radio systems. *Topics:* Frequency allocation policy; spectrum utilization policy; radio system policy; orbit policy.

DOC/PLT-055 *Formerly Identified as:* DOC-PL-110

### **Network Development and Standards**

*Description:* National policies related to the orderly development and implementation of telecommunications networks. *Topics:* Network development; standards policy; northern communications.

DOC/PLT-060 *Formerly Identified as:* DOC-PL-120

### **Financial and Regulatory Policy**

*Description:* Policies relating to the regulation of the telecommunications industry. *Topics:* Telecommunications regulation; financial statistics.

## DEPARTMENT OF COMMUNICATIONS

---

DOC/PLR-065 *Formerly Identified as:* DOC-PL-130

### **Federal-Provincial and Regional Relations (Revised)**

*Description:* Information on relations between the Department and the provincial or territorial departments responsible for communications and cultural affairs. *Topics:* Communications: bilateral relations with provinces and territories; broadcasting; carriage; committees; conferences; co-operation and liaison; division of powers, constitutional matters; legislation and regulations; multilateral and bilateral meetings; research; space; spectrum management; cultural affairs: provinces and territories; cultural industries; federal cultural agencies; heritage; the Department's Regional Dimension Action Plan and economic regional development agreements with provinces.

DOC/PLS-070 *Formerly Identified as:* DOC-PL-140

### **Information Services**

*Description:* Information on the planning, management and activities of Information Services. *Topics:* Public affairs; publications and creative services; audio-visual and exhibitions services. *Storage Media:* Files, slides, photos, films, video cassettes.

DOC/PLP-075 *Formerly Identified as:* DOC-PL-150

### **Legislation, Cabinet Liaison and Planning**

*Description:* Information on legislative and Cabinet liaison processes and on strategic financial and policy planning. *Topics:* Telecommunications and broadcasting legislation; Crown corporations; regulatory reform; strategic planning.

DOC/TIP-080 *Formerly Identified as:* DOC-TI-200

### **Technology and Policy Assessment Activities**

*Description:* Information about technological trends and priorities and the technical, economic, institutional, regulatory and social impacts of those key technologies. *Topics:* Technology and industry: regulations and policy; telecommunications applications assessment; Telidon, artificial intelligence, direct broadcasting satellites, sharp project, mobile satellite, office communications systems, information technology; standards; technology forecasting; studies.

DOC/TIA-085 *Formerly Identified as:* DOC-TI-230

### **Space Applications (Revised)**

*Description:* This branch consists of four programs: Satellite Prime Contractor Development Program, to support Spar Aerospace Limited in a three year research and development program for advanced satellite payload sub-systems development; the Brazil Support Program to manage, on behalf of CIDA, the Spar-Embratel satellite training contract with Spar Aerospace, and the Canada-Brazil Technical Co-operation Program; the ESA Communications Program, to perform management functions relating to Canadian participation in the Olympus program of ESA; the EHF Program, to plan and implement a program of EHF technology trials on the Olympus satellite. *Topics:* Satellite Prime Contractor, BRASISAT support, ESA Programs management, Olympus (L-SAT) Program participation, and EHF Program planning and implementation.

DOC/TIA-090 *Formerly Identified as:* DOC-TI-240

### **Mobile Satellite Program (Revised)**

*Description:* The Mobile Satellite (MSAT) Program, begun in the latter part of 1980, exists to foster development of new mobile telecommunications services in Canada. The program has changed from a government demonstration system to a commercially led Canada-US joint venture supported by both the Department and NASA. Under the revised program Telesat Canada is to seek agreements with a US commercial operator to be licensed by the FCC. Telesat is to design the system and procure the spacecraft. The Department's responsibilities during the Implementation Phase include supporting technology development for the spacecraft and ground terminals, supporting Telesat in negotiation of business arrangements in Canada and the US, ensuring adequate spectrum allocation and sharing arrangements with the US, issuing supportive

telecommunications policies, and supporting Telesat by the sharing of technological and market risk in the first generation system. *Topics:* Program and project control; system and service description; committees and working groups; international liaison; domestic and international agreements; program development; contracts and studies plan; spectrum sharing and allocation; policy and regulatory issues.

DOC/TIA-095 *Formerly Identified as:* DOC-TI-250

### **Telidon Exploitation Program**

*Description:* This program, which ran from 1983 to 1985 and is now terminated, promoted the use of Telidon technology in Canadian industries and institutions by supporting the development of new and better content and applications. *Topics:* Content development; industrial applications; government and educational applications; data base management; software development; Telidon Information Management System; Public Access Exhibition System; Telidon impact assessment.

DOC/TIA-100 *Formerly Identified as:* DOC-TI-260

### **Office Communications Systems**

*Description:* The Office Communications Systems (OCS) Program, begun in 1981, is developing a Canadian industrial capability for supplying integrated electronic office systems by supporting field trials in federal government departments. *Topics:* Program planning; field trials; impact assessment; task forces, study and working groups; studies and research program.

DOC/TIA-105 *Formerly Identified as:* NO REFERENCE

### **Informatics Applications (New)**

*Description:* This program is in the planning stages. It will promote the use and development of Canadian informatics products and services to benefit the Canadian economic and social climate by providing awareness services and in some cases the possibility of support programs. *Topics:* Artificial intelligence, machine translation, office automation, networks development, electronic publishing, software development, database management, information management, impact assessment.

DOC/TII-110 *Formerly Identified as:* DOC-TI-210

### **Industry Development Program**

*Description:* Involves the complementary activities of economic development, industry development and marketing support to promote effective government leadership in support of the space, informatics, and telecommunications industries. *Topics:* Program planning; reports and studies; industrial objectives and opportunities; industrial capabilities and requirements monitoring; government support; international bid support; marketing support; earth stations development; industrial aspects of cellular radio.

DOC/TII-115 *Formerly Identified as:* DOC-TI-220

### **David Florida Laboratory**

*Description:* The David Florida Laboratory supports the Canadian aerospace and communications industries by operating environmental test facilities simulating conditions in space, by providing expert consultation on test programs and by developing integration and test techniques required by modern spacecraft. *Topics:* Facilities: certification; electronic support; electrical support; data processing system; radio frequency test; horizontal axis measurements system; spacecraft assembly; system test equipment; spin machines; thermal vacuum systems; vibration unit; integration and tests; satellite testing; Saudi Arabian satellite; ANIK-C; ANIK-D; Australian Domestic Satellite; Brazilian Domestic Satellite; Large Satellite; military satellite; mobile satellite; search and rescue satellite.

## DEPARTMENT OF COMMUNICATIONS

DOC/TIT-120 *Formerly Identified as:* DIC-TI-270

### **Government Telecommunications Program**

*Description:* The Government Telecommunications Program provides a full range of telecommunications facilities and services for federal departments and agencies, including shared and customized voice and data, government of Canada telephone directories, and consulting and advisory services. In addition, the agency discharges functions for the overall planning and co-ordination of telecommunications services on behalf of the federal government. *Topics:* Systems: data, dedicated, voice, shared, inter-city network consolidation, teleconferencing; co-ordination: guidelines and standards, inter-departmental co-ordination, telecommunications projects, research, policy and planning.

DOC/REC-125 *Formerly Identified as:* DOC-RE-370

### **Radar Research (Revised)**

*Description:* Radar research and development on behalf of the Department and the Department of National Defence. Activities include research aimed at improving radar performance, the development of radar systems through industrial contracts, studies and field measurements to assess radar performance and to assist in the definition of new requirements, consultation on major radar procurement projects, and international collaboration on radar research and development. *Topics:* Airborne, maritime, ground-based and space-based radars; signal and data processing; phased array radars; synthetic aperture radars; clutter measurements; TTCP; NATO; RADARSAT.

DOC/REC-130 *Formerly Identified as:* DOC-RE-380

### **Radio Propagation**

*Description:* Information on the transmission of radio waves in the very low frequency (VLF) through the extra high frequency (EHF) bands and the design and management of analog and digital communication systems. *Topics:* VHF/UHF propagation studies, experiments and modelling; International Satellite for Ionospheric Studies; Space Shuttle/Waves in Space Plasmas project; VLF/LF/MF/HF studies and models; microwave propagation studies and experiments.

DOC/REC-135 *Formerly Identified as:* DOC-RE-390

### **Radio Communications**

*Description:* Research and development in the area of radio communications technology, and the performance of radio communications equipment in its operating environment for military and civil applications. *Topics:* Radio communications technology: radio frequency environment, radio systems techniques; radio communications surveillance: high frequency radio findings, military communications.

DOC/REC-140 *Formerly Identified as:* DOC-RE-400

### **Optical Communications**

*Description:* Information on applied research in fibre optics, optoelectronics and photonics; transfer of new technology to industry; fostering of a Canadian fibre optics industry; national and international fibre optics standards; fibre optics-related research in universities; military requirements for fibre optics technology. *Topics:* Research; field trials; military programs; reports on high data rate fibre optics communications; industry contracts; fibre optics standards.

DOC/REC-145 *Formerly Identified as:* DOC-RE-410

### **Military Communications Research and Development (Revised)**

*Description:* Information on military communications systems development and research and development for defence purposes. *Topics:* Modulation and coding; electronic counter-countermeasures; voice and data networks and simulation.

DOC/REI-150 *Formerly Identified as:* DOC-RE-350

### **Information Technology and Systems**

*Description:* Information on research and development in information communications technologies and systems in Canada. *Topics:* Information technology; advanced information systems; networks and standards; behavioural research; artificial intelligence.

DOC/REI-155 *Formerly Identified as:* DOC-RE-360

### **Behavioural Research**

*Description:* This bank contains reports, studies, field trial evaluations, surveys, and interviews involving individual reactions, views and opinions related to the intellectual, creative and productive capabilities of human beings in information communication and related processes, especially human perceptual and cognitive processes, human behaviour, and the interaction between people and communications technology. The reports themselves, published or unpublished, reflect collective human behaviour and not personal information about an individual. Personal information may be obtained in the process of preparing a report to establish the identity and credibility of the source. This information is not used for administrative purposes and is not arranged by or retrievable by personal identifiers. This form of personal information is normally retrievable only if specifics are provided concerning the report involved. The retention of information depends on the length of time it is needed for related research. It is active for the fiscal years that the project is active; otherwise, active for the current fiscal year; and thereafter, inactive but retrievable for the next two years, after which it is stored in archives.

DOC/RES-160 *Formerly Identified as:* DOC-RE-300

### **Space Applications Research and Development**

*Description:* Information on Canadian experimental satellites and satellite communications experiments. *Topics:* Space applications research; direct broadcast satellite studies; 30/20 GHz satellite trials; spectrum and orbit utilization studies; ANIK-B satellite: spacecraft, communication systems, pilot programs, proposals; spacecraft ground control: satellite communications, ISIS satellite; HERMES; Communications Technology Satellite (CTS): reports, experiments, operations, earth terminals; Radarsat.

DOC/RES-165 *Formerly Identified as:* DOC-RE-310

### **Space Electronics Research and Development**

*Description:* Information on electronic subsystems, components and devices for space communications systems in the areas of millimeter wave, microwave, digital technology and reliability. *Topics:* Spacecraft transponders; earth terminals; antennas; device and component development; device and material reliability; spacecraft power systems and batteries.

DOC/RES-170 *Formerly Identified as:* DOC-RE-320

### **Space Systems Research and Development**

*Description:* Information on the research and development of communications and other space systems and subsystems. *Topics:* Space communications systems research; military satellite communications; search and rescue satellite (SARSAT); mobile satellite communications; communications signal processing; low-cost satellite telephony terminals.

DOC/RES-175 *Formerly Identified as:* DOC-RE-330

### **Space Mechanics Research and Development**

*Description:* Information on the research, design and development of spacecraft and their performance. *Topics:* Satellite orbits; satellite dynamics and control systems; satellite structures and mechanisms; satellite materials; system simulations, displays and graphics; solar arrays; in-orbit spacecraft experiments; research testing of control systems, flexible structures, thermal controls and materials for structures and mechanisms.

## DEPARTMENT OF COMMUNICATIONS

---

DOC/RES-180 *Formerly Identified as:* DOC-RE-340

### **Space Technology Research and Development**

*Description:* Information on the overall program elements of space technology and research and development applications. *Topics:* Space research and development policy considerations; domestic and world space program activities; space technology transfer; branch program management and operations.

DOC/RER-185 *Formerly Identified as:* DOC-RE-420

### **Research Policy and Planning**

*Description:* Information on the planning of the communications research programs and the development of policies to govern Canadian research in communications. *Topics:* Present status of communications; planning; technology; communications; space; industrial development; military; university research; development of space subsystems and components (Department of Supply and Services Canada); international collaboration.

DOC/REA-190 *Formerly Identified as:* DOC-RE-430

### **Canadian Work Place Automation Research Centre (Revised)**

*Description:* This class of documents contains information about the programs to be carried out at the Centre. *Topics:* Integrated systems; advanced workplace technology; organizational and societal research; scientific and strategic information network.

DOC/SMS-195 *Formerly Identified as:* DOC-SM-500

### **Spectrum Management Operations**

*Description:* This class of documents contains information on the application of the *Radio Act* and the development and administration of regulations. *Topics:* Call signs; procedures; standards and practices; regulations; spectrum management; computer system operation: data management, Assignment Licensing System (PIB 2004), General Radio Service Licensing System; interference: complaints and suppression; prosecutions for unauthorized installations; Radio Operator Certification Records; frequencies: coordination, amateur, experimental, private and public commercial, radio telephone, ships; monitoring (spectrum surveillance).

DOC/SMB-200 *Formerly Identified as:* DOC-SM-520

### **Broadcast Regulations**

*Description:* This class of records contains information on the technical certification for the granting of broadcast licences by the Canadian Radio-television and Telecommunications Commission, technical standards for broadcasting equipment, development and implementation of radio frequency plans, and frequency assignment criteria and certification procedures. *Topics:* Call signs; technical methods; standards and procedures; broadcast and television engineering program; technical construction and operating certificates; frequencies: AM broadcasting, FM broadcasting, television.

DOC/SME-205 *Formerly Identified as:* DOC-PA-810

### **Emergency Telecommunications**

*Description:* Information on emergency telecommunication planning in support of the Department's mandate summarized in Emergency Planning Order PC 1981-1305 dated 21 May 1981. *Topics:* Emergency measures and crisis management; inter-departmental committee on emergency planning; civil emergency preparedness: Canada, emergency programs, contingency plans, national warning system, emergency broadcast system, emergency planning and support by regions, NATO, US/Canada, military and civil exercises.

DOC/SMG-210 *Formerly Identified as:* DOC-SM-510

### **Engineering**

*Description:* This class of document contains information on technical standards and procedures for radio equipment and systems, the development and implementation of radio frequency plans and frequency assignment criteria. It also contains the Terminal Attachment Program standards and procedures. *Topics:* Equipment

type approval; technical methods, practices and procedures, and standards; development and engineering; spectrum management: assignment and licensing subsystems, research, special projects, pilot projects, spectrum surveillance system, automated systems development.

DOC/ACL-215 *Formerly Identified as:* DOC-AC-600

### **Planning: Cultural Affairs**

*Description:* Information on resource and policy planning. *Topics:* Strategic plan; financial statistics; cultural agencies; national service; organizations policy; cultural corporations policy; corporate policy.

DOC/ACF-220 *Formerly Identified as:* DOC-AC-610

### **Film, Sound Recording, and Publishing Policy**

*Description:* Information on cultural industries in general, their markets, industry participants, related departmental and agency programs, industry associations and policy issues. *Topics:* Canadian ownership; imports and exports; federal cultural agencies: Telefilm Canada, National Film Board; foreign investments/FIRA; tax issues; financial assistance; training and development; postal subsidies.

DOC/ACA-225 *Formerly Identified as:* DOC-AC-620

### **Museums, Libraries and Archives Policy**

*Description:* Correspondence, memoranda and reports relating to museums, libraries and archives policy issues. *Topics:* Heritage; historical resources; libraries; museums; archives.

DOC/ACA-230 *Formerly Identified as:* DOC-AC-630

### **Canadian Cultural Agencies (Revised)**

*Description:* Correspondence, memoranda and reports relating to the following Canadian cultural agencies: National Library of Canada, National Museums of Canada, Canada Museums Construction Corporation, Public Archives Canada, Canada Council, and National Arts Centre. *Topics:* National Library: mandate, policies, programs, facilities; National Museums (including the National Gallery, the National Museum of Man, the National Museum of Natural Sciences, and the National Museum of Science and Technology): mandate, policies, programs, facilities; Canada Council: organization and legislation, programs and development, requests for information and assistance; National Arts Centre: facilities, organization and legislation, financial policy, resident companies.

DOC/ACA-235 *Formerly Identified as:* DOC-AC-640

### **Performing, Visual and Literary Arts Policy**

*Description:* Correspondence, memoranda and reports relating to performing, visual and literary arts policy issues. *Topics:* Arts; performing arts; Capital Grants Program; music; theatre; dance; taxation: Canadian artists, tax issues and treatment of the artists; federal sales tax; tax expenditures; tax incentives and fiscal measures; Trade-in-Services (task force); visual arts; crafts; exhibitions and fairs; literary arts.

DOC/ACP-240 *Formerly Identified as:* DOC-AC-650

### **Social Policy**

*Description:* This directorate formulates departmental social policy to enable the federal government to influence actual or expected impacts of new communications services and cultural incentives on Canadian society. *Topics:* Social policy development; sociocultural impact studies; technology assessment.

DOC/ACC-245 *Formerly Identified as:* DOC-AC-660

### **Copyright Policy Development**

*Description:* Information on the formulation and recommendation of departmental copyright policy and associated legislative development at departmental and inter-departmental levels. *Topics:* Criteria for copyright protection; subject matter of protection; economic and moral rights of copyright owners; ownership of copyright; exceptions to protection; term of protection; infringement of copyright and

## DEPARTMENT OF COMMUNICATIONS

remedies; briefs and submissions relating to the above; copyright-based industries; interfacing of communications; copyright policies.

DOC/ACS-250 *Formerly Identified as:* DOC-AC-670

### **Assistance to Book Publishers**

*Description:* Separate files are maintained for each application under the program's eight components. Files contain information on the corporate and financial status of the book publisher or industry group involved. Project specifications and all correspondence is included on file. The program also maintains an automated data bank with financial information on each applicant. *Topics:* Assistance programs; sales and marketing assistance; production of Canadian textbook and related materials; company analysis and implementation; project research and implementation; foreign rights marketing; professional development; research and documentation; export development; studies related to program performance.

DOC/ACS-255 *Formerly Identified as:* DOC-AC-680

### **Canadian Film and Videotape — Certification**

*Description:* An automated information bank containing information on applications from producers for certification of their film and videotape productions. An additional manual and automated filing system exists containing individual application forms and supporting documentation. *Topics:* Numbers of certified shorts and features by year, total budgets; percentages of key creative Canadians used by year; percentages of remuneration paid to Canadians special requests for statistics wherever possible. Individuals performing key creative functions, percentages of Canadian costs, location and time of shooting, as well as such confidential information as budgets, prospectuses and audited statements; this class of documents contains personal information of creative personnel, such as name, address and citizenship, which is listed in further detail in the Privacy Index.

DOC/ACS-260 *Formerly Identified as:* DOC-AC-690

### **Canadian Content and the Incentive Policy Information**

*Description:* Information on policies of various government bodies and trade associations relating to the Capital Cost Allowance Program. *Topics:* Information on policy matters relating to Canadian content and tax incentives of bodies such as the Canadian Association of Motion Picture Producers; Canadian Film and Television Association; Canadian Radio-television and Telecommunications Commission; Telefilm Canada; Institut Québécois du cinéma; Alberta Film Development Corporation; Revenue Canada; Department of Finance;

documents dealing with various policy issues related to the Capital Cost Allowance Program.

DOC/ACS-265 *Formerly Identified as:* DOC-AC-700

### **Cultural Initiatives Program: Applications for Financial Support**

*Description:* Information concerning projects for which financial support has been requested from the program. *Topics:* Management and viability of cultural organizations; special activities and events; capital projects.

DOC/ACS-270 *Formerly Identified as:* DOC-AC-710

### **Travelling Exhibitions: Applications for Insurance**

*Description:* The program maintains separate files on each application for insurance coverage from a Canadian museum, gallery, archive or library. The files contain information regarding the facilities of the applying institution, details of the materials making up the travelling exhibition in question and their value, and correspondence relating to the application. *Topics:* Insurance for travelling exhibitions; museums; galleries; archives; libraries.

DOC/ACS-275 *Formerly Identified as:* DOC-AC-730

### **Movable Cultural Property: Policy and Activities**

*Description:* This class of documents contains information about the departmental activities related to the *Cultural Property Export and Import Act*. It includes files on the administration of the *Cultural Property Export and Import Act*, the applications for designation of institutions and public authorities as eligible recipients of cultural property grants, loans and tax certificates; applications for grants and loans, and files on applications for export permits. *Topics:* Purpose of the Act, amendments and associated instruments; policy concerning patriation of cultural objects, certification for tax purposes, export and import control; case files of illegal imports and exports; designation of eligible institutions; cultural property grants and loans; export permits; cultural property export control; cultural property protection in other countries.

DOC/SCS-280 *Formerly Identified as:* DOC-PA-800

### **Communications Electronic Security**

*Description:* Information on the communications electronic security (COMSEC) program in relation to the Department's mandate to provide advice and guidance to most federal departments and agencies, the development of COMSEC doctrine and policy formulation and the provision of engineering support and co-ordination of equipment acquisition. *Topics:* COMSEC policy, COMSEC equipment and COMSEC support.

# OFFICE OF THE COMPTROLLER GENERAL

---

## Background

The position of Comptroller General of Canada was created by Bill C-10, an amendment to the *Financial Administration Act*, on June 30, 1978. The Comptroller General reports to the President of the Treasury Board.

## Overall Responsibilities

The role of the Office of the Comptroller General (OCG) is to see to the establishment and maintenance of sound management practices in the federal government.

OCG officials work with program managers and departmental specialists to establish policy and to give advice on management practices, particularly in areas such as financial and management accounting and reporting, internal audit, and program evaluation.

The Office of the Comptroller General has three branches plus a Planning and Co-ordination Unit.

## Access Procedures

Access to Information and Privacy Co-ordinator  
Office of the Comptroller General of Canada  
Place Bell Canada  
20th Floor N.E.  
160 Elgin Street  
Ottawa, Ontario  
K1A 1E4  
Telephone: (613) 993-6480

## Management Practices Branch

The branch works with deputy ministers and departmental senior managers to ensure that departments develop, use and implement sound management practices tailored to their needs and an integrated approach to financial and non-financial planning and reporting, to improve management practices and controls.

Co-operation between the branch and the departments takes the form of an OCG survey to identify areas where improvements are needed, an action plan by each department to carry out the improvements, and the implementation of the plan, which is carried out by the department and monitored by the OCG.

The Management Practices Branch also manages and/or participates in the conduct of special management projects that are both departmental and interdepartmental in nature.

### Manuals

- Branch Policies and Procedures Manuals

## Policy Development Branch

The branch develops and maintains financial and management accounting policies for the Government of Canada and offers technical and implementation advice to departments and agencies on these policies. It also provides specifications for the development of financial systems in government, and participates in the recruitment and development of financial officers in departments.

The branch is also responsible for reporting policies in the federal government, including the form and content of the estimates and the public accounts. The Policy Development Branch also develops, maintains, monitors and helps departments to implement policies, guidelines and standards for internal audit in the Government of Canada. Finally, the branch is responsible for the co-ordination and preparation of the government's response to the Auditor General's annual report.

### Manuals

- Glossary of Financial Terms
- Internal Audit Handbook
- Performance Measurement Manual
- Specifications for Departmental Systems Manual
- Catalogue of Financial Systems
- Treasury Board Guide on Financial Administration
- Accounting and Reporting Handbook
- Guide to the Estimates of the Government of Canada

## Program Evaluation Branch

The branch is responsible for seeing that departments implement Treasury Board policy on program evaluation. This branch works with departments and agencies to ensure that periodic, critical and objective examination of programs becomes an established practice in the management of the public service. The principal activities of the Program Evaluation Branch include the definition of government-wide policies and standards for program evaluation; advice and assistance to departments in the development and ongoing operation of this function; participation in the training and development of managers and practitioners of program evaluation; monitoring the quality of evaluation products; and, in conjunction with other central agencies, establishing government-wide and departmental procedures for the use of evaluation information.

### Manuals

- Guide on the Program Evaluation Function
- Principles for the Evaluation of Programs

## Classes of Records

---

OCG/PCU-005 *Formerly Identified as:* OCG-10  
**Committees**

*Description:* Information on committees that the Comptroller General chairs and those of which he or she is a member, such as the Treasury Board Secretariat Advisory Committee (TBSAC); Committee of Senior Officials (COSO) and Cabinet Committee on Government Operations; also historical records such as the Federal Business Development bank loan applications.

OCG/PCU-010 *Formerly Identified as:* OCG-30  
**Auditor General**

*Description:* Information on the Office of the Auditor General and general correspondence between the Office of the Auditor General and the Office of the Comptroller General. *Topics:* Study of procedures in cost-effectiveness (SPICE).

OCG/PCU-015 *Formerly Identified as:* OCG-40  
**Improvement of Management Practices and Controls**

*Description:* General information on the establishment of improvement of management practices and controls (IMPAC) project.

OCG/PCU-020 *Formerly Identified as:* OCG-50  
**Parliamentary Matters**

*Description:* General information on parliamentary matters. *Topics:* Minister's House Book.

OCG/MPB-025 *Formerly Identified as:* OCG-60  
**General Information**

*Description:* General information on the Cabinet Committee; central agency requirements; departmental contacts; expenditure management framework; liaison, management consultants; project on operational control in scientific research; training and development.

# OFFICE OF THE COMPTROLLER GENERAL

---

OCG/MPB-030 *Formerly Identified as:* OCG-70

## **Conferences, Meetings, Presentations, Speeches**

*Description:* Information on conferences, meetings, presentations, and speeches on a wide variety of subjects pertaining to the improvement of management practices and controls.

OCG/MPB-035 *Formerly Identified as:* OCG-80

## **Improvement of Management Practices and Controls**

*Description:* Information on improvement of management practices and controls, Surveys I, II, III; the development and implementation of action plans (including monitoring); implementation assistance program (IAP), departmental strategies, and anniversary meetings. *Special Access Note:* Action plans are produced by departments and are their property.

OCG/PDB-040 *Formerly Identified as:* OCG-90

## **General Information**

*Description:* Policies for financial administration in departments and agencies of the Government of Canada; accrual accounting; Canada Year Book; common services; interdepartmental charging; lease or buy; legal opinions; legislation; mail management; accounting studies implementation plan; Public Works Canada revenue dependency; review of Supply and Services Canada implementation resources; Royal Commission on Financial Management and Accountability (Lambert Commission); Department of Finance monthly reports on the standard rate of exchange; transfer of costs between departments.

OCG/PDB-045 *Formerly Identified as:* OCG-100

## **Accounting and Control of Expenditures**

*Description:* Information on the delegation and communication of financial signing authorities by ministers and deputy heads in a manner that provides controls on the disbursement of public money through adequate enforcement of an appropriate division of responsibilities. *Topics:* Account verification and payment requisitioning; accounting for inventories; control of Receiver General cheques; accounting and control procedures; cheque issue security and bank losses; corporate credit card; departmental bank accounts; grants and contributions; payable at year end (PAYE); standard payment period and interest payment policies; pay procedures; petty cash.

OCG/PDB-050 *Formerly Identified as:* OCG-110

## **Accounting and Control of Revenue and Accounts Receivable**

*Description:* Information on controls of the operational and financial systems of the Government of Canada. *Topics:* Collection and deletion of debts due the Crown; interdepartmental settlements; standing advances; standing interdepartmental committee.

OCG/PDB-055 *Formerly Identified as:* OCG-120

## **Acts**

*Description:* Information on certain Acts that apply to the Public Service of Canada such as the *Adjustment of Accounts Act*.

OCG/PDB-060 *Formerly Identified as:* OCG-130

## **Auditor General**

*Description:* Information on the *Auditor General's Act*; and the independent review committee of the Office of the Auditor General (Wilson Committee) and reports.

OCG/PDB-065 *Formerly Identified as:* OCG-140

## **Budgetary Control**

*Description:* Information on Governor General's warrants; commitment accounting; managerial control of budgets.

OCG/PDB-070 *Formerly Identified as:* OCG-150

## **Budget Preparation**

*Description:* General information on budget preparation, program planning and budgeting.

OCG/PDB-075 *Formerly Identified as:* OCG-160

## **Classification of Accounts and Transactions**

*Description:* Information on classification and coding of financial transactions of the Government of Canada. *Topics:* Classification and coding project; expenditure and revenue coding; study of classification and coding of financial transactions (N.G. Ross Study, 1973-75).

OCG/PDB-080 *Formerly Identified as:* OCG-170

## **Cost-effective Management Controls**

*Description:* General information on cost control, departmental responses and revenue and cost recovery.

OCG/PDB-085 *Formerly Identified as:* OCG-180

## **Crown Corporations**

*Description:* General information on Crown corporations; also their audit, financing and mailing lists.

OCG/PDB-090 *Formerly Identified as:* OCG-190

## **Departmental Enquiries**

*Description:* Information on enquiries to the Office of the Comptroller General of Canada from departments and agencies on subjects where no specific class of records exists.

OCG/PDB-095 *Formerly Identified as:* OCG-200

## **Financial Administration Evaluation**

*Description:* A study to evaluate the results of the transfer of financial responsibilities to departments and agencies from central control agencies. *Topics:* Canadian Radio-television and Telecommunications Commission (CRTC); Environment Canada; Health and Welfare Canada; Veterans Affairs Canada.

OCG/PDB-100 *Formerly Identified as:* OCG-210

## **Government Reporting**

*Description:* General information on government reporting of public expenditures. *Topics:* Public accounts; reform of the main estimates; revolving funds and working capital advances; study of the accounts of Canada (N.G. Ross Study 1973-75); valuation of recorded assets.

OCG/PDB-105 *Formerly Identified as:* OCG-220

## **Internal Audit**

*Description:* Information on internal auditing within the federal government: the systematic, independent review and appraisal of all departmental operations, including administrative activities, for the purpose of advising the deputy minister and senior managers on the efficiency, economy and effectiveness of the internal management practices and controls; internal audit input into program evaluation activities, as warranted; and policy statements, guidelines and standards by the Office of the Comptroller General of Canada to departments and agencies. *Topics:* Audit and evaluation; committees; employment and staffing; improvement of management practices and controls; action plans, Survey I, II; long-term audit plans; performance assurance; research projects; study of internal audit; liaison; handbook.

OCG/PDB-110 *Formerly Identified as:* OCG-230

## **Liaison**

*Description:* Information on the exchange of information between the federal government and provincial and territorial governments, universities, foreign countries and accounting associations.

## OFFICE OF THE COMPTROLLER GENERAL

---

OCG/PDB-115 *Formerly Identified as:* OCG-240

### **Management of the Financial Function**

*Description:* General information on the management of government finance; also the improvement of management practices and controls.

OCG/PDB-120 *Formerly Identified as:* OCG-250

### **Operational Management and Systems**

*Description:* Information on the periodic performance measurement by departments and agencies of the federal government whose programs are subject to Treasury Board review, of the effectiveness and efficiency of their operations. *Topics:* Annual EDP reports and plans; committees, commissions; departmental financial reporting systems (TIMAC); liaison — commercial suppliers, departments and agencies; performance measurement — development and implementation, improvement of management practices and controls project (IMPAC), program forecast analysis, projects, administrative overhead, food inspection, reports, reviews; publications; specifications for departmental systems — introduction, managerial control systems, financial and operational control systems, appendices; study of duplication of financial reports; systems inventory; systems projects. *Retrievability:* Files are arranged by subject, department, agency, committee, commission, province, territory, commercial supplier, project and manual.

OCG/PDB-125 *Formerly Identified as:* OCG-260

### **Professional Development**

*Description:* Information on the planning and direction of human resources development in the federal public service. *Topics:* Classification, organization, staffing; committees — interdepartmental advisory committee on financial administration development (IACFAD); courses — departmental programs, financial officer recruitment and development program (FORD), government expenditures management (GEM), resourcing; liaison — universities; seminars; studies; professional development — classification, organization, staffing.

OCG/PDB-130 *Formerly Identified as:* OCG-270

### **Regulations**

*Description:* Information on regulations that apply to the federal public service, such as the loss of money after public officers' guarantee.

OCG/PEB-135 *Formerly Identified as:* OCG-280

### **General Information**

*Description:* Information on various policy and operational program evaluation projects carried out by the branch.

OCG/PEB-140 *Formerly Identified as:* NO REFERENCE

### **Conferences and Meetings (New)**

*Description:* Information on conferences and meetings on a variety of subjects pertaining to program evaluation.

OCG/PEB-145 *Formerly Identified as:* OCG-290

### **Committees**

*Description:* Information on committees dealing with program evaluation. *Topics:* Parliamentary Review of Program Evaluation (White Paper).

OCG/PEB-150 *Formerly Identified as:* OCG-300

### **Departmental Program Evaluation Operations**

*Description:* Information on the development and implementation of program evaluation in departments and agencies.

OCG/PEB-155 *Formerly Identified as:* OCG-310

### **Liaison**

*Description:* Information on co-operation and exchange of information on program evaluation matters with foreign governments, institutions, private citizens, provinces, universities, departments and agencies.

OCG/PEB-160 *Formerly Identified as:* OCG-320

### **Task Force on Program Evaluability**

*Description:* Information on the establishment of a task force to work with departments to plan for the effective use of program evaluation in departmental management.

OCG/PEB-165 *Formerly Identified as:* OCG-330

### **Techniques and State of the Art**

*Description:* Bibliography; operational and internal audit; program evaluability criteria; zero base budgeting; and A-base review.

OCG/PEB-170 *Formerly Identified as:* OCG-340

### **Training and Development**

*Description:* Information on training and development in the field of program evaluation.

## Background

The Department of Consumer and Corporate Affairs was created in 1967 to bring together, as much as was practical, federal law governing the marketplace.

The legislation and policies of the Department are designed to stimulate efficiency and productivity among suppliers of goods and services, and to promote fair economic treatment in commercial transactions for all concerned.

The Department is organized into four bureaus: Consumer Affairs, Competition Policy, Policy Co-ordination and Corporate Affairs. The work of the bureaus is supported by three service branches and field staff in the Atlantic, Québec, Ontario, Prairie and Pacific regions. The Department is also responsible for the administration of the metric conversion program and the UFFI assistance program.

## Laws and Regulations

- An Act Respecting the Use of the Expression "Parliament Hill"
- Bankruptcy Act
- Bills of Exchange Act (ss.188-192)
- Boards of Trade Act
- Canada Agricultural Products Standards Act — enforcement of regulations related to the products at the retail level
- Canada Business Corporations Act
- Canada Co-operative Associations Act
- Canada Corporations Act
- Combines Investigation Act
- Companies' Creditors Arrangement Act
- Department of Consumer and Corporate Affairs Act
- Consumer Packaging and Labelling Act
- Copyright Act
- Electricity Inspection Act
- Farmers' Creditors Arrangement Act
- Fish Inspection Act — fish inspections in retail trade
- Food and Drugs Act — enforcement of regulations respecting deception; health and safety aspects of food administered by Health and Welfare Canada
- Gas Inspection Act
- Government Companies Operation Act
- Hazardous Products Act
- Hudson's Bay Company Act
- Industrial Design Act
- Insurance Companies, Canadian and British (ss.4.1, 4.3, 4.5)
- Interest Act
- National Trade Mark and True Labelling Act
- Patent Act
- Pension Fund Societies Act (ss. 4, 6, 7)
- Precious Metals Marking Act
- Public Documents Act
- Public Officers Act
- Public Servant Inventions Act (s.4)
- Seals Act
- Shipping Conferences Exemption Act (s. 12)
- Tax Rebate Discounting Act
- Textile Labelling Act
- Timber Marking Act

- Trade Marks Act
- Trade Unions Act
- Urea Formaldehyde Insulation Act
- Weights and Measures Act
- Winding-Up Act (Part 1)

## Organization

### Bureau of Consumer Affairs

The bureau promotes and protects the consumer interest in the marketplace, thus contributing to the viability and integrity of the market economy.

The legislation the bureau administers includes the *Hazardous Products Act*, the *Consumer Packaging and Labelling Act*, the *Textile Labelling Act*, the *National Trade Mark and True Labelling Act*, the *Tax Rebate Discounting Act*, the *Weights and Measures Act*, the *Electricity Inspection Act* and the *Gas Inspection Act*. Compliance with the legislation is sought by means of trader information, inspection, persuasion and, ultimately, prosecution.

The bureau is responsible for enforcing legislation respecting manufactured foods at all levels of trade; and, at the retail level only, legislation respecting agricultural food products.

The bureau also promotes and protects the consumer interest through consumer information, advocacy within government and with industry, and by financial and technical support of consumer groups.

The bureau is organized into five headquarters branches: consumer products, consumer services, legal metrology, product safety, and management services; and five regional directorates: Atlantic (Dartmouth), Québec (Montréal), Ontario (Toronto), Prairie (Winnipeg) and Pacific (Vancouver). Services are available at 56 locations in Canada. In general, the branches are responsible for the development of policies and programs, while regional directorates are responsible for the adaptation and implementation of programs in their respective regions.

### Bureau of Corporate Affairs

This bureau seeks to provide a legal framework for the orderly conduct of business. It incorporates federal, commercial and non-profit corporations, regulates bankruptcy proceedings for insolvent companies and individuals, and licenses and supervises trustees in bankruptcy. The bureau also encourages invention, innovation and creativity in Canada through the granting of exclusive property rights for inventions (patents), trademarks, industrial designs and copyright of original literary, dramatic, musical and artistic works. Inventors and originators can thus control the copying of their creations, derive profit from them, and make them known to all Canadians.

### Bureau of Competition Policy

The chief responsibility of this bureau is the administration of the *Combines Investigation Act*.

The purpose of the *Combines Investigation Act* is to help maintain effective competition to achieve maximum production, distribution and employment in a mixed system of public and private enterprise. To this end, the legislation seeks to eliminate certain practices that restrain trade and to overcome concentrations that tend to prevent the economic resources of Canada from being used most advantageously for all. The Act also contains provisions against misleading advertising and deceptive marketing practices.

In addition, the director of investigation and research is empowered to appear before various regulatory bodies in Canada to make

# DEPARTMENT OF CONSUMER AND CORPORATE AFFAIRS

---

representations in support of the expansion or maintenance of competition in regulated markets.

The bureau also promotes public understanding of the content and scope of the Act and of the economic and social significance of an effective competition policy, and it represents Canada's interest in international competition policy issues.

## Bureau of Policy Co-ordination

The bureau is responsible for research and policy analysis activities and liaison with external organizations in the area of consumer and corporate affairs. The bureau ensures the co-ordination of all communications and policy-related activities, and undertakes reviews of legislation administered by the Department. It has overall responsibility for evaluating and periodically auditing all departmental programs, and it co-ordinates planning activities at the corporate level.

The bureau is organized into three operational units: the policy research, analysis and liaison directorate; the communications branch; and the audit, evaluation and control branch.

Since April 1, 1985, the bureau has incorporated the metric office. The metric office was created to take over the duties involved in completing metric conversion in Canada, following the abolition of the Metric Commission on March 31, 1985.

## Metric Commission

The Metric Commission of Canada, established by Order-in-Council PC 1971-1146 of June 10, 1971 for the purpose of advising the Minister on plans for conversion to the metric system in Canada, was abolished on March 31, 1985.

## Office of the Assistant Deputy Registrar General

The office is responsible for implementing major aspects of the federal government's conflict of interest policy. It also registers instruments and documents issued under the Great Seal of Canada, the Seal of the Registrar General of Canada and the Privy Seal of the Governor General.

The deputy minister, who is also the deputy Registrar General of Canada, is supported by the finance and administration directorate, the personnel branch and the departmental secretariat.

## Departmental Secretariat

The departmental secretariat is responsible for facilitating, co-ordinating and controlling the quality of contents, deadlines and consistency between the Department's policies and those of the government, with respect to written communications between the Minister, deputy minister and the Department, as well as communications between the Minister and deputy minister and government departments and agencies, the Privy Council Office, private associations and the general public. The secretariat has the responsibility for applying the legislation on access to information and the protection of privacy. The secretary is also responsible for the departmental status of women plan of action.

## Finance and Administration Directorate

The general administration of finance, material and property, records and information systems, and library services is carried out by this directorate.

## Personnel Branch

This branch is responsible for administering the personnel management system within the Department. It also provides service to departmental management and employees for the personnel functions of planning and staffing; training; organization and classification; staff relations and pay and benefits; affirmative action; official languages; occupational health and safety, security, fire and emergency; counselling; and personnel management information.

## UFFI Information and Co-ordination Centre

The Urea Formaldehyde Foam Insulation (UFFI) information and co-ordination centre was created in June, 1981 to administer the technical and financial assistance program for homeowners with UFFI. This program, announced on December 23, 1981 by the Minister of Consumer and Corporate Affairs, was established to co-ordinate the action of federal agencies and departments involved in this issue, namely Health and Welfare Canada, the National Research Council, and the Canada Mortgage and Housing Corporation; to provide technical advice and assistance to registered homeowners on necessary remedial measures; and to reimburse registered homeowners, up to an amount of \$5,000, for the costs incurred in the execution of remedial measures (including total removal), and other homeowners who, as of August 4, 1982, had already proceeded with remedial measures, including total removal, or who were in the process of doing so. The *Urea Formaldehyde Insulation Act* was proclaimed in force on October 25, 1982.

### Bureau of Consumer Affairs

#### Consumer Products Branch

The branch administers acts and regulations affecting the packaging, labelling, advertising and quality composition of both food and non-food products. Also included is the administration of some provincial statutes respecting the grading and sale of agricultural and fish products at the retail level. These activities are supported by inspection and compliance strategies implemented by field staff.

#### Manuals

- Food Policy Manual — provides official interpretation of the *Consumer Packaging and Labelling Act* and Regulations and the *Food and Drugs Act* and Regulations
- Procedures and Training Manual — provides official procedures for the administration of the *Food and Drugs Act* and *Consumer Packaging and Labelling Act*
- Meat Cuts Manual — provides information to inspectors on the administration of the Retail Meat Cut Nomenclature Program
- Precious Metals Marking Procedures Manual — provides a work and reference instrument on manufacturing processes, inspection and testing procedures, and technical terms
- Consumer Packaging and Labelling Policy and Procedures Manual — provides a work and reference instrument on net quantity determination, enforcement, legislation and interpretations
- Inspection Procedures Manual — Retail Food — provides information to inspectors on retail food stores
- Consumer Products Inspectors' Procedures Manual
- Textile Policy and Procedures Manual — provides a training and reference instrument on textile technology and programs
- Prosecution Training Manual for Field Inspectors

- CA Identification Number Microfiche Index on Textile Dealers

# DEPARTMENT OF CONSUMER AND CORPORATE AFFAIRS

## EDP Systems

- An information system to evaluate compliance of commercial establishments with the different consumer protection laws.

## Consumer Services Branch

This branch supports the consumer interest in the public, private and voluntary sectors through programs of market intelligence, support to consumer organizations and by encouraging improved institutional practices in business to meet consumer needs. It administers the *Tax Rebate Discounting Act* and is supported by field staff.

## EDP Systems

- Consumer services mailing labels system — was established to print labels and alphabetical lists for mailing purposes.
- Tax rebate system — established to control data-report information, to reduce data storage space requirements of system, and to monitor tax discounters, transactions for violations of the *Tax Rebate Discounting Act*.

## Legal Metrology Branch

This branch administers the *Electricity and Gas Inspection Act* and the *Weights and Measures Act*. To minimize inaccurate measurements and ensure equity in the measurement of electricity, natural gas, and goods and services provided on the basis of length, area, volume or capacity, temperature, time, mass or weight, the branch conducts approval examinations and inspection of devices, maintains and calibrates standards, and inspects goods and services. The branch is also involved in co-ordinating Canada's participation in the Organisation internationale de Métrologie légale.

## Manuals

- Manual of Electrical Procedures and Policy
- Inspectors' Training Manual Electricity, Vols. I and II
- Enforcement Policy for Weights and Measures Devices
- Standard Test Procedures — Weights and Measures
- Inspection Procedures Outline — Weights and Measures
- Weights and Measures Information System Manual
- Weights and Measures Approval Index
- Standard Drawing for Electricity Metering Installations
- Departmental Instructions for Inspection of Gas Meters and Auxiliary Devices
- Specifications for Approval of Type of Electricity Meters, Instrument Transformers and Auxiliary Devices
- Canadian Participation in OIML (BIL)
- Recommendations and International Documents of OIML

## Product Safety Branch

This branch administers the *Hazardous Products Act*. The Act deals with a range of goods and includes specific mention of product categories for household, garden or personal use, for sports or recreational activities, or for children. It also mentions, without reference to end use, poisonous, toxic, flammable, explosive and corrosive products, but excludes from its purview, food, drugs, cosmetics, pest control products, radioactive materials, explosives, and highway vehicles. Products may be banned or regulated under the legislation. Functions of the branch include product testing for regulatory development purposes and for compliance with established regulations. Inspectors, designated under the Act, have powers of search and seizure. The branch is supported by field staff.

## Manuals

- Hazardous Products Reference Manual — a reference instrument

on the administration and enforcement of the *Hazardous Products Act* and Regulations

## Bureau of Corporate Affairs

### Bankruptcy Branch

The branch administers the *Bankruptcy Act* by providing assistance in the filing of consumer bankruptcies; by protecting both bankruptcy creditors' and debtors' rights; by licensing and supervising trustees-in-bankruptcy; by detecting abuses of the bankruptcy process both before and after bankruptcy; by maintaining and disseminating general and statistical bankruptcy and insolvency information; by acting in the regions as an agent for the Corporations Branch and disseminating information and materials on the *Canada Business Corporations Act*; and by acting as a depository for any documents to be filed pursuant to the *Canada Business Corporations Act* or any intellectual property legislation. The branch is supported by field staff.

### Manuals

- Policy Statements of the Superintendent of Bankruptcy — provides guidelines for observance by trustee
- Information Statements of the Superintendent of Bankruptcy — provide less mandatory guidelines than the policy statements and are also used to communicate information of general interest
- Bankruptcy Branch Training Modular — provides a training manual on bankruptcy procedures and policies
- Bankman — provides a reference tool of internal policy releases and directives
- Central Registry Information System (CRIS) — provides procedures for accessing CRIS
- Manual of Directives for the Centralized Receipts and Disbursements System (CRDS) — provides a reference tool of procedures to be used in maintaining the CRDS
- Trustee Licence Insurance Procedures — provides policies and procedures to be followed in issuing trustee licences to both individuals and corporations
- Bankruptcy Officer Training Program — provides a modular training program for new bankruptcy officers

### Corporations Branch

The branch administers the *Canada Corporations Act*, the *Canada Business Corporations Act*, and several other statutes, through the examination and qualification of incorporation, continuance, amalgamation and dissolution of corporations; the management of a database of corporate names; the acquisition, assessment and verification of information to the public; and the issuance of exemptions from various requirements of the *Canada Business Corporations Act*; and for the conduct of enquiries and investigations into corporate misconduct.

### Manuals

- Examination Unit Procedures — guidelines on how to examine *Canada Business Corporations Act* articles and *Canada Corporations Act* applications
- Compliance Policy and Procedures — provides interpretations of Act and Regulations, directives and operational procedures
- Instruction Manual for Field Offices — provides instruction to field personnel in dealing with public enquiries on corporation matters
- Accounts Receivable Procedures — provides instructions on billing actions and other changes related to accounts receivable system
- Corporate Integrated Information System User Manual — provides data entry and error correction procedures for maintaining the corporate integrated information system; also provides layouts

## DEPARTMENT OF CONSUMER AND CORPORATE AFFAIRS

---

and descriptions of the master file, microfiche and magnetic tape outputs.

### EDP Systems

- Corporate integrated information system (CIIS) — contains data used for internal record keeping and information dissemination. The master file also contains various data elements used for the issuance of certificates of incorporation and corporate alteration and for the administration of branch programs dealing with compliance enforcement activities.

### Directorate of Intellectual Property — Copyright and Industrial Design Branch

The branch administers the *Copyright Act*, the Copyright Rules, and *Industrial Design Act* and Industrial Design Rules. Copyright ownership is registered and industrial design applications are examined; if they meet requirements they are registered. The branch also administers the *Timber Marking Act*.

#### Manuals

- Dictionary of Shapes and Terms Thereof — provides a reference of geometric terms used by examiners
- Classification Manual — provides a listing of the various classes of classification of industrial designs
- Examination Guidelines — provides guidelines for the examination of industrial design applications
- Policy Guidelines — provides a reference of published policies on the examination of industrial design applications
- Procedures Manual — Processing — provides procedures for the processing of copyright and industrial design applications

### Patents Office

The Patents Office administers the *Patent Act* and Patent Rules. Patent applications are examined for compliance with legislative requirements, and if the requirements are met a patent is granted. The office also receives applications for grant of compulsory licences under Section 67 of the *Patent Act* when alleged abuse of patent rights has occurred, or under Section 41 of the *Patent Act* when the invention is directed to foods or medicines. The office maintains public records, publishes the Patent Office Record on a weekly basis, and maintains a public search room where members of the public can obtain information.

#### Manuals

- Manual of Patent Office Practice — outlines policy relating to the examination of patent applications
- Handbook of Patent Examination (HOPE) — provides procedures for preparing examiners' correspondence
- Classification Section Support — provides procedures for documentation and registration
- Staff Operating Procedures — provides procedures for classification of patents
- Handbook of Classification — outlines the basis of the Canadian patent classification system and rules for using it
- Patent Examiners' Report Manual — outlines the standard paragraphs used in reports, to facilitate the use of word processing equipment

### Trade Marks Office

This office administers the *Trade Marks Act* and Trade Marks Rules. Trade mark applications are examined for compliance with the legal requirements for registration and, if approved, they are advertised in

the Trade Marks Journal to enable persons to oppose registration of any mark that they feel would interfere with their existing rights. Opposition proceedings are conducted to determine if the opposition is justified. The office maintains a Trade Marks Register and files of registered users of trade marks. These documents can be studied in the trade marks search room.

#### Manuals

- Trade Marks Examination Manual — provides a working instrument regarding the interpretation and application of the *Trade Marks Act* and Rules
- Office Composing Equipment (OCE) User Manual for General Automatic (GA) System — provides procedures for the operation of the GA microcomputer

### Bureau of Competition Policy

#### Manuals

- Office Manual, Director of Investigations and Research — sets out procedures employed by the Bureau in the exercise of formal powers under the *Combines Investigation Act*

### EDP Systems

- Marketing practices information system — established to maintain information on past prosecutions, to be used by various report programs, and to recover transactions as needed.
- Petroleum industry — contains petroleum industry data supplied by the Department of Energy, Mines and Resources.
- Soft drinks — contains price data for the soft drink industry in Manitoba.

### Manufacturing Branch

The branch undertakes industrial and economic analyses and conducts enquiries under the *Combines Investigation Act* concerning the manufacturing sector of Canadian industry, excluding the manufacturing sectors of the pulp and paper and petroleum industries which are the responsibility of the Resources Branch. The Manufacturing Branch has similar responsibilities concerning the construction industry.

### Regulated Sector Branch

The branch is responsible for interventions of the director of investigation and research before regulatory boards and for enquiries on the transportation and telecommunications industries.

### Economic Analysis and Policy Evaluation Branch

The branch conducts research into the performance of the Canadian economy in relation to competitive market situations and recommends economic and structural changes that could increase economic efficiency.

### Resources Branch

This branch analyzes complaints and other evidence, and conducts enquiries under the *Combines Investigation Act* concerning the activities of firms in the resource industry, including agriculture, fishing and food processing, trapping and fur processing; the forest industry, including manufacture and distribution of wood and wood products; the production, mining and primary processing of all minerals; and the production and distribution of energy, including electrical power, coal and petroleum products.

# DEPARTMENT OF CONSUMER AND CORPORATE AFFAIRS

---

## Services Branch

The branch analyzes complaints and other evidence with respect to alleged restrictions of competition in the service and distribution industries, and conducts enquiries under the *Combines Investigation Act*.

## Marketing Practices Branch

The branch administers the misleading advertising and deceptive marketing practices provisions of the *Combines Investigation Act*. These include representations that are false or misleading in a material respect, unsubstantiated claims, misleading warranties, misleading price representations, untrue and misleading tests and testimonials, double ticketing, pyramid schemes, referral selling, bait-and-switch selling, sales above advertised price, and promotional contests.

### Manuals

- Marketing Practices Policy Manual — sets out enforcement policy and provides guidance to officers in the administration of the sections of the *Combines Investigation Act* pertaining to marketing practices
- Marketing Practices Operational Manual — sets out procedures employed in the handling of complaints, the conduct of investigations and prosecutions, and provides guidance to officers and support staff in the Marketing Practices Branch in carrying out their duties

## Bureau of Policy Co-ordination

### Analysis and Liaison Directorate

The directorate conducts research activities in the consumer and corporate affairs areas with emphasis on developing and securing adoption of legislative and regulatory reforms of the departmental statutory and program base; assesses and provides analysis and advice relative to departmental policies, and other policies emanating from outside, that may be of direct interest to the Department's mandate; develops strategies and selects targets to achieve an efficient impact in departmental representation in federal, provincial, and international forums.

### EDP Systems

- National consumer satisfaction/dissatisfaction study — data include information on consumer satisfaction or dissatisfaction, with demographic profiles of dissatisfied consumers, reasons for dissatisfaction, and types of action taken. Also included are rates of purchase, perceived importance, and levels of satisfaction or dissatisfaction for food and clothing, durables, and services.
- Patent research system — to provide statistical analysis of Canadian patents.
- Technical assessment of Energuide program — to provide an analysis of trends in energy consumption of appliances, and describe the theory and empirical estimates of the market values of product features and energy efficiency, from information obtained from a survey of retail outlets, from Energuide directories, and from manufacturer's product literature.

## Audit, Evaluation and Control Branch

The branch provides systematic, independent and objective reviews and appraisals of all departmental operations with respect to the efficiency, economy and effectiveness of internal management practices and controls. It also performs periodic, independent and objective reviews of ongoing programs in order to recommend alternative choices related to objectives, sub-objectives, results and/or

means of delivery; strengthens and co-ordinates the substance of departmental plans and controls; and ensures effective interaction with central agencies on all planning and control activities.

## Communications Branch

The branch ensures that government policies are taken into consideration in structured communication activities; designs and implements communications strategies to gain public understanding and support for the interests of the Department; provides expert advice on communication policies and logistic support through production; and provides distribution and liaison services.

### EDP Systems

- Research bulletin — mailing list — used to create mailing labels.

## Office of the Assistant Deputy Registrar General

### Conflict of Interest Organization

The assistant deputy Registrar General administers, on behalf of the Prime Minister, the government's conflict of interest policy and guidelines that pertain to Lieutenant Governors, Ministers, their exempt staffs and Governor-in-Council appointees, and provides policy advice to the government, the Privy Council Office and deputy heads.

## Registration Division

This division is responsible, in the name of the Registrar General, for the issue and registration of commissions and other documents under the Formal Documents Regulations pursuant to the *Public Officers and Seals Acts* and as required by other Acts. The division also provides services to the Governor General's office, federal government departments, corporations and agencies, other governments and the public.

## UFFI Information and Co-ordination Centre

The centre administers a federal government program of technical and financial assistance to owners of Canadian dwellings retrofitted with urea formaldehyde foam for thermal insulation purposes. The program includes on-demand formaldehyde screening tests, full scale testing and remedial advice, training for contractors and homeowners in a registered remedial measures course, administration of financial contributions to eligible owners, and an across-Canada toll-free telephone information service. The centre also co-ordinates federal government activities and policies related to UFFI.

### Manuals

- Training Manual on Corrective Measures for Residences Insulated with Urea Formaldehyde Foam Insulation (UFFI) — provides information required to understand corrective measures and how to correct problems in UFFI homes
- Study Guide on Corrective Measures for Residences Insulated with Urea Formaldehyde Foam Insulation — contains exercises to reinforce selected areas of the training manual
- Policy Manual — sets out policies to ensure consistency of program decisions with the legislation and regulations

### EDP Systems

- Urea formaldehyde insulation system — established to control and monitor amount of money requested by homeowner and the amount sent; to provide information on homeowners, contractors and statistical analysis; to provide information on what stage the homeowner is at in the program.

## DEPARTMENT OF CONSUMER AND CORPORATE AFFAIRS

### Classes of Records

CCA/BCA-005 *Formerly Identified as:* CCA-10

#### Energy Program

*Description:* Information on planning, enforcement, research, correspondence and complaints, and enquiries concerning the labelling and energy consumption of electrical products. *Topics:* Planning, control, research, electrical product efficiency — legislation; contracts; committees; rulings enforcement; marketing; advertising.

CCA/BCA-010 *Formerly Identified as:* CCA-20

#### Foods

*Description:* Information on food inspection programs. *Topics:* Inspection agreements and reports; legislation; surveys; studies; technical and statistical information; advertising; liaison with associations; councils, companies; labelling and advertising approvals; content and date marking packaging; pricing and coding; processed products; surveillance; prosecutions; reference material; complaints; enquiries; sampling and testing concerning food products.

CCA/BCA-015 *Formerly Identified as:* CCA-21

#### Consumer Products — Packaging and Labelling

*Description:* This class covers information on regulations, interpretations and rulings, complaints and enquiries, correspondence, inspections, seizures, prosecutions, statistical data, and sampling and testing concerning non-food products. *Topics:* Commodity regulations; surveillance and enforcement programs; economic data; liaison; companies, other departments, provinces, boards, Canadian General Standards Board; importation; surveys; test work, special products. *Storage Medium:* A system on magnetic tape is used to evaluate the compliance of various commercial establishments with the different consumer protection laws. *Retrievability:* Files arranged by subject with a case file arrangement for company enquiries by name.

CCA/BCA-020 *Formerly Identified as:* CCA-22

#### Consumer Products — Precious Metals and Fur Garment Marking

*Description:* This class covers information on regulations, interpretations and rulings, complaints and enquiries, correspondence, inspections seizures, prosecutions, statistical data, sampling and testing concerning precious metal products and fur garments. *Topics:* Fur: garment marking, liaison, surveillance and enforcement, companies; precious metals marking: surveillance and enforcement — companies, foreign government marks, national mark, trade marks. *Storage Medium:* A system on magnetic tape is used to evaluate the compliance of various commercial establishments with the different consumer protection laws. *Retrievability:* Files arranged by subject with a case file arrangement for company enquiries by name.

CCA/BCA-025 *Formerly Identified as:* CCA-40

#### Textile Labelling

*Description:* Information on regulations, interpretations and rulings, complaints and enquiries, correspondence, company registration, inspections, seizures and prosecutions, and sampling and testing of textile products. *Topics:* Textile labelling and legislation; liaison with the Canadian General Standards Board; Canada standards size program; care labelling program; liaison with other departments, provinces, boards, councils; identification numbers; importation; laboratory compliance program; surveillance and enforcement; surveys; testwork; upholstered and stuffed articles.

CCA/BCA-030 *Formerly Identified as:* CCA-100

#### Advocacy Programs

*Description:* Information on regulations, reference material, enforcement issues, prosecution, issues and correspondence concerned with the consumer advocacy and representation programs, and review of regulatory reform.

CCA/BCA-035 *Formerly Identified as:* CCA-120

#### Consumer Help Offices

*Description:* Statistical data, evaluations and recommendations on the funding of consumer help offices. *Retrievability:* Case files arranged by office location.

CCA/BCA-040 *Formerly Identified as:* CCA-130

#### Enforcement Programs

*Description:* Complaints and enquiries, technical information, correspondence. *Topics:* Tax rebate discounting; audits; investigations and prosecutions; reports and statistics; statements of discounting transactions. *Storage Medium:* A list of discounters is on magnetic disc or drum to monitor tax transactions for violations; also on EDP systems.

CCA/BCA-045 *Formerly Identified as:* CCA-140

#### Market Intelligence, Issues and Projects

*Description:* Complaints and enquiries, reference material, market monitoring, correspondence, and surveys and studies concerned with issues that are or could be of consumer interest. *Topics:* Motor vehicles; auto rust and anti-corrosion; financial; food; retail and manufacturing; services; telephone and communications; travel industry; product quality and durability; retail/refund return policies; and mechanisms for consumer feedback to business.

CCA/BCA-050 *Formerly Identified as:* CCA-150

#### Legal Metrology

*Description:* Information on metering, specifications, symbols and standards, metric conversion and international measurement. *Topics:* Calibrations; liaison with associations, councils and international organizations; technical enquiries; metric conversion; misleading advertising and standards.

CCA/BCA-055 *Formerly Identified as:* CCA-160

#### Electricity and Gas

*Description:* Information on the electricity and gas program. *Topics:* Electricity — approvals, imports and exports, statistics, inspection regulations and reports, calibrations, registration applications; gas — inspection regulations, approvals, calibrations, technical information, inspection reports, metric conversion standards and equipment, and registration applications.

CCA/BCA-060 *Formerly Identified as:* CCA-170

#### Weights and Measures

*Description:* Information on the measurement of volumes, linear and cubic area, and mass; includes interpretations, specifications, prosecutions, standards, testing and international measurement. *Topics:* Linear and cubic area — approvals, calibrations, statistics; mass and volume — approvals, calibrations, technical information, metric conversion, tests and test methods.

CCA/BCA-065 *Formerly Identified as:* CCA-171

#### Legal Metrology OIML (Organisation internationale de Métrologie légale) Programs

*Description:* Information on international standards, Canada's participation in international working groups and Canada's comments and votes. *Topics:* Organization internationale de Métrologie légale — general, international recommendations. *Retrievability:* Files arranged by subject.

CCA/BCA-070 *Formerly Identified as:* CCA-180

#### General Product Safety

*Description:* Information on compliance and enforcement, statistical data and programs within product safety, and correspondence. *Topics:* Standardization control; statistical data; correspondence; associations; societies; institutions; boards; councils; commissions; committees; *Hazardous Products Act*; injury date and statistics; Canadian accident injury reporting and evaluation (CAIRE); labelling; publicity; projects; regulations; reports.

## DEPARTMENT OF CONSUMER AND CORPORATE AFFAIRS

CCA/BCA-075 Formerly Identified as: CCA-190

### Products

*Description:* Information on regulations, company liaison, complaints and enquiries, reference materials, sampling and testing, and enforcement concerning specific products. *Topics:* Alarm and protective devices; artist supplies and stationery; appliances; entertainment; furnishings; furniture care supplies; garden and yard equipment; home fuels; home structures and building material; insulation; housewares; infant and childrens' products; maintenance products; paper products and containers; personal use items; recreation equipment; sports and protective equipment; textiles; tools and workshop equipment; toys; compliance. *Retrievability:* Files are arranged by product.

CCA/BCA-080 Formerly Identified as: CCA-200

### Testing

*Description:* Information on testing and test methods for specific products. *Topics:* Equipment design; fabrication and modification; legislative matters; test methods; chemical flammability; mechanical, electrical and textile testing of specific products. *Storage Medium:* Magnetic disc or drum (testing and sampling tracking system). *Retrievability:* Files are arranged by test and product.

CCA/COA-085 Formerly Identified as: CCA-210

### Bankruptcy

*Description:* Information on investigations, licensing, assets and liabilities, enquiries, discharges, legal actions, control and audits, enquiries on civil and common law, and correspondence on bankruptcies. *Topics:* Audits and auditing; student loans; examination; fraudulent bankruptcies; enquiries — civil law, common law; bonds and bonding; claims; conferences; liaison — foreign governments, provinces, etc.; costs and taxation; dividends; estates; fees and expenses; instruction bulletins; investigations, legal; licences; offences; petitions; projects; prosecutions; reports and statistics; trustees; central registry information system; investigation of bankruptcies; trustees-in-bankruptcy; bankruptcy estate control files; retired or rejected applications. *Storage Medium:* Information systems (EDP) contain insolvency data used by bankruptcy offices to publish bankruptcy notices. *Retrievability:* Trustee files are arranged by name of individual or corporation.

CCA/COA-090 Formerly Identified as: CCA-211

### Corporations

*Description:* Information on applications, charters, financial statements, annual summaries and returns, enquiries, liaison with companies, enforcement and surveillance concerning incorporation of companies. *Topics:* Exemptions; take-over bids; enquiries; boards of trade; trade unions; companies. *Storage Medium:* There are magnetic tapes, containing data on federally and provincially incorporated companies, which are used to produce microfiche and the Canada Corporations Bulletin. *Retrievability:* Files arranged by subject with a case file arrangement by company name.

CCA/COA-095 Formerly Identified as: CCA-212

### Copyright and Industrial Design

*Description:* Information on legislation, registration and revision, enquiries, consultation with provinces, the private sector, and other departments; registration, and complaints and enquiries about authors' and designers' works. *Topics:* Copyright Act and legislation. *Industrial Design Act* and legislation; copyright and industrial design case files; *Timber Marking Act*. *Retrievability:* Files arranged by subject with cases filed numerically by applicant name.

CCA/COA-100 Formerly Identified as: CCA-221

### Patents

*Description:* Information on application, registration, licensing, legal actions, studies, correspondence, regulation, complaints and enquiries, and research and technical data concerned with inventive works. *Topics:* Liaison with universities, associations, departments, foreign

governments, provinces; information retrieval; caveats; court actions, licenses; legislation; agents; application; classification; complaints and enquiries; public servants' inventions; surveys and studies; technology. *Retrievability:* Files arranged by subject with a large case system by applicant name.

CCA/COA-105 Formerly Identified as: CCA-222

### Trade Marks

*Description:* Information on applications, registrations, licensing, regulation, correspondence, and enquiries concerned with trade marks and their uses. *Topics:* Trade marks interpretations; abandonments; appeals, applications, oppositions, registered users, trade mark agents and examinations; appellation of origin. *Retrievability:* Files arranged by subject with case filing by trade marks.

CCA/BCP-110 Formerly Identified as: CCA-270

### Combines

*Description:* Information on enquiries, legalities, surveys, interpretations of the *Combines Investigation Act*. *Topics:* Program of compliance, international agreements; interdepartmental committees; conferences; co-operation and liaison; enquiries; exports; imports; investments; textiles labelling; merchandising; mergers; monopolies; patents; price fixing; research; sales; services; tariffs; identical tenders; trade; trade practices; trademarks; transportation; warranties; guarantees. *Storage Medium:* Magnetic tape (locator system).

CCA/BCP-115 Formerly Identified as: CCA-280

### Standard Industrial Classification

*Description:* Information on enquiries, complaints, legal proceedings and prosecutions under the *Combines Investigation Act*. *Topics:* Industries; agricultural and retail services; fishing and trapping; logging and forestry; mining; manufacturing; construction; transportation and storage; communications and other utilities; wholesale and retail trade; finance and insurance; real estate and operating insurance agents; business services; government services; educational services; health and social services; accommodation; food and beverage services. *Storage Medium:* Microfilm, magnetic tape. *Retrievability:* Case files are arranged under the 18 major groups of the standard industrial classification system.

CCA/BCP-120 Formerly Identified as: CCA-290

### Marketing Practices

*Description:* Enquiries, complaints, investigations, legal proceedings, interpretations of the *Combines Investigation Act*, and correspondence on misleading advertising and deceptive marketing practices. *Topics:* Advertising enquiries; misleading advertising complaints (National, Pacific, Ontario, Québec, Atlantic and headquarters); program of compliance. *Storage Medium:* Use of magnetic tapes (listing complaints that have been closed for two years or more) commenced in 1984. *Special Access Note:* Files are arranged by subject, company and individual name.

CCA/BPC-125 Formerly Identified as: CCA-291

### Consumer Choice

*Description:* Information on review, assessment, consultation, policy and research, and media coverage. *Topics:* Consumer choice; advertising; access to consumer information; consumer information search; consumer products information review; consumer (dis)satisfaction and post-purchase behaviour; evaluation criteria formulation; information labelling project — Cantag; consumer choice in problem markets. *Retrievability:* Files arranged by subject.

CCA/BPC-130 Formerly Identified as: CCA-292

### Legislation and Regulations

*Description:* Information on policy, research, consultations, studies, briefing materials, reports and studies, and media coverage of consumer legislation and regulations. *Topics:* Consumer legislation; anti-corrosion code; economics of regulation in consumer protection; electricity and gas inspection; legal framework tableau; product

## DEPARTMENT OF CONSUMER AND CORPORATE AFFAIRS

liability; professional groups; regulation activity and reform in government; consumer research: Consumer and Corporate Affairs Canada activities, programs — energy research and development panel; surveys, studies and evaluations; systems — management information. *Retrievability:* Files arranged by subject.

CCA/BPC-135 *Formerly Identified as:* CCA-293

### **Market Structure**

*Description:* Information on problem recognition and assessment, policy, studies, consultations research, and reports on marketing issues. *Topics:* Market structures; distribution systems; education; environment; transportation — air, automobiles roles; access to financial services — credit programs survey; status of women; credit counselling; deposit calculations; electronic funds transfer preliminary bibliography review, universal product code and automated checkout system; financial security — life insurance, registered retirement savings plan, registered home ownership savings plan, indebtedness; legislation — action plan, *Bank Act*, financial tables for rate calculations and mortgage prepayment penalties; *Small Loans Act*, tax rebate discounting; money management; health and welfare; federal drug price reduction program; retail drug pricing and advertising; housing. *Retrievability:* Files are arranged by subject.

CCA/BPC-140 *Formerly Identified as:* CCA-294

### **Food and Economic Policy**

*Description:* Information on agricultural, economic and industrial policies. *Topics:* Controls and post controls — inflation, the way ahead; federal-provincial relations; foreign; monetary; prices — indexes and surveys regional situation; regulations; taxes; unemployment; industries — energy and fuels, metals, minerals, textiles and clothing; wood; food — Canada, distribution, industry, legislation and programs, nutrition policy, prices and indexes, processing, retailing, United States, weather; agricultural marketing; dairy — milk, programs; egg industry, productions, regulations, statistics; fish; fruits and vegetables; grains; meat — beef, pork; poultry — chicken, turkeys; oilseeds; sugar; wheat; agreements on tariffs and trade, United Nations Committee on Trade and Development; tariffs — imports, quotas; trade — agreements, extra-territoriality. *Retrievability:* Files arranged by subject.

CCA/BPC-145 *Formerly Identified as:* CCA-295

### **Corporate Affairs Research and International Affairs**

*Description:* Information on economics, agreements, development of international policies; also correspondence, research and technical data; and surveys, studies, and statistical data concerned with intellectual property. *Topics:* Economic research; copyright — contracts, literature; domestic law; industrial law; patents — contracts, database; trademarks — contracts; intellectual property law revision. *Retrievability:* Files arranged by subject.

CCA/BPC-150 *Formerly Identified as:* CCA-296

### **Audit, Evaluation and Control**

*Description:* Information on all audits and program evaluations planned and carried out by the branch as well as working documents associated with the departmental planning and control function. *Topics:* Traded goods; weights and measures; tax rebate discounting, electricity and gas; corporations; bankruptcy; copyright and industrial design; patents; trademarks; metric conversion; deceptive marketing practices; combines investigation; regulatory interventions; consumer

assistance; support of consumer groups; product safety; UFFI; communications; research and policy analysis; administration. *Retrievability:* Files arranged by subject.

CCA/BPC-155 *Formerly Identified as:* CCA-297

### **Communications**

*Description:* Information on the preparation of all communication projects; exhibitions both planned and carried out by the branch to support departmental policies and programs. *Topics:* Communications service — advertising, exhibits, fairs, exhibitions, displays, enquiries, mailing lists; programs and projects — departmental, competition policy, consumer affairs, corporate affairs, policy co-ordination, metric conversion, UFFI, RTPC, Standards Council, research reports; radio and television; speeches. *Retrievability:* Files arranged by subject.

CCA/BPC-160 *Formerly Identified as:* CCA-330

### **Metric Conversion**

*Description:* Policies; correspondence with companies, federal and provincial government departments, other governments, associations, and committees; legislation concerned with the metric conversion program. *Topics:* Research; surveys and development; legislation and treaties; commodities, industries and markets.

CCA/DRG-165 *Formerly Identified as:* CCA-300

### **Conflict of Interest**

*Description:* Information on conflict of interest guidelines, parliamentary material, reports, appointments, correspondence with federal government departments, agencies, councils, commissions and provincial governments. *Topics:* Conflict of interest responsibilities — investments, trusts, parliamentary matters, guidelines for Lieutenant Governors, Ministers, their exempt staffs, Governor-in-Council appointees and public servants; supplementary guidelines for members of government departments, corporations, agencies, commissions and boards; liaison and co-operation.

CCA/DRG-170 *Formerly Identified as:* CCA-310

### **Registration**

*Description:* Information on regulations; studies; enquiries; correspondence with other departments, provinces and countries; certificates of registration, appointments, deeds, grants, mortgages; and letters patent. *Topics:* Appointments — boards, councils, commissions, federal government departments, agencies, Crown corporations, committees, judges, administrators, commissioners; documents — bonds, deeds, railway mortgages, land grants, pardons, proclamations, departmental rulings, seals, warrants of extradition. *Storage Medium:* Microfilm.

CCA/UFF-175 *Formerly Identified as:* CCA-320

### **Urea Formaldehyde Foam Insulation (UFFI)**

*Description:* Information on regulations, grant applications, complaints, procedures and methods for testing, and related research. *Topics:* Federal government departments and agencies; federal-provincial relations — conferences, groups and associations; compensation and assistance; management information systems; claims; legal; medical; technical research; company enquiries; laboratory accreditation; bidders; contracts; removal devices and proposals; testing — pilot and main projects, UFFI II. *Retrievability:* Case files are arranged by name of individual.

## Background

The Office was established in 1973 pursuant to the *Inquiries Act*. The Correctional Investigator's mandate, as established in 1977 by Order-in-Council, is "to investigate, on his own initiative, on request from the Solicitor General of Canada or on complaint from or on behalf of inmates as defined in the *Penitentiary Act* and report upon problems of inmates that come within the responsibility of the Solicitor General of Canada".

The staff of the Office visit all federal penal institutions across Canada regularly to conduct interviews with inmates and staff in an attempt to resolve complaints through liaison with the Commissioner of Corrections and his staff.

## Background

Defence Construction (1951) Limited (DCL) is a Crown corporation as defined in Part XII of the *Financial Administration Act* and listed in Part 1 Schedule 1 of that Act. The Corporation is the contracting and supervisory agency for the major military construction and maintenance projects required by the Department of National Defence. The Corporation is also known as Defence Construction Canada.

## Overall Responsibilities

Defence Construction (1951) Limited performs a specialized role within the general field of construction management. Its principal functions are to obtain tenders, make recommendations on proposed awards and to award and administer contracts. In addition, at the request of the Department of National Defence (DND), DCL engages architectural and consulting engineering firms to prepare plans and specifications in accordance with the requirements of DND. The limits of authority under which the Corporation may enter into a contract or increase the amounts payable under a contract are set out in the government contracts regulations.

# ECONOMIC COUNCIL OF CANADA

---

## Background

The Economic Council of Canada is an independent research and advisory body established by Parliament in 1963, with broad terms of reference to study and report on Canada's economic development. Under the *Economic Council of Canada Act* the Council has a special mandate to advise the government on how Canada can achieve the highest possible levels of employment and efficient production so that the country may enjoy a high and consistent rate of economic growth and all Canadians may share in rising living standards.

## Laws and Regulations

- Economic Council of Canada Act, 1963
- Bylaws of the Economic Council of Canada

## Overall Responsibilities

The Council has three principal functions:

- to conduct economic analyses and undertake studies with a view to providing a greater understanding of the workings of the Canadian economy and its prospects for the future;
- to make recommendations to government and the private sector on economic policy measures to improve Canada's economic performance; and
- to educate and inform the Canadian public on economic problems and to stimulate, through the media and other forums, public discussion of policy solutions and economic strategies.

The Council must also transmit an annual report to the Minister responsible on the activities of Council, including financial statements; and prepare and publish an annual review of medium- and long-term economic prospects and problems. The Council may also publish other studies and reports; the themes of these projects involve virtually every aspect of daily life. The Council's work has included studies of such diverse subjects as the distribution of wealth among Canada's regions, the cost of taking a taxi in Montréal, land-use planning in Vancouver, and the effect of the spruce budworm on Newfoundland's economy.

In addition to its regular program of research, the Council at times undertakes special projects referred to it by the Prime Minister and reports on these to the public. In recent years, these have included a major study of government regulation in Canada and a detailed analysis of the economy of Newfoundland.

## Organization

The Council is made up of an appointed board of up to 28 members, supported by a full-time staff of economists and other specialists who work under the direction of a chairman and two full-time directors. The appointed members of the Council are representative of various sectors of Canadian society. The chairman and the two directors are members of the Council.

The staff is organized into a number of research project and support service groups. The former undertake research into specific aspects of the economy, including relations with other countries, and upon completion of a research task, permanent personnel are reassigned. New groups are created from time to time to address economic issues of current and possible future concern.

Formal requests under the *Access to Information Act* should be addressed to

Access to Information Co-ordinator  
Economic Council of Canada  
P.O. Box 527  
Ottawa, Ontario  
K1P 5V6  
Telephone: (613) 993-1030

## Major Data Sources

Research projects rely almost exclusively on data published by major organizations in the private sector, governmental departments and agencies (particularly Statistics Canada), and numerous international agencies. Special tabulations of such data are frequently compiled for the Council. On occasion, special surveys have been undertaken to develop required data; for instance, surveys of firms were undertaken in 1980-81 to assess skill shortages and innovation and invention activity.

## Major Council Activities

### Annual Review

Under its Act, the Council must publish annually a medium-term economic review. This publication — the Council's annual assessment of the medium- and long-term prospects for the Canadian economy — is published each fall. In it, the Council seeks to provide an analysis of the performance of the Canadian economy, to look at the effectiveness of current economic policies, and to set out policy options that the Council believes will improve the country's economic well-being. The recommendations in the annual reviews arise from the deliberations of the Council's appointed members. Thus, they represent the official view of the Council as a whole. Individual members are free to publish dissenting opinions or comments.

## Special Research Projects

From time to time, the Council embarks on detailed studies of current and emerging economic issues in Canada and the outside world. Once approved by Council, the staff carry on research that may lead to publication of "consensus" reports — that is, research and policy publications that are endorsed by the majority of Council members.

## Background Papers

Background research and unpublished documents related to all project activities within the Council are maintained and organized at the Records Office under the title of the project, the name of the author and final report title. Quantitative information presented in any report is documented, and worksheets are available at Statistical Services.

For long-past publications, background studies to major Council documents are held by the Public Archives of Canada. Interested members of the public are welcome to contact the Council's Information Division to obtain a publication list and to enquire about access to documents of interest. Included are numerous technical papers and the magazine *Au Courant*, which provides non-technical articles on many of the Council's reports and technical studies. These are available to the public, in limited quantities, free of charge.

## Support Divisions

### Information Division

This division is responsible for translating and editing Council documents, for publishing and disseminating Council reports in both languages, for providing public information, and publishing a quarterly magazine.

### Data Processing Division

The Council's statistical and data processing service maintains close links with researchers. One part of this group is concerned with writing computer programs and manipulating large quantities of data. A large portion of the computing power and needs of the Council is purchased from service bureaus; however, use of personal computers (CPC's) is increasing. The other segment of the group is responsible for the verification of sources and accuracy of all data. Any tabulation or calculation appearing in Council reports is submitted to such verification before being made public. Records of such information are kept on file under the management of the Chief of Statistical Services.

## Classes of Records

---

ECC/CRA-005 Formerly Identified as: ECC-10

### Twenty-second Annual Review

*Description:* Research and background material for the Twenty-second Annual Review to be released in the fall of 1985. *Topics:* Total factor productivity, its meaning and measurement, and an evaluation thereof in a domestic and international perspective; macroeconomic conditions; monetary policy in a world perspective; Canadian investment performance; and consideration of policy options for attainment of performance targets in all major economic goal areas, as developed through the Council's computerized model of the Canadian economy (CANDIDE).

## ECONOMIC COUNCIL OF CANADA

---

### ECC/CRA-010 *Formerly Identified as:* ECC-20 **CANDIDE**

*Description:* Information and unpublished documents on the Council's computerized econometric model (CANDIDE 3.0 and earlier versions). The model allows measurement of current performance and simulation of future performance under various scenarios and policy options. The simulations are designed to assess the impact of changes in economic performance that may result from changes in public policy or in economic conditions in Canada and abroad. The process of updating the model and assessing the influences of changing conditions is continuous.

### ECC/CRA-015 *Formerly Identified as:* ECC-60 **Taxation of Capital Income**

*Description:* Research and unpublished material on the taxation of capital income. *Topics:* Consequences of present and alternative tax treatments of capital incomes for the allocation of resources and in the distribution of income; developing recommendations for improved capital income tax structures; specification of transitions necessary to implement the recommendations; specification of related changes in capital markets and financial instruments that may be called for.

### ECC/CRA-020 *Formerly Identified as:* ECC-70 **Government Enterprises**

*Description:* Research and unpublished material on all government enterprises engaged in the production of generally marketable goods and services. *Topics:* The appropriate role to be played by such enterprises and ways in which the system of incentives and controls affecting them may be altered so as to make them more desirable instruments of public policy; performance of government corporations; ability of such enterprises to effectively provide various goods and services.

### ECC/CRA-025 *Formerly Identified as:* ECC-80 **Technological Change and Labour Markets**

*Description:* Research and unpublished material on developments in technology and the implications thereof for labour markets. *Topics:* The growth, change, and other occupational and industrial shifts in employment arising from technological change; institutional adaptations, such as industrial relations, patterns of working time, compensation, and the quality of working life, that may be associated with technological change; education and mobility required by the adjustment process; social measures required to distribute equitably the benefits and costs resulting from technological change.

### ECC/CRA-030 *Formerly Identified as:* ECC-110 **Explorations**

*Description:* Preliminary investigation of various economic issues to determine their nature, scope and pertinence to the Council's future research program and organization of colloquia to address major economic, social and environmental issues not currently being researched. *Topics:* The status of Canadian agriculture; the interrelationships between the environment and the economy; health care in Canada; post-secondary education; and economic status of women.

### ECC/CRA-035 *Formerly Identified as:* NO REFERENCE **Adjustment and Adaptation (New)**

*Description:* Research and background material concerning economic responses required to adjust and adapt to conditions that arise from changes in international trade circumstances, technology and demand. *Topics:* Impacts of changing trade conditions on Canadian industry; varying industrial adjustments required by the primary, manufacturing and service sectors of the economy; social assistance program design that will accommodate industrial adaptation and social justice objectives; and impacts of imposed economic changes on various geographic regions.

### ECC/PAA-040 *Formerly Identified as:* ECC-50 **Energy**

*Description:* Research and unpublished material relating to the Council consensus document, *Connections: An Energy Strategy for the Future*. *Topics:* World and domestic supplies of and demand for various forms of energy; the policy setting in which energy is produced and consumed; energy conservation and substitution; and designs for new energy strategies.

### ECC/PAA-045 *Formerly Identified as:* ECC-10 **Twenty-first Annual Review**

*Description:* Background research and unpublished documents related to the Twenty-first Annual Review, 1983. *Topics:* The medium-term economic outlook; government in the economy including consideration of the public debt; the business and international debt situation; employment and unemployment; technological changes; and targets for economic performance.

### ECC/PAA-050 *Formerly Identified as:* ECC-40 **Regional Studies — Development**

*Description:* Background research and unpublished documents prepared as background to the Council consensus document, *Western Transition*. *Topics:* Problems and prospects facing Canada's four western provinces; the constitutional and economic settings in which western development will take place; elaboration of prospects for development in the resource-based industries, transportation, the service sector and manufacturing; and the impact and opportunities associated with urbanization.

### ECC/PAA-055 *Formerly Identified as:* ECC-120 **Technological Change, Productivity and Growth**

*Description:* Research and unpublished material relating to the Council consensus document, *The Bottom Line: Technology Trade and Income Growth*. *Topics:* Report on industrial policies and challenges faced by governments and the private sector in promoting technological change, productivity growth and competitive trading sectors.

### ECC/PAA-060 *Formerly Identified as:* ECC-130 **Twentieth Annual Review**

*Description:* Background research and unpublished documents related to the Twentieth Annual Review, 1983. *Topics:* Changes in the demographic and structural nature of the economy with special references to the social services' "safety net" and the role of women in the work force; consideration of performance targets set as challenges to policy makers; policies designed to attain elaborated targets in a period of change.

### ECC/PAA-065 *Formerly Identified as:* ECC-140 **Nineteenth Annual Review**

*Description:* Background material for the 1982 Annual Review. *Topics:* Inflation; investment; balance of payments; federal economic development, energy, monetary, fiscal and incomes policies; unemployment insurance premiums; government deficits in times of recession; world and domestic oil pricing; adjusting for inflation.

### ECC/PAA-070 *Formerly Identified as:* ECC-150 **Financial Markets**

*Description:* Background material for the Council consensus document, *Intervention and Efficiency: A Study of Government Credit and Credit Guarantees to the Private Sector*. *Topics:* Effectiveness of government credit and credit guarantees to business, agriculture, export trade and housing; nature, scope and objectives of government intervention; operation and efficiency of private financial markets; impact of government intervention on the allocation of financial and real resources; efficiency of delivery of financial assistance.

## ECONOMIC COUNCIL OF CANADA

ECC/PAA-075 *Formerly Identified as:* ECC-160

### **Labour Markets**

*Description:* Background research and unpublished documents related to the Council consensus document, *In Short Supply: Jobs and Skills in the 1980s*. *Topics:* Unemployment, job supply and demand; effectiveness of manpower training programs; job search and labour market mechanisms; shortages of skilled labour; gearing training to labour market requirements; the importance of information in balancing jobs and skills; potential for job creation.

ECC/PAA-080 *Formerly Identified as:* ECC-170

### **Financing Confederation**

*Description:* Background research and unpublished documents related to the Council consensus document, *Financing Confederation: Today and Tomorrow*. *Topics:* The future of equalization payments and of "conditional" federal-provincial grants related to expenditures on health and postsecondary education; the implications of intergovernmental fiscal arrangements for stabilization policy; natural resource pricing decisions and the fiscal positions of federal and provincial governments and intergovernmental transfers; implications of the transfer system for the economy.

ECC/PAA-085 *Formerly Identified as:* ECC-180

### **Eighteenth Annual Review**

*Description:* Research and background material for the 1981 Annual Review. *Topics:* Performance and development prospects — price and cost developments; inflation; employment and productivity objectives.

ECC/PAA-090 *Formerly Identified as:* ECC-190

### **Reforming Regulation**

*Description:* Background research and unpublished documents for this study on the impact of regulation on business; also specific sectors — telecommunications, transportation, fisheries, agricultural marketing boards — and general issues such as occupational health and environmental pollution. *Topics:* Land use; food processing and distribution; health and safety; occupational licensing and labour relations, with emphasis on the regulatory dimension; the cost of regulatory compliance confronting large and small businesses. *Special Access Note:* This consensus document was preceded by an interim report entitled: *Responsible Regulation (EC22-70/1979)*. The interim report defined the subject to be researched, the research framework,

the balance between the direction and control of statutory regulatory agencies, and the necessary autonomy for such agencies to carry out their functions, as well as the need to improve governmental decision-making on regulation.

ECC/PAA-095 *Formerly Identified as:* ECC-200

### **Seventeenth Annual Review**

*Description:* Background material for the 1980 Annual Review. *Topics:* National economic trends 1970 to 1980; projections developments and investment — effects on the national economy, energy self-sufficiency objectives and government budgets; research on productivity trends, particularly the slowdown in productivity improvement.

ECC/PAA-100 *Formerly Identified as:* ECC-210

### **Newfoundland Development**

*Description:* Background research and unpublished material for a study on the Newfoundland economy proposing a medium-term development strategy, based on improvement of productivity and employment performance. *Topics:* Ways of reducing the unemployment rate; raising earned incomes; reducing dependency on federal transfers; assisting the province to plan its own development approach history, settlement patterns and work attitudes of the province and its people; employment dimensions — frictional unemployment, seasonal unemployment and migration; productivity and performance in fisheries, mining, forestry, oil and gas and in some service sectors; regional disparities and income maintenance issues; projections of the provincial labour force.

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

## Background

The *Employment and Immigration Reorganization Act* 1977 created the Canada Employment and Immigration Commission and a small associated Department of Employment and Immigration. Together they are responsible for all labour market, employment, unemployment insurance and immigration programs and services.

## The Commission

Four persons head the Commission: a chairman, who is Chief Executive; a vice-chairman; and two commissioners — one representative of workers and the other representative of employers.

## The Department

The Chairman and Vice-Chairman act as Deputy Minister and Associate Deputy Minister of the Department.

Two other bodies report to Parliament through the Minister: the Canada Employment and Immigration Advisory Council, and the Immigration Appeal Board.

## Laws and Regulations

- Unemployment Insurance Act, 1971, SC 1970-71-72, c. 48 (excluding Parts IV and VIII) and Associated Regulations, i.e., Unemployment Insurance Regulations, CRC 1978, Volume XVIII, c. 1576 and the National Employment Service Regulations, CRC 1978, Volume XVIII, c. 1573
- Employment and Immigration Reorganization Act SC 1976-77, c. 54, including Part I — Employment and Immigration Department and Commission Act, and Part II — Canada Employment and Immigration Advisory Council Act
- National Training Act, SC 1980-81-82-83, c. 109 and Regulations
- Emergency Gold Mining Assistance Act, RSC 1970, c. E-5, Subsection 6(2)
- Reinstatement in Civil Employment Act, RSC 1952, c. 236
- Immigration Act 1976, SC 1976-77, c. 52 and Regulations
- Employment Tax Credit Act, SC 1977-78, c. 4, s. 7
- Government Annuities Act, RSC 1970, c. G-6 and Regulations
- Government Annuities Improvement Act, SC 1974-75-76, c. 83
- Labour Adjustment Benefits Act, SC 1980-81-82-83, c. 89
- Labour Mobility and Assessment Incentives Regulations, CRC 1978, Volume III, c. 330
- Manpower Mobility Regulations, CRC 1978, Volume XIV, c. 1323
- Adjustment Assistance Benefit Regulations (Footwear and Tanning Workers), CRC 1978, Volume III, c. 317
- Adjustment Assistance Benefit Regulations (Clothing and Textile Workers), CRC 1978, Volume III, c. 316

## Overall Responsibilities

The deputy minister/chairman, associate deputy minister/vice-chairman, and the two commissioners make up the heads of the Commission/Department.

These four people are the immediate extension of the Minister and collectively administer the *Unemployment Insurance Act* as amended, including jurisdiction over the National Employment Service and the *National Training Act*; the *Immigration Act* and various employment programs under Appropriations Acts; and the *Annuities Act*.

They collectively deal with legislative review and consequent amendments; regulatory changes; special applications of the

legislation such as adjudication principles, labour conflicts, work-sharing agreements and job creation projects; appeals to the Federal Court; Unemployment Insurance (UI) premium rates; budgets impacting on the UI fund; appeals to the Commission concerning UI premium reductions; agreements with provinces or other countries; appointment of agents; delegation of authority to officers as employees of the Commission/Department; annual reports to the Minister and Parliament; all submissions to Cabinet; and major directives to field offices concerning CEIC programs.

The two commissioners — one representing labour and the other employer interests — develop consultative mechanisms, dialogues, and information programs with business, union and employer associations and councils, keeping such groups well-informed on legislative, policy and program matters affecting them.

## Organization

The Commission/Department's headquarters comprises nine major groups; four are directly concerned with services to the public: Immigration, Insurance, Labour Market Development and Employment Services; three provide professional, technical and administrative services: Systems and Procedures, Personnel, and Finance and Administration; the other two major groups are Public Affairs and Strategic Policy and Planning. An executive secretariat provides all services necessary to corporate decision-making, policy formulation, federal-provincial and international relations, and for administering Access to Information, Privacy, and Human Rights legislation within the Commission.

The Canada Employment and Immigration Commission is further organized into ten regions responsible for administering some 900 points of service across Canada. Each region is headed, in the cases of Québec and Ontario, by an executive director, and in all other instances, by a Director General. The Commission employs, across Canada, about 25,000 staff.

## General Information

Available free in every CEIC office are pamphlets, brochures and other publications covering a wide variety of programs and services offered by the Commission and some other departments and agencies, both federal and provincial. Publications of a general nature, if not available at local offices, may be procured through authorized Government of Canada bookstore agents and other bookstores, or by mail from the Publications Centre, Supply and Services Canada, Ottawa, Ontario, K1A 0S9.

Library services are available at CEIC's Head Office and regional offices at the following addresses:

A formal request under the *Access to Information Act*, must be made by completing an Access to Information Request Form and forwarding it to the following address:

Director  
Public Rights Administration  
Employment and Immigration Canada  
4th Floor  
Place du Portage, Phase IV  
Hull, Québec  
K1A 0J9

## THE COMMISSION

### INTERNAL AUDIT BUREAU

The Internal Audit Bureau is responsible for audits conducted within CEIC. Programs external to and funded by CEIC are also subject to audit.

Internal Audit reviews and appraises the effectiveness and efficiency of all operational and financial procedures and systems and identifies areas for improvement.

### EXECUTIVE SECRETARIAT

This office, comprising five directorates, provides services necessary to corporate planning, policy formulation, federal-provincial and international relations and the application of public rights management. An extension of the Office of Chairman/Deputy Minister, it co-ordinates corporate executive decision-making, particularly deliberations on statutory matters.

Corporate policy formulation is affected by the range of programs and services offered to the public by CEIC; the provisions of Acts and regulations governing the operation of programs; government decisions altering the way CEIC operates, evaluates and pays for programs and services; and events occurring in federal-provincial or international relations.

### Executive Management Services Directorate

This directorate manages the processes governing CEIC's business conduct at the national level. It develops guidelines and support mechanisms affecting deliberations by the Commission proper, the Executive Committee, and other executive bodies; it provides all necessary secretariat support services including research, conference scheduling, minute preparation, follow-up control action and systemic control; it prepares specifically formatted briefing material used by the Minister; and it manages a computerized corporate correspondence control system operating from the deputy head's office, which includes a parliamentary returns unit.

### Intergovernmental Affairs — External Liaison Directorate

This directorate maintains formal liaison with provincial governments and the private sector on all matters affecting major initiatives taken in the labour market, immigration or unemployment insurance areas; it advises the Minister and Senior Executive on interlocking interests with the provincial governments, on intergovernmental or international relations and on courses of action recommended by a

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

variety of special task forces or committees. The directorate also arranges conferences or visits by CEIC executives and prepares all associated material.

## Public Rights Administration Directorate

This directorate co-ordinates CEIC responses to enquiries and access requests made under the *Access to Information Act* and *Privacy Act*, and develops measures ensuring that the *Canadian Human Rights Act* is effectively applied within CEIC; it sets policies, develops educational support, establishes mechanisms, and administers the public rights of Canadians in respect of the legislation; it responds to complaints lodged with any of the Information, Privacy, or Human Rights commissioners; it notifies the public of access decisions taken, arranging where appropriate for the production of official files for scrutiny; and it acts as a monitoring body, gathering data on the operation of the legislation and providing reports to the Minister and public rights commissioners.

## Emergency Planning Directorate

This directorate centrally co-ordinates all emergency human resources planning for Canada through CEIC's headquarters and field offices as the National Emergency Agency for Human Resources (NEAHR). In liaison with emergency and security agencies, such as the Department of National Defence, the RCMP and Emergency Planning Canada, it issues policies, emergency procedures and periodic standing orders on alternatives for CEIC operations in the event of major disasters, wars or civil emergencies.

## Security Directorate

This directorate provides policy analysis and advice on security matters; it administers a special control program for receipt, storage and distribution of sensitive intelligence and security information and administers programs of co-operation with the RCMP.

## CORPORATE INITIATIVES

This group, reporting directly to the deputy head, initiates, manages and co-ordinates corporate projects in the areas of quality of service and productivity improvement; it acts as the deputy head's service improvement centre, promoting quality of service and productivity improvement strategies throughout the CEIC and advising the corporate organization; and it also undertakes special assignments outside the scope of normal program or service areas.

## IMMIGRATION

This group, composed of four branches and one directorate, administers Canadian immigration law through the selection of immigrants, the entry of refugees, temporary workers, foreign students, other visitors and tourists. Other responsibilities include assisting Canadian residents on their return to Canada, applying enforcement and control measures to protect the health, safety and good order of Canadian society, and assisting in settling recently arrived immigrants.

Immigration levels are influenced by Canadian labour market considerations, regional demographic needs and consultations with individuals and organizations, both domestic and international. Each year in the Minister's report to Parliament, proposed immigration levels are announced for a specific time period; normally, special groups such as refugees are reflected in the projections but, in some cases, numbers of refugees might be increased as a result of unforeseen circumstances.

## Manuals

- Employment Manual — note especially the following portions: transportation loans, adjustment assistance program, immigrant settlement and adaptation program, validation of employment offers
- Federal-Provincial Immigration Agreements
- Immigration Manual (IC) — security guidelines and procedures containing information defined as internal communications, such as security and criminal criteria relating to immigrants and visitors, and guidelines for detecting visa and passport forgeries
- Immigration Manual (ID) — guidelines and procedures on the collection of immigration information
- Immigration Manual (IE) — guidelines, procedures, instructions and background information on examinations at Canadian ports of entry, inland control, appeals and litigation, removals and security deposits (bonds)
- Immigration Manual (IL) — legislative component (including the *Immigration Act*, 1976) for the guidance of immigration officers
- Immigration Manual (IS) — guidelines, procedures, instructions and background information on the recruitment, selection and processing of immigrants and visitors abroad; inland control; appeals and litigation; removals; and security deposits (bonds)
- Occupational Demand and Area Report
- Primary Immigration Examination Directives — for customs officers at ports of entry dealing with the initial examination of persons seeking admission to Canada
- Transportation Directives — information to carriers of their responsibilities under the *Immigration Act* when conveying passengers to Canada
- Travel Information — international publication that includes Canadian passport and visa requirements
- Treasury Board Terms and Conditions — information regarding the adjustment assistance program, immigrant settlement and adaptation program, host program for refugee settlement
- World Index — advises immigration officers and RCMP liaison officers, country by country, on security and criminal examination facilities, medical facilities, coding information and visa requirements

## Operations Branch

Through three directorates, this branch administers the *Immigration Act* and Regulations as it pertains to the examination of persons seeking entry into Canada; facilitates entry of diplomats, temporary workers, foreign students and other legitimate visitors; denies use of Canadian territory to persons who are likely to engage in criminal, subversive or terrorist activities; prohibits inadmissible persons from entering Canada; removes from Canada those in breach of the provisions of the legislation; and explains and interprets, for immigration officers, other federal and provincial departments and agencies and concerned individuals, those sections of the legislation and policy that are the responsibility of the branch.

## Case Review Directorate

This directorate is concerned with representations regarding the admission of immigrants, workers and students. It has the authority to resolve exceptional cases by means of Minister's permits, Special Review Committee discretion and Order-in-Council. The directorate also administers the Act as it relates to preventing the movement to, admission to or continued stay in Canada of persons who are not permitted under the Act to enter or remain here. This responsibility involves the identification, apprehension, detention and prosecution of such persons, as well as protecting the Minister's interest in subsequent appeals and litigation to which these persons are entitled.

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

## Procedures and Instructions Directorate

This directorate administers the legislation as it relates to admission and enforcement procedures; to transportation companies, vehicles and crews coming into Canada; to inland investigations; to arrests and prosecutions, enquiries and appeals; and to removals and departure notices. The directorate provides explanation, interpretation, instruction and guidance on the immigration legislation for immigration officers, other federal and provincial agencies and concerned individuals. It also interprets, disseminates and monitors immigration legislation by issuing and revising guidelines, procedures and instructions.

## Analysis and Intelligence Directorate

This directorate monitors the branch's activities. It evaluates intelligence received from within CEIC, law enforcement agencies and other sources on persons and organizations, with regard to illegal immigration practices.

## Planning and Program Management Branch

Through its three directorates and the Legislative Review Committee, this branch provides operational and administrative support to the Immigration Program in the following forms: program planning; performance measurement; creation and maintenance of computerized program data banks; staff training; operational guidance to personnel working at regional and local offices; review and amendment of the *Immigration Act* and Regulations; management-union consultations; and secretariat services.

## Program Data Directorate

Responsibilities of this directorate include the development, co-ordination, collection, verification and maintenance of computerized record systems on immigration activities, and the creation and production of reports concerning such activities or their analysis. Information from computerized records is made available to CEIC offices at various levels and to the Public Affairs (Information Services) component of CEIC for delivery to the public. The directorate is also responsible for storing and accessing all records on microfilm dealing with the status of individuals, i.e., immigrant and visitor documentation.

## Co-ordination and Liaison Directorate

This directorate co-ordinates immigration input into CEIC and government programs and co-ordinates and implements CEIC and government policies, procedures and guidelines at headquarters. Support is given to the Minister by providing material pertaining to the immigration program and the processing of correspondence addressed to the Minister on immigration matters. The directorate provides secretariat services to immigration management committees; supports the delivery of the immigration program (development of staff training materials, manual production, forms management, co-ordination of production and delivery of immigration officers' uniforms); co-ordinates the Department's response to requirements associated with the Access to Information and Privacy legislation and negotiates and liaises with External Affairs on the funding and the delivery of programs abroad, secondments, visa officer training and other unresolved matters.

## Resource Planning and Control Directorate

This directorate provides immigration input to CEIC planning, budgeting and expenditure control processes and is responsible for measuring the performance of the immigration program.

## Legislative Review Committee

The chairperson of this committee maintains and provides information and advice on the origin, intent and interpretation of the *Immigration Act* and related legislation. The chairperson establishes and manages systems concerned with the design and analysis of proposals for new or amended legislation.

## Policy and Program Development Branch

This branch, through five directorates, administers policy, sets priorities and provides guidance to immigration field offices on the admission of immigrants and visitors. In particular, this includes levels of immigration, by classes and categories, in response to such concerns as occupational demand in the Canadian labour market; humanitarian considerations relating to the relief of refugees; social policies reflected in family reunification programs; or the need for temporary admission for study or for seasonal or other short-term employment.

Levels of immigration are formulated on the basis of analysis and consultation relating to each of the three classes of the immigration intake. In the labour market, the object is to select workers with specific skills needed to meet labour force shortages in Canada.

The number of refugees admitted each year is set out in an annual refugee plan specifying a global number of refugees to be accepted and allotment areas from which they are to be selected. This plan is formulated in consultation with private groups, provincial governments and the United Nations High Commission for Refugees.

The number of family class applicants admitted has a direct relationship to the number of applications submitted each year by family members already residing in Canada.

## Policy Development Directorate

This directorate develops policy on levels and composition of immigration to Canada. Consultation occurs with provincial governments and with other agencies both public and private. It is responsible for preparing submissions to Cabinet and an annual report to Parliament and for developing admission policy on students and non-immigrant workers.

## Regional Policy and Program Relations Directorate

This directorate develops federal guidelines for federal-provincial consultations required by the *Immigration Act* and co-ordinates such consultations; develops or modifies immigration agreements with the provinces, both in general and in specific policy areas, such as refugees, settlement and foreign workers; manages and monitors existing agreements with provinces; provides advice to management on the need for new programs or other efforts; and develops new approaches to meet current and future needs.

## Program Development Directorate

This directorate is responsible for the development, management and administration of all Commission programs governing the admission of specific categories of immigrants and visitors. These include those programs related to temporary workers, students, academics, entertainers, domestics, medical doctors, seasonal farm workers, carnival workers, entrepreneurs and self-employed persons, engineers, graduate assistants and adoptions.

## Refugee Affairs Directorate

This directorate is charged with the development and monitoring of CEIC programs for refugees and other humanitarian programs and for designing the processes and the selection standards to give effect to

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

these policies. It also maintains liaison with other government departments concerned with refugee affairs, specifically External Affairs, and other private interest groups. The creation and maintenance of records reflects the need to maintain a viable system of retention and access to a wide variety of material required to carry out these functions, e.g., background material on refugee situations in other parts of the world, and procedural and policy advice to the field.

## Data Analysis and Forecasts Directorate

This directorate is responsible for the design and development of immigration processing systems in order to manage immigration components in accordance with levels established by Cabinet. The directorate also monitors immigration processing, forecasts immigrant landings, and carries out simulations of policy alternatives.

## Settlement Branch

This branch is concerned with promoting a smooth transition to a new life in Canada for refugees and others who immigrate here. The branch administers the various programs of financial assistance to immigrants, such as transportation loans and contributions to cover the basic needs of life. Contributions are also made to voluntary organizations involved in providing settlement services to newcomers, including interpretation and counselling. Forms of assistance other than financial aid are also provided, such as reception and accommodation services and the matching of refugees to Canadian sponsors.

## Adjudication Directorate

This directorate is responsible for providing adjudication services throughout Canada. The *Immigration Act* and Regulations provide for an adversarial system of quasi-judicial decision-making to determine whether a person seeking to enter Canada may do so, or whether a person already in Canada will be allowed to remain or be required to leave. In addition, the detention of any person detained pursuant to the *Immigration Act* must be reviewed regularly.

The directorate also ensures that immigration enquiries and detention reviews are held in accordance with the *Immigration Act* and Regulations, the principles of natural justice, and within the time frames prescribed by the Act and Regulations.

## INSURANCE

This group develops and promulgates legislative changes, policies and activities governing the delivery of the Unemployment Insurance Program. It is also responsible for developing and promulgating policies and guidelines for the delivery of insurance services; for providing CEIC with actuarial services and advice concerning the strategy and operations of the Unemployment Insurance Program and the Government Annuities Program; and for responding to ministerial enquiries.

In addition, the group develops legislative proposals and policies pertaining to the Unemployment Insurance Premium Reduction Program, which provides for the granting and control of premium reductions to employers with qualified wage loss replacement plans. The group, moreover, represents the Commission in submitting or contesting appeals to higher courts with respect to decisions made concerning payments to individuals or the granting of premium reductions to employers.

The Insurance group defines and recommends to the Commission, objectives, goals, strategies, regulatory changes, priorities and action plans. These provide a basis for long- and short-range operational planning and a basis for measurement of performance.

## Manuals

- Insurance Services Policy Manual — official EIC policies on the administration of the *Unemployment Insurance Act* and Regulations, more specifically centred on the processing of claims, the payment of benefit and other related matters such as: sharing of premium reduction, establishment and maintenance of boards of referees, assignment of benefit, interruption of postal services and union hiring halls
- Digest of Benefit Entitlement Principles — principles (based on and derived from an analysis of applicable legislation and jurisprudence) to be applied in determining entitlement to unemployment insurance benefits. Also includes interpretative analyses of recent selected Canadian Umpire Benefits (CUB)
- Benefit Policy Circulars — used by the Benefit Policies Branch to communicate changes in policies and procedures concerning entitlement determination and appeals
- Umpire's Decisions (Canadian Umpire Benefits — CUB)<sup>\*</sup> — published decisions of the umpire involving entitlement to unemployment insurance benefits
- Index of Umpire Decisions — pertinent decisions handed down by umpires, the Federal Court of Canada and the Supreme Court since 1971 on entitlement to unemployment insurance benefits
- Investigation and Control Manual — policies, programs, directives and procedures governing the investigation and control of UI benefits
- Dictionary of Medical Yardsticks — a reference book used in determining the duration of incapacity for sickness benefit claims. Describes briefly some 500 illnesses or injuries, indicating the periods of incapacity
- Premium Reduction Manual — policies, principles and procedures for processing applications for and determining entitlement to a UI premium reduction, also procedures and guidelines for auditing employers who are granted a reduction

## Actuarial Services Branch

This branch provides CEIC with actuarial services and advice concerning the policy, strategy and operations of the Unemployment Insurance Program and the Government Annuities program. Advice and services are provided on an on-going basis and through specific projects of an actuarial nature; on assessing proposals in relation to predetermined objectives and criteria; through the policy development and the actual determination of minimum and maximum weekly insurable earnings, annual employer and employee premium rates, rates of premium reduction in respect of qualified wage-loss replacement plans, actuarial projections of costs and revenues under the UI accounts, actuarial determination of liability and interest credit and surplus or deficit in respect of the Government Annuities Account; reconciliation of accounts and general assistance to the Auditor General; on actuarial analysis of the financial experience of the Unemployment Insurance Account, the Annuities Account and of the mortality experience under the Government Annuities program, and the preparation of the annual report to Parliament; on the development and operation of the premium reduction appeal system. Much of the advice is required by law (the *Unemployment Insurance Act*, *Government Annuities Act* and *Government Annuities Improvement Act*).

## Insurance Policy Branch

This branch, through three directorates, develops legislative proposals, policies, directives and guidelines governing the eligibility for and the payment of unemployment insurance benefits. The branch also develops and maintains an appeal system for the Commission, employers and dissatisfied claimants. Similarly, the branch develops legislative proposals and policies for granting unemployment

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

insurance premium reductions to employers, for reviewing decisions denying a reduction and for auditing employers granted a reduction.

## **Policy and Legislation Development Directorate**

This directorate develops policies relating to the payment of unemployment insurance benefits, the coverage and insurability of employed persons, and the granting of unemployment insurance premium reductions to employers. In addition, the directorate develops the unemployment insurance legislation required for implementing these policies and processes them through the Commission, the Department of Justice and ultimately the Governor-in-Council or Parliament. The above involves the review and analysis of briefs submitted to the Commission, the preparation of discussion or position papers, and liaison with the provinces and other countries on matters impacting on unemployment insurance legislation.

The directorate also develops legislative proposals, policies and guidelines pertaining to the insurability of employment, and reviews and monitors the application of unemployment insurance legislation by Revenue Canada Taxation (RCT). It also develops policies for and administers the Supplemental Unemployment Benefit (SUB) program. Other responsibilities include the co-ordination and development of policies and procedures for the Labour Adjustment Benefit program.

## **Benefit Entitlement Directorate**

This directorate develops and issues national policies, programs and guidelines concerning the entitlement to and the payment of unemployment insurance benefits to individuals who are unemployed and to workers who are off work due to sickness, disability, pregnancy or adoption. The directorate also prepares and distributes circulars and work instruments for use by unemployment insurance agents and provides guidance or decisions to the regions in complex cases.

The directorate also develops legislative proposals and policies pertaining to the unemployment insurance premium reduction program, develops and administers a review system for employers, and develops and maintains an audit function of employers granted a reduction.

## **Appeals Directorate**

This directorate develops and maintains a national unemployment insurance appeal system. This includes developing and implementing national policies and programs arising from legislation and established jurisprudence. The directorate also provides all services necessary to process appeals at each level of the system, namely, the Board of Referees, the Umpire and the Federal Court of Appeal. Canadian Umpire Benefit Decisions (CUBs) are published and provided to the field for reference purposes.

## **Control Branch**

This branch, through its four components, develops, tests and executes policies, programs and procedures for the prevention, detection and deterrence of fraud and abuse in the areas of unemployment insurance benefits. The branch also develops priorities and objectives for the various control activities and assesses overall performance in this regard.

## **Control Policy Directorate**

This directorate reviews and develops policies and guidelines for the investigation and control of all matters relating to unemployment insurance benefits. The directorate also provides functional guidance to the regions.

## **Planning and Analysis Division**

This division develops and maintains the overall plans and strategies and co-ordinates the various activities within the Control Branch. It develops operational guidelines, sets priorities and objectives and, by means of an information system, assesses the performance of the Control Branch. It also ensures the timely production of all documents relating to the planning and accountability process.

## **Control Programs Directorate**

This directorate identifies, researches, develops, implements and maintains programs, strategies and guidelines to detect, deter and prevent abuse and fraud in the payment of unemployment insurance benefits. This includes computerized and non-computerized programs and systems directed at national, regional and local levels. It also develops, implements and maintains a national quality control program, an Investigation and Control Officer Training Program, an investigation and control manual, and other ancillary services necessary to the control function in the field.

The directorate also develops and maintains control programs based on the receipt of periodic reports from employers concerning the hiring or employment of workers. The directorate enters into agreements with employers on behalf of the Commission and utilizes the data on unreported work or earnings to deter or reduce the incidence of improper benefit payments. Strategies, systems and procedures are developed and implemented as appropriate.

## **Insurance Services Branch**

This branch is responsible for developing policies, directives and guidelines for the operational delivery of insurance activities through the Canada Employment Centres (CECs). The branch is also responsible for developing policies pertaining to the related medical advisory services for sickness and maternity claims. Other responsibilities include the monitoring and analysis of insurance services and the development and maintenance of a comprehensive tracking system.

## **Medical Advisory Services**

This division formulates, develops and tests operating policies and develops policy guidelines related to claims for sickness and maternity benefits. The division also acts as a co-ordinating body for medical claims submitted for the attention of the medical advisors.

## **Insurance Program Services Directorate**

This directorate develops, tests and institutes national insurance operational policies and activities related to the claim processing cycle and related functions, such as the Record of Employment (ROE) and Employment Market Information Services. Other responsibilities include a quality control - quality assurance activity for ensuring adherence to policy directives and guidelines, the identification of the need for and the development of the necessary forms for the processing of claims, and external liaison activities to guide and advise claimant, union and industrial groups.

## **Insurance Management Services Directorate**

This directorate monitors and assesses the efficiency and effectiveness of those operational policies, projects and activities associated with the delivery of insurance services, including activities of quality control and assurance and those affecting the speed and quality of service. The directorate also measures, analyzes and forecasts operational performance and plans the co-ordinated introduction of improvement initiatives.

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

## Comprehensive Tracking System

This directorate provides timely, accurate and comprehensive information and analysis to management on overpayments, underpayments, programs and activities, permitting management to monitor and track changes on a continuous basis.

## LABOUR MARKET DEVELOPMENT

This group designs and administers programs to improve employment opportunities in the Canadian labour market. Programs, either operated directly by the group or purchased from provincial governments through negotiated agreement, deal with skills training; apprenticeship courses, technical or financial assistance, community-based employment incentives, and job creation schemes for student, adult, community or disadvantaged workers.

In addition, the group assesses the impact of the Immigration Program on the labour market so that Canadian labour is given priority over foreign workers entering Canada. It also assists community organizations, government institutions and the private sector, both management and labour, in their manpower planning and labour adjustment problems.

### Manuals

- Employment Manual (EA) — five volumes in fifty chapters, covering the following: legislative component, including the *Unemployment Insurance Act*, Part VII; the National Employment Service Regulations; excerpts from the *Canadian Human Rights Act* and the *National Training Act* and Regulations; labour market information, including Canadian Classification and Dictionary of Occupations, occupational shortages survey, layoff reporting system, industrial disputes, and policies and procedures relating to the recruitment of foreign workers; guidelines, policies, procedures, documentation requirements and agreements relating to various types of national training programs; background information, guidelines, procedures and agreements relating to employment programs in the industrial and agricultural sector; information, guidelines, terms and conditions of agreements relating to various types of employment development programs at the community level
- Federal-Provincial Training Agreements — guidelines relating to the negotiation and administration of federal-provincial training agreements, for regional office use
- Operations Guide — Canada Works
- Operations Guide — Job Corps
- Operations Guide — Local Employment Assistance and Development Program

## Training Branch

This branch establishes policy, sets priorities and provides guidance to regional offices on the administration of training programs set up under federal-provincial training agreements and in accordance with the *National Training Act*. This Act permits the branch to purchase for its clients space, or "seats", in provincially or privately operated training courses, teaching skills in occupations for which there is demand, and to contract with employers and groups to provide on-the-job occupational training. It ensures that training agreements are consistent with CEIC objectives and with the needs of the labour market; that training allowances are determined; and that training programs are certified, monitored and evaluated. It recommends to CEIC regional allocations of program funds, annual training plans, and directions which training strategies should take in meeting occupational needs.

## Industrial Training Directorate

This directorate develops national policies for industrial training programs whereby, through financial and consultative assistance provided under several such programs, employers initiate training courses for their employees. By reimbursing part of the costs employers incur, the directorate improves the employability and earning capability of workers and the training capacity of employers. Training proposals must fall within program guidelines and meet current training priorities established according to regional needs as determined by the federal-provincial joint labour needs committees.

## Institutional Training Directorate

This directorate develops national policies and directions for institutional training programs and services to meet the needs of industry for suitably skilled workers, gives workers skills required to increase their employability, and purchases space, or "seats", for its clients from provincial governments or private institutions offering training courses. Program elements include Occupational Skill Training, which provides skills needed to perform satisfactorily in available jobs; Basic Training for Skill Development, which raises academic levels of trainees to meet occupational training course or job entrance requirements; Job Readiness Training, which helps trainees overcome special barriers to employment by providing the opportunity to learn basic skills necessary to find and hold suitable employment; Work Adjustment Training, designed to provide short periods of assistance to workers whose attitudes and work habits conflict with requirements of employers; Apprenticeship Training, which provides classroom instruction for registered apprentices; Language Training, which enables immigrants, Canadian migrants and native people to learn either of the official languages of Canada in order to compete for and secure employment in their usual occupation; and Occupational Orientation, to provide practical experience in a variety of trades to assist in the selection of a trade.

## Program Analysis and Information Directorate

This directorate designs and operates computerized information systems on employment training programs to provide statistical data. It develops specifications of national program data requirements and provides guidance on determining costs of courses and programs. It prepares program data, reports on program activities and assesses the operational effectiveness of training programs. It maintains and analyzes information to identify occupations requiring special action under the *National Training Act*.

## Course Assessment and Improvement Directorate

This directorate provides consultative services and assessments of quality of training courses for improving employment training in Canada. It also provides secretariat services for the Interprovincial Standards Program (Red Seal), which aims to produce standards of training and certification for journeymen in most trades coming under provincial trade workers' qualifications legislation.

## Program Policy Review and Development Directorate

This directorate develops and recommends national policy directions in response to labour market trends; develops recommendations on the preparation of legislation and federal-provincial training agreements; assists in the negotiation of such agreements; is responsible for the development of the annual list of occupations of national importance; and co-ordinates, develops and recommends national responses to requests related to training from international bodies.

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

## Program Development and Implementation Directorate

This directorate develops and implements new training initiatives to meet identified needs of skilled workers; assesses impact of initiatives or delivery models and assists in evaluation to determine longer-term viability to meet program objectives; plans and co-ordinates the integration of successful initiatives and delivery models into existing programs and administers the Skills Growth Fund (SGF), established to bring about more rapid increase in the training capacity for key skills associated with occupations of national importance designated under Subsection 2(3) of the *National Training Act*. The SGF's purpose is to make funds available for establishing, converting, and/or expanding facilities to provide such training. It also encourages the establishment of occupational training centres for target groups who need specially adapted training to overcome particular employment barriers. Except for on-going projects, activities under this program ended on March 31, 1985.

## Labour Market Planning and Adjustment Branch

This branch assists in developing productive utilization of the Canadian labour force. It induces the private sector to undertake manpower planning and to assume greater responsibility for developing and training workers to meet their manpower needs. It also ensures that, in the development of policies and programs of other governmental agencies, consideration is given to their effects on the labour market. The branch verifies that labour market aspects of the immigration program reflect the needs of the labour market.

The branch manages the Industrial Adjustment Service, which helps management and labour to deal jointly with worker adjustment problems arising from technological and economic industrial change. It administers the Canada Agricultural Employment Program, designed to achieve optimum utilization of Canada's human resources for the agricultural labour market. The major elements of this program include Canada Farm Labour Pools, Local Agricultural Employment Advisory Boards, Foreign Seasonal Agricultural Workers Programs and Federal-Provincial Agricultural Employment Development Agreements. The branch exercises overall policy development and program co-ordination for the Industry and Labour Adjustment Program (ILAP) and the Work Sharing Program, and is CEIC's support to the Canadian Industrial Renewal Board (CIRB). It is also the Commission's representative on the Enterprise Development Board and the Regional Development Incentives Advisory Board, and publishes the Monthly Lay-off Report.

## Industrial Adjustment Service Directorate

This directorate encourages joint action by employers and their employees to deal with worker adjustment problems within their establishments. Incentives are made available to encourage employers to work with their employees to devise internal remedies for worker dislocations due to technological and other industrial changes including mass layoffs. Joint consultative committees of management and labour are set up with the assistance of CEIC. Financial assistance is also provided to employers who incur costs in transferring workers to other localities. The directorate negotiates and administers agreements, co-ordinates policy development for the Work Sharing Program, and prepares the Monthly Lay-off Report.

## Adjustment Programming Directorate

This directorate assists community and industrial restructuring by providing supplementary labour adjustment assistance for specifically designated communities, workers, and industries.

The community-based labour measures delivered by CEIC consist of (a) portable wage subsidies for the re-employment of older workers;

(b) job creation through Canada Works projects; (c) increased training course purchases; and (d) supplementary mobility assistance measures. The community-based measures also include Labour Adjustment Benefits (a last-resort income maintenance by Labour Canada). An additional feature is the establishment of Community, Adjustment committees, which provide advice on community, economic and social re-development needs and facilitate co-ordination of program measures at the local level.

In addition, the directorate is responsible for the Canadian Industrial Renewal Program. This program is a series of industrial and labour adjustment measures for Textile, Clothing, Footwear and Tanning (TCFT) firms and workers, to assist those communities and workers most affected by gradual trade liberalization in TCFT commodities. Labour adjustment measures available to TCFT workers under this program include access to wage subsidies, enriched mobility assistance, enriched training allowances and, in the communities most severely affected, additional job creation, as well as Labour Canada's Labour Adjustment Benefits program, which is delivered by CEIC.

## Human Resource Planning Directorates

The three human resource planning directorates are Energy, Construction and Agriculture; Manufacturing and Foreign Worker Policy; and Resources and Services. Human resource planning ensures that the private sector, both management and labour, identifies its future labour requirements as well as develops and implements measures necessary to meet its immediate and long-term labour needs. The directorates encourage organizations to integrate human resource planning into their overall corporate planning processes and assist them in implementing their plans by appropriate application of CEIC programs and services. CEIC industrial consultants maintain liaison with national and provincial employer associations, unions and other government departments responsible for economic development. They collect and analyze industrial employment information with emphasis on industrial occupational trends having a bearing on CEIC's operations.

### Human Resource Planning Directorate (Energy, Construction and Agriculture)

This directorate encourages and helps energy, construction and agricultural industry employers and unions to plan for future labour requirements and to make more productive use of the existing labour force; consults and negotiates with agricultural organizations, foreign governments, federal and provincial authorities, providing policy input on other federal programs applicable to the agricultural industry; and administers the Canada Farm Labour Pools, local agricultural employment advisory boards, federal-provincial agricultural employment agreements, European Student Tobacco Worker program and the Caribbean and Mexican seasonal agricultural worker programs.

### Human Resource Planning Directorate (Resources and Services)

This directorate helps employers and unions in the resources and services sectors to plan for future labour requirements and to make more productive use of the existing labour force. It helps CEIC to minimize adverse effects on both workers and communities using its resources and to formulate and apply labour market policies and programs throughout Canada. It assists other federal departments in developing economic, industrial and regional development resource and service industry policies for the labour market.

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

## **Human Resource Planning Directorate (Manufacturing and Foreign Worker Policy)**

This Directorate helps employers and unions of manufacturing industries to plan for future labour requirements; develops and recommends labour market policies and guidelines relating to the employment of foreign workers in all industrial sectors; and administers the Foreign Worker Policy Program, which supplements Canada's labour force when required to meet necessary demographic, economic and social objectives.

## **Employment Development Branch**

This branch develops and implements national plans, policies and procedures for employment development programs within CEIC. In the fall of 1983, job creation programs of the Employment Development Branch and the Employment Incentive Branch were consolidated: (a) to meet employment problems caused by cyclical downturns in the economy or by unforeseen industrial developments; (b) to encourage and contribute to local employment growth; and (c) to support human resource development.

The new programs that have emerged from this consolidation are the Local Employment Assistance and Development Program (LEAD), the Career-Access Program, the Canada Works Program and the Job Corps Program.

## **Canada Works Directorate**

This program is designed to counter employment problems caused by cyclical downturns in the economy or by unforeseen industrial developments. The primary objective of the Canada Works Program is to create incremental, productive term employment for unemployed persons. In collaboration with the private sector, as well as with a broad range of public and community-based employers, immediate employment is created for unemployed persons during periods of economic downturn and labour market dislocations such as plant shutdowns. Summer employment for returning students is provided under this program. Income maintenance provisions under Section 38 of the *Unemployment Insurance Act* are also utilized under Canada Works. The activities supported are reflective of community priorities and the broader federal and regional objectives of economic recovery and employment growth, as appropriate.

Canada Works subsumed the following programs, which were in existence prior to the fall of 1983: Canada Community Development Projects, with the exception of Youth Job Corps and Development Projects, the New Employment Expansion Development Program (NEED), *Unemployment Insurance Act*, Section 38 — Job Creation Program and the project component of the former Summer Canada: Student Employment Program. In the Fall of 1984, Summer Canada initiatives for students were cancelled. In 1985, summer employment for students will be provided through a new initiative entitled "Challenge '85."

## **Career-Access Directorate**

This program, introduced by the Government of Canada in September 1983, is a key element in the Commission's labour market strategy for the 1980s. Its objective is the development of human resources through the provision of opportunities for individuals facing severe employment barriers. The program is designed to stimulate the employment of the disabled and the employment-disadvantaged by providing to eligible employers a subsidy expressed as a percentage of the gross wages paid to the worker, and in certain situations as an additional contribution towards other costs. People generally become eligible for the program after they have unsuccessfully carried out a job search for a period of time.

In addition, a Voluntary Initiatives Program (VIP) has been created

to provide unemployment insurance recipients with productive work through the provision of services within voluntary, charitable organizations.

Career-Access subsumed the following programs, which were in place prior to the fall of 1983: Program for the Employment-Disadvantaged, Portable Wage Subsidy Program, Canada Community Services Projects, the internships component of the former Summer Canada: Student Employment Program and the New Technology Employment Program.

## **Job Corps Directorate**

This program is designed to support human resource development by providing severely employment-disadvantaged individuals with the necessary preparation and employment-related skills to achieve labour market readiness.

Job Corps projects motivate and support constructive attitudes and lifestyles and prepare participants to function effectively in the labour market. The program provides contribution funding to organizations, individuals or businesses that are able to establish Job Corps projects. Groups, agencies, associations and businesses are eligible to provide assistance in the delivery of the program at the national level. Projects employ a core staff of specialized personnel who develop appropriate counselling orientation and on-the-job training modules for participants. The core staff consider each project participant on an individual basis and determine, from the services to be provided by the project, the appropriate training module or modules. Once participants have graduated from these training modules, the project can help place them in a work situation or in other employment development projects, or attempt to direct them to more enhanced training.

This program subsumed the following elements of programs which existed prior to the fall of 1983: Youth Job Corps of the Canada Community Development Project and the preparation projects of the Local Employment Assistance Program (LEAP).

## **Local Employment Assistance and Development Program Directorate (LEAD)**

This program is designed to encourage and contribute to local employment growth. The purpose of the LEAD program is to increase the number of permanent jobs in localities of chronically high unemployment. The program allows for contributions to be made to LEAD corporations and LEAD projects. LEAD corporations provide contributions and grants to development organizations that represent community interests, to enable them to foster ongoing employment opportunities in their communities. LEAD corporations contribute to the enhancement of community organizational and planning capabilities. LEAD projects provide contributions to community representative organizations to carry out projects of three kinds: analysis and planning, to analyze a community's current position and determine a future course of action; enterprise, to increase ongoing employment by enterprise building and support to business within the framework of a community plan or regional development strategy; and infrastructure, to foster and demonstrate preparation and other community employment development activities.

In the fall of 1983, LEAD subsumed the retention projects of the Local Employment Assistance Program (LEAP), the Local Economic Development Assistance Program (LEDA) and the Development Projects of the Canada Community Development Program (CCDP).

## **Student Employment Programming Directorate**

The directorate is responsible for co-ordinating the procedures for the distribution and control of funds allocated for the creation of jobs for students in the summer through various programs of CEIC or other

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

federal departments. The directorate is responsible for the implementation of the summer student components of "Challenge '85," more specifically the Summer Employment/Experience Development (SEED) and the Work Orientation Workshops (WOW).

## Policy, Planning and Analysis Directorate

This directorate directs a range of responsibilities to enable branch programs to meet stated objectives, including policy development and analysis; corporate and operational planning; program analysis and design; development and maintenance of a comprehensive, integrated management information system for branch programs and services, and the development, organization and implementation of pilot projects that may influence future job creation programming. The directorate is also responsible for directing, organizing and co-ordinating the preparation of ministerial correspondence, briefing material and parliamentary returns dealing with all branch programming, and for the provision of the complete and comprehensive range of administrative support to all branch directorates.

## EMPLOYMENT SERVICES

This group develops and disseminates policies, guidelines and procedures for the delivery of employment services to regional and field offices. The group also develops and promulgates policies, guidelines and procedures to meet the needs of particular client groups such as women, natives, youth and other individuals who are considered disadvantaged. Other responsibilities include monitoring and analyzing all such services offered by CEIC, and responding to ministerial enquiries.

### Manuals

- Employment Manual (EA) — policies, procedures and guidelines for all employment services offered by CEIC

## Employment Operational Services Branch

This branch is responsible for the uniform application of employment programs delivered through the Canada Employment Centres (CECs). The branch is also responsible for developing program policies pertaining to the placement service, mobility, and national job clearance activity. Other responsibilities include the issuance of directives and the control of the Employment Manual.

## Operational Services Directorate

This directorate develops operational policies and guidelines for the delivery of employment services and programs to employers and workers through the Canada Employment Centre. The directorate provides guidance on the impact of federal and provincial Human Rights legislation on the Canada Employment Centre's placement services. In addition, it acts as a focal point for advice and the resolution of operational problems.

## Mobility Directorate

This directorate designs and administers the Canada Mobility Program (CMP) and the National Job Bank (NJB) clearance system.

CMP provides financial assistance for unemployed workers who move to geographical areas where jobs are available. The NJB, a computerized clearance system, provides the means for workers to find suitable jobs and employers to find suitable workers in geographical areas across the country, when workers or jobs are not available locally. The NJB control centre is located in Hull, Québec. Job information is available through Canada Employment Centres.

## Outreach Program

This program provides personalized employment-related services to persons not able to benefit effectively from services offered by the Canada Employment Centres. CEIC financially assists Outreach projects by entering into contract with community based, non-profit organizations to sponsor projects.

## Employment Support Services Branch

This branch develops policies, methods and materials for the counselling and testing of Canadians with regard to employment; it also develops training programs for CEIC staff who deal with employers and worker clients.

## National Occupational Analysis and Classification Systems (NOACS)

This branch develops and provides national occupational databases, classification, standards and systems for Employment Services, the remainder of the Commission, and the private and public sectors of the labour market.

### Manuals

- Canadian Classification and Dictionary of Occupations (CCDO) — a systematic classification structure in which all occupations are categorized

## Special Groups and Affirmative Action Branch

This branch develops employment policies and program and strategy proposals. It ensures the effective implementation of special government policies and strategies designed to promote equal access to employment for Canadians generally and recommends policy changes that will benefit youth, natives, women, disabled persons and special-needs clients. The branch also maintains liaison with government and non-government bodies on matters pertaining to the pursuit of equity in employment, promotes the adoption of Affirmative Action (AA) plans by employers in the private sector and provides functional advice and guidance to the regions.

## Youth Employment Directorate

This directorate develops employment policy and program proposals and options and strategies with respect to youth in the 15 to 24 age group. Youth program policies on the following have been developed for implementation: Canada Employment Centres for Students; Canada Employment Centres on Campus; Services to Secondary School Students; International Student and Young Worker Exchange Movements; Specialized Youth Units and Co-operative Education. The directorate also maintains liaison with government and non-government bodies on matters concerning youth and provides technical advice and guidance to the regions.

## Native Employment Directorate

This directorate develops employment policies, proposals, and strategies to reduce the high rate of native unemployment. The directorate also maintains liaison with government and non-government bodies on matters concerning native employment, provides functional guidance to the regions and administers the Native Internship Program.

## Women's Employment Directorate

This directorate is the focal point for all employment activities of the Commission that are designed to improve the employment situation of women. Besides providing guidance and advice to the regions and

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

initiating ongoing liaison with client groups, women's organizations, unions, government departments and agencies, the directorate reviews Commission policies, activities, procedures and legislation and recommends appropriate changes to achieve the efficient, effective and equitable participation of women in the labour market.

## **Disabled Persons Employment Directorate**

This directorate develops and implements policies and programs aimed at ensuring the full and equitable participation of disabled persons in the Canadian labour force.

## **Special-Needs Clients Division**

This division develops national strategies and formulates policy options in regard to CEIC employment activities and placement services designed to improve the employment situation and raise the level of employability of those persons identified as requiring extensive, above-average intervention by Canada Employment Centre counsellors and by improving the employment barriers of such special groups as older workers, ex-offenders and welfare recipients.

## **Affirmative Action Directorate**

This directorate promotes the adoption of affirmative action plans by employers in the private sector. Affirmative action in employment is a comprehensive plan adopted by an employer to remedy systemic discrimination, which may be manifested by lower wages, higher unemployment and lower occupational status for certain individuals or groups. Specifically, the branch is responsible for the Federal Contracts and Affirmative Action Program. The Federal Contracts Program promotes the voluntary adoption of affirmative action plans for women by Crown corporations and by industries that benefit from federal contracts. Affirmative action promotes the voluntary adoption by the private sector of affirmative action plans for women, natives and disabled persons.

## **Functional Services Division**

This division co-ordinates policy development and organizes and directs the provision of research, administrative and information services for and on behalf of the Special Groups and Affirmative Action Branch.

## **Employment Services Planning and Analysis Branch**

This branch monitors and assesses the efficiency and effectiveness of those operational policies, projects and programs associated with the delivery of employment services, including programs affecting the speed and quality of service. The branch also measures, analyzes and forecasts operational performance and, on behalf of the Employment Services Group, co-ordinates all activities relating to the planning and accountability process.

## **SYSTEMS AND PROCEDURES**

This group develops and executes policies, plans and programs for an integrated clerical, manual and electronic data processing (EDP) system to deliver CEIC's services. EDP services are provided at national headquarters and, with the functional guidance of the group, at EDP facilities in the regions. Other responsibilities include a management advisory service, a forms development and design service and an administrative support unit to monitor financial transactions and liaise with Finance and Administration and Personnel on administrative matters.

## **Manuals**

- Benefit Manual — procedures for processing initial, renewal and revised claims for unemployment insurance benefits
- Manual Pay System — procedures for processing non-automated payments of unemployment insurance benefits
- On-line Manuals — provides claimant, unemployment insurance benefits and overpayment information through computer terminals in regional offices and selected Canada Employment Centres and gives job information, employers, job seekers and referrals to employment through terminals in selected Canada Employment Centres
- Regional Computer Centre (RCC) Manual — processes to effect payment of unemployment insurance claims

## **Employment and Benefit Systems Branch**

This branch develops, tests and implements EDP systems supporting the employment development and employment training programs, placement services offered by Canada Employment Centres, and the unemployment insurance benefit program which produces unemployment insurance payments, overpayment reports, T4U/TP4Us, and financial and statistical reports. It also develops and implements clerical procedures for processing claims for benefits in local offices and regional computer centres. Other responsibilities include developing and maintaining computer systems to detect and prevent fraud and abuse, designing and implementing CEIC's micrographic system.

## **Information Systems Branch**

This branch designs and implements advanced EDP systems to support CEIC's long-range programs. It also develops, implements and maintains EDP systems supporting the social insurance number, Canadian Government Annuities and immigration programs, and information systems to assist management in finance, personnel, administration and operational performance. Other responsibilities include designing and acquiring computer hardware, software and data communication needs; obtaining the related servicing requirements; developing and executing EDP policy, systems and standards; providing technical guidance.

## **Computer Operations Directorate**

This directorate develops policies, standards and procedures dealing with the operational processes and the security of all electronic data processing (EDP) installations in CEIC. It also evaluates the effectiveness of EDP and associated operations. Other major responsibilities include managing the EDP installation at national headquarters, national support of production software/hardware, and computer site design and engineering support.

## **Management Advisory Services Directorate**

This directorate provides an in-house management consulting service to national headquarters and the regions in such fields as project management, organization analysis, work simplification, network planning and analysis, systems feasibility, systems analysis, design and development, systems and procedures implementation. It also administers CEIC's Forms Management program, which affects some 7,000 forms.

## **NATIONAL SERVICES**

This directorate, reporting to the New Brunswick region, administers the Social Insurance Number (SIN) Program, the Canadian Government Annuities program and the Unemployment Insurance Premium Reduction Program. Its activities include the operational

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

aspect of these programs and the identification of areas requiring the development of legislative proposals, policies and guidelines.

Records for the above program are located at

National Services Directorate  
Canada Employment and Immigration Commission  
P.O. Box 6000  
Bathurst, New Brunswick  
E2A 4L8

## Central Index

The SIN Program provides for the control and issuance of SINs to Canadian citizens, permanent residents, individuals who are neither Canadian citizens nor permanent residents, and for the confirmation of SIN information for certain government departments. Applications for SINs can be made at any Canada Employment Centre or Canada Immigration Centre, or be mailed to Central Index, P.O. Box 7000, Bathurst, New Brunswick, E2A 4L8.

Other responsibilities include the preparation of Record of Employment (ROE) documents for microfilming and computer indexing, and the maintenance of the ROE information bank; processing enquiries on the T4U/TP4Us (statements of unemployment insurance benefits paid and income tax deducted), which are issued annually.

## Manuals

- Central Index Manual — instructions for processing SIN applications, Record of Employment (ROE) forms and tax enquiries (T4U/TP4Us)
- Handbook on SIN Registration — procedures for handling SIN applications in Canada Employment Centres and Canada Immigration Centres

## Annuities Division

The Canadian Government Annuities program services over 240,000 annuity contracts owned by persons who bought them as private individuals or through pension fund contributions. Of these, about 150,000 are presently in payment; the rest are deferred and will mature at dates ranging from the present to about the year 2035.

## Manuals

- Annuities Manual — procedures for the administration of Canadian Government annuities

## Employer Registration Division

The division develops operational guidelines pertaining to the Unemployment Insurance Premium Reduction Program and determines entitlement to such reductions by employers with qualified salary replacement plans.

## Manuals

- Premium Reduction Manual — procedures for processing applications for, and determining entitlement to, an unemployment insurance premium reduction

## THE DEPARTMENT

### PUBLIC AFFAIRS BRANCH

This branch, composed of four directorates and a support services section, is responsible for all promotion, information, publishing, advertising and media relations on behalf of the Commission. These activities assist the directorates of Corporate Affairs, Labour Market and Employment Services Information, and Immigration and

Unemployment Insurance Information in fostering public awareness of the Commission's programs and services.

## Corporate Affairs

This directorate is responsible for developing strategic communications planning within the Commission, research and evaluation, internal and external liaison, and managing corporate communications programs. These activities are carried out with the overall objective of promoting departmental policies, programs and services on a national basis and in response to major client's needs.

## Labour Market and Employment Services Information

This directorate is charged with planning and carrying out communication strategies in support of employment development. Specifically, it is responsible for information on employment development, human resource development and special programs in order to create more public awareness, inform special target groups and motivate key economic sectors to develop initiatives that will lead to long-term community and employment benefits.

## Immigration and Unemployment Insurance Information

This directorate determines communication strategies in support of the Unemployment Insurance program and Immigration policy. It is responsible for co-ordinating information to unemployment insurance claimants, immigrants and employers, in order to enhance public awareness and inform special target groups of their rights and obligations under the *Unemployment Insurance Act* and Regulations, and the *Immigration Act* and Regulations.

## Information Services

This directorate is responsible for the design, production and dissemination of all information material for the Commission. Specifically, it handles advertising, direct mail, media monitoring, publications, graphic design, distribution, photography, sound recording, exhibits and special events, and provides technical support to the Commission's operational programs. This directorate also provides English and French language writing services and operates a central word processing unit.

## STRATEGIC POLICY AND PLANNING

This group examines CEIC policies and programs relative to their objectives. Oriented strategically, Strategic Policy and Planning analyzes current and projected labour market demands, resources (namely domestic and foreign labour, students and immigrants) available to satisfy them, and identifies and develops policies alleviating imbalances. It is also responsible for studying paid educational leave as a system of manpower planning aimed at promoting economic expansion and social justice.

## Labour Market Outlook and Structural Analysis Branch

This branch assists in the development of new strategies to match the supply of labour with demand. It also works towards the creation of a broader planning base for decision-making by incorporating more comprehensive data in its projections and assessments of occupational supply and demand in the medium- to long-term. In addition, the branch assists directly in the development of new policy proposals designed to enhance the supportive interrelationship among Commission programs, policies and services to ensure that the Commission is more effective in dealing with present and future challenges in the labour market. It is also responsible for the

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

implementation of the Canadian Occupational Projection System (COPS).

## Planning Branch

This branch integrates a number of key elements involved in the initiation and development of a strategic policy framework for CEIC. These include long-term planning, mid-term corporate planning and the development of integrated sources of data for analysis; liaison with a network of regional economists; and linkages with international bodies such as the Organization for Economic Co-operation and Development (OECD).

## Program Evaluation Branch

This branch develops and implements a comprehensive strategy for evaluating CEIC programs.

## Policy and Program Analysis Branch

This branch analyzes labour market conditions and identifies program implications; develops proposals for modifications in policies and programs; and prepares ministerial and senior management briefings on the labour market, income maintenance programs and immigration, and policy options.

## Unemployment Insurance Analysis Directorate

This directorate conducts ongoing analyses of the economic and labour market effects of the Unemployment Insurance Benefit Program.

## Employment and Immigration Analysis Directorate

This directorate has responsibility for policy and program development and the in-depth analysis of the labour market. These analyses include human resource development, employment creation and immigration and demographic analysis.

## Briefing and Current Analysis Division

This division has responsibility for a comprehensive program of analysis and dissemination of information on national market conditions, as well as for a review of all Cabinet documents originating in other departments, preparation of briefing material for senior management and preparation of ministerial correspondence on labour market policy.

## Classes of Records

---

## The Commission

EIC/IAB-005 *Formerly Identified as:* EIC-10

### Internal Audit

*Description:* Information available on policies and procedures relating to audit plans. *Topics:* Guidelines for evaluating financial and human resources operational systems; long range audit plans; assessments of materiality, risks and other operational concerns; objectives of individual audit assignments; types of audits conducted; special audits requested by management covering unemployment insurance, employment services, labour market development, immigration, systems and procedures and such internal support function areas as financial, administrative and personnel services.

EIC/IAB-010 *Formerly Identified as:* EIC-20

### Working Papers

*Description:* Support and reference documents used by auditors in compiling audit reports. *Topics:* Procedures and guidelines for conducting an audit; tests performed, such as predetermined questionnaire format and content; information obtained from audits, and conclusions and recommendations.

EIC/IAB-015 *Formerly Identified as:* EIC-30

### National Audits

*Description:* Policies, procedures and guidelines for conducting national audits. *Topics:* Control and assessment reports on public property revenues; expenditure reports on unemployment insurance, employment services, immigration, labour market development, special programs and internal financial, administrative and other support services; efficiency and effectiveness reports on all operational and financial procedures.

EIC/IAB-020 *Formerly Identified as:* EIC-40

### Regional Audits

*Description:* Policies, procedures and guidelines relating to regional audits. *Topics:* Control and assessment reports of program and service delivery through local offices, including reception and enquiries services, social insurance number applications and processing of unemployment insurance claims, as well as reports on the recruitment, selection, enforcement, exclusion and removal processes conducted by Canada Immigration Centre officers.

EIC/SEC-025 *Formerly Identified as:* EIC-50

### Secretariat

*Description:* Correspondence and policy on general activities. *Topics:* Enquiries on public rights management; policies governing corporate strategies, international relations and federal-provincial liaison; committee reports and minutes of meetings; association briefs, cabinet submissions and institutionally produced papers; proposals on corporate policy formulation, security and emergency planning and quality of service; records of decisions made by the Commissioners and Executive Committee; administration of the Secretariat.

EIC/SEC-030 *Formerly Identified as:* EIC-60

### Executive Management Services

*Description:* Policy, correspondence and documentation concerning corporate strategy, planning activities and standing committee support services. *Topics:* Policy, background and legislation documents, agreements and committee procedures; Orders-in-Council; Commission documents, procedures for regular amendments and submissions to the Governor-in-Council; reports, minutes, records of deliberations; corporate level briefings, committee meetings, agendas, times and decisions (policy, administrative and management).

EIC/SEC-035 *Formerly Identified as:* EIC-80

### Intergovernmental Affairs — External Liaison

*Description:* Information on social and employment legislation; policy and guidelines on federal-provincial co-ordination. *Topics:* Enquiries on federal-provincial relations; agreements negotiated in connection with immigration or employment policies; reports and briefs of parliamentary committees, government task forces and public associations affecting the interpretation of legislation or a variety of social issues; background on international and federal-provincial relations, and descriptions of decisions made.

EIC/SEC-040 *Formerly Identified as:* EIC-80

### Access to Information and Privacy

*Description:* Policy and guidelines on Access and Privacy; statistical and personal information provided by enquirers in their access requests. *Topics:* Policies and procedures for each component of the legislation; background on legal interpretations of access rights; individual case files; statistical data on requests and complaints;

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

documents concerning jurisprudence and records of policy decisions made by the Information and Privacy Commissioners; appeals and decisions; CEIC policies, procedures and measures encouraging access generally; administrative costs of public rights management.

**EIC/SEC-045** *Formerly Identified as:* EIC-90

## **Human Rights**

*Description:* Information on policies, guidelines, complaints and other human rights matters. *Topics:* Policies and procedures relating to implementation of legislation; reports on the human rights field; background information relating to complaint activities; individual cases.

**EIC/SEC-050** *Formerly Identified as:* EIC-100

## **Emergency Planning**

*Description:* Information on legislation, policy, correspondence and contingency plans relating to emergencies, whether local, regional, national or international, that affect CEIC peacetime operations and its National Emergency Agency for Human Resources (NEAHR) role. *Topics:* Policy, legislation, publications and manuals concerning peacetime planning, war measures (as outlined in the *War Measures Act*), and administration of emergency planning organizations; committee reports, briefs, submissions and action plans on international or interdepartmental liaison and action; regional contingency plans in the event of flood, famine, war or other disasters; references for other departments' emergency plans, their committees and agencies; NATO liaison and wartime planning; specific plans for earthquakes, nuclear incidents, oil spills, terrorism and strikes; training courses and civil and military exercises; administration of NEAHR.

**EIC/SEC-055** *Formerly Identified as:* EIC-110

## **Security**

*Description:* Policy guidelines and general correspondence on security and co-operation with the RCMP. *Topics:* Policies and procedures on personnel, physical, communications, EDP and administrative security; RCMP-CEIC co-operation; handling of immigration files at headquarters; Security Co-ordination Committee; minutes of meetings; briefs, reports, plans.

**EIC/COR-060** *Formerly Identified as:* EIC-120

## **Corporate Initiatives**

*Description:* Information on strategy, philosophy, policy and projects. *Topics:* Policy and correspondence on special projects, such as quality of service, action plans, strategies and parliamentary or cabinet documents; organization, mandate and administration of task forces, external public surveys and statistical results; philosophy and position papers from government and the private sector; applications of improvement strategies; indexes of government services, programs and listings in telephone directories; private sector handbooks, management texts and service pamphlets.

**EIC/IMM-065** *Formerly Identified as:* EIC-130

## **General**

*Description:* Policy and correspondence on general immigration and demographic activities. *Topics:* Enquiries on adopting foreign children, such as refugees or orphans; refugee status and permanent residence requested by foreign nationals in Canada who wish to remain for political, ideological, economic and/or social reasons; bonds or security deposits for non-immigrants by "guarantors" such as transportation companies, churches or relatives; association briefs and submissions, including suggestions and proposals for amending immigration policies or procedures; federal-provincial relations regarding immigration policies and procedures, such as reciprocal agreements, exchange of information or amendments to policies and procedures; policy on deserters and draft dodgers, including persons entering Canada legally or illegally who wish to remain as "landed immigrants" to evade compulsory military service or registration in the U.S. or elsewhere; Minister's permits representing authorization

for persons who wish to immigrate but who do not qualify under normal selection criteria; ports and posts operations abroad, including staffing requirements and operational responsibilities of immigration officers abroad; religious groups and sects, including comments or questions from individuals and/or associations on the application of the *Immigration Act* and Regulations to members of religious groups or sects; tracing of individuals, including requests from individuals or organizations seeking to locate persons who have immigrated to Canada.

**EIC/IMM-070** *Formerly Identified as:* EIC-140

## **Identification and Travel Documents**

*Description:* Documents required to identify and admit persons who want to enter Canada. *Topics:* Description of regulations concerning identification and travel documents (such as passports, visas, crew lists and manifests, identification documents, immigration forms IMM-1000); and standards and procedures governing the validation or endorsement of such documents.

**EIC/IMM-075** *Formerly Identified as:* EIC-150

## **Enforcement**

*Description:* General correspondence relating to enforcement activities. *Topics:* Policies and procedures concerning arrest or detention of persons in violation of the *Immigration Act* and Regulations; escapes from custody by those detained or arrested; co-operation amongst law enforcement agencies on immigration enforcement prosecutions under the Act and Regulations.

**EIC/IMM-080** *Formerly Identified as:* EIC-160

## **Exclusion and Removal**

*Description:* Information on the policy and correspondence relating to the examination of persons refused entry to Canada or ordered to be removed. *Topics:* Adjudications on the conduct of immigration enquiries (case reports, presentations of evidence, decisions); discussion of appeals and litigation submitted to the Immigration Appeal Board and Federal Courts of Canada (denials of family class dependence, deportation of persons illegally in Canada); Enforcement Information Index: ("Lookout Index") for alerting examining officers of "undesirables" who might seek entry to Canada or, once here, seek to remain; definition of inadmissible classes of immigrants considered potential threats to the health and safety of Canadians; background material regarding immigration enquiries including case presentation, venue, legal counsel, criminal equivalencies, withdrawals of enquiries; matters relating to the Special Advisory Board, such as the examination of criminal intelligence reports concerning immigrants involved in criminal or subversive activities.

**EIC/IMM-085** *Formerly Identified as:* EIC-170

## **Transportation**

*Description:* Information on the transportation of immigrants to, from or within Canada. *Topics:* Transportation by air, land or sea; companies' obligations for the provision of examination facilities; payment of detention, removal and medical costs; deposit of security bonds for persons conveyed in companies' vehicles; responsibilities and regulations of travel agencies. *Retrievability:* Files are arranged by subject, company, committee or organization.

**EIC/IMM-090** *Formerly Identified as:* EIC-180

## **Special Events**

*Description:* Information on examination, admission and control of persons seeking temporary entry to attend or participate in special events taking place in Canada. *Topics:* Policies and procedures on special events generally; championships and contests; the Commonwealth Games; expositions; the Olympic Games.

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

EIC/IMM-095 Formerly Identified as: EIC-190

## **Examination**

*Description:* Information on the conduct of immigrant examinations and the interpretation of customs regulations. *Topics:* Policies and procedures relating to the examination of potential immigrants and other persons seeking entry to Canada, including customs regulations on the clearance of settlers, their personal effects, baggage and pets; activities of the Interdepartmental Inspection Services Committee (IISC) and project methodology regarding, for example, transit studies (passenger traffic at Canadian airports); medical examinations of persons applying for admission to Canada (X-rays, medical functions, communicable diseases, quarantine regulations); "security" and "criminal" screenings for clearance of persons seeking temporary admission.

EIC/IMM-100 Formerly Identified as: EIC-200

## **Monitoring and Analysis**

*Description:* Documents used to monitor and evaluate operational aspects of the Immigration Program. *Topics:* Information on data systems and monitoring activities to identify changes in program operations.

EIC/IMM-105 Formerly Identified as: EIC-210

## **Enforcement Intelligence**

*Description:* Information on the denial of entry to Canada of persons known to have been involved with criminal or other illegal activities.

*Topics:* Exchange of intelligence information about persons who may try to enter Canada illegally to pursue unlawful activities.

EIC/IMM-110 Formerly Identified as: EIC-220

## **Data Systems**

*Description:* Information on systems used for gathering or amending statistics and other types of information necessary for the operational support of the immigration function and programs. *Topics:* Information systems generally; standard statistical coding for completing forms; information-gathering systems (employment clearance, occupation, transportation tables, native language); data systems (immigrants abroad and in Canada, permanent residents, monthly program reports, special information retrieval procedures, foreign nationals visiting Canada). *Storage Media:* Microfilm, magnetic tape or disk.

EIC/IMM-115 Formerly Identified as: EIC-230

## **Records of Entry**

*Description:* Vital statistics (surname, given names, date of birth, Canadian port of entry), of all persons entering Canada as permanent residents, and certain categories of visitors that must be documented.

*Topics:* Definition of a permanent resident; of a Canadian citizen; of a deemed resident; of a returning resident; of an unregistered child born abroad of Canadian parents; of a visitor; of a student; of a temporary worker; of a ministerial permit; of a ship deserter; of deportation (expulsion orders, deportation orders, deportation reports, departure notices, confirmations of departure). *Retrievability:* Master index files arranged by surname; ships' names by port of entry; port of entry (arrivals). *Special Access Note:* Records of entry dated before January 1919 are in the custody of the Public Archives of Canada.

EIC/IMM-120 Formerly Identified as: EIC-240

## **Admission of Applicants to Canada (Revised)**

*Description:* Information on policies and programs concerning the admission of applicants to Canada. *Topics:* Policies and programs for the orderly and planned admission of immigrants according to component groups (economic, social and humanitarian immigrants) and of visitors including tourists, temporary workers and foreign students. Related background information including labour market and demographic data. Policies on federal-provincial relations concerning immigration. Description of selection criteria and processing systems.

EIC/IMM-125 Formerly Identified as: EIC-250

## **Refugees and Displaced Persons**

*Description:* Policies, procedures and general information on the admission of refugees and displaced persons. *Topics:* Policies and procedures on emergency situations in which large numbers are displaced from their homes or homeland because of war, revolution or natural disaster; descriptions and policy on promises and guarantees for sponsorship, medical aid and settlement programs by churches, organizations, institutions or individuals on behalf of refugees; background on information exchange programs between CEIC and provincial or international governments and agencies, such as the International Institute of Humanitarian Law, the Annual Refugee Plan, the United Nations High Commission for Refugees and the Refugee Status Advisory Committee. *Retrievability:* Files are arranged by subject, country, organization or group.

EIC/IMM-130 Formerly Identified as: EIC-260

## **Settlement Assistance and Transportation Loans**

*Description:* Policy and correspondence on programs designed to help immigrants adjust to Canadian life. *Topics:* General settlement assistance; emergency adjustment assistance for accommodation, clothing, medical services, education and training; co-operation with ethnic organizations; government funding for voluntary immigrant agencies; reception and counselling services in Canada and abroad; assisted passage loans provided to those persons accepted as permanent residents. *Storage Medium:* Videotaped television programs on racial relations.

EIC/IMM-135 Formerly Identified as: EIC-270

## **Adjudication (Revised)**

*Description:* Information on the *Immigration Act* and Regulations and related legislation and on adjudication functions and activities. *Topics:* General correspondence relating to the Act and Regulations and related legislation, and to adjudication policy, functions and activities; correspondence relating to various legislation which may impact on Immigration policies and procedures, including the effect of the Charter on the *Immigration Act*; correspondence relating to natural justice, bias, fairness, the role of the adjudicator; appeals and appeals procedure to the Supreme Court of Canada (SCC), the Federal Court of Canada (FCC) and the Immigration Appeal Board (IAB); correspondence, directives from the Operations Branch relating to policy concerns of interest to Adjudication; refugees and displaced persons, refugee claims.

EIC/IMM-140 Formerly Identified as: EIC-280

## **Adjudication Enquiries (Revised)**

*Description:* Information on policies and procedures with respect to conducting immigration enquiries, hearings, presentation of evidence, and decisions under the *Immigration Act* and Regulations. *Topics:* Correspondence relating to policies and procedures with respect to conducting immigration enquiries, hearings, presentation of evidence and decisions under the Act and Regulations; procedures concerning the adjournment and resumption of enquiries, nature and form of evidence at enquiries, the appointment of representatives pursuant to Section 29(5) of the *Immigration Act* and their role at enquiries; substantive and procedural issues concerning an adjudicator's jurisdiction; permanent resident issues, and removal of persons found at enquiry to be in violation of the *Immigration Act*.

EIC/IMM-145 Formerly Identified as: EIC-290

## **Detention (Revised)**

*Description:* Information on policies and procedures with respect to provisions pertaining to detention. *Topics:* Correspondence relating to policies and procedures on the various provisions pertaining to arrest and detention; jurisdiction of an adjudicator to review detention; form and content of bonds, terms and conditions; retaking into custody, and legislative requirements for periodic review of detention.

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

EIC/IMM-150 *Formerly Identified as:* EIC-300

## **Status (Revised)**

*Description:* Information on policies and procedures pertaining to grounds for removal and admissibility. *Topics:* General correspondence relating to policies and procedures pertaining to grounds for removal and admissibility, port of entry, inland, criminal offences, eluding enquiry, admission by misrepresentation or improper means; employment and student authorizations.

EIC/INS-155 *Formerly Identified as:* EIC-310

## **Enquiries**

*Description:* Enquiries to the Minister and senior commission officials. *Topics:* Guidelines for handling enquiries; individual files showing the receipt, processing, and preparation of replies; analyses of correspondence received; reports.

EIC/INS-160 *Formerly Identified as:* EIC-320

## **Actuarial Services**

*Description:* Policy, legislation and actuarial criteria for determining financial parameters and analysing the experience under the Unemployment Insurance and Government Annuities Programs. *Topics:* Actuarial Services policy and correspondence; advisory committee reports; operations of the Annuities Program; budgets, expenses and administration; contributions; premium reductions and benefits; cost estimates and premium revenue estimates; *Unemployment Insurance Act* and Regulations (assessment and development of amendment proposals to the Unemployment Insurance Program), statistical reports and labour force data; interface of Unemployment Insurance Program with guaranteed income proposals; other agencies (briefs, views and proposals from public and private sectors); background on the Society of Actuaries and miscellaneous internal working files; public relations and special briefings; supplementary survey from Statistics Canada; Supplemental Unemployment Benefit plans; WLR plans (planning, development, operational activities and employer appeals under the registration program of qualified WLR plans); program evaluation; comprehensive review of Unemployment Insurance in 1980s.

EIC/INS-165 *Formerly Identified as:* EIC-330

## **Policy and Legislation Development**

*Description:* Policies, draft legislation, correspondence related to the Unemployment Insurance Program and other benefits provided by CEIC. *Topics:* Legislative reviews, procedures, information and policy papers on eligibility for sickness, maternity and adoption benefits; entitlement to benefit; payments to certain classes of individuals, such as students and teachers; deceased or incapacitated claimants; monies considered as earnings for benefit purposes; payment of benefits to persons undertaking approved training or involved in job creation or work sharing programs; coverage and insurability of employed workers; the granting of unemployment insurance premium reductions to employers.

EIC/INS-170 *Formerly Identified as:* EIC-340

## **Briefs and Representations**

*Description:* Information on recommendations for change in the Unemployment Insurance Program and legislation. *Topics:* Views and reaction to Unemployment Insurance legislation; briefs on amendments to programs or legislation received from interested parties.

EIC/INS-175 *Formerly Identified as:* EIC-350

## **Coverage and Premium Policy**

*Description:* Policies on the insurability of employment. *Topics:* Correspondence on the insurability of employment; policy and legislative proposals; operational guidelines; agreements on the insurability of certain classes of workers; matters dealing with formal coverage rulings; insurability appeal; liaison with Revenue Canada Taxation (RCT): minutes of CEIC/RCT Appeal Review Committee;

review of RCT rulings; premium refunds; minutes of coverage committee meetings; activity reports.

EIC/INS-180 *Formerly Identified as:* EIC-360

## **Supplemental Unemployment Benefits**

*Description:* Information on the approval of Supplemental Unemployment Benefits plans. *Topics:* Policies and guidance; approval of Supplemental Unemployment Benefits plans; activity reports.

EIC/INS-185 *Formerly Identified as:* EIC-370

## **Labour Adjustment Benefit**

*Description:* Information on the administration of the Labour Adjustment Benefit Program. *Topics:* Policies, procedures and correspondence pertaining to labour adjustment benefits; activity reports.

EIC/INS-190 *Formerly Identified as:* EIC-380

## **Benefit Entitlement**

*Description:* Policies and correspondence concerning entitlement. *Topics:* Eligibility for benefits; interruption of earnings; antedating of an application; week of unemployment; earnings; voluntarily leaving an employment; misconduct; labour disputes; refusal of employment; availability; making application in the prescribed manner; inmates of prisons; residence outside Canada; sickness; maternity; entitlement at age 65; fishermen; other benefits (such as supplemental unemployment benefits); retroactivity of decisions; financial penalties under Section 47 of the *Unemployment Insurance Act*; boards of referees. *Special Access Note:* For more information on the above, consult the Digest of Benefit Entitlement Principles.

EIC/INS-195 *Formerly Identified as:* EIC-390

## **Ancillary Policies on Benefit Entitlement**

*Description:* Policies and correspondence on issues not classified under the previous class of records. *Topics:* Work-sharing arrangements; job creation; courses of instruction; entitlement to benefits for teachers; overpayments resulting from retroactive decisions; labour adjustment benefits; quality control; National Voluntary Services; Youth Training Option.

EIC/INS-200 *Formerly Identified as:* EIC-400

## **Claims Analyses**

*Description:* Case files containing recommendations and decisions on complex or unique situations. *Topics:* Legislative and regulatory basis for the area of concern; background and jurisprudence; relevant data of the case; decision and rationale.

EIC/INS-205 *Formerly Identified as:* EIC-410

## **Premium Reduction Program**

*Description:* Information on policies and audits pertaining to premium reduction. *Topics:* Legislative and regulatory proposals; policy statements; appeals; development of an approach to auditing employers; audit reports.

EIC/INS-210 *Formerly Identified as:* EIC-420

## **Appeals**

*Description:* Policies, procedures and correspondence on the national appeals system. *Topics:* Policies and programs relating to appeals to the Board of Referees, the Umpire and the Federal Court of Appeals; procedures for each level of the appeal process; appeal files containing documentation relating to the point at issue; files containing decisions handed down; analyses of the Umpire's decisions; publication and distribution of Umpire's decisions; individual requests for guidance; activity reports.

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

EIC/INS-215 *Formerly Identified as:* EIC-430

## **Control Policy**

*Description:* Policies, recommendations, correspondence on investigations, prosecutions, administrative penalties, exchanges of information and co-operation in the area of investigations and control. *Topics:* Analysis of problems and issues; analysis of institutional and operational impact; policies regarding investigations and prosecutions; also includes policies and strategies in areas like agriculture, fishing, and fur trapping; policies governing the conduct of investigators, the exchange of information with federal Departments, the provinces or law enforcement agencies; liaison with internal organizational components.

EIC/INS-220 *Formerly Identified as:* EIC-440

## **Planning and Analysis**

*Description:* Information on overall planning, co-ordination and analysis of activities and strategies. *Topics:* Consultations on national and regional goals and objectives; operational planning activities; project outlines; general matters dealing with control of abuse and fraud; analysis of operational statistics; prosecutions and fines; financial penalties under Section 47 of the Act; criminal activities. *Storage Medium:* Magnetic tape or disk for certain statistical or activities reports.

EIC/INS-225 *Formerly Identified as:* EIC-450

## **Control Programs**

*Description:* Procedures, correspondence on control programs, investigations and prosecutions. *Topics:* Correspondence, publicity, evaluations on control programs such as Report on Hirings; guidelines, procedures, correspondence on investigations; authority of investigators; third party or anonymous information; liaison with law enforcement agencies; financial penalties provided for under Section 47 of the *Unemployment Insurance Act*; guidelines and procedures for prosecutions; operational and statistical reports.

EIC/INS-230 *Formerly Identified as:* EIC-460

## **Control Programs — Payment of Unemployment Insurance Benefits**

*Description:* Information on guidelines and strategies for the development of control programs. *Topics:* Voluntary disclosures; research projects; pilot projects, like the Atlantic Survey Unit; control program proposals; approved programs and lead- gathering initiatives for detecting and preventing fraud and abuse; control programs for certain industries, occupations or special classes, e.g., agriculture, fur trapping, forest fire fighters, multiple Unemployment Insurance claims, undeliverable T4Us, Record of Employment.

EIC/INS-235 *Formerly Identified as:* EIC-470

## **Control Programs — Social Insurance Numbers**

*Description:* Information on the development of controls for the social insurance number (SIN). *Topics:* General correspondence; discussion papers; enquiries; investigations concerning the issuance of SINs to immigrants who are not permanent residents; issuance of distinctive SINs (commencing with a "9") to Canadian citizens; persons with multiple SINs; possible fraud involving SINs of deceased persons; transmission of questionable SINs.

EIC/INS-240 *Formerly Identified as:* EIC-480

## **Manual Report on Hirings**

*Description:* Manual system used by employers to report hirings. *Topics:* General information on the manual subsystem; problems and revisions of the subsystem; interface with the computer group (Systems and Procedures).

EIC/INS-245 *Formerly Identified as:* EIC-490

## **Automated Earnings Reporting System**

*Description:* System used by employers to report earnings information to the Commission by computer tape. *Topics:* General information on the computerized subsystem; problems and revisions of the subsystem;

testing procedures; systems interface with the computer group; reports on possible overpayments of unemployment insurance benefits.

EIC/INS-250 *Formerly Identified as:* EIC-500

## **Automated Report on Hirings**

*Description:* System used by employers to report hirings by computer printouts, punch cards or computer tapes. *Topics:* General information on the computerized subsystem; guidance to participating employers; interface with individual employers on the computerized programs.

EIC/INS-255 *Formerly Identified as:* EIC-510

## **Medical Advisory Services**

*Description:* Information on operating policies pertaining to sickness and maternity claims. *Topics:* Correspondence with the medical profession at large or with medical associations; guidance to regions on independent medical examiners; schedule of medical fees by provinces; fees for independent medical examiners; operational procedures; copies of case files containing documents relating to medical claims; activity and statistical reports.

EIC/INS-260 *Formerly Identified as:* EIC-520

## **Insurance Program Services**

*Description:* Operational policies on the delivery of insurance services and programs. *Topics:* Procedures and guidelines pertaining to claims for benefit-variable entrance requirements, combined application forms, back-dating of claims, fishing benefits, entitlement at age 65, work-sharing arrangements, assignment of benefits, processing of appeals, claimant interview program, early mailing of documents by claimants, recovery of overpaid benefits; legislative and regulatory proposals and policy for the social insurance number and Government Annuities programs; impact of postal disruptions on claims processing; claimant eligibility review; transfer of claims; liaison with union hiring halls; guidelines on processing claims enquiries; hiring and remuneration of unemployment insurance contract agents; guidelines for the quality control of claims processing; general correspondence on employment market advisory services; liaison with claimant groups, union representatives and industry; activity reports.

EIC/INS-265 *Formerly Identified as:* EIC-530

## **Interstate Benefits**

*Description:* Co-ordination of the interstate benefit activity and other special arrangements. *Topics:* Correspondence with regions; correspondence with individual states of the United States; reciprocal agreements; liaison with U.S. Railroad Retirement Board, United Kingdom Department of Health and Social Service; operational procedures; activity reports.

EIC/INS-270 *Formerly Identified as:* EIC-540

## **Record of Employment (ROE)**

*Description:* Information on the processing of Record of Employment forms. *Topics:* Procedures, guidelines and correspondence on processing ROE forms and maintaining the ROE information bank. *Storage Medium:* Magnetic tape and microfilm.

EIC/INS-275 *Formerly Identified as:* EIC-550

## **Forms Development**

*Description:* Information on the development and control of forms. *Topics:* Individual files containing requests for creating or revising forms, specifications; related correspondence.

EIC/INS-280 *Formerly Identified as:* EIC-560

## **Monitoring and Analysis**

*Description:* Information on monitoring and assessing operational activities. *Topics:* Goals, objectives and plans of the Insurance Management Services directorate; co-ordination of the development of operational plans for the Insurance Program; trend analyses; reports on monitoring, quality assurance, appeals process. (The

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

Directorate makes use of the many narrative and statistical reports emanating from the program and support areas.)

## **EIC/INS-285 Formerly Identified as: EIC-570 Comprehensive Tracking System**

*Description:* Information on operating policies and procedures pertaining to the review of claim files for the Comprehensive Tracking System. *Topics:* Correspondence with the regions and with the Auditor General's Office; guidance to the regions on the review of claim files; quarterly reports and analysis; copies of claim files reviewed.

## **EIC/LMD-290 Formerly Identified as: EIC-580 Labour Market Development**

*Description:* Policy and correspondence on general programs and activities. *Topics:* Correspondence relating to labour market policies, priorities, guidelines and programs; briefs, submissions, reports and other documentation relating to labour market strategies, policies and programs; documentation concerning federal-provincial negotiations and agreements on training programs and strategies; minutes of operational meetings, standing or other committees, conferences, task forces, and seminars conducted in consultation with other government institutions, associations, private sector firms and community bodies; certification of educational institutions and accreditation of training courses.

## **EIC/LMD-295 Formerly Identified as: EIC-590 Training**

*Description:* Information on the development of legislation, regulations, national strategies and policies relating to employment training programs. *Topics:* Negotiations and agreements at the federal-provincial level; policies and procedures concerning training agreements; courses and certifications; course evaluations and costs; background on training and employment development.

## **EIC/LMD-300 Formerly Identified as: EIC-600 Industrial Training**

*Description:* Policy and correspondence on training contracts, applicability and program criteria. *Topics:* Policies and procedures concerning applicability of criteria; background on employer training centres and delivery of training programs according to regional needs; descriptions of training and results; reports and minutes of committees such as the labour needs committees; operational planning.

## **EIC/LMD-305 Formerly Identified as: EIC-610 Critical Trade Skills**

*Description:* Policy and correspondence on critical trade skills training. *Topics:* Policies and procedures on developing specific training programs to alleviate critical trade skills shortages; background on design and delivery of programs; descriptions of specific programs, both current and researched, on problems of chronic shortages.

## **EIC/LMD-310 Formerly Identified as: EIC-620 Management Information System**

*Description:* Policy and correspondence on managing program data and statistics. *Topics:* Specifications on program data requirements, nationally and by program; policy and guidelines on reporting statistics; cumulative information on industrial training; plans and models of alternate or adapted reporting systems.

## **EIC/LMD-315 Formerly Identified as: EIC-630 Youth Projects**

*Description:* Information and correspondence on training programs for disadvantaged youth. *Topics:* Policies and guidelines on youth training projects such as Youth Training Options; contracts with employers who provide training centres for disadvantaged youth;

description and results of training projects relating to youth employability and/or reintegration into the labour market.

## **EIC/LMD-320 Formerly Identified as: EIC-640 Institutional Training**

*Description:* Information and correspondence on critical applicability, institutional training, allowances, and agreements with institutions. *Topics:* Policies and procedures on applicability of criteria; background on Training Allowances and Apprenticeship Training under the *National Training Act*; background on Basic Training, Job Readiness and other programs; description and results of all training programs; and reports and documentation on institutional training generally.

## **EIC/LMD-325 Formerly Identified as: EIC-650 Allowances and Programs**

*Description:* Information and correspondence on various institutional training programs. *Topics:* Applicability of criteria, policies and procedures on training allowances and programs; correspondence on National Training, Basic Job Readiness and Basic Training for Skills Development.

## **EIC/LMD-330 Formerly Identified as: EIC-660 Skills Growth Fund**

*Description:* Policies, procedures and correspondence on applicability of criteria and applicant files. *Topics:* Background on training facility expansion and costs, project proposal assessment and disposition, agreements with provinces and non-profit organizations.

## **EIC/LMD-335 Formerly Identified as: EIC-670 Labour Market Planning and Adjustment**

*Description:* Policies and procedures, information and correspondence on labour market planning and adjustment. *Topics:* Strategies, action plans and negotiations with firms and industries in labour market planning; background information and documentation on new development; correspondence and reports on development initiatives, such as northern activities.

## **EIC/LMD-340 Formerly Identified as: EIC-680 Industrial Adjustment Service**

*Description:* Correspondence, information and agreements on assessment and minimization of specific manpower problems. *Topics:* Documentation on specific problems such as plant expansion, results of technological changes, low productivity, plant closure and layoffs; policy, guidelines and correspondence on the Work Sharing Program.

## **EIC/LMD-345 Formerly Identified as: EIC-690 Industry and Labour Adjustment**

*Description:* Policies, correspondence, agreements and results on assistance measures designed to support industrial restructuring and community and worker adjustment. *Topics:* Various assistance measures involving programs of three separate Departments: Employment and Immigration, Regional Industrial Expansion, and Labour Canada.

## **EIC/LMD-350 Formerly Identified as: EIC-700 Canadian Industrial Renewal Program**

*Description:* Policies, correspondence, agreements and results of assistance measures designed to support community and worker adjustment related to the textile, clothing, footwear and tanning industries. *Topics:* Various industrial assistance measures involving programs of Employment and Immigration, Labour, and the Canadian Industrial Renewal Program.

## **EIC/LMD-355 Formerly Identified as: EIC-710 Energy**

*Description:* Policies and documentation on development of strategies, action plans and negotiations with the oil and gas industry, associations, organizations and companies. *Topics:* General

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

information on energy projects, negotiations with oil and gas firms on human resource planning activities, studies on oil and gas exploration and development, policy co-ordination with Canada Oil and Gas Lands Administration, interdepartmental initiatives and co-ordination.

EIC/LMD-360 *Formerly Identified as:* EIC-720

## **Construction**

*Description:* Correspondence and exchange of information with construction industries in Canada and union transactions. *Topics:* Negotiations with the construction industry in human resource planning; exchange of information with associations, councils, institutions on construction industry activities; studies on various phases of engineering construction; exchange of information with individual firms on construction industry activities; provincial housing construction; studies and other aspects of the construction industry as it relates to unions and industrial relations; negotiations with major sponsors and contractors for (human resource) planning for major projects.

EIC/LMD-365 *Formerly Identified as:* EIC-730

## **Agriculture**

*Description:* Policies, documentation and correspondence on the development of strategies, action plans and negotiations with the agricultural industry and associations, organizations and companies. *Topics:* Associations, organizations, companies; Canada Farm Labour Pools; Caribbean Seasonal Workers; Federal-Provincial Agreements; Local Agricultural Employment Advisory Boards; Mexican Seasonal Workers. *Retrievability:* General files, by subject; associations, organizations and companies, by name; Canada Farm Labour Pools, by labour pool; Local Agricultural Employment Advisory Boards, by region.

EIC/LMD-370 *Formerly Identified as:* EIC-740

## **Resources**

*Description:* Policies and procedures, information and correspondence on resources generally and on activities relating to fishing, trapping, forestry, mines, quarries and petroleum. *Topics:* Commercial fishing; hunting and trapping; fire warden patrols, forest nurseries, reforestation; minerals, non-metallic mines, iron, uranium, silver, zinc, gold mines and quarries; offshore and inland oil, gas explorations and well-drilling.

EIC/LMD-375 *Formerly Identified as:* EIC-750

## **Services**

*Description:* Policies and procedures, information and correspondence on the service industry. *Topics:* Strategies, action plans and negotiations with the service industry; various hospitality services, including consultant services, personal services (barber and beauty shops); accommodation and food service; transportation services, including freight, express or mail via land, rail, air and sea; generation of electric power; gas distribution; natural or manufactured water systems, both household and irrigation.

EIC/LMD-380 *Formerly Identified as:* EIC-760

## **Manufacturing**

*Description:* Policies and procedures, information and correspondence on manufacturing activities. *Topics:* Strategies and negotiations with the manufacturing industry; human resource planning activities in the aircraft manufacturing, assembly and service industry; appliance manufacturing industry (including small household appliances, refrigerators, washing machines, radios, televisions); chemical, glass and plastics industry (including fertilizers, cleaning compounds, medicines, paints); electronics industry (including computers, telecommunications equipment, photocopiers); food and beverage processing industry (including processors of meat, dairy products, fruit, vegetables, alcoholic beverages); primary metal; metal fabricating; farm and industrial machinery manufacturing; motor

vehicle and parts manufacturing and assembly; rubber products manufacturing; commercial and military shipbuilding industry.

EIC/LMD-385 *Formerly Identified as:* EIC-770

## **Foreign Workers Policy**

*Description:* Policies and correspondence relating to foreign workers.

*Topics:* Recruitment of foreign workers; recruitment and utilization of foreign workers in specific occupational groups.

EIC/LMD-390 *Formerly Identified as:* EIC-780

## **Employment Development**

*Description:* Policies, guidelines and correspondence on employment development. *Topics:* Policies and guidelines for implementing employment development programs; description of job creation programs.

EIC/LMD-395 *Formerly Identified as:* EIC-790

## **Canada Works**

*Description:* Policies, guidelines and correspondence on the Canada Works Program. *Topics:* General correspondence; development and management of projects including *Unemployment Insurance Act*, Section 38 and Summer Canada Works projects; job creation projects in diverse areas; documentation and financial data on projects.

EIC/LMD-400 *Formerly Identified as:* EIC-800

## **Career-Access**

*Description:* Policies, guidelines and correspondence on the Career-Access Program. *Topics:* The Career-Access Program generally; documentation and financial data on agreements.

EIC/LMD-405 *Formerly Identified as:* EIC-810

## **Job Corps**

*Description:* Policies, guidelines and correspondence on the Job Corps Program. *Topics:* The Job Corps Program generally; the development and management of projects; projects in diverse areas; documentation and financial data on projects.

EIC/LMD-410 *Formerly Identified as:* EIC-820

## **Local Employment Assistance Development**

*Description:* Policies, guidelines and correspondence on the Local Employment Assistance Development Program. *Topics:* Local Employment Assistance Development Program generally; development and management of projects and corporations in diverse areas; documentation and financial data on projects and corporations.

EIC/LMD-415 *Formerly Identified as:* EIC-830

## **Summer Employment Experience and Work Orientation Workshops**

*Description:* Policies, guidelines, documentation and correspondence on SEED and WOW. *Topics:* Operational guidelines for implementing SEED and WOW; internships documentation; correspondence relating to summer student employment programming generally. (All similar records pertaining to the former summer student components of Career-Access and Canada Works.)

EIC/EMP-420 *Formerly Identified as:* EIC-840

## **Enquiries**

*Description:* Enquiries to the Minister and senior Commission officials. *Topics:* Guidelines for handling enquiries; individual files showing the receipt, processing, and preparation of replies; analyses of correspondence received; statistical reports.

EIC/EMP-425 *Formerly Identified as:* EIC-850

## **Employment Operations**

*Description:* Information on operational policy on the delivery of employment services and programs. *Topics:* General information on employment programs such as training, mobility, youth, native employment, local employment assistance programs; reports on employee records improvement, review of application forms, improvements to the registration process and the Job Information

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

Centre (JIC); guidance on federal and provincial human rights legislation; operational policies; statistical and activity reports.  
*Storage Medium:* Client information on magnetic tape.

EIC/EMP-430 *Formerly Identified as:* EIC-860

## **Mobility**

*Description:* Information on the administration of the mobility program. *Topics:* General correspondence; mobility in other countries; labour mobility studies; policy proposals; operational procedures; guidance to the regions; liaison with national headquarters systems groups; financial and statistical reports.

EIC/EMP-435 *Formerly Identified as:* EIC-870

## **Clearance**

*Description:* Information on the administration of the National Job Bank clearance system. *Topics:* General correspondence; liaison with other national headquarters components to discuss program requirements; operational procedures; guidance to the regions; management and statistical reports.

EIC/EMP-440 *Formerly Identified as:* EIC-880

## **Outreach Program**

*Description:* Information on personalized employment-related services supported by community-based agencies. *Topics:* General correspondence; project files containing descriptions of clientele and activities, estimates of human and financial resources, analysis and evaluation by regional review committee, and approval; activity, statistical and financial reports.

EIC/EMP-445 *Formerly Identified as:* EIC-890

## **Employment Support Services**

*Description:* Information on the development of programs to support the placement activity. *Topics:* Correspondence on the identification or determination of occupational skills required for employment; systems supporting the placement service; preparation and distribution of College and University Programs in Canada, a publication listing educational and training programs available, and publications such as Careers Canada, Careers Provinces, Canadian Occupations Entry Requirements (used abroad to determine eligibility of prospective immigrants for employment in Canada).

EIC/EMP-450 *Formerly Identified as:* EIC-900

## **Career Counselling**

*Description:* Policies, methods and materials for employment counselling and testing. *Topics:* Correspondence on the counselling function; guidelines relating to CHOICES, a computerized information system designed to help people make informed decisions about career plans; development of job search techniques (CJST) and supporting publications; strategies leading to the achievement of client employment (PLACE) and supporting work books; correspondence relating to the testing of clients (General Aptitude Test Battery) in connection with counselling; development of the Index to Canadian Occupations, which assists clients in identifying career goals; purchase of diagnostic services to assist counsellors in the counselling function. *Storage Medium:* CHOICES data on magnetic tape or disk.

EIC/EMP-455 *Formerly Identified as:* EIC-910

## **National Occupational Analysis and Classification Systems (NOACS) — Generally**

*Description:* Classification of occupations in the labour market. *Topics:* Analysis of information concerning occupations, trades, crafts and professions; preparation and distribution of publications such as the series on Occupational Trade Analyses, and the Canadian Classification and Dictionary of Occupations (CCDO). *Storage Medium:* Certain CCDO data on magnetic tape.

EIC/EMP-460 *Formerly Identified as:* EIC-920

## **Youth Employment**

*Description:* Information on employment programs to meet the needs of youth. *Topics:* Youth Strategies for the 1980s; information on youth programs in other countries; liaison with the University and College Placement Association; development of national policies, strategies and guidelines related to the employment of youth, e.g., employment centres on campus, specialized youth units, international employment exchange programs, summer employment and federal-provincial initiatives in the area of co-operative education; case files for Canada-Mexico trainee exchanges containing applications, health care information, Spanish language testing and related correspondence.

EIC/EMP-465 *Formerly Identified as:* EIC-930

## **Native Employment**

*Description:* Information on employment programs to meet the needs of native people. *Topics:* Liaison with councils, brotherhoods, bands, associations representing native people; reports on the needs and migration of natives; liaison with other government departments; impact of human rights legislation on native employment; discussion papers; policies, programs and strategies pertaining to the employment of natives generally, native women and native youth; marketing and advertising native skills; activity reports.

EIC/EMP-470 *Formerly Identified as:* EIC-940

## **Women's Employment**

*Description:* Information on policies and strategies to improve the employability of women. *Topics:* Correspondence with national women's organizations; liaison with women's groups; policies, plans and strategies relating to the employment needs of women; activity reports.

EIC/EMP-475 *Formerly Identified as:* EIC-950

## **Disabled Persons**

*Description:* Information on the development and co-ordination of policies and strategies to ensure equality of employment opportunity for disabled Canadians. *Topics:* Correspondence with national organizations such as the Advisory Committee to the President of the Treasury Board, the Secretariat for Disabled Persons, and the Secretary of State; policies, plans and strategies relating to the employment of disabled persons; activity reports; specific program and project files.

EIC/EMP-480 *Formerly Identified as:* EIC-960

## **Special Needs Clients and Special Groups**

*Description:* Information on policies and strategies to improve the employability of special needs or disadvantaged clients and members of special groups. *Topics:* Policies, strategies, guidelines and activities to meet the employment needs of (1) special needs or disadvantaged clients; and (2) special groups such as older workers and welfare recipients; liaison with government and non-government agencies having a specific interest; activity and statistical reports.

EIC/EMP-485 *Formerly Identified as:* EIC-970

## **Affirmative Action**

*Description:* Information on the promotion of affirmative action plans in the private sectors. *Topics:* Directorate objectives, goals and activities; Affirmative Action in the 1980s (Minister); communications strategy; minutes of interdepartmental committees on affirmative action; operational plans and studies; policies, plans for monitoring elimination of systemic discrimination; development of seminars; activity reports.

EIC/EMP-490 *Formerly Identified as:* EIC-980

## **Functional Services**

*Description:* Information on research, training, policy co-ordination and administration for the Special Groups and Affirmative Action Branch. *Topics:* General correspondence; information relating to

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

technical research regarding special and targetted groups and affirmative action; research reports; design, development and delivery of training packages; development and maintenance of a resource centre.

**EIC/EMP-495** *Formerly Identified as:* EIC-990

## **Planning and Analysis**

*Description:* Information on monitoring and assessing operational activities and co-ordinating operational plans and budgets. *Topics:* Goals, objectives and plans of the Employment Services Planning and Analysis branch; minutes of the Performance Measurement Steering Committee; trend analyses; reports on operational performance; reports on monitoring projects; group and branch operational plans, budgets and managerial contracts. (The branch makes use of the many narrative and statistical reports emanating from the program and support areas.)

**EIC/SYS-500** *Formerly Identified as:* EIC-1000

## **Employment Development**

*Description:* Information on systems supporting the administration of employment development programs. *Topics:* Correspondence; status reports.

## **EDP Systems**

- Canada Community Development
- Canada Community Services
- Canada Works — 1984
- Canada Works/Young Canada Works
- Career-Access

*Description:* Information on systems supporting administration of Employment Client Services. *Topics:* Correspondence, status reports.

## **EDP Systems**

- Canada Mobility Program

- Canadian Classification and Dictionary of Occupations
- Client/Claimant Index
- National Job Bank

**EIC/SYS-515** *Formerly Identified as:* EIC-1030

## **Benefit Pay**

*Description:* Information on systems supporting administration of the Unemployment Insurance benefit program. *Topics:* Correspondence; status reports.

## **EDP Systems**

- Benefit Pay Systems — produces unemployment insurance payments; updates status of claims; maintains a history of overpayments; produces daily, monthly and quarterly statistical reports on operations, overpayments and unemployment insurance fund accounting; produces T4U/TP4Us showing benefits paid and income tax deducted for each claimant; supports associated enquiry functions in local and regional offices

**EIC/SYS-520** *Formerly Identified as:* EIC-1040

## **Liaison and Procedures**

*Description:* Information on clerical procedures in Canada Employment Centres and regional computer centres. *Topics:* Correspondence; policy and systems changes that impact on clerical procedures; reports of visits to regions; training plans for new or revised procedures and ongoing training requirements.

**EIC/SYS-525** *Formerly Identified as:* EIC-1050

## **Control**

*Description:* Information on systems supporting CEIC control activities. *Topics:* Correspondence; status reports.

## **EDP Systems**

- Record of Employment
- Overpayment detection
- Employer Registration (Premium Reduction Program)
- Tracking Commission debtors from employment records
- Comparison of claimant data to detect possible SIN and UI abuse
- Micrographic Listings for the general control of unemployment insurance programs
- Record of Offences

**EIC/SYS-530** *Formerly Identified as:* EIC-1060

## **Support**

*Description:* Information on support for the implementation of Employment and Benefit EDP systems, including micrographics. *Topics:* Correspondence; evaluation reports.

**EIC/SYS-535** *Formerly Identified as:* EIC-1070

## **Advanced Systems**

*Description:* Information on the development and implementation of advanced technology systems. *Topics:* Research and correspondence on advanced technological systems; operational problems, performance reports on the employment and insurance on-line systems; Treasury Board submissions; correspondence with users on software requirements for CHOICES (Computerized Heuristic Occupational Information and Career Exploration Systems).

## **EDP Systems**

- National Employment Services System (NESS) — provides, via computer terminals in selected Canada Employment Centres in the Atlantic provinces, data on jobs available, employers, job seekers, referrals to employment and related data

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

**EIC/SYS-540** *Formerly Identified as:* EIC-1080

## **Social Insurance Number Registration**

*Description:* Systems supporting administration of the SIN program.

*Topics:* Correspondence; status reports.

## **EDP Systems**

- Social Insurance Number Registration Program — data bank of all SINs issued in Canada; used to validate SIN data; produces reports and micrographics

**EIC/SYS-545** *Formerly Identified as:* EIC-1090

## **Annuities**

*Description:* Systems supporting administration of the Canadian Government Annuities program. *Topics:* Correspondence; status reports.

## **EDP Systems**

- Annuities Program — produces payments, T4 slips for annuity contracts in payment, related financial, actuarial and administrative reports; data bank for contracts not yet in payment — includes premium collection, related reports and micrographic listings

**EIC/SYS-550** *Formerly Identified as:* EIC-1100

## **Immigration**

*Description:* Systems supporting administration of the Immigration program. *Topics:* Correspondence; status reports.

## **EDP Systems**

- Enforcement
- General Immigration Data
- Landed Immigrant Data
- Stock Inventory Control System
- Visitor Data

**EIC/SYS-555** *Formerly Identified as:* EIC-1110

## **Management Data**

*Description:* Computerized information systems of a financial, personnel, administrative and operational performance measurement nature. *Topics:* Correspondence; status reports; minutes of meetings.

## **EDP Systems**

- Immigration Program: Accounts Receivable — provides for the accounting, control and billing of loans granted to immigrants
- Employment and Immigration Information System (EIIS) — financial position of commitments, advances, overall non-salary items within CEIC; year-to-date financial, person-month, performance measurement information; employee information that allows production of certain personnel reports, and reports for management and central agencies
- Personnel Management Information System (PMIS) — contains details of organization, positions, salaries and personnel

**EIC/SYS-560** *Formerly Identified as:* EIC-1120

## **Technical Support**

*Description:* Information on the development and design of hardware, software and data communication requirements. *Topics:* Correspondence; tenders and contracts; security of EDP installations; study on radiation from terminal screens; computer activity reports; systems and programming standards; software master control programs and utilities for all systems.

**EIC/SYS-565** *Formerly Identified as:* EIC-1130

## **Computer Operations**

*Description:* Development and application of policies, standards and procedures for EDP installations. *Topics:* Policies and standards; training plans; EDP operational procedures; call reports, operational

emergencies, computer back-up by EDP installation; contingency plans; security; correspondence with suppliers, service bureaus; liaison with regional computer centres concerning site hardware specifications, production software, related operational support; reports on EDP and associated clerical processing operations.

**EIC/SYS-570** *Formerly Identified as:* EIC-1140

## **Management Advisory Services**

*Description:* Information on in-house management consulting to national headquarters and the regions. *Topics:* Correspondence; progress reports; project files containing correspondence, analysis and evaluation of areas under study, consideration of alternatives and recommendations.

**EIC/SYS-575** *Formerly Identified as:* EIC-1150

## **Forms Management**

*Description:* Information on policies and procedures on forms management. *Topics:* Correspondence, bulletins on departmental forms, use of the departmental logo, bilingual format in forms; unauthorized forms; information brochures; minutes of meetings of the Forms Management Committee and the Forms Co-ordination Committee; obsolete forms survey; activity reports and statistics.

**EIC/SYS-580** *Formerly Identified as:* EIC-1160

## **Design and Control**

*Description:* Information on the development and control of forms. *Topics:* Individual files containing requests for creating or revising forms, specifications; related correspondence.

**EIC/NSB-585** *Formerly Identified as:* EIC-1390

## **Social Insurance Number Registration**

*Description:* Information on applying for social insurance numbers. *Topics:* Correspondence on legislative and regulatory proposals; processing SIN applications; supporting documentation (proof of identity) for Canadian citizens, permanent residents and individuals who are neither Canadian citizens nor permanent residents; replacement SIN cards; amendments to SIN records; mass applications; internal control and issuance of individual SINs; production and activity reports; studies on the SIN program. *Storage Media:* Magnetic tape or disk for SIN master file; microfiche for listings containing individual SINs, names and other basic information; microfilm for copies of SIN applications or amendments. *Retrievability:* Microfiche files are arranged by names; microfilm, by SIN.

**EIC/NSB-590** *Formerly Identified as:* EIC-1400

## **Release of Information**

*Description:* Information on the release or exchange of SIN information. *Topics:* Guidelines and correspondence on the release of SIN information to individuals, other government departments or agencies; exchange of information and data with other government departments. (Details on the release of SIN information may be obtained by referring to the Personal Information Index.)

**EIC/NSB-595** *Formerly Identified as:* EIC-1410

## **Record of Employment**

*Description:* Information on the processing of the third copy of the Record of Employment (ROE). *Topics:* Procedures, guidelines and correspondence on the processing of the third copy of the ROE forms and maintaining the ROE information bank. *Storage Media:* Magnetic tape and microfilm.

**EIC/NSB-600** *Formerly Identified as:* EIC-1420

## **Tax Enquiries (T4U/TP4U)**

*Description:* Requests for information on the T4U/TP4Us. *Topics:* Procedures for handling enquiries; issuing duplicate T4U/TP4Us; general correspondence. *Storage Media:* Magnetic tape and microfiche.

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

EIC/NSB-605 *Formerly Identified as:* EIC-1430

## **Annuities Program**

*Description:* Information on the administration of Canadian government annuities contracts. *Topics:* Correspondence on legislative and regulatory proposals; procedures on payment and refunds of premiums, duplicate and returned cheques, interest rates, cash surrender values and payment of income taxes by recipients; procedures governing annuity contracts and pension plans in payment, those not yet in payment, group contracts (purchased under employer pension plans) and individually purchased contracts; case files containing annuity applications, supporting documentation, enquiries, complaints and general correspondence; activity, statistical, actuarial and financial reports; surveys and studies on the program. *Storage Medium:* Magnetic tape or disk for data concerning vested contracts, individual and group deferred contracts, which are used to produce payments and T4 slips for annuitants and a variety of accounting, actuarial and administrative reports.

EIC/NSB-610 *Formerly Identified as:* EIC-1440

## **Employer Registration**

*Description:* Information on the granting and control of unemployment insurance premium reductions for employers with qualified salary replacement plans. *Topics:* Operational procedures; employer files containing applications, documentation, enquiries, complaints, appeals and audit reports; general enquiries; internal control of quality; monthly microfilm or microfiche listings of employers with qualified or non-qualified salary replacement plans; operational and statistical reports. *Storage Media:* Employer listings on microfilm or microfiche; certain statistical reports on magnetic tape or disk.

## **The Department**

EIC/PAF-615 *Formerly Identified as:* EIC-1170

## **Organization and Planning**

*Description:* Information on organization, objectives and operational plans. *Topics:* Information plans; organization charts; the current corporate planning cycle; the operational budget; operational plans; financial reports; the CEIC communications strategy.

EIC/SPP-620 *Formerly Identified as:* EIC-1180

## **General**

*Description:* Analyses and assessments of CEIC policies. *Topics:* Overall development of policies; analysis of plans and programs; assessment of policies for Benefit, Immigration and Labour Market Programs.

EIC/SPP-625 *Formerly Identified as:* EIC-1190

## **Census**

*Description:* Statistical surveys relating to CEIC programs. *Topics:* Statistical surveys developed for collecting census data on CEIC programs and activities for Statistics Canada.

EIC/SPP-630 *Formerly Identified as:* EIC-1200

## **Research**

*Description:* Non-program or policy specific CEIC research. *Topics:* Reports on general CEIC research not related to particular policies or programs.

EIC/SPP-635 *Formerly Identified as:* EIC-1210

## **Canadian Occupational Projection System (COPS)**

*Description:* Studies, data and forecasting techniques used to identify and measure future employment levels and possible imbalances between labour supply and demand based on a three- to ten-year forecast. *Topics:* Sector studies; supply and demand analyses; federal-provincial conferences; briefing material to selected groups.

EIC/SPP-640 *Formerly Identified as:* EIC-1230

## **Strategic Planning**

*Description:* Projects associated with Commission/Department preparation of medium- and long-term plans. *Topics:* Ongoing scanning of broad long-term socioeconomic developments to assess their potential impact on human resources, labour market, income maintenance and immigration policies; identification of broad strategic options to address gaps between current departmental operations and environmental trends; preparation of a planning environment assessment document, and the Commission/Department strategic planning framework/strategic overview.

EIC/SPP-645 *Formerly Identified as:* EIC-1240

## **Operational Planning**

*Description:* Activities associated with intra-departmental development and co-ordination of short-term planning requirements. *Topics:* Co-ordination or development of Strategic Policy and Planning and intra- departmental inputs into the Planning and Accountability Process, including short-term corporate priorities; operational plans, managerial contracts and budgets; performance measures and resource allocation; monitoring of corporate and program/service/regional activities; analysis of the Planning and Accountability Process.

EIC/SPP-650 *Formerly Identified as:* EIC-1250

## **Data Development**

*Description:* Information on projects associated with developing CEIC program data sources. *Topics:* Studies and projects on the development and maintenance of existing data systems such as the Longitudinal Labour Force Tracking File, Labour Force Survey Data, training files, benefit overpayment files and the National Job Bank; Strategic Policy and Planning inputs to Access to Information and Privacy; description of agreements on information exchange; co-operative agreements with provinces on developing new labour market databases.

EIC/SPP-655 *Formerly Identified as:* EIC-1260

## **International Analysis and Regional Relations**

*Description:* Information on projects associated with Regional Economic Services. *Topics:* Liaison with Regional Economic Services and national conferences.

EIC/SPP-660 *Formerly Identified as:* EIC-1270

## **OECD Manpower and Social Affairs Committee**

*Description:* Information on projects associated with Canada's involvement in the activities of the Organization for Economic Co-operation and Development (OECD) manpower and social affairs committee. *Topics:* Studies and projects addressing the analysis of papers and the preparation of briefing material for the manpower and social affairs committee ministerial-level conference; information for the production and distribution of inventories of documents pertaining to the OECD and for interpreting OECD activities for CEIC and provincial governments; revision of the Canadian inventory of federal employment and manpower measures; papers and reports on the manpower and social affairs committee and the working party on employment.

EIC/SPP-665 *Formerly Identified as:* EIC-1280

## **Immigration**

*Description:* Information on the efficiency and effectiveness of the Immigration Program. *Topics:* Studies and projects on assessment of the overall impact of the Immigration Program, including public perceptions on quality of service; evaluation of recruitment by employers of independent immigrants with prearranged employment; analysis of the impact of refugees on immigration and employment programs and services; examination of the effectiveness of existing referral guidelines used at Toronto International Airport; assessment of the immigration process from secondary examination through to

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

the final case disposition; evaluation of the effectiveness of the group sponsorship program.

## EIC/SPP-670 *Formerly Identified as:* EIC-1290 **Insurance**

*Description:* Information on the efficiency and effectiveness of the Unemployment Insurance Program. *Topics:* Studies and projects on assessment of the overall impact of the Unemployment Insurance Program, including consideration of the effectiveness of maternity benefits; evaluation of the effectiveness of the Claimant Eligibility Review and alternative frameworks for program review; longitudinal evaluation of unemployment insurance control activities intended to protect the integrity of the insurance fund; assessment of the effectiveness of the Manual Report on Hiring System in deterring abuse of the insurance fund; companion evaluation of the Computerized Report on Hiring System; assessment of the effectiveness of the insurance appeals systems and consideration of alternatives; evaluation of the claims processing mechanism relating to the Premium Reduction Program; assessment of the effectiveness of union hall hiring agreements and consideration of alternatives; consideration of the effectiveness of supplementary employment benefits and the identification and assessment of alternatives; evaluation of the Insurance On-line System for the Atlantic provinces.

## EIC/SPP-675 *Formerly Identified as:* EIC-1300 **Job Creation and Employment Services**

*Description:* Information on the efficiency and effectiveness of job creation programs and the employment services. *Topics:* Studies and projects on assessment of the overall impact of employment services, including alternative Canada Employment Centre marketing strategies; refinement of a methodology for evaluating the selection, referral and placement activities in Canada Employment Centres; consideration of the effectiveness of Canada Employment Centre counselling services including CHOICES (Computerized Heuristic Occupational Information and Career Exploration Systems); evaluation of the quality of referrals and placements by Canada Employment Centres, including an examination of employers' perceptions, assessment of the effectiveness of specialized Canada Employment Centres for students; evaluation of the effectiveness of the National Job Bank computerized job inventory program; consideration of possible improvements to the Metropolitan Order processing System (MOPS) for Toronto; assessment of the utility of the Summer Canada employment program and the Local Economic Development Assistance Program; consideration of the possible use of the unemployment insurance fund for job creation; evaluation of the Canada Community Development Projects program, the Canada Community Service Projects Program and the New Technology Employment Program.

## EIC/SPP-680 *Formerly Identified as:* EIC-1310 **Training**

*Description:* Information on the efficiency and effectiveness of CEIC training programs. *Topics:* Studies and projects examining the cost-effectiveness of the institutional training element of the National Training Program; evaluation of the effectiveness of utilizing unemployment insurance funds for training purposes; assessment of the National Industrial Training Program; analysis of the effectiveness of critical trade skills training.

## EIC/SPP-685 *Formerly Identified as:* EIC-1320 **Special Needs**

*Description:* Information on the assessment of employment programs designed to accommodate special employment needs. *Topics:* Studies and projects on the evaluation of the Local Employment Assistance Program (LEAP); evaluation of the cost-effectiveness of the Outreach program, providing employment services to special target groups; assessment of the effectiveness of the Program for the employment disadvantaged.

## EIC/SPP-690 *Formerly Identified as:* EIC-1330

### **Unemployment Insurance Program Policy Development and Analysis**

*Description:* Information on the analysis and development of unemployment insurance policy to accommodate changing socioeconomic and other influences affecting the labour market. *Topics:* Studies and projects on the assessment of the economic and labour market effects of unemployment insurance; consideration of the adequacy of unemployment insurance benefit levels in relation to such factors as family composition and size, multiple-income families and different income classes; assessment of labour market efficiencies in light of such influences as an experience rating system; examination and forecasting of unemployment insurance benefit expenditures and revenues; assessment of unemployment insurance claim behaviour subsequent to training; analysis of the maternity benefit program, including identification of a rationale and a financing mode; analysis of the treatment of earnings while on active unemployment insurance claim; examination of employment strategies of employers such as job rotation.

## EIC/SPP-695 *Formerly Identified as:* EIC-1340

### **Unemployment Insurance Program Impact Analysis**

*Description:* Information on the analysis of the effects of unemployment insurance on claimants, their dependents and the unemployed. *Topics:* Analysis of income protection for unemployed persons not receiving unemployment insurance benefits; analysis of Unemployment Insurance Program abusers and misusers; consideration of family characteristics (multiple-earner relationships, economic hardship while on claim) of unemployment insurance contributors and claimants; analysis of benefit claim duration; assessment of the utility and appropriateness of unemployment insurance coverage for seasonal workers.

## EIC/SPP-700 *Formerly Identified as:* EIC-1350

### **Immigration and Demographic Analysis**

*Description:* Immigration research and policy analysis and studies of demographic trends. *Topics:* Longitudinal studies of adaptation; work experience of immigrants to Canada; foreign academics in Canada; family class workers — sources, occupations and skills; an historical review of emigration from Canada; demographic issues; refugee studies; business immigration studies; review of the current immigration selection criteria to ensure they remain in accordance with labour market requirements, as well as immigration needs and objectives.

## EIC/SPP-705 *Formerly Identified as:* EIC-1360

### **Labour Market Studies (Revised)**

*Description:* Policy-oriented analytical studies on the structure and operation of the labour market in Canada and other countries for labour market policy and program development in CEIC. *Topics:* Studies related to the analysis of unemployment and structural labour market problems; analysis of labour market dynamics; the labour market experience of target groups; development of quantitative models for policy making, and provision of special studies and analytical advice to CEIC operational and policy branches; longitudinal studies and projects relating to labour market dynamics including examination of the flow of labour into and out of the labour force; analysis of administrative data sources for assessment of labour market developments; special projects such as labour market experience of women, male/female wage differentials, trends in long-term unemployment, and the impact of technological change on female employment.

## EIC/SPP-710 *Formerly Identified as:* EIC-1380

### **Labour Market Policy Analysis (Revised)**

*Description:* Development, analysis and assessment of labour market strategies and policies in the light of current and forecast labour market conditions. *Topics:* Analysis of labour market needs of individuals and employers; development and analysis of data pertaining to specific labour force participants such as youth, women,

# CANADA EMPLOYMENT AND IMMIGRATION COMMISSION AND DEPARTMENT OF EMPLOYMENT AND IMMIGRATION

---

long-term unemployed, aboriginals, and others; analysis of strategies, policies and programs relating to such groups and others.

EIC/SPP-715 *Formerly Identified as:* EIC-1370

## **Current Economic Analysis (Revised)**

*Description:* Studies addressing current economic developments, labour market outlook (generally and with respect to specific labour force groups, regions or industries) and current analysis of occupational trends, technological changes and labour market imbalances. *Topics:* Studies and projects relating to the identification

of the labour market implications of proposed energy exploration and development; assessment of the anticipated impact of the effect on employment levels and distribution of the micro-electronics revolution; studies of particular industries or economic sectors to investigate current and future labour market conditions as inputs to labour market policy issues.

# DEPARTMENT OF ENERGY, MINES AND RESOURCES

## Background

Although the Department of Energy, Mines and Resources is comparatively new, some branches have been in existence for more than a century. The Geological Survey of Canada, founded in 1842 by Sir William Logan, is the oldest scientific organization in Canada. Earth Physics, formerly the Dominion Observatory, dates from 1871, and parts of the Surveys and Mapping Branch were established in 1872.

Previously known as the Department of Mines and Technical Surveys, the Department of Energy, Mines and Resources (EMR) was created in 1966 by the *Department of Energy, Mines and Resources Act*. At that time it assumed a new and important role as policy maker in energy development. Since then, the Department has been given a strong mandate to fulfil its role as the principal federal agency responsible for the discovery, investigation, development and conservation of Canada's mineral and energy resources.

The Department comprises three programs: Energy; Minerals and Earth Sciences; and Administration. Together they provide initiatives directed towards national economic development.

## Laws and Regulations

The Department of Energy, Mines and Resources is responsible for the following legislation:

### Principal Departmental Statutes

- Department of Energy, Mines and Resources Act, RSC 1970, c.E-6
- Resources and Technical Surveys Act, RSC 1970, c.R-7

### Statutes Actively Administered by the Ministry

- Atomic Energy Control Act, RSC 1970, c.A-19
- Canada Lands Surveys Act, RSC 1970, c.L-5
- Canada Oil and Gas Act, RSC 1980-81-82, c.81
- Canada Home Insulation Program Act, SC 1980-81-82, c.57
- Canadian Ownership and Control Determination Act, SC 1980-81-82, c.107
- Co-operative Energy Act, SC 1980-81-82, c.108
- Energy Monitoring Act, SC 1980-81-82, c.112 (part of Bill C-106)
- Energy Supplies Emergency Act, 1970, SC 1978-79, c.17
- Home Insulation (N.S. and P.E.I.) Programs Act, SC 1980-81-82, c.58
- International Boundary Commission Act, RSC 1970, c.I-19
- National Energy Board Act, RSC 1970, c.N-6
- Nuclear Liability Act, RSC 1970, c.29 (1st Supplement)
- Oil and Gas Production and Conservation Act, RSC 1970, c.O-4
- Oil Substitution and Conservation Act, SC 1980-81-82, c.59
- Petro-Canada Act, SC 1974-75-76, c.61
- Energy Administration Act, SC 1974-75-76, c.47
- Petroleum Incentives Program Act, SC 1980-81-82, c.107

### Administration of Changes in Provincial Boundaries

- Alberta Act, SC 1905, c.3
- Alberta-British Columbia Boundary Act, SC 1932, c.5
- Manitoba-Northwest Territories Boundary Act, 1958, SC 1957-58, c.23
- British Columbia-Yukon-Northwest Territories Boundary Act, SC 1957-58, c.23
- British Columbia-Yukon-Northwest Territories Boundary Act, SC 1967-68, c.12
- Manitoba Boundaries Extension Act, SC 1912, c.32

- Manitoba-Northwest Territories Boundary Act, SC 1966-67, c.61
- Manitoba-Saskatchewan Boundary Act, 1966-67, c.57
- Ontario Boundaries Extension Act, SC 1912, c.40
- Ontario-Manitoba Boundary Act, SC 1953-54, c.9
- Québec Boundaries Extension Act, SC 1912, c.45
- Saskatchewan-Northwest Territories Boundary Act, SC 1966-67, c.58
- Yukon Act, SC 1898, c.6

### Inactive Statutes under Ministry Administration

- Beauharnois Light, Heat and Power Company Act, SC 1931, c.19
- Bras d'Or Coal Company Limited, Agreement Act, SC 1960-61, c.20
- Dominion Coal Board Dissolution Act, SC 1969-70, c.29
- Emergency Gold Mining Assistance Act, RSC 1970, c.E-5
- Emergency Supplies Emergency Act, SC 1973-74, c.52

## Crown Corporations Reporting to Parliament through the Minister

- Atomic Energy Control Board
- Atomic Energy of Canada Limited
- Petro-Canada Limited
- Uranium Canada Limited
- Eldorado Aviation Limited
- Eldorado Nuclear Limited

## Autonomous Agencies Reporting to Parliament through the Minister

- Board of Examiners for Canada Lands Surveys
- Canadian Permanent Committee on Geographical Names
- Energy Supplies Allocation Board
- National Energy Board
- Petroleum Monitoring Agency

## Overall Responsibilities

The objective of the Department of Energy, Mines and Resources is to promote the discovery, development and efficient use of the country's mineral and energy resources and to broaden the knowledge of Canada's landmass for the benefit of all Canadians. To this end, the Department fosters national policies based on research and data collection in the earth, mineral, and metal sciences and on policy, economic and social analyses. The Department also carries out an earth sciences program on the conservation and use of the Canadian landmass; and it makes available the scientific and technical information generated in this program (such as topographic and geological maps, atlases and remote sensing data) to a wide range of customers across the country.

## General Information

General departmental information is provided by offices in Ottawa and across Canada. Contact may be made by telephone or by writing to one of the following addresses:

### Publications

Pamphlets, brochures, guidebooks and other publications that cover a wide variety of departmental programs and services are available free of charge from the Department through any of the offices listed above. General publications can be procured through authorized Government of Canada bookstore agents and other bookstores, or by mail from the Canadian Government Publishing Centre, Supply and Services Canada, Hull, Québec, K1A 0S9. Maps are available at the Information and Sales Centre, Department of Energy, Mines and Resources, 580 Booth Street, Ottawa, Ontario, and at the Regional Map Sales Office, 1535 Ste-Foy Road, Québec, Québec.

### Libraries

Libraries with public reading area facilities are located at the following addresses:

Geological Survey Library  
601 Booth Street  
Ottawa, Ontario  
Telephone: (613) 995-4163

Canada Centre for Mineral and Energy Technology  
(CANMET)  
Library  
555 Booth Street  
Ottawa, Ontario  
Telephone: (613) 995-4162

Headquarters Library  
580 Booth Street  
Ottawa, Ontario  
Telephone: (613) 996-0825

Surveys and Mapping Library  
615 Booth Street  
Ottawa, Ontario  
Telephone: (613) 995-4071

Earth Physics Library  
1 Dominion Observatory Crescent  
Ottawa, Ontario  
Telephone: (613) 995-5550

Canada Centre for Remote Sensing Library  
240 Bank Street, 5th Floor  
Ottawa, Ontario  
K2P 1X4  
Telephone: (613) 995-5645

Cordilleran Geology Division Library  
100 West Pender Street  
Vancouver, British Columbia  
Telephone: (604) 544-3812

Institute of Sedimentary and Petroleum Geology Library  
3303-33rd Street N.W.  
Calgary, Alberta  
Telephone: (403) 284-0110

### Access Procedures

Formal requests for information under the *Access to Information Act* and complaints and enquiries on the administration of the Act within the Department should be addressed to

Co-ordinator, Access to Information and Privacy  
Department of Energy, Mines and Resources  
580 Booth Street  
Ottawa, Ontario  
K1A 0E4  
Telephone: (613) 996-0825

Branch heads decide on the disclosure of information under their control that may be subject to exemptions in the Act or to third-party notification.

### Departmental Executives

At the corporate level, the assistant deputy minister, Finance and Administration, through the Access to Information and Privacy Secretariat, directs the implementation of policies and administrative procedures concerning the application of the Act throughout the Department, and will investigate all complaints on issues related to applications and service to the public. The deputy minister will oversee the final resolution of any complaints or legal actions concerning disclosure of information held by the Department.

### Office of Environmental Affairs

Through the Office of Environmental Affairs (OEA), the Department of Energy, Mines and Resources is involved in the development of broad environmental policies affecting energy and mineral strategies. The Department participates in the Federal Environmental Assessment and Review Process (EARP) through OEA, by screening Department initiatives and by co-ordinating expertise in minerals, energy and earth sciences for the various EARP activities and reviews. OEA directs departmental research and development on the environmental and public health implications of Canada's energy policies.

# DEPARTMENT OF ENERGY, MINES AND RESOURCES

---

## ENERGY PROGRAM

### Canada Oil and Gas Lands Administration

The Canada Oil and Gas Lands Administration (COGLA) is responsible for the disposition and management of oil and gas rights on Canada lands, and all mineral rights in offshore areas. It also supervises and regulates oil and gas operations under federal jurisdiction and makes recommendations on the preparation of regulations and legislation related to these responsibilities.

#### Manuals

- Procedures Manual for Offshore Mineral Rights
- Procedures Manual for Orders-in-Council
- Accounting Procedures Manual for Oil and Gas Permits

### Petroleum Incentives Administration

The Petroleum Incentives Administration is responsible for the administration of the *Petroleum Incentives Program Act* and the *Canadian Ownership and Control Determination Act*. In this capacity, the administration is responsible for the collection, analysis and study of information pertaining to the determination of companies' and individuals' Canadian ownership rate and control status and their eligibility for reimbursement of certain approved expenditures, and the development of policy and regulations.

#### Manuals

- Petroleum Incentives Program (PIP) Information Kit
- Canadian Ownership and Control (COCD) Determination Information Kit
- Manual of Interpretations of COCD Regulations (under development)
- Policy and Precedents Manual — PIP Program
- Case Assessment Criteria Manual — PIP Program

### Energy Supplies Allocation Board

The board develops policies, programs and information systems for the allocation of crude oil and petroleum products in the event of an emergency, and for a supplementary rationing system to reinforce the allocation programs, if required. It monitors petroleum supply and demand trends to evaluate the need for emergency measures as provided by the *Energy Supplies Emergency Act*.

#### Manuals

- Crude Oil Allocation Manual
- Petroleum Products Allocation Manual
- Gasoline Rationing Manual
- Petroleum Emergency Allocation Systems Manual

### Energy Policy Analysis Sector

This sector conceptualizes and develops Canadian energy strategy, policy and programs, negotiates and co-ordinates all aspects of Canadian energy policy in both the domestic and international areas, and co-ordinates energy policy and program functions at the departmental level. It also conducts economic and financial analyses concerned with energy policy alternatives, Canadianization, corporations, and energy projects and programs. The activities of the sector are carried out by the following branches: Energy Strategy, Financial and Fiscal Analysis, Corporate Development and Economic Analysis, International Energy Relations, and Energy Policy Co-ordination.

## Conservation and Non-Petroleum Sector

The non-petroleum part of the sector conducts studies on coal, uranium and nuclear, electrical, transportation and renewable energy, for policy development and information purposes. It evaluates Canada's non-petroleum energy sources and reserves and determines the demand for these resources. It is also concerned with assessments and programs relative to resource exploration, development, transportation and transmission, and use.

### Energy Conservation and Oil Substitution Branch

This branch analyzes energy demand in major end-use sectors to define the potential for energy conservation and develops programs to ensure that the full economic potential for conservation is attained. The branch is concerned with information dissemination, the provision of incentive grants and loans, and demonstrations and related conservation programs in support of greater conservation effectiveness in the residential, building, industry and federal government sectors.

### Petroleum Sector

This sector conducts studies on petroleum and natural gas for policy development and information purposes. It evaluates Canada's oil and gas sources and reserves and determines the demand for these resources; it is concerned with assessments and programs on resources, exploration, development, transportation, processing, marketing, use and pricing; and it is responsible for such major programs as the Oil Import Compensation Program and the Distribution Systems Expansion Program. The activities of the Petroleum Sector are carried out by the following branches: Petroleum Utilization, Petroleum Resources, Oil Supply, Natural Gas, Oil Pricing and Compensation.

#### Manuals

- Oil Import Compensation Program Procedures Handbook
- New Petroleum Resources Compensation Program Procedures Handbook
- Domestic and Foreign Petroleum and Petroleum Products
- Levy Program Procedures Handbook
- Standard Procedures for Petroleum Measurement at Seaports

### Uranium Canada Limited

Uranium Canada Limited (UCAN), a Crown corporation incorporated in June 1971 under the *Canada Corporations Act* and continued under the *Canada Business Corporations Act* in 1980, is for all its purposes, an agent of Her Majesty, and its powers may be exercised only as an agent of Her Majesty. The objective of the Corporation is to negotiate, execute and perform agreements for the purchase, stockpiling and sale of uranium concentrates and to do or procure the doing of anything necessary or incidental thereto, all subject to the approval of the Governor-in-Council.

The activities of the Corporation ceased on May 29, 1981, with the transfer of the residual uranium stockpile to Eldorado Nuclear Limited.

## MINERALS AND EARTH SCIENCES PROGRAM

### Earth Sciences Sector

This sector comprises activities of the Minerals and Earth Sciences Program directly related to Canada's landmass, its mineral and energy resources and geological hazards. All activities of the sector

## DEPARTMENT OF ENERGY, MINES AND RESOURCES

---

contribute directly to the attainment of the objectives of the Minerals and Earth Sciences Program.

A comprehensive, integrated geoscience knowledge base encompassing the whole of the Canadian landmass, onshore and offshore, is an essential prerequisite for exploration, development and management of mineral and fossil fuel resources, identifying and overcoming constraints to development and natural hazards, and minimizing the deleterious effects of human activity on the environment. Concerns for which this knowledge is critical include the effects of permafrost on petroleum development and transportation, pipeline routing, disposal of radioactive waste, geothermal energy, acid rain, seismic risks in areas of development and national defence. The activities of the Earth Sciences Sector are carried out by four branches: Earth Physics, Geological Surveys of Canada, Surveys and Mapping and the Polar Continental Shelf Project.

### Earth Physics Branch

This branch contributes fundamental information on the geophysical framework and processes of the landmass, including a knowledge of the gravity and magnetic fields, geothermal properties and seismicity of the country.

#### Manuals

- Standard Seismograph Station Operator's Manual
- Regional Station Operator's Manual
- Instrument Operations in the Field and Laboratory

### Geological Surveys of Canada

Geological Surveys of Canada contributes the results of the geological research and surveys, quantitative measurements resulting from geophysical and geochemical surveys, and research on exploration methods and technologies.

#### Manuals

- Catalogue of Scientific Projects

### Surveys and Mapping Branch

This branch provides the foundation for the other activities of the sector, other government departments, municipal and provincial governments, agencies, and industries by providing the geodetic, topographic and geographic base of Canada. In addition, the branch has the responsibility for the periodic production of a national atlas, cyclic revision of aeronautical charts, electoral maps and the surveying of Canada Lands.

#### Divisions

- Branch Headquarters
- Geodetic Survey Division
- Topographical Survey Division
- Geographical Services Directorate
- Legal Surveys Division
- International Boundary Commission
- Reproduction and Distribution Division

#### Manuals

- ER 18 Inertial and Gyro Systems
- ER 19 Field Reports
- Digital Mapping Standards
- 15 Year Long Range Plan — International Boundary Commission Field Manual

### Polar Continental Shelf Project

The Polar Continental Shelf Project provides a centralized logistic service for scientific work being conducted in the Arctic. In addition, it provides information to the scientific community and local inhabitants, on Arctic research and operations. It also conducts limited research into Arctic problems that are not being addressed by other agencies.

### Research and Technology Sector

This sector is responsible for research that spans the accepted public sector spectrum of policy research and development, and protection and productivity technologies to enhance the development of Canada's renewable and non-renewable resources. Specifically, four activities in the Minerals and Earth Sciences Program and one activity in the Energy Program address technologies for the extraction, processing, use and conservation of mineral and energy resources; for the regulation of explosives; and for remote sensing. These areas of interest — energy, mineral resources and high-technology industrial development — relate directly to government priorities for the 1980s. These activities are carried out by four branches: the Canada Centre for Mineral and Energy Technology (CANMET), the Canada Centre for Remote Sensing (CCRS), the Office of Energy Research and Development (OERD) and the Explosives Branch.

### Canada Centre for Mineral and Energy Technology

The Canada Centre for Mineral and Energy Technology (CANMET) carries out research and development to ensure the effective use of minerals and energy, to develop new technology, and to ensure the availability of energy from innovative as well as traditional sources. Work proceeds in-house and through contracts to find ways of improving the recovery, processing and use of energy resources. Research focuses on developing alternative resources that lie untapped: oil sands and heavy oils; substituting coal for oil and gas in the generation of electrical energy; and minerals technology. The focus is on exploitation of deep-lying, complex deposits, recycling waste products and reducing environmental damage. CANMET is also charged with the certification of non-destructive testing personnel for government and industry. Work is carried out through the Physical Metallurgy Research Laboratories (PMRL), the Mining Research Laboratories (MRL), the Mineral Sciences Laboratories (MSL) and the Energy Research Laboratories (ERL).

#### Manuals

- User Manuals for Computer Applications
- Procedure Manuals for X-Ray Analysis of Mine Dust
- X-Ray Operations
- Analytical Method of Waste Water
- Guide for the Preparation of CANMET Publications

### Canada Centre for Remote Sensing

The Canada Centre for Remote Sensing (CCRS) is responsible for the development and demonstration of systems, methods and instruments to acquire, disseminate and analyze remote sensing data from aircraft and satellites as a contribution to the development of effective information and management systems for Canada's land and ocean resources and environment.

#### Manuals

- Manual for Operation of Photographic Analysis System

# DEPARTMENT OF ENERGY, MINES AND RESOURCES

---

## Explosives Branch

This branch is responsible for the administration of the *Canada Explosives Act* and related activities in the explosives field. Its responsibility includes control over all factories that produce commercial blasting explosives, military explosives, blasting accessories, sporting ammunition, fireworks and other pyrotechnics, and control of the quality and safety of these products. The branch also monitors road transportation, storage, sale and importation of explosives.

### Manuals

- Explosives Branch File Index

## Office of Energy Research and Development

The Office of Energy Research and Development (OERD), as Secretariat for the Interdepartmental Panel on Energy Research and Development, is responsible for the development of federal research and development (R&D) policies to support national energy strategy options; collection of information on R&D and demonstration activities in federal and provincial departments and agencies, industry, universities, and internationally; provision of advice on the allocation of federal R&D resources; technical evaluation of federal R&D programs; management of energy R&D programs through contracts and co-operative agreements; and provision of information on Canadian energy research and development.

## Mineral Policy Sector

This sector is responsible for developing, promoting, co-ordinating and recommending national policies, plans and programs for non-fuel minerals. It is also responsible for the collection, assembly and publication of national mineral statistics on behalf of the federal government in co-operation with the provinces and for the management on behalf of the federal government of mineral development sub-agreements with the provinces. In addition, the sector provides direction for the management of the Minerals Program within the Department.

Its work includes the collection of national and international data and intelligence, the conduct of ongoing appraisals, studies and representations in a provincial, national and international context on matters of exploration, development, production, processing, transportation, trade and use of non-fuel minerals. The sector is divided into three branches: Minerals and Metals Strategy, Economic Policy and Financial Analysis, Resource Supply and Information.

### Manuals

- Mineral Policy Sector Records Index

## Classes of Records

---

EMR/DEX-005 *Formerly Identified as:* NO REFERENCE  
**Science and Technology (New)**

*Description:* Information relating to scientific and technological research, and activities pertaining to Canada's landmass and its energy and mineral resources. In 1981, the Science and Technology Sector was restructured into the Research and Technology, and Earth Sciences Sectors. This class also includes information on general co-operation and liaison with provincial governments and foreign countries. *Topics:* Committee on the Challenges of Modern Society; international science and technology; unsolicited proposals; environment; air pollution; long range transport of air pollutants; Environmental Assessment and Review Process (EARP); land; water pollution; international environmental issues; co-operation and liaison; federal/provincial liaison; international liaison; energy technology;

coal technology; explosives; remote sensing; international remote sensing.

EMR/DEX-010 *Formerly Identified as:* NO REFERENCE  
**Earth Sciences (New)**

*Description:* Information relating to Earth Sciences activities ensuring the availability of scientific data on the earth's crust necessary for effective resource management. *Topics:* Earth Sciences Sector program planning; interdepartmental liaison; provincial liaison; Advisory Committee on Northern Development; Earth Sciences international bilateral and multilateral relations; EMR Research Agreements Program (RAP); RAP applications assessments; Canadian universities/RAP; departmental grants review committee; provincial research councils/RAP; research institutes and societies/RAP; Earth Sciences Sector communications; Earth Sciences operations; Earth Physics operations; Geological Surveys operations; Polar Continental Shelf operations; Surveys and Mapping operations; Marine Geoscience; minerals issues.

EMR/DEX-015 *Formerly Identified as:* NO REFERENCE  
**Minerals (New)**

*Description:* Information relating to the advice and recommendations made in reference to strategies and policies concerning mineral exploration and development. *Topics:* Mineral supply and development; mineral evaluation and monitoring; mineral information systems; mineral information exchanges; mineral technology; international minerals.

EMR/DEX-020 *Formerly Identified as:* NO REFERENCE  
**Energy Policy (New)**

*Description:* Information relating to the establishment of federal energy policies, strategies and activities and to Canada's international energy relations. *Topics:* International Energy Agency (IEA); provincial energy policies; international energy policies; National Energy Program (NEP); Canadianization; acquisition and establishment of coal, oil and gas, mineral and uranium industries; provincial relations.

EMR/DEX-025 *Formerly Identified as:* NO REFERENCE  
**Economic Analysis (New)**

*Description:* Information relating to the analysis of the Canadian economy and economic outlooks and forecasts. Includes the assessment of macroeconomic impact of mineral and energy policies, regional development taxation, and the economic environment of foreign countries. *Topics:* Economic analysis; economic analysis of the Minerals Sector; Interdepartmental Economic Intelligence Committee; Committee of Deputy Ministers on Economic Development; Ministry of State for Economic Development (MSED); MSED auctions; regional economic development; federal economic development co-ordinators (FEDC); general and subsidiary development agreements; regional economic analysis and development in the Minerals Sector; international economic analysis; Organization for Economic Co-operation and Development (OECD); Canada/USSR Economic Co-operation Agreements and Mixed Commission; UN Economic and Social Council (ECOSOC); economic analysis of taxation policies and systems.

EMR/DEX-030 *Formerly Identified as:* NO REFERENCE  
**Emergency Planning (New)**

*Description:* Information relating to the development of policies, regulations, control systems, and information systems for the allocation of refined products to wholesale petroleum customers, and a supplementary rationing program to reinforce the allocation programs as required; to the monitoring of trends in petroleum supply and demand, and the administration of national emergency and demand restraint measures. *Topics:* Emergency planning; Energy Supplies Allocation Board (ESAB) administration; allocation and rationing.

## DEPARTMENT OF ENERGY, MINES AND RESOURCES

---

EMR/DEX-035 *Formerly Identified as:* NO REFERENCE

### Energy Conservation (New)

*Description:* Information relating to the analysis of energy demand, to define the potential for energy conservation and the development of policies and programs to ensure that full economic potential for conservation is attained. Includes information on the provision of incentive grants and loans, and on related programs in support of energy conservation in the transportation, building, industry and federal government sectors. *Topics:* Energy conservation; provincial energy conservation; energy conservation in buildings; Canadian Oil Substitution Program (COSP); energy conservation in industry and transportation; Internal Energy Conservation Program; renewable energy resources.

EMR/DEX-040 *Formerly Identified as:* NO REFERENCE

### Energy Research and Development (New)

*Description:* Information relating to energy research and development, including public correspondence on various energy programs, liaison with Canadian universities, publications and press clippings on energy issues, as well as committees involved in energy research development. *Topics:* International energy research and development; IEA Committee on Energy Research and Development (CRD); provincial energy research and development; Alberta/Canada Energy Resources Research Fund (ACERRF), industry, Interdepartmental Panel on Energy Research and Development; research and development tasks and programs, proposals and fundings; conservation task; oil and coal task; nuclear energy task; renewable energy task; new liquid fuels task; conventional energy systems task; Office of Energy Research and Development (OERD); co-ordination and generic environment task; management of non-renewable resources; *Canada Oil and Gas Act* (Bill C-48); transfer of mineral rights; offshore mineral rights.

EMR/DEX-045 *Formerly Identified as:* NO REFERENCE

### Non-Petroleum Sources (New)

*Description:* Information relating to the assessment of Canada's non-petroleum sources and reserves such as coal, electrical energy, nuclear energy and uranium. *Topics:* Coal; coal resource development, production and marketing; international coal; electrical energy; resource development; production and marketing of electricity; electrical transmission lines; nuclear energy and uranium; nuclear and uranium resource development, production and marketing; nuclear waste management; irradiated fuel waste (high level); low level radioactive waste (LLRW); international nuclear energy and uranium.

EMR/DEX-050 *Formerly Identified as:* NO REFERENCE

### Petroleum Sources (New)

*Description:* Information relating to the assessment of Canada's petroleum sources and reserves; supply and demand for these resources; resource exploration, development and translation. *Topics:* Petroleum industry; petroleum products pricing; gas pricing; petrochemicals; petroleum sources and reserves; petroleum exploration; offshore drilling; petroleum utilization; petroleum supply and demand; petroleum exports and exchanges; international petroleum industry; transportation; transportation studies; pipelines; certificates of public convenience and necessity; pipeline activities and projects.

EMR/DEX-055 *Formerly Identified as:* NO REFERENCE

### Pricing and Compensation (New)

*Description:* Information relating to the analysis of imported petroleum compensation; system of price blending and reference (incentive) pricing. *Topics:* Petroleum Incentive Administration (PIA); Petroleum Monitoring Agency (PMA).

EMR/EVA-060 *Formerly Identified as:* NO REFERENCE

### Environmental Affairs (New)

*Description:* Information relating to the co-ordination of departmental participation in environmental assessment review. Includes advice and recommendations to senior management on environmental matters as they pertain to Energy and Mineral policy. *Topics:* Associations and organizations; environmental conferences; liaison; environmental committees; air emissions; acid rain; lead in gasoline issues; long range transport of air pollutants; Arctic environmental issues; climatic issues; energy research and development; energy sources; environmental assessment and review process; mineral industry issues; nuclear issues.

EMR/CGA-065 *Formerly Identified as:* NO REFERENCE

### Canada Oil and Gas Lands Administration (New)

*Description:* Information relating to the management of federal interests in development, exploration and production of oil, gas and other mineral resources in the Canada Lands. *Topics:* Interdepartmental, provincial and international liaison; northern development; constitutional development; energy and economics studies; federal, provincial and international legislation; resources management legislation; *Public Land Grants Act and Territorial Lands Act*; *Oil and Gas Production and Conservation Act*; socioeconomic concerns; environmental concerns; committees; company information; Petroleum Incentives Program.

EMR/CGA-070 *Formerly Identified as:* EMR-341

### Canada Benefits

*Description:* Information relating to analysis and management of procurement plans submitted by oil and gas operators seeking exploration agreements, to ensure benefits to the Canadian economy. *Topics:* Canada benefits packages; employment benefits; East Coast employment benefits; northern regions employment benefits; industrial benefits; social benefits; consultant services; project notification; research and development programs; sector supply and services; technology transfer; work plans and status reports.

EMR/CGA-075 *Formerly Identified as:* EMR-342

### Environmental Protection

*Description:* Information relating to the protection of oil and gas operations in marine and coastal areas from environmental risks, as well as the protection of the environment from the effects of drilling operations. *Topics:* Environmental protection and marine pollution; contingency planning; industry contingency planning; international contingency planning; environmental assessment; East Coast offshore environmental assessment; environmental assessment and review process; environmental studies revolving fund; environmental research and development; biological environment; northern environment; physical environment; physical oceanography; meteorology and climate studies; financial security; work plans and status reports.

EMR/CGA-080 *Formerly Identified as:* EMR-343

### Land Management

*Description:* Information relating to the negotiation, issuing and administering of oil and gas exploration and production rights. *Topics:* Mineral rights on Canada Lands; accounting; production reports; oil and gas leases; mineral rights on public lands; mining leases; reservation of mines and minerals; royalties; titles; production evaluation; guaranty deposits; mineral rights transfer; work plans and status reports.

EMR/CGA-085 *Formerly Identified as:* EMR-344

### Policy Analysis and Co-ordination

*Description:* Information relating to analysis, development and interpretation of policy with respect to the management of oil and gas exploration and development activities on Canada Lands. *Topics:* Provincial oil and gas issues; provincial negotiations; policy review; work plans and status reports.

## DEPARTMENT OF ENERGY, MINES AND RESOURCES

EMR/CGA-090 *Formerly Identified as:* EMR-345

### Resource Evaluation

*Description:* Information relating to the estimation of oil and gas reserves and potential on Canada Lands. *Topics:* Deep seabed resources; deep ocean mining; ocean mining industry; international ocean mining; offshore mining of non-fuel minerals; mineral resource inventory; deep seabed resource management; shelf resources; shelf mining; shelf resource management; ocean resources citation retrieval; geoscientific projects; scientific research offshore and East Coast.

EMR/CGA-095 *Formerly Identified as:* EMR-346

### Engineering

*Description:* Information relating to the operational and occupational safety of drilling and developing activities on Canada Lands as it relates to the regulatory basis which governs equipment and procedures for drilling and production of oil and gas. *Topics:* Offshore operations; operations statistics; geological and geophysical offshore operations reports; marine diving; offshore drilling; pipelines and transportation; reservoir and reserve studies; offshore structures; field developments; Ocean Ranger accident; Ocean Ranger organization; Ocean Ranger investigations; Ocean Ranger Royal Commission and hearings; Ocean Ranger recommendations; Ocean Ranger public reports; work plans and status reports.

EMR/CGA-100 *Formerly Identified as:* NO REFERENCE

### Offshore Programs (New)

*Description:* Information on industry activities in the East Coast, Hudson Bay and Hudson Strait, and West Coast areas relating to offshore programs. *Topics:* Drilling operations on the Scotian Shelf, Grand Banks, Labrador Shelf, Gulf of St. Lawrence, and other offshore and onshore drilling; geophysics including combined geophysical surveys, air and sea magnetometer measurement, gravity, seismic reflection and refraction, shallow seismic measurement, processing and interpretation, and onshore geophysical surveys; geology including combined geological surveys, offshore geological surveys, paleontological/palynological studies (biostratigraphic), geochemistry, petrography (lithology), purchase of geological studies, in-house geological studies and onshore geological surveys; research involving environmental and feasibility studies, physical, biological and socioeconomic studies, engineering feasibility studies and geotechnical research.

EMR/CGA-105 *Formerly Identified as:* NO REFERENCE

### Northern Operations (New)

*Description:* Information on northern operations in the Yukon Territory, Northwest Territories, Mackenzie Delta, Beaufort Sea, Arctic Islands, Arctic Lowlands and Eastern Arctic Offshore (Baffin Bay, Davis Strait, etc.) areas relating to offshore programs. *Topics:* Drilling operations on conventional landings; ice platforms; artificial islands; caissons (MAC); jack-up types and floaters; geophysics including combined geophysical surveys; air and sea magnetometer measurement; gravity; seismic reflection and refraction; shallow seismic measurement, processing and interpretation and onshore geophysical surveys; geology including combined geological surveys; offshore geological surveys, paleontological/palynological studies (biostratigraphic); geochemistry; petrography (lithology); purchase of geological studies, in-house geological studies and onshore geological surveys; research involving environmental feasibility studies; physical, biological and socioeconomic studies; engineering feasibility studies and geotechnical research.

EMR/PNA-110 *Formerly Identified as:* NO REFERENCE

### Petroleum Incentives Administration (PIA) (New)

*Description:* Information relating to administering both the *Canadian Ownership and Control Determination (COCD) Act* and the *Petroleum Incentives Program (PIP) Act* in order to actively contribute to the federal government's energy policy by increasing Canadian ownership and control of the petroleum industry and energy

security in Canada. *Topics:* Committees; conferences; energy issues; oil and gas issues; Petroleum Incentives Administration reports; liaison; interdepartmental, international and provincial liaison.

EMR/PNA-115 *Formerly Identified as:* NO REFERENCE

### Canadian Ownership and Control Determination (COCD) (New)

*Description:* Information relating to the development and maintenance of policies, systems, procedures and regulations to administer the *Canadian Ownership and Control Determination (COCD) Act*. Includes receiving, processing and certifying applications for the Canadian Ownership Rate and Control Status Program. *Topics:* Canadian Ownership and Control Determination (COCD) corporate information; COCD guidebook; COCD operations; COCD committees; COCD conferences; COCD operations reports; Canadian ownership rate and control status programs (COR/CS); COR/CS documentation; COR/CS certificates; COR/CS guidelines; COR/CS operating procedures.

EMR/PNA-120 *Formerly Identified as:* NO REFERENCE

### Canadian Ownership and Control Determination Policy (New)

*Description:* Information relating to the development and maintenance of policies, precedents, and special studies in administering the *Canadian Ownership and Control Determination (COCD) Act* and Regulations in order to encourage increased Canadianization of the petroleum industry. *Topics:* Canadian Ownership and Control Determination (COCD) policy committees; COCD policy conferences; COCD policy reports; *COCD Act*; *COCD Act* interpretation; *COCD Act* qualified applicants; Canadian ownership rate and control status determination; *COCD Act* applications, certificates and administration; *COCD Act* disclosure of information; *COCD Act* regulation making authority; *COCD Act* enforcement; *COCD Act* judicial review and transmission provisions; Canadian ownership and control determination regulations; COCD Regulations interpretation and applications; specified Canadian ownership rates; Canadian ownership rates other than specified rates and rates of insurance companies and trust; COCD regulations administration; Canadian ownership rates of insurance companies; Canadian ownership rates of trust; COCD regulations schedules.

EMR/PNA-125 *Formerly Identified as:* NO REFERENCE

### Petroleum Incentives Program (PIP) (New)

*Description:* Information on the development and maintenance of policies, systems, procedures and regulations related to the provision of the eligible costs and Crown share incentives to applicants. Includes receiving, analyzing and processing company applications for incentive contribution and issuing payments. *Topics:* Petroleum Incentives Program (PIP); petroleum incentives committees; petroleum incentives information management system; petroleum incentives research, analysis and forecasting; petroleum incentives operations; petroleum incentives applicant documentation; petroleum incentives processing procedures; petroleum incentives case assessment; petroleum incentives financial payments and controls; petroleum incentives data control and operations; petroleum incentives case control; well and geochemical; geological and geophysical data analysis; quality control and standards; petroleum incentives reviews and audits; reviews and audits standards and practices.

EMR/PNA-130 *Formerly Identified as:* NO REFERENCE

### Petroleum Incentives Program Policy (New)

*Description:* Information relating to development and interpretation of the Petroleum Incentives Program legislation and regulations to increase Canadianization in the petroleum industry and to increase exploration and development in Canada. Includes assessment of case precedents and the development of policy, consistency of application of the *PIP Act* and Regulations, and the conduct of research, analysis and forecasting of demand in the oil and gas industry. *Topics:* *Petroleum Incentives Program (PIP) Act*; *PIP Act* interpretation; Petroleum Incentives Program (PIP); PIP administration; PIP

## DEPARTMENT OF ENERGY, MINES AND RESOURCES

---

disclosure of information; PIP enforcement and general sections; PIP regulations; interpretation of the PIP regulations; interpretation of PIP regulations Part 1 (general) and Part 2 (adjusted eligible cost or expense).

**EMR/ESB-135 Formerly Identified as: NO REFERENCE**  
**Energy Supplies Allocation Board (New)**

*Description:* Information relating to the administration of the Energy Supplies Allocation Board (ESAB), established under the *Energy Supplies Emergency Act* for the allocation of crude oil and refined products in a national emergency. The board also monitors trends in petroleum supply and demand. *Topics:* Acts and regulations; provincial advisory committee; petroleum industry advisory committee.

**EMR/ESB-140 Formerly Identified as: EMR-350**  
**Energy Emergency Planning**

*Description:* Information relating to the development of programs and procedures with the Energy Supplies Allocation Board's involvement, dealing with actual or anticipated shortages of petroleum or disturbances in petroleum markets that may affect the national security, welfare, and economic stability of Canada. *Topics:* Operations; contracts; associations; committees; energy issues; International Energy Agency (IEA); IEA Standing Group on Emergency Questions; IEA Standing Group on Oil Market; IEA Standing Group on Long-Term Co-operation; IEA allocation systems tests; public information program; electronic data processing (EDP); allocation program EDP systems; rationing program EDP systems; operations analysis; provincial, interdepartmental and international liaison; compliance and audit; entitlement review; emergency organization.

**EMR/ESB-145 Formerly Identified as: NO REFERENCE**  
**National Emergency Agency for Energy (NEAE) (New)**

*Description:* Information relating to the establishment and operation of the NEAE, designed to regulate and control energy production, distribution and use during a national emergency other than an emergency assigned to the Energy Supplies Allocation Board. *Topics:* Emergency planning; Emergency Planning Canada; emergency planning exercises; emergency planning committees; North Atlantic Treaty Organization (NATO); NATO Petroleum Planning Committee; NATO Senior Civil Emergency Planning Committee.

**EMR/ESB-150 Formerly Identified as: NO REFERENCE**  
**Demand Restraint (New)**

*Description:* Information relating to the development of mandatory and voluntary demand restraint measures designed to reduce, control and regulate oil supply demand in an energy emergency. *Topics:* Interprovincial Advisory Committee on Energy (IPACE); liaison.

**EMR/ESB-155 Formerly Identified as: NO REFERENCE**  
**Allocation Planning (New)**

*Description:* Information relating to the development of policies, procedures, and systems ensuring equitable crude oil and petroleum products distribution in an energy emergency. *Topics:* Allocation systems test; fuel switching; logistics; petroleum industry liaison; price control; statistics; petroleum products; crude oil; rationing; diesel fuels rationing; gasoline rationing; liaison.

**EMR/EPS-160 Formerly Identified as: NO REFERENCE**  
**Energy Policy (New)**

*Description:* Information relating to management of the energy policy activity for the establishment of federal energy policies, strategies and activities with due regard to their economic, social, regional and environmental impact, and to Canada's international energy relations. *Topics:* Committees; corporate development; energy issues; National Energy Program; non-petroleum sources; petroleum resources; energy conservation; energy research and development; *Energy Security Act*; environment; liaison.

**EMR/EPS-165 Formerly Identified as: EMR-110**  
**Macroeconomic Analysis**

*Description:* Information relating to the macroeconomic analysis of the Canadian economy in relation to energy and the impact of energy policies on economic growth, employment, inflation, the balance of payments and regional development. *Topics:* Business expenditures; consumption; fiscal policy; foreign countries; government expenditures; housing; international trade; labour; monetary policy; prices and costs; regional conditions; savings; energy issues; investments; energy policies; energy price increases; employment and manpower; mineral issues.

**EMR/EPS-170 Formerly Identified as: EMR-120**  
**Canadianization Program**

*Description:* Information relating to management, development and monitoring of the Canadianization program to increase opportunities for Canadian ownership in the petroleum industry, including policy advice to the Foreign Investment Review Agency on energy-related investment transactions. *Topics:* Committees; component programs; corporate development; acquisitions; co-operative oil and gas ventures; joint ventures; corporate development in the private and public sector; energy issues; non-petroleum sources; petroleum sources; uranium and nuclear; Foreign Investment Review Agency (FIRA); liaison.

**EMR/EPS-175 Formerly Identified as: EMR-130**  
**Energy Market Analysis**

*Description:* Information relating to market analysis of energy supply, demand and price increase of petroleum and non-petroleum products and the impact of energy policies on the consumer and the economy. *Topics:* Automated systems, energy issues; energy demand and price analysis; forecasts; models; petroleum products; non-petroleum products; pricing; energy supply analysis; supply forecasts; supply models; petroleum products supplies; non-petroleum products supplies.

**EMR/EPS-180 Formerly Identified as: EMR-150**  
**Energy Statistics**

*Description:* Information relating to interpretation and analysis of statistics and data on all forms of energy commodities in Canada and foreign countries. *Topics:* Exports and imports; publications; coal; coal exports and imports; electricity; petroleum; petroleum exports and imports; petroleum prices; petroleum supply and demand; natural gas; natural gas exports and imports; natural gas prices.

**EMR/EPS-185 Formerly Identified as: EMR-160**  
**Energy Policy Planning**

*Description:* Information relating to planning and evaluation of federal energy policies, strategies and programs, including initiatives and negotiations with the provinces, territories and native peoples on energy-related issues. *Topics:* Liaison; provincial energy issues; federal issues on coal, electrical energy, energy conservation, petroleum, uranium and nuclear energy; federal-Atlantic issues on coal, electrical energy, energy conservation, petroleum, renewable energy, uranium and nuclear energy; federal-central issues on electrical energy, petroleum, uranium and nuclear energy; federal-northern issues on electrical energy, energy conservation, environment, land claims, petroleum, transportation; federal-western issues on coal, electrical energy, petroleum.

**EMR/EPS-190 Formerly Identified as: EMR-170**  
**Financial and Fiscal Analysis**

*Description:* Information relating to the analysis and recommendation of energy policies, with particular reference to revenue sharing, fiscal policy, project economics, industry investment and rates of return. Includes provincial fiscal regimes and energy corporations. *Topics:* Committees; consultants; associations; financial and statistical data; costs and expenditures data, revenue data, profits and financial performance data; activity reports; models; fiscal analysis; federal incentives; royalties and taxation; provincial royalties and incentives;

## DEPARTMENT OF ENERGY, MINES AND RESOURCES

international systems; industry analysis; project analysis; oil sands projects; pipeline projects; liquid natural gas projects; enhanced oil recovery projects; upgraders projects; north and offshore frontier projects.

**EMR/EPS-195 Formerly Identified as: EMR-180**

### **International Energy Relations**

*Description:* Information relating to bilateral and multilateral energy relations and negotiations, visits to and from other countries, international energy organizations, foreign energy policies and international development assistance initiatives. *Topics:* Domestic committees; domestic energy organizations; Petro-Canada International Assistance Corporation; international conferences; world energy conference; bilateral energy relations; foreign countries; Canadian energy commodities; international energy comparisons; international energy organizations; European Economic Community (EEC), International Atomic Energy Agency (IAEA), International Energy Agency (IEA), Organization for Petroleum Exporting Countries (OPEC), Organization for Economic Co-operation and Development (OECD), United Nations (UN); visits and protocol.

**EMR/EPS-200 Formerly Identified as: EMR-190**

### **Corporate Development**

*Description:* Information relating to monitoring Crown corporations in the energy area and to short- and medium-term economic and policy analysis and evaluation related to current energy issues. *Topics:* Crown corporations; Atomic Energy Control Board; Atomic Energy of Canada Ltd.; Canertech; Eldorado Nuclear Ltd.; Petro-Canada; energy envelope; industrial benefits from energy projects; alternate energy sources; coal; electricity; electricity exports; electrical generation; energy issues; energy conservation; nuclear issues; nuclear exports; heavy water; nuclear industry; nuclear policy review; petroleum issues; downstream marketing; refining; upgraders; natural gas issues; natural gas exports; uranium issues; uranium exports.

**EMR/EPS-205 Formerly Identified as: EMR-200**

### **Monitoring — Petroleum Monitoring Agency**

*Description:* Information relating to monitoring the financial performance of the Canadian petroleum industry under the *Energy Monitoring Act* and Regulations. *Topics:* Committees; consultants; accounting practices; *Petroleum Corporations Monitoring Act* and Regulations; Canadian coal industry; Canadian petroleum industry; company data; balance of payments survey; energy research and development survey; quarterly industrial corporations survey; ownership and control; petroleum industry survey; special studies; drilling fund study; operating cost study; taxation study.

**EMR/CNP-210 Formerly Identified as: NO REFERENCE**

### **Conservation and Non-Petroleum (New)**

*Description:* Information relating to the overall management of the energy conservation and non-petroleum sources activities to ensure the development of adequate and secure sources of non-petroleum energy to meet Canada's energy requirements, and to develop and maintain policies and programs for the efficient use and conservation of energy. *Topics:* Energy issues; international energy; energy research and development; liaison; provincial liaison; non-petroleum sources; panel on energy research and development; panel tasks; Organization for Economic Co-operation and Development (OECD); International Energy Agency (IEA); IEA committee on research and development; Nuclear Energy Agency (NEA); NEA fuel cycle committee.

**EMR/CNP-215 Formerly Identified as: EMR-10**

### **Electrical Energy (Revised)**

*Description:* Information relating to electrical energy in Canada and the development of policies and measures to improve the efficient use of electricity. Includes information on domestic and export markets, the development of renewable hydraulic sources, provincial utility

policies, pricing financing, generation and electrical power systems. *Topics:* Economics and marketing; exports; financial; supply and demand; pricing and rates; electric power utilities; power systems; electrical publications and information; interdepartmental, international and provincial liaison; Canadian Electrical Association; research and development; Canadian Electrical Association research program; Hydro Québec Research Institute; supply, resources and development; hydro; Churchill Falls; Lower Churchill Development Corporation; small scale hydro; tidal generation; nuclear generation; Lepreau Station; thermal generation; coal; oil and gas; Coleson Cove Conversion Project; unconventional generation; transmission and distribution systems; interconnections; electrical utilization.

**EMR/CNP-220 Formerly Identified as: EMR-20**

### **Uranium and Nuclear**

*Description:* Information relating to uranium and nuclear energy sources and the development of uranium and nuclear policies. Includes information on uranium exploration and development, uranium exports and radioactive waste management. *Topics:* Communication plan; energy issues; heavy water production; industry and Crown corporations; international uranium and nuclear matters; European Atomic Energy Communities (EURATOM); International Atomic Energy Agency (IAEA); IAEA food and agriculture; IAEA information and technical services; IAEA laboratories; IAEA life science; IAEA nuclear power; IAEA nuclear safety and environmental protection; IAEA physical science; IAEA safeguards and non-proliferation, nuclear energy; nuclear exports; nuclear generation; nuclear costs; nuclear waste management; irradiated fuel waste; low level radioactive waste; uranium tailing waste; research and development; uranium energy; uranium enrichment; uranium exploration; uranium exports; international uranium marketing arrangement; Uranium Institute; uranium foreign ownership; uranium mining; uranium prices and rates; uranium processing and refining; uranium sources; uranium supply and demand; Uranium Canada Ltd.

**EMR/CNP-225 Formerly Identified as: EMR-30**

### **Technology Transfer and Demonstration**

*Description:* Information relating to the development of policies and programs for demonstrating and transferring the results of tested energy conservation material and equipment for more energy efficient buildings and housing units. *Topics:* Building codes and standards; energy conservation in the commercial sector; energy matters; energy conservation issues; international energy conservation; energy conservation materials and equipment; energy research and development; industrial sector; international, interdepartmental and provincial liaison; Canadian Electrical Association; renewable energy; residential sector; Arctic and northern housing; new housing; socioeconomic impact; transportation sector; urban sector.

**EMR/CNP-230 Formerly Identified as: NO REFERENCE**

### **Coal and Alternate Energy (New)**

*Description:* Information relating to the overall management and operations of the Coal and Alternate Energy activities for the development of coal, renewable energy and transportation energy policies and programs. *Topics:* Enerdemo Canada Program; energy issues; energy conservation; energy research; liaison.

**EMR/CNP-235 Formerly Identified as: EMR-40**

### **Coal**

*Description:* Information relating to the development of Canada's coal resources and the introduction and commercialization of new technologies for the efficient and environmentally sound use of coal. *Topics:* Economics and marketing; international marketing; environmental concerns; interdepartmental and provincial liaison; mining methods and issues; coal conversion technologies; Scotia Coals Synfuel Project; coal research and development; coal resources; coal companies; coal resources on federal owned land; ownership and

## DEPARTMENT OF ENERGY, MINES AND RESOURCES

---

control; coal transportation; railway systems; slurry pipelines; coal treatment; coal utilization; coal mixtures; peat resources.

### **EMR/CNP-240 Formerly Identified as: EMR-50 Transportation Energy**

*Description:* Information relating to the development of policies and the administration of programs to encourage energy conservation and the use of new and alternate fuels in the transportation sector. *Topics:* Transportation fuels; gaseous fuels; propane; Propane Vehicle Grant Program; Federal Propane Vehicle Grant Program; compressed natural gas (CNG); CNG research and technology; CNG Vehicle Grant Program; CNG Fueling Station Program; CNG associations; liquefied natural gas; hydrogen; liquid hydro carbon; liquid synthetic; alcohol; International Symposium on Alcohol Fuels; ethanol; methanol; associations; fuels industry; Transportation Fuels Council; vehicle industry; research and development; transportation systems; Outreach programs; ridesharing; federal vanpool program; vehicles; air vehicles; marine vehicles; off-road vehicles; rail vehicles; road vehicles; automobiles; automotive exhaust emissions standards; buses; electric hybrid vehicles; engine systems; motor vehicle fuel consumption standards; government motor vehicle industry committee; trucks.

### **EMR/CNP-245 Formerly Identified as: EMR-60 Renewable Energy**

*Description:* Information relating to the development, implementation and administration of programs and policies for renewable forms of energy such as biomass, solar and wind. *Topics:* Alternative energy sources; biomass; biomass equipment; gaseous fuels from biomass; liquid fuels from biomass; solid fuels from biomass; peat; conventional energy; energy conservation techniques and technologies; geothermal energy; research and development; small scale hydro; solar energy; active, passive solar; photovoltaics; wind energy; interdepartmental, international and provincial liaison; renewable energy programs; Accelerated Demonstration of Solar Domestic Water Heating Program; Commercial/Industrial Solar Demonstration Programs; Conservation and Renewable Energy Demonstration Agreements and Programs (CREDA/CREDP); DREE Modernization Program; Energy from the Forest Biomass Conversion (ENFOR); Forest Industry Renewable Energy (FIRE); Purchase and Use of Solar Heating (PUSH); Renewable Energy Conversion Assistance Program (RENCAP); Remote Community Demonstration Program (RCDP); Special Projects Demonstration Program; Enerdemo Program.

### **EMR/CRB-250 Formerly Identified as: NO REFERENCE Energy Conservation and Oil Substitution (New)**

*Description:* Information relating to management and operations of the Energy Conservation and Oil Substitution activity to ensure the development and maintenance of policies and programs relating to energy conservation and oil substitution in the residential, industrial and federal sectors of the economy. *Topics:* Energy issues; international energy; energy conservation; international energy conservation; energy research and development; panel on energy research and development; international energy research and development; provincial energy research and development; energy taxation; liaison; Organization for Economic Co-operation and Development; International Energy Agency; renewable energy matters; transportation matters.

### **EMR/CRB-255 Formerly Identified as: EMR-70 Policy and Co-ordination**

*Description:* Information relating to the analysis, planning and implementation of energy conservation policies in the commercial, industrial, institutional and residential sectors. *Topics:* Policy development; economic analysis; consumer behavior; energy services; regional analysis; energy matters; energy conservation; materials and equipment; energy conservation in the commercial, industrial, residential and transportation sectors; energy research and development; institutional analysis; Canertech; program review and

evaluation; interdepartmental, international and provincial liaison; renewable energy; sales tax exemptions; special studies; technology and standards; appliances standards; Canadian Electrical Association; Canadian General Standards Board; Canadian Standards Association; urban systems analysis; waste recovery and district heating.

### **EMR/CRB-260 Formerly Identified as: NO REFERENCE Regional Operations (New)**

*Description:* Information relating to regional operations activities and the responsibilities of the 12 Conservation and Renewable Energy Offices located in each province and territory to assist in program delivery and inform the public on energy options and programs. *Topics:* Energy project management; Federal Economic and Development Co-ordination (FEDC); service to the public; energy matters; energy conservation; Arctic and northern energy conservation; codes and standards; energy conservation in the commercial, industrial, residential, transportation and urban sectors; energy research and development; associations and organizations; interdepartmental, international and provincial liaison; renewable energy; biomass; solar.

### **EMR/CRB-265 Formerly Identified as: EMR-80 Home Energy**

*Description:* Information relating to the development of policies and programs to encourage energy conservation and oil substitution in the residential sector. *Topics:* Energy matters; energy conservation; building codes and standards; consumer behavior; industrial sector; materials and equipment; residential sector; energy pricing and taxation; energy research and development; interdepartmental, international and provincial liaison; renewable energy; Heatline; technical resources.

### **EMR/CRB-270 Formerly Identified as: EMR-90 Federal Energy Management**

*Description:* Information relating to internal energy conservation programs developed to provide the efficient use, conservation and reduction in consumption of energy by federal government departments, agencies and Crown corporations. *Topics:* Energy matters; provincial energy; energy conservation codes and standards; energy conservation materials and equipment; energy conservation in the industrial, commercial and transportation sectors; energy pricing and taxation; energy research and development; liaison; interdepartmental, international and provincial liaison.

### **EMR/CRB-275 Formerly Identified as: EMR-100 Industrial Energy**

*Description:* Information relating to the development of policies and programs that provide assistance to the industrial, commercial, institutional and agricultural sectors in the efficient use of energy conservation. *Topics:* Commercial sector; commercial task forces; agricultural task force; distributive trade task force; hospitals task force; hotels and motels task force; offices task force; universities and colleges task force; database and analysis; industry task forces council; industries; chemical industry; electrical and electronic manufacturing industry; farm and industrial equipment industry; ferrous metals industry; food and beverage industry; general manufacturing industry; industrial minerals industry; machinery and equipment industry; mining and metallurgy industry; non-prescription medicines industry; petroleum industry; plastic industry; pulp and paper industry; textile industry; transportation industry; wood products industry; publications and information; provincial, international and interdepartmental liaison; associations; Canadian Electrical Association; techniques, equipment and technologies; waste management.

## DEPARTMENT OF ENERGY, MINES AND RESOURCES

EMR/CRB-280 *Formerly Identified as:* NO REFERENCE

### Federal Government Programs (New)

*Description:* Information relating to delivery of federal government programs on energy conservation and oil substitution in residential and industrial sectors, federal energy management and technology transfer and demonstration. *Topics:* National Energy Program (NEP); Energy Conservation and Oil Substitution Branch Program; Atlantic Energy Conservation Investment Program (AECIP); Building Energy Technology Transfer Program (BETT); BETT lead agencies; BETT liaison with associations, private sector companies, universities and research institutes; Biomass Energy Loan Guarantees Program; Canada Home Energy Program (CHEP); Canada Oil Substitution Program (COSP); COSP application processing; COSP CMHC delivery; COSP utility companies delivery; COS CREO delivery; COSP eligibility criteria; COSP fraud; Gas Electric Conversion Assistance Program (GELCAP); Renewables Conversion and Enhanced Conservation Assistance Programs (RENCAP/ECAP); Canadian Home Insulation Program (CHIP); CHIP inspections and quality assurance; CHIP program delivery; CHIP eligibility criteria; CHIP research and technology transfer; CHIP industrial liaison; CHIP investigations; CHIP program review and evaluation; Compressed Natural Gas Program; CNG Fueling Stations Program; Conservation and Renewable Energy Development and Demonstration (CREDA/CREDP); Consumer Education Programs (CEP); CEP audits; CEP marketing; Federal Energy Management Program (FEMP); Internal Energy Conservation Program (IECP); Surveys Workshops Information and Monitoring (SWIM); FEMP off-oil conversion; FEMP retrofit; Forest Industry Renewable Energy (FIRE); Industrial Conversion Assistance Program (ICAP); Industrial Energy Management Program (IEMP); Industry Energy Research and Development Program (IERD); Municipal Energy Management Program (MEMP); National Energy Audit Program (NEAP); Energy Bus; Nova Scotia Energy Conservation Subsidiary Agreement; Propane Vehicle Grant Program; Remote Community Demonstration Program; Small Projects Fund; Solar Domestic Hot Water Heating Program (SDHW); Commercial/Industrial Solar Demonstration Program; Special Projects Demonstration Program; Super Energy Efficient Housing Demonstration (SEE); SEE-R2000 builder selection and approval; Consulting Advice Assistance Program (CAAP); Tax Incentives Program (TIP).

EMR/PTS-285 *Formerly Identified as:* NO REFERENCE

### Petroleum (New)

*Description:* Information relating to management of petroleum activity to ensure the development of adequate and secure sources of petroleum to meet Canada's energy requirements. The program includes the assessment of Canada's petroleum sources and reserves, and the development of oil and gas policies. *Topics:* Committees; legislation and regulations; energy issues; Energy Emergency Planning Group/Energy Supplies Allocation Board; international and provincial liaison.

EMR/PTS-290 *Formerly Identified as:* EMR-215

### Petroleum Utilization

*Description:* Information relating to the transportation, refining and marketing of petroleum in Canada to ensure efficient utilization of domestic and imported petroleum resources. *Topics:* Committees; electronic data systems; operations; international liaison; exports; imports; import compensation; downstream operations; petroleum products marketing; demand trends; petroleum products marketers; independent marketers; petroleum products consumption taxes and charges; marketing studies; petroleum products monitoring; monitoring of petroleum prices; petroleum products posted prices; petroleum sales realizations; aviation fuel sales realizations; processing of petroleum; petrochemical industry; international petrochemical industry; refineries; processing supply; processing technology; upgrading; transportation.

EMR/PTS-295 *Formerly Identified as:* EMR-225

### Petroleum Resources

*Description:* Information relating to the analysis and policy development of all aspects of the upstream side of the oil industry from land tenure, geology, geophysics, exploration and development drilling to reserves and production of oil and gas. Includes resource assessment, enhanced oil recovery and supply-costing of future oil and gas development. *Topics:* Committees; economic analysis; petroleum resources operations; associations; electronic data processing; environmental impact; oil and gas industry; provincial and international liaison; engineering; engineering costs and expenditures; ownership; resource supply pricing; research and development; reserves; fossils fuels; hydrocarbon liquids reserves; hydrocarbon assessments; oil reserves; frontier oil reserves; enhanced recovery; oil shut-in; oil sands reserves; upgrading; heavy oil provincial agreement; gas reserves; deep basin and tight gas reserves; frontier gas reserves; gas shut-in; fiscal regime; transportation; upstream activities; reserves development; oil and gas exploration and production.

EMR/PTS-300 *Formerly Identified as:* EMR-235

### Oil Supply

*Description:* Information relating to the analysis of Canada's oil requirements and the availability of domestic and international oil supplies to ensure that current and future oil needs are met. *Topics:* Electronic data systems; emergency oil inventory; domestic oil supply; export; export pricing, taxes and charges; imports; domestic oil industry; domestic oil pricing; supply and demand; heavy crude oil supply and demand; charges; transportation; international oil supply; Organization of Petroleum Exporting Countries (OPEC); Organization of Arab Petroleum Exporting Countries (OAPEC); private international oil industry; government owned international oil industry; Organization for Economic Co-operation Development (OECD); International Energy Agency (IEA); world oil market.

EMR/PTS-305 *Formerly Identified as:* EMR-245

### Natural Gas

*Description:* Information relating to various natural gas issues affecting the marketing, pricing and transmission of natural gas in interprovincial and international trade, including the designing and administering of federal expenditure programs aimed at expanding markets within Canada. *Topics:* Consultants; natural gas operations; associations; Canada Lands; gas exports; gas export pricing; fiscal regime; natural gas industry; natural gas information program; international natural gas; major projects; pipeline projects; natural gas marketing; natural gas pricing; supply and demand; provincial activities; natural gas liquids; propane; butane; ethane; methanol; compressed natural gas; natural gas liquid industry; Market Development Incentive Payment (MDIP); Distribution System Expansion Program (DSEP); DSEP propane; Transmission System Expansion Program (TSEP); Transportation Assistance Program (TAP); Gas Marketing Assistance Program; Natural Gas Laterals Program.

EMR/PTS-310 *Formerly Identified as:* EMR-255

### Oil Pricing and Compensation

*Description:* Information relating to the development, analysis and administration of petroleum compensation and pricing programs. *Topics:* Electronic data systems; committees; liaison; legislation; branch operations; associations; petroleum compensation accounting; transshipment cases; Interprovincial Pipe Line Deficiency Agreement; Petroleum Compensation Advisory Committee; pipeline companies; Restrictive Trade Practices Commission; supply and demand; domestic transfer compensation and inspection program; exchange compensation program; Oil Import Compensation Program (OICP); OICP audits; OICP enquiries; OICP inspection program; OICP rate determination; OICP asphalt; OICP carbon black feedstock; OICP exports; OICP heavy fuel oil; OICP Mexican crude oil imports; OICP petroleum product imports; OICP oil exports from St-Regis Indian Reserve; special compensation; synthetic compensation program

## DEPARTMENT OF ENERGY, MINES AND RESOURCES

(Syncrude and Suncor); petroleum levies; petroleum levies submissions; petroleum levies penalties; petroleum levies audit; Canadian ownership special charge; petroleum compensation charge; transportation fuel compensation recovery charge; oil pricing; blended price system; crude oil pricing; industry cost data; pricing negotiations and agreement; New Oil Reference Price (NORP); NORP calculation; NORP pentanes plus; NORP synthetic oil; NORP supplement; NORP tertiary recovery; Reference Oil Pricing; Special Old Oil Price (SOOP).

**EMR/UCL-315** *Formerly Identified as:* EMR-360

### **Corporate Records**

*Description:* Information relating to activities of Uranium Canada Limited in the international and domestic uranium markets, including administration of contracts, sales, loans and delivery from the uranium stockpiles. *Topics:* Annual reports, bylaws, resolutions and meetings of directors; negotiations and contracts, deliveries to and from the uranium stockpiles, sales proposals and agreements; international markets and trade in uranium; and Canadian and International Uranium Producers' meetings.

**EMR/PHB-320** *Formerly Identified as:* NO REFERENCE

### **Earth Physics (New)**

*Description:* Information relating to the overall management of the Earth Physics activity to ensure the availability of geophysical knowledge on the solid earth, and more specifically on the Canadian landmass and offshore areas. *Topics:* Associations and organizations; societies; committees; liaison; departmental, international, provincial, universities liaison; earth physics publishing; earth physics research and development; research agreements; earth physics unsolicited proposals; program for industry laboratory projects (PILP) earth physics interdisciplinary projects; nuclear fuel waste management program; Lomonosov Ridge Experiment (LOREX); Canadian Expedition to Study the Alpha Ridge (CESAR); Frontier Geoscience Program.

**EMR/PHB-325** *Formerly Identified as:* EMR-370

### **Geodynamics**

*Description:* Information relating to the monitoring of polar motion, earth rotation and crustal stability of the Canadian landmass and research on the dynamics of the earth. Aspects include investigations of crustal strain and tilt related to tectonic movements, groundwater levels and earthquake predictions. *Topics:* Global geodynamics; global dynamic observatories; satellite and astronomical observatories; global positioning system; long baseline interferometry system; photo zenith tube system; global dynamics systems development and instrumentation; global dynamics analysis and interpretation techniques; crustal dynamics; crustal dynamics of the Charlevoix region; long baseline techniques; crustal dynamics of Vancouver Island; NASA crustal dynamics project; geodynamics systems development and instrumentation; absolute gravity service; airborne gravity.

**EMR/PHB-330** *Formerly Identified as:* EMR-380

### **Geomagnetism**

*Description:* Information relating to monitoring of the geomagnetic field over the Canadian landmass and offshore areas, and research on the magnetic structure of the earth and the nature of the geomagnetic field. *Topics:* Canadian magnetic observatory network; magnetic observatories; geomagnetic systems development and instrumentation; geomagnetic data management; magnetic charts; geomagnetic earth structure studies; paleomagnetism.

**EMR/PHB-335** *Formerly Identified as:* EMR-381

### **Geothermics**

*Description:* Information relating to research into the thermal regime of the Canadian landmass, both onshore and offshore, the potential for geothermal energy in Canada, and the significance of permafrost and gas hydrates to northern development. *Topics:* Geothermal

laboratory measurement and field support; geothermal studies; heat flow processes; regional heat flow studies; geothermal energy; geothermal energy co-ordination; Atlantic region geothermal energy; geothermal energy in sedimentary basins; cordillera geothermal energy; permafrost; offshore permafrost; regional permafrost; moisture migration phenomena; gas hydrates.

**EMR/PHB-340** *Formerly Identified as:* EMR-382

### **Gravity**

*Description:* Information relating to gravity surveys of the Canadian landmass and offshore areas, provision of national gravity standards and gravity data, compilation of regional and national gravity maps and research into the gravity field and structure of the earth. Aspects include coordination, planning and contracts. *Topics:* Gravity mapping; gravity map compilation; gravity maps and charts; gravity mapping systems development and instrumentation; standards and data systems; Canadian gravity standardization network; mathematical method and systems; gravity mathematical modelling; gravity earth structure studies; gravity crustal studies; Arctic gravity studies; meteorite impact processes; gravity intrusion studies; planetary evolution studies.

**EMR/PHB-345** *Formerly Identified as:* EMR-383

### **Seismology**

*Description:* Information relating to monitoring of seismic ground motion (earthquakes) and structure and dynamics of the Canadian landmass and offshore areas. *Topics:* Canadian seismograph network; seismograph network standard stations; seismograph network regional stations; eastern Canadian telemetered network; western Canadian telemetered network; strong-motion seismograph network; seismograph network special and temporary stations; Yellowknife geophysical observatory; seismological systems development and instrumentation; seismological data management; earthquake studies and seismic hazards; seismological earth structure studies; geoscience of nuclear explosions; ARMS control project; peaceful nuclear explosions.

**EMR/GSC-350** *Formerly Identified as:* NO REFERENCE

### **Geological Surveys (New)**

*Description:* Information relating to management of the Geological Survey activity to ensure availability of comprehensive knowledge, technology and expertise pertaining to the geology of the Canadian landmass and offshore areas for identification, exploration and exploitation of Canadian mineral and energy resources. Aspects include studies and research on the earth's surficial deposits, crust and upper mantle. *Topics:* Committees, conferences; liaison with associations, organizations, institutes, societies, companies, foreign countries, provinces, colleges and universities; research and development; Industrial Research Agreements Program; Program of Industries Laboratories projects; Panel on Energy Research and Development; Geological Survey unsolicited proposals; federal/provincial agreements; Mineral Development Agreements; boundary disputes; frontier geoscience program; ocean mining and research program; oil and gas resources and exploration.

**EMR/GSC-355** *Formerly Identified as:* EMR-401

### **Central Laboratories and Technical Services**

*Description:* Information relating to the compositional analysis of rocks, minerals, ores and other geological materials used in connection with branch scientific projects. Also includes the provision of mineralogical information to the public. *Topics:* Liaison; research and development; analytical chemistry; standards; mineralogy; national collections; rock and mineral information services; technical services.

**EMR/GSC-360** *Formerly Identified as:* EMR-402

### **Economic Geology**

*Description:* Information relating to the integration of regional geology and mineral deposit data and metallogenic concepts to determine the probable distribution and potential abundance of

## DEPARTMENT OF ENERGY, MINES AND RESOURCES

Canada's non-hydrocarbon mineral resources. Also includes appraisals of individual commodities. *Topics:* Liaison; research and development; geomathematics; mineral data bank; deposit geology; mineral deposits; uranium resource evaluation; Co-operative Mineral Agreement Program.

EMR/GSC-365 *Formerly Identified as:* EMR-403

### **Geological Information**

*Description:* Information relating to management and operations of the Geological Information division activities to ensure the results of the branch's scientific programs are made available to industry, other government agencies and the general public. *Topics:* Communication plans; cartography; library services; library exchange agreements; Geoscan; Geoscan federal/provincial agencies; publication production; publication services; technical photography.

EMR/GSC-370 *Formerly Identified as:* EMR-404

### **Precambrian Geology**

*Description:* Information relating to management and operations of the Precambrian Geology activities ensuring the availability of comprehensive knowledge, technology and expertise on the bedrock geology and mineral resources of the Canadian Precambrian Shield, and plutonic and igneous rocks in Atlantic Canada. *Topics:* Equipment development; standards; statistics; geochronology; paleomagnetism; petrology.

EMR/GSC-375 *Formerly Identified as:* EMR-405

### **Resource Geophysics and Geochemistry**

*Description:* Information relating to management and operations of the Resource Geophysics and Geochemistry division in the development and demonstration of improved technologies and the applications of these technologies in surveys of the Canadian landmass. *Topics:* Geoscience aid projects; regional geophysics; aeromagnetic surveys; resource geochemistry; resource geophysics.

EMR/GSC-380 *Formerly Identified as:* EMR-406

### **Terrain Science**

*Description:* Information relating to management and operations of Terrain Sciences activities to ensure the availability of comprehensive knowledge and expertise on surficial materials, natural terrain hazards, and the capabilities of the terrain to support human activities. *Topics:* Environmental studies; publishing and editing; geomorphic process and engineering geology; transportation and hydrocarbon development; nuclear fuel waste management program; EMR/AECL Co-ordinating Program; paleoecology and geochronology; paleoecology laboratory; sedimentology and mineral tracing; regional projects.

EMR/GSC-385 *Formerly Identified as:* EMR-407

### **Atlantic Geoscience**

*Description:* Information relating to management and operations of Atlantic Geoscience activities to ensure a comprehensive knowledge, technology and expertise on the geology of the Atlantic and Arctic offshore regions of Canada and the sedimentary basins of the Appalachian region. *Topics:* Automated systems; equipment; eastern petroleum geology; environmental marine geology; library services.

EMR/GSC-390 *Formerly Identified as:* EMR-408

### **Cordilleran Geology**

*Description:* Information relating to management and operations of the Cordilleran Geology activities to increase the knowledge of the composition, age, distribution and origin of regionally mappable rock units to better assess the mineral and hydrocarbon potential in the Canadian Cordillera and adjacent offshore regions. *Topics:* Automated systems; liaison; cartography; marine geology; micropaleontology; research studies; library services.

EMR/GSC-395 *Formerly Identified as:* EMR-409

### **Sedimentary and Petroleum Geology**

*Description:* Information relating to activities, management and operations associated with Sedimentary and Petroleum Geology activity; specifically, geological knowledge base for Canada generally and Arctic sedimentary basins in particular. *Topics:* Scientific committees; conferences; liaison with associations, companies, federal government departments, foreign countries, provinces, universities and colleges; research and development; research grants; boundary disputes; Frontier Energy Geoscience Program; unsolicited proposals; Nuclear Fuel Waste Management Program; publications; coal geology; paleontology; petroleum geology; geochemistry; petroleum resources appraisal secretariat; regional geology; Arctic Islands; mainland; sedimentary and petroleum geology research projects.

EMR/SMB-400 *Formerly Identified as:* NO REFERENCE

### **Surveys and Mapping (New)**

*Description:* Information relating to management of the Surveys and Mapping activity to ensure geodetic, topographic and selected geographic information required for effective resource management, land use and demarcation, engineering works, urban development, transportation, defence and public safety. The program includes a national network of horizontal and vertical positional reference monuments; topographical and geographical information on the Canadian landmass; preparation, publication and distribution of maps, charts, publications, aerial photographs, gazetteers, and the National Atlas of Canada; boundary and property surveys on federal land and international boundaries. *Topics:* Surveys and mapping associations; organizations; committees and conferences; liaison; projects; research and development.

EMR/SMB-405 *Formerly Identified as:* EMR-445

### **Canada Lands Surveying**

*Description:* Information relating to management and regulation of all surveys carried out in Canada Lands, as stipulated in the *Canada Lands Surveys Act*. Canada Lands include all land in the Yukon and Northwest Territories that is not privately owned, Indian Reserves, national parks and the lands offshore. *Topics:* Board of examiners for Canada Lands surveyors; survey contracts; co-ordinated survey areas; boundary surveys; electoral districts legal surveys; federal government surveys; Indian reserves; legal survey monument co-ordinate file; national and historical parks and sites; offshore surveys; survey information procedures; survey records; territories surveys; territorial resources base mapping; mining surveys; rights of way; settlement site surveys.

EMR/SMB-410 *Formerly Identified as:* EMR-455

### **Geodesy**

*Description:* Information relating to the creation and maintenance of a national geodetic survey network, which is fundamental to all forms of surveying. Aspects of geodetic information include measurements of latitude, longitude, elevation, geometry of the earth's surface and its physical anomalies. *Topics:* Geodesy committees; global positioning system; liaison; projects; geodetic information; data analysis and adjustment; data services; secondary integration; field surveys; inertial survey system (ISS); primary horizontal control; primary vertical control; satellite doppler; secondary control; research and development.

EMR/SMB-415 *Formerly Identified as:* EMR-465

### **Geographical Mapping**

*Description:* Information relating to the earth's surface, form, physical features, national and political divisions, climate, productions and population. *Topics:* Committees; liaison; aeronautical charting; flight information amendments, instrument flight rules, visual flight rules; Canadian permanent committee on geographical names; national toponymic database (NTDB), principles, proposals, war casualty names; geographical maps and information; general cartographic services; international map of the world; geographical

## DEPARTMENT OF ENERGY, MINES AND RESOURCES

research; economic geography; historical geography; human geography; physical geography.

EMR/SMB-420 *Formerly Identified as:* EMR-475

### Map Publishing

*Description:* Information relating to the publication of maps, aeronautical charts, air photographs and related publications, and the maintenance of an adequate supply of these materials for sale to governments, industry and the public through a national network of dealers in the private sector. *Topics:* Associations; committees; liaison; aerial photographic services; National Air Photo Library; map distribution; map reproduction; map marketing.

EMR/SMB-425 *Formerly Identified as:* EMR-485

### International Boundary

*Description:* Information relating to maintenance and regulation of the land and water boundary between Canada and the United States. Aspects include positioning of boundary line points, settlement of disputes and jurisdictional questions, regulation of construction and removal of boundary obstructions. *Topics:* Canadian boundary; boundary regulation; field operations; liaison; geographical co-ordinates; reports; United States boundary.

EMR/SMB-430 *Formerly Identified as:* EMR-495

### Topographical Mapping

*Description:* Information relating to mapping of the Canadian landmass in detail, showing relief elevation, lakes, rivers, roads, buildings, airports and canals, including names of features and places. *Topics:* Aerial survey database; associations; committees; contract mapping; digital mapping; nomenclature and toponomy; cartographic monitor system; Gestalt photo mapper; national digital topographic mapping standards; new mapping; remote sensing; research development; revisions mapping; standards and specifications; survey control; air profile recorder; photo identification.

EMR/PSP-435 *Formerly Identified as:* NO REFERENCE

### Polar Continental Shelf Project (New)

*Description:* Information relating to management and functions of the Polar Continental Shelf Project. Includes the study of scientific problems unique to Arctic Canada, provision of co-ordinated logistic support to public and private sector groups, provision of information on scientific operations to the scientific community and local inhabitants. *Topics:* Appreciation for support and services; associations and organizations; scientific committees; communications; photography; conferences; expeditions; information services; liaison; research agreements; unsolicited proposals.

EMR/PSP-440 *Formerly Identified as:* EMR-595

### Arctic Science

*Description:* Information relating to scientific investigations of Canada's Polar Continental Shelf, Arctic Ocean and mainland region in maintaining effective policies, and co-ordination of scientific activities relating to Arctic paleoclimate and climate forecasting. *Topics:* Climatology; glacier physics.

EMR/PSP-445 *Formerly Identified as:* EMR-605

### Logistical Support

*Description:* Information relating to provision and co-ordination of annual logistical support by the Polar Continental Shelf Project for field parties from federal departments, foreign governments and their agencies, Canadian and foreign universities and groups from the private sector. Includes such aspects as safety, living and working conditions, transportation, equipment and communications. *Topics:* Base camp operations; land use permits; field activities; fuel issues; procurement; aircraft procurement; materiel procurement; scientific services; vehicles; radio and navigation systems frequencies.

EMR/CAB-450 *Formerly Identified as:* EMR-715

### Canada Centre for Mineral and Energy Technology

*Description:* Information relating to the co-ordination, promotion and administration of research and development activities in the explosives, energy and minerals field. *Topics:* Associations and organizations; committees; conferences; environmental issues; industrial and economic analysis; inventions, patents, copyrights; Panel on Energy Research and Development (PERD); program management; contracts administration; project selection; project monitoring and review; liaison; international liaison; research and development programs; technical information; electronic data systems; energy issues; international energy; metallurgy; mineral processing; mining; publications; technical services; technology evaluation; technology transfer.

EMR/CAB-455 *Formerly Identified as:* EMR-725

### Canada Explosives Act Administration

*Description:* Information relating to administration of the *Canada Explosives Act* by testing and confirming the new explosives submitted for authorization, providing technical advice and investigating accidents. *Topics:* Liaison; testing and research; international liaison; certification and technical advice; research and development of new technical standards.

EMR/CAB-460 *Formerly Identified as:* EMR-735

### Energy Technology

*Description:* Information relating to energy research and development to ensure the availability to Canada of adequate technology for the extraction, processing, use and conservation of energy resources, such as oil, gas, coal and uranium. *Topics:* Coal: carbonization; coal-liquid mixtures; combustion technologies for pollution abatement; conventional combustion; co-processing; co-processing pilot plant; fine coal beneficiation; fluidized-bed combustion; gasification; liquefaction processes; materials for utilization and conversion; mine atmospheres; mining; novel liquefaction and pyrolysis; preparation techniques; international and provincial liaison; reserve assessment; safety certification of equipment; strata mechanics; conservation: industrial processes; industrial mineral processes; plasma technology; road vehicle fuel economy; residential heating systems; nuclear: geomechanics in nuclear waste disposal; uranium extraction; alternate and conventional uranium extraction; uranium mine evaluation; uranium reserve assessment; petroleum supply: treatment of bitumen/oil emulsions and effluent waters; catalytic refining to transportation fuels; characterization of synthetic crudes and distillates; disposable catalysts; extraction of bitumen from oil sands; hydrocracking; in-situ recovery of bitumen and heavy oil; materials for hydrocarbon processing; tar sands; materials for offshore structures; materials for oil and gas pipelines; conversion of natural gas to liquid fuels; separation processes for synthetic fuels; thermal oil shale/catalytic residuum conversion; renewable energy technology: biomass; materials for advanced energy conversion; photo-electrochemical cells; liaison; wood-fired residential heating.

EMR/CAB-465 *Formerly Identified as:* EMR-745

### Minerals Technology

*Description:* Information relating to mineral resource policies and the support and monitoring of research and development in the minerals field in order to ensure the availability to Canada of adequate technology for the extraction, processing, use and conservation of mineral resources. *Topics:* Mineral technology; cost recovery; conservation and resource assessment; environmental technology for mining and processing; pollution control in industrial processes; uranium tailings technology; research and development in health and safety in the mine environment; noise and vibration in mines; materials development technology: advanced materials and instrumentation; failure control of materials; non-metallic minerals; aggregate technology; properties of engineering alloys; metals processing; transportation materials; heat-treated rail; marine materials; naval materials; metal casting; degradable sand and core

binders; improved iron melting practice; low pressure mould casting, mobile foundry laboratory; ultra-clean steels; metal working; welding; mineral processing; by-product recovery of valuable metals; silver recovery in the zinc industry; metal extraction from concentrates or residues; hydrometallurgical lead process; microbiological leaching; mineral beneficiation; iron ore processing; mineral processing plant simulation; mining methods and equipment; rock mechanics; standards and specifications in analytical methods; chemical standards; materials testing; certification of non-destructive personnel; technology transfer.

EMR/RSB-470 *Formerly Identified as:* NO REFERENCE

## Canada Centre for Remote Sensing (New)

*Description:* Information relating to co-ordination and administration of research and development activities to improve remote sensing technology and facilitate the acquisition, dissemination and analysis of remotely sensed data from aircraft and satellites for resource management and environmental monitoring. *Topics:* Associations; committees; Canadian Advisory Committee on Remote Sensing; conferences; program management; provincial and international liaison; National Aeronautics and Space Administration (NASA); research and development programs.

EMR/RSB-475 *Formerly Identified as:* EMR-771

## Air Operations

*Description:* Information relating to utilization, operations, maintenance and calibration of aircraft and of electrical and electronic equipment engaged in remote sensing activities. *Topics:* Airborne data acquisition; aircraft operations and maintenance; aircraft systems support.

EMR/RSB-480 *Formerly Identified as:* EMR-772

## Automated Systems and Methods

*Description:* Information relating to research and development in computer systems and methods for the processing, analyzing and storing of remotely sensed data acquired from satellites and airborne platforms and the provision of technical assistance and advice for hardware procurement and software development. Also includes the provision and operation of facilities for processing satellite and airborne remotely sensed data. *Topics:* Synthetic aperture radar digital processor; digital storage technologies; the Digital Image Correction System; image analysis systems; visible infrared spectroscopy; image processing systems; instrumentation laboratory; National Oceanic and Atmospheric Administration's (NOAA) satellite systems; Digital Image Analysis system; Multi-Observation Satellite Image Correction system; standard computer compatible tape format.

EMR/RSB-485 *Formerly Identified as:* EMR-773

## Data Applications

*Description:* Information relating to research and development in remote sensing information extraction techniques and the development and demonstration of applications of remotely sensed data to resource management and environmental monitoring problems. *Topics:* Applications development and demonstration; agriculture; forestry; geology and cartography; hydrology.

EMR/RSB-490 *Formerly Identified as:* EMR-774

## Data Application Services

*Description:* Information relating to provision of analysis facilities, and information and advisory services to assist users in applying remote sensing technologies. *Topics:* Marketing; image analysis services; library services; publications; transfer of remote sensing technologies to industry; technology enhancement program.

EMR/RSB-495 *Formerly Identified as:* EMR-775

## Radarsat

*Description:* Information relating to Radarsat projects for the development of a radar satellite capable of supplying sea ice information; research and development in spaceborne radar technologies; administration and co-ordination of the Radarsat projects. *Topics:* Economic studies; concept design studies; mission (user) requirements; technology development; spaceborn synthetic aperture radar; scientific liaison.

EMR/RSB-500 *Formerly Identified as:* EMR-776

## Satellite Data

*Description:* Information relating to the Satellite Data sub-activity ensuring the availability of data from satellites. Aspects include satellite operations and products, the acquisition of data, and research and development of new remote sensing techniques. *Topics:* European Space Agency (ESA) ERS-1 satellite program; National Aeronautics and Space Administration's (NASA) Landsat satellites; Landsat products; National Oceanic and Atmospheric Administration's (NOAA) Landsat-D satellites; Landsat-D receiving stations upgrade; receiving stations; NASA seasat and sursat program and projects; Satellite pour l'Observation de la Terre (SPOT).

EMR/RSB-505 *Formerly Identified as:* EMR-777

## Sensors Research and Development

*Description:* Information relating to development and evaluation of new and novel remote sensors for use from airborne and satellite platforms. *Topics:* Airborne sensors; airborne laser sensors; microwave radiometer and scatterometer; visible and infrared sensors.

EMR/XPB-510 *Formerly Identified as:* EMR-810

## Explosives

*Description:* Information relating to administration of the *Canada Explosives Act*, in the interest of public and worker safety throughout Canada through the manufacture, storage, sale, transportation and use of explosives and the co-ordination of testing of explosives by the Canada Centre for Mineral and Energy Technology. *Topics:* Committees; interdepartmental, provincial and international liaison; model rocketry; explosives types and classification.

EMR/XPB-515 *Formerly Identified as:* NO REFERENCE

## Authorization and Testing of Explosives (New)

*Description:* Information relating to the co-ordination of testing and authorization by the Canadian Explosives Research Laboratory of explosives which are imported, sold or used in Canada. *Topics:* *Explosives Act* and Regulations; fireworks; incidents; accidents.

EMR/XPB-520 *Formerly Identified as:* NO REFERENCE

## Manufacturing and Production (New)

*Description:* Information relating to the manufacture and production of all types of explosives. Aspects include safety certificates; information on companies producing or manufacturing explosives. *Topics:* Manufacturing; production; safety certificates; factory sites.

EMR/XPB-525 *Formerly Identified as:* NO REFERENCE

## Safety Standards (New)

*Description:* Information relating to policy development and management of safety standards for explosives. *Topics:* Equipment; magazines; packaging, labelling and marking; transportation.

EMR/XPB-530 *Formerly Identified as:* NO REFERENCE

## Licences (New)

*Description:* Information relating to policy development, enquiries regarding licences and preparation of forms for explosive licences. *Topics:* Factories; fireworks magazines; magazines; temporary magazines.

## DEPARTMENT OF ENERGY, MINES AND RESOURCES

EMR/XPB-535 *Formerly Identified as:* NO REFERENCE

### Permissions (New)

*Description:* Information relating to policy development, enquiries and preparation of forms for explosives permissions. Also includes two-components permissions. *Topics:* Ammonium nitrate, fuel oil permissions; re-loading ammunition permissions.

EMR/XPB-540 *Formerly Identified as:* NO REFERENCE

### Permits (New)

*Description:* Information relating to policy development, enquiries and preparation of forms for explosives permits. *Topics:* Annual importation permits; general importation permits; transportation permits.

EMR/RDO-545 *Formerly Identified as:* EMR-800

### Energy Research and Development

*Description:* Information relating to development of research and development policies to ensure that Canada has the necessary research capabilities to support national energy strategies. *Topics:* Coal research and technology; provincial coal policy; international research and development; IEA Committee on Energy Research and Development; provincial activities; the Alberta Canada Energy Resources Research Fund (ACERRF); federal-provincial demonstration agreements; industrial research and development.

EMR/RDO-550 *Formerly Identified as:* EMR-805

### Energy Research and Development Tasks and Programs

*Description:* Information relating to the development and implementation of plans for research and development activity in response to energy research policy and strategy, and to the coordination and administration of the interdepartmental research and development program. It includes the management and allocation of resources for projects that will help achieve and sustain domestic energy self sufficiency. *Topics:* The Inter-departmental Panel on Energy Research and Development; energy research and development tasks and programs; proposals for funding; Office of Energy Research and Development (OERD); generic environment program; the Laval University Green Program; conservation task; Industrial Energy Conservation Research and Development Program; industrial conservation; new process technologies; conservation in the agriculture and food sector; conservation in building; conservation in transportation; energy systems; district heating and cogeneration; industrial energy recovery and reuse; oil and coal task; oil sands and heavy oil; coal supply; coal combustion; oil and coal environmental issues; nuclear energy task; nuclear fission and fusion; fuel resource base; nuclear energy utilization and support; nuclear fusion; renewable energy sources task; hydraulics; solar; bioenergy; wind; geothermal; peat; new liquid fuels task; direct liquefaction; gasification; biological processes; fuels processing; fuel use; hydrogen and energy storage; new liquid fuels and environment; conventional energy systems; geoscientific research and development; marine engineering; offshore geotechnics; enhanced recovery; materials for offshore structures; oil and gas transportation; conventional energy systems and environment; electric research and development.

EMR/MPS-555 *Formerly Identified as:* NO REFERENCE

### Mineral Policy (New)

*Description:* Information relating to mineral development activities; the establishment, promotion and assessment of the impact of mineral policies and strategies; and the provision of advice to senior officials on the implications of international mineral development. *Topics:* Associations; committees; conferences; liaison; operations; Research Agreements Program.

EMR/MPS-560 *Formerly Identified as:* EMR-635

### Economic Analysis

*Description:* Information relating to the assessment of economic and fiscal factors affecting the competitiveness of Canadian minerals and metals industry. *Topics:* Associations; contracts; economic database

systems; economic prospects; federal policy analysis; financial and corporate analysis; forecasting; foreign mineral industry; foreign ownership; mining equipment industry; financial and taxation models; analysis of major mining projects; Queen's Centre for Resource Studies research program; regional economic analysis; tax policy analysis.

EMR/MPS-565 *Formerly Identified as:* EMR-645

### Human Affairs

*Description:* Information relating to analysis and development of strategies and programs in order to ensure the availability of human resources and enhance the quality of work life in mining communities. *Topics:* Liaison; trade unions; health and safety; job creation programs; labour markets and issues.

EMR/MPS-570 *Formerly Identified as:* EMR-650

### Information Services

*Description:* Information relating to production, distribution, management and operations of minerals and metals information services. *Topics:* Corporate information; mineral industry statistics; mineral and metal industry census and surveys; the National Mineral Inventory; minerals and metals publications.

EMR/MPS-575 *Formerly Identified as:* EMR-660

### International Mineral Relations

*Description:* Information relating to bilateral and multilateral mineral relations, discussions and negotiations with foreign countries and organizations. *Topics:* Conferences; domestic organizations; international organizations; Law of the sea; mineral trade analysis; Trade and Tariffs Agreements; tariff structures; foreign countries mineral development.

EMR/MPS-580 *Formerly Identified as:* EMR-670

### Minerals and Metals Strategy

*Description:* Information relating to assessment and analysis of domestic and foreign mineral and metal commodities for the development and promotion of policies and programs. *Topics:* Commodity issues and studies; ferrous commodities; industrial commodities; non-ferrous commodities; non-ferrous smelter strategy; processing technology; non-ferrous environmental issues.

EMR/MPS-585 *Formerly Identified as:* EMR-680

### Regional Mineral Development

*Description:* Information relating to regional mineral development strategies and policies in order to contribute to the mineral economic development of Canadian regions. *Topics:* Provincial liaison; Federal Economic Development Co-ordinators (FEDC); federal/provincial economic agreements and programs; General Development Agreements (GDA); Mineral Development Agreements (MDA); infrastructure in support of mineral developments; northern development; native land claims; regional analysis.

EMR/MPS-590 *Formerly Identified as:* EMR-690

### Resource Supply Analysis

*Description:* Information relating to analysis of the mineral resource supply in order to ensure adequate supplies of minerals and metals for Canada. *Topics:* Canadian resource supply; mineral and metal exploration activity; mine monitoring, ore reserves; foreign supply; Canadian import dependence; the International Strategic Minerals Inventory; ocean minerals.

# DEPARTMENT OF THE ENVIRONMENT

## Background

The Department of the Environment officially came into being June 11, 1971, following proclamation of the *Government Organization Act*, 1970. It was created to bring together elements within the federal government already involved in work related to the Canadian environment and our renewable resources. The Department is also known by the short form, "Environment Canada."

On April 2, 1979 the proclamation of the *Government Organization Act* (1979) reorganized Environment Canada into two departments which included Parks Canada and Fisheries and Oceans Canada.

## Laws and Regulations

- Ambient Air Quality Objectives, Nos. 1 and 2
- Canada Water Act
- Canada Wildlife Act
- Chlor-Alkali Mercury Liquid Effluent Regulations
- Clean Air Act
- Department of Transport Act
- Environmental Contaminants Act
- Fisheries Act
- Forestry Development and Research Act and Regulations
- Game Export Act
- Heritage Canals Regulations
- Historic Sites and Monuments Act
- International River Improvements Act
- International River Improvements Regulations
- Leaded Gas Regulations
- Lead-Free Gasoline Regulations
- Meat and Poultry Products Plant Liquid Effluent Regulations
- Metal, Mining Liquid Effluent Regulations
- Metallurgical Industries Arsenic Information Regulations
- Metallurgical Industries Mercury Information Regulations
- Migratory Birds Sanctuary Regulations
- Migratory Birds Convention Act
- Migratory Birds Regulations
- National Battlefield Act of Québec
- National Parks Regulations
- Ocean Dumping Control Act and Regulations
- Parks Canada Policy
- Petroleum Refinery Liquid Effluent Regulations
- Phosphorus Concentration Control Regulations
- Pulp and Paper Effluent Regulations
- Weather Modification Information Act and Regulations
- Wildlife Area Regulations

## Overall Responsibilities

The primary objective of Environment Canada is to preserve and enhance the quality of the environment for the benefit of present and future generations of Canadians by:

- protecting human health and property from harmful substances and environmental changes, whether natural or man-made, and by protecting resource productivity through conservation and wise use of renewable resources, for sustained economic and social benefits;
- protecting the quality life, on the basis of the development of

society in harmony with its environment, permitting enjoyment of the environment and its resources; and

- safeguarding Canada's heritage (the primary objective of Parks Canada), through the protection for all time of those places which are significant examples of Canada's natural and cultural heritage, and encouraging public understanding, appreciation and enjoyment of this heritage in ways which leave it unimpaired for future generations.

The fulfillment of this commitment includes informing, influencing, protecting, regulating, monitoring, and practicing scientific research, resource management and conservation.

As environmental processes cross political boundaries, and as the same human activity can affect matters under both federal and provincial jurisdiction, the federal and provincial governments share responsibility for the environment and its resources.

The provinces have direct management responsibility for most environmental and resource matters within their borders. The federal government has responsibility for matters clearly within its jurisdiction (the territories, National Parks, oceans, some resources such as fisheries, flow of goods into and within Canada, and the impact of its own activities) and for matters which the provinces cannot readily or cost-effectively undertake separately (e.g. weather services, information collection, and research).

The Department also deals with international issues to protect Canada's environment and renewable resources and at the same time contributes meaningfully to the resolution of international problems such as world-wide contaminants, climatic change and long-range transport of air pollutants. The growth of public consciousness about the collective responsibility of the government and the public for the quality of the environment is actively fostered by the Department through greater communication and awareness of environmental problems and by the maintenance of an open, accessible information service.

A number of federal departments and agencies assist the Minister of Environment, as main advocate for responsible consideration of the environment in government planning, through:

Monitoring and scientific research — data collection, monitoring of developments, scientific research, analysis and interpretation of the state and processes of the environment are undertaken for air, water, oceans, land, forests and wildlife. This generates information of various types, including definition of environmental and health constraints.

Protecting and regulating — where federal authority exists (ocean dumping, federal facilities clean-up, northern resources), the Department works to minimize adverse impacts of toxic substances and pollutants on human health, environmental systems and renewable resources.

Resource management and conservation — directly, if within federal responsibility (migratory birds, parks, federal lands), or jointly with the provinces if jurisdiction is shared (boundary water, river basins and flood damage reduction), Environment Canada promotes conservation and sustained economic use.

Information and influence — information and technical services of various types (meteorological and ice services, water information, land use data and pollution abatement technology) are provided to a wide variety of users to influence the environmental protection and resource management decisions of others (the private sector, provinces and other countries) to provide maximum continued benefit to all Canadians, and encourage responsible environmental behaviour by the federal government and other jurisdictions.

## DEPARTMENT OF THE ENVIRONMENT

---

### Major Publications

A general departmental publications list and a scientific and technical departmental publications list are prepared by the departmental Information Directorate. Other lists of general, scientific and technical publications are produced by the services and directorates listed below:

- Environmental Conservation Service
- Inland Waters Directorate
- Lands Directorate
- Canadian Wildlife Service
- Environmental Protection Service
- Air Pollution Control Directorate
- Environmental Impact Control Directorate
- Water Pollution Control Directorate
- Parks Canada (included in the general publications list of Environment Canada)
- Atmospheric Environment Service
- Federal Environmental Assessment Review Office
- Office of the Science Advisor
- Canadian Environmental Advisory Council

### EDP Systems

- Climatological Data Archive, AES
- World Ozone Data, AES
- National Water Quality Data (NAQUADAT), ECS
- Water Resources Document References (WATDOC), ECS
- Great Lakes Limnological Data, ECS
- Automated Hydrometric Data, ECS
- Sediment Survey Data, ECS
- Glaciology Data, ECS
- Canada Geographic Information System, ECS
- Migratory Game Bird Data, ECS
- Water Effluent National Inventory System (WATENTS), EPS
- National Air Pollution Surveillance (NAPS), EPS
- National Air Emissions Inventory (NEIS), EPS
- National Environmental Emergency Locator System (NEELS), EPS
- National Analysis of Trends in Environmental Spills (NATES), EPS
- Canadian Chemicals in Commerce (CCC), EPS
- Forest Insect and Disease Survey (FIDS), CPF
- Canadian Inventory of Historic Buildings (CIHB), PC

## Parks Canada Program Management Directorate

The activities of this directorate include the overall management of program planning and evaluation functions in Parks Canada; the preparation of multiyear forecasts and estimates; and the

## DEPARTMENT OF THE ENVIRONMENT

---

development and implementation of policies, programs and standards related to general administration, information services, liaison and co-operation at the national and international level; management consultation; reviews and audits; socio-economic research; and townscape management. They also include realty policy and engineering and architectural activities. The information can be found in the offices of headquarters, the regions and the park offices themselves.

### Manuals

- Parks Canada Policy
- Heritage Canals Regulations
- Historic Sites and Monuments Act
- National Battlefields of Québec
- National Historic Parks General Regulations
- National Historic Parks Wildlife and Domestic Animals Regulations
- National Parks Regulations
- National Parks Act
- Parks Canada Administrative and Management Directives (Volumes 1-6)

### Realty Services Branch

This branch provides direction and guidance on the management of real property administered by Parks Canada, and involves leases, licences, agreements, rentals, acquisitions, disposals and titles.

### Socio-Economic Branch

This branch provides socio-economic advice and related research to the Parks Canada program; maintains a socio-economic research data accumulation and data analysis capacity; and develops socio-economic research methods to meet recurring parks Canada program needs and to maintain a socio-economic information program.

### Engineering and Architecture Branch

This branch establishes technical policies, standards and guidelines for engineering and architectural services and provides direction and support to the Parks Canada program in engineering, building and landscape architecture, and historic restoration; including planning, design, construction, operation and maintenance of Parks Canada real property facilities and capital assets.

### Manuals

- Technical standards, guidelines and procedural manuals describing methods, material and required skills to design, construct, maintain, repair and restore Parks Canada contemporary and historical physical assets.
- Guidelines on resources planning, the organization and management of engineering and architecture functions and other technical activities and systems.

### National Parks Branch

The activities of this branch include the development and operation of a system of national parks which will protect significant natural areas for all time; the development of a system of natural landmarks; the development of co-operative heritage areas through federal-provincial agreements; participation in the Canadian Heritage Rivers System; the long term development of Canadian Heritage Trail System in co-operation with the provinces/territories. The branch is also responsible for the development and implementation of policies, procedures and legislation for planning and managing these systems to enable their use and enjoyment by the public.

### Manuals

- The National Parks Act
- National Parks Regulations
- Parks Canada Administrative and Management Directives (Volumes 1-6)
- Parks Canada Policy

### National Historic Parks and Sites Branch

This branch of Parks Canada is concerned with the preservation, development, maintenance, operation and interpretation of National Historic Parks and Sites, and Heritage Canals. The parks and sites commemorate persons, places and events which have been declared to be of national historical or architectural significance by the Minister, acting on the advice of the Historic Sites and Monuments Board of Canada. The activities of the branch include archaeological, historical and architectural research; interpretation through live animation, exhibits, films and slide programs; conservation of artifacts and curatorial services on period furniture, costumes and apparel.

### National Battlefields Commission

The National Battlefields Commission was established by *An Act Respecting the National Battlefields at Québec* S.C. 1908, CL. 57, as amended. The Commission, a Crown Corporation, is designated as an agency corporation (Schedule C), within the meaning and purpose of the *Financial Administration Act*. The Commission is responsible for the preservation, management and operations of the National Battlefields at Québec and is funded through the annual appropriations of the Department of the Environment and is responsible to Parliament through the Minister of the Department.

### Manuals

- Heritage Canals Regulations
- Historic Sites and Monuments Act
- National Historic Parks General Regulations
- National Historic Park Wildlife and Domestic Animals Regulations

## ENVIRONMENTAL CONSERVATION SERVICE

### Policy and Program Development Directorate

The directorate integrates the many programs of the Environmental Conservation Service (ECS) into a cohesive operation; develop and implements national environmental conservation policies and strategies; evaluates and controls the effectiveness and efficiency of ECS programs; and develops, implements and co-ordinates integrated Department-wide programs.

### Manuals

- Canada Wildlife Act
- Migratory Birds — Bird Banding Manual
- Canada Migratory Birds Convention Act and Regulations
- Migratory Bird Sanctuary Regulations
- Guidelines for Wildlife Policy in Canada
- Wildlife Area Regulations
- CITES Reports
- Transactions of Federal-Provincial Wildlife Conferences
- Scientific and Technical Publications Report Series
- Occasional Papers Series
- Progress Notes Series
- Monograph Series

## DEPARTMENT OF THE ENVIRONMENT

---

- Wildlife Habitat — A Handbook for Canada's Prairies and Parklands
- Canadian Wildlife Service Sign Manual

### Canadian Wildlife Service

Under the *Migratory Birds Convention Act* and Regulations, the *Canadian Wildlife Act* and Regulations and the *Game Export Act*, the Canadian Wildlife Service has responsibility for the management and protection of migratory birds in co-operation with the Fish and Wildlife Service, United States Department of the Interior, and with other foreign governments.

#### Migratory Birds

This branch is responsible for the protection and management of migratory birds through development of regulations, habitat management and supporting research and surveys; direction of nation-wide surveys of migratory birds for regulatory and other management purposes; development of a national waterfowl management plan.

#### Wildlife Research and Interpretation Branch

This branch is responsible for the protection and management of wildlife. In co-operation with the provinces and territories, the service undertakes programs of research, management and interpretation on wildlife where there is a national interest. It carries out wildlife research for the national parks, advises other federal agencies on wildlife matters, and participates for Canada in international agreements and programs on wildlife conservation.

#### Lands Directorate

This directorate encourages effective land-use planning by both provincial and federal governments through land inventory and land-use planning studies.

#### Inland Waters Directorate

The directorate plans and formulates water management programs and policies, especially in international and interprovincial water systems. It conducts research and data collection programs on the quantity and quality of Canada's inland waters. Inland Waters Directorate also carries out river basin planning and implementation and flood damage reduction programs with the provinces under the provisions of the *Canada Water Act*. The research programs of the National Water Research Institute and the National Hydrology Research Institute contribute to effective management of water quality and quantity throughout the country and in boundary waters with the United States such as the Great Lakes. The National Water Research Institute is the official collaborating centre on surface and ground water quality for the World Health Organization.

### ENVIRONMENTAL PROTECTION SERVICE

#### Environmental Protection Program Directorate

The main activity of this directorate includes the development and management of strategies to minimize the adverse impact of man's activities on environmental quality at the national level and to support the regions in their endeavours.

#### Environmental Strategies Directorate

The main activities of this directorate include advice and recommendations to senior management on objectives, setting

priorities, establishing policy and developing frameworks to meet objectives and to evaluate the effectiveness of program activities; to formulate strategies to influence other government departments, central agencies, other governments and the public, and to monitor their effectiveness.

#### Priority Issues Directorate

The main activity of this directorate includes the management of assigned special programs or issues of high complexity and political significance which have a major impact on environmental quality.

### ATMOSPHERIC ENVIRONMENT SERVICE

#### Atmospheric Research Directorate

The directorate is responsible for the management and conduct of atmospheric and other related environmental research and development for the benefit of the Canadian people and the national and international scientific communities.

#### Air Quality and Inter-Environmental Research Branch

The branch is responsible for the provision of an efficient and effective federal program in air quality and technology transfer to serve the international, national and regional interests of the Canadian people.

#### Atmospheric Processes Research Branch

The main activities of this branch includes research in the following areas: monitoring of the stratospheric ozone layer, depletion of the stratospheric ozone layer, solar radiation instrumentation; cloud and precipitation processes, precipitation scavenging of pollutants, weather modification and weather radar. Additional activities include administration of the *U.S.-Canada Weather Modification Information Act*.

#### Meteorological Services Research Branch

This branch carries out research on weather, ice and sea-state observing and forecasting systems to ensure full and efficient utilization of technological and scientific advances. Research is also conducted on meteorological and ice problems related to surface transportation, aeronautics, wind energy, building construction and the utilization of satellite data. The satellite data laboratory develops and operates techniques for the reception and use of atmospheric, weather, ice and other related data transmitted by earth-orbiting and geo-stationary satellites.

#### Field Meteorological Systems Branch

The main activities of the branch include the co-ordination, national implementation and on-going development of the following four main activities or systems within Field Services: data acquisition, meteorological communications, forecasting, and the provision of weather services. These activities are integrated towards a single purpose of providing timely observed data, weather warnings, forecasts and advice to users.

#### Manuals

- Teletype Procedures (TELPRO);
- Teletype Distribution (TELDIS, VOL. I and II);
- Facsimile Operations (FAXOPS)
- CMC Reference Manuals
- Manual of Standard Procedures for Public and Marine Weather Service (MANPUB);

## DEPARTMENT OF THE ENVIRONMENT

---

- Manual of Standard Procedures for Aviation Weather Services (MANAIR);
- Manual of Aviation Weather Information Services (MAWIS)
- Manual of Surface Weather Observations (MANOBS);
- Supplementary Aviation Weather Observations;
- Manual of Inspection;
- Scale of Issue Manual (METSCALE);
- General Operations Reference Manual (GORM);
- Meteorological Stations in Canada (METSTAT);
- Manual of Upper Air Observations (MANUPP);
- Manual of Freeze-up and Break-up of Water Bodies;
- Manual of Marine Weather Observing
- Auxiliary Ship Operating on Great Lakes and St. Lawrence Rivers;
- Transmission of Ships' Weather Reports to Coastal Radio Station;
- Meteorological Radio Facsimile Broadcasts for Mariners;
- Radar Handbook;
- Background Air Pollution Monitoring

### Canadian Meteorological Centre

The centre is responsible for forecast operations, computer operations and operation development.

### Canadian Climate Centre

The centre provides a leading role in integrating all climate-related activities in Canada. Research is conducted into climate prediction, man's impact on climate and cause and effect relationships between the climate system, society and the environment. The centre provides climate data, information, applications services and consultations to federal departments and national organizations, and supports regional offices in serving regional and provincial needs. The centre is also responsible for the documentation, quality control and archiving of all official Canadian climate data.

### Central Services Directorate

This directorate is responsible for providing ice information, and consultation and advice on its use. It also provides computing services, technical and professional training, long-range planning and network maintenance for data acquisition networks, and expertise for the development and implementation of atmospheric instruments and systems.

### Classes of Records

---

DOE/PKS-005 *Formerly Identified as:* EC-10

#### Parks Canada Program

*Description:* Information on the general management and operational responsibilities of the Parks Canada Program. *Topics:* Policy and program activities; information exchange with foreign countries; hours of operation; levels of service; awards and honours; co-operative activities with public and private organizations; capital development projects and planning systems; operational planning; management improvement; central system program evaluation; public consultation and participation; general resources — inventories, management and research; park signs; general surveys and studies.

DOE/PKS-010 *Formerly Identified as:* EC-20

#### Realty

*Description:* Information on the management of real property including National Parks, National Historic Parks and Sites, Heritage Canals and Corridors, Admiralty, Dominion and Ordinance lands. Involves the acquisition of land by the Crown, the leasing,

licensing and granting of concessions on Crown-owned land, the sale or disposal of Crown-owned land, and other related land matters. *Topics:* General agreements; agreements for bridges and causeways; road, walks and highways, wharves and docks; boundary lines and encroachments; freehold lands; lettings and concessions; franchises; lease of land; licences of occupation; use of electric power, water power, surplus water; land acquisition; sale and disposition of land; utilities — land use, rental setting. *Storage Media:* EDP and microfiche. *Retrievability:* The general realty records are arranged by subject. Individual leases, licences of occupation and concessions are arranged by location, the number of the lot and block and by the name of the individual.

DOE/PKS-015 *Formerly Identified as:* EC-30

#### Socio-Economic Projects

*Description:* Information on socio-economic surveys and studies carried out by Parks Canada in support of the planning, development and operation of National Parks, National Historic Parks and Sites and Heritage Canals. *Topics:* Research review process, information enquiries from internal and external sources research projects, surveys and studies, historical data. *Storage Medium:* EDP Systems. *Special Access Note:* These records are located at Parks Canada headquarters and regional offices. Final reports available to the public through departmental libraries and specialized document collections located at headquarters and regional offices.

DOE/PKS-020 *Formerly Identified as:* EC-40

#### Public Use Database

*Description:* Information on the collection of attendance data for National Parks and National Historic Parks and Sites; collection of information on interpretation, camping and gateways at National Parks; vessel movement data on the Heritage Canals. *Topics:* Attendance data for National Parks and National Historic Parks and Sites; interpretive facility and services data collection; campgrounds utilization, volume of vehicular traffic at National Park gateways; vessel movement data on the Heritage Canals. *Storage Medium:* EDP Systems. *Retrievability:* These records are located at Parks Canada headquarters, regional offices and park offices. A Parks Canada Use Statistics report is issued annually and distributed widely (300 copies) to government agencies, universities and libraries. Monthly attendance reports (200 copies) are also distributed widely in a similar manner.

DOE/PKS-025 *Formerly Identified as:* EC-50

#### Socio-economic Information

*Description:* Information on the socio-economic aspects of park use, outdoor recreation, tourism, management and program evaluation. *Topics:* Research methodology, examples of research projects, socio-economic impact studies, bibliography on relevant topics, visitor use studies, resource management, recreation, tourism. *Storage Media:* Microfiche and film.

DOE/PKS-030 *Formerly Identified as:* EC-60

#### Historical and Contemporary Technical References

*Description:* Plans, drawings, specifications, standards, guidelines and report on historical and contemporary engineering and architectural projects in Parks Canada. Also historical records and training material on historical preservation. *Topics:* Plans, drawings, specifications (contract, construction and manufacturing), standards and guidelines, "as-found" information, archaeological reports, feasibility studies, recording field notes, general information and training packages. *Storage Medium:* EDP and microforms.

DOE/PKS-035 *Formerly Identified as:* EC-70

#### Projects

*Description:* Information on engineering and architectural projects carried out in the Parks Canada Program, including the project authorization form, project brief, design data, cost estimates, management reports and project schedules. (See also DOE/PKS-005,

## DEPARTMENT OF THE ENVIRONMENT

Parks Canada Program). *Topics:* Planning, design, construction, operation, maintenance, equipment, services, utilities, facilities, claims and evaluation.

DOE/PKS-040 *Formerly Identified as:* EC-90

### Environmental Protection

*Description:* Information on environmental protection in the National Parks, including pollution of air, land and water, as well as regulations, studies and reports compiled on environmental protection. *Topics:* General correspondence and reports on environmental protection, pollution and pollutants, regulations, reports and returns, surveys and studies, water supplies and wildlife.

DOE/PKS-045 *Formerly Identified as:* EC-100

### Flora

*Description:* Information on botany, ecology and forestry management in the National Parks. *Topics:* General correspondence and reports; forest fires, regulations, silviculture, pest control, statistics, surveys and studies; timber cutting.

DOE/PKS-050 *Formerly Identified as:* EC-110

### Health and Social Services

*Description:* Information on the various health and social services provided to people in a park. *Topics:* Health services for park visitors; ambulance, hospital and nursing stations; health and welfare services for Park residents by the provincial governments.

DOE/PKS-055 *Formerly Identified as:* EC-120

### Justice and Law Enforcement

*Description:* Information on justice and law enforcement in the National Parks, and the National Historic Parks and Sites. *Topics:* Justice and law enforcement, crimes and violations, judicature, police services, reports and returns, statistics, surveys and studies.

DOE/PKS-060 *Formerly Identified as:* EC-130

### Marine National Parks

*Description:* Information on marine environments (both salt and fresh water) which merit protection because of their natural phenomena. *Topics:* General development and planning, surveys and studies.

DOE/PKS-065 *Formerly Identified as:* EC-140

### Mineral Resources

*Description:* Information on mining, oil and gas activities at or near Parks Canada facilities. *Topics:* Mineral exploration and development, mineral claims, quarrying and various mining activities, oil and gas exploration and development, leases and permits.

DOE/PKS-070 *Formerly Identified as:* EC-150

### National Landmarks

*Description:* Information on potential National Landmarks which merit protection of specific natural phenomena without requiring large land holdings in order to preserve and interpret them. *Topics:* Development and planning, surveys and studies.

DOE/PKS-075 *Formerly Identified as:* EC-160

### National Parks

*Description:* Administration, management and control of National Parks. *Topics:* Archaeology and artifacts, camp sites, cemeteries, development and planning, management plans, interpretive planning, townsite planning, regional planning, ski areas, day use areas, interpretive services, nature trails, signs, talks and tours, special events, extension services, interpretive centres, permits to collect specimens, public participation, research, sports, statistics, surveys and studies, tourists and tourism — accommodation, bath houses, hot springs, catering and restaurants, souvenirs and handicrafts.

DOE/PKS-080 *Formerly Identified as:* EC-170

### Water Resources

*Description:* Information on the use of water resources in the Parks. *Topics:* Water levels; water rights; hydrological surveys; hydro power development within a park for park use only; hydrometric networks; regulations; reports; surveys and studies.

DOE/PKS-085 *Formerly Identified as:* EC-180

### Wildlife

*Description:* Information on all types of wildlife in the National Parks and National Historic Parks, including the management and protection of wild animals, birds, fish and insects. *Topics:* Diseases; rare and endangered species; census; licences and permits; hunting; regulations; surveys and studies; trapping; immobilization drugs; live capture; gifts of animals; preserves; furs and hides; fish culture; hatcheries and stocking; sport and commercial fishing in National Parks; insects and their control; use of insecticides.

DOE/PKS-090 *Formerly Identified as:* EC-190

### National Historic Parks and Sites

*Description:* Information on the preservation, development, management, interpretation, operation and maintenance of the National Historic Parks and Sites of Canada. *Topics:* Monuments and plaques; Canadian Engineering Heritage Records; proposed parks and sites; public participation; permits; heritage conservation and building programs; other heritage agencies; historic resources in other countries; seasonal closing; archaeology and artifacts; identification, inventory and recording of historic buildings; cemeteries; development and planning, including management plans; interpretation planning; programs for the acquisition, development and control of lands and facilities within national historic parks and sites; interpretive services — exhibits, interpretive routes, costumes, period ordinance and furnishings, personal interpretive contracts, theatres, guided tours, extension programs, special events and interpretation centres; documentary, archaeological and architectural research; restoration; statistics, surveys and studies; tourist activities and tourism, souvenirs and handicrafts.

DOE/PKS-095 *Formerly Identified as:* EC-1180

### National Battlefields Commission

*Description:* Responsible for the preservation, management and operation of the National Battlefields Park, Québec. *Topics:* Administration, policy, planning studies and reports.

DOE/ECS-100 *Formerly Identified as:* EC-200

### Program Activity Structures and Objectives

*Description:* Information on systems for strategic and operational planning and program evaluation, management practices and controls, performance measurement, priority settings, resource based economic strategy and perspective, socio-economic and scientific development studies, implementation of integrated programs. *Topics:* Program activity structures and objectives, surveys and studies, Improvements in Management Practices and Controls (IMPAC), toxic substances, Co-operative Projects with Industry (COPI), Pilot Industry Laboratory Program, Shore Zone Program, Biomass.

DOE/ECS-105 *Formerly Identified as:* EC-210

### Biometrics

*Description:* Information on the biometrics of migratory birds. *Topics:* Migratory birds hunting permits; waterfowl surveys; data processing.

DOE/ECS-110 *Formerly Identified as:* EC-220

### Enforcement

*Description:* Information on the enforcement of *Migratory Bird Convention Act*, *Migratory Bird Regulation*, *Migratory Bird Treaty*. *Topics:* General correspondence; authority to purchase migratory birds; authority to issue permits; payments of fines; *Migratory Birds Conviction List*, report convention; legal fee; appointment of game

## DEPARTMENT OF THE ENVIRONMENT

officer; appointment of agents; protocol with U.S.A.; enquiries and questions; Indians and Eskimos; treaties — Canada-France, Canada-Mexico, Canada-U.S.A., U.S.A.-Japan, U.S.A.-Mexico, U.S.A.-U.S.S.R.

DOE/ECS-115 *Formerly Identified as:* EC-230

### **Native People**

*Description:* Information on correspondence on native harvest surveys and native land claims. *Topics:* Hunting and fishing rights, treaties, acts and regulations, Council of Yukon Indian, Inuit Tapirisat of Canada, Northern Québec Cree, Inuit, Naskaps, Western Arctic Inuit-Cape. *Retrievability:* Files are arranged by name of individual.

DOE/ECS-120 *Formerly Identified as:* EC-240

### **Ornithology**

*Description:* Information on all aspects of wildfowl. *Topics:* Bird banding programs; reports, studies and surveys; sanctuaries; migratory bird sanctuaries regulations; permits for bird sanctuaries; delegation; agreements; leases; damage to crop by bird; agreements with provincial governments on compensation for crop damage; diseases and parasites; effects of sprays; predation; use of drugs; lead poisoning repellents; ornithology permits; taxidermist licences; propagation and agriculture; research on species; use of birds; commercial shooting of birds; plumage of birds; public shooting grounds; waterfowl kill statistics; waterfowl populations; breeding ground survey; breeding bird survey; brood production survey; waterfowl status reports. *Retrievability:* Files are arranged by name and geographic locations.

DOE/ECS-125 *Formerly Identified as:* EC-250

### **Interpretation**

*Description:* Information on interpretive programs to promote public awareness, and appreciation of Canada's wildlife and natural environment through personal experience. The interpretive programs offer people the opportunity to see, smell, taste, touch and hear their environment in a firsthand way. *Topics:* Interpretation Centres — Midland (Ontario), Percé, Cap Tourmente (Québec), Swift Current (Saskatchewan), and Creston (British Columbia). General correspondence; national plans; evaluation of interpretation centres; research; marketing and publicity; special projects. Program cancelled in 1984.

DOE/ECS-130 *Formerly Identified as:* EC-260

### **Mammalogy**

*Description:* Research and general information on selected species of mammals. *Topics:* Mammals hides; fur-bearing animals; trapping; wolf bounties; diseases and parasites; rare and endangered species; locations where species are found.

DOE/ECS-135 *Formerly Identified as:* EC-270

### **National Wildlife Areas**

*Description:* General correspondence on policies and regulations as they affect provinces and specific geographical location. *Topics:* Agreements; policy; regulations; rentals; leases.

DOE/ECS-140 *Formerly Identified as:* EC-280

### **Parks**

*Description:* General information on National Parks and the preservation of their wildlife. *Topics:* General correspondence; proposed parks; slaughter of animals; national park authority; investigation in the national parks; fish culture; liaison with U.S. National Parks on wildlife management. Program cancelled in 1984.

DOE/ECS-145 *Formerly Identified as:* EC-290

### **Wildlife Toxicology**

*Description:* Information on toxic substances and their effects on birds and mammals; also related research and studies. *Topics:* Advice to outside agencies on chemicals and pesticides; National Registry of Pesticide Residues; registration of agricultural chemicals; toxic

chemical management program; toxic substances program; analytical data quality program; chemical analytical services; forest spray operations; heavy metal; Organization for Economic Co-operation and Development (OECD); wildlife sampling program; study of fish-eating birds. *Special Access Note:* LRTAP — Toxic Substances. *Retrievability:* By subject.

DOE/ECS-150 *Formerly Identified as:* EC-300

### **Wildlife Management**

*Description:* Information on the federal participation and responsibilities in the management of wildlife. *Topics:* Hunting performance program; distant early warning line; bird hazard to aircraft; problems at airports; restricted material on birds and aircraft; correspondence from Air Canada; bird strike bulletins; bird strike field notes; bird strike reports; reports on visits to airports; RCMP reports; application for species; Eastern Arctic-Scientific Research; scientific collection of specimens; transplants; Kluane Sanctuary Yukon; Mackenzie Mountain Sanctuary N.W.T.; Thelon Sanctuary N.W.T.; Canadian National Zoological Garden; National Zoo.

DOE/ECS-155 *Formerly Identified as:* EC-310

### **Policy Development and Advice**

*Description:* Information on the development and assessment of federal land-use objectives, policies and guidelines; the co-ordination of interdepartmental and intergovernmental activity on land policy and program matters; the analysis of land-use policy instruments with recommendations on their effectiveness in addressing land-use issues of national significance; the identification and assessment of the impact of federal programs on the use and management of Canada's land resources, and the recommendation of mitigating measures to offset any adverse effects; the provision of advice and policy positions on land quality, land-use and other land-related environmental issues raised in native land claim negotiations, and the co-ordination of the Department's relations with the Office of Native Land Claims, Indian and Northern Affairs Canada; the provision of advice and assistance in developing or assessing policies in which land resources and environmental matters are important considerations; the representation of Environment Canada on the TBAC/FLM and the co-ordination of the discharge of the Department's responsibilities under the Federal Land Management Policy; the assistance of representing Canada's land resource interest in bilateral relations with other countries, and international organizations; and to assist in foreign aid, technical exchange and advisory programs. *Topics:* General correspondence; integrated planning and management; public awareness; Lands Directorate Canada Land-Use; policy research & co-ordination; Lands Directorate Québec-projects; Lands Directorate Northwest Territories-Yukon and Arctic land-use planning.

DOE/ECS-160 *Formerly Identified as:* EC-320

### **Land-Use Monitoring and Ecological Research**

*Description:* Information on production of nationally consistent spatial data on the ecological characteristics and resource potentials of land; dissemination of scientific knowledge, methods and techniques for surveying and classifying land by ecological characteristics, for assessing resource potentials, impacts and hazards and for increasing knowledge of land soil processes of concern in environmental management; the production of nationally consistent spatial data on national and regional land-use patterns and trends for creating national and regional perspectives on the use of Canada's lands. *Topics:* General correspondence, integrated planning and management, public awareness, Lands Directorate Canada Land-use planning, Lands Directorate inter-regional projects, Lands Directorate Manitoba-projects, Lands Directorate Northwest Territory, Yukon and Arctic land-use, mapping, land-use information map series, Lands Directorate Northwest Territories, Yukon and Arctic region-projects.

## DEPARTMENT OF THE ENVIRONMENT

DOE/ECS-165 *Formerly Identified as:* EC-330

### Land-Use Research

*Description:* Information on the advancement of public understanding of land-use in Canada, the determinants of land-use, and the environmental, economic and social implications of national and regional land-use issues and problems; the development, assessment, improvement and recommendation of methods and techniques for environmentally sound land-use planning and practices by providing technical assistance to federal and provincial departments and agencies on land-use planning matters; providing financial contributions to provinces for land-use planning; the provision of land research, planning and management services, and advice to federal departments and agencies responsible for administering federal lands located in the provinces or specially dedicated lands located in the territories. *Topics:* General correspondence, integrated planning and management, resource management data, public awareness, Lands Directorate International-general, policy research and co-ordination-general land-use planning.

DOE/ECS-170 *Formerly Identified as:* EC-340

### Land Data Systems and Services

*Description:* Information on the development, maintenance and operation of a computerized national land data bank capable of storing, processing and retrieving geographic-specific bio-physical and socio-economic data on, or related to land, land capability, land-use and resource management issues of national or regional significance; the development, assessment, improvement and recommendation of computerized technologies designed to enhance the effectiveness, efficiency and greater use of spatial information systems in land-use planning and management; the provision of data on processing and advisory services in support of the production of land statistics and the solution of land related planning and management problems; and to the provision of training services on the use of the Canada Land Data Systems for existing and potential clients. *Topics:* Canada land inventory, Canada land data system — projects. *Storage Medium:* EDP systems, maps.

DOE/ECS-175 *Formerly Identified as:* EC-350

### Canada-U.S. and Interprovincial Waters

*Description:* Information on all activities carried out under specific Canada-U.S. agreements or arrangements such as investigative, control, or surveillance board activities for the International Joint Commission (IJC) or in other bilateral Canada-U.S. situations; studies and implementation in interprovincial waters under formal federal-provincial arrangements; and bilateral Canada-U.S. activities on shared basins. Policy development, data collections and research carried out as a part of any of these formal arrangements are included as well as specific federal-provincial agreements required to carry out Canada's obligations in boundary waters (the Canada-Ontario Agreement on Great Lakes Water Quality) and interprovincial arrangements not part of River Basin Planning (Prairie Provinces Water Board). *Topics:* International Columbia River Board of Control, Great Lakes connecting channels, Great Lakes programs, International Great Lakes Levels Board, Great Lakes studies, International and Interprovincial Waters, Lake of the Woods, Lac Seul Agreement, Winnipeg River, St. Lawrence River Board of Control. *Retrievability:* Files are arranged by subject and name.

DOE/ECS-180 *Formerly Identified as:* EC-360

### Flood Damage Reduction

*Description:* Information on all activities under federal-provincial flood damage reduction agreements, including flood risk mapping, construction of physical flood control works, and flood forecasting. It also includes any policy development, data collection (hydrometric and other data collection programs and research for many water management purposes) carried out as an integral part of these agreements, or in support of anticipated new agreements, and guidelines or methodology development and information programs directly in support of the program. *Topics:* Conservation and floods,

flood damage reduction. *Retrievability:* Files are arranged by subject, geographic location and name.

DOE/ECS-185 *Formerly Identified as:* EC-370

### Water Quality Management

*Description:* Information on the establishment of water quality objectives and working with EPS on the setting of effluent requirements in specific areas. It does not include water quality objective work done under specific international or federal-provincial basin studies, nor does it include research related to water quality management. *Topics:* Water pollution, air pollution, water quality survey, analytical methods, corrosion, industrial water uses, water quality-I.H.D., surface water, municipal water systems, federal government installations, mineral waters, waste water treatment, water quality monitoring programs. *Retrievability:* Files are arranged by subject, geographic locations and name. *Storage Medium:* Magnetic tapes.

DOE/ECS-190 *Formerly Identified as:* EC-380

### River Basin Planning

*Description:* Information on river basin planning activities carried out under specific federal-provincial agreements or other arrangements, including both studies with specific focus such as the St. Lawrence River water quality study, and more comprehensive studies such as the Souris River basin study. Policy development, data collection and research conducted as a part of any of these formal arrangements are included. In some instances, some preplanning, guideline development and socio-economic analysis may be done. This may include participation of all ECS elements, as appropriate. *Topics:* Hydrometric network planning; hydrometric investigations; international and interprovincial waters; St. Lawrence River; Atlantic Tidal Power Programming Board; Bay of Fundy Tidal Power Review Board; special projects. *Retrievability:* By subject, by geographic location and project name.

DOE/ECS-195 *Formerly Identified as:* EC-390

### River Basin Plan Implementation

*Description:* Information on activities under formal federal-provincial river basin plan implementation agreements. It includes flood control work done as part of a comprehensive implementation program such as the Qu'Appelle, but does not include separate flood control work such as Fraser Dyking. *Topics:* Water diversions; policy development, data collection and research carried out as a part of formal implementation arrangements are included, as are activities such as the development of national guidelines in support of the program. *Retrievability:* By subject, by geographic location and project name.

DOE/ECS-200 *Formerly Identified as:* EC-400

### Water Management Data

*Description:* Information on data collection, including water quality, hydrometric, sediment and socio-economic information, as well as the management and operation of data systems and interpretive reports. Non-numeric information systems such as WATDOC and D-REF are also included. Excluded are reports prepared primarily for public consumption such as the *Canada Water Year Book*, which are covered under the Information Services category (i.e. Public Information). (These data exclude data collection under specific international or federal-provincial water management or planning studies, data collection carried out as an integral fact of research, and that portion of the water quality data collection activity included under the toxic chemicals category (about one-third nationally).) *Topics:* Gauging stations, international gauging stations, gauging stations inventory, hydrometric investigations, sediment survey, remote sensing, watershed research, tidal gauge records, tidal surveys. *Retrievability:* Files are arranged by subject, geographic location, name and river stations. *Storage Media:* Computer printouts, magnetic tapes, microfiche.

## DEPARTMENT OF THE ENVIRONMENT

---

DOE/ECS-205 *Formerly Identified as:* EC-410

### **Water Management Research**

*Description:* Information on water resource research, including the study of the impact of nutrients on the environment, sediment composition, water quality modelling, groundwater quality and sub-surface disposal of wastes, pathways and fate of pollutants, dispersion and energy transfer processes in lakes and rivers, urban runoff processes, ice dynamics, hydrological forecasting, groundwater movement, snow and ice hydrology, glacier dynamics, sociological, geographical, legal, institutional and economic aspects of water management. Also included is research management, co-ordination, and research contracts and subventions. (This information excludes research done under international, interprovincial, or river basin planning, implementation or flood damage reduction agreements. Also excluded is research on the impact of toxic contaminants on the water environment.) *Topics:* Glaciology; glaciological programs; hydrological studies; glaciological studies; glacier surveys; ice science; iceberg surveys; groundwater investigations and supply; groundwater programs; water pollution; water use; water quality research; snow surveys. *Retrievability:* Files are arranged by name and map reference (NT5). *Storage Media:* Microfiche, magnetic tapes, computer printouts, punchcards.

COE/ECS-210 *Formerly Identified as:* EC-420

### **Water Resources Use**

*Description:* Information on various government and private developments impinging on the wise use of Canada's water resources; the potential benefits of sound water management and development policies; participation in the work of international water management organizations; assistance to less developed nations in water resource management. *Topics:* Water and power administration, power development, electrical power statistics, exportation of electrical energy, inventory of water resources, long distance power transmission, power failures, water and power resources, atomic energy, water resources economies, seismology, export of water, water management. *Retrievability:* Files are arranged by subject, geographic location and name.

DOE/EPS-215 *Formerly Identified as:* EC-430

### **Mobile Sources**

*Description:* Information on air quality and emission data; test methods and procedures; test results; studies and surveys; standards and regulations. *Topics:* Abatement programs; engineering and evaluation; fugitive emissions; fleet programs; mobile source compliance; special studies. *Retrievability:* Files are arranged by subject, company, and product.

DOE/EPS-220 *Formerly Identified as:* EC-440

### **Chemical Process Sources**

*Description:* Information on chemical process industries; producers; emissions; industrial studies questionnaires and guidelines development. *Topics:* Chemical products; agricultural and food industry process analysis; agricultural operations and processes; food processes; agricultural and food products manufacturing; pulp, paper and wood products; forest products operations; pulp and paper processes; textiles and related manufacturers; woods and allied products manufacturing; petroleum, petrochemical, polymers and plastics; surface coating industry. *Retrievability:* Files are arranged by name of individual, company and product.

DOE/EPS-225 *Formerly Identified as:* EC-450

### **Mining, Mineral and Metallurgical Industries**

*Description:* Information on mining operations and processes relative to atmospheric pollution; mining mineral and metallurgical industrial studies and questionnaires. *Topics:* Mining operations and processes; mineral products processing; primary metallurgical industries; secondary metallurgical industries. *Retrievability:* Files are arranged by subject, products and plant types.

DOE/EPS-230 *Formerly Identified as:* EC-460

### **Fuels**

*Description:* Information on fuel studies. *Topics:* Fuel producers; types; composition; resources marketing and processing; pollution investigations; pollution control equipment, and regulations and guidelines development, synthetic fuels, gasoline; natural gas; coal; petroleum producers; petroleum marketing; energy conservation; sulphur and by-products; fuels and fuel additives composition; fuel additives inventory; pollution control costs; fossil fuel resources; effects to health and environment. *Retrievability:* Files are arranged by name of individual, company, product.

DOE/EPS-235 *Formerly Identified as:* EC-470

### **Combustion Sources**

*Description:* Studies and surveys; questionnaires; analytical reports; also information on emissions and emission controls; investigations; abatement systems; guidelines; air quality measurement instruments. *Topics:* Interdepartmental programs; thermal power-fuel; thermal power-fuel processing and storage; combustion systems; internal combustion engine; emission calculation and analysis; emission data; air quality surveillance; air quality criteria; incinerators; incinerator investigations, studies and surveys; incinerators inventory; heating system; fuels; equipment and controls; heating systems inventory; research and development; special studies and projects; heating systems-federal activities.

DOE/EPS-240 *Formerly Identified as:* EC-480

### **Data Analysis**

*Description:* Information on air pollutants; emissions source categories; industrial questionnaires; studies and surveys and air pollution costs. *Topics:* Emission inventory; air pollutants, source categories; effects of regulations; socio-economic impact studies and surveys-industrial; geographical; economy impact studies and surveys-pollutants; analytical concepts and methodology-statistical, economic.

DOE/EPS-245 *Formerly Identified as:* EC-490

### **Program Co-ordinator**

*Description:* Information on regulations development; monitoring of agreed implementation schedules, program evaluation and acid rain control strategies. *Topics:* Acts and legislation; regulations enforcement; federal/provincial programs; international activities; international organizations; intradepartmental activities; interdepartmental activities long range transport of air pollutants.

DOE/EPS-250 *Formerly Identified as:* EC-500

### **Surveillance**

*Description:* Information on national air pollution surveillance monitoring equipment; monthly and annual summary reports; source testing methods. *Topics:* National air pollution surveillance; operations and maintenance; equipment testing and evaluation; source testing procedures; studies, surveys and investigations; specific pollutants. *Retrievability:* Files are arranged by subject, location and specific pollutants.

DOE/EPS-255 *Formerly Identified as:* EC-510

### **Technology Development**

*Description:* Information on development and demonstration of pollution abatement technology (DPAT); instruction in air pollution control; pollution analysis and instrument testing. *Topics:* Development and demonstration of pollution abatement technology; APCD-sponsored courses; chemistry files. *Retrievability:* Files are arranged by subject and company.

DOE/EPS-260 *Formerly Identified as:* EC-520

### **Abatement and Compliance**

*Description:* Information on inventories of pollution services and cost of abatement; state of the art of pollution abatement by industry; regulations development; policy and technical advice on enforcement programs; technical audits of incentives programs; energy related

## DEPARTMENT OF THE ENVIRONMENT

---

studies. *Topics:* Paper fibre and allied products; mining and metallurgical processes; petroleum and industrial organic chemicals, inorganic chemical processes; food and allied industries; municipal waste and miscellaneous industries; power generation; marine pollution; legal services; pulp and paper modernization program. *Retrievability:* Files are arranged by company, product.

DOE/EPS-265 *Formerly Identified as:* EC-530

### Technology Development

*Description:* Information on development and demonstration of waste water pollution control technology; technology development assistance programs; technical training; technology transfer; program planning and evaluation. *Topics:* Program planning and evaluation; technology assistance program; wastewater technology. *Retrievability:* Files are arranged by company.

DOE/EPS-270 *Formerly Identified as:* EC-540

### Water Pollution Programs

*Description:* Information on federal/provincial programs; pollution control in coastal areas; International Joint Commission programs; data management; Arctic water programs co-ordination; program evaluation; interservice and interagency program co-ordination; program planning and development. *Topics:* Program co-ordination and evaluation; coastal zone; data management and analysis.

DOE/EPS-275 *Formerly Identified as:* EC-550

### Contaminants Control

*Description:* Information on predicting and evaluating environmental effects of new chemical substances; determining amounts and end uses of chemicals in Canadian commerce; regulating substances which pose a significant threat to human health and environment; reviewing pesticide registrations; and co-ordinating tests of chemicals for environmental effects. *Topics:* Studies and surveys; chemical elements compounds; *Environmental Contaminants Act*; toxicology assessment and ecological protocols; regulation development; enforcement and compliance; transportation of dangerous goods; response to notices; mandatory reporting; automated information system; pesticides-control programs, registration, re-evaluation, research and trade information, research permits, compendium, non-chemical, mercury program. *Retrievability:* Files are arranged by subject, company and product.

DOE/EPS-280 *Formerly Identified as:* EC-560

### Waste Management

*Description:* Inventory of commercial and industrial solid wastes; technology development; studies and surveys; handling, storage and disposal of industrial and hazardous wastes; inventory sources and amounts of hazardous wastes; regulations development. *Topics:* Wastes and types; waste material management and disposal; committees; systems; collection; handling; waste management systems — disposal; state of the art; resource recovery and reclamation, materials; information and training; solid waste information retrieval system, inventory; guidelines and codes of practice; consultation services; technical evaluation; solid waste projects and development; area studies; equipment development; process development; taxes and incentives; waste nature and behavior projects; resource recovery — economic and marketing; technical capabilities. *Retrievability:* Files are arranged by subject, company and project.

DOE/EPS-285 *Formerly Identified as:* EC-570

### Environmental Emergency

*Description:* Information on environmental accidents; emergency teams; reporting and alerting operating procedures; special studies; research and development; contingency plans; pollution clean-up agents for collection and dispersal. *Topics:* Environmental emergency teams; operations and procedures; resource inventory; accident prevention; transportation; accident detection; pollution abatement; pollution containment; disposal; restoration; analysis-prediction,

research and development projects; information. *Retrievability:* Files are arranged by individual environmental accidents.

DOE/EPS-290 *Formerly Identified as:* EC-580

### Planning, Assessment and Policy

*Description:* Information on the development of an environmental protection strategy; program, planning and systems development; socio-economic analysis of proposed major regulations. *Topics:* Program planning system development; activity program development; operational plans; activity management reports; policy development and analysis; program evaluation; program development; organization and systems project; economics; socioeconomic program; socioeconomic impact analysis — *Clean Air Act, Environmental Contaminants Acts, Fisheries Act*. *Retrievability:* By subject.

DOE/EPS-295 *Formerly Identified as:* EC-590

### Federal Activities Assessment

*Description:* Information on the evaluation of federally funded pollution control projects; demonstrating of pollution control technology at federal facilities; surveillance and monitoring programs for federal projects; environmental impact assessment of uranium refineries and radioactive waste facilities; and guidelines for radiation control programs. *Topics:* Federal activities projects; clean-up program; methods, techniques and refinements; federal government marine activities; Vessel Pollution Abatement Program; shore reception facilities; nuclear programs, projects, organizations. *Retrievability:* Files are arranged by company.

DOE/EPS-300 *Formerly Identified as:* EC-600

### Toxic Chemical Management

*Description:* Information on the toxic chemical management program. *Topics:* Toxic chemical management centres; regional operations; program research; pesticides; radionuclides; environment measurement.

DOE/AES-310 *Formerly Identified as:* EC-820

### Research Management and Policy

*Description:* Meteorological, atmospheric, air quality, ice in navigable waters, remote sensing and other related environmental and technological research and development; research and related support activities of a general management nature — decisions and large scale agreements; training for research and grants for research outside the federal government which support the goals, objectives and policies for atmospheric research in Canada; mechanisms for better transfer of technology to and from government research laboratories, contracting-out of federal research and development. *Topics:* Agreements, treaties, studies, projects, federal activities, committees, plans and programs, fellowships, training and development, grants, unsolicited proposals, contracting, technology transfer. *Retrievability:* Files are located at 4905 Dufferin St., Downsview, Ontario.

DOE/AES-315 *Formerly Identified as:* EC-830

### Air Quality Research Projects

*Description:* Information on research dealing with the quality of air. *Topics:* Field studies, wind energy, LRTAP Programs (Acid Rain), federal-provincial co-operative projects, IFYGL, Alberta Oil Sands, hazardous and toxic chemicals, air quality assessment processes, regional and international studies of meteorological potential for air pollution, boundary layer processes, experiments, analyses, scientific papers, program planning and international co-operation, air quality sampling, siting, analytical methodology for ambient atmospheres, workspace atmospheres and instream emissions.

DOE/AES-320 *Formerly Identified as:* EC-840

### Atmospheric Research

*Description:* Information on weather modification, cloud physics, weather radar, ozone monitoring, stratospheric pollution, solar radiation and energy. Activities aimed at increasing precipitation (rain, snow) or suppressing hailfall; research in the physics of cloud

## DEPARTMENT OF THE ENVIRONMENT

---

and precipitation and in the detection of precipitation by weather radar; research conducted into the processes of the stratospheric ozone layer and its depletion by trace constituents (typically chlorofluorocarbons); calibration of solar radiation instruments and development of new solar radiation instrumentation and development of specialized solar radiation database. *Topics:* Weather Modification Policy, Agreement (with U.S.) and Co-operative projects; WMO PEP program, weather radar and cloud physics, ozone instruments, World Ozone Data Centre, stratospheric pollution, solar radiation.

DOE/AES-325 *Formerly Identified as:* EC-850

### **Atmosphere — High Atmospheric Vehicles**

*Description:* Information on weather ice and other related environmental satellite research and development, ground receiving stations, data processing and distribution, and related hardware, instrumentation technology; aeronautical meteorology, aviation studies, marine meteorology and meso-meteorology, wind energy, weather radar and radar satellite combined system; wind tunnel experiments, related field experiments and wind engineering. *Topics:* Canadian space policy, repairs of satellite receivers; high atmosphere vehicles, satellite data lab operations, satellite meteorology research and development projects (TOVS, RAINSAT, ICE STATUS), Aeromet Facility, Rockcliffe STOL project; Meso-met Network, data collection platforms; GOES Wind Energy Field Studies; radar satellite system; ICS Submission; AES Satellite Program; NOSS; SURSAT; wind tunnel experiments, operation and maintenance.

DOE/AES-330 *Formerly Identified as:* EC-860

### **Communications — Facsimile**

*Description:* Information on Satellite Data Laboratory Operations.

DOE/AES-335 *Formerly Identified as:* EC-870

### **Contracts**

*Description:* Information on contracts for satellite systems; also contracts for satellite research and development — TOVS, RAINSAT, ICE STATUS. *Retrievability:* Files are arranged by subject and company.

DOE/AES-340 *Formerly Identified as:* EC-880

### **Ice Observing Programs — Reconnaissance**

*Description:* Information on verification of satellite data.

DOE/AES-345 *Formerly Identified as:* EC-890

### **Instruments**

*Description:* Information on Aeromet Facility Instrumentation.

DOE/AES-350 *Formerly Identified as:* EC-900

### **Meteorology Aviation**

*Description:* Information on the Rockcliffe STOL Project.

DOE/AES-355 *Formerly Identified as:* EC-910

### **Marine Meteorology**

*Description:* Information on TOVS.

DOE/AES-360 *Formerly Identified as:* EC-920

### **Meso-meteorology**

*Description:* Information on the Meso-met Network. *Topics:* Operation; data.

DOE/AES-365 *Formerly Identified as:* EC-930

### **Meteorology Training**

*Description:* Information on satellite meteorology.

DOE/AES-370 *Formerly Identified as:* EC-940

### **Projects — AES HQ**

*Description:* Information on satellite activity reports; data collection platforms; SDL Staffing; SDL GOES; Meso-met Network; Wind Energy Field Studies investigations.

DOE/AES-375 *Formerly Identified as:* EC-950

### **Radar**

*Description:* Information on the MOT Radar and Satellite System.

DOE/AES-380 *Formerly Identified as:* EC-960

### **Satellites**

*Description:* Information on satellite programs. *Topics:* Cost recovery; staffing the SKL; ICS Submission; AES Satellite Programs; SDL Operations; NOSS; SURSAT.

DOE/AES-385 *Formerly Identified as:* EC-970

### **Weather Service**

*Description:* Information on RAINSAT.

DOE/AES-390 *Formerly Identified as:* EC-980

### **Weather Service — Air Transportation**

*Description:* Information on MOT Radar and Satellite System.

DOE/AES-395 *Formerly Identified as:* EC-990

### **Wind Tunnel (AES)**

*Description:* Information on wind tunnel experiments, operations and maintenance.

DOE/AES-400 *Formerly Identified as:* EC-1000

### **Projects Research AES Headquarters**

*Description:* Information on computerized and man-machine mix system; module component development and design; research data set development; also implementation and joint projects with forecast operations. *Topics:* Systems design for automated weather forecasting procedures; creation of research data sets for weather forecasting research.

DOE/AES-405 *Formerly Identified as:* EC-1010

### **Contracts**

*Description:* Information on contracts for ice, oil spills on water and sea state models. *Retrievability:* Files are arranged by subject and company.

DOE/AES-410 *Formerly Identified as:* EC-1020

### **Ice**

*Description:* Information on regional ice models.

DOE/AES-415 *Formerly Identified as:* EC-1030

### **Oil and Gas Exploration and Development**

*Description:* Information on oil spill trajectories, freezing spray, ice and sea state models.

DOE/AES-420 *Formerly Identified as:* EC-1040

### **Project — HQ**

*Description:* Information on the development of forecast methods and techniques for AES forecast systems (including models — numerical, statistical). *Topics:* Weather prediction methodology; snow squall modelling; ice and sea state models; oil spill trajectory models; freezing spray; investigations.

DOE/AES-425 *Formerly Identified as:* EC-1050

### **Telecommunications**

*Description:* Operational, alpha-numeric and facsimile information distributed by dedicated or dial-up communication lines. *Topics:* Facsimile contracts, installations, procedures, traffic; teletype contracts, installations, procedures, traffic; computer aspects.

DOE/AES-430 *Formerly Identified as:* EC-1060

### **Forecast Procedures**

*Description:* Information on meteorological models, procedures and techniques in support of forecast production. *Topics:* Maps, charts and forms; professional training and development; satellite operations; plans and programs.

## DEPARTMENT OF THE ENVIRONMENT

DOE/AES-435 *Formerly Identified as:* EC-1070

### **Weather Services**

*Description:* Information on policies, standards, procedures and guidance concerning the provision of weather services. *Topics:* General weather services; public weather services; air, marine and road transportation; agriculture; forestry; climatology; preflight weather information service; radio and television broadcasting; scientific support units; weather service outlets.

DOE/AES-440 *Formerly Identified as:* EC-1080

### **Data Acquisition**

*Description:* Information on land surface networks; upper air and aerological networks; Voluntary Observing Ship Program; remote sensing; environmental network. *Topics:* Station classification; site information; meteorological and aerological instruments; codes; data standards; data reduction; quality assurance; equipment supply; development and testing; lists of ships participating; satellite ground stations; APT, weather radar; signal processing; data transmissions; maintenance; plans and policies.

DOE/AES-445 *Formerly Identified as:* EC-1090

### **Forecast**

*Description:* Information on analyses and forecasts; hemispheric analyses, heights (pressure) temperature, moisture, winds from surface to 100 mbs; analyses of surface, 850, 700 and 500 mb levels from 1957 to date; historical data; verification statistics. *Storage Media:* Computer files — grid point data, microfilm, printed WX charts, charts and teletype message forms, written and graphic forms.

DOE/AES-450 *Formerly Identified as:* EC-1100

### **Observations**

*Description:* Observed data, hemispheric surface synoptic reports. *Storage Medium:* Coded forms.

DOE/AES-455 *Formerly Identified as:* EC-1110

### **Climatology**

*Description:* Information on applied climatology; climatological data and studies; information and requests; monitoring and prediction; numerical modelling. *Topics:* General climatology; climatology normals; recreation and tourism; station history system; National Parks; agrometeorology; ice accretion studies; biometeorology; energy; Canadian Climate Program; Climatic change. *Storage Media:* Microfilm, magnetic tape.

DOE/AES-460 *Formerly Identified as:* EC-1120

### **Hydrometeorology**

*Description:* Information on development of hydrometeorological techniques for measurements and analysis; application of meteorological techniques and data to hydrology and marine problems (hydrology, water resources, oceans, lakes and reservoirs); hydrological time series data; climatology of water temperature. *Topics:* International Hydrological Decade; hydrometeorological

projects; investigations, research, studies and surveys; wind wave studies, evaporation. *Storage Medium:* Magnetic tape.

DOE/AES-465 *Formerly Identified as:* EC-1130

### **Ice Information, Consultation and Advice**

*Description:* Information on ice forecasting and services, ice research, climatology and Observing Program (reconnaissance).

DOE/AES-470 *Formerly Identified as:* EC-1140

### **Communications — Computing Services**

*Description:* Information on communications and communications-programming.

DOE/AES-475 *Formerly Identified as:* EC-1150

### **Meteorology Training**

*Description:* Information on professional training, development, technical training in meteorology.

DOE/AES-480 *Formerly Identified as:* EC-1160

### **Data Acquisition Networks**

*Description:* Information on atmospheric environment operations, overall policy, operational performance, procedures and standards.

DOE/AES-485 *Formerly Identified as:* EC-1170

### **Instruments and Instrument Systems**

*Description:* Information on instruments; general, humidity, evaporation, precipitation, marine, physical phenomena, pressure, radiation, atmospheric sounding wind.

## **Deleted Classes of Records**

The following classes of records can now be found within the Department of Agriculture.

- EC-610 Forestry Subvention Program
- EC-620 International Forestry Relations
- EC-630 Forestry Initiatives and Relations
- EC-640 Identification of Problems and Opportunities
- EC-650 Assessment and Interpretation
- EC-660 Forestry Statistics and Systems
- EC-670 Tree Seed Research
- EC-680 Reforestation
- EC-690 Genetics
- EC-700 Tree Growth Research
- EC-710 Management Systems for Production Forestry
- EC-720 Forest Fire Research
- EC-730 Insects and Diseases
- EC-740 Spruce Budworm Research
- EC-750 Land Rehabilitation
- EC-760 Effects of Forestry Practices on the Environment
- EC-770 Forest and Plant Ecology
- EC-780 Management Methods for Amenity Forests
- EC-790 Integrated Programs
- EC-800 Forest Insect and Disease Survey and Services
- EC-810 Public Awareness

# DEPARTMENT OF EXTERNAL AFFAIRS

## Background

The Department of External Affairs was established by an Act of Parliament in 1909 to deal with Canada's relations with other governments within the British Empire, and with foreign states. It was placed under the Secretary of State, with an Under-Secretary of State for External Affairs ranking as the permanent deputy head of the Department. In 1912, amending legislation placed External Affairs under the jurisdiction of the Prime Minister where it remained until 1946, when a separate Secretary of State for External Affairs was appointed. In 1981, the foreign operations of the Immigration Service were brought into the Department. In January 1982, there was a fundamental reorganization to include the foreign trade operation. Since then, two additional Cabinet Ministers, a Minister for International Trade and a Minister for External Relations, have been appointed. The new *Department of External Affairs Act* came into force on December 7, 1983.

## Laws and Regulations

The Secretary of State for External Affairs is responsible for the following statutes:

- Department of External Affairs Act, 1983 c. 167
- Asia-Pacific Foundation of Canada Act, SC 1984, c. 12
- Canadian Commercial Corporation Act, RSC 1970 c. C-6
- Canadian Institute for International Peace and Security Act, SC 1984, c.37
- Cultural Property Export and Import Act, 1974-75-76, c. 50
- Diplomatic and Consular Privileges and Immunities Act, SC 1976-77, c. 31
- Export Development Act, RSC 1970, c. E-18
- Export and Import Permits Act, RSC 1970, c. E-17
- Food and Agriculture Organization of the United Nations Act, RSC 1970, c. F-26
- Fort Falls Bridge Authority Act, SC 1970-71-72, c. 51
- Geneva Conventions Act, RSC 1970, c. G-3
- International Boundary Waters Treaty Act, RSC 1970, c. I-20
- International Development (Financial Institutions) Assistance Act, SC 1980-81-82, c. 73
- International Development Research Centre Act, RSC 1970, c. 21 (First Supplement)
- Meat Import Act, 1980-81-82, c. 82
- Privileges and Immunities (International Organizations) Act, RSC 1970, c. P-22
- Privileges and Immunities (North Atlantic Treaty Organization) Act, RSC 1970, c. P-23
- Prohibition of International Air Services, SC 1980-81-82, c. 61
- Rainy Lake Watershed Emergency Control Act, SC 1939, c. 33
- Roosevelt Campobello International Park Commission Act, SC 1964-65, c. 19
- Skagit River Valley Treaty Implementation Act, SC 1984, c.11
- State Immunity Act, SC 1980-81-82-83, c. 95
- Territorial Sea and Fishing Zones Act, RSC 1970, c. T-7 as amended by RSC 1970, c. 45 (First Supplement) and RSC 1970, c. 14 Section 31, Item 9 (Second Supplement)
- Treaties of Peace (Italy, Romania, Hungary and Finland) Act, SC 1948, c.71
- Treaties of Peace (Japan) Act, SC 1952, c. 50
- United Nations Act, RSC 1970, c. U-3

## Overall Responsibilities

The Department of External Affairs has the primary responsibility for the promotion and protection of Canada's interests abroad and the conduct of Canada's relations with other countries. Its main functions are: to ensure the effective representation of Canada in other countries and to international organizations including close contact, communication and negotiation with other governments and organizations through Canada's extensive network of representatives abroad; to evaluate information about political, economic and other developments likely to affect Canada's interest; to give advice to the government, often in consultation with other departments, on the formulation and implementation of policies and programs with international dimensions; to ensure the co-ordination of the external aspects and application of national policies for export trade promotion, defence and security, development assistance, immigration, and cultural and scientific exchanges; to reflect to peoples abroad the bilingual and multi-cultural character of Canadian society; and to provide protection and assistance to Canadian citizens abroad.

Autonomous agencies reporting to Parliament through the Secretary of State for External Affairs include the Foreign Claims Commission, the International Boundary Commission, the International Joint Commission, the Roosevelt Campobello International Park Commission, the Canadian International Development Agency, the International Development Research Centre, the Asia-Pacific Foundation and the Canadian Institute for International Peace and Security. With the restructuring of the Department, the Export Development Corporation and the Canadian Commercial Corporation have been added, and ministerial responsibility for these corporations has been delegated to the Minister for International Trade.

## Publications

The following manuals are of general interest and use in the Department. Others are listed below under various bureaus.

- Manual of Procedures — containing administrative procedures for headquarters
- Manual of Regulations
- Supplement Number 4 to the Manual of Regulations (Foreign Service Directives)
- Manual of Post Administration — provides administrative procedures for the guidance of posts abroad

## Key Contacts

Information on the Department and Canada's external relations can be obtained from several units of the Department.

## Organization

Department headquarters in Ottawa supervises regional passport offices in Canada and missions abroad bearing different names and performing varying functions. Within Canada, the regional offices of the Department of Regional Industrial Expansion (DRIE) support the export promotion program of the Department.

The Department in Ottawa is organized into the Office of the Under-Secretary of State for External Affairs and 12 branches, each under an assistant deputy minister, which supervise the work of the Department on a geographic, functional or administrative basis. Each branch is divided into two or more bureaus, each under a director general. The bureaus in turn are separated into divisions, each under a director.

### Office of the Under-Secretary

The Under-Secretary, as deputy head, bears general responsibility for departmental policy and objectives. He or she is assisted by two deputy ministers, one to handle international trade, and the other, foreign political affairs; and by 12 assistant deputy ministers who have responsibility for the different branches of the Department. (See departmental organization chart.) There are also two special ambassadors based in Ottawa, one for disarmament and the other for multilateral trade regulations.

### Press Office

This unit is headed by a director who serves as official spokesman to the media for the Ministers and the Department. The director provides the official position on foreign policy and international trade questions. Besides answering questions from journalists and handling the Department's day-to-day press relations, the office arranges general press conferences for ministers, at home and abroad, and special briefings by departmental officials on complex subjects. It issues press releases for the Department and Ministers containing formal announcements of the Department and texts of statements and speeches by ministers. It assists Canadian journalists going abroad on assignment and makes arrangements for journalists accompanying ministers when they visit other countries or attend international conferences. It also organizes programs for members of the press accompanying foreign leaders on official visits to Canada.

### Missions Abroad

The *Department of External Affairs Act* defines "head of mission" in broad terms. There are at present 60 ambassadors resident abroad, 18 high commissioners to Commonwealth countries, 24 consuls-general, one commissioner and eight resident heads of mission to international organizations. There are also three small embassy offices with non-resident ambassadors, giving a total of 114 posts abroad, a figure which may vary slightly from time to time. Many ambassadors and high commissioners are doubly accredited, which adds 75 more countries to the list of those where Canada is represented. There are, in addition, 23 honorary consuls in cities with no other resident representative of Canada. Full details may be found in the publication *Canadian Representatives Abroad*, issued annually. Just over one hundred countries have diplomatic missions in Ottawa and another 25 have non-resident accreditation. Many countries have consulates in principal cities throughout Canada. The departmental booklet *Diplomatic, Consular, and Other Representatives in Canada* is also issued regularly.

### International Organizations

Canada has permanent missions to international organizations. There are missions to the United Nations (UN) in New York and in Geneva, the latter also accredited to the Secretariat of the General Agreement on Tariffs and Trade (GATT) and to the five UN specialized agencies located there. There are permanent representatives to the UN Industrial Development Organization (UNIDO) and to the International Atomic Energy Agency (IAEA), both in Vienna; to the UN Centre for Human Settlements (HABITAT) and to the UN Environment Program (UNEP), both in Nairobi; and to the Food and Agriculture Organization (FAO) in Rome. There is also a permanent delegation to the UN Educational, Scientific and Cultural Organization (UNESCO) in Paris.

There are permanent missions to the North Atlantic Treaty Organization (NATO) in Brussels; to the European Communities (EC), also in Brussels; to the Organization for Economic Co-operation and Development (OECD) in Paris; and the Organization of American States (OAS) in Washington. There are delegations to the Mutual and Balanced Force Reduction Talks (MBFR) in Vienna and to the Conference on Disarmament in Europe (CDE) in Stockholm. In Canada, there is a representative to the International Civil Aviation Organization (ICAO) with headquarters in Montréal.

### Access Procedures

Formal requests for information under the *Access to Information Act* should be addressed to

Access to Information and Privacy Co-ordinator  
Department of External Affairs  
Lester B. Pearson Building  
Tower A, Main Floor  
125 Sussex Drive  
Ottawa, Ontario  
K1A 0G2  
Telephone: (613) 992-1425 or (613) 992-9273

Requests submitted to posts abroad under the *Access to Information Act* will be referred to this unit in Ottawa.

### Office of Protocol

The Chief of Protocol through the Office of Protocol handles the accreditation and appointment of foreign diplomatic and consular representatives to Canada, and that of Canadian heads of diplomatic

## DEPARTMENT OF EXTERNAL AFFAIRS

---

and consular missions to other countries. This involves questions of diplomatic and consular privileges and immunities, respecting both foreign representatives in Canada and Canadian representatives abroad. The Chief of Protocol is the principal liaison between the Department and the Diplomatic Corps accredited to Canada. The office plans, organizes and manages state and official visits to Canada and participates in the logistical planning and conduct of travel abroad of the Governor General, the Prime Minister, the Secretary of State for External Affairs, the Minister for International Trade and the Minister for External Relations. In addition, the office organizes, arranges, and manages official hospitality functions for the Ministers and senior officials of the Department.

### Manuals

- Manual of Visits Procedures

### Office of the Legal Advisor

The Legal Advisor provides advice to the Under-Secretary on matters of international law to ensure that in the conduct of international relations, full account is taken of existing and emerging principles of international law.

The Legal Affairs Bureau is divided into three areas: the Legal Operations Division handles UN and other multilateral legal issues, peace and security law, the law of the sea, maritime boundaries, environmental and fisheries law, and humanitarian law; the Economic Law and Treaty Division provides advice on subjects such as investment, energy, transport and communications, intellectual property, extraterritoriality, science and technology, and trade agreements and is also concerned with the protection of the property interests of Canadian citizens abroad, including claims arising from the take-over of property by foreign governments; the Treaty Section covers treaty interpretation and the formal aspects of their negotiation, signature, registration, and custody (information on the status of bilateral or multilateral treaties to which Canada is a signatory or party, and copies of these treaties, in English or French, may be obtained from this section); the Legal Advisory Division provides services on private international law such as the authentication of Canadian certificates and documents, and advice on the federal-provincial aspects of Canada's international relations, sovereign immunity, recognition of states and governments, protection of Canadian citizens, and diplomatic and consular privileges and immunities.

The bureau also houses an extensive library on international law and contains a unit to give advice on domestic law questions.

### Geographic Branches

For the conduct of external relations, the world has been divided into five geographic regions, each constituting a branch under an assistant deputy minister. These are Africa and the Middle East; Asia and the Pacific; Europe; Latin America and the Caribbean; and the United States. Each branch is divided into sub-regional bureaus, with further separation into divisions. The responsibilities and activities of the Geographic Bureaus have much in common and are best described together.

Each bureau is responsible for the management and co-ordination of the full range of relations with its region. Included are the operations of the Canadian posts abroad in their area, their guidance and instruction, and the provision and allocation of resources to them. Under the *Department of External Affairs Act*, a head of mission, as defined, has the management and direction of the mission and the supervision of the official activities of the various Canadian departments and agencies in the country in question.

The work of the Geographic Bureaus is distributed among three types of divisions — relations divisions, trade development divisions and programs divisions. The relations divisions handle bilateral political

and economic relations; country, sub-regional and regional analysis and policy; and, where appropriate for Third World countries, aid relations. All the trade development divisions handle export promotion; most of them deal in tourist promotion in conjunction with Tourism Canada, fairs and missions; and some are concerned with investment development. The trade development divisions are the main point of contact for the business community. The programs divisions are concerned with immigration and, in some cases, refugees and family reunification; cultural and academic relations; public affairs including information activities; and the management of visits to and from the area in question.

The structure of the two United States bureaus differs somewhat from that of the other bureaus, as they handle a large number of additional issues and problems. Some of these are of a transboundary character, such as waterways, pollution, the export of energy, trucking, broadcasting and the work of the International Joint Commission and of the International Boundary Commission.

To learn who is the "desk" officer, or the person responsible for a particular country in the field of trade promotion, general relations or programs, the director general of the bureau concerned should be contacted.

### International Trade Development Branch

#### Export Programs and Services Bureau

The bureau is the central point in the Department for the planning, co-ordination and evaluation of federal government policies, programs and initiatives related to export development and promotion. It is responsible for a comprehensive export development strategy providing direction and program support to the Canadian export community.

The Export Finance Division is principally responsible for ensuring that the export financing facilities available to the Canadian business community remain accessible and competitive. It is concerned with all aspects of export credit financing, including discussions in international bodies. The division participates in decisions affecting the Export Development Corporation, the Canadian Commercial Corporation and the Canadian International Development Agency to ensure that their resources are used effectively to further Canadian trade objectives. It takes initiatives related to Canadian procurement in capital projects financed by the World Bank and the regional development banks.

The Program for Export Market Development (PEMD) is designed to help develop and increase the export of Canadian goods and services by sharing with private enterprises the financial risks of entering into new foreign markets. Assistance is based on a sharing of agreed export marketing costs to a maximum of 50%, with the Crown contribution being repayable if the activity is successful.

The Fairs and Missions Division is responsible for financing participation in trade fairs and for outgoing and incoming missions, including visits to Canada by foreign buyers and government trade delegations. It conducts evaluation studies on the results or performance of participation in fairs and trade missions.

The Export Information Division is responsible for developing and implementing, in close collaboration with other trade development sections of the Department, export awareness initiatives, such as the Export Trade Month and the Export Awards Program, as well as responding to general trade enquiries. It operates the trade information centre on the main floor of the Pearson Building, called Info Export.

The Trading House and Countertrade Division provides a responsibility centre within the Department for the activities and interests of trading houses — companies specializing in the exporting, importing and third-country trading in goods and services provided by

## DEPARTMENT OF EXTERNAL AFFAIRS

---

others. The division is also responsible for providing support and information to exporters on questions related to countertrade — the barter arrangements by which imported goods are paid for with goods of local production.

The Transportation Division is the departmental focal point for industry development, policies, and issues pertaining to transport in several forms. It advises on and conducts bilateral and multilateral relations in the development and implementation of air transport policy and in this regard supports the Chief Air Negotiator, who is appointed by the Minister of Transport and the Secretary of State for External Affairs. The division ensures consideration of Canadian trade and international relations factors in the development of policies on shipping, surface, and multimodal transport. It handles the departmental interest in the International Civil Aviation Organization (ICAO), with headquarters in Montréal, and the International Maritime Organization (IMO) in London.

### Manuals

- Promotional projects program

### Agriculture, Fish and Foods Bureau

This bureau provides programs and services specifically adapted to the needs of agri-food and fish exporters, to enhance their contribution to Canada's trade performance. Programs and services include identifying buyers for Canadian products; trade counselling and assistance in development of export marketing plans; market research for agriculture and fish products in key market areas; providing trade leads to exporters; and sponsorship of specialized seminars, missions and trade fairs. The bureau also provides financial assistance, under the special Food and Fish program for export market development (PEMD), to reduce the risks associated with moving into new market areas. The bureau's specialists keep track of trade barriers in the sector to ensure that Canadian business interests are well represented in international trade negotiations.

### Grain Marketing Bureau

This bureau co-ordinates and carries out trade development activities and contributes to the development of trade policy for grains and oilseeds products. It has close relations with various Crown agencies, quasi-governmental bodies involved in the grain industry, and the private grain trade. It administers the grains and oilseeds program and, in conjunction with the Departments of Agriculture and Transport, it provides support through the Special Advisory Group on Grains to the Minister responsible for the Canadian Wheat Board. The primary objective of the bureau is to encourage sustained and orderly growth in the production, processing and marketing of grains, oilseeds and their products.

### Defence Programs Bureau

The bureau is responsible for the development and management of defence equipment and selected high technology export trade on a worldwide basis. It identifies and evaluates the defence and related export trade opportunities, and promotes policies and strategies to exploit such opportunities. It handles defence production sharing arrangements and agreements with allied and friendly countries.

The Overseas Division is responsible for export market development for Canadian defence and related equipment, in all foreign markets except the United States. This includes NATO defence sharing and bilateral agreements with foreign governments. The United States Division handles export market development for defence equipment in the United States, and the management of the defence production sharing arrangements between the two countries. The Project Marketing Division is responsible for worldwide export marketing promotion for major defence and high technology products. There is

also a section for market research and analysis, which provides statistical and other support for the expansion of defence equipment exports.

### Technology and Investment Development Bureau

The bureau provides a departmental focal point for participation in policy development in the areas of science, technology, space and communications, and foreign investment. It is a co-ordinating point for the management of international programs related to these subject areas and deals with other interested government agencies. The bureau helps staff Canadian delegations to bilateral and multilateral meetings on these subjects, and works with provincial governments and private sector organizations in both policy and program activities.

### Trade Development Policy, Planning and Liaison Bureau

The three divisions of this bureau are designed to provide leadership in trade development matters. The Trade Development Policy Planning Division sets up general trade development objectives, formulates export marketing policies and strategies, and assesses trade development functions and the delivery of programs. It provides advice on the allocation of departmental resources in relation to trade development objectives. The Trade Development Liaison Division is the focal point for the Department's relationship with the private sector, the provinces and other departments with regard to trade development matters. The division formulates strategies of communication and consultation and provides support to the Ministers and senior management of the Department in these matters. It provides the secretariat for the Export Trade Development Board, which advises the Minister of International Trade on export trade policies and programs. The Trade Development Market Research Division does analyses of the export market on the basis of sectors, including market research related to the Defence Industry Productivity Program.

### Economic and Trade Policy Branch

#### Trade Policy Bureau

The Trade Services and General Policy Division is responsible for the development and review of general trade policy, including import policy. This includes the commercial policy aspects of economic summits, quadrilateral trade meetings, the United Nations Conference on Trade and Development (UNCTAD), and the Organization for Economic Co-operation and Development (OECD). The division is also responsible for trade policy issues respecting services, and it handles the Canadian interest in the generalized system of preferences (GSP).

The GATT Affairs Division is responsible for the overall co-ordination and management of Canada's participation in the General Agreement of Tariffs and Trade (GATT) and its subsidiary agreements. This calls for safeguarding and improving access to foreign markets on the basis of the rights and obligations under GATT, including in some instances the use of its dispute settlement machinery.

The Agriculture and Commodity Policy Division covers the international aspects of agricultural trade policy, particularly those involved in the multilateral institutions of OECD, GATT and the Food and Agriculture Organization (FAO). Its responsibility for international commodity agreements and arrangements includes negotiations related to Canada's participation in these and the ongoing involvement in the councils and other bodies charged with the management of the agreements.

The Industrial Trade Policy Division is responsible for international

## DEPARTMENT OF EXTERNAL AFFAIRS

---

aspects of industrial policy in the context of Canada's trading relations and obligations. It gives special attention to sectors such as transportation equipment, including automobiles; capital and consumer goods; pharmaceutical and health care products; and to domestic industrial policy issues related to Canada's international trade.

### Economic Policy Bureau

The bureau is responsible for the co-ordination and development of policy on international economic issues and the advancement of Canadian economic interests in the international sphere. The International Economic Relations Division examines the worldwide economic situation and deals with the broader aspects of economic issues in meetings such as the Economic Summits and OECD ministerial meetings. It covers the general economic and trade aspects of east-west relations. The International Financial and Investment Affairs Division has the principal responsibility within the Department for questions of international finance, monetary matters, the International Monetary Fund (IMF), international banking and debt issues, industrial and intellectual property covered by patents and copyright, competition policy, Canadian foreign investment policy (Investment Canada), investment issues dealt with in international bodies, and the treatment and conduct of multinational enterprises.

The Economic Relations with Developing Countries Division has the general responsibility within the Department for Canada's policy on development assistance and for the north-south dimension of international economic relations. This includes the co-ordination of Canada's participation in multilateral discussions on economic relations with developing countries in such forums as the World Bank, other development banks of a regional character, the United Nations including UNIDO and UNCTAD, the World Food Program, other international agricultural agencies, and the Development Assistance Committee (DAC) of OECD.

### Energy, Resources and Environment Bureau

The Energy and Environment Division seeks to ensure that international policy considerations are taken into account in determining domestic policies and programs in the energy and environment sectors. It works closely with those interested in the export of energy (such as oil and gas) in order to exploit energy trade opportunities, and it manages Canada's international energy relationships. On the environment side, the division co-ordinates Canada's involvement in international issues and is the focal point for policy and technical expertise covering the broad spectrum of environmental questions. It provides support to the geographic sections in the management of bilateral environmental issues. The division is also responsible for Canadian participation in international organizations, notably the UN Environment Program (UNEP).

The Nuclear Division is responsible for the development and implementation of nuclear export policy, including Canada's non-proliferation policy. Its activities include the negotiation and carrying out of Canada's support for the Non-Proliferation Treaty, and relations with other countries in the nuclear policy field. The division works with Canada's nuclear industry, both uranium and reactor, in export activities; and co-ordinates Canadian participation in the International Atomic Energy Agency (IAEA) and the OECD/Nuclear Energy Agency.

The Resources Policy Division is concerned with the development of domestic policies in the resources sector to ensure that full advantage is achieved in the multilateral trade framework. It covers coal and petrochemicals, metals and minerals, and forest products.

### Special Trade Relations Bureau

This bureau is responsible for the development, implementation and administration of import and export control measures under the authority of the *Export and Import Permits Act* and Regulations.

Import Controls I Division handles textiles and clothing. It prepares recommendations to the government on special measures for protection against the disruptive effect of low-cost imports to the textile and clothing industries, handles bilateral export restraint arrangements, and undertakes unilateral action. It co-ordinates the Canadian position under the GATT arrangement regarding international trade in textiles (Multi-fibre agreement).

Import Controls II Division administers the import controls on certain agricultural goods, such as dairy and poultry products, to give effect to the government's supply management and price support policies. It also gives effect to special measures of protection on imports such as footwear, pursuant to injury findings under the *Special Import Measures Act*, and beef under the *Meat Import Act*.

The Export Controls Division is responsible for policy formulation and the administration of controls on exports of military, nuclear and strategic goods; and for the implementation of the government's national security, foreign policy and safeguards objectives. It co-ordinates positions on these either for individual permit applications or for presentation of Canadian views to the Co-ordinating Committee (COCOM), which co-ordinates views on the export of strategic equipment to Warsaw Pact countries and the People's Republic of China. The membership of COCOM includes the members of NATO (except Iceland and Spain) as well as Japan.

The divisions of the Special Trade Relations Bureau are supported by a data processing service that maintains and revises a computerized system of information, including the permits issued by customs brokerage offices across Canada. There are provisions for permit auditing and action on violations.

#### Manuals

- The Export and Import Permits Act Handbook
- The Handbook of Import Codes
- Notices to Exporters, Instructions
- Notices to Importers, Instructions

### Political and International Security Affairs Branch

#### Multilateral Affairs Bureau

This bureau co-ordinates Canada's general participation in the United Nations and most of the specialized agencies and institutions that form part of the UN system (see International Organizations in introductory section under Organization). It is thus responsible for delegations to the annual General Assembly of the UN and to other meetings and conferences. A special section deals with human rights in many aspects at the international level.

The Commonwealth Division co-ordinates Canada's multilateral relations with the countries of the Commonwealth, as well as the Commonwealth Secretariat in London, and the many Commonwealth official and non-governmental organizations. The most important conference for which it is responsible is the biennial meeting of the Commonwealth heads of government.

#### International Security and Arms Control Bureau

The Arms Control and Disarmament Division prepares policy on arms control and disarmament in close liaison with the Department of National Defence and other departments and agencies. It is

## DEPARTMENT OF EXTERNAL AFFAIRS

---

responsible for guidance to the Canadian delegations to the various United Nations meetings on arms control and disarmament in New York and Geneva and related conferences, including the Stockholm Conference on Security, and Confidence-Building Measures and Disarmament in Europe. One section deals with the several aspects of nuclear weapons and disarmament; another is concerned with the control of conventional weapons, biological and chemical weapons, the reduction of military budgets and the economic aspects of disarmament. The division's public liaison section administers the Department's Disarmament Fund and offers public information. A Verification Research unit undertakes and commissions studies relating to the verification aspect of arms control and disarmament agreements.

The Defence Relations Division has the general task of co-ordinating and preparing policy proposals on the defence aspects of Canadian foreign policy. It is concerned with the political and defence policy facets of Canada's participation in NATO. It is also responsible for the formulation of Canadian policies on arms control in the east-west context, seeking balanced and verifiable reductions and limitations in the nuclear and conventional forces of members of NATO and the Warsaw Pact. A section deals with bilateral defence relations, in particular North American defence, including North American Aerospace Defence (NORAD) affairs. The head of the section is the Canadian secretary of the Permanent Joint Board on Defence. Another section is concerned with military training assistance to developing countries and Canada's involvement in international peacekeeping operations.

### Intelligence Analysis and Security Bureau

The Intelligence Analysis Division produces current and long-term intelligence assessments and liaises with other departments and governments for the exchange and dissemination of intelligence. An interview unit collects information about foreign countries which is not otherwise readily available from Canadian residents. The Security Division is responsible for the personal safety of the Department's personnel; for the security of property and documents, both in Ottawa and abroad; and for liaison with other departments and governments on national security questions involving foreign relations. The Emergency Preparedness Division's responsibilities include countermeasures to deal with international terrorism, contingency planning and crisis management. The last includes the Operations Centre, a focal point for special task forces formed to deal with serious crises.

### Economic Intelligence Bureau

The bureau makes intelligence assessments of foreign economic developments relevant to Canada's foreign policy interests. Its work is divided into three geographic divisions: Europe; Asia; and Africa, the Middle East and the western hemisphere.

### Social Affairs and Programs Branch

#### Cultural and Public Information Bureau

There are seven divisions in this bureau. The Academic Relations Division, in conjunction with the Geographic Programs Division, works to develop a sustained interest in Canada among members of the academic community outside Canada, especially in certain countries. The division encourages Canadian studies; manages some post-graduate awards for foreign nationals at Canadian universities; promotes the study of international relations at Canadian universities; and provides, each year, several foreign service visitors on Canadian campuses.

The Arts Promotion Division promotes tours abroad of Canadian performing artists, the exhibition of Canadian art, and participation

in film festivals. It is the point of contact in the Department for the cultural community. The Cultural Policy Division handles Canada's relations with the United Nations Educational, Scientific and Cultural Organization (UNESCO) and with other multilateral cultural institutions. It also deals with the international aspects of sports events, both at home and abroad.

The Historical Division collects and disseminates information on the Department's evolution and Canada's past foreign policy. It develops relations with those in the academic community who are interested in research work on foreign affairs and wish to have access to the Department's historical records.

Three information divisions have the task of supporting Canadian foreign policy objectives by making Canada known abroad, assisting trade promotion programs, and creating within Canada an understanding of the government's foreign policy and the activities of the Department. The Domestic Information Services Division fosters domestic awareness of Canada's foreign policy and answers enquiries from Canadians on external relations, including trade relations. The External Information Services Division determines policies and activities to support programs of public information undertaken by Canadian posts abroad and produces material in several languages on Canadian foreign policy and international trade for the different media. Some of the material is readily available in published form. The International Exhibitions Division handles Canadian participation in world exhibitions, the circulation of special exhibits, and is responsible for the international promotion of EXPO '86 in Vancouver.

#### Manuals

- Film Manual

### Immigration and Social Affairs Bureau

Since April 1981, the Department of External Affairs has been responsible for the delivery of the Immigration Program abroad. The Canada Employment and Immigration Commission (CEIC) sets overall policy and administers the *Immigration Act* and the immigration program in Canada. The Immigration Affairs Division provides guidance to posts abroad on the delivery of the Immigration Program while the Social Affairs Division has a comparable responsibility for the Refugee Program. As explained above, the programs divisions in the geographic bureaus are responsible for the day-to-day management of immigration programs in the countries of their regions. There are visa sections located in many Canadian missions abroad that handle the selection and processing of immigrants and visitors.

Two Consular Divisions — Policy and Operations — are responsible for the protection of and assistance to Canadian citizens abroad who encounter difficulties or require government services. In some countries there are honorary consuls to assist Canadians. Contingency planning for emergency situations and advice on avoiding pitfalls is given to Canadian travellers. Consular conventions and agreements have also been made with some countries, as have agreements for the transfer of offenders. The Social Policy and Programs Division is responsible for refugees and humanitarian assistance and for the international aspects of social issues such as the advancement of women, use of drugs, crime, indigenous people and population questions.

#### Manuals

- Immigration Manual (Selection and Control)
- Immigration Manual (Legislation)
- Immigration Manual (Examination and Enforcement)
- Manual of Consular Instructions

# DEPARTMENT OF EXTERNAL AFFAIRS

---

## Federal-Provincial Co-ordination and Francophone Affairs Bureau

The Division for Federal-Provincial Co-ordination is responsible for developing policies and procedures to ensure that the international interests of the provinces are compatible with the conduct of Canada's foreign relations. It seeks to co-ordinate the activities abroad of the federal and provincial governments and maintains close contact with provincial officials; it co-ordinates provincial participation in international conferences in fields such as education; and it is involved in visits abroad by provincial authorities and by foreign dignitaries to the provinces.

The Francophone Affairs Division co-ordinates Canada's multilateral relations with French-speaking countries in relevant matters, especially through the Agence de coopération culturelle et technique (Agency for Cultural and Technical Co-operation) with headquarters in Paris. It also arranges participation in French-speaking conferences on education, youth and sports, and liaises with non-governmental francophone associations.

## Administration Branch

This branch serves the Department in Ottawa and Hull and the missions throughout the world through five bureaux.

## Passport Bureau

The bureau issues passports to Canadian citizens in Canada. The main passport office in Hull has a public counter and there is also one at headquarters in the Pearson Building in Ottawa. There are 16 regional offices: Calgary, Edmonton, Fredericton, Halifax, Hamilton, London, Montréal, Québec, St. John's, Saskatoon, Toronto, North York (Toronto), Vancouver, Victoria, Windsor and Winnipeg. Passport services are provided abroad at Canadian diplomatic missions and consulates.

The Passport Bureau also issues Certificates of Identity and United Nations Refugee Convention travel documents to non-Canadian legal residents and those currently living in Canada who are eligible to receive them.

### Manuals

- Passport Office Administrative Procedures Manual
- Passport Office Handbook of Examining Practices
- Passport Policy Manual
- Passport Office Operating Procedures Manual

## The Finance and Management Services Bureau

This Bureau directs the Department's expenditure accounting operations at home and abroad; designs, develops and operates the Department's financial planning and analysis system including the preparation and presentation of the departmental budget estimates; and plans and provides a range of management services at headquarters and posts abroad including designing and implementing computer systems and providing computer services.

### Manuals

- Manual of Financial Management
- Post Administration Diary

## The Communications and General Services Bureau

This bureau manages the records system at headquarters and advises on records management activities at posts. Among other services it gives support to the retrieval of records for the Department's obligations under the Access to Information and Privacy Acts. The

Telecommunications Division provides a worldwide network for communications between government departments and agencies and representatives abroad. It operates the diplomatic courier services and a telephone program for missions abroad.

Library Services operates the main library on the ground floor of the Pearson Building for the Department's use and also for professors, students and other researchers, from Canada and abroad, who wish to study international relations. The resources include books, documents of international organizations, periodicals, newspapers and press clippings. There is an International Trade Data Bank, a system designed to provide detailed reports for use by potential Canadian exporters on trade flows between the larger trading countries.

### Manuals

- The Records Classification Guide

## The Physical Resources Bureau

This bureau is responsible for the planning, and provision through purchase, lease or construction of all Crown-held property that the Department provides in support of the government's integrated foreign operations. These include the acquisition of related materiel and the provision of maintenance services for embassy properties abroad.

### Manuals

- Manual of Property Management
- Guidelines for Fire Safety at Post Abroad
- Manual of Materiel Management
- Property Management Technical Guides

## The Management Review and Audit Bureau

This bureau provides the Under-Secretary with independent appraisals of the appropriateness of departmental programs and activities and of the efficiency and effectiveness with which they meet objectives. The bureau undertakes independent audits and reviews of all the programs and operations at diplomatic and consular posts abroad. It seeks to assist all levels of management abroad and at headquarters in the effective discharge of their responsibilities.

### Manuals

- Handbook for Inspectors

## Access to Information and Privacy

This unit, headed by a co-ordinator, is responsible for the Department's compliance with the *Access to Information Act*, which provides access to information under the control of the Government of Canada, and with the *Privacy Act*, which protects the privacy of individuals and provides individuals with a right of access to personal information about themselves. Requests for access to government records controlled by this Department are made to this unit.

## Personnel Branch

The branch, which is concerned with the whole range of the Department's human resources, is divided into three bureaux which handle recruitment, training and development, staffing and service abroad, appraisal, promotion and remuneration of officers and administrative staff, as well as, to some extent, locally engaged employees abroad. Some headquarters personnel are classified as non-rotational but many of the bureaux' functions relate specifically to the operations of the Foreign Service, such as assignment to missions and conditions and compensation of service outside Canada. A Posting Services Centre gives advice to those going on foreign service. One division is responsible for all aspects of the Department's official

## DEPARTMENT OF EXTERNAL AFFAIRS

---

languages program and another unit handles foreign language training.

### Manuals

- Personnel Administration — Appraisal and Promotion Systems
- Manager's Guide to Personnel
- Personnel Administration — Locally Engaged Staff
- Code of Conduct and Conflict of Interest Guidelines
- Discipline
- Diplomatic and Consular Relations and Protocol

### Policy Co-ordination Branch

This branch consists of a bureau for corporate management, a bureau for the co-ordination of government policy and operations, and the Policy Development Secretariat.

### The Corporate Management Bureau

This bureau is concerned with the overall planning and evaluation of the Department's operations and management, including the allocation of resources. It also includes the senior management secretariat, which prepares a broad range of policy and administrative information for the deputy ministers and the Ministers and the Department at large. The Secretariat serves principal committees of the Department; co-ordinates official visits abroad, visits by foreign representatives to Canada, and representation at major international meetings; and provides the departmental liaison for parliamentary relations.

### The Policy Development Bureau

The Cabinet Liaison and Co-ordination Division ensures that the three Ministers of the Department receive full information and briefing on the international and departmental implications of submissions to Cabinet. It also co-ordinates departmental submissions to Cabinet.

Other divisions of the bureau provide advice to senior management of the Department on medium- and long-term policy and on new policy options and directions. They provide advice in both political/strategic and trade/economic policy areas. They also draft notes for speeches on contemporary policy themes.

### Classes of Records

---

DEA/XDX-005 *Formerly Identified as:* EA-10

#### Office of Protocol

*Description:* Information on the accreditation and appointment of foreign and Commonwealth representatives to Canada and of Canadian representatives to other countries; diplomatic privileges and immunities; and the planning, organization and management of state and official visits to Canada. *Topics:* Diplomatic representation; policy and plans; reports and statistics; treaties and agreements; organizations and conferences; legislation and regulations; status and precedence; accreditation; privileges and immunities; privileges and immunities abroad; Canadian representatives abroad — heads of post, consular officers, special envoys; foreign representatives in Canada — heads of post, political advisors, military advisors, commercial advisors, special advisors; consular officers and trade commissioners; provincial representatives abroad; diplomatic and consular lists; ceremonies; honours and awards; hospitality and security of foreign diplomatic missions in Canada.

# FARM CREDIT CORPORATION

---

## Overall Responsibilities

The Farm Credit Corporation (FCC) is a federal Crown agency charged with the administration of the *Farm Credit Act* and the *Farm Syndicates Credit Act*. The objective of the legislation is to provide Canadian farmers with long-term credit programs that will ensure sufficient financial resources to permit the establishment and expansion of economically viable farm enterprises.

## Laws and Regulations

- Farm Credit Corporation Legislation
- Related Federal Credit and Development Legislation
- Operations Control and Policy Development
- Conferences, Legal Counsel, General Administration
- Organization — Department of Agriculture
- Organization of the Corporation
- Policy and Procedures
- Committees
- H.O. Memoranda and Circulars
- Special Studies and Reports on Agriculture

## Organization

In order to fulfil its mandate, the Corporation has established a network of offices throughout the farming community in all ten provinces. Corporate headquarters is located in Ottawa. Seven regional offices, each having its own complement of district and field offices, service the agricultural community across the country. Regional boundaries correspond geographically with provincial boundaries, except for Atlantic Canada, where the four provinces are covered by a regional centre located in Moncton, New Brunswick. Nationally, the Corporation has 111 offices to serve the farming public.

Corporate headquarters is organized into eight distinct component groups. These are composed of the chairman's office, lending operations, treasury, financial services, legal services, communications, corporate audit, and management services. Regions are functionally organized into a lending services group, including all field operations, and a loan administration group.

The chairman is chief executive officer of the Corporation and is responsible for the supervision and direction of all work and staff of the Corporation. The chairman presides at all meetings of the board of the Corporation, executes instruments requiring his signature, and performs all duties, and exercises all powers incident to his office, and any other duties and powers as may be assigned to him by the board or by statute.

The vice-chairman is a member of the board of the Corporation and exercises all of the powers and duties of the chairman in his absence. As chief operating officer, he directs all work and staff engaged in treasury, lending operations, and management services of the Corporation and exercises all other powers and duties as may be assigned to him by the chairman or the board of the Corporation.

## Access Procedures

Formal requests under the *Access to Information Act* should be sent to

Access to Information Co-ordinator  
Farm Credit Corporation  
P.O. Box 2314  
Postal Station D  
Ottawa, Ontario  
K1P 6J9  
Telephone: (613) 996-6606

## Lending Operations

This group directs, controls and advises on lending research, advisory and loan administration services, and special programs. It is also responsible for enforcement of the Corporation's loan security in accordance with corporate policies.

FCC/ADM-025 *Formerly Identified as:* FCC-60

## **Operational Staff Training**

*Description:* Policy, instructions and general correspondence on operational staff training. *Topics:* Operational training policy; operational training — British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, Québec, the Atlantic Region; special training; appraisal training; case studies and demonstrations; appraisal courses (ASMRA); loan counselling and farm management. *Retrievability:* Files arranged by subject and province.

FCC/ADM-030 *Formerly Identified as:* FCC-70

## **Advisory Services**

*Description:* Information on Advisory Services policy, procedures, reports and meetings. *Topics:* Correspondence; supervision policy and procedures; CANFARM and farm accounting; CANFARM Advisory Committee.

FCC/ADM-035 *Formerly Identified as:* FCC-80

## **Special Programs**

*Description:* Policy, documentation, instructions, rulings, agreements and reports concerning the Land Transfer Plan, purchases and sales grants. *Topics:* Policy; correspondence; land transfer plan — operational policy, special credit eligibility, Corporation purchase and resale to provinces, vendor grant eligibility, provincial agreements, forms and procedures; Small Farm Development Program — evaluation, National Advisory Committee, Co-ordinating Committee, Interdepartmental Committee. *Retrievability:* Files arranged by subject and province.

FCC/ADM-040 *Formerly Identified as:* FCC-90

## **Research Policy**

*Description:* Information on policy, meetings, farm management, projects, case studies and training. *Topics:* Canadian farm management committee; Canadian farm management sub-committee on research; Canadian farm management committee — training modules; financial management course.

FCC/ADM-045 *Formerly Identified as:* FCC-100

## **Agricultural Statistics and Economics**

*Description:* Statistical data, reports, forecasts, trends, related correspondence. *Topics:* Agricultural statistics and economics; economic and market outlook; agricultural statistics and economic data, 1981 census; interest rate trends; farm product prices; farm income and costs; forecasting on Farm Credit Corporation lending; land values; financial markets; financial instruments; quota values.

FCC/ADM-050 *Formerly Identified as:* FCC-110

## **Research**

*Description:* Research reports, studies, data and correspondence. *Topics:* Management assessment; farm size analysis; capital situation; production cost analyses; farm family living costs; special assignments; capital allocation and monitoring data; borrowers' age analysis; financial model study.

FCC/ADM-055 *Formerly Identified as:* FCC-120

## **Statistical Information and Programs**

*Description:* Statistical information, new program developments, listing of computer programs, loan summary and review coding, reports, summaries and correspondence. *Topics:* Coding instructions; time lapse analysis; solicitors' time; purpose of loans; appraisal; benchmark and budget analyses; national lending summary; application and appraisal workload; land transfer program; federal farm credit statistics; documentation; standing committee; advisory committee; retired and assumed loan analyses; characteristics of borrowers; interview log summary; National Appeal Board summaries; annual report; terminal, special reports; bankruptcies; branch appeal board reports; number of accounts; financial and lending data; selected statistics programs; special programs.

FCC/ADM-060 *Formerly Identified as:* FCC-130

## **Technical Information**

*Description:* Technical information and reports for subject areas not previously specified. *Topics:* Canadian Socio-economic Information Management (CANSIM); monthly and quarterly production runs — AGDATA (commodity prices, bond market).

FCC/ADM-065 *Formerly Identified as:* FCC-140

## **Conferences**

*Description:* Working papers, reports and correspondence on conferences. *Topics:* Research conferences — non-FCC; federal-provincial relations.

FCC/ADM-070 *Formerly Identified as:* FCC-150

## **Projects and Reports**

*Description:* Information on reports, marketing boards, and quotas; correspondence. *Topics:* Farm Survey Report; Study of Marketing Boards; study of credit for low income farmers; 1971 Arrears Analysis Report; Manitoba Survey; 1980 Farm Survey Report.

FCC/ADM-075 *Formerly Identified as:* FCC-160

## **Financial Model**

*Description:* Information on the financial model used to develop interrelated balance sheet, income statement and financial ratios; also statistics of other provincial and federal departments; financial model; credit.

FCC/ADM-080 *Formerly Identified as:* FCC-170

## **Land Transfer Plan Loan Administration**

*Description:* Information on policies and directives concerning the land transfer plan loan administration and the special farm financial assistance program; also correspondence. *Retrievability:* Files arranged by subject and province.

FCC/ADM-085 *Formerly Identified as:* FCC-180

## **Farm Syndicates Credit Act**

*Description:* Information on rulings, legal opinions, security, disbursement, identification and administration related to the *Farm Syndicates Credit Act*. *Topics:* Correspondence; policies; new loan documentation; loan administration. *Retrievability:* Files arranged by subject and province.

FCC/ADM-090 *Formerly Identified as:* FCC-190

## **Farm Credit Act Loan Administration**

*Description:* Information on policy, rulings, fire insurance, forms and procedures, disbursements, notices, statements, security, legal opinions, suspense and liaison related to administration of loans under the *Farm Credit Act*. *Topics:* Correspondence; policy; fire insurance; new loan documentation; retained funds; instalment notices; activity statements; retired and assumed loan documentation; collateral security; partial interest, surface leases and easements; legal opinions; suspense funds disbursements; liaison. *Retrievability:* Files arranged by subject and province.

FCC/ADM-095 *Formerly Identified as:* FCC-200

## **Life Insurance**

*Description:* Life insurance studies, tenders, operations, rulings, interpretation, reports and claims. *Topics:* Correspondence; life insurance program; Equitable Life, Metropolitan Life; life insurance reports; outstanding death claims. *Retrievability:* Files arranged by subject and province.

FCC/ADM-100 *Formerly Identified as:* FCC-210

## **Ancillary Agreements**

*Description:* Information on rulings, reports, directives, forms, procedures, contracts and instructions related to ancillary agreements. *Topics:* Correspondence; grazing leases; crop share agreement; instalment postponements; advisory service agreements; re-amortization agreements; waiver and consent; mortgage

# FEDERAL BUSINESS DEVELOPMENT BANK

---

## Background

The Federal Business Development Bank (FBDB), a Crown corporation was established by the *Federal Business Development Bank Act* of 1974 to succeed the Industrial Development Bank (IDB), which was formed in 1944. While the IDB provided only financial assistance to industry, the Federal Business Development Bank was created to promote and assist in the establishment and development of business enterprises in Canada by providing not only financial assistance, but also management counselling, management training, information and advice, with particular attention to the needs of small businesses. The Bank provides the small business enterprise with a single source from which to obtain both financing and information suited to its particular requirements.

## Overall Responsibilities

### Financial Services

The Bank acts as a supplemental lender providing funds by means of loans and equity financing to independent businesses that cannot obtain the funds elsewhere on reasonable terms and conditions. The Bank lends money for specific purposes and often caters to the needs of firms that may be either too small, too far from commercial centres, or too specialized to be able to attract the attention of conventional lenders. It can accept as collateral a wide variety of assets such as real property, new or used machinery and equipment, and inventories — collateral that other financial institutions may not accept for legal or policy reasons.

The Bank's lending policy is flexible enough to structure financing in the manner appropriate to the business enterprise. Through its investment banking division, the Bank also can provide equity capital in addition to, or in place of, loans and guarantees. The services of this division include direct purchase of a minority ownership interest, underwriting of private placements, joint ventures, syndication of proposals to other venture capitalists and financial institutions, as well as assistance in mergers and acquisitions.

The Bank's financial services are delivered to the public through its network of branches. Almost all lending decisions are made either at the branch, district or regional offices. Currently, proposals in excess of \$400,000 must be approved at the head office or by the board of directors. The Bank evaluates each proposal on the basis of management calibre, earnings prospects, security, and the character and amount of investment by others.

On April 1, 1983, the Bank established a new financial planning program that consists of three services: financial matchmaking, packaging and programmed do-it-yourself kits.

### Management Services

The Bank also provides services such as management counselling, management training, information and advice.

Management counselling, known as CASE (Counselling Assistance to Small Enterprises), is provided to supplement such services as may be available in the private sector. It is undertaken by successful retired business persons who receive assignments from CASE co-ordinators located in Bank offices across the country.

Management training is provided for small business in several forms, including owner-manager courses, business management seminars, management clinics and information sessions. Owner-manager courses are developed by the Bank and distributed in collaboration with the departments of education in the provinces and territories; these courses are offered at community colleges across Canada. Business management seminars are offered by each branch of the

Bank on various management subjects. Joint seminars are also developed in co-operation with external associations. Management clinics are self-instructional programs combining workbooks with an audio-visual presentation available at each branch.

The Small Business Information Service (SBIS) provides business people with up-to-date information on federal and provincial government assistance programs. Enquirers approach the branch officer for information, and are subsequently directed to the appropriate program representative. Small business management information is also offered to the public free of charge through a series of Bank publications.

## Organization

The Bank has a network of branches across Canada organized into five regions: British Columbia and the Yukon, Prairies and Northern region, Ontario, Québec, and Atlantic. It has regional offices in Vancouver, Winnipeg, Toronto, Montréal, and Halifax; its head office is located at

1800 Victoria Square  
Suite 1100  
Montréal, Québec  
H4Z 1C8  
Telephone: (514) 283-5904

The regional offices provide guidance to branches with respect to the application of established Bank policy and procedures. They also process financing applications for amounts exceeding branch limits. The regional offices charged with the responsibility for all management services activities in the region, and for ensuring that the general public within the region has access to the bank's information services, management training services, and management counselling services.

The branches provide financing, counselling information and management training services to small businesses located within their particular territory. Enquiries and applications for financing are received by branch personnel and processed in accordance with established policy and procedure. Branches are also responsible for the efficient operation of management services activities in their geographical area, and for ensuring that the general public has access to the Bank's services.

Apart from its two operational functions, Financial Services and Management Services, the various departments at head office include the corporate secretariat, which is responsible for the board of directors and its committees as well as responses to Parliament; legal services, which provides legal advice to the Bank in connection with its specific program activities and support departments; planning, which is responsible for short- and long-term strategies, analysis of existing activities, and corporate development; public affairs, which is responsible for advertising and public relations to promote the role and activities of the Bank; treasury, which is responsible for funding of corporate cash requirements, monitoring of cash flow, deposit and investment of corporate funds and interest rate forecasts; insurance, which is responsible for insurance related to loan security and corporate insurance; controller's department, which is responsible for all accounting and the formal management information system; economics, which provides information on economic conditions and the impact of the Bank's activities upon the economy; and inspection, which conducts periodic reviews of systems of internal control over Bank operations.

## Access Procedures

Informal requests for information may be made directly to any branch, regional or head office. Formal requests under the *Access to Information Act* should be addressed to

## Financial Services

Financial Services consist of the loans division and the investment banking division.

### Loans Division

This division establishes and oversees policies and procedures with respect to the provision of financial assistance to small- and medium-sized businesses. In addition, the division oversees the management of the Bank's loan portfolio for the entire life of all accounts. Most financing is provided in the form of loans for such purposes as purchasing fixed assets, replenishing working capital, refinancing, and financing a change of ownership. Guarantees may be provided to other financial institutions to enable a business to obtain an adequate line of credit. Recently the division also established a financial planning program. This program offers three distinct services to small- and medium-sized business enterprises:

- Do-It-Yourself kits on such topics as arranging financing; forecasting and cash flow budgeting; analyzing financial statements; evaluating the purchase of a small business; credit and collection tips.
- Packaging, which involves the Bank undertaking an analysis of business proposals and completing a report to be used by financial institutions and government agencies to properly assess the entrepreneur's application for funding.
- Financial Matchmaking, which is a referral service whereby people with money available to invest are matched with business people seeking funds.

### Manuals

- FBDB Circular Manual — policy and procedures for all departments of the Bank
- Modules and resource books for Credit Personnel Training Program (CPTP) — provides a refresher or training course for existing and new personnel

### Investment Banking Division

This division is responsible for all equity and venture capital financing, and its role is to act as a catalyst in stimulating the formation of risk capital for companies with high growth potential. It ensures that all proposals satisfy Bank policy and are financially viable. This division assesses on a continuing basis the adequacy and suitability of investment policy and procedures and, when necessary, recommends changes.

## Management Services

This division is responsible for promoting and assisting in the establishment and development of small business in Canada by providing management counselling, information services and management training.

Counselling Assistance to Small Enterprises (CASE) is responsible for ensuring that an effective, efficient and affordable counselling service is available to the small business community. The Information Services Section ensures that all branches are kept up to date on federal government assistance programs, and publishes booklets on small business topics. The management training section is responsible

for developing and producing courses, seminars, clinics, workshops, and conferences aimed at improving the management skills of small business owner-managers.

Regional offices and branches are responsible for the efficient operation of all management services activities in their region or geographical area and for ensuring that the general public has access to the Bank's management counselling, information, and training services.

### Manuals

- FBDB Circular Manual — policy and procedures of all departments of the Bank
- Management Services Policy Manual — a description of the various activities and policies as they relate to a branch operational level
- Small Business Information Service Training Manual — a programmed learning device for introducing new management services personnel to the procedures of the Small Business Information Service
- CASE Co-ordinator's Operating Manual — a manual for the co-ordinator in each CASE office describing CASE policy and procedures

## Management Counselling Service

This service counsels business persons on how to engage in small business in Canada through the facilities of the Counselling Assistance to Small Enterprises (CASE) program.

## Information Services Section

This section operates an enquiry and referral service about government assistance programs for small business for the Canadian public. It also writes, publishes, and distributes to the public a continuing series of booklets on small business topics containing information and advice pertinent to small business. The section holds information sessions and exhibits for the general public to publicize various assistance programs for small business, including the Bank's financial and management services.

## Management Training Service

This service presents a continuing program of small business and management seminars to the general public across Canada. In conjunction with business associations and small businesses, the service presents management seminars oriented toward specific industries (joint seminars) to specific groups of business people. It also writes, publishes and distributes a series of adult education courses on small business management (owner/manager courses), to provincial and territorial ministries of education. In addition, it sponsors, organizes, and supports workshops, conferences, and clinics for the promotion of good management practices within small businesses.

## Classes of Records

---

BDB/FLS-005    *Formerly Identified as:*    FBDB-10  
**Reports**

*Description:* Activity reports prepared by Financial Services at head office, the regions and branches, including reports of accounts in arrears, equity investments, write-offs, and disbursements. *Topics:* Reports — head office, region and branches on accounts (over \$400,000) in arrears more than one month; progressive reports; estimate of possible losses; equity investments report (monthly and semi-annually); summary of write-offs and review report; applications declined; report on operations; regional activity schedule; report

## FEDERAL BUSINESS DEVELOPMENT BANK

analysis of accounts by category; report on loan authorizations; liability reports; loans partially disbursed; recoveries expected on accounts written off; monthly report on loans fully undisbursed and semi-annual investment return reports.

**BDB/FLS-010** *Formerly Identified as:* FBDB-20

### **Policy**

*Description:* Information on Bank lending policy and, in particular, its policy with respect to the availability of funds elsewhere, commitment and standby fees, prepayment indemnities, interest rates, and refinancing of funds. *Topics:* Availability of funds; change of ownership; types of business; commitment and standby fees; interest rates; refinancing; prepayment indemnity; working capital; credit bureaus.

**BDB/FLS-015** *Formerly Identified as:* FBDB-30

### **Other Sources of Financing**

**BDB/FLS-020** *Formerly Identified as:* FBDB-40

### **Loans, Guarantees and Other Types of Financing**

*Description:* Information on submission and authorization procedures, disbursements and category classification, as well as policy, procedures and correspondence related to other forms of financing. *Topics:* Superseding and supplementary credits; closely related accounts; leasing; interim bridge financing; conditional sales contracts; joint loans; disbursements; category classification and write-offs.

**BDB/FLS-025** *Formerly Identified as:* FBDB-50

### **Loan Accounting and Processing System (LAPS)**

*Description:* Database containing accounting and statistical information on Bank loans, investments and guarantees. The initial data is entered from the loan authorization form and is continually updated through the administration of a customer account. *Topics:* Customer identification — name, address, branch, industry code; category code, zone code; loan information — type of loan, loan category, investment, guarantee, disbursement, payment and write-off information. *Storage Medium:* Computer disk or tape. *Retrievability:* Files arranged by customer number.

**BDB/FLS-030** *Formerly Identified as:* FBDB-60

### **Accounts History File**

*Description:* Statistical information on all (past and present, dormant and active) loans, guarantees, investments and customer accounts since 1944. *Topics:* Account number; date authorized; geographical code; industrial code; original maturity date; actual maturity date. *Storage Medium:* Computer tape. *Retrievability:* Files arranged by customer number.

**BDB/FLS-035** *Formerly Identified as:* FBDB-70

### **Dead Loan File**

*Description:* Statistical information on all loans. *Topics:* Account number; name; type of financing; zone codes; modifier; interest rate; statistical codes; authorization date; maturity date; gross authorized; net authorized and write-offs. *Storage Medium:* Computer tape. *Retrievability:* Files arranged by customer number.

**BDB/FLS-040** *Formerly Identified as:* FBDB-80

### **Support Groups**

*Description:* Correspondence on support groups which provide analysis and research on credit submissions. *Topics:* Project Research Services; the Project Analysis Group, and Special Services.

**BDB/FLS-045** *Formerly Identified as:* FBDB-90

### **Investments and Venture Capital**

*Description:* Correspondence, policy, procedures, and records related to disbursement and monitoring of funds where there is an investment or venture capital factor. *Topics:* Enquiries; submission and authorization procedures; policy and procedures on superseding and supplementary proposals; disbursements; monitoring of investments; under-writing; mergers; acquisitions and divestitures; arrears; category classification; write-offs.

**BDB/MTS-050** *Formerly Identified as:* FBDB-100

### **Management Services**

*Description:* Basic administrative records of management services, including publicity for the various services, budgets, costs, and financial statements; reports and operating statistics for each activity, as well as miscellaneous information, copyright data, and correspondence with other organizations. *Topics:* Complimentary letters; correspondence related to publicity for information services; CASE and management training; budgets; operational plans; strategic overviews; accounting; auditors; sales taxes and systems development; activity reports — head office, regional and branch statistical reports, evaluations and related correspondence.

**BDB/MTS-055** *Formerly Identified as:* FBDB-110

### **Management Counselling**

*Description:* Information on policy matters governing the administration of CASE, accounting procedures and related correspondence. *Topics:* Engagement of co-ordinators; contract administration; co-ordinator conferences; recruiting of counsellors in each region; engagement of outside consultants; legal liability of counsellors; type of assignments; counsellor training; accounting and administration records; and the history of CASE.

**BDB/MTS-060** *Formerly Identified as:* FBDB-120

### **Information Services**

*Description:* Information on the activities of information services including publications, Small Business Information Service, federal and provincial programs, industry studies, enquiries from the public, and exhibits. *Topics:* Minding Your Own Business (MYOB) series; Small Business News; industry studies; small business statistics; Small Business Information Service (procedures, training, information sessions and enquiries); Small Business Week; Business Management Award; trade show exhibit.

**BDB/MTS-065** *Formerly Identified as:* FBDB-130

### **Management Training**

*Description:* Information on audio-visual aids, courses, federal-provincial conferences and relations, joint seminars with other organizations, seminars, management clinics, TV studio, Small Business Institute program, training the trainers, management training workshops, research and development, graphic design. *Topics:* Audio-visual aids pertaining to joint seminars; management clinics; workshops; owner-manager courses and advertising; owner-manager course development and curriculum; FBDB provincial conferences; joint seminars with other associations or organizations; seminar development; management clinics; TV studio budgets, contracts, equipment purchases and rentals, production schedules; graphics department.

## Overall Responsibilities

The Department of Finance is the policy agency primarily responsible for advice to the government on the economic and financial affairs of Canada.

The Department deals with the performance of the Canadian economy in all important aspects — the growth and the sharing of output, employment and income, the stability of prices and the long-term development of the country. It is concerned with the harmony of all initiatives of federal departments or agencies which affect the economy. Finance is vitally concerned with trade, monetary affairs and other international forces bearing on Canada's domestic performance. The Department works constantly toward improved co-ordination of economic action between provincial governments and the Government of Canada.

This broad horizon of interest finds expression in the budget speech by the Minister of Finance. This core document of government policy plays a traditional role in reviewing the government's accounts and making proposals on both expenditures and revenues. In recent years, it has also provided an authoritative review of past, present and future economic factors affecting business and the nation's finances.

The Department analyzes and appraises the economic situation and prospects in Canada and in other countries of interest to Canada; advises on fiscal and other economic policies and measures; recommends measures to meet the requirements of the government within appropriate fiscal policies, by action in expenditure, lending, taxation, borrowing and cash management; advises on matters concerning the balance of payments, exchange reserves, international monetary and financial arrangements, coinage and related matters; participates in international negotiations and other meetings on trade, finance, taxation, economic development and other subjects and makes contributions to international finance institutions; advises on federal-provincial fiscal and economic relations policies, carries on discussions with provincial authorities and administers the various statutory payments to provincial governments; and administers statutes on guaranteed loans, the capital budgets and financing of Crown corporations and agencies.

In addition, the Minister has charge of the management and direction of the Consolidated Revenue Fund and the direction of all financial affairs of Canada not assigned by law to any other Minister.

## Organization

The Department comprises eight branches: Consultations and Communications; Fiscal Policy and Economic Analyses; Financial Sector Policy Branch; Federal-Provincial Relations and Social Policy; Economic Programs and Government Finance; International Trade and Finance; Tax Policy and Legislation; and Administration. Each has divisions responsible for specific policy subjects.

The Minister of Finance also reports to Parliament on the activities of the Bank of Canada, the Anti-dumping Tribunal, the Tariff Board, the Department of Insurance, the Inspector General of Banks and the Canada Deposit Insurance Corporation.

## Access Procedures

All requests for information under the *Access to Information Act* should be addressed to:

Access to Information and Privacy Co-ordinator  
Department of Finance  
Place Bell Canada, 24th Floor  
160 Elgin Street  
Ottawa, Ontario  
K1A 0G5  
Telephone: (613) 992-6921

## Access to Information and Privacy Division

The division is responsible for receiving, clarifying and processing the requests submitted under the *Access to Information Act* and *Privacy Act*. It contacts Records Management and the branch(es) concerned by request and provides guidance and information on the search, retrieval and first stage analysis. The division is also responsible for ensuring that the requirements of the legislation are met and for the in-depth analysis of the case before its review by the Minister. The division must reply to enquiries submitted in person, by phone or mail as well as receive members of the public wishing to examine records in person. The division also provides seminars to the Department on the legislation and related guidelines, policies and procedures.

## Consultations and Communications Branch

### Consultations Division

The division has the responsibility of developing a systematic long term approach to the consultative process. Towards this end, the division makes and maintains contacts in every sphere of economic activity. The division also participates in departmental decision-making and helps make consultations a permanent feature of economic policy development. In addition, the division promotes two-way communications with the private sector.

The division has four basic functions: to propose, organize and follow up ministerial consultations on the economy, including pre- and post-budget; to propose, organize and co-ordinate departmental consultations with the private sector; to establish and maintain a network of private sector contacts across the country and across the sectors of society; to formulate policy on private sector liaison and on the Department's need for consultations, and to prepare strategies for dealing with specific issues, in consultation with the respective branch or division.

### Communications Policy and Strategy Division

This division is responsible for the development of media and public relations strategies including: researching and writing major speeches for the Minister and Minister of State on the government's economic policies and initiatives, advising on the public environment, and preparing communication plans and strategies for the Department's major initiatives, including the budget.

### Information Services and Media Relations Division

This division is responsible for implementing the departmental media and public relations program. It carries out an extensive media relations program, including preparation of departmental and ministerial announcements and statements, special briefings, and arrangements for meetings and news conferences. It edits and publishes departmental publications, including a major annual review of the Canadian economy, and various reports to Parliament. It works closely with the publications and graphics sections in the design, production and national distribution of the budget speech and related documents. The division publishes weekly reports on media coverage of financial and economic news and on parliamentary activity of significance to the Department of Finance. A unit within the division deals with enquiries and correspondence on taxation and general economic issues.

### Visits and Conferences Division

This division provides expertise and service for the Department in the areas of conferences and meetings, consultations with the private sector, visits of foreign dignitaries and senior officials, protocol, ministerial and executive escort, and official hospitality. It also

maintains liaison with its counterparts in provincial governments, international organizations and foreign embassies in Canada, the private sector, and Canadian service industries. The division operates a "special services" support operation for the Department which produces and distributes important and sensitive documents.

### Office of the Inspector General of Banks

The Inspector General of Banks has the statutory responsibilities for the administration of the *Bank Act* and responsibilities under the *Quebec Savings Banks Act*. The Inspector General functions as the supervisory authority for banks and banking in Canada.

#### Manuals

- Manual of Reporting Forms and Instructions — assists chartered banks in the preparation of reports for supervisory purposes.

### FISCAL POLICY AND ECONOMIC ANALYSES BRANCH

In assisting the government to decide on and implement financial and economic policies and measures that will best accomplish its major economic and other objectives, the branch analyzes and appraises the ongoing economic and financial situation and short- and medium-term prospects in Canada, nationally, by province and by industrial sector, and the economic performance of other countries of interest to Canada; studies the fiscal position of the Government of Canada and recommends measures to meet its requirements within appropriate fiscal policies, through expenditure, lending, taxation, debt management and cash management; recommends debt management policies for agent Crown corporations; studies the fiscal position of provincial governments; and maintains liaison with the Bank of Canada in the areas of monetary policy and the foreign exchange market, as well as with the Office of the Inspector General of Banks and the Department of Insurance concerning the regulation of financial institutions.

#### Fiscal Policy Division

The division advises on fiscal policy and analyzes its effects on the economy; analyzes and forecasts the financial requirements of the Government of Canada (this includes responsibility for quantifying the fiscal forecast framework for the government's overall medium-term expenditure plan); and monitors and analyzes the developing fiscal positions of other levels of government. In addition, the division reviews the form and content of the Public Accounts and other regularly published statements for which the Minister of Finance has responsibility under the *Financial Administration Act*.

#### Special Projects and Policy Analysis Division

The division undertakes research at the aggregate and sectoral level to assist in the development of economic projections and policy initiatives. The division identifies and analyzes policy options to deal with major structural issues. It is also responsible for preparing projections on energy prices and investments.

#### Economic Analysis Division

The division keeps the developing economic situation under review. It analyzes economic developments and prepares forecasts of production, employment, national income, consumption, capital spending, changes in the price level, the balance of payments and other major economic indicators. These analyses and forecasts are an essential ingredient of the view of policy for which the branch is responsible. The division also evaluates specific proposals and events often related to specific sectors or regions of the economy.

### Economic Forecasting Division

The division is responsible for the co-ordination, preparation and presentation of the economic forecast. It analyzes the economic situation in relation to the economic forecast and conducts both short-term and medium-term economic scenarios. The division also co-ordinates the development of macroeconomic modelling, particularly as it relates to economic forecasting and analysis. The provision and maintenance of electronic data processing facilities for the Department is also managed by this division.

### FINANCIAL SECTOR POLICY BRANCH

The branch has responsibility to the financial sector for policy analysis and advice, including the management of the federal government's borrowing program, the functioning of Canadian financial markets and institutions, and the macroeconomic impact of interest rates and the exchange rate.

#### Financial Institutions and Markets Division

The division has responsibility for analysis and policy development regarding financial institutions and markets in Canada. It provides current analysis of developments that have implications for Canadian institutions and markets. The division provides policy advice with respect to legislation applying to federally regulated financial institutions as well as other legislative or policy issues which have implications for financial institutions and markets. The division interacts with regulators of financial institutions, the Bank of Canada, responsible bodies at the provincial and international levels, and financial institutions, on matters affecting the financial sector.

#### Debt Management Division

The division has responsibility for policy analysis, recommendations and briefing with respect to the management of the public debt. The division has a detailed knowledge of securities markets procedures, and closely follows developments in these markets both in Canada and abroad. The division provides policy advice on debt management and makes recommendations on the amount, type, rate of interest and price, on all debt issues in both domestic and foreign markets. The division also provides some operational support to the government's borrowing activities. In addition, the division provides policy advice on the market borrowing activities, as well as advising the Minister in his or her role of approving individual debt issues of the Crown corporation.

#### Financial Analysis Division

The division has responsibility for financial market analysis and policy development from a macroeconomic perspective. It is comprised of a monetary analysis section and an exchange market section. The former has a specialized knowledge of economic theory, econometric techniques and financial markets in the United States. Its major functions include analysis of monetary policy and its interaction with fiscal policy; econometric modelling of Canadian financial markets; and the preparation of forecasts for the financial sector of the United States' economy. The exchange market section handles exchange rate and balance of payments analysis and manages the Exchange Fund Account, the chief repository of Canada's official international reserves.

### FEDERAL-PROVINCIAL RELATIONS AND SOCIAL POLICY BRANCH

The branch is responsible for providing policy advice on federal-provincial fiscal arrangements and social policy programs. It also administers certain programs of assistance to provinces.

## DEPARTMENT OF FINANCE

---

### Federal-Provincial Relations Division

The division is responsible for providing policy advice on federal-provincial fiscal arrangements, including joint occupancy of tax fields; revenue sharing with other levels of government; conditional and unconditional transfers to provincial governments; fiscal harmonization; and inter-governmental taxation. The division is responsible for the development, in consultation with the provinces, of legislation for and administration of the fiscal equalization program, provincial revenue stabilization program, the income tax collection agreements and other transfer payments to provinces; it is partially responsible for administering transfers to provinces for health and post-secondary education under established programs financing arrangements.

### Social Policy Division

The division is responsible for providing advice on policy and program development in the fields of manpower and employment, income security and socio-economic programs. The division provides advice on the social, economic and fiscal implications of such policies and programs. Manpower and employment policies include job creation, manpower training, unemployment insurance, minimum wage, labour standards, disadvantaged groups, immigration, and labour market adjustments. Income security policies include pensions for elderly, children's benefits and social assistance. Socioeconomic policies relate to housing, natives, northern development, national parks, justice, the penal system, health, education, culture, recreation, communications, human rights, status of women and research grants.

### ECONOMIC PROGRAMS AND GOVERNMENT FINANCE BRANCH

The branch is responsible for encouraging the development of policies and programs for Canada's natural resources; providing advice on program and policy formulation in the areas of industrial, regional and economic development, transportation, communications, science policy, food, agriculture, fisheries and forestry; carrying on the financial operations of government; formulating policies on government loans, investments and guarantees; and recommending the budgets of Crown corporations for the approval of the Governor-in-Council.

### Energy and Resource Policy Division

The division examines proposals made by other government departments on a variety of energy and resource policies, including nuclear and hydro-electric energy, renewable energy, oil and gas, minerals, northern development and environment; evaluates their economic and fiscal impact and makes recommendations to the Minister of Finance on the potential public benefits of these proposals.

### Economic Development Division

The division provides advice on program and policy formulation of other departments in the areas of industrial development, regional development, transportation, communications, science policy, economic development, food, agriculture, fisheries and forestry.

The division is also involved in inter-departmental policy reviews, consultations with the private sector, industry sector analysis, and project and program evaluation, as well as for the administration of existing programs through representation on inter-departmental or federal-provincial boards and committees.

### Corporate Finance Division

This division is the center of expertise within the Department for financial and micro-economic analysis of corporations in Canada. The division monitors the financial health of corporate Canada, providing

policy advice to the Minister of Finance on matters which are assigned by the assistant deputy minister on an ad-hoc basis and which require substantial analysis by the Department itself. The division provides expert assistance in financial analysis and evaluation in support of specific studies being led by other divisions in the Department or other departments. Finally, the division monitors corporate activity in the Canadian financial markets and undertakes in-depth studies and related research.

The division is organized into three sections: Special Projects and Methods Development; Corporate Financial Analysis; and Financing Policy Evaluation. Since the division's workload is highly variable in terms of both breadth and intensity, a considerable reliance is placed on expert consultants. A substantial part of the division's work is in-depth analyses or evaluations, resulting in research reports either with or without policy recommendations, depending on circumstances. Another responsibility of the division is to maintain strong communication links with the corporate sector and the financial institutions at a working level. This is accomplished through the exchange of information concerning, and co-operation in, special studies as well as through regular consultation on current policy issues.

### Crown Corporations Directorate

This directorate has been created to act as the focal point within the central agencies for the government's relations with Crown corporations, and as such is jointly managed by the Treasury Board Secretariat and the Department of Finance.

The directorate has been established through the integration of the resources responsible for the activities of Crown corporations in the Government Finance Division of the Department of Finance, and the Crown Corporations Division of the Treasury Board Secretariat.

This new directorate is a "common service unit" for both the Treasury Board Secretariat and the Department of Finance with regard to Crown corporations. It reports jointly to the assistant deputy minister of the Economic Programs and Government Finance Branch, and to the deputy secretary, Program Branch, of the Treasury Board Secretariat.

The directorate has primary responsibility for advising the President and members of the Treasury Board on the financial requirements of Crown corporations and their subsidiaries, and for the development of policy and legislation governing Crown corporations in general.

Specific responsibilities of the directorate include: the provision of advice and recommendations to the President and the Treasury Board on estimates and other submissions on Crown corporations; the provision of advice and recommendations to the President and the Treasury Board on the operating budgets, capital budgets and corporate plans of Crown corporations; the analysis of Cabinet documents on Crown corporations, including the preparation of briefing material and recommendations for the President of the Treasury Board; the development of policy and, periodically, legislation on matters of general applicability to Crown corporations, such as control by and accountability to government, as well as methods and frequency of reporting; and the undertaking of special projects, from time to time, at the direction of Cabinet or the Treasury Board, such as the valuation of designated Crown corporations or the acquisition and disposition of such corporations.

### INTERNATIONAL TRADE AND FINANCE BRANCH

The branch has primary responsibility within the Department for international trade, investment and economic co-operation; the Canadian customs tariff and other legislation governing imports; the international monetary system; and international development assistance and export financing.

## DEPARTMENT OF FINANCE

---

The branch represents the Department in international finance and trade negotiations, in international organizations, and in regional and sub-regional financial institutions.

### International Economic Relations Division

The division participates in the development of Canada's policies on international trade (including commodities), investment and economic co-operation. It provides advice on the effect of changes in the world trading environment on the Canadian economy and evaluates the trade implications of domestic economic policies and their impact on economic relations with other countries. It participates in the negotiation of bilateral and multilateral trade and economic arrangements with other countries, and in trade and commercial policy work in international organizations. The division is also responsible for legislation affecting countervailing and anti-dumping duties and safeguard measures, and it receives, reviews and makes recommendations on representations for changes in legislation governing imports.

### International Finance and Development Division

The division is responsible for international monetary and financial issues, including Canada's relations with the International Monetary Fund, Organization for Economic Co-operation and Development (OECD) matters, Canada's balance of payments, international reserves, the exchange rate and related matters.

The division concerns itself with broad development assistance issues and policies, Canada's financial and policy interests in international financial institutions, such as the World Bank and regional development banks; and Canadian involvement in the United Nations and related organizations.

The division is also responsible for advice and policy recommendations on financial matters related to developing and socialist countries, including balance of payments, support measures and debt rescheduling negotiations.

In addition, the division co-ordinates the formulation of departmental policy proposals on export financing, with particular reference to the activities of the Export Development Corporation (EDC), Canadian Commercial Corporation (CCC), credit grain sales and other programs of financial support to Canadian exporters. The division is also responsible for Canadian participation in the OECD export credits arrangement.

### Tariffs Division

The division investigates, conducts economic assessments and reports on proposals for amendments to the customs tariff and related matters, such as customs valuation and surtax. It prepares references to the Tariff Board and, reviews and makes recommendations on reports made by the Board. It participates in international trade negotiations, and reviews and makes recommendations on proposals affecting Canada's commitments under the General Agreement on Tariffs and Trade (GATT) and related agreements, to the extent they relate to the customs tariff, its bilateral trading arrangements, the generalized system of preferences for developing countries, and various customs, conventions and agreements.

### Government Finance Division

The division provides advice on policy formulation concerning loans, investments and guarantees by the government; recommends terms and conditions on government loans to Crown corporations and other borrowers, and calculates interest rates designed to recover the government's cost of borrowing; carries out viability analyses of commercial projects recommended for loan guarantees and sets the terms and conditions under which the guarantee is to be extended;

reviews and advises on capital budgets of Crown corporations and provides assistance to wholly-owned corporations proposing to raise funds for capital projects in the private markets; participates in legislative proposals for creating new Crown corporations and advises on required financial provisions; participates in the development of government policy on the direction, control and accountability of Crown corporations; and is involved in the review of the financial structures of Crown corporations and special financial problems of wholly-owned corporations.

### TAX POLICY AND LEGISLATION BRANCH

The branch undertakes analysis of, and makes recommendations on tax policy, and is responsible for maintaining a tax system that raises revenues and targets incentives to meet the government's goals.

The branch consists of the Tax Policy — Legislation Division, the Tax Analysis and Commodity Tax Division, Corporate and Resource Tax Analysis Division, and Tax Counsel Division. The divisions are responsible for assessing tax policy implications, but from different perspectives.

The branch is not responsible for the actual collection of taxes or the interpretation of tax law.

#### Tax Policy — Legislation Division

The division analyzes particular income tax-related issues applicable to persons, corporate entities and tax-exempt entities; provides advice and recommendations for changes in federal tax legislation other than sales and excise tax law, with particular emphasis on the commercial and legal implications of proposed changes; and analyzes proposals for tax changes submitted by all sources.

This division is also responsible for preparing tax legislation other than sales and excise tax laws, and aiding the Minister in guiding its passage through Parliament.

#### Tax Analysis and Commodity Tax Division

The responsibilities of the division include economic and quantitative analyses of federal tax policies in the areas of personal income tax, international tax, sales and excise taxes, and policies of all other levels of government that have an impact on the tax system.

The division is also responsible for preparing sales and excise tax legislation and aiding the Minister in its passage through Parliament.

#### Corporate and Resource Tax Analysis Division

The responsibilities of this division include economic and quantitative analyses of federal income tax policies in the areas of corporate income tax, international tax, and resources taxes for all other levels of government, under a variety of statutes and policies that have an impact on the tax system.

#### Tax Counsel Division

The division consists of lawyers from the Department of Justice who provide a range of legal services to the Tax Policy and Legislation Branch covering all aspects of income taxation. Its responsibilities include the drafting of the amendments to the *Income Tax Act* and related statutes as well as the giving of advice and legal opinions on income taxation matters.

#### Administration Branch

The role of this branch is to assist the secretary of the Treasury Board, the Comptroller General and the deputy minister of Finance in the management of the internal administration of their organizations

## DEPARTMENT OF FINANCE

and to provide financial, personnel, administrative and management advice to branches and divisions.

The branch consists of five divisions: Administrative Services; Financial Services; Personnel Division; Professional and Technical Services; and Systems Division. In addition to the functions of these divisions the branch is responsible for a number of other activities which are under the direction of the Director General. These are: task force organization; co-ordination of the Canada Savings Bonds campaign and the United Way campaign for the three departments; co-ordination of blood donor clinics; co-ordination of one-time campaigns; 1981 Census, Children's Hospital of Eastern Ontario fund-raising campaign; and administration of the Suggestions Award Program.

### Classes of Records

FIN/IGB-005 *Formerly Identified as:* FIN-10

#### **Inspector General of Banks**

*Description:* Material on the dealings of the Office with other supervisory bodies at the federal, provincial, international and private sector levels. *Topics:* Enquiries; bank closures; Bank for International Settlements — Committee on Banking Regulations and Supervisory Practices; Bank of Canada — returns; Canadian Bankers Association; Canada Deposit Insurance Corporation — trust companies; credit unions and co-operatives; federal-provincial relations; Government of Canada banking business; Royal Commission on Banking and Business.

FIN/IGB-010 *Formerly Identified as:* FIN-20

#### **Acts and Legislation**

*Description:* Material on provincial legislation which affects the Office; also information on the *Quebec Savings Banks Act*, for which the Office has responsibility. *Topics:* Provincial Acts and legislation; *Québec Savings Banks Act*.

FIN/IGB-015 *Formerly Identified as:* FIN-30

#### **Bank Act**

*Description:* Information on the two most recent revisions to the *Bank Act*. *Topics:* The *Bank Act*, administration, revisions of 1967 and 1980; Regulations.

FIN/IGB-020 *Formerly Identified as:* FIN-40

#### **Chartered Banks**

*Description:* Information on certain administrative sections of the *Bank Act*, practices of banks in specific activities and sectors, and complaints concerning banks. *Topics:* Amalgamations; appropriation for contingencies and income tax; auditors; by-laws; Canadian and foreign branches; complaints — accounts, cheques, deposits, loans, mortgages; customer services; incorporations; interest and discount rates; international returns; loans; signing officers; studies — accounting policies; supervision.

FIN/IGB-025 *Formerly Identified as:* FIN-50

#### **Chartered Bank — Investments**

*Description:* Material on the investments by banks in other enterprises in Canada and abroad. *Topics:* Canadian corporations — investments by banks; foreign corporations — bank investments.

FIN/IGB-030 *Formerly Identified as:* FIN-60

#### **Chartered Banks — Reports and Returns**

*Description:* Financial or statistical returns filed by individual banks in compliance with reporting requirements. *Topics:* Assets and liabilities — foreign currency, geographical distribution booked in Canada, regional distribution; cash and secondary reserves; classification of loans; deposits in liabilities payable in Canadian currency; revenues and expenses; shareholders and shares held;

consolidations; forms and instructions — monthly, quarterly, semi-annually, annually.

FIN/IGB-035 *Formerly Identified as:* FIN-70

#### **Chartered Banks — Securities**

*Description:* Material on the holdings by banks of the securities of other companies and the issue of securities by banks. *Topics:* Debentures and term preferred shares; securities issued by the banks — prospectuses.

FIN/IGB-040 *Formerly Identified as:* FIN-80

#### **Computer Communications**

*Description:* Material on the areas of computer communications which are of interest to the Office of the Inspector General of Banks. *Topics:* Banks in data processing; payments systems.

FIN/IGB-045 *Formerly Identified as:* FIN-90

#### **Foreign Banks**

*Description:* Information on the activities of foreign banks in Canada and the ability of Canadian banks to establish abroad. *Topics:* Non-bank affiliates — exemption orders; reciprocity and supervisory practices — United States; representative offices.

FIN/IGB-050 *Formerly Identified as:* FIN-91

#### **International**

*Description:* Material on international financial and monetary systems, currency exchange, international funding systems, nation risks and exposures, and international economic information. *Topics:* International exchange, funding and monetary systems; international financial situation; nation risks; Organization for Economic Co-operation and Development (OECD).

FIN/FPD-055 *Formerly Identified as:* FIN-100

#### **Fiscal Forecasting and Budgetary Analysis**

*Description:* Information on federal government expenditure planning, the forecasting of the government's fiscal position, the fiscal implications of the federal budget and the government's main estimates drawn up in conjunction with the Treasury Board of Canada. *Topics:* Budgets; expenditures and estimates; fiscal forecasts; revenues and taxes.

FIN/FPD-060 *Formerly Identified as:* FIN-110

#### **Provincial and Local Government Forecasting and Analysis**

*Description:* Information on the ongoing fiscal situation and prospects of the provinces and their local governments. *Topics:* Federal transfers to provinces; fiscal forecasts; inter-governmental fiscal relations; provincial and local fiscal situation and outlook.

FIN/FPD-065 *Formerly Identified as:* FIN-120

#### **Policy Analysis**

*Description:* Information on economic impact studies of potential fiscal measures and the preparation of macroeconomic policy recommendations. *Topics:* Fiscal policy; policy simulation; cyclically adjusted budget balances; international fiscal comparisons; econometric models; macroeconomic theory and policy.

FIN/FPD-070 *Formerly Identified as:* FIN-130

#### **Anti-Inflation Board**

*Description:* Information on the operations of the Anti-Inflation Board (AIB) from 1975 to 1979. It includes the remaining files and material previously held by the AIB. *Topics:* Chairman and executive office; communications; compensation — individual cases, audit files, projects, advertisements; economic research, prices and profits — individual cases; petroleum — policy introduction, professional incomes and regulated industries, resources and construction, technical information; professionals — individual cases — audit files, enquiries; minutes of board and agendas; records of decision. *Retrievability:* The AIB file classification is stored at the Public Archives Records Centre.

## DEPARTMENT OF FINANCE

FIN/FPD-075 *Formerly Identified as:* FIN-140

### **National Commission on Inflation**

*Description:* Information on the operations of the Commission, established in 1979. It includes the remaining files and material previously held by the Commission. *Topics:* Complaints; consumer bulletins; enquiries; food price index; monitoring.

FIN/SPA-080 *Formerly Identified as:* FIN-230

### **Special Projects and Policy Analysis**

*Description:* General information on the work of the division; forecasts and studies for the Department of Finance *Topics:* Budgets; national unity; provincial programs; equalization; medium-term projections — assumptions; productivity; investment and savings; inflation; wages; population; labour force; unemployment; balance of payments.

FIN/SPA-085 *Formerly Identified as:* FIN-240

### **Energy**

*Description:* Forecasts and studies on the effects of policies, programs and initiatives in the energy sector of the economy and material gathered during their preparation. *Topics:* Financing; assumptions; investments; strategies; prices — world and domestic; pipelines; supply and demand; petroleum incentive payments.

FIN/SPA-090 *Formerly Identified as:* FIN-250

### **Economic Policies**

*Description:* Forecasts and studies on the effects of Canadian and foreign economic policies, programs and initiatives on Canada's economy and background material. *Topics:* Economic developments; regional economic programs; economic commissions, committees, conferences and meetings; economic indicators, strategies; competition policy; sectors of the Canadian economy; monetary policy; anti-inflation policies; Anti-Inflation Board; National Centre for Productivity; Auto-Pact.

FIN/SPA-095 *Formerly Identified as:* FIN-260

### **Fiscal Policy**

*Description:* Forecasts and studies on the effects of the federal government's fiscal policy and material gathered during their preparation. *Topics:* Decontrol; government spending; national accounts; capital markets; fiscal framework; federal expenditures; revenue allocation.

FIN/SPA-100 *Formerly Identified as:* FIN-270

### **International Affairs**

*Description:* Forecasts and studies on the effects of Canadian and foreign initiatives in international trade and finance and material gathered during their preparation. *Topics:* Auto-Pact; balance of payments; imports and exports; multilateral trade negotiations; commodity trade; foreign ownership; Organization for Economic Co-operation and Development (OECD); General Agreement on Tariffs and Trade (GATT); International Monetary Fund (IMF); Senior Economic Advisers to the Economic Commission for Europe; economic summits.

### **Tariffs**

*Description:* General information on the development of policies on customs tariffs and trade, including acts, legislation and agreements. *Topics:* Bilateral trade agreements; surtaxes, drawbacks; preferences for developing countries.

FIN/TAR-680 *Formerly Identified as:* FIN-910

### **Budgets**

*Description:* Information on the preparation of the tariff content of federal budgets, including reports on requested rate changes and the drafting of legislation.

FIN/TAR-685 *Formerly Identified as:* FIN-920

### **Canadian Trade and Tariffs Committee**

*Description:* Information on briefs presented to the Canadian Trade and Tariffs Committee by all interested Canadian groups and, agenda and minutes of committee meetings.

FIN/TAR-690 *Formerly Identified as:* FIN-930

### **General Agreement on Tariffs and Trade (GATT)**

*Description:* Information on the preparation of detailed positions on tariff matters, customs valuation and to the conduct of negotiations on multilateral and bilateral trade issues under the GATT. *Topics:* Multilateral and bilateral trade negotiations; consolidations of, rectifications and modifications to Canada's GATT schedule on tariff bindings.

FIN/TAR-695 *Formerly Identified as:* FIN-940

### **Tariff Board**

*Description:* Information on the review of recommendations made by the Board in its reports to the Tariff Board proceedings and to briefs submitted by the private sector.

FIN/TAR-700 *Formerly Identified as:* FIN-950

### **Tariff Items**

*Description:* Information such as representations from industry for specific changes in rates of duty for individual tariff items or classes of items.

FIN/TPL-705 *Formerly Identified as:* FIN-1340

### **Tax Policy**

*Description:* General information on tax policy and legislation, including reports from Revenue Canada-Taxation, statistics, Royal Commission reports and studies on the subject of taxation; also information on indexing rates of taxation. *Topics:* Royal Commission on Taxation — briefs and submissions, reports and studies; White Paper on Tax Reform — studies; tax expenditures; personal income tax indexing; inflation indexing; Tax-Based Incomes Policy.

FIN/TPL-710 *Formerly Identified as:* FIN-1350

### **Budgets**

*Description:* Information on the preparation and tabling of the federal government's budget. *Topics:* Bills; black books; Minister's briefing notes, complaints and enquiries. *Special Access Note:* Specific years should be requested by date and calendar year.

FIN/TPL-715 *Formerly Identified as:* FIN-1360

### **Income Tax**

*Description:* General information on the *Federal Income Tax Act*, including material dealing with the development of policies, briefs and submissions from companies, groups and associations, and proposals from the public. *Topics:* Assessments, payments and returns; briefs and submissions; capital gains and losses; charities — Review of 1976; deferred and other income arrangements; excess profits tax; office or employment; partnerships; pensions and retirement plans; political contributions; resources — forestry, oil and gas oilsands; trusts — estates and gifts.

FIN/TPL-720 *Formerly Identified as:* FIN-1370

### **Income Tax on Business and Property**

*Description:* Information on the federal income tax on business and property, including material dealing with the development of policies and proposals from companies, groups, associations and individuals. *Topics:* Deductions; land and real estate; special cases.

FIN/TPL-725 *Formerly Identified as:* FIN-1400

### **Non-Resident Taxes**

*Description:* Information on the federal income tax on persons, businesses and corporations that are not residents of Canada, including material dealing with the development of policies and proposals from companies, groups, associations and individuals. *Topics:* Business and corporations; personal; withholding tax.

FIN/TPL-730 *Formerly Identified as:* FIN-1410

### **Personal Income Tax**

*Description:* Information on federal personal income taxes, including material dealing with the development of policies and proposals from companies, groups, associations and individuals. *Topics:* Deductions; education; exemptions; income maintenance; special groups.

FIN/TAC-735 *Formerly Identified as:* FIN-1430

### **Remissions of Taxes**

*Description:* Information on the remission of estate taxes, corporation income taxes, personal income taxes and all other forms of federal taxes, except sales and excise taxes.

FIN/TAC-740 *Formerly Identified as:* FIN-1440

### **Commodity Taxes**

*Description:* Information on advice and recommendations for changes, the development of detailed policy proposals and the drafting of amendments to legislation in the area of federal excise and sales taxes as they apply to goods manufactured or produced in Canada or imported into Canada, including proposals from the public or other government departments or agencies. *Topics:* Budgets; Commodity Tax Review Group submissions; compliance and collection; *Excise Act* and *Excise Tax Act*; federal-provincial considerations; international considerations; liability for tax; licensing and registration; studies; valuation of goods; wholesale tax project 1980-83.

FIN/TAC-745 *Formerly Identified as:* FIN-1450

### **Federal Sales Tax**

*Description:* Information on the federal sales tax charged on goods and services. *Topics:* Base Federal Sales Tax; clothing and footwear; construction materials and equipment for buildings; coverings and containers; educational, technical, cultural, religious and literary items; energy conservation products; farm and forest products; foodstuffs; fuels and electricity; gasoline and diesel fuel; goods affected by metric conversion; goods enumerated in customs tariff items; goods manufactured in institutions; health goods; marine products and fisheries; municipalities; purchases by manufacturers; sports equipment; transportation and construction equipment.

FIN/TAC-750 *Formerly Identified as:* FIN-1460

### **Refunds, Credits, Drawbacks and Remissions**

*Description:* Information on the refund and remittance of overpayments of federal excise and sales taxes. *Topics:* Transportation and construction equipment.

FIN/TAC-755 *Formerly Identified as:* FIN-1470

### **Special Excise Tax**

*Description:* Information on the excise taxes charged on imported goods. *Topics:* Air transportation; alcohol and tobacco products; energy; Oil Export Tax.

FIN/CRT-760 *Formerly Identified as:* FIN-1380

### **Capital Cost Allowances**

*Description:* Information on the capital cost allowances in the federal income tax system, including material dealing with the development of policies and proposals from companies, groups, associations and individuals. *Topics:* Equipment — transportation and construction; resources; Review of 1976.

FIN/CRT-765 *Formerly Identified as:* FIN-1390

### **Taxes on Corporations and Shareholders**

*Description:* Information on the federal income tax on corporations and shareholders, including material dealing with the development of policies and proposals from companies, groups, associations and individuals. *Topics:* Deductions; investment income; reorganizations; securities; special rules.

FIN/CRT-770 *Formerly Identified as:* FIN-1420

### **International Taxation**

*Description:* Information on all aspects of international taxation such as tax agreements with other countries and international organizations, taxation matters within other countries, privileges and immunities. *Topics:* Canadian tax agreements with other countries; Canadian tax agreements with the United Kingdom, the United States; international organizations; privileges and immunities within other countries and within the United States; Canada-U.S. comparisons.

FIN/GFD-775 *Formerly Identified as:* FIN-400

### **Government Finance**

*Description:* General information on the financial operations of the federal government, the management of the government's finances and the administration of certain funds for which the federal government is responsible. *Topics:* Public Accounts; receipt and deposit of public monies; signing authorities; Royal Commission on Banking and Finance; Special Purpose Money — Queen's Fellowship Fund, Inmate Trust Fund; trusts, estates and legacies; Supplementary Retirement Benefits Fund.

FIN/GFD-780 *Formerly Identified as:* FIN-430

### **Guaranteed Loans**

*Description:* Information on programs under which the government guarantees the repayment of loans made to certain individuals, groups and companies. *Topics:* Canada Student Loans Plan; Farm Improvement Loans; Fisheries Improvement Loans; Indian Economic Development Fund; Small Business Loan Program; Veterans' Business and Professional Loans; *Regional Development Incentive Act* Program. *Special Access Note:* Files on specific individuals, groups or companies should be requested by name.

## Background

The Department of Fisheries and Oceans is responsible for a wide range of fisheries activities including fisheries management and research in coastal and inland waters; fisheries economic development and marketing; international fisheries negotiations; oceanographic research; hydrographic surveying and charting; and the development and administration of fishing and recreational harbours.

The main legislative base for the Department is the *Department of Fisheries and Oceans Act*, which established the Department in April, 1979; and the *Fisheries Act*, enacted in 1867 in accordance with the responsibility for "sea-coast and inland fisheries" placed on the federal government by Section 91(12) of the *British North America Act*. The Minister of Fisheries and Oceans is responsible to Parliament for the administration of the laws governing Canada's fisheries.

The objectives of the Department are to assure:

- the comprehensive husbandry and management of Canada's fisheries resources through the protection, rehabilitation and enhancement of individual fish stocks and the aquatic habitat upon which these resources depend;
- the best use of fisheries resources, through a variety of measures affecting when, where, how and by whom these resources are harvested, processed and marketed to obtain the highest possible social and economic benefits;
- hydrographic surveying of Canada's coastal and inland waters for the production of nautical charts and other information necessary for safe navigation;
- the acquisition of knowledge of oceanic processes and environments so as to support activities related to defence, marine transportation, the exploitation of offshore energy resources and the management of the fishery resource and its aquatic habitat;
- the provision of a national ocean information service; and
- the provision and administration of a national system of harbours in support of commercial fishing vessels and recreational boating.

## Laws and Regulations

- Fisheries Act
- Department of Fisheries and Oceans Act
- Fisheries Development Act
- Fisheries Prices Support Act
- Fisheries Improvement Loans Act
- Freshwater Fish Marketing Act
- Canadian Saltfish Act
- Fish Inspection Act
- Coastal Fisheries Protection Act
- Great Lakes Fisheries Convention Act
- Pacific Salmon Fisheries Convention Act
- North Pacific Fisheries Convention Act
- Northern Pacific Halibut Fisheries Convention Act
- Northwest Atlantic Fisheries Convention Act
- Pacific Fur Seals Convention Act
- Fishing and Recreational Harbours Act
- Fisheries and Oceans Research Advisory Council
- Atlantic Fisheries Restructuring Act

## Overall Responsibilities

The federal government, under the *BNA Act*, has exclusive legislative jurisdiction over Canada's fisheries in coastal and inland waters, but

some provinces have been delegated certain administrative responsibilities in varying degrees. Thus, the Department is fully responsible for the management of all fisheries, both marine and freshwater, in four east coast provinces (Nova Scotia, New Brunswick, Newfoundland, and Prince Edward Island) and in the Northwest and Yukon Territories. In four inland provinces (Ontario, Manitoba, Saskatchewan, and Alberta) the management of all fisheries is a provincial responsibility. In Québec, the provincial government manages freshwater fisheries and certain marine fisheries, although the inspection of fish and fishery products for trade outside the province is undertaken by the federal department. Fisheries and Oceans has similar fish inspection responsibilities in all areas of Canada. In British Columbia, the fisheries for marine and anadromous species (i.e., fish that migrate from freshwater to sea) are managed by the federal department, but the provincial government manages freshwater fisheries.

## Organization

Fisheries and Oceans is made up of six main organizational components: Atlantic Fisheries, Pacific and Freshwater Fisheries, Ocean Science and Surveys, Marketing and International Fisheries, Policy and Program Planning, and Finance and Administration.

The Department is headed by a deputy minister and an associate deputy minister; each of the six organizational components is headed by an assistant deputy minister. In addition, there are several other administrative or special units which report directly to the deputy minister, namely, Small Craft Harbours, Legal Services, Personnel, and Communications.

The fisheries component of the Department has regional offices in St. John's, Halifax, Moncton, Burlington, Québec City, Winnipeg, and Vancouver; each is headed by a director general.

Ocean Science and Surveys administers regional offices in Dartmouth, Burlington, and Victoria, also headed by directors general, and in Québec City, administered by a director. A total of 1,200 facilities is managed by the Department, the major facilities being inspection laboratories, biological research stations and oceanographic research institutes.

The Department has a staff complement exceeding 6,000 and an annual budget of approximately \$600 million.

Two agencies report to Parliament through the Minister of Fisheries and Oceans: the Canadian Saltfish Corporation and the Freshwater Fish Marketing Corporation.

## Fisheries Management

The Fisheries Management programs of the Department are intended to ensure maximum economic and social benefit to Canada from the use of fisheries and other aquatic living resources of coastal and inland waters. Other programs are directed at conserving these resources and maintaining the aquatic environment in a healthy, productive state.

An important responsibility is the surveillance and management of fisheries within the 200-mile exclusive fisheries zones established since 1977 on both the east and west coasts, and the associated research and stock assessments needed for rational decisions on sharing access to the fisheries resource among Canadian and foreign fishing fleets.

Specific programs are carried on in all regions of Canada to ensure the conservation and protection of fisheries resources and, within the limits of resources available, their development and expansion; the upgrading of the quality of fish and fishery products; and assistance to fishermen and industry in the development of new products and of more effective harvesting, production and marketing techniques.

Programs of fisheries and aquatic research directly supporting national and international fisheries activities are conducted from

## DEPARTMENT OF FISHERIES AND OCEANS

---

centres located in key coastal and inland areas. These include the Northwest Atlantic Fisheries Centre, St. John's, Newfoundland; the Bedford Institute of Oceanography, Dartmouth, Nova Scotia; the St. Andrews Biological Station, St. Andrews, New Brunswick; the Arctic Biological Station, Ste-Anne-de-Bellevue, Québec; the Canada Centre for Inland Waters, Burlington, Ontario; the Freshwater Institute, Winnipeg, Manitoba; and the Pacific Biological Station, Nanaimo, British Columbia; as well as research units in Halifax, Québec City, Vancouver, and Moncton.

The scope of fisheries and aquatic research is extremely varied. It covers studies in biology, ecology, population dynamics, distribution and migrations of fish, marine mammals and shellfish, and the forecasting of fish stock abundance. Studies are also directed towards the quality control of fish catches and fishery products; the development and application of aquaculture techniques in salt and fresh water; the study of relationships among species; and the calculation of sustainable yields of fish and marine mammal stocks harvested in the commercial and recreational fisheries. In addition, specialists carry out social and economic analyses to assist in policy formulation for all significant aspects of fisheries use, potential and management.

### Economic Development and Marketing

The Department provides support in various ways to strengthen the fishing industry's capabilities to market and promote the sale of fish products and obtain the most favourable prices. In addition, long-range and strategic planning aimed at the orderly economic development of the industry is carried out. This function involves the collection, analysis and distribution of data and information on fish catches, production and trade.

Various financial assistance programs are available to commercial fishermen, including the Fishing Vessel Assistance Program and the Fishing Vessel Insurance Plan. The Department also administers loans under the *Fisheries Improvement Loans Act*.

Working closely with the Department of External Affairs, departmental staff are actively involved in negotiating agreements or treaties on fishing rights or trade arrangements with foreign countries. Currently Canada participates in 11 international fisheries commissions and is involved in 10 other international agreements concerned with the management of Canadian fisheries under international regulation or protection of the marine environment.

Departmental staff have played a key role in the development and negotiation of Canada's position in the United Nations' Law of the Sea Conference, and also provide departmental input into Canadian fisheries and marine overseas aid programs administered through such organizations as the Canadian International Development Agency and the Food and Agriculture Organization of the United Nations.

### Ocean Science and Surveys

Under the broad heading of Ocean Science and Surveys is grouped an extensive range of programs contributing to the management and development of renewable and non-renewable ocean resources and to the understanding of ecological processes within the aquatic and marine environment, as well as the precautions and remedies required to restore and protect that environment and the resources associated with it.

Field programs are conducted from the Bedford Institute of Oceanography in Dartmouth, Nova Scotia; the Institute of Ocean Sciences at Patricia Bay, British Columbia; the Canada Centre for Inland Waters, Burlington, Ontario; and the Champlain Centre for Marine Sciences and Surveys, Québec City, Québec.

In addition to physical, chemical and biological oceanographic research, activities include the operation of a marine environmental

data service which collects and distributes oceanographic and wave climate information, tide and water level measurements, and other related data.

Staff members are involved in ecological and environmental studies related to the marine and aquatic environment, directed primarily toward the control of pollution and the determination of safety margins of contaminants as they affect aquatic life. They also respond to the constant demand for aquatic resource inventories and environmental impact assessments, particularly for projects with potential effects on aquatic life in the ecologically delicate Arctic and in sheltered coastal waters such as the Gulf of St. Lawrence and the Strait of Georgia.

A major responsibility of Ocean Science and Surveys is the planning and implementation of a national program of hydrographic surveying and charting of navigable coastal and inland waters. The hydrographic unit (Canadian Hydrographic Service) traces its history to 1883, when the Canadian government started a survey of Georgian Bay. In addition to producing navigation charts for coastal and inland waters, this work includes the production of special charts and maps for pleasure craft, the fishing industry, territorial defence and offshore exploration. Publications to assist navigation, such as Canadian Tide and Current Tables and Sailing Directions, are also produced.

### Small Craft Harbours Directorate

This directorate develops, maintains, upgrades and administers fishing and recreational harbours and marine facilities at approximately 2,300 locations across Canada. About two-thirds of these serve the commercial fishery, while the remainder are for recreational and mixed uses. Regional directors' offices are located in Vancouver, Winnipeg, Burlington, Québec City, Moncton, Halifax and St. John's. Each office employs staff with engineering expertise, and includes administration, financial and property services. Harbour managers are employed at some of the busier harbours. The Department of Public Works acts as technical agent and supplies professional services related to property acquisition, engineering, construction and contracting.

The directorate's main role is to provide harbour facilities and improvements (e.g. wharves, breakwaters, dredging), services (e.g. water, electricity), and harbour administration that enable the fishermen to safely and economically carry out their business. The directorate also assists other levels of government and the private sector on a cost-shared basis in the development of public facilities in support of recreational boating and sports fishing.

### Ship Operations

To carry out its varied responsibilities in the areas of fisheries protection, marine and oceanographic research, and hydrographic surveys, the Department operates more than 600 vessels.

Fisheries surveillance and protection vessels, about 100 in all, vary from 61.5 metres to small launches that patrol inshore marine waters and inland lakes and rivers. Fisheries research vessels, oceanographic research and hydrographic survey vessels operate in coastal and inland waters. These vessels also play a major role in the federal government's search and rescue operations, and have been credited with numerous life-saving acts at sea and in inland waters.

### Key Contacts

#### General Information

Informal requests for information continue to be handled by the communications offices at headquarters and in the regions. Information includes press releases, speeches, brochures and pamphlets. Requests should be directed to either the

## DEPARTMENT OF FISHERIES AND OCEANS

---

Communications Branch  
Department of Fisheries and Oceans  
200 Kent Street  
Ottawa, Ontario  
K1A 0E6

or to the communications offices of the regional offices in St. John's, Halifax, Dartmouth, Moncton, Québec City, Burlington, Winnipeg, Vancouver and Victoria (see below for addresses).

### Libraries

The libraries of the Department are the main repository for publications, reports and studies pertinent to the management of the fisheries and oceans of Canada. The libraries are information resource centres where access forms are available and assistance given to ascertain if information requested is already available in the public domain and does not require formal access procedures. Every effort is made to encourage this informal access to information to eliminate unnecessary paperwork and, in some instances, financial implications.

The Department's libraries have been designated under Section 71 of the *Access to Information Act* as reading rooms where the public may inspect manuals used by employees of the institution in administering or carrying out programs or activities that affect the public.

The addresses of departmental regional libraries are listed below.

### Access Procedures

All formal requests for information under the *Access to Information Act* should be sent to the Access to Information Co-ordinator, in care of the appropriate regional library of the Department (see previous list). To contact the Co-ordinator directly, write to

Access to Information Co-ordinator  
Department of Fisheries and Oceans  
200 Kent Street  
Ottawa, Ontario  
K1A 0E6  
Telephone: (613) 993-0991

Enquiries should clearly identify the class of record requested and any additional information which will assist in locating information within departmental records.

### Atlantic Fisheries Service

Headed by the assistant deputy minister (Atlantic Fisheries), this service is responsible for the planning, direction and co-ordination of field operations relating to fisheries management in Newfoundland, Nova Scotia, New Brunswick, Prince Edward Island and Québec. This service is also responsible for the development and implementation of commercial and recreational fisheries policies and programs in those areas. The work involves resource allocation, implementation of development programs, fulfilment of foreign arrangements, and conservation, protection and enhancement of fishery resources and fish habitat on the Atlantic coast. The service has national responsibility for fisheries research and the national enforcement program, while also assisting fishermen and the fish processing sector in achieving more effective harvesting and production through financial and technical support.

### Atlantic Operations Directorate

Headed by the director general (Atlantic Operations), this directorate is responsible for providing advice and support to the assistant deputy minister (Atlantic Fisheries) on issues related to fisheries management in the various regions of the Atlantic coast. This involves co-ordinating policies and programs on a national basis and working with the regions towards the surveillance and management of the 200-mile exclusive fisheries zones. Specifically, these programs include the design and administration of a licensing system and resource allocation, including yearly fishing plans and the co-ordination of enforcement activities. The directorate also works towards quality improvement, and the provision of assistance to fishermen and

## DEPARTMENT OF FISHERIES AND OCEANS

---

processors in the development of new methods of harvesting and processing.

### Atlantic Regional Offices

There are four regional offices on the east coast, each headed by a director general who reports to the assistant deputy minister (Atlantic Fisheries). The day-to-day responsibility for fisheries management and operations rests with the regional office. This includes implementing decisions dealing with management and conservation, enforcement of fisheries regulations (including the operation of a major ocean patrol and research fleet), industrial development, and fish inspection, marketing and promotion. Scientific research in support of management and development of fisheries and fish habitat is conducted at regional fisheries research branches. Statistics on fisheries operations are collected on an on-going basis. Administration of the fishing vessel insurance and vessel construction assistance programs are handled within the regions, as is the management of federally-funded small-craft harbours programs. The regional offices also undertake the inspection of fish processing and handling facilities for fish entering the inter-provincial or export trade and for imported fish products. Although the federal government has exclusive jurisdiction over both coastal and inland fisheries, some provinces have accepted to varying degrees the administrative responsibility for their fisheries. The freshwater fisheries operation in Québec is an example of this delegated authority.

#### Scotia-Fundy Region — Halifax

This regional office is responsible for the direct day-to-day management of both marine and freshwater fisheries, as outlined above, in most of Nova Scotia and southwestern New Brunswick.

#### Newfoundland Region — St. John's

This regional office is responsible for the direct day-to-day management of both marine and freshwater fisheries, as outlined above, for the province of Newfoundland except that part bordering on the Gulf. The region also administers a Bait Program through which it supplies bait to Newfoundland fishermen from 16 key bait depots and 25 small holding units.

#### Gulf Region — Moncton

This regional office is responsible for the direct day-to-day management of both marine and freshwater fisheries, as outlined above, for all areas bordering on the Gulf of St. Lawrence, including all of Prince Edward Island and parts of New Brunswick, Nova Scotia and Newfoundland.

#### Québec Region — Québec City

This regional office is responsible for the direct day-to-day management of marine fisheries for all the province of Québec.

### Fisheries Research Directorate

Fisheries research is conducted to provide the scientific basis for the management and development of Canada's fisheries and fish habitat. Research programs are focused on resource assessment; aquaculture and resource development; and habitat assessment and development. Fisheries research establishments consist of the Fisheries Research Directorate in Ottawa and seven regional Fisheries Research branches. The Fisheries Research Directorate in Ottawa is headed by a director general and provides a national focus for fisheries research, co-ordinates relevant activities among regions, and provides advice and support to assistant deputy ministers (Atlantic Fisheries Service and Pacific and Fresh Water Fisheries).

The Ontario, Western and Pacific regional branches report to the assistant deputy minister (Pacific and Fresh Water Fisheries) through their respective directors general.

The following Fisheries Research establishments report to the assistant deputy minister (Atlantic Fisheries Service):

- Fisheries Research Branch, Newfoundland Region — is based at the Northwest Atlantic Fisheries Centre, St. John's, Newfoundland;
- Fisheries Research Branch, Scotia-Fundy Region — has its headquarters and laboratories in Halifax; also operates a biological station in St. Andrews, New Brunswick, and laboratories of the Marine Fish Division at the Bedford Institute of Oceanography;
- Fisheries Research Branch, Gulf Region — has its headquarters and main laboratories at the regional headquarters in Moncton, and additional laboratories at the University of Moncton;
- Fisheries Research Branch, Québec Region — has its headquarters at the regional headquarters in Québec City; also operates the Arctic Biological Station in Ste-Anne-de-Bellevue, and laboratories at the University of Québec in Rimouski.

### Manuals

- Manual of Compliance, Fish Health Regulations
- Laboratory Manual for Chemistry
- Laboratory Manual for Bacteriology
- Inspection Officers' Procedure Manual
- Fishing Vessel Insurance Plan Operations Manual

### Scotia-Fundy Region

- Observers' Field Manual, Domestic and Foreign Fishing Vessels
- Fisheries' Officers Enforcement Policy Manual

### Newfoundland Region

- Officers' Manual for Interpretation and Enforcement of the Fisheries Acts and Regulations
- Foreign Observer Program Operations Manual
- Observer Program Training Manual

### Pacific and Freshwater Fisheries Service

This service is responsible for the planning, direction and co-ordination of field operations related to the marine and anadromous fisheries in British Columbia and all fisheries in the Yukon and Northwest Territories. Work in these areas includes resource allocation, implementation of development programs and fulfilment of foreign arrangements. In Ontario, Manitoba, Saskatchewan, and Alberta, the federal government supports a strong research program, carries out inspection of fish and fish products and enforces federal fisheries regulations. The provinces are responsible for all other aspects of fisheries management, although the federal government develops and implements commercial fisheries policy for the short- and medium-term in these areas. The service also has national responsibility for fish habitat (including enhancement activities).

### Fisheries Operations Directorate

This directorate is responsible for providing advice and support to the assistant deputy minister (Pacific and Freshwater Fisheries) on issues related to fisheries management in the various regions of western Canada. This involves co-ordinating and working with the regions for the surveillance of the 200-mile exclusive fisheries zones, research and stock assessments, conservation programs, fish and fishery products upgrading, and assistance to fishermen and processors in the development of improved and new methods of harvesting and processing.

### Fish Habitat Management Branch

This branch provides advice on fish habitat management issues in all regions of Canada. This involves the preparation of national policy

## DEPARTMENT OF FISHERIES AND OCEANS

---

guidance on habitat affairs and co-ordinating work with the regions. Activities relate to habitat protection; conservation; compliance with legislation; and restoration and development. The branch also advises on research in support of departmental protection of fish and fish habitat.

### Pacific and Freshwater Regional Offices

The Pacific and Freshwater Fisheries Service is divided into three regional offices.

#### Pacific Region — Vancouver

This regional office deals with both the on-going management concerns and the final stages of program development and evaluation for the marine and anadromous fisheries in British Columbia, and is responsible for maintaining liaison with industry and the public in all matters related to the resource and industry. The office deals with inland and offshore resource management and conservation in the areas of commercial, recreational and native food fisheries; provides inspection services; enforces fisheries regulations and administers the fishermen's insurance program; oversees the licensing system and resource allocation while carrying out biological and technical research on fish and other aquatic fauna, and methods of harvesting and processing them. Federally funded small-craft harbours in the region are managed through the regional office, which also undertakes the design, construction and operation of facilities within the Salmonid Enhancement Program. Scientific and technical information necessary for on-going fisheries management and future planning is gathered within the region, particularly as it relates to fish habitat management. Technical support is provided to fishermen in the areas of catching, handling, onboard freezing, stowing and marketing of fish.

#### Western Region (The Freshwater Institute) — Winnipeg

The Freshwater Institute, which is the western regional office of Fisheries and Oceans, shares responsibility for fisheries management with the provincial governments of Manitoba, Saskatchewan and Alberta. While the regional office undertakes the inspection and certification of fish processing and handling facilities, most other aspects of fisheries management are the responsibility of the provinces. Management programs related to both marine and freshwater species in the Northwest Territories, however, are under federal control. The regional office sponsors services which promote the transfer of technology for practical applications in the fields of engineering, design, process and product development, and provides engineering support to industry. It administers the fishing vessel insurance plans throughout the region and also undertakes the collection of fisheries statistics and the economic analysis of regional operations as a basis for policy recommendations. The region is also responsible for the direct administration of the federally funded small-craft harbours program.

Management of fisheries (including marine mammals) in the Northwest Territories, covers surveillance of fisheries and enforcement of fisheries regulations; the implementation of resource allocations and conservation programs; and extensive research. The region participates as the representative of the Department on various inter-agency committees and task forces concerned with protecting and developing fisheries resources in northern Canada. The Freshwater Institute has a strong research program which is carried out within the region and in co-operation with other regions.

#### Ontario Region — Burlington

The Ontario provincial government shares responsibility for the administration of the fisheries sector. While the province is responsible for the conservation and regulation of the sport and commercial fisheries, the Department undertakes a number of programs to complement the provincial management effort and

improve returns to the fishing sector. These programs include the inspection and certification of imported and domestic fish products, and fish processing and handling facilities; and the provision of engineering support to the fishing industry and sponsorship of product and process development studies to maximize benefits from the resource. The Fishing Vessel Insurance and Vessel Assistance Programs are also administered federally. In addition, the region carries out a research program directed primarily at providing an understanding of the effects of pollution and habitat degradation on the fishing resources of the Great Lakes. To allow rehabilitation of desirable fish stocks in the Great Lakes, a program to control the sea lamprey is administered. Finally, the region is responsible for the construction and management of the federal program of small-craft harbours in Ontario, and provides marketing services to the commercial fishing industry.

### Manuals

- Departmental Fish Inspection Manual
- Laboratory Manual for Chemistry
- Laboratory Manual for Bacteriology
- Inspection Officers' Procedure Manual
- Fishing Vessel Insurance Plan Operations Manual

### Pacific Region

- Fisheries Officers' Training Manuals

### Western Region

- Lake Classification Inspection Procedures Manual
- Plant Inspection Procedures Manual
- Occupation Health and Safety Manual

## Policy and Program Planning Service

The service is responsible for developing a strategic policy framework to provide the Minister and the Department with a firm basis for assessing current conditions and future directions for Canadian fisheries and ocean policies. It provides policy advice to the Minister, deputy minister and associate deputy minister, and briefs them on all departmental proposals going to Cabinet, as well as on those originating from other departments which have implications for the Department of Fisheries and Oceans; it recommends fisheries-related policies and programs for assisting the development of viable industries, and for fostering the overall economic and social development of regions where the fishery resource plays an important role; provides advice on the economic performance of fisheries and oceans industries, and on the related impact of federal decisions. The service also develops specific policies and programs in areas of national concern, such as native fisheries and recreational fisheries; provides advice on constitutional matters and federal-provincial relations affecting fisheries and oceans; undertakes surveys and generates statistics necessary for the development of fisheries policies; represents the federal government and the Department in the negotiation of fisheries and ocean science matters; and formulates and implements program evaluation policies, strategies and plans.

## Strategic Policy and Planning Directorate

The directorate is responsible for developing the Department's strategic priorities, and ensuring that they are consistent with the overall priorities of the federal government. It also implements an overall framework for the development of strategic policy in all areas respecting fisheries and oceans policies; provides briefings to the Minister, deputy minister and associate deputy minister on all departmental proposals going to Cabinet, as well as on those originating from other departments which have implications for the Department of Fisheries and Oceans; and develops policy positions with respect to native affairs in the fisheries.

## DEPARTMENT OF FISHERIES AND OCEANS

---

### Economic and Commercial Analysis Directorate

The directorate is responsible for developing and recommending strategies for maximizing the economic and commercial success of the fisheries and oceans sector; assessing the effectiveness of policies and programs in promoting economic, commercial and regional development related to the fisheries and oceans sectors; and conducting economic analyses of domestic and international economic developments affecting fisheries and oceans development. It also develops a framework for all economic and commercial analysis undertaken in the Department, whether in Ottawa or the regions; analyzes the effects of government decisions on commercial enterprises in the fisheries and oceans sector; and recommends policies for enhancing commercial viability. In addition, the directorate generates national fisheries statistics and co-ordinates regional fisheries statistics programs; develops policies and programs for the recreational fisheries; develops economic models to facilitate quantitative economic analysis and forecasting; and manages the Department's publication of economic and commercial studies.

### Federal-Provincial Relations Division

The division is responsible for developing and maintaining a federal/provincial/territorial overview for the Department; and developing and maintaining a liaison and response capacity with the Federal-Provincial Relations Office and other central agencies on all federal/provincial issues affecting the fisheries and oceans sector. It also co-ordinates and manages the development of federal/provincial/territorial issues which cut across major services within the Department of Fisheries and Oceans; provides advice on constitutional matters affecting the Department's programs and policies; and identifies federal/provincial/territorial irritants and develops proposals for resolution.

### Program Evaluation

The division is responsible for designing and developing annual and multi-year evaluation plans, and for implementing them as approved by senior management; and for undertaking specific evaluation studies, including recommendations to the deputy minister, associate deputy minister and other senior executives, for the discontinuation, modification or confirmation of policies and programs. It also develops frameworks for evaluation so that new policies and programs generate the data necessary for thorough evaluations; and undertakes special reviews and studies as required by the deputy minister/associate deputy minister.

### Marketing and International Fisheries Service

The branch is responsible for the development and implementation of marketing and international policies for Canada's fishing industry. This involves the development and implementation of policies and programs for the increased sale and consumption of Canadian fish products; the overall direction of international marketing policies; the representation of Canadian and departmental interests in both bilateral and multilateral international negotiations; increasing the overall presence of the Canadian fisheries and related sectors in developing countries through a variety of international assistance programs; and increasing fish content in the food aid program.

The branch is comprised of four major areas of responsibility: marketing, international fisheries, inspection, and liaison with Crown corporations.

### Marketing Directorate

This directorate is responsible for the development and implementation of marketing policies and programs to ensure that maximum economic and social benefits arise from the fisheries

resource. It assists in the identification of new markets and in the development of existing markets; and supports and strengthens the fishing industry's capacity to market its products. This includes market assessment, forecasting, market development and promotion; and the provision of business systems to improve profitability. It analyzes supply and demand, and monitors domestic and international market conditions and developments. The directorate also assists in product and market development.

The directorate comprises various branches, including Marketing Intelligence and Industry Services, Promotions, and Market Development.

### International Directorate

The directorate is responsible for directing and overseeing the implementation of bilateral fisheries treaties with 12 governments; bilateral relations with countries with which Canada does not have the usual treaties (e.g. the U.S.A., Mexico, Iceland and numerous others), and Canadian obligations as a member of international organizations; the *Coastal Fisheries Protection Act*, and the *Territorial Seas and Fishing Zones Act*; and general international policies such as those set out in the Atlantic Fisheries Task Force Report.

In performing these functions the directorate plans all international fisheries policies; co-ordinates with other parts of the Department and other governmental agencies; negotiates agreements with other countries; provides functional direction for the work by other parts of the Department; and provides direction for work done by other departments and government agencies to implement international obligations. The directorate also provides the focus for departmental involvement in the programs of multilateral organizations such as the Food and Agricultural Organization of the United Nations (FAO), the Organization for Economic Co-operation and Development (OECD), and the World Food Program.

The directorate is organized into three divisions: Pacific Rim; Atlantic; and Aid and Technical Assistance.

### Fish Inspection Program

This program is responsible for providing assurance that fish and fish products in export, import and interprovincial trade do not present a health hazard, are of acceptable quality and are not fraudulently marketed. The program also provides the focus for departmental involvement in quality improvement initiatives, such as dockside and final product grading, designed to improve the consistency of fish quality, reduce wastage of the fishery resource and improve processing yields. It is a comprehensive program for inspection of fish and fish products, fish processing establishments, vessels and facilities used in handling and transporting fish, carried out nationally in all regions of the Department. All activity in this area is continuing and regulatory in nature. Efforts are concentrated on monitoring industry compliance with safety, quality, grade and identity standards for domestically produced and imported fish and fish products, and with processing standards for facilities involved in harvesting, transporting and processing of fish. Another important element of the program is the certification of products for export. Many foreign countries/buyers require evidence that Canadian fish products will meet foreign standards and buyer specifications.

### Crown Corporations Liaison

This is a newly organized area. With respect to the Freshwater Fisheries Marketing Corporation, the Canadian Saltfish Corporation and the Fisheries Prices Support Board, its main responsibility is to provide services to these corporations through advice and

## DEPARTMENT OF FISHERIES AND OCEANS

interpretation of the requirements of their special Acts and the *Financial Administration Act*.

### Ocean Science and Surveys Service

This service carries on two major operational activities — oceanography and hydrography. The objectives of the oceanographic activity include contributions to the management and development of renewable and non-renewable ocean resources. Another objective is to gain an understanding of the marine environment so as to establish programs and methods for its protection and restoration. These objectives are met through research programs in the areas of physical, chemical and biological oceanography. This knowledge forms the basis for ocean information services to meet the needs of national and international co-operation on the study and use of the ocean and its resources, and of participation in international initiatives to deal with marine pollution. The work involved in this activity is carried out in four regional centres and at headquarters in Ottawa. The Ottawa unit, the Marine Sciences and Information Directorate, has two operating branches: the Marine Environmental Data Service (MEDS) and the Scientific Information and Publications Branch. Both are involved in the collection, processing and distribution of ocean data and information. A third branch performs a national co-ordinating role for oceanography and is the primary contact in the field of international ocean science.

### Canadian Hydrographic Service

The main objectives of the hydrographic activity are to carry out all necessary hydrographic surveys and to publish, maintain and distribute the navigational charts, sailing directions and tide tables needed to permit safe and efficient navigation in all Canadian navigable waters. These objectives are met by the programs of the Canadian Hydrographic Service, which reports to the assistant deputy minister through the Dominion Hydrographer. The work is carried out at four regional centres by means of a fleet of some 180 research and survey vessels and within a headquarters unit in Ottawa. Field surveys include the measurement of water depths with ship-mounted echo-sounders or by other, more sophisticated means where this is not possible. The service also gathers information on tides and currents (published as the annual "Canadian Tide and Current Tables"), publishes and distributes navigational and recreational charts, and carries out offshore natural resource surveys in collaboration with the Department of Energy, Mines and Resources.

The Policy and Program Co-ordination Branch in Ottawa acts as the national focus for strategic and operational planning in the Ocean Science and Surveys Services and as the national co-ordinative mechanism at the corporate level.

### Bedford Institute of Oceanography — Dartmouth

This institute, founded in 1962 as Canada's first federal research centre devoted to the field of oceanography, houses the Atlantic Region of Ocean Science and Surveys which carries out research into various aspects of marine sciences on the Atlantic coast and in the eastern Arctic. This includes physical and chemical oceanography, marine ecology, ocean circulation, biology and the environment. Emphasis is placed on the effect of oil and gas exploitation and coastal activity on the marine ecosystem. In the area of physical oceanography, the focus is mainly on the continental shelf of eastern Canada. Ecological research into the long-term effects of commercial fisheries exploitation and ocean pollutants aims at providing a basis for better management of the fishery in the future. The region also carries out hydrographic surveys, tidal studies and works on the development of navigational aids and new survey equipment.

The institute incorporates a recently established office called the BIO Marine Advisory and Industrial Liaison (BIOMAIL), which acts as a point of entry for anyone seeking information on Canadian

oceanography and related topics. BIOMAIL distributes and interprets oceanographic information and data to industry and government departments, and encourages the transfer of technology to Canadian industry, especially in Atlantic Canada. Units of several other government departments with an interest in the ocean are also located within the Bedford Institute.

### Bayfield Laboratory for Marine Science and Surveys — Burlington

A full complement of hydrographic activities is carried out in the Great Lakes, in other navigable fresh waters in Ontario and the Prairie Provinces, and in marine waters of the Central Arctic. The main purposes of the programs are to support commercial shipping in the Great Lakes and the Arctic and to support offshore oil and gas exploration and exploitation in the Arctic.

### Champlain Centre for Marine Science and Surveys — Québec City

This is the newest and smallest of the Ocean Science and Surveys regional centres. It is responsible primarily for oceanographic studies and hydrographic surveys in the St. Lawrence River and estuary and the northern half of the Gulf of St. Lawrence. A full range of oceanographic studies — physical, chemical and ecological — is carried out, though hydrography is limited to field surveys and studies of tides and currents.

### Institute of Ocean Sciences — Sidney

This institution houses the Pacific Region of Ocean Science and Surveys, which is divided into two main areas — the hydrographic and oceanographic divisions. Work in the first division is carried out by the regional unit of the Canadian Hydrographic Service and includes the charting of waters off the coast of British Columbia and in the western Arctic (with recent emphasis on the Beaufort Sea). Surveys of tides and currents result in the publication and distribution of numerous maps and tables. Another specialized unit advises on "tsunamis" — powerful waves caused by underwater disturbances. The oceanographic division carries out research in the areas of physical and chemical oceanography and ocean ecology. Specific work includes research in the area of frozen seas, coastal and offshore waters, ocean mixing and remote sensing. There are also studies of carbon dioxide in the ocean, hydrocarbons, pesticides, trace elements and coastal pollution. In terms of ecology, the main focus is on the biological oceanography of coastal waters.

### Manuals

- Pisces IV Manual
- Pisces IV Standard Operations Procedures
- Pacific General Ships' Orders
- Hydrographic Tidal Manual
- Survey Standing Orders
- Cartographic Standing Orders

### Finance and Administration Service

The Finance and Administration Service has corporate responsibility for departmental systems of financial administration, planning co-ordination, administration informatics and internal audit, and is also responsible for the provision of management support services for the National Capital Region as well as the administration of the various fisherman's assistance programs. The service has national program responsibility for vessel acquisition and fleet management, and for the Department's major construction and energy conservation programs.

## DEPARTMENT OF FISHERIES AND OCEANS

---

Eight directorates report to the assistant deputy minister (Finance and Administration Service).

### Corporate Finance Directorate

The directorate provides financial advice and services to the departmental executive, program managers and regional finance officers, and assists in improving the Department's relations with central agencies. The Corporate Finance Directorate consists of three branches.

#### Financial Policy and Systems Development

This branch has a mandate to design and promulgate financial policies and systems, and to develop appropriate training material for the benefit of both financial staff and operational managers.

#### Financial Planning and Analysis and Advisory Support

This branch has corporate responsibility for financial planning and control.

#### Accounting Operations

The branch has corporate responsibility for controlling and reporting on the expenditures, revenues, assets and liabilities of the Department and the provision of functional advice and guidance regarding the accounting control and reporting functions. In addition, the branch is responsible for the direct provision of financial services to managers within the National Capital Region.

### Management Practices and Planning Co-ordination Directorate

The directorate has responsibility for developing and implementing a departmental planning process; serving as a secretariat to senior management in the monitoring and control of planning activities; and developing and implementing a management improvement plan responding to Comptroller General and Auditor General criticisms. Both the planning and management improvement activities are managed through headquarters and regional staff co-ordinators. The branch is the focus for liaison with central agencies on issues relating to the policy and expenditure management system (PEMS).

### Information Technology and Systems

This provides corporate leadership in the development and implementation of national informatics systems. The major objective of the directorate is to ensure that the Department is provided with well-designed, efficient and cost-effective integrated informatics systems to meet its defined and future operational, research, administrative and management information needs.

### Administration

This directorate has the dual responsibility of establishing the Department's national administrative and asset management policies and controls, as well as for all operational requirements at headquarters for support services related to general administration.

### Ship Branch

The director, Ship Branch, is the national program advisor to the Department on all ship-related matters. The principal activities of the branch are to acquire ships for the Department and to provide professional direction to operate the fleet safely, legally and efficiently. The branch co-ordinates the helicopter resources for the Department and also manages the Search and Rescue (SAR) resources and commitments.

### Engineering and Architecture

The functions of this directorate are to manage the major construction program and the energy conservation program, and to provide competent and timely engineering and architectural advice to all departmental managers.

### Internal Audit

This directorate advises on the efficiency, economy and effectiveness of internal management policies, practices and controls and identifies where improvements are needed.

### Economics Programs

This directorate administers the *Fisheries Improvement Loans Act* Program, the Fishing Vessel Insurance Plan, and the Fishing Vessel Assistance Program. Under the first of these, conventional lending institutions provide loans at preferred rates to fishermen for fisheries improvement purposes. A proportion of the principal and interest payments are guaranteed by the federal government. Under the Fishing Vessel Insurance Plan, fishermen may insure their vessels and protect themselves against unforeseeable capital loss. The last program provides assistance to fishermen replacing old vessels to ensure that new vessels are well designed, well built, safe and durable.

### Small-Craft Harbours Directorate

This program provides for the acquisition, development, maintenance and management of approximately 2,300 harbours serving the needs of both commercial fishing and recreational boating throughout Canada. Program implementation is carried out through regional offices located in St. John's, Halifax, Québec City, Moncton, Burlington, Winnipeg and Vancouver. It works closely with the Department of Public Works, which is responsible for design, construction, maintenance, and property service. The directorate's role is to ensure that any harbour development or upgrading harmonizes with the needs of the fishing industry, both now and in the future. The Marine Policy Assistance and Tourist Wharf programs provide assistance for recreational facilities such as launching ramps and wharves.

### Small-Craft Harbours

This branch is responsible for the development, maintenance, upgrading and administration of scheduled small craft harbours and harbour facilities in support of the commercial fishery, sports fishery, and recreational boating.

#### Manuals

- Fishing and Recreational Harbours Administrative Instructions
- Harbour Managers' Manual

### Ship Operations Branch

This branch is responsible for the management of the departmental fleet, which is vital to the carrying out of various departmental programs. Responsibilities of the fleet include fisheries surveillance and protection, marine and oceanographic surveys, fisheries research and hydrographic surveys, and search and rescue duties. To perform these functions, the branch operates a fleet of more than 600 vessels of all sizes, including ocean-going fisheries patrol vessels, oceanographic research and hydrographic craft, mini-submarine and mothership, and many small launches for patrolling coastal marine waters and inland lakes and rivers. The branch is also responsible for the purchase, construction, operation and maintenance of this fleet, as well as research into ship management operations.

# DEPARTMENT OF FISHERIES AND OCEANS

## CANADIAN SALTFISH CORPORATION

### Background

For a number of years during the post-war period the saltfish industry was in decline due to the shift away from curing codfish to filleting and freezing, and the disintegration of the traditional family enterprise in Newfoundland. Lately the depletion of the Northern cod stocks has resulted in the private export trade losing ground in foreign markets and becoming progressively dependent on support from government. In recent years approximately 60 per cent of the total annual production of cured salt fish in Canada has been marketed by the Canadian Saltfish Corporation.

The *Saltfish Act*, 1970, gives the Corporation a monopoly on the inter-provincial and export trade in cured salt fish (bulk and dried) produced in the province of Newfoundland and Labrador and on the lower north shore of the province of Québec. The corporation is listed in Schedule C, Part I, of the *Financial Administration Act*.

### Laws and Regulations

- Saltfish Act, 1970

### Overall Responsibilities

The basic objective of the Corporation is to maximize returns from the saltfish trade through central desk selling. A secondary objective is to rationalize production.

### Organization

The *Saltfish Act* provides for a board of directors composed of a chairman, president, one director from each participating province, as well as five other directors. Each is appointed by the Governor-in-Council to hold office for a period not exceeding five years. Provincial directors are recommended by the Lieutenant Governor of the province concerned.

Saltfish processing companies in the region of the Corporation's mandate become its agents for the purchase, handling and preparation of production. The corporation has 33 full-time and 20 part-time employees as well as 12 agents who employ approximately 300 people. In addition, these agents employ 35 to 40 sub-agents who provide employment for an additional 400 to 500 people on a seasonal basis.

Sales for 1983/84 totalled \$37 million. Fixed assets of the Corporation as of March 1, 1984, totalled \$1.2 million.

Currently, the context in which the Corporation operates is undergoing a significant change. Its role as price-setter in the primary fish market has been reduced and may eventually be eliminated with the advance of unionization of fishermen. However, the Corporation continues to play a significant role in the fishing industry, and is still a major factor in the ultimate returns to producers of cured fish. Of particular relevance to its original purpose is representation in the marketplace, since more and more countries are establishing government import agencies or buying-groups and allocating restricted import licences. Returns to the fishermen have continued to improve, bringing benefits to both processors and primary producers. The Corporation looks forward to the challenges of the next two or three years with cautious optimism.

## FRESHWATER FISH MARKETING CORPORATION

### Background

On enactment of the *Freshwater Fish Marketing Act*, existing private companies became agents of the Corporation. Many withdrew from

the business, however, and complementary facilities for the assembling and warehousing functions were eventually established by the Corporation. It now disposes of virtually all freshwater fish produced outside the Great Lakes — about 50 per cent of the total Canadian production.

The *Freshwater Fish Marketing Act*, 1969, gives the Corporation a monopoly on the inter-provincial and export trade in designated products of the freshwater fisheries supplied from the Northwest Territories, the three prairie provinces and part of northern Ontario. The Corporation has wide powers to purchase, process, store and ship fishery products; to acquire, hold and dispose of property; to establish branches and employ agents; enter into agreements; and to borrow, lend and invest money. The corporation is listed in Schedule C, Part I, of the *Financial Administration Act*.

### Laws and Regulations

- Freshwater Fish Marketing Act, 1969

### Overall Responsibilities

The objective of the Corporation is to unify the trade in freshwater fishery products in response to economic distress among primary producers caused by fragmentation of assembling, processing and exporting operations. Some 20 companies had previously been involved, as compared with three major U.S. importers where 90 per cent of the production was sold. The Corporation has responsibility for the orderly marketing of fish, the promotion of inter-provincial and export trade, and an increase in returns to fishermen.

### Organization

The board of directors consists of 11 members: chairman, president, one member from each participating province and four members appointed by the federal government. An advisory committee composed of 15 fishermen also exists.

The Corporation has a main plant at Transcona and processing plants at Hay River, The Pas, Edmonton and La Ronge. It employs 80 management staff and 125 plant personnel, increasing to 450 during peak seasons. In the fiscal year ending April 30, 1983 sales amounted to \$44.6 million. As of April 30, 1984 fixed assets totalled \$6.3 million.

Rationalization of the collecting and processing phases and centralization of marketing operations have succeeded in maximizing both returns from the market and prices to fishermen. The persistence of inadequate returns from fishing has, however, led to some disillusionment with the Corporation as an agency of fishery development. As a result, strong representations from some provincial ministers were made to the Minister of Fisheries and Oceans. In December 1979, the ministers with responsibilities for fisheries in the provinces of Ontario, Manitoba, Saskatchewan, Alberta and the Northwest Territories met with the Minister to discuss and review the future role of the Corporation. While ministers indicated their agreement in principle with the concept of the Freshwater Fish Marketing Corporation, they directed that various options be analyzed by a federal-provincial committee of officials. The committee submitted its report on September 3, 1980. The general conclusion of the report is that the inland fishing industry, particularly the fishermen themselves, are in a better overall condition with the Freshwater Fish Marketing Corporation than without it.

## DEPARTMENT OF FISHERIES AND OCEANS

### Classes of Records

DFO/AFS-005 *Formerly Identified as:* F&O-10

#### Fisheries Development

*Description:* Provision of services and developmental programs for fishermen and the fishing industry. *Topics:* Gear development; vessel development; exploratory fishing; processing improvement; quality improvement infrastructure.

DFO/AFS-010 *Formerly Identified as:* F&O-20

#### Fisheries Research

*Description:* Acquisition of the knowledge base and provision of scientific advice relative to the management and development of fisheries and fish habitat. *Topics:* Resource assessment; aquaculture and resource development; habitat assessment and development; and the many scientific disciplines included in research related to the above topics.

DFO/AFS-015 *Formerly Identified as:* F&O-30

#### Fisheries Operations

*Description:* Management, conservation and protection of the fisheries, including their habitat resource rehabilitation and inspection. *Topics:* Resource management; offshore surveillance and enforcement; inshore surveillance and enforcement; inland surveillance and enforcement; allocation and regulations development; licensing; inspection. *Retrievability:* Records are arranged numerically by subject. *Storage Media:* Records in paper, microfiche and EDP format.

DFO/PFF-020 *Formerly Identified as:* F&O-40

#### Habitat Assessment and Related Research

*Description:* Research in support of departmental management and protection of fish and fish habitat. *Topics:* Aquatic impact assessment — altered stream flows, reservoir construction; stream obstructions, forest harvesting, alteration of foreshore, dredging and dumping, tidal barriers; toxicology and pollution — acid rain, forest spraying, pesticides, heavy metals, radionuclides, industrial chemicals and industrial, municipal, agricultural and other effluents.

DFO/PFF-025 *Formerly Identified as:* F&O-50

#### Habitat Management

*Description:* Information on the enforcement of regulations under the *Fisheries Act* and activities related to habitat management, protection enforcement, restoration and development. *Topics:* Habitat protection and operations; habitat planning; habitat restoration and development; resource rehabilitation and enhancement.

DFO/PFF-030 *Formerly Identified as:* F&O-60

#### Fisheries Operations

*Description:* Management conservation and protection of the fisheries, including habitat resource rehabilitation and inspection. *Topics:* Resource management; offshore surveillance and enforcement; inshore surveillance and enforcement; inland surveillance and enforcement; allocation and regulations development; licensing; inspection; native affairs — food fisheries; land claims and agreements; employment; band by-laws.

DFO/PFF-035 *Formerly Identified as:* F&O-70

#### Salmonid Enhancement Program (SEP)

*Description:* Information on the salmonids in the Pacific region, excluding associated research. *Topics:* Reconnaissance and feasibility; public involvement; design; construction; facility maintenance; facility operations; community development; assessment, evaluation and management; studies. *Storage Media:* Micrographics and EDP format.

DFO/PPP-040 *Formerly Identified as:* NO REFERENCE  
**Strategic Policy and Planning (New)**

*Description:* Information on departmental and government-wide priorities, directions and initiatives; information on native policies, programs and issues. *Topics:* Departmental priorities and strategies; native issues and programs; land claims.

DFO/PPP-045 *Formerly Identified as:* F&O-81

#### Economic and Commercial Analysis

*Description:* Information on policies, programs and activities in the areas of socioeconomic research and analysis. *Topics:* Socioeconomic research and policy; statistics; bank of information relating to Survey of Atlantic Fisheries, 1984.

DFO/PPP-050 *Formerly Identified as:* NO REFERENCE

#### Program Evaluation (New)

*Description:* This class covers information relating to program evaluation policies, mandate, objectives, and guidelines. It also covers individual program evaluations conducted by the branch. *Topics:* Subjects covered include departmental programs which have been reviewed. A five-year program evaluation plan is prepared and updated regularly. Some surveys of clients of federal fisheries and ocean science programs have been conducted and are included as banks of information. *Storage Media:* Computer and paper files.

DFO/PPP-055 *Formerly Identified as:* NO REFERENCE

#### Federal-Provincial Relations (New)

*Description:* Information on federal-provincial-territorial consultations and deliberations and on strategies and negotiations adopted by the Department relating to the conduct of federal-provincial-territorial affairs. Briefing notes, correspondence and documentation on federal-provincial policies/programs and major irritants and issues. *Topics:* Economic and regional development agreements; frameworks for federal-provincial consultation and liaison; federal-provincial-territorial economic and constitutional irritants and issues.

DFO/MIF-060 *Formerly Identified as:* F&O-80

#### Marketing

*Description:* Development and implementation of marketing policies, strategies and programs to improve the marketing of Canadian fish and fishery products consistent with the resource's potential harvesting and processing capabilities, and worldwide marketing opportunities. *Topics:* Marketing research, analysis forecasts and species marketing plans; market development and promotion.

DFO/MIF-065 *Formerly Identified as:* F&O-100

#### International Relations

*Description:* Development and implementation of policy and provision of expertise on matters involving international fisheries and fisheries trade relations. *Topics:* International relations; international trade and development. *Retrievability:* Files arranged numerically by subject. *Storage Media:* Micrographics and EDP format.

DFO/MIF-070 *Formerly Identified as:* NO REFERENCE

#### Fish Inspection (New)

*Description:* Inspection of fish products in export, import and interprovincial trade for safety, quality, and fairness of marketing. *Topics:* Product inspection and certification for export; monitoring of industry processing and grading practices; inspection of fish harvesting, handling, transportation, storage and processing facilities; introduction of quality improvement initiatives; development and testing of grade standards; development and enforcement of regulations. *Retrievability:* Records are arranged numerically by subject. *Storage Media:* Records in paper, micrographics and EDP format.

## DEPARTMENT OF FISHERIES AND OCEANS

---

DFO/OSS-075 *Formerly Identified as:* F&O-110

### **Oceanography**

*Description:* Studies which support the management of renewable and non-renewable marine resources. *Topics:* Physical oceanography; chemical oceanography; marine ecology; freshwater ecology; ocean dumping; university subventions; ocean engineering and technology transfer. *Storage Media:* EDP format and data files.

DFO/OSS-080 *Formerly Identified as:* F&O-120

### **Hydrography**

*Description:* Bathymetric data, navigational charts and other information on Canada's navigable waters and geophysical-hydrographic surveys. *Topics:* Navigation charts — surveys, production; tides, currents and water levels; sailing directions; ocean mapping; navigation. *Storage Media:* Micrographics and EDP format.

DFO/OSS-085 *Formerly Identified as:* F&O-130

### **Ships**

*Description:* Information on the management, operation and charter of major vessels for oceanography and hydrographic research. *Topics:* Oceanography; hydrography; support to fisheries management; search and rescue; support to other federal departments; support to Canadian universities. *Storage Media:* Micrographics and EDP format.

DFO/FAA-090 *Formerly Identified as:* F&O-150

### **Ship Operations**

*Description:* Information on the design, construction, purchase and operation of the departmental fleet. *Topics:* Ship acquisition; berthing and wharfage; certificates, licences, acceptance papers; collisions, groundings, mishaps; navigation; surveillance and enforcement; repairs, refit, maintenance; construction. *Storage Media:* Micrographics and EDP format.

DFO/FAA-095 *Formerly Identified as:* F&O-90

### **Economic Programs**

*Description:* Information on programs in the areas of fishing vessel insurance, fishing vessel construction, subsidies and loans. *Topics:* Fishing Vessel Insurance Plan; Fishing Vessel Assistance Program; *Fishermen's Improvement Loan Act.*

DFO/FAA-903 *Formerly Identified as:* NO REFERENCE

### **Administrative and Management Services (New)**

*Description:* See Standard Classes of Records.

# FOREIGN INVESTMENT REVIEW AGENCY

---

## Background

The Foreign Investment Review Agency (FIRA) was established in 1974 to advise and assist the Minister responsible for the administration of the *Foreign Investment Review Act*. The Act came into force in two phases: Phase I in 1974 and Phase II in 1975. Phase I covered the acquisition of control of Canadian business enterprises by foreign individuals, corporations, governments or groups containing foreign members; Phase II extended the application of the Act to the establishment of new businesses in Canada either by foreign persons who do not already have a business in Canada or by foreign persons who already have an established business in Canada, if the new business is unrelated to the established business. The Agency advises and assists the responsible Minister, who recommends decisions to the Governor-in-Council, who then decides whether proposed foreign investments will be allowed or disallowed.

## Laws and Regulations

- Foreign Investment Review Act

## Overall Responsibilities

The central objective of the Agency in screening foreign investments is to ensure that they are, or are likely to be, of significant benefit to Canada. Significant benefit is determined according to a set of performance-oriented factors that are specified in the Act, namely:

- the effect of the investment on the level and nature of economic activity in Canada, including employment, resource processing, use of parts, components and services produced in Canada and exports from Canada;
- the degree and significance of Canadian participation in the business enterprise and in the industry sector to which the enterprise belongs;
- the effect on productivity, industrial efficiency, technological development, innovation and product variety in Canada;
- the effect on competition within any industry or industries in Canada; and
- the compatibility of the investment with national industrial and economic policies, and with the industrial and economic policy objectives enunciated by a province or provinces likely to be significantly affected by the proposed investment taken into consideration.

## Organization

The Foreign Investment Review Agency comprises three main administrative units: the Assessment Bureau, the Compliance Branch and the Policy, Research and Communications Branch. The Agency is headed by a Commissioner, who has the rank of deputy minister. The Assessment Bureau, Compliance Branch and the Policy, Research and Communications Branch are headed by directors general.

## General Information

The Agency is located on the 5th Floor West, 240 Sparks Street, Ottawa, Ontario.

### Agency Officers

Foreign investors are encouraged to consult officers of the Agency informally, before applying, to discuss the unique circumstances and characteristics of their projected investments and the application of the Act to their investment. This consultation allows foreign investors to become thoroughly familiar with the requirements of the Act,

including the review process. The mailing address and telephone numbers of key contacts are provided below.

### Information Services

The Communications Division is responsible for providing general information services including responding to general enquiries, directing technical enquiries to appropriate Agency officers, and preparing and distributing information of a technical and general nature. The division also prepares the Agency's annual report to Parliament and is responsible for the editorial and production services required for Agency publications. Enquiries should be addressed to

The Commissioner has the responsibility for the administration of the *Foreign Investment Review Act*, as well as the personnel, financial and administrative services.

# FOREIGN INVESTMENT REVIEW AGENCY

---

## Assessment Bureau

This bureau comprises three branches: Resource Industries, Manufacturing Industries, Service and Construction Industries, as well as a Small Business Group. The bureau's primary functions include the analysis of proposals by foreign investors for the acquisition of control of Canadian business enterprises, and the establishment of new businesses and expansion into unrelated businesses in Canada. In addition, it provides advice and assistance to foreign investors with a view to improving plans and undertakings; consults with relevant provincial governments and other federal departments; evaluates representations made by third parties; provides assistance and advice to the Minister on foreign investment proposals and recommends courses of action. Finally, in cases of investor non-compliance with plans and undertakings, it renegotiates acceptable alternative commitments.

### Manuals

- Guide to Undertakings

## Compliance Branch

This branch determines which transactions involving the acquisition of Canadian businesses and the establishment of new businesses by foreign investors require review and ensures these transactions are submitted to review. It also certifies that foreign investment applications are complete; investigates non-compliance with the Act and prepares demand notices for issue by the Minister; prepares the Agency's opinions, assists and advises in the preparation of ministerial opinions; monitors and investigates the implementation of plans and undertakings; performs enforcement measures; initiates statutory and regulatory amendments; formulates guidelines for issue by the Minister; interprets and explains the legislation; and conducts research into the legal principles which underlie the Act.

### Manuals

- Procedures Manual

## Policy, Research and Communications Branch

This branch researches and analyzes the economic, industrial and corporate background against which foreign investment proposals are assessed; maintains a corporate information and data retrieval system to meet the needs of the Assessment Bureau and Compliance Branch; undertakes research and analysis on foreign investment issues; contributes to the development of new policy initiatives; represents the Agency at interdepartmental and international meetings on foreign investment; prepares briefings and speeches for the Minister and Commissioner; deals with parliamentary questions on foreign investment; and provides information services to the public.

## Classes of Records

---

Information contained in these records may be privileged pursuant to Subsection 24(1) of the *Access to Information Act* and Section 14 of the *Foreign Investment Review Act*.

**FIR/COM-005** Formerly Identified as: FIRA-10  
**Cabinet Matters**

*Description:* Information on policy and procedures for making recommendations to the Governor-in-Council. *Topics:* Orders-in-Council; deemed allowances; Governor-in-Council documentation.

**FIR/ASB-010** Formerly Identified as: FIRA-40  
**Assessment of Applications**

*Description:* Information on the assessment of foreign investment proposals – a complete record of the review of each foreign investment proposal, from the submission of an application to compliance with the Order-in-Council allowing or disallowing the investment; also, in

the case of allowed investments, a record of investor performance with respect to plans and undertakings. *Topics:* Applications in prescribed form; subsequent correspondence with investors, including revised plans and undertakings; consultations with relevant provincial governments and federal departments; third-party representations; statutory documentation to the Minister; advice, including recommended courses of action to the Minister; Minister's recommendations and instructions; results of monitoring the plans and undertakings of allowed investments, including the renegotiation of plans and undertakings which have not been fulfilled. *Retrievability:* Files arranged by foreign investor (individual, company; group of individuals or companies; government or agency of a foreign country).

**FIR/COB-015** Formerly Identified as: FIRA-70

### Agency Opinions

*Description:* Views and opinions of the Agency and related information on the applicability of the provisions of the Act, and related regulations and guidelines, in response to written requests submitted by one or more parties for specific proposed and actual investments. *Topics:* Corporate reorganization; acquisitions of control; new business establishments; related businesses; expansion of existing businesses; joint ventures; partnerships; indirect acquisitions; net leases (leasebacks); stock transfers; mining properties; oil and gas rights. *Retrievability:* Files arranged by individual, company and group.

**FIR/COB-020** Formerly Identified as: FIRA-20

### Companies

*Description:* Information on investors whose business activities, plans and intentions may come under the purview of the Act. *Topics:* Draft applications; surveillance activities; review considerations; business activities including plans and intentions; business information reports; corporate financial statements and annual reports; potential applicants. *Retrievability:* Files arranged by individual and company.

**FIR/COB-025** Formerly Identified as: FIRA-50

### Compliance of Applications

*Description:* Information on the determination of the need for review of proposals by foreign investors to acquire control of Canadian business enterprises or establish new businesses in Canada; also the periodic monitoring of proposals which have been allowed, and in the case of proposals which have been disallowed, compliance with the disallowance order within a reasonable period of time. *Topics:* Investment applications in prescribed form, including certificates of receipt; subsequent correspondence with foreign investors; investor compliance with plans and undertakings; investor compliance with disallowance orders; advice, including recommended courses of action to the Minister; court injunctions and the other remedies available under the Act. *Retrievability:* Files arranged by foreign investor (individual, company; group of individuals or companies; government or agency of a foreign country).

**FIR/COB-030** Formerly Identified as: FIRA-100

### Foreign Investment Review Act – Guidelines

*Description:* Information on the development and formulation of guidelines for issue by the Minister under the authority of the Act. *Topics:* Treatment of related business; real estate business; acquisitions of interests in oil and gas rights; provision of venture capital; corporate reorganization.

**FIR/COB-035** Formerly Identified as: FIRA-80

### Foreign Investment Review Act – Interpretation

*Description:* Information on the interpretation and application of various sections of the Act and regulations. *Topics:* Notices of right to make further representations; restrictions imposed pursuant to privileged information (disclosures of information); franchises; acquisition of control; ultimate control of a corporation; definition of public and private corporations; property; non-voting common shares; convertible preferred shares; eligibility; proposed amendments to the

# FOREIGN INVESTMENT REVIEW AGENCY

---

regulations; businesses that have ceased normal business operations; performance of single or isolated contracts; limited partnerships; contractual rights to acquire voting shares or property; part of a business capable of being carried on as a separate business; and substantially all of the property used in carrying on the business.

**FIR/COB-040** *Formerly Identified as:* FIRA-90

## **Foreign Investment Review Act – Procedures**

*Description:* Information on the development of procedures to implement the provisions of the Act. *Topics:* Undertakings; forms of notice (applications); submissions to Governor-in-Council; statutory time periods; determination and resolution in cases involving non-compliance; post-disallowance procedures; notification of deemed allowances.

**FIR/COB-045** *Formerly Identified as:* FIRA-60

## **Ministerial Opinions**

*Description:* Ministerial opinions and related information as to whether or not an investor is a non-eligible person as defined in the Act and whether or not a new or acquired business is related to a non-eligible person's existing business in Canada, as outlined in the guidelines on related business. *Topics:* Eligibility opinions – non-eligible persons, presumptive levels of non-eligibility, control in fact (legal control, minority shareholder control, outsider control, group management control); relatedness opinions – established business, new business, expansion of existing business, vertical integration, direct substitutability, same technology and production processes, research and development, industrial classification and other forms of relatedness. *Retrievability:* Files arranged by individual, company and group.

**FIR/COB-050** *Formerly Identified as:* FIRA-30

## **Third-Party Representations**

*Description:* Information on representations made to the Agency by parties not directly involved in proposed or completed investment transactions who wish to express views or concerns about investment proposals that may or may not be reviewed under the Act; also, in the case of business takeovers, bids by alternative buyers. *Topics:* Takeover bids; new business; business expansions. *Retrievability:* Files arranged by individuals, companies and groups. Third-party representations are indexed alphabetically, by standard industrial classification (SIC) code and industrial activity.

**FIR/PRC-055** *Formerly Identified as:* FIRA-130

## **Acts and Legislation**

*Description:* Information on existing and proposed legislation which may have implications for the administration of the *Foreign Investment Review Act*. *Topics:* *Access to Information Act*; *Privacy Act*; *Bank Act*; *Canada Business Corporations Act*; *Combines Investigation Act*; *Fisheries Act*; *Income Tax Act*; *Insurance Companies Act*; *Technology Transfer Agreement Act*; *Trademarks Act*; *Uranium and Thorium Mining Review Act*.

**FIR/PRC-060** *Formerly Identified as:* FIRA-160

## **Co-operation and Liaison – Federal**

*Description:* Information on consultations with other federal departments and agencies on foreign investment proposals that can be reviewed under the Act, and other matters pertaining to foreign investment. *Topics:* Procedures for consultation between the Agency and other federal departments; departmental considerations and guidelines for handling FIRA cases; federal industrial and economic policies and initiatives; departmental responses to proposed amendments to the Act; Agency views on federal initiatives that may affect the Agency's activities or otherwise have implications for foreign investment in Canada. *Retrievability:* Files arranged by department or agency.

**FIR/PRC-065** *Formerly Identified as:* FIRA-180

## **Co-operation and Liaison with International Organizations**

*Description:* Information on consultations with international organizations, primarily the Organization for Economic Co-operation and Development (OECD) and the United Nations, which have an active interest in the field of foreign investment. *Topics:* OECD committees – International Investment and Multinational Enterprises, including the OECD Guidelines for Multinational Enterprises, Restrictive Trade Practices, Restrictive Business Practices, Invisible Transactions, Fiscal Affairs, Science, Technology and Industry, Economic Policy; United Nations – Commission on Transnational Corporations, Code of Conduct for Transnational Corporations, U.N. Center for Transnational Corporations. *Retrievability:* Files arranged by organization or committee.

**FIR/PRC-070** *Formerly Identified as:* FIRA-190

## **Co-operation and Liaison – Other**

*Description:* Information on co-operation and liaison activities with universities, colleges and schools on foreign investment and the Agency's activities under the Act. *Topics:* Requests for information and data on foreign investment in Canada; reviews of research proposals, articles and papers; research grants and support for outside research on foreign investment; Agency presentations to universities, colleges and schools. *Retrievability:* Files arranged by institution.

**FIR/PRC-075** *Formerly Identified as:* FIRA-170

## **Co-operation and Liaison – Provincial**

*Description:* Information on consultations with the provinces and territories on foreign investment proposals that can be reviewed under the Act. *Topics:* Principles of understanding on consultative procedures with the provinces and territories; provincial laws and regulations affecting foreign investment; provincial industrial and economic policies and objectives; provincial views on the administration of the Act and on proposed amendments to the Act. *Retrievability:* Files arranged by province or territory.

**FIR/PRC-080** *Formerly Identified as:* FIRA-220

## **Conferences and Meetings**

*Description:* Information on participation by the Minister and officials of the Agency in conferences, meetings, symposia and seminars in which foreign investment in Canada is a topic, including speeches by the Minister and senior Agency officials. *Topics:* Foreign investment in Canada. *Retrievability:* Files arranged by individual, conference or meeting.

**FIR/PRC-085** *Formerly Identified as:* FIRA-200

## **Consultations**

*Description:* Information on consultations with business, industry and law associations, committees, Royal Commissions, task forces, etc. on Canadian foreign investment policies and initiatives and the administration of the Act. *Topics:* Application and provisions of the Act; proposed amendments to the Act; levels of foreign investment in Canada; industry sector policies and initiatives. *Retrievability:* Files arranged by organization or association.

**FIR/PRC-090** *Formerly Identified as:* FIRA-210

## **Foreign Investment in Other Countries**

*Description:* Information on the provisions of foreign countries to monitor, regulate or prohibit foreign investment; the importance of foreign investment in Canada by major exporting countries as well as Canadian investments abroad. *Topics:* Foreign investment laws, procedures and policies of other countries; foreign countries' views on Canada's approach to foreign investment; briefings for ministers and officials visiting foreign countries or meeting with foreign government officials or representatives of foreign companies; interdepartmental briefings on the activities of foreign countries that relate to foreign investment. *Retrievability:* Files arranged by country.

## FOREIGN INVESTMENT REVIEW AGENCY

---

FIR/PRC-095 *Formerly Identified as:* FIRA-120

### **Foreign Investment Review Act – General**

*Description:* Information on the rationale underlying the development of the statutory provisions and regulations of the Act and ministerial guidelines issued under the authority of the Act. *Topics:* First proclamation of the Act; second proclamation of the Act; related business guidelines; communications plan, including briefings for the provinces, and various private sector organizations and associations.

FIR/PRC-100 *Formerly Identified as:* FIRA-150

### **Industrial Sectors**

*Description:* Industrial analyses, market profiles, government policies and initiatives on various industries and industrial sectors. *Topics:* Mining; oil and gas; uranium; coal; agriculture; forestry; fisheries; manufacturing industries; service industries; finance and banking. *Retrievability:* Files arranged by industry or industrial sector.

FIR/PRC-105 *Formerly Identified as:* FIRA-110

### **Parliamentary Matters**

*Description:* Information on questions directed by Members of Parliament to the Minister responsible for the administration of the Act about all aspects of foreign investment in Canada, specific

investment proposals which may be or have been before the Agency, as well as questions on the general administration of the Act. *Topics:* Written questions from the House of Commons and responses; anticipated questions from the House of Commons and responses; annual report to Parliament.

FIR/PRC-110 *Formerly Identified as:* FIRA-140

### **Policy Development**

*Description:* Information on the development of policy and policy initiatives on foreign investment, and policies to improve the Agency's effectiveness in the administration of the Act. *Topics:* Takeover bids; undertakings; Agency opinions and interpretation notes; multinational enterprises; performance reviews; measures to encourage Canadianization; international business practices; guiding principles of good corporate behaviour and new principles of international business conduct; land ownership; financial assistance for Canadian-controlled companies; joint ventures; takeover bids and alternative buyers; sectoral initiatives and policies; interdepartmental administrative review of operations under the Act; terms of reference of parliamentary review of the Act.

# GREAT LAKES PILOTAGE AUTHORITY, LIMITED

---

## Background

As a result of recommendations made by the Royal Commission on Pilotage in Canada, the *Pilotage Act* was assented to by Her Majesty and the Governor-in-Council and proclaimed on February 1, 1972. The Act created four pilotage regions with specific authorities, thereby replacing a large number of local pilotage districts. The four Pilotage Authorities — Atlantic, Laurentian, Great Lakes and Pacific — are Crown corporations, responsible to Parliament through the Minister of Transport.

The Great Lakes Pilotage Authority, Limited was incorporated by Letters Patent on May 17, 1972 as a subsidiary of the St. Lawrence Seaway Authority and as a Schedule C Part 1 Crown corporation within the meaning and purpose of the *Financial Administration Act*.

## Laws and Regulations

The Great Lakes Pilotage Authority, Limited is governed by the following Acts.

- Canada Shipping Act
- Pilotage Act
- General Pilotage Regulations
- Great Lakes Pilotage Regulations
- Authority By-Laws
- Memorandum of Arrangements between the Minister of Transport, Canada and the Secretary of Transportation, U.S.A.

## Overall Responsibilities

The role of the Authority is to establish, operate, maintain and administer, in the interest of safety, an efficient and economical pilotage service within its geographical boundaries — all waters in the Province of Québec south of the northern entrance to the St. Lambert Lock and all Canadian waters in and around the Province of Ontario and Manitoba. Pilotage in international waters within these boundaries are shared with U.S.A. Pilot Corporations which are under direction of the United States Coast Guard, as agreed under a Memorandum of Arrangements between Canada and the United States. As a further goal, the Authority prescribes tariffs of pilotage charges that are to be fair, reasonable and consistent with providing sufficient revenues to permit the Authority to operate on a self-sustaining financial basis.

## Organization

The Great Lakes Pilotage Authority, Limited consists of a chairman, vice chairman and five members appointed by the Governor-in-Council. The Authority's head office is located in Cornwall, Ontario. The Eastern District operations office is located at headquarters in Cornwall, and the Western District operations office in St. Catharines, Ontario. All management services, administrative,

personnel, financial contracts and purchasing are provided by the Cornwall office.

## Access Procedures

Formal requests under the *Access to Information Act* should be addressed to

# IMMIGRATION APPEAL BOARD

---

## Background

The Immigration Appeal Board is an independent court established under the *Immigration Act*, 1976 to hear appeals made under the Act and to consider the redetermination of claims to refugee status under the UN Convention on the Status of Refugees.

## Laws and Regulations

- Immigration Act, 1976
- Immigration Regulations, 1978
- Immigration Appeal Board Rules (Appellate), 1981
- Immigration Appeal Board Rules (Convention Refugee), 1981

## Overall Responsibilities

The Board is a court of record and appeal. Applications and related proceedings are heard in open court; the record of any proceedings is public information and available from the registrar on request, except where, at the request of one of the parties to an action, the Board at its discretion directs that the proceedings be held *in camera*. In making its decisions the Board is bound by the legislation and the whole of Canadian immigration jurisprudence, relevant decisions and interpretations of higher courts. Its proceedings are governed by rules of procedure and it has the powers, rights and privileges of a superior court of record.

The Minister of Employment and Immigration is a party to all proceedings before the Board.

## Appellate

The Board hears appeals made by:

- permanent residents of Canada or Convention refugees who have been ordered deported;
- persons holding a valid visa who are refused entry into Canada;
- the Minister of Employment and Immigration when the Minister is not satisfied with a decision of an adjudicator which allows a person to remain in or enter Canada; and
- Canadian citizens who have sponsored an application for landing in Canada by a member of their family which has been refused.

## Convention Refugees

Persons who have made a claim to be a Convention refugee within the meaning of the UN Convention on the Status of Refugees and whose claim has been refused by the Minister of Employment and Immigration may apply to the Board for a redetermination of that claim.

## Organization

Under the *Immigration Act*, the Board consists of not fewer than seven and not more than eighteen members who are appointed by the Governor-in-Council. The present Board consists of the chairman, five vice chairmen and twelve other members. A quorum of the Board may not be fewer than three members, one of whom must be the chairman or a vice chairman.

Headquartered in Ottawa, the Board has permanent regional courts in Ottawa (National Capital Region), Montréal (Québec and the Maritimes), Toronto (Ontario) and Vancouver (British Columbia and the Yukon). A permanent registry office is maintained in Winnipeg to serve the Prairies and western Canada. The Board goes to other cities in Canada as the volume of cases warrants. It is supported by an Operations Branch (Secretariat), Finance, Administration and Personnel Branch, and four regional offices.

## Publications

- Annual Report — at the close of each calendar year, the chairman reports on the work of the Board to the Minister of Employment and Immigration who tables the report in Parliament within 30 days of the beginning of the fiscal year.
- Information Notice — in acknowledging receipt of an appeal or application, the Board includes an information notice which describes in some detail the nature of the proceedings before the Board.
- Decision and Reasons for Judgement — notes on decisions of the Immigration Appeal Board are published monthly in the Canadian Law Information Council (CLIC) publication.

## Key Contacts

General enquiries should be directed to

OFFICE OF THE DEPARTMENTAL  
ACCESS AND PRIVACY  
CO-ORDINATOR  
DEPARTMENT OF INDIAN AFFAIRS  
AND NORTHERN DEVELOPMENT  
OTTAWA, ONTARIO  
K1A 0H4

## Background

The Department of Indian Affairs and Northern Development (DIAND) is essentially people-oriented. Its major efforts are directed towards Indians and Inuit and to all who live in the vast and sparsely settled area north of the 60th parallel. At the same time, a long-term policy of decentralization means programs are being handled increasingly by these people themselves.

The Department was established under Section 15 of the *Government Organization Act*, 1966, now the *Department of Indian Affairs and Northern Development Act* (RSC 1970 c. 1-7, as amended). The Department is, in effect, an amalgamation of the responsibilities of the then Department of Northern Affairs and Natural Resources and the then Department of Citizenship and Immigration pertaining to Indian people in Canada.

The *Department of Indian Affairs and Northern Development Act* describes the duties, powers and functions of the Minister of Indian Affairs and Northern Development as extending to and including all matters over which the Parliament of Canada has jurisdiction, not by law assigned to any other department, branch or agency of the Government of Canada, relating to Indian Affairs, the Northwest Territories and the Yukon Territory and their resources and affairs and Eskimo affairs.

## Laws and Regulations

The federal government's legislative responsibilities for Indian people and Inuit derive from Section 91(24) of the *Constitution Act* (1867) which gives the federal government the exclusive authority to pass laws relating to "Indians, and lands reserved for Indians". On the basis of this authority, the *Indian Act* — which remains the major expression of federal jurisdiction in this area — was passed and a series of treaties were concluded between Canada and various Indian bands across the country. Federal jurisdiction for Indian people under the *B.N.A. Act* was subsequently (in 1939) interpreted by the courts to apply to Inuit as well.

- Territorial Lands Act
- Western Arctic (Inuvialuit) Claims Settlement Act
- Yukon Act
- Yukon Placer Mining Act
- Yukon Quartz Mining Act

## Overall Responsibilities

Within this legislative framework, the Department has a number of interlocking responsibilities and objectives: (a) to initiate, encourage and support measures that will respond to the needs and aspirations of the Indian and Inuit people, and will improve their social, cultural and economic well-being; (b) to encourage the orderly economic and political development of the Yukon and the Northwest Territories, and to co-ordinate all federal activities in the two territories; (c) to ensure that lawful obligations to Indian people are met, and to settle native claims relating to traditional native use and occupancy of land in those areas of Canada where this traditional use has not been extinguished by treaty or superseded by law.

## Organization

The Department is organized into five operative program areas: Indian and Inuit Affairs; Northern Affairs; Office of Native Claims; Finance and Administration (including Personnel Services); and Corporate Policy.

## Key Contacts

The Department encourages those who request information to utilize the present lines of communication described below since the intent is to make available as much information as possible through informal channels.

General departmental information is provided by the Departmental Secretariat and the Communications Branch, including the Public Enquiries and Response Division at Headquarters. The Public Enquiries and Response Division publishes a *Directory of Publications*, which is available on request. Contact may be made in person, by telephone or in writing at one of the following addresses:

# DEPARTMENT OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

---

## **Public Enquiries and Response Division**

Communications Branch  
Department of Indian Affairs and Northern Development  
10 Wellington Street, North Tower, 21st Floor  
Les Terrasses de la Chaudière  
Hull, Québec  
K1A 0H4  
Telephone: (819) 997-9885

A new toll-free across-Canada INWATS information line has been set up in the Public Enquiries and Response Division in Ottawa. This number, 1-800-567-9604, is designed to assist the general public in obtaining information about the Department.

## **Departmental Secretariat**

Department of Indian Affairs and Northern Development  
10 Wellington Street, North Tower, 19th Floor  
Les Terrasses de la Chaudière  
Hull, Québec  
K1A 0H4  
Telephone: (819) 994-1207

The Departmental Library and documentation/reference centres are located in Les Terrasses de la Chaudière, Hull, Québec, as follows:

## **Departmental Library**

14th Floor  
Les Terrasses de la Chaudière  
Telephone: (819) 997-0799

The departmental library has information on the following subjects: Indians of North America, Inuit, the Canadian North, Canadian and American history, anthropology, economic development, sociology and natural sciences.

## **Treaties and Historical Research Centre**

19th Floor  
Les Terrasses de la Chaudière  
Telephone: (819) 994-1182

The Research Centre has information on the following: historical material on Canadian Indian treaties, claim processes and mechanisms; the *Indian Act* and related subjects; native law.

## **Indian and Inuit Affairs Program Reference Centre**

16th Floor  
Les Terrasses de la Chaudière  
Telephone: (819) 997-9117

The Reference Centre contains material on the following: statistics, genealogy, history of the Canadian Indian and Inuit.

## **Mining Geology Microfilm Centre**

7th Floor  
Les Terrasses de la Chaudière  
Telephone: (819) 997-0911

The Centre has data of a geological nature covering the Yukon and Northwest Territories.

## **Inuit Art Research and Documentation Centre**

9th Floor  
Les Terrasses de la Chaudière  
Telephone: (819) 997-9440

The Centre has material dealing with Inuit arts and crafts.

## **Access Procedures**

The departmental co-ordinator for access to information oversees the administration of the access procedures in the Department, including the preparation of the departmental entry in the Access Register, service to the public for access to information, the determination of exemptions and third-party notifications, responses to enquiries from the information commissioner, appeals before the Federal Court and the report to Parliament. For all formal requests for access to

departmental records holdings, requesters should complete the Access to Information Request Form available at national, regional and district offices. The form should be submitted in person to the DIAND office where it was acquired or mailed to the Office of the Departmental Co-ordinator in Ottawa.

Records material is maintained in national headquarters, regional and district offices located throughout Canada. The method of accessing records may vary according to the nature of the record medium, the type of request for access and the record location.

Enquiries concerning the administration of the *Access to Information Act* in the Department and formal requests should be addressed to

Office of the Departmental Access and Privacy Co-ordinator  
Department of Indian Affairs and Northern Development  
Ottawa, Ontario  
K1A 0H4  
Telephone: (819) 997-0307

## **CORPORATE POLICY**

The mandate of Corporate Policy is to ensure that the Department's policies are coherent, consistent with the Minister's and Government's priorities and effective in meeting clients' needs. Corporate Policy's responsibilities include strategic planning, co-ordination of policy both within the Department and with other departments and central agencies, development of substantive policies on a wide range of issues, management of the Department's participation in the constitutional process, inter-governmental relations with the provinces, program evaluation, research, and parliamentary relations.

The Corporate Policy Sector is organized into four branches: Policy, Research, Evaluation and Constitutional Affairs. The Policy Branch includes five directorates: Policy Planning and Development, Inter-governmental Affairs, the Québec Claims Implementation Secretariat, Policy Co-ordination, and Western Arctic Claims Implementation Secretariat.

## **Policy Branch**

### **Policy Planning and Development Directorate**

The directorate is responsible for developing policies on a wide range of issues which are central to the Department's mandate; for preparing analyses to be used in strategic planning; and for the operational plan for Corporate Policy.

### **Policy Co-ordination Directorate**

The directorate provides briefings and other assistance to the deputy minister and Minister in relation to their Parliamentary responsibilities and as participants in the Cabinet committee system; and ensures that responses to the Minister's and deputy minister's correspondence are timely and accurately reflect departmental policies.

### **Intergovernmental Affairs Directorate**

The directorate is responsible for managing the Department's intergovernmental relations with the provinces and ensuring the consistent application of policies in an intergovernmental context.

## **Manuals**

- British Columbia Region Administrative Circular on Policy, Research and Consultation Funds

# DEPARTMENT OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

## Québec Claims Implementation Secretariat

The responsibilities of the secretariat include reviewing provisions of the James Bay and Northern Québec Agreement and the Northeastern Québec Agreement and assessing if federal obligations are being met. The secretariat responds to complaints that obligations are not being met by co-ordinating work by the Department and other departments/ agencies.

### Manuals

- James Bay and Northern Quebec Agreement (JBNQA)
- Northeastern Québec Agreement (NEQA)
- Implementation Review (JBNQA) (1982)
- Cree/Naskapi (of Québec) Act

## Western Arctic Claims Implementation Secretariat

The secretariat co-ordinates federal and territorial government departments to ensure implementation of the Western Arctic Claim is carried out in a full, fair and efficient manner in keeping with the spirit and intent of the agreement.

### Manuals

- Western Arctic Claim — The Inuvialuit Final Agreement
- Western Arctic (Inuvialuit) Claims Settlement Act

## Evaluation Branch

This branch provides the focus for the periodic and independent review and assessment of a program or program components. Program evaluation examines the relevance of programs in light of present circumstances, their effectiveness, and how they might be improved. The evaluation function is an important element in the government-wide Policy And Expenditure Management System (PEMS).

### Manuals

- Departmental Evaluation Policy (1982)
- D/D 10-5 (Part 17, Section 1) — February 1980 — Departmental Audit and Evaluation Committee

## Research Branch

This branch supports, directs, co-ordinates and conducts research and disseminates research findings in support of departmental goals and priorities. It is also responsible for administering funds to native groups to support research, development and negotiation of native claims, and for supplying special research and advisory services to native and other client groups.

## Constitutional Affairs Directorate

The directorate oversees and co-ordinates the Department's contribution to the constitutional process to define the rights of Canada's aboriginal peoples, and additionally, directs and co-ordinates the Department's contribution to the definition of aboriginal/Indian self-government. Involvement continues in subsequent activities flowing from these decisions.

## INDIAN AND INUIT AFFAIRS PROGRAM

The program assists Indian people who come within the provisions of the *Indian Act* ("status" Indians, of which there are approximately 303,000 in Canada) and Inuit in Northern Québec and Labrador (numbering approximately 7,500), to achieve their expressed social, economic and cultural goals within Canadian society.

The program administers the statutory commitments defined by the *Indian Act*, including the registration of Indian people, matters

concerning reserve lands and other Indian resources, and band elections; it implements the administrative measures needed to ensure that the federal government's lawful obligations to Indian people are met. These functions are administered in five main program areas: reserves and trusts; housing and band support; education and social development; program planning and policy co-ordination; and resource, economic and employment development.

As a reflection of the Department's changing role from one of direction to one of support, the program works closely with Indian band councils, and Indian and Inuit communities to encourage the continued growth of community self-determination.

The program has a regional information adviser in each of its seven regional offices south of 60°.

## Reserves and Trusts Branch

This branch ensures that treaty obligations and trust responsibilities concerning lands, estates, natural resources, band funds and membership are fulfilled. It administers those sections of the *Indian Act* that deal with band elections, referenda, by-laws, estates and lands, and provides management and entrepreneurial expertise to Indian bands in response to band council requests for the development of band-owned mineral resources. The branch is divided into five directorates: Indian Minerals Directorates (East and West); Lands; Legal Liaison and Support; Membership and Statutory Requirements; and Office of the Senior Resources Advisor.

## Indian Minerals Directorates (East and West)

These directorates identify, manage and provide for the development of mineral resources of Indian lands under the authority of the *Indian Act*, the *Indian Oil and Gas Act*, the *Indian Mining Regulations*, the *Indian Oil and Gas Regulations* and other applicable guidelines. This process is carried out in direct collaboration with Indian band councils. The directorates assist in providing mineral-information orientation training, placement and counselling services to Indian bands and advise departmental officials and other government agencies on all matters concerning mineral information.

## EDP Systems

- The oil and gas royalty revenue system (Indian Minerals West Office): it records all relevant data used in the calculation of oil and gas royalty revenues due to Indian bands.

## Lands Directorate

This directorate manages the Department's responsibilities under the *Indian Act* for Crown-owned land set aside for the use and benefit of Indian bands, including the fulfillment of treaty obligations, maintenance of the land registry and administration of Indian estates.

## Manuals

- Land Registry Practices Manual

- Indian Estates Manual
- Land Transactions Manual

## Legal Liaison and Support Directorate

This directorate provides a legal liaison and support service to the program and the Department of Justice with respect to litigation brought by or against the Crown involving Indian lands, monies or minerals. A test case funding contribution program is also managed by the Department to provide funds so that important legal issues can be determined by the courts.

## Membership and Statutory Requirements Directorate

This directorate provides for the management and administration of trust responsibilities set out in the *Indian Act* which relate to membership, elections, referenda, by-laws, other statutory obligations and trust funds as well as obligations under existing treaty agreements. The directorate's objective is to fulfill the legal obligations to Indians as required by the *Indian Act* and existing treaties by means of a computerized membership register, statistical tables and data derived from the membership register and Band lists, a computerized statutory requirements information management system, and a computerized trust accounting system.

## Manuals

- Guide for Membership Administrators

## EDP Systems

- Indian membership system: Records information on vital events, e.g., births, deaths, adoptions, marriages, divorces, entered on the Indian Register creating a permanent record of the approved status of all registered Indians and establishing their membership in a particular band. Also records information on the name of the registered individual, the name of his or her band and the band number and/or off-reserve residence.
- Indian demographic statistics (Sub) system: Produces vital statistics and other demographic data from the Indian membership system.
- The trust accounting system (TAS) embraces the following types of trust accounts: capital, revenue, estates, savings, absent or missing heirs/individuals, mental incompetents, guardianship, adopted children, and trust suspense. The administrative and financial functions relative to these accounts are undertaken by regions and monitored by headquarters. Trust accounts fall into three categories: band funds accounts for capital and revenue, individual accounts and the trust suspense accounts.
- The statutory requirements information management system (SRIMS): includes archives information on bands, band councils, band by-laws, elections and election appeals, treaty information, legal opinions index and cross-reference, appointments of commissioners for oaths, and Justices of the Peace. Principle use of this system is the reduction of response time to matters involving dates and time frames related to the processing of band by-laws, elections and election appeals. It also provides for a computerized record of treaty payments entitlement and arrears.

## Office of the Senior Resources Advisor

The Office of the Senior Resources Advisor provides liaison with the Indian Minerals directorates (East and West) and is responsible for policy and program development for mineral responsibilities. Input from both field directorates is co-ordinated through the senior resources advisor's office for on-the-spot information/advice required by the Minister and other senior officials on all mineral resource matters.

## Housing and Band Support Branch

This branch provides assistance for Indians living on reserves by providing housing subsidies for the construction and renovation of units as well as management and technical support and training to bands. Provision exists for the Minister to guarantee housing loans from Canada Mortgage and Housing Corporation (CMHC) or approved lenders, as defined in the *National Housing Act*. Band Support encourages local control of, and accountability for, Indian programs and services. The branch is divided into four directorates: Band Support; Housing; Capital Management; and Indian/Inuit Management Development.

### Band Support Directorate

This directorate encourages local control of, and accountability for, Indian programs and services by promoting the growth of sound local administration to provide bands with increased capacity for the planning and management of their own affairs.

#### Manuals

- Terms and Conditions for Contribution Arrangements
- Local Government Authorities Manual
- Program Circular D-1 on Indian Local Government
- Program Circular D-2 on District Councils
- Program Circular D-4 on Band Operated Local Services
- Program Circular D-5 on Band Employee Benefit Plans

- Program Circular D-6 on Band Support Funding
- Program Circular Appendix D-6-1 on Band Support Funding Operational Guidelines
- Local Government Program Development Manual (British Columbia Region)
- Local Government Finance Manual (British Columbia Region)
- Guidelines for Band Councils (British Columbia Region)

### Housing Directorate

This directorate provides assistance for housing to Indian Bands and individual Indians living on reserves or designated Indian settlements in the form of front-end subsidies, management and technical support and training. The Minister can provide a guarantee for the repayment of housing loans to CMHC and lenders approved under the *National Housing Act*.

#### Manuals

- Program circulars J-1 to J-5 on Indian Housing Programs
- Terms and Conditions Respecting the Housing of Individual Indians on Reserves — P.C. 1980-2753
- Terms and Conditions on Housing Regulations — P.C. 1981-810
- National Housing Act
- Off-Reserve Housing Regulations
- Rental Housing, (British Columbia Region)

- How to Get Project Approvals
- Capital Management Manual
- Classification of Indian Bands by Geographic Zone
- Capital Management Operational and Funding Handbook for the Community Infrastructure and Education Facilities Operations and Maintenance Program

## Indian/Inuit Management Development Directorate

This directorate helps Indian Bands and Inuit communities to improve management and administration by applying generally accepted management practises and community identified standards of service.

#### Manuals

- Program Procedure, Indian/Inuit Management Development Program
- Program Directive, Indian/Inuit Management Development Program

## Education and Social Development Branch

This branch offers a full range of educational services to Indians and Inuit which respond to their needs, and assists Indians and Inuit and their families to obtain access to welfare services and assistance.

This branch is divided into two directorates: Education and Social Development.

### Social Development Directorate

This directorate provides funds for social assistance and related services, funds for administering and purchasing child and family welfare services, and adult care rehabilitation services. Advice and training are provided to assist Indian communities in administering their own services.

#### Manuals

- National Standards for the Social Assistance Program, with Corresponding Regional Manuals
- National Standards for Child Welfare and Adult Care

#### EDP Systems

- Database System: Provides financial information on social assistance, child welfare, adult care and all other social services extended to Indians.
- Management Information System: Provides statistical and financial information on social assistance and welfare services.

### Education Directorate

This directorate ensures that on-reserve Indian children have access to elementary and secondary schooling throughout the ordinary school years; administers kindergartens and supports Indian students in extensive vocational and academic post-secondary education. It operates student residences, administers a boarding home program, provides counselling and it assists cultural education centres.

## EDP Systems

- **Indian Education System:** Records personal statistical information about every Indian student for whom the Department has some responsibility, such as, current grade, age, school attended and reasons for leaving school, thus providing a history of individuals' movements through schools.
- **Continuing Education Information System:** Provides statistical and financial information on Indian students in post secondary institutions receiving educational assistance through the Department.

## Resource, Economic and Employment Development Branch

Branch activities reflect the developmental mandate of the Department of Indian Affairs. By supporting the development of Indian and Inuit individuals, the economy and the community, significant improvements will be made to the quality of these living environments. The elements composing the branch are business, employment and employability development, and community development support and program management, which facilitate and support Indian bands and Inuit communities in their efforts to obtain a greater degree of economic independence, develop a viable economic and employment base and improve the quality of their living environments. The branch is divided into six directorates: Economic Policy and Analysis; Employment and Training; Business Development and Financing; Institutional Development; Resource Development and Manitoba Resource Development Impacts.

### Economic Policy and Analysis Directorate

This directorate develops national policies to promote long-term employment and economic self-reliance of Indian communities.

### Employment and Training Directorate

This directorate co-ordinates and/or delivers a range of job creation initiatives for the employment of Indians and Inuit and supports Indian and Inuit planning to access both on- and off-reserve employment opportunities. The directorate also encourages and supports the efforts of individual Indians and Inuit to acquire and maintain the levels of occupational skills essential to the maintenance of equal opportunities for employment. The directorate achieves its objectives through two distinct functional units, employment and training.

### Business Development and Financing Directorate

This directorate provides Indian and Inuit individuals, bands, communities and organizations engaged in the primary, secondary and tertiary sectors with a source of finance in the form of loans, loan guarantees and contributions; also provides a source of technical and managerial assistance.

### Institutional Development Directorate

This directorate provides a source of financial and technical support for Indian and Inuit communities involved in the establishment and operation of economic development institutions.

### Resource Development Directorate

This directorate helps Indian communities deal with the social, economic and environmental impacts of major industrial and resource development projects, as well as aiding Indian communities in developing their own resource development projects.

## Manitoba Resource Development Impacts Directorate

This directorate provides advice and assistance to Manitoba Indian Bands impacted by major development, primarily related to the Northern Flood and Grand Rapids Forebay Agreements.

## Program Planning and Policy Co-ordination Branch

This branch co-ordinates operational planning in program activities by providing direction to the regions in the development of the operational plan; ensuring program branch activities are consolidated into operational plans, including the development of appropriate monitoring, reviewing and reporting systems; and ensuring that policy developments, federal government agreements and external projects and activities are included in the operational planning process. The branch is also responsible for Indian Art programs and Services, Indian Program Secretariat duties, and it operates the Program Reference Centre in conjunction with other branches in the Indian and Inuit Affairs Program. The branch is divided into four directorates: Policy Co-ordination and Band Government Development; Program and Policy Consultation; Program Planning; and Program Services.

### Policy Co-ordination and Band Government Development Directorate

This directorate develops and co-ordinates self-government policies and initiatives to assist bands and to encourage Indian community-based development. It ensures liaison between the Indian and Inuit Affairs Program and the Corporate Policy Sector in all matters pertaining to revisions of the *Indian Act* and the development of legislation to enable Indians to attain self-government.

### Program and Policy Consultation Directorate

This directorate co-ordinates and monitors non-legislative and non-constitutional initiatives in line with recommendation 13 of the Penner Report on Indian self-government. It serves as clearinghouse, catalyst and expediter as part of the self-government process, and as required, provides services in the research and development of new policy initiatives.

### Program Planning Directorate

This directorate designs and co-ordinates processes in the Indian and Inuit Affairs Program for operational planning, work planning, monitoring and control, and related management practices.

### Program Services Directorate

This directorate manages the Department's extensive Indian Art Collection, including curatorial, acquisition and exhibiting functions, and artist support services; the Program Reference Centre, including genealogical and archival research services and a Documentation Centre; the Program Secretariat functions, for both the department and the program itself, including the co-ordination of the Minister's trips; an independent special project capability supporting the assistant deputy minister and the program, and a monitoring and control function related to specialized program activities in line with self-government (bilateral process) initiatives. The directorate co-ordinates the Directory of Services, the Directives Management System and Demographics Statistics support functions for the program. These areas discuss and negotiate with senior officials of bands and associations, private industries and other government and

# DEPARTMENT OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

departmental agencies. The directorate also provides information co-ordination for the Indian and Inuit Affairs Program on matters related to program wide issues.

## NORTHERN AFFAIRS PROGRAM

The Northern Affairs Program assists the social, cultural, political and economic development of the Yukon and the Northwest Territories, with particular emphasis on the needs of native northerners and the protection of the fragile northern environment. It carries out these responsibilities directly, as well as through the auspices of the governments of the Yukon and the Northwest Territories. Northern Affairs Program activities are directed toward assisting the territorial government (with federal funding support) to provide services to northern residents, to protect and enhance the northern environment and develop northern recreational opportunities; to manage the natural resources of the north and to stimulate economic development and employment opportunities for northern residents; co-ordinating all federal government activities in the two territories; and further developing structures of self-government in the north.

The program consists of three main areas of activity: northern policy and co-ordination; renewable resources and the northern environment; and northern resources and economic planning. The program has regional offices in the Yukon and the Northwest Territories.

Telephone: (403) 668-5151

## Northern Policy and Co-ordination Branch

This branch provides the focus within the Department for inter-departmental efforts to co-ordinate federal and territorial policies and programs affecting Canada's north. It is responsible for policy development and evaluation, northern research and special social, cultural and economic development programs for northern Inuit. The branch is divided into four directorates: Northern Policy; Northern Co-ordination and Social Development; Office of the Science and Research Adviser; and Norman Wells Project.

### Northern Policy Directorate

This directorate examines major selected issues and proposed policy positions relating to the Department's responsibilities regarding northern affairs. It analyzes and advises on broad policy issues and leads study groups for special assignments relating to policy matters.

#### Manuals

- Annual Northern Expenditure Plan Procedures Manual

#### EDP Systems

- Expenditure system: Produces actual forecast and planned expenditures based on budget allocations, transfers received or disbursed, grants and contributions, loans and salaries by agencies operating in the north from the 1973-74 fiscal year to the present.

## Northern Co-ordination and Social Development Directorate

This directorate plans and recommends federal policies for the constitutional development of the Yukon and Northwest Territories. It monitors and analyzes territorial legislation and programs, provides a contact point for the territorial government and develops policies and procedures for federal-territorial fiscal relations. It also provides specialist services in matters of Inuit culture, language, communications, art and business. The directorate is also responsible for the public review of all hydrocarbon transportation projects north of 60°, both by land and sea. As such, it provides the focal point within the Department for the public review of hydrocarbon transportation applications north of 60°.

#### Manuals

- 1972 Pipeline Guidelines

## Office of the Science and Research Advisor

This office is a northern research unit with roles in science support and scientific advice on matters of priority and concern to the Northern Affairs Program.

## Norman Wells Project

A 1981 Cabinet decision cited the Minister of Indian and Northern Affairs as the Minister responsible for co-ordination of regulation, planning and management of the Norman Wells Project. To discharge this responsibility, the Department appointed a Federal Project Co-ordinator in early 1982, operating out of Yellowknife. The co-ordinator promotes co-ordinated project management to reduce regulatory duplications; provides a visible focus for all project participants to air project concerns; monitors and reports on government and industry performance; and facilitates communication channels to all concerned.

## Renewable Resources and Northern Environment Branch

This branch co-ordinates and develops policies, plans and regulations to protect the environment of the Yukon and Northwest Territories and the adjacent offshore regions, and sponsors applied research in this field. It develops the policy framework for environmental assessment of northern development and engineering on the northern environment. It manages land, forest and water resources north of 60°, administers surface rights and environmental regulations for northern Crown lands and controls the use of land and water for hydro power developments of federal lands north of 60°. The branch also administers the Environmental Studies Revolving Fund, which funds necessary environmental and social studies related to oil and gas decision-making on Canadian lands. The branch is divided into four directorates: Northern Environmental Protection; Northern Renewable Resources; Northern Land Use Planning; and the Environmental Studies Revolving Fund.

## Northern Environmental Protection Directorate

This directorate co-ordinates, develops and recommends policies, plans and regulations for environmental protection in the Yukon and Northwest Territories and in adjacent offshore regions. It reviews and assesses major offshore and onshore resource development proposals and engineering undertakings, and makes recommendations for appropriate environmental terms and conditions to be incorporated into departmental permits and licenses. It directs an applied research program and serves as a link between the Northern Affairs Program and the Federal Environmental Assessment and Review Office. A public register of environmentally screened projects, providing an

# DEPARTMENT OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

---

assessment chronology of projects reviewed, is also maintained as part of the implementation of the federal Environmental Assessment and Review Process (EARP) in Northern Development.

## Manuals

- Environmental Screening Guidelines

## Environmental Studies Revolving Fund (ESRF)

The fund supports environmental and social studies directly related to oil and gas exploration or development decision-making on Canadian lands. The fund is one of two created under the *Canada Oil and Gas Act*, Section 49. The fund administered by this Department, as well as the one administered by Energy, Mines and Resources, operates on the basis of priority subjects struck by the Ministers involved and is the product of levies imposed on oil and gas interest owners.

## Manuals

- ESRF Guidelines for Study Proposals
- ESRF Guidelines for Applications for Payment
- ESRF Guidelines for Levies

## Northern Renewable Resources Directorate

This directorate is responsible for the planning, conservation and management of the inland water resources of the Yukon and Northwest Territories and the Arctic sea waters adjacent to the mainland and islands of the Canadian Arctic. It regulates water use and licenses hydro electric power developments on federal lands north of 60°. It is also responsible for the protection, conservation and management of surface rights on Crown lands in the territories. It conducts biophysical land resource inventories, regulates the surface use of land and controls the disposition of granular materials. As well, the directorate is responsible for the protection and management of northern forest resources, including the cutting and removal of timber on territorial lands.

## Manuals

- Fire Management Manual — Northwest Territories
- Fire Management Manual — Yukon Territory
- Territorial Lands Act (Yukon Region)
- Territorial Lands Regulations (pursuant to the Territorial Lands Act) (Yukon Region)
- Territorial Land Use Regulations (pursuant to the Territorial Lands Act) (Yukon Region)
- Territorial Timber Regulations (pursuant to the Territorial Lands Act) (Yukon Region)
- Yukon Forest Protection Ordinance (Yukon Region)
- Northern Inland and Waters Act and Regulations (Yukon Region)

## EDP Systems

- Land transaction system: Contains information on land disposition, including leases, sales agreements, permits and reserve lands.

## Northern Land Use Planning Directorate

The directorate implements the land use planning program, provides the secretariat support to the Policy Advisory Committee that provides advice to the Minister on the operation of the program, and offers functional support to the planning offices responsible for the conduct of planning in the Yukon and Northwest Territories. The Land Use Planning Program will incorporate a comprehensive program of regional land use planning to provide for the conservation, development and utilization of both the onshore and offshore components of land and its resources, as well as social, economic and political considerations.

## Northern Resources and Economic Planning Branch

This branch manages the proprietary interests of the federal government in non-renewable resources (including minerals) north of 60°; develops policies and programs for the northern transportation infrastructure; reviews and advises on northern development strategies, policies and plans; develops statistical data and analyses for northern economic planning activities; formulates and co-ordinates plans for particular concerns in the north and implements, in co-operation with the territorial governments, programs to provide equality of opportunity for northern residents. The branch is divided into three directorates: Northern Economic Planning; Mining Management and Infrastructure; and Oil and Gas Management and Major Projects.

The branch also includes the Northern Oil and Gas Action Program (NOGAP) Secretariat.

## Northern Economic Planning Directorate

This directorate directs and advises on formulation of economic development policies and strategies for the north; advises on energy policies and administers energy programs in the north; directs economic and financial analysis of resource development projects; advises on initiatives relating to the development of the native economy; administers a comprehensive data management program that collects, compiles and interprets socioeconomic information pertaining to the northern territories; provides statistical analyses; directs and advises on programs of economic development agreements with the territorial governments to promote economic development; and directs and advises on socioeconomic agreements with the mining and petroleum industries to increase benefits to northern native people while minimizing negative impacts.

## Mining Management and Infrastructure Directorate

The directorate is similar to provincial Mines and Transportation departments. The directorate formulates policies; drafts legislation and regulations to promote orderly management and development of mineral resources in the Northwest Territories and Yukon; assesses the technical, economic, financial and social impacts of mineral projects, and liaises with the mining industry and other interested parties. It formulates transportation and communication policies; develops programs; and assesses transportation needs including roads, airstrips, railways and marine facilities, in support of economic development in the north. The directorate provides functional direction to the Department's regional offices and to senior departmental, inter-departmental and territorial officials, as well as to the mineral industry, labour and native organizations, on all mineral related matters; and carries out mining administration functions.

## Manuals

- Yukon Quartz Mining Act
- Canada Mining Regulations
- Yukon Placer Mining Act
- Territorial Lands Act and Regulations
- Northwest Territories Resource Development Policy
- Granular Materials Off-shore Pricing Policy
- Territorial Coal Regulations (pursuant to the Territorial Lands Act)
- Territorial Dredging Regulations (pursuant to the Territorial Lands Act)
- Territorial Mining Safety Ordinance and Regulations (Yukon Region)
- Territorial Blasting Ordinance and Regulations (Yukon Region)

# DEPARTMENT OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

## Oil and Gas Management and Major Projects Directorate

This directorate manages northern oil and gas resources of the Yukon and Northwest Territories through co-ordination with the Canada Oil and Gas Lands Administration (COGLA). It ensures that northern policy objectives and concerns continue to be met and promotes and encourages the orderly exploration, development and conservation of the hydrocarbon and other mineral resources of the north, through the development and implementation of policies, programs, legislation and regulations, including the co-ordination of government activities relating to major development projects.

The directorate is also responsible for the management and administration of the Norman Wells oil field under the 1944 Proven Area agreement.

## Northern Oil and Gas Action Program Secretariat (NOGAP)

The secretariat is responsible for the overall management and co-ordination of the Northern Oil and Gas Action Program among seven federal departments and the territorial governments. NOGAP is a seven year (1984/85 to 1990/91) research and planning program to prepare the federal and territorial governments for major hydrocarbon development north of 60° by 1991.

## Northern Regulatory Review Group

This group reviews current northern regulatory and approval processes, and recommends improvements to the co-ordination of policies and regulations north of 60°.

## Canada Oil and Gas Lands Administration (COGLA)

The Canada Oil and Gas Lands Administration (COGLA) has been established to administer the federal regulation of oil and gas exploration and development on Canadian land. It is the principal point of contact for proponents respecting operational matters. COGLA, on behalf of the Minister, negotiates exploration agreements, grants permits for drilling work, inspects drilling operations and negotiates related Canadian benefits plans for northern activity. The administrator of COGLA reports to the deputy ministers of Energy Mines and Resources and Indian Affairs and Northern Development. Policy direction is provided by the Policy Review Committee, which includes senior personnel from both departments thereby ensuring that oil and gas administration is consistent with both northern and energy policies.

General information on COGLA may be obtained in person, by telephone or in writing from the following:

Administrator  
Canada Oil and Gas Lands Administration  
Department of Indian Affairs and Northern Development  
Tower B, 355 River Road  
Ottawa, Ontario  
K1A 0E4  
Telephone: (613) 993-3760

## EDP Systems

- Oil and gas, land use and land accounting system: A large and complex system which maintains records of oil and gas land rights and associated financial information on the issuing of rights for oil and gas exploration and development in the north.
- Oil and gas operations system: Contains geological well data,

technical report data and financial information on northern projects identified by lease or permit number.

- Oil and gas velocity analysis system: Contains seismic shot point data and analyses of velocity trends, thus providing the capability for determining optimum locations for drilling wells.
- Oil and gas engineering and geological well data system: A system which maintains engineering and production data for approximately one thousand oil and gas wells in the north.

## OFFICE OF NATIVE CLAIMS

The office was established within the Department in 1974 to deal with the increasing number of native claims being presented to the federal government. The claims are described as either specific or comprehensive. Specific claims are based on grievances that Indian people might have about the federal government's past administration of Indian lands and other assets under the various Acts affecting Indians and reserve lands, and about the government's fulfillment or interpretation of the Indian treaties. Comprehensive claims are based on grievances of Indians, Inuit and Métis pertaining to the loss of their traditional use and occupancy of lands in those parts of Canada where any native rights based on such traditional use and occupancy have not been extinguished by treaty or superseded by law.

The office represents the Minister and the federal government as the focal point for both specific and comprehensive claims negotiations with native groups across the country. It also reviews claims that have been presented to the government, in order to identify and analyze the legal, historical and factual elements relating to the claims.

## ADMINISTRATION

Administration is responsible for the provision of policy and direction and central advisory and administrative services to the Indian and Inuit Affairs Program, the Northern Affairs Program, the Corporate Policy Group and the Office of Native Claims. In terms of the Department's internal organization, it comprises Finance and Professional Services, Communications Branch, and the Personnel Branch.

## Finance and Professional Services

Finance and Professional Services is responsible for the development, management, operation and maintenance of the Department's resource planning and allocation mechanisms and related financial administration systems; the provision of all departmental automated data processing services; the management of the Department's Improvement Management Practices Accountability and Control (IMPAC) initiatives and assistance to departmental management to promote and encourage the use of sound management practices, processes and systems; the provision of a range of technical and contract services relating to such matters, capital construction projects, the maintenance of capital assets and contract administration; the conduct of functional and management reviews and special audits.

The following branches make up the program: Finance, Management Services, Technical Services and Contracts, Management Practices and Departmental Audit.

## Finance Branch

This branch is responsible for resource planning, resource utilization and accounting operations within the Department. Its functions include the development and implementation of resourcing and accounting policies, systems and procedures; advice to senior management and regional financial staff on all financial matters; the operation and maintenance of financial systems; and the provision of financial management training.

# DEPARTMENT OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

---

## EDP Systems

- Band service profile system: Provides grants and contributions information on the extent to which Indian bands, associations, tribal and district council, agencies are responsible for managing the delivery of services to Indian communities.
- Budgetary control system: Contains all requisite financial information (budget and cash allotments and expenditures) to identify the balance for any specific departmental function or project.
- Centralized bank account system: Contains financial information on emergency purchases by the Department e.g. welfare cheques, casual salaries to workers in remote locations.
- Expenditure accounting system: Contains expenditure data from the budget control system and provides a wide range of reports for management.
- Energy purchases data capture reporting system: Contains financial information on energy purchased versus energy consumed.
- Loan accounting system: Contains financial information related to direct loans programs administered by the Department and provides a range of regular and ad hoc reports.
- Machine readable interface system: Contains expenditure transaction information compiled for the budget control system and Supply and Services Canada systems (e.g. payment, journal vouchers, receipts).
- Oil and gas royalty and revenue system: Contains financial information on oil and gas royalties collected by the Department on behalf of Indian bands.
- Person-year control system: Contains information on departmental person-year allocation and related budget.
- Project accounting system: Provides financial and project status information on capital projects.
- Supply and Services Canada/expenditure accounting system and reconciliation sub-system: Contains coded financial information from the departmental expenditure accounting system and financial systems of Supply and Services Canada.
- Trust Accounting System: Contains financial and administrative information on a number of trust accounts managed by the Department on behalf of Indian bands and individuals.

## Manuals

- Financial Management Manuals (Series I to III)

## Management Services Branch

The branch is mandated to develop the tools — and to provide assistance to managers — that will provide more effective and efficient management. It also provides the Department's central administrative services, information systems and data processing services.

## EDP Systems

- Automated distribution account system: contains an inventory of all equipment and furniture within the Department.
- Infotheque data storage and retrieval system: contains textual information in any form with a retrieval capability (based on key words).
- Materiel management inventory system: contains an inventory of departmental forms and publications used by the Department.
- Information services inventory system: contains an inventory listing of the 2,000 (plus) departmental publications.

## Technical Services and Contracts Branch

This branch is responsible for the technical planning, design, procurement, project management, technical operation, maintenance

and contracting for real property facilities and other capital assets, by developing policies, standards, guidelines and systems related to these responsibilities. It provides technical advisory services, implements capital projects, fire protection and prevention, construction safety, and management of national programs with a high technical content. The branch is divided into three directorates: Professional Services; Contract Policy and Services Directorate; and Technical Services Directorate.

## Manuals

- DRM 10-7 — Engineering, Architecture and Contracts Manual (established by D/D-6)
- DRM 10-3 — Contracts Manual

## Professional Services Directorate

This directorate is responsible for the provision of professional/technical services, including advisory services in the fields of engineering, architecture, landscape architecture and other technical support fields which are inherent in the planning, design, construction, technical operation and maintenance of all departmental physical facilities and implementation of technical systems.

## Manuals

- Property for School Facilities on Indian Reserves (British Columbia Region)
- Minister's Responsibility Construction Activities on Indian Reserves and Lands (British Columbia Region)
- Terms of Reference to Project Officer (British Columbia Region)
- Guideline for Project Completion Report DRM 10-7/42.7 (British Columbia Region)

## Contract Policy and Services Directorate

This directorate is responsible for the provision of operational and advisory services related to the development and delivery of the contracting process, including such activities as tender call, requests for proposals, review of responses, contract awards, claims, disputes and contract administration covering construction, consulting and non-consulting contracts.

## Technical Services Directorate

This directorate is responsible for the provision of professional/technical/support services, including advisory services, in the area of project management, technical training of departmental and Indian band staff, fire prevention/protection and construction safety, engineering cost analysis, aerial photography, mapping, promulgation of technical publications and various other technical support services.

## Manuals

- Engineering and Architecture Manual (DRM 10-7)
- Technical Support Documents
- Contracts Manual (DRM 10-3)
- Band and Field Staff Training Materials
- Band/Contract Technical Publications
- Guideline Drawing and Specification System
- Guideline Building Design Program

## Management Practices Branch

The goals of this branch include promoting, fostering and maintaining sound managerial practices, processes and systems within the Department as well as their assessment, development or integration by undertaking projects and special assignments identified by senior management.

# DEPARTMENT OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

---

## Departmental Audit Branch

The branch carries out a systematic review and appraisal of all departmental operations for purposes of advising management as to the efficiency, economy and effectiveness of internal management policies and controls. The branch develops and implements departmental audit policy and program; co-ordinates and executes all departmental audit operations (except Band audits); and co-ordinates and contacts all audit matters emanating from the offices of the Auditor General, Comptroller General and other central agencies.

## Communications Branch

This branch is responsible for promoting a better understanding of the Department's policies and programs to the general public and various special interest groups. It provides advice to the Minister, the deputy minister and senior management, and a full range of communications services to the operating programs. These encompass communications planning; media relations; special events; public enquiries; publications; exhibits; and films. At the same time, the branch is responsible for an internal communications program directed towards departmental employees; defining departmental communications objectives; and developing and maintaining communications standards within the Department.

## Personnel Branch

The main responsibilities of the branch are to advise the deputy minister with regard to the management of the Department's personnel resources; to formulate the personnel administration program in the Department; to develop policies and programs designed to enhance the Department's performance in personnel administration and human resources utilization; to provide support, advice and functional guidance to senior managers and regional personnel officers in relation to the implementation of personnel administration policies, programs and procedures; to monitor and evaluate personnel administration activities within the Department; and to ensure the quality, effectiveness and statutory compliance of the personnel administration services provided to managers throughout the Department. These services include classification, compensation and benefits, employee health and safety; staffing and human resources planning; staff training and development; staff relations; native employment; affirmative action; official languages and employee assistance programs.

## EDP Systems

- Departmental personnel information system: Contains personnel data on all departmental employees with specific focus on positions.
- Senior personnel advisory services (SPAS): contains personnel data on all SM, EX, PE or feeder-level employees with focus on replacement planning.
- Work force adjustment (WFA): contains personnel data on all surplus or laid-off employees with focus on placement.

## Classes of Records

---

INA/CPS-005 *Formerly Identified as:* INA-10

### Policy Development

*Description:* The assessment and the development of policies in an integrated fashion consistent with broad government priorities, departmental objectives and client needs. *Topics:* *Indian Act* revision; national policies on topics such as fisheries, taxation, international issues.

INA/CPS-010 *Formerly Identified as:* INA-20

### Policy Planning

*Description:* Production of departmental strategic planning documents; and Corporate Policy operational plan. *Topics:* Long range policy and management issues; corporate policy operational plan summary.

INA/CPS-015 *Formerly Identified as:* INA-30

### Policy Co-ordination

*Description:* Co-ordination of briefings for the Minister and deputy minister in relation to Parliament, meetings of Cabinet and meetings with other governments. *Topics:* Briefing materials and advice on policy processes within the Department, including interprogram and interdepartmental consultation; also, management documents for use in planning, tracking and participating in policy initiatives in the Department and in other departments.

INA/CPS-020 *Formerly Identified as:* INA-40

### Intergovernmental Affairs

*Description:* Discussion with provincial governments and Indian associations on priority topics of mutual concern to all parties. *Topics:* Consultations, negotiations and agreements between federal and provincial governments and Indian associations on topics such as policing, hunting/fishing rights, environmental and development impacts.

INA/CPS-025 *Formerly Identified as:* INA-45

### Québec Claims Implementation

*Description:* Subject issues include Inuit economic development, training and relocation; Cree/Naskapi relocation, band creation, education, economic development, capital and infrastructure development. *Topics:* Killiniq; Great Whale; Economic development - Inuit; Economic development - Cree/Naskapi; Kawawachikamach; electricity; schools and housing - Inuit; five year plan - Cree Indians; *Creel/Naskapi Act*.

INA/CPS-030 *Formerly Identified as:* NO REFERENCE

### Western Arctic Claims Implementation (New)

*Description:* Subject files pertaining to the registration of the Western Arctic Inuvialuit Final Agreement and to the implementation of the Western Arctic Inuvialuit claims settlement.

INA/CPS-035 *Formerly Identified as:* INA-50

### Evaluation

*Description:* The evaluation of existing departmental programs and the structuring of evaluation criteria for proposed programs. *Topics:* Education, social services, economic and employment development, community services, cultural programs, renewable and non-renewable resources, northern economic development and environmental protection.

INA/CPS-040 *Formerly Identified as:* INA-60

### Research

*Description:* Undertaking and supporting research related to policy and program issues and supporting the claims settlement process. *Topics:* Research grants; research contracts; research projects; studies and surveys; research services and advice on specific historical or claims situations; financial arrangements to enable Indian participation in the federal government's claims resolution and *Indian Act* revision processes.

INA/CPS-045 *Formerly Identified as:* INA-35

### Constitutional Process and Self-Government

*Description:* Subject issues include Indian/Aboriginal self-government, equality, lands and resources, aboriginal title/rights, treaties/treaty rights, funding (constitutional/Indian self-government/framework legislation), discrimination. *Topics:* Committees, procedures and meetings; FMC aboriginal participants; provincial and territorial organizations; native associations; provinces

## DEPARTMENT OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

---

and territories; aboriginal and treaty rights; self-government; land claims; land and resources; service delivery; legal and constitutional issues; briefings.

INA/IIA-050 *Formerly Identified as:* INA-100

### **Oil and Gas**

*Description:* Oil and gas resources on Indian lands. *Topics:* All matters relating to the control, development and management of oil and gas.

INA/IIA-055 *Formerly Identified as:* INA-120

### **Mineral Resources**

*Description:* Mineral resources on Indian lands. *Topics:* The control, development and management of mined metallic and non-metallic minerals, quarried minerals, sand, gravel and groundwater.

INA/IIA-060 *Formerly Identified as:* INA-140

### **Lands**

*Description:* Agreements; individual land holdings and estates; islands; land sales, leases; rights-of-way; surveys; and reserves.

INA/IIA-065 *Formerly Identified as:* INA-160

### **Natural Resources**

*Description:* The control, development and management of natural resources, such as forest and furs; the rights to Indians for fishing, hunting, and trapping.

INA/IIA-070 *Formerly Identified as:* INA-200

### **Indian Band Membership**

*Description:* Contains information and documentation pertaining to the membership of persons in Indian bands under the *Indian Act*. *Topics:* Subjects include determination of the entitlement to claim Indian status, Indian enfranchisement protests, marriage to non-Indians, transfer between bands, legitimization of births and divorces. *Special Access Note:* The name of the band concerned should be included with each request.

INA/IIA-075 *Formerly Identified as:* INA-210

### **Legislation, Policy and Program Development Information**

*Description:* Resource data and relevant federal, provincial and private sector program and policy information which might affect or influence the administration and management of natural resources on Indian lands.

INA/IIA-080 *Formerly Identified as:* INA-220

### **Band Management and Funds**

*Description:* Band local services; legal opinions; Orders-in-Council; Cabinet documents, Treasury Board submissions, contribution arrangements; association support; community based planning, band support funding and band employee benefits. *Topics:* Policy; eligibility; program descriptions; terms and conditions; funding formula/criteria; administrations; and operational guidelines.

INA/IIA-085 *Formerly Identified as:* INA-240

### **Housing**

*Description:* Housing assistance for individual Indians or to Indian band councils. *Topics:* Housing policy; construction or renovations of houses on reserves or designated Indian settlements.

INA/IIA-090 *Formerly Identified as:* INA-260

### **Community Services and Facilities**

*Description:* Community services and facilities for Indian and Inuit communities. *Topics:* Community health and safety needs such as sewers, water, electricity, garbage collection, fire prevention services, road development, and school facilities.

INA/IIA-095 *Formerly Identified as:* INA-280

### **Management Development Training (Revised)**

*Description:* Provides resources and assistance for management development activities to three groups: Indian and Inuit individuals, bands and communities; post-secondary educational institutions; and Indian/Inuit management training institutes. *Topics:* Training; management support and advice; orientation and information dissemination.

INA/IIA-100 *Formerly Identified as:* INA-300

### **Social Development**
